Requirement:	
Honors?	Yes
Version Description:	Students lead a focused investigation of a subject matter from ideation to completion. Students select a theme, develop a concept, and prepare the work for public viewing, portfolio, distribution, and/or exhibit. This course may include, but is not limited to, research, collaboration, installation, history of photography, making connections to contemporary and community photographers, and critiquing with varied techniques. Processes, techniques, and media may include, but are not limited to, video, film, high speed photography, studio lighting, flash, long exposure, formal portraiture, large format, HDR, RAW processing, and digital output on a variety of media, including non-traditional materials. Craftsmanship and quality are reflected in the surface of the print, care of the materials, attention to compositional conventions, the display setting, and expression of ideas and feelings. Photographers use an art criticism process to evaluate, explain, and measure artistic growth in personal or group works. This course incorporates hands-on activities and consumption of art materials.
General Notes:	Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Version Description:	Students explore the fundamental concepts, terminology, techniques, and applications of digital imaging to create original work. Students produce digital still images through the single or combined use of computers, digital cameras, scanners, photo editing software, drawing and painting software, graphic tablets, printers, new media, and emerging technologies. Through the critique process, students evaluate and respond to their own work and that of their peers to measure artistic growth. This course incorporates hands-on activities, the use of technology, and consumption of art materials.

<p>Version Description:</p>	<p>Students explore advanced topics through project-based work, becoming more self-directed in their acquisition and use of concepts, terminology, techniques, and applications to design, create, print, and display original two-dimensional graphic and fine works of art in print and web formats. As they become more adept at using the tools and techniques available to them, students design and produce digital still images through the single or combined use of computers, digital cameras, scanners, photo editing software, drawing and painting software, graphic tablets, printers, new media, and emerging technologies. Through the critique process, students evaluate and respond to their own designs and images and those of their peers to measure artistic growth with increasing sophistication and independence to promote risk-taking in the completion of conceptually based, self-directed work. This course incorporates hands-on activities, the use of technology, and consumption of art materials.</p>
<p>General Notes:</p>	<p>Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.</p>

Version Description:	<p>Students work in a self-directed environment to develop a portfolio showing a body of their own work that visually explores a particular artistic concern, articulated and supported by a written artist's statement. Artists may work in, but are not limited to, content in drawing, painting, printmaking, and/or mixed media that emphasizes line quality, rendering of form, composition, surface manipulation, and/or illusion of depth. Students regularly reflect on aesthetics and art issues individually and as a group, and focus on expressive content that is progressively more innovative and representative of the student's artistic and cognitive growth. In keeping with the rigor expected in an accelerated setting, students' portfolios show personal vision and artistic growth over time, mastery of visual art skills and techniques, and evidence of sophisticated analytical and problem-solving skills based on their structural, historical, and cultural knowledge. Students are self-directed and display readiness for high levels of critical thinking, research, conceptual thinking, and creative risk-taking. Graduation Requirement:	•PF Performing Fine Arts
Version Description:	<p>Students work in a self-directed environment to develop a portfolio showing a body of their own work that visually explores a particular artistic concern, articulated and supported by a written artist's statement. Artists may work in, but are not limited to, content in clay, wood, wire, glass, metal, jewelry, fabrics/fibers, fashion design, green design, industrial design, and/or objects for interior design or architecture that integrate 3-dimensional design issues in a purposeful way. Students regularly reflect on aesthetics and art issues individually and as a group, and manipulate the structural elements of art and organizational principles of design to create 3-dimensional works of art that are progressively more innovative and representative of the student's artistic and cognitive growth. In keeping with the rigor expected in an accelerated setting, students' portfolios show personal vision and artistic growth over time, mastery of visual art skills and techniques, and evidence of sophisticated analytical and problem-solving skills based on their structural, historical, and cultural knowledge. Students are self-directed and display readiness for high levels of critical thinking, research, conceptual thinking, and creative risk-taking. This course incorporates hands-on activities and consumption of art materials.</p>
General Notes:	<p>Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.</p>

Course Title: Printmaking 1

Course Section: Grades PreK to 12 Education Courses

Abbreviated Title: PRINTMG 1

Number of Credits: 1.0

Course Length: Year

Course Level: 2

Course Status: DRAFT - State Board approval pending

Graduation Requirements: PF

Course Description: Students experiment with the media and techniques used to create a variety of two-dimensional (2-D) artworks through the development of skills in printmaking. Media may include, but are not limited to intaglio, lithography, relief printing, and wood block printing. Students practice, and manipulate the structural elements of art to improve mark making and/or the organizational principles of design in a composition from observation, research, and/or imagination. Through the critique process, students evaluate and respond to their own work and that of their peers. This course incorporates hands-on activities and consumption of art materials.

