

Therapeutic Instructional Support (#7900010)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7900010

Course Section: Exceptional Student Education

Course Status: Draft - Course Pending Approval

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Non-Credit >

Abbreviated Title: THRP INSTR SPT

VERSION DESCRIPTION

A. **Major Concepts/Content.** The purpose of this course is to provide instructional support for students with disabilities who require counseling and mental health treatment in either individual or small group settings in order to achieve the Annual Goals and Short-Term Objectives or Benchmarks specified in the student's Individual Educational Plan (IEP).

This course shall integrate the Sunshine State Standards and Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the individual student and to the content and processes of the subject matter. Students with disabilities shall:

- CL.A.1.In.1 complete specified Sunshine State Standards with modifications as appropriate for the individual student.
- CL.A.1.Su.1 complete specified Sunshine State Standards with modifications and guidance and support as appropriate for the individual student.
- CL.A.1.Pa.1 participate in activities of peers' addressing Sunshine State Standards with assistance as appropriate for the individual student.

B. **Special Note.** None.

GENERAL NOTES

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

C. **Course Requirements.**

After successfully completing this course, the student will:

1. Achieve the relevant Annual Goals and Short-Term Objectives or Benchmarks specified in the Individual Educational Plan.

Course Standards

Name	Description
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

Hospital/Homebound Instructional Services (#7900030)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7900030	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Non-Credit >
Course Status: Draft - Course Pending Approval	Abbreviated Title: H/H INSTR SERVS

VERSION DESCRIPTION

A. Major Concepts/Content. The purpose of this course is to enable students with disabilities to acquire skills when served in a hospital or homebound setting in order to achieve the Annual Goals and Short-Term Objectives or Benchmarks specified in the student’s Individual Educational Plan (IEP).

This course shall integrate the Sunshine State Standards and Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the individual student and to the content and processes of the subject matter. Students with disabilities shall:

- CL.A.1.In.1 complete specified Sunshine State Standards with modifications as appropriate for the individual student.

Access English I/II (#7910111) [{ English 1 - 1001310 }](#)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7910111	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Academics - Subject Areas >
Course Section: Exceptional Student Education	Abbreviated Title: ACCESS ENGLISH I/II
Number of Credits: Multiple Credit (more than 1 credit)	Course Length: Year (Y)
Course Type: Core	Class Size? Yes
Course Status: Draft - Course Pending Approval	Requires a Highly Qualified Teacher (HQT)? Yes
NCLB? Yes	

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/la.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
SS.912.C.2.10:	Monitor current public issues in Florida. Remarks/Examples: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
Related Access Points	
Name	Description
SS.912.C.2.In.j:	Identify current public issues in Florida.
SS.912.C.2.Su.j:	Recognize current public issues in Florida.
SS.912.C.2.Pa.j:	Recognize a current public issue in Florida.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
Related Access Points	
Name	Description
SS.912.C.2.In.k:	Describe a solution to resolve a public issue.
SS.912.C.2.Su.k:	Identify a solution to resolve a public issue.
SS.912.C.2.Pa.k:	Recognize a solution to a public issue.
LAFS.910.RL.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
Related Access Points	
Name	Description

LAFS.910.RL.1.AP.1a:	Use two or more pieces of evidence to support inferences.
LAFS.910.RL.1.AP.1b:	Use two or more pieces of textual evidence to support conclusions.
LAFS.910.RL.1.AP.1c:	Use two or more pieces of evidence to support the summary of the text.
LAFS.910.RL.1.AP.1d:	Determine which piece(s) of evidence provide the strongest support for inferences, conclusions or summaries of text.

[LAFS.910.RL.1.2:](#) Determine a theme or central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an objective summary of the text.

Related Access Points

Name	Description
LAFS.910.RL.1.AP.2a:	Determine the theme or central idea of an adapted grade-appropriate text.
LAFS.910.RL.1.AP.2b:	Determine how the theme develops.
LAFS.910.RL.1.AP.2c:	Determine how key details support the development of the theme of an adapted grade-appropriate text.

[LAFS.910.RL.1.3:](#) Analyze how complex characters (e.g., those with multiple or conflicting motivations) develop over the course of a text, interact with other characters, and advance the plot or develop the theme.

Related Access Points

Name	Description
LAFS.910.RL.1.AP.3a:	Identify a character with multiple or conflicting motivations (i.e., a complex character).
LAFS.910.RL.1.AP.3b:	Delineate how a complex character develops over the course of a text, interacts with other characters and advances the plot or develops the theme.

[LAFS.910.RL.2.4:](#) Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone).

