

License Application Alternate-Site Testing

AUTHORITY: Pursuant to subsection 395.0091, Florida Statutes and Rule 59A-3.242, Florida Administrative Code, the director of a hospital clinical laboratory may establish testing locations outside of the physical and administrative confines of the hospital's central laboratory. If performing alternate-site testing, update and attach this form to each hospital renewal application.

1. Provider Information

Complete the following:

Hospital Name:	License Number:	CLIA Number: 10D-
-----------------------	------------------------	-----------------------------

2. Alternate-Site Testing Locations