Benchmarks:

- VA.912.C.1.4 Apply art knowledge and contextual information to analyze how content and ideas are used in works of art.
- VA.912.C.1.6 Identify rationale for aesthetic choices in recording visual media.
- VA.912.C.2.1 Examine and revise artwork throughout the art-making process to refine work and achieve artistic objective.
- VA.912.C.2.4 Classify artworks, using accurate art vocabulary and knowledge of art history to identify and categorize movements, styles, techniques, and materials.
- VA.912.C.3.1 Use descriptive terms and varied approaches in art analysis to explain the meaning or purpose of an artwork.
- VA.912.C.3.5 Make connections between timelines in other content areas and timelines in the visual arts.
- VA.912.C.3.6 Discuss how the aesthetics of artwork and utilitarian objects have changed over time.
- VA.912.S.1.3 Interpret and reflect on cultural and historical events to create art.
- VA.912.S.1.4 Demonstrate effective and accurate use of art vocabulary throughout the art-making process.
- VA.912.S.2.2 Focus on visual information and processes to complete the artistic concept.
- VA.912.S.2.5 Demonstrate use of perceptual, observational, and compositional skills to produce representational, figurative, or abstract imagery.
- VA.912.S.2.6 Incorporate skills, concepts, and media to create images from ideation to resolution.
- VA.912.S.3.3 Review, discuss, and demonstrate the proper applications and safety procedures to use hazardous chemicals and equipment during the art-making process.
- VA.912.S.3.4 Demonstrate personal responsibility, ethics, and integrity, including respect for intellectual property, when accessing information and creating works of art.
- VA.912.S.3.7 Use and maintain tools and equipment to facilitate the creative process.
- VA.912.S.3.8 Develop color-mixing skills and techniques through application of the principles of heat properties and color and light theory.

VA.912.S.3.10	Develop skill in sketching and mark-making to plan, execute, and construct two-dimensional images or three-dimensional models.
VA.912.O.1.1	Use the structural elements of art and the organizational principles of design in works of art to establish an interpretive and technical foundation for visual coherence. The structural rules and conventions of an art form serve as both a foundation and departure point for creativity.
VA.912.O.2.2	Solve aesthetic problems, through convergent and divergent thinking, to gain new perspectives.
VA.912.O.3.1	Create works of art that include symbolism, personal experiences, or philosophical view to communicate with an audience.
VA.912.H.1.2	Analyze the various functions of audience etiquette to formulate guidelines for conduct in different art venues.
VA.912.H.1.5	Investigate the use of technology and media design to reflect creative trends in visual culture.
VA.912.H.1.9	Describe the significance of major artists, architects, or masterworks to understand their historical influences.
VA.912.H.2.1	Identify transitions in art media, technique, and focus to explain how technology has changed art throughout history.
VA.912.H.3.2	Apply the critical-thinking and problem-solving skills used in art to develop creative solutions for real-life issues.
VA.912.F.1.3	Demonstrate flexibility and adaptability throughout the innovation process to focus and re-focus on an idea, deliberately delaying closure to promote creative risk-taking.
VA.912.F.2.1	Examine career opportunities in the visual arts to determine requisite skills, qualifications, supply-and-demand, market location, and potential earnings.
VA.912.F.3.4	Follow directions and use effective time-management skills to complete the art-making process and show development of 21st-century skills.

Additional Required Benchmarks:

LAFS.910.SL.1	Comprehension and Collaboration
LAFS.910.SL.1.1	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.
LAFS.910.SL.1.2	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3	Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2	Presentation of Knowledge and Ideas
LAFS.910.SL.2.4	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.RST.1	Key Ideas and Details
LAFS.910.RST.1.3	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks attending to special cases or exceptions

Course Description: Students explore how space, mass, balance, and form combine to create aesthetic forms or utilitarian products and structures. Media may include, but are not limited to, clay, wood, plaster, and paper maché with consideration of the workability, durability, cost, and toxicity of the media used. Student artists consider the relationship of scale (i.e., hand-held, human, monumental) through the use of positive and negative space or voids, volume, visual weight, and gravity to create low/high relief or freestanding structures for personal intentions or public places. They explore sharp and diminishing detail, size, position, overlapping, visual pattern, texture, implied line, space, and plasticity, reflecting craftsmanship and quality in the surface and structural qualities of the completed art forms. Students in the sculpture studio focus on use of safety procedures for process, media, and techniques. Student artists use an art criticism process to evaluate, explain, and measure artistic growth in personal or group works. This course incorporates hands-on activities and consumption of art materials.