Related Access Points

Name	Description
LAFS.910.RL.2.AP.4a:	Determine the meaning of words and phrases as they are used in a text, including figurative (i.e., metaphors, similes and idioms) and connotative meanings.

[LAFS.910.RL.2.5:](#) Analyze how an author’s choices concerning how to structure a text, order events within it (e.g., parallel plots), and manipulate time (e.g., pacing, flashbacks) create such effects as mystery, tension, or surprise.

Related Access Points

Name	Description
LAFS.910.RL.2.AP.5a:	Identify the author’s choice of text structure to create meaning (e.g., order of events, flashbacks, foreshadowing).

[LAFS.910.RL.2.6:](#) Analyze a particular point of view or cultural experience reflected in a work of literature from outside the United States, drawing on a wide reading of world literature.

Related Access Points

Name	Description
LAFS.910.RL.2.AP.6a:	Compare and contrast works from different cultures with a common theme.
LAFS.910.RL.2.AP.6b:	Analyze the point of view reflected in a work of literature.

[LAFS.910.RL.3.7:](#) Analyze the representation of a subject or a key scene in two different artistic mediums, including what is emphasized or absent in each treatment (e.g., Auden’s “Musée des Beaux Arts” and Breughel’s Landscape with the Fall of Icarus).

Related Access Points

Name	Description
LAFS.910.RL.3.AP.7a:	Identify what is the same or what is different in two sources or mediums.

[LAFS.910.RL.3.9:](#) Analyze how an author draws on and transforms source material in a specific work (e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare).

Related Access Points

Name	Description
LAFS.910.RL.3.AP.9a:	Analyze how an author uses specific works with similar themes to build meaning.

[LAFS.910.RL.4.10:](#) By the end of grade 9, read and comprehend literature, including stories, dramas, and poems, in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

By the end of grade 10, read and comprehend literature, including stories, dramas, and poems, at the high end of the grades 9-10 text complexity band independently and proficiently.

Related Access Points

Name	Description
------	-------------

[LAFS.910.RL.4.AP.10a:](#) Read or listen to a variety of texts or adapted texts, including historical novels, classical dramas or plays, poetry, novels, fiction and nonfiction.

[LAFS.910.RL.4.AP.10b:](#) Use strategies to derive meaning from a variety of texts and mediums.

[LAFS.910.RI.1.1.1:](#) Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.

Related Access Points

Name	Description
LAFS.910.RI.1.AP.1a:	Use two or more pieces of evidence to support inferences, conclusions or summaries.
LAFS.910.RI.1.AP.1b:	Determine which piece(s) of evidence provide the strongest support for inferences, conclusions or summaries in a text.

[LAFS.910.RI.1.2:](#) Determine a central idea of a text and analyze its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an objective summary of the text.

Related Access Points

Name	Description
LAFS.910.RI.1.AP.2a:	Determine the central idea of a text.
LAFS.910.RI.1.AP.2b:	Determine how the central idea develops.
LAFS.910.RI.1.AP.2c:	Determine how key details support the development of the central idea of a text or an adapted grade-appropriate text.
LAFS.910.RI.1.AP.2d:	Provide/create an objective summary of a text or an adapted grade-appropriate text.

[LAFS.910.RI.1.3:](#) Analyze how the author unfolds an analysis or series of ideas or events, including the order in which the points are made, how they are introduced and developed, and the connections that are drawn between them.

Related Access Points

Name	Description
LAFS.910.RI.1.AP.3a:	Analyze key points throughout a text to determine the organizational pattern or text structure.
LAFS.910.RI.1.AP.3b:	Identify connections between key points.

[LAFS.910.RI.2.4:](#) Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language of a court opinion differs from that of a newspaper).

Related Access Points

Name	Description
LAFS.910.RI.2.AP.4a:	Determine the meaning of words and phrases as they are used in a text, including figurative (i.e., metaphors, similes and idioms) and connotative meanings.
LAFS.910.RI.2.AP.4b:	Analyze the use of figurative, connotative or technical terms on the meaning or tone of text.

[LAFS.910.RI.2.5:](#) Analyze in detail how an author's ideas or claims are developed and refined by particular sentences, paragraphs, or larger portions of a text (e.g., a section or chapter).

Related Access Points

Name	Description
LAFS.910.RI.2.AP.5a:	Analyze in detail how an author's ideas or claims are developed.
LAFS.910.RI.2.AP.5b:	Identify key sentences or paragraphs that support claims.

[LAFS.910.RI.2.6:](#) Determine an author's point of view or purpose in a text and analyze how an author uses rhetoric to advance that point of view or purpose.

