Explanation

The following describe the delineation areas with the contamination for which each  
was delineated and for which testing is required under Rule 62-524.600(1) F.A.C.  
Note: (1) Indicates solvent bonded couplings prohibited (62-524.550(2)(b))  
(2) Indicates subsided waterlines. Mandatory connection requirements may apply (62-524.300(2)(5))

The delineation areas on this map represent areas where  
ground water contamination is known to exist as defined  
in chapter 62-524, F.A.C. This does not indicate that  
the areas which are not delineated are necessarily free  
from ground water contamination.