Course Description: Students explore spatial relationships through the use of nonobjective, abstract, or representational forms, products, or structures. Media may include, but are not limited to, clay, wood, metal, plaster, paper maché, and plastic with consideration of the workability, durability, cost, and toxicity of the media used. Sculpture artists experiment with and manipulate space-producing devices, including overlapping, transparency, interpenetration, vertical and horizontal axis, inclined planes, disproportionate scale, fractional or abstracted representation, and spatial properties of the structural art elements. Craftsmanship and quality are reflected in the surface and structural qualities of the completed art forms. Course Description: Students communicate a sense of 4-D, motion, and/or time, based on creative use of spatial relationships and innovative treatment of space and its components. Students address 4-D, the inter-relatedness of art and context, and may also include installation or collaborative works, virtual realities, light as a medium (i.e., natural, artificial, or reflective), or flexible, entered, or activated space. Sculpture artists experiment with processes, techniques, and media. Craftsmanship and quality are reflected in the surface and structural qualities of the completed art forms. Students in the sculpture studio focus on use of safety procedures for process, media, and techniques. Student artists use an art criticism process to evaluate, explain, and measure artistic growth in personal or group works. This course incorporates hands-on activities and consumption of art materials.

Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Benchmarks:

Requirement:	
Version Description:	<p>In this course the students will study an introduction to the theory, history, principles and practice of architecture. Students will explore design, space and materials as they relate to architecture and will create architectural designs that demonstrate an alignment of space, structure, function and feasibility. Emphasis of this course will be on developing skills in design, drawing, creating architectural models, and creating prospectus statements and reflection writing. Instruction may include green building and construction, computer assisted drawing, and safety procedures for creating and building models and structures. This course encompasses design, drawing, hands-on construction and art criticism and evaluation.</p>
General Notes:	<p>Instructional Practices</p> <p>Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:</p> <ol style="list-style-type: none"> 1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex. 2. Making close reading and rereading of texts central to lessons. 3. Asking high-level, text specific questions and requiring high-level, complex tasks and assignments. 4. Requiring students to support answers with evidence from the text. 5. Providing extensive text-based research and writing opportunities (claims and evidence).

Version Description:	<p>Students demonstrate proficiency in the conceptual development of content in drawing, painting, printmaking, collage, and/or design to create self-directed or collaborative 2-D artwork suitable for inclusion in a portfolio. Students produce works that show evidence of developing craftsmanship and quality in the composition. Through the critique process, students evaluate and respond to their own work and that of their peers. Through a focused investigation of traditional techniques, historical and cultural models, and individual expressive goals, students begin to develop a personal art style. This course incorporates hands-on activities and consumption of art materials. In addition, the purpose of this Pre-IB course is to prepare students for the International Baccalaureate Diploma Programme (DP). As such, this course will provide academic rigor and relevance through a comprehensive curriculum based on the Next Generation Sunshine State Standards and Common Core State Standards taught with reference to the unique facets of the IB. These facets include interrelatedness of subject areas, a holistic view of knowledge, intercultural awareness, embracing international issues, and communication as fundamental to learning. Instructional design must provide students with values and opportunities that enable them to develop respect for others and an appreciation of similarities and differences. Learning how to learn and how to critically evaluate information is as important as the content of the disciplines themselves.</p>
General Notes:	<p><i>Pre-IB courses have been created by individual schools or school districts since before the MYP started. These courses mapped backwards the Diploma Programme (DP) to prepare students as early as age 14. The IB was never involved in creating or approving these courses. The IB acknowledges that it is important for students to receive preparation for taking part in the DP, and that preparation is the MYP. The IB designed the MYP to address the whole child, which, as a result, has a very different philosophical approach that aims at educating all students aged 11-16. Pre-IB courses usually deal with content, with less emphasis upon the needs of the whole child or the affective domain than the MYP. Version Description:	<p>Students communicate a sense of 4-D, motion, and/or time, based on creative use of spatial relationships and innovative treatment of space and its components. Instruction may include, but is not limited to, content in green or industrial design, sculpture, ceramics, or building arts. Students address 4-D, the inter-relatedness of art and context, and may also include installation or collaborative works, virtual realities, light as a medium (i.e., natural, artificial, or reflective), or flexible, entered, or activated space. Other concepts for exploration include tension, compression or expansion, intrusions or extrusions, grouping, proximity, containment, closure, contradiction, and continuity. 3-D artists experiment with processes, techniques, and media, which may include, but are not limited to, creating maquettes, casting and kiln-firing techniques, stone carving, mold making, or working with glass, cement, PVC piping, or structures scaled to human existence. Craftsmanship and quality are reflected in the surface and structural qualities of the completed art forms. Students in the 3-D art studio focus on use of safety procedures for process, media, and techniques. Student artists use an art criticism process to evaluate, explain, and measure artistic growth in personal or group works. This course incorporates hands-on activities and consumption of art materials. Students may use timelines to guide their study of art history, dance history, and technology, or they may investigate dance customs globally and in real time using technology and the community's cultural resources. Inquiry may include, but is not limited to, political and social influences, traditional and non-traditional attire, and the use of associated objects in various cultural dances. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, purchase) appropriate footwear and/or dance attire from an outside source.</p>