Related Access Points

Name	Description
LAFS.910.RI.2.AP.6a:	Determine the author's point of view or purpose in a text.
LAFS.910.RI.2.AP.6b:	Determine/identify the specific language/words that the author uses to advance the point of view or purpose.
LAFS.910.RI.2.AP.6c:	Develop and explain ideas for why authors made specific word choices within text.

[LAFS.910.RI.3.7:](#) Analyze various accounts of a subject told in different mediums (e.g., a person's life story in both print and multimedia), determining which details are emphasized in each account.

Related Access Points

Name	Description
LAFS.910.RI.3.AP.7a:	Compare and contrast various accounts of a subject in two or more mediums.

[LAFS.910.RI.3.8:](#) Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning.

Related Access Points

Name	Description
LAFS.910.RI.3.AP.8a:	Identify claims and arguments made by the author.
LAFS.910.RI.3.AP.8b:	Delineate/trace the authors argument and specific claims.
LAFS.910.RI.3.AP.8c:	Evaluate the argument/claims that the author makes to determine if the statements are true or false.

[LAFS.910.RI.3.AP.8d:](#) Delineate the argument and specific claims in two or more texts or adapted grade-appropriate texts on related topics.

[LAFS.910.RI.3.AP.8e:](#) Assess the validity of the arguments across texts on related topics.

[LAFS.910.RI.3.9:](#)

Analyze seminal U.S. documents of historical and literary significance (e.g., Washington's Farewell Address, the Gettysburg Address, Roosevelt's Four Freedoms speech, King's "Letter from Birmingham Jail"), including how they address related themes and concepts.

Related Access Points

Name	Description
LAFS.910.RI.3.AP.9a:	Identify central ideas and concepts in seminal U.S. documents of historical and literary significance (e.g., Washington's Farewell Address, the Gettysburg Address, Roosevelt's Four Freedoms speech, King's "Letter from Birmingham Jail").
LAFS.910.RI.3.AP.9b:	Analyze how seminal U.S. documents of historical and literary significance (e.g., Washington's Farewell Address, the Gettysburg Address, Roosevelt's Four Freedoms speech, King's "Letter from Birmingham Jail") address similar central ideas.

By the end of grade 9, read and comprehend literary nonfiction in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

[LAFS.910.RI.4.10:](#)

By the end of grade 10, read and comprehend literary nonfiction at the high end of the grades 9–10 text complexity band independently and proficiently.

Related Access Points

Name	Description
LAFS.910.RI.4.AP.10a:	Read or listen to a variety of texts, including biographies, essays, speeches, journals and news articles.
LAFS.910.RI.4.AP.10b:	Read or listen to challenging grade-appropriate texts.
LAFS.910.RI.4.AP.10c:	Use a variety of strategies to derive meaning from a variety print/non-print texts.

Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience's knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from and supports the argument presented.

[LAFS.910.W.1.1:](#)

Related Access Points

Name	Description
LAFS.910.W.1.AP.1a:	Introduce claim(s) for an argument that reflects knowledge of the topic.
LAFS.910.W.1.AP.1b:	Identify claim(s) from alternate or opposing claims(s) in writing.
LAFS.910.W.1.AP.1c:	Create a writing organizational structure (e.g., introduce claims, distinguish supporting and opposing claims and relevant evidence for each, provides conclusion) developing relationships among claim(s), reason and evidence.
LAFS.910.W.1.AP.1d:	Identify evidence for claim(s) and counterclaim(s).
LAFS.910.W.1.AP.1e:	Develop clear claim(s) with specific evidence for a topic or text.
LAFS.910.W.1.AP.1f:	Use words, phrases and clauses to create cohesion within writing.
LAFS.910.W.1.AP.1g:	Use words, phrases and clauses to clarify the relationship among claims, counterclaims, reasons and evidence.
LAFS.910.W.1.AP.1h:	Maintain a consistent style and voice throughout writing (e.g., third person for formal style, accurate and efficient word choice, sentence fluency, voice should be active versus passive).
LAFS.910.W.1.AP.1i:	Provide a concluding statement or section that supports the argument presented by stating the significance of the claim.

Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content.

- Introduce a topic; organize complex ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- Use appropriate and varied transitions to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- Use precise language and domain-specific vocabulary to manage the complexity of the topic.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

[LAFS.910.W.1.2:](#)

Related Access Points

Name	Description
LAFS.910.W.1.AP.2a:	Create an organizational structure for writing that groups information logically (e.g., cause/effect, compare/contrast, descriptions and examples) to support paragraph focus.
LAFS.910.W.1.AP.2b:	Provide a clear introduction previewing information to follow and summarizing stated focus.
LAFS.910.W.1.AP.2c:	Provide relevant facts, extended definitions, concrete details, quotations or other information and examples appropriate for the audience.

