Mapped, edited, and published by the Geological Survey
Control by USGS 1:250,000
Topography by photogrammetric methods from aerial
photographs taken 1967. Field checked 1970.
Polyconic projection. 1927 North American datum
10,000-foot grids based on Alabama coordinate system, east zone,
and Florida coordinate system, north zone
1000-meter Universal Transverse Mercator grid ticks,
zone 16, shown in blue.
Fine red dashed lines indicate selected fence and field lines where
generally visible on aerial photographs. This information is un-checked.
To place on the predicted North American Datum 1983,
move the projection lines 16 meters south and
7 meters west as shown by dashed corner ticks.

DMA 5946 II SW-SERIES V844

Explanation

The following describe the delineation areas with the contamination for which each was delineated and for which testing is required under Rule 62-524.00(1) F.A.C.
Notes: (1) Indicates solvent bonded couplings prohibited (62-524.550(2)(b))
(2) Indicates subsidized waterlines. Mandatory connection requirements may apply (62-524.300(2)(5))

The delineated areas on this map represent areas where ground water contamination is known to exist as defined in chapter 62-524, F.A.C. This does not indicate that the areas which are not delineated are necessarily free from ground water contamination.

32263744
Ethylene Dibromide