Honors?	Yes
Version Description:	Students in this year-long, intermediate-level course, designed for dancers who have mastered the basics in two or more dance forms, build technical and creative skills with a focus on developing the aesthetic quality of movement in the ensemble and as an individual.
General Notes:	<p>Special Note: Two or more forms, genres, styles, or techniques of dance (e.g., modern, ballet, jazz, folk, tap, hip-hop, ballroom) must be addressed in this course; aerobics instruction is not suitable for this course. This course may require students to participate in extra rehearsals and performances beyond the school day.</p> <p>Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.</p>

STANDARDS (67)

In addition to the listed benchmarks and standards, the following mathematical practices are required content:

- MAFS.K12.MP.5.1: Use appropriate tools strategically.
- MAFS.K12.MP.6.1: Attend to precision.
- MAFS.K12.MP.7.1: Look for and make use of structure.

Requirement:	
Version Description:	In this course, students of upright or seated mobility study dance as an art form in a manner that focuses on dancers' abilities and challenges preconceptions about mobility-related "disabilities." Dancers work collaboratively to adapt physically rigorous dance techniques to fit their own and others' personal mobilities. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, purchase) appropriate footwear and/or dance attire from an outside source.

STANDARDS (55)

In addition to the listed benchmarks and standards, the following mathematical practices are required content:

- MAFS.K12.MP.5.1: Use appropriate tools strategically.
- MAFS.K12.MP.6.1: Attend to precision.
- MAFS.K12.MP.7.1: Look for and make use of structure.

In addition to the listed benchmarks and standards, the following clusters and Language Arts standards are required content:

LAFS.910.SL.1.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and

<u>DA.912.C.1.1:</u>	Research and reflect on historically significant and/or exemplary works of dance as inspiration for creating with artistic intent.
<u>DA.912.C.1.2:</u>	Apply replication, physical rehearsal, and cognitive rehearsal to aid in the mental and physical retention of patterns, complex steps, and sequences performed by another dancer. Remarks/Examples

Version Description:

Students are challenged in their application of classical dance techniques and terminology associated with the traditional class structure of ballet. Students may have an opportunity to explore contemporary ballet concepts of movement, as well. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, purchase) appropriate footwear and/or dance attire from an outside source.

Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Graduation Requirement:	•PF Performing Fine Arts
Version Description:	Students explore key concepts of dance making with a focus on improvisation, composition, and choreographic processes and principles. Students study the works and creative techniques of highly respected choreographers in varied performance genres. They also examine the social, political, and cultural forces that influenced significant or exemplary works, and consider the innovations that came out of them. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, purchase) appropriate footwear and/or dance attire from an outside source.

STANDARDS (52)

In addition to the listed benchmarks and standards, the following mathematical practices are required content:

- MAFS.K12.MP.5.1: Use appropriate tools strategically.
- MAFS.K12.MP.6.1: Attend to precision.
- MAFS.K12.MP.7.1: Look for and make use of structure.