LAFS.910.W.1.AP.2d:	Use transitional words, phrases and clauses that connect ideas and create cohesion within writing.
LAFS.910.W.1.AP.2e:	Use precise language and domain-specific vocabulary to manage the complexity of the topic.
LAFS.910.W.1.AP.2f:	Maintain a consistent style and voice throughout writing (e.g., third person for formal style, accurate and efficient word choice, sentence fluency, voice should be active versus passive).
LAFS.910.W.1.AP.2g:	Provide a concluding statement or section that follows from and supports the information or explanation presented.
LAFS.910.W.1.AP.2h:	Report on a topic, using a logical sequence of ideas, appropriate facts and relevant, and descriptive details that support the main ideas.

Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

- Engage and orient the reader by setting out a problem, situation, or observation, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
- Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.
- Use a variety of techniques to sequence events so that they build on one another to create a coherent whole.
- Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.
- Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.

[LAFS.910.W.1.3:](#)

Related Access Points

Name	Description
LAFS.910.W.1.AP.3a:	Engage and orient the reader by setting out a problem, situation or observation and establishing one or multiple point(s) of view.
LAFS.910.W.1.AP.3b:	Engage and orient the reader to the narrator and/or characters.
LAFS.910.W.1.AP.3c:	Produce a narrative that includes dialogue that advances the plot or theme (e.g., reveals character motivation, feelings, thoughts, how character has changed perspectives).
LAFS.910.W.1.AP.3d:	Include plot techniques and pacing (e.g., flashback, foreshadowing, suspense) as appropriate in writing.
LAFS.910.W.1.AP.3e:	Sequence events so that they build on one another to create a coherent whole.
LAFS.910.W.1.AP.3f:	Create a smooth progression of experiences or events.
LAFS.910.W.1.AP.3g:	Use precise words and phrases, telling details and sensory language to convey a vivid picture of the experiences, events, setting and/or characters.
LAFS.910.W.1.AP.3h:	Provide a conclusion that follows from and reflects on what is experienced, observed or resolved over the course of the narrative.

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

[LAFS.910.W.2.4:](#)

Related Access Points

Name	Description
LAFS.910.W.2.AP.4a:	Produce a clear, coherent, permanent product that is appropriate to the specific task (e.g., topic), purpose (e.g., to inform) or audience (e.g., reader).
LAFS.910.W.2.AP.4b:	Produce a clear, coherent, permanent product that is appropriate to the specific task, purpose (e.g., to entertain) or audience.
LAFS.910.W.2.AP.4c:	Produce a clear, coherent, permanent product that is appropriate to the specific task, purpose (e.g., to argue) or audience.

Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

[LAFS.910.W.2.5:](#)

Related Access Points

Name	Description
LAFS.910.W.2.AP.5a:	Develop a plan for writing (e.g., determine the topic, gather information, develop the topic, provide a meaningful conclusion) focused on a specific purpose and audience.
LAFS.910.W.2.AP.5b:	With guidance and support from peers and adults, develop a plan for writing (e.g., choose a topic, introduce story elements, develop storyline, conclude story).
LAFS.910.W.2.AP.5c:	Develop a plan for writing (e.g., choose a topic, introduce argument topic, develop a claim, develop a counter claim, conclude argument) focused on a specific purpose and audience.
LAFS.910.W.2.AP.5d:	Strengthen writing by revising and editing.
LAFS.910.W.2.AP.5e:	Strengthen writing by revising and editing (e.g., review product, strengthening story).

Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

[LAFS.910.W.2.6:](#)

Related Access Points

Name	Description
LAFS.910.W.2.AP.6a:	Use technology to produce and publish writing (e.g., use the Internet to gather information, word processing to generate and collaborate on writing).

Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

[LAFS.910.W.3.7:](#)

Related Access Points

Name	Description
	Follow steps to complete a short or sustained research project to build knowledge on a topic or text, answer a question and/or solve a problem (e.g., determine topic, locating information on a topic, organizing information related to the topic, drafting a permanent product).

[LAFS.910.W.3.8:](#)

Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

Related Access Points

Name	Description
LAFS.910.W.3.AP.8a:	Gather (e.g., highlight, quote or paraphrase from source) relevant information about the topic from authoritative print and/or digital sources.
LAFS.910.W.3.AP.8b:	Gather relevant information about the topic or text and stated claim from authoritative print and/or digital sources.
LAFS.910.W.3.AP.8c:	Integrate information presented by others into the writing product while avoiding plagiarism.
LAFS.910.W.3.AP.8d:	Use a standard format to write citations.
LAFS.910.W.3.AP.8e:	Avoid plagiarism when integrating multiple sources into a written text or when discussing/referring to text.

