Florida Center for Nursing:

The Florida Center for Nursing is the definitive source for information, research, and strategies addressing the dynamic nurse workforce needs in Florida. The Center conducts multiple annual and biennial research projects, including nurse employer and nursing program surveys, to provide a comprehensive look at Florida's nurse population.

Based on this research, the Center projects a severe nursing shortage in Florida – a shortage that could have a devastating impact on health care quality and access for Florida's residents. The Florida Center for Nursing also uses the research it produces to address issues of supply and demand and utilization of scarce nurse workforce resources throughout the state.

In addition to nurse workforce research, the Florida Center for Nursing aims to improve the retention and recruitment of nurses in Florida through funding small grants and also by collecting and disseminating information on best practices and innovative strategies for nurse retention and recruitment. Increasing production of new nurses alone will not resolve the shortage. Efforts must be taken to retain the experiential knowledge of our existing nurses.

To learn more about Florida's nursing shortage and suggested solutions, for more information about the Center, and to understand how your contribution will be put to work, please visit the Center's website at: http://www.flcenterfornursing.org/Donations/HowyourdonationshelptheFCN.aspx
