

Physician Medical Services Fee Schedule

The fees in the "Base Fee and Base PC Fee" columns below are fees reimbursed for services provided to adults age 21 and over.

For services provided to children under 21, there is a 4% increase over the adult fee. To calculate reimbursement for children's services, multiply the base fee by 1.04. Example: For code 90832, \$32.94 (base fee) X 1.04 = \$34.26.

In addition to the 4% increase noted above, the following physician specialty types receive a 24% increase for services provided to children under 21: 02, 03, 04, 05, 08, 10, 14, 15, 17, 21, 22, 23, 29, 30, 31, 36, 37, 38, 39, 43, 46, 51, 53, 55, 57, 58, 60, 62. To calculate the specialty fee, multiply the base fee by 1.04, as noted above for children, and then multiply that result by 1.24. Example: For code 90832, \$32.94 (base fee) X 1.04 = \$34.26 X 1.24 = \$42.48.

Fees below are rounded to the nearest hundredth.

Reimbursement increases noted above do not apply to the following services: Regional Perinatal Intensive Care Center services (RPICC); injectable medications/immunizations/vaccinations; supplies; devices; and laboratory/pathology services.

Note: The Base PC (Professional Component) Fee represents reimbursement when the procedure is performed in the inpatient hospital, outpatient hospital, emergency department, and ambulatory surgical center settings. These fees are also subject to the 4% or 24% increases in the manner noted above when the service has been furnished to a child under 21.