[LAFS.910.W.3.9:](#)

Draw evidence from literary or informational texts to support analysis, reflection, and research.

- Apply grades 9–10 Reading standards to literature (e.g., “Analyze how an author draws on and transforms source material in a specific work [e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare]”).
- Apply grades 9–10 Reading standards to literary nonfiction (e.g., “Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning”).

Related Access Points

Name	Description
LAFS.910.W.3.AP.9a:	Provide evidence from literary or information texts to support analysis, reflection and research.
LAFS.910.W.3.AP.9b:	Evaluate an argument within a text to determine if reasoning is valid; reasoning is accurate; evidence is relevant; and evidence is sufficient.
LAFS.910.W.3.AP.9c:	Refine writing to assure accuracy/authenticity (historical, geographical, technical).

[LAFS.910.W.4.10:](#)

Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

Related Access Points

Name	Description
LAFS.910.W.4.AP.10a:	Write routinely over shorter time frames (e.g., journal entry, letter, graphic organizer) for a range of discipline-specific tasks, purposes and audiences.
LAFS.910.W.4.AP.10b:	Write routinely in a genre over extended time frames (planning, drafting, editing, revising, publishing) for a range of discipline-specific tasks, purposes and audiences.

[LAFS.910.SL.1.1:](#)

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker's point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker's point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.SL.2.5:](#)

Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.5a:	Include multimedia components and visual displays in presentations to clarify claims and findings and emphasize salient points.

[LAFS.910.SL.2.6:](#)

Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.6a:	Recognize situations when the use of formal English is necessary (e.g., making a presentation vs. talking with friends).

[LAFS.910.L.1.1:](#)

Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

- a. Use parallel structure.
- b. Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey specific meanings and add variety and interest to writing or presentations.

Related Access Points

Name	Description
LAFS.910.L.1.AP.1a:	Use parallel structure (e.g., when using gerunds [-ing], infinitives, or voice [active or passive]) within writing or speaking).
LAFS.910.L.1.AP.1b:	Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey meaning and add interest to writing.

Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

[LAFS.910.L.1.2:](#)

- a. Use a semicolon, with or without a conjunctive adverb, to link two or more closely related independent clauses.
- b. Use a colon to introduce a list or quotation.
- c. Spell correctly.

Related Access Points

Name	Description
LAFS.910.L.1.AP.2a:	Use a semicolon (i.e., to link two or more related independent clauses) appropriately in writing.
LAFS.910.L.1.AP.2b:	Use a colon (i.e., to introduce a list or quotation) appropriately in writing.
LAFS.910.L.1.AP.2c:	Spell correctly in writing.

[LAFS.910.L.2.3:](#)

Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

- a. Write and edit work so that it conforms to the guidelines in a style manual (e.g., *MLA Handbook*, *Turabian's Manual for Writers*) appropriate for the discipline and writing type.

Related Access Points

Name	Description
LAFS.910.L.2.AP.3a:	Write and edit work to conform to guidelines in a style manual.

Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on *grades 9–10 reading and content*, choosing flexibly from a range of strategies.

- a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.

[LAFS.910.L.3.4:](#)

- b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analysis, analytical; advocate, advocacy).
- c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
- d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

Related Access Points

Name	Description
LAFS.910.L.3.AP.4a:	Verify the prediction of the meaning of a new word or phrase.
LAFS.910.L.3.AP.4b:	Find the synonym for a word.
LAFS.910.L.3.AP.4c:	Find the precise meaning of a word.
LAFS.910.L.3.AP.4d:	Find the part of speech for a word.
LAFS.910.L.3.AP.4e:	Use context (e.g., the overall meaning of a sentence, paragraph or text; a word’s position in a sentence) as a clue to the meaning of a word or phrase.

Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

[LAFS.910.L.3.5:](#)

- a. Interpret figures of speech (e.g., euphemism, oxymoron) in context and analyze their role in the text.
- b. Analyze nuances in the meaning of words with similar denotations.

Related Access Points

Name	Description
LAFS.910.L.3.AP.5a:	Interpret how literary devices advance the plot or affect the tone or pacing of a work.
LAFS.910.L.3.AP.5b:	Identify the denotation for a known word.
LAFS.910.L.3.AP.5c:	Explain differences or changes in the meaning of words with similar denotations (definitions) (e.g., bullheaded, willful, firm, persistent, resolute).
LAFS.910.L.3.AP.5d:	Identify an oxymoron in a text.
LAFS.910.L.3.AP.5e:	Interpret figures of speech in context.

Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

[LAFS.910.L.3.6:](#)

Related Access Points

Name	Description
LAFS.910.L.3.AP.6a:	Use grade-appropriate general academic and domain-specific words and phrases accurately within writing.
LAFS.910.L.3.AP.6b:	Use newly acquired domain-specific words and phrases accurately.

Justify the validity of a variety of technologies to gather health information.

[HE.912.B.3.3:](#)

Remarks/Examples: Internet, telephone, 911 access, and medical technology, including X-rays, ultrasounds, mammograms, thermal imaging, and MRIs.
--

Related Access Points

Name	Description
HE.912.B.3.In.c:	Describe common technologies that provide valid health information, such as the Internet, telephone, 911 access, and medical technology including X-rays, ultrasounds, mammograms, and MRIs.
HE.912.B.3.Su.c:	Identify selected technologies that provide valid health information, such as the Internet, telephone, 911 access, and medical technology including X-rays, ultrasounds, mammograms, and MRIs.
HE.912.B.3.Pa.c:	Recognize selected technologies that provide valid health information, such as the Internet, telephone, 911 access, and medical technology, including X-rays.

Determine the value of applying a thoughtful decision-making process in health-related situations.

[HE.912.B.5.1:](#)

Remarks/Examples: Defining healthy boundaries and relationships, sexual activity, alcohol consumption, organ-donor decisions, child care, protection against infectious agents, wellness promotion, and first-aid-treatment options.
--

Related Access Points

Name	Description
HE.912.B.5.In.1:	Describe the value of applying a thoughtful decision-making process in health-related situations, such as decisions regarding sexual activity, alcohol consumption, and organ donation.
HE.912.B.5.Su.1:	Identify the value of applying a thoughtful decision-making process in health-related situations, such as decisions regarding sexual activity, alcohol consumption, and organ donation.
HE.912.B.5.Pa.1:	Recognize a health-related situation that requires the application of a thoughtful decision-making process, such as decisions regarding sexual activity, alcohol consumption, and organ donation.

Interpret the significance of interrelationships in mental/emotional, physical, and social health.

[HE.912.C.1.2:](#)

Remarks/Examples: Substance abuse, eating disorders, sexual behaviors, healthy/unhealthy relationships, self-esteem, stress/anger management, and regular exercise.

Related Access Points

Name	Description
HE.912.C.1.In.b:	Explain the interrelationships of mental/emotional, intellectual, physical, and social health, such as how drinking alcohol or sexual activity impacts physical, social, and mental/emotional dimensions of health.
HE.912.C.1.Su.b:	Identify the interrelationship between healthy behaviors and the dimensions of health (physical, mental/emotional, social, and intellectual), such as how drinking alcohol or sexual activity impacts physical and social dimensions of health.
HE.912.C.1.Pa.b:	Distinguish between healthy and unhealthy physical, mental/emotional, social, and intellectual behaviors, such as drinking alcohol or avoiding alcohol, and appropriate or inappropriate sexual behaviors.

Evaluate the effect of media on personal and family health.

[HE.912.C.2.5:](#)

Remarks/Examples:

Compares brand-name/store-brand items in home, analyzes television viewing habits, identifies effective PSAs, consumer skills, advertisements of health-related community resources, participation in risky behaviors, and deconstructs media to identify promotion of unhealthy stereotypes, and normalization of violence.

Related Access Points

Name	Description
HE.912.C.2.In.e:	Examine the effect of media on personal and family health, such as comparing name- and store-brand items in the home, analyzing television-viewing habits, and identifying effective public-service announcements (PSAs).
HE.912.C.2.Su.e:	Describe the effect of media on personal and family health, such as comparing name- and store-brand items in the home, analyzing television-viewing habits, and identifying effective public-service announcements (PSAs).
HE.912.C.2.Pa.e:	Recognize the effect of media on personal and family health, such as television-viewing habits and sedentary lifestyle and identifying effective public-service announcements (PSAs).

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.LA.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Language Arts.

