Please refer to Section 501.913, Florida Statutes, and Rule Chapter 5J-23, F.A.C., for quality and branding specifications. Section 501.916(1)(b), Florida Statutes, provides guidance for the labeling of antifreeze products. A product is mislabeled if it does not bear a label that specifies the name and address of the manufacturer, packager or distributor. Please review all registration requirements to ensure that your product will be processed in a timely manner.

In accordance with Section 501.918, F.S., it is unlawful to distribute any antifreeze in Florida that has not been registered with the Department. The Department will issue and enforce stop sale orders for any antifreeze distributed in violation of Sections 501.91-501.923, F.S., and Rule Chapter 5J-23, F.A.C. The Department may also levy fines for violations of Chapter 501, Part V, Florida Statutes, and/or Rule Chapter 5J-23, F.A.C., up to \$5,000, per violation. The registrant shall assume liability for compliance with the requirements referenced in Chapter 501, Part V, Florida Statutes, and/or Rule Chapter 5J-23, F.A.C.
