Explanation
The following describe the delineation areas with the contamination for which each was delineated and for which testing is required under Rule 62-524.600(1) F.A.C.
Note: (1) Indicates solvent bonded couplings prohibited (62-524.550(2)(b))
(2) Indicates subsidized waterlines. Mandatory connection requirements may apply (62-524.300(2)(6))

GEOGRAPHIC INFORMATION SYSTEMS
The delineated areas on this map represent areas where ground water contamination is known to exist as defined in chapter 62-524, F.A.C. This does not indicate areas where the areas which are not delineated are necessarily free from ground water contamination.