There are more than 300 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12913>

Access English III/IV (#7910112) [{ English 3 - 1001370 }](#)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7910112	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Academics - Subject Areas >
Course Section: Exceptional Student Education	Abbreviated Title: ACCESS ENGLISH III/IV
Number of Credits: Multiple Credit (more than 1 credit)	Course Length: Year (Y)
Course Type: Core	Class Size? Yes
Course Status: Draft - Course Pending Approval	Requires a Highly Qualified Teacher (HQT)? Yes
NCLB? Yes	

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/la.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description								
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy. Related Access Points <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>SS.912.C.1.In.c:</td> <td>Identify principles of natural rights, individual rights, and government of the people (popular sovereignty) reflected in the Declaration of Independence.</td> </tr> <tr> <td>SS.912.C.1.Su.c:</td> <td>Recognize principles of natural rights and government of the people reflected in the Declaration of Independence.</td> </tr> <tr> <td>SS.912.C.1.Pa.c:</td> <td>Recognize government of the people as a principle of the Declaration of Independence.</td> </tr> </tbody> </table>	Name	Description	SS.912.C.1.In.c:	Identify principles of natural rights, individual rights, and government of the people (popular sovereignty) reflected in the Declaration of Independence.	SS.912.C.1.Su.c:	Recognize principles of natural rights and government of the people reflected in the Declaration of Independence.	SS.912.C.1.Pa.c:	Recognize government of the people as a principle of the Declaration of Independence.
Name	Description								
SS.912.C.1.In.c:	Identify principles of natural rights, individual rights, and government of the people (popular sovereignty) reflected in the Declaration of Independence.								
SS.912.C.1.Su.c:	Recognize principles of natural rights and government of the people reflected in the Declaration of Independence.								
SS.912.C.1.Pa.c:	Recognize government of the people as a principle of the Declaration of Independence.								
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Remarks/Examples: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors. SS.912.C.2.Su.h:	Recognize examples of citizen participation, such as demonstrations, protests, and letters to the editor, to achieve change.	SS.912.C.2.Pa.h:	Recognize a demonstration or protest to achieve change.
Name	Description								
SS.912.C.2.In.h:	Identify examples of citizen participation, such as email, protests, demonstrations, and letters to the editor, to achieve change.								
SS.912.C.2.Su.h:	Recognize examples of citizen participation, such as demonstrations, protests, and letters to the editor, to achieve change.								
SS.912.C.2.Pa.h:	Recognize a demonstration or protest to achieve change.								

[SS.912.C.2.9:](#)

Remarks/Examples:

Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.

Related Access Points

Name	Description
SS.912.C.2.In.i:	Identify the expansion of civil rights as reflected in the Declaration of Independence, the Constitution and its amendments, and the Voting Rights Act of 1965.
SS.912.C.2.Su.i:	Recognize the expansion of civil rights as reflected in the Constitution and its amendments.
SS.912.C.2.Pa.i:	Recognize examples of civil rights.

Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.

[SS.912.C.3.13:](#)

Remarks/Examples:

Examples are education, transportation, crime prevention, funding of services.

Related Access Points

Name	Description
SS.912.C.3.In.m:	Identify the effects of government on the daily lives of citizens at the local, state, and national level.
SS.912.C.3.Su.m:	Recognize an effect of government on the daily lives of citizens at the local, state, and national level.
SS.912.C.3.Pa.m:	Recognize an effect of government on the daily lives of citizens.

[LAFS.1112.RL.1.1:](#)

Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.

Related Access Points

Name	Description
LAFS.1112.RL.1.AP.1a:	Use two or more pieces of evidence to support inferences, conclusions or summaries of the plot, purpose or theme within a text.
LAFS.1112.RL.1.AP.1b:	Determine which piece(s) of evidence provide the strongest support for inferences, conclusions or summaries or text.
LAFS.1112.RL.1.AP.1c:	Use evidence to support conclusions about ideas not explicitly stated in the text.

[LAFS.1112.RL.1.2:](#)

Determine two or more themes or central ideas of a text and analyze their development over the course of the text, including how they interact and build on one another to produce a complex account; provide an objective summary of the text.

Related Access Points

Name	Description
LAFS.1112.RL.1.AP.2a:	Determine two or more themes or central ideas of an adapted grade-appropriate text.
LAFS.1112.RL.1.AP.2b:	Determine how the theme develops.
LAFS.1112.RL.1.AP.2c:	Provide/create an objective summary of a text.

[LAFS.1112.RL.1.3:](#)

Analyze the impact of the author's choices regarding how to develop and relate elements of a story or drama (e.g., where a story is set, how the action is ordered, how the characters are introduced and developed).

Related Access Points

Name	Description
LAFS.1112.RL.1.AP.3a:	Analyze the author's choices about what is developed and included in the text and what is not developed and included related to story elements.
LAFS.1112.RL.1.AP.3b:	Analyze the author's choices about how to relate elements of the story (e.g., where a story is set, how the action is ordered, how the characters are introduced and developed).

