Starting January 2014, the Fundamentals of Engineering exam will be offered by NCEES as a Computer Based Test (CBT) only. The exam will now be offered in four (4) distinct testing windows in which an approved Florida candidate can schedule their exam. The windows are: 1) January and February; 2) April and May; 3) July and August; and 4) October and November. Applicants can now attempt the exam up to three (3) times per year and the applicant must be approved by the Florida Board for each exam attempt. **Applications must be received by the Board office at least 45 days prior to the testing window for which the applicant would like to schedule the exam.** Once approved, the applicant will contact NCEES and register for the exam.

The CBT exam will be offered at Pearson VUE Professional centers around the state and the US. An applicant may schedule the exam in Florida, or if more convenient, schedule the exam at any Pearson VUE Professional center that has available seats on the desired date. More information about CBT can be found at www.ncees.org and on our website at www.fbpe.org. You may also view locations of Pearson VUE Professional centers at www.ncees.org and look for the link entitled "Where Will I Take My Exam."

This format change will allow the examinee more flexibility in studying for and scheduling the exam, taking the exam at a time and location most suited to the candidate's needs, and receiving grade notifications within a week of taking the exam.
