

### Immunization Fee Schedule

**Effective January 1, 2018**

Florida Medicaid providers who administer vaccines to Florida Medicaid recipients ages 0 through 20 years, will be required to submit both, the vaccine product Current Procedural Terminology (CPT) code as well as the vaccine administration CPT code on the claim in order to receive reimbursement from Florida Medicaid through the fee-for-service delivery system. A corresponding administration code must be submitted for each vaccine administered during the same visit on the claim form.

Florida Medicaid providers who receive vaccine products through the Vaccine for Children (VFC) Program for recipients ages 0 through 18 years of age are only eligible to receive reimbursement for the administration of the vaccine(s). The vaccine product code will be reimbursed at \$0.00\*, and the vaccine administration code will be reimbursed in accordance with rates established on this fee schedule.

Florida Medicaid providers who administer vaccines to recipients ages 19 and 20 years, must also include both CPT codes on the claim form.

MediKids enrolls children ages one through four years of age. Florida Medicaid providers who administer vaccines to these children are reimbursed for the vaccine products\*\* as they do not receive the products through the VFC Program.

The administration service is reimbursed at 80% of the maximum fee when performed by an advanced registered nurse practitioner or a physician's assistant.\*\*\*
