**PART 2: AS-BUILT INSPECTION**

I hereby state that this connection and other access features have been built in accordance with the permit provisions, and that minor deviations (as noted in the attached record drawings) will not prevent the access from functioning in compliance with the requirements of Rule 14-97, F.A.C., or those permit provisions. These determinations have been based upon the site observation of construction, scheduled and conducted by me or by a representative under my direct supervision. All reasonable inspections, tests, and physical measurements have been made to determine this work has been done in accordance with the provisions of the permit and other applicable adopted Department standards.