In addition to the listed benchmarks and standards, the following clusters and Language Arts standards are required content:

LAFS.1112.SL.1.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

Graduation Requirement:	•PF Performing Fine Arts
Honors?	Yes
Version Description:	Students explore key concepts of designing dance works with a focus on improvisation, composition, and choreographic processes and principles. Students study the works and creative techniques of highly respected choreographers in varied performance genres as guidance and a source of inspiration. They also examine the social, political, and cultural forces that influenced their works, and consider the innovations that came out of them. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, purchase) appropriate footwear and/or dance attire from an outside source.
General Notes:	<p>Special Note: Two or more forms, genres, styles, or techniques of dance (e.g., modern, ballet, jazz, folk, tap, hip-hop, ballroom) must be addressed in this course; aerobics instruction is not suitable for this course. This course may require students to participate in extra rehearsals and performances beyond the school day.</p> <p>Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.</p>

Honors?	Yes
Version Description:	<p>Students study the historical works of professional choreographers in one or more genres, learning to understand, apply, and respect each choreographer's movement design, artistic intent, and intellectual property. Students expand on Narrative, Literal, Non-Literal and Abstract dance, refining skills for group and self-assessment, analysis, and problem solving. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, purchase) appropriate footwear and/or dance attire from an outside source.</p>
General Notes:	<p>Special Note: Two or more forms, genres, styles, or techniques of dance (e.g., modern, ballet, jazz, folk, tap, hip-hop, ballroom) must be addressed in this course; aerobics instruction is not suitable for this course. This course may require students to participate in extra rehearsals and performances beyond the school day.</p> <p>Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.</p>

Requirement:	
Honors?	Yes
Version Description:	Students study the global origins, influences of dance forms, styles, and choreographers in dance History prior to the 20th century, researching the political, social, and ethnic influences of these early dance periods. Students analyze, assess, discuss, and write about dance performances. Public performances may serve as a resource for specific instructional goals. Students may be expected to attend one or more performances outside the school day to support, extend, and assess learning in the classroom.
General Notes:	Honors and Advanced Level Course Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Version Description:	Students study the science of movement as it relates to the specific needs of the dancer. Units of instruction may include, but are not limited to, the introduction to kinesiology with the understanding of the body (anatomy and physiology), through personal fitness conditioning (emphasis on yoga, Pilates), fitness concepts and techniques, cardiorespiratory endurance training and nutrition. Public performances may serve as a resource for specific instructional goals. Students may be expected to attend one or more performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, purchase) appropriate footwear and/or dance attire from an outside source.

Requirement:	
Version Description:	Students will acquire skills and knowledge related to kinesiology, physiology, anatomy, movement science, dance medicine, dance therapy and bodywork. Public performances may serve as a resource for specific instructional goals. Students may be expected to attend one or more performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, purchase) appropriate footwear and/or dance attire from an outside source.

STANDARDS (36)

In addition to the listed benchmarks and standards, the following mathematical practices are required content:

- MAFS.K12.MP.5.1: Use appropriate tools strategically.
- MAFS.K12.MP.6.1: Attend to precision.
- MAFS.K12.MP.7.1: Look for and make use of structure.

In addition to the listed benchmarks and standards, the following clusters and Language Arts standards are required content:

LAFS.1112.SL.1.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

Version Description:	<p>Students in this Pre-IB course, designed for dancers who have mastered the basics in two or more dance forms, builds technical and creative skills with a focus on developing the aesthetic quality of movement in the ensemble and as an individual. In addition, the purpose of this Pre-IB course is to prepare students for the International Baccalaureate Diploma Programme (DP). As such, this course will provide academic rigor and relevance through a comprehensive curriculum based on the Next Generation Sunshine State Standards and Common Core State Standards taught with reference to the unique facets of the IB. These facets include interrelatedness of subject areas, a holistic view of knowledge, intercultural awareness, embracing international issues, and communication as fundamental to learning. Instructional design must provide students with values and opportunities that enable them to develop respect for others and an appreciation of similarities and differences. Learning how to learn and how to critically evaluate information is as important as the content of the disciplines themselves.</p>
General Notes:	<p>Special Notes: Two or more forms, genres, styles, or techniques of dance (e.g., modern, ballet, jazz, folk, tap, hip-hop, ballroom) must be addressed in this course; aerobics instruction is not suitable for this course. This course may require students to participate in extra rehearsals and performances beyond the school day.</p> <p><i>Pre-IB courses have been created by individual schools or school districts since before the MYP started. These courses mapped backwards the Diploma Programme (DP) to prepare students as early as age 14. The IB was never involved in creating or approving these courses. The IB acknowledges that it is important for students to receive preparation for taking part in the DP, and that preparation is the MYP. The IB designed the MYP to address the whole child, which, as a result, has a very different philosophical approach that aims at educating all students aged 11-16. Pre-IB courses usually deal with content, with less emphasis upon the needs of the whole child or the affective domain than the MYP. A school can have a course that it calls "pre-IB" as long as it makes it clear that the course and any</i></p>

STANDARDS (67)

In addition to the listed benchmarks and standards, the following mathematical practices are required content:

- MAFS.K12.MP.5.1: Use appropriate tools strategically.
- MAFS.K12.MP.6.1: Attend to precision.
- MAFS.K12.MP.7.1: Look for and make use of structure.

In addition to the listed benchmarks and standards, the following clusters and Language Arts standards are required content:

LAFS.1112.SL.1.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

DA.912.C.1.2:	<p>Apply replication, physical rehearsal, and cognitive rehearsal to aid in the mental and physical retention of patterns, complex steps, and sequences performed by another dancer.</p> <p>Remarks/Examples</p> <p>e.g., mind/body connection, watching, following, marking, visualizing, imagery, using rhythmic clues</p>
DA.912.C.1.3:	<p>Develop and articulate criteria for use in critiquing dance, drawing on background knowledge and personal experience, to show independence in one’s response.</p> <p>Remarks/Examples</p> <p>e.g., journal entries, discussion</p>

<u>DA.912.C.1.4:</u>	Weigh and discuss the personal significance of using both physical and cognitive rehearsal over time to strengthen one's own retention of patterns, complex steps, and sequences for rehearsal and performance.
<u>DA.912.C.2.1:</u>	Analyze movement from varying perspectives and experiment with a variety of creative solutions to solve technical or choreographic challenges. Remarks/Examples e.g., improvisation, trial and error, collaboration
<u>DA.912.C.2.2:</u>	Make informed critical assessments of the quality and effectiveness of one's own technique and performance quality, based on criteria developed from a variety of sources, to support personal competence and artistic growth. Remarks/Examples e.g., exemplary models, critical processes, background knowledge, experience, self-assessment, constructive criticism, comparison to other works
<u>DA.912.C.2.3:</u>	Develop a plan to improve technique, performance quality, and/or compositional work with artistic intent.
<u>DA.912.C.2.4:</u>	Evaluate nuances of movement and their relationship to style, choreographic elements, and/or other dancers, and apply this knowledge to alter personal performance.
<u>DA.912.C.3.1:</u>	Critique the quality and effectiveness of performances based on exemplary models and self-established criteria. Remarks/Examples e.g., use of movements, elements, principles of design, lighting, costumes, music
<u>DA.912.C.3.2:</u>	Assess artistic or personal challenges, holistically and in parts, to explore and weigh potential solutions to problems in technique or composition. Remarks/Examples

	e.g., time management, refining dance steps, research
<u>DA.912.F.1.1:</u>	Study and/or perform exemplary works by choreographers who use new and emerging technology to stimulate the imagination. Remarks/Examples e.g., Alwin Nikolais, Pilobolus, Elizabeth Streb, Cirque du Soleil
<u>DA.912.F.1.3:</u>	Employ acquired knowledge to stimulate creative risk-taking and broaden one’s own dance technique, performance, and choreography.
<u>DA.912.F.2.2:</u>	Investigate local, regional, state, national, and global resources to support dance-related work and study. Remarks/Examples e.g., cultural organizations, private dance studios, grants, scholarships, job-search services
<u>DA.912.F.3.10:</u>	Use accurate anatomical terminology to identify planes, regions, bones, muscles, and tissues.
<u>DA.912.F.3.2:</u>	Synthesize information and make use of a variety of experiences and resources from outside dance class to inform and inspire one’s work as a dancer. Remarks/Examples e.g., private studio work, school subjects, athletics, outside interests, news, personal life, music, poetry, environment
<u>DA.912.F.3.4:</u>	Design a repertory list and/or résumé for application to higher education or the workforce that highlights marketable skills and knowledge gained through dance training.
<u>DA.912.F.3.6:</u>	Practice conditioning methods that complement the physical instrument, and determine the degree of personal improvement in established dance techniques. Remarks/Examples e.g., Feldenkrais, Bartenieff, Pilates, yoga, cardio routines