[LAFS.1112.RL.2.4:](#)

Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including words with multiple meanings or language that is particularly fresh, engaging, or beautiful. (Include Shakespeare as well as other authors.)

Related Access Points

Name	Description
LAFS.1112.RL.2.AP.4a:	Determine the meaning of words and phrases as they are used in a text including figurative (i.e., metaphors, similes and idioms) and connotative meanings.

[LAFS.1112.RL.2.5:](#)

Analyze how an author's choices concerning how to structure specific parts of a text (e.g., the choice of where to begin or end a story, the choice to provide a comedic or tragic resolution) contribute to its overall structure and meaning as well as its aesthetic impact.

Related Access Points

Name	Description
LAFS.1112.RL.2.AP.5a:	Analyze how an author's choices concerning how to structure specific parts of a text (e.g., the choice of where to begin or end a story, the choice to provide a comedic or tragic resolution) contribute to its overall structure and meaning.

[LAFS.1112.RL.2.6:](#)

Analyze a case in which grasping a point of view requires distinguishing what is directly stated in a text from what is really meant (e.g., satire, sarcasm, irony, or understatement).

Related Access Points

Name	Description
LAFS.1112.RL.2.AP.6a:	Define satire, sarcasm and irony.
LAFS.1112.RL.2.AP.6b:	Differentiate what is directly stated in a text from what is meant.

[LAFS.1112.RL.3.7:](#)

Analyze multiple interpretations of a story, drama, or poem (e.g., recorded or live production of a play or recorded novel or poetry), evaluating how each version interprets the source text. (Include at least one play by Shakespeare and one play by an American dramatist.)

Related Access Points

Name	Description
LAFS.1112.RL.3.AP.7a:	Analyze multiple interpretations of a story, drama or poem (e.g., recorded or live productions of a play or recorded novel or poetry), evaluating how each version interprets the source text.

[LAFS.1112.RL.3.9:](#)

Demonstrate knowledge of eighteenth-, nineteenth- and early-twentieth-century foundational works of American literature, including how two or more texts from the same period treat similar themes or topics.

Related Access Points

Name	Description
LAFS.1112.RL.3.AP.9a:	Demonstrate knowledge of eighteenth, nineteenth- and early-twentieth-century foundational works of American literature, including how two or more texts from the same period treat similar themes or topics (historical reflection, social, morals).

By the end of grade 11, read and comprehend literature, including stories, dramas, and poems, in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range.

[LAFS.1112.RL.4.10:](#)

By the end of grade 12, read and comprehend literature, including stories, dramas, and poems, at the high end of the grades 11–CCR text complexity band independently and proficiently.

Related Access Points

Name	Description
LAFS.1112.RL.4.AP.10a:	Read or listen to a variety of texts or adapted texts including historical novels, periodicals, classical dramas or plays, poetry, novels, fiction and nonfiction.
LAFS.1112.RL.4.AP.10b:	Independently read or listen to texts or grade-appropriate adapted texts.
LAFS.1112.RL.4.AP.10c:	Use a variety of strategies to derive meaning from a variety of texts.

[LAFS.1112.RI.1.1:](#)

Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.

Related Access Points

Name	Description
LAFS.1112.RI.1.AP.1a:	Use two or more pieces of evidence to support inferences, conclusions or summaries of text or an adapted grade-appropriate text.
LAFS.1112.RI.1.AP.1b:	Determine which piece(s) of evidence provide the strongest support for inferences, conclusions or summaries in a text.

[LAFS.1112.RI.1.2:](#)

Determine two or more central ideas of a text and analyze their development over the course of the text, including how they interact and build on one another to provide a complex analysis; provide an objective summary of the text.

Related Access Points

Name	Description
LAFS.1112.RI.1.AP.2a:	Determine two or more central ideas of a text.
LAFS.1112.RI.1.AP.2b:	Determine how the central ideas develop.
LAFS.1112.RI.1.AP.2c:	Determine how key details support the development of the central idea of a text or an adapted grade-appropriate text.
LAFS.1112.RI.1.AP.2d:	Provide/create an objective summary of a text.

[LAFS.1112.RI.1.3:](#)

Analyze a complex set of ideas or sequence of events and explain how specific individuals, ideas, or events interact and develop over the course of the text.

Related Access Points

Name	Description
LAFS.1112.RI.1.AP.3a:	Analyze key points throughout a text to determine the organizational pattern or text structure.
LAFS.1112.RI.1.AP.3b:	Analyze a complex set of ideas or sequence of events and explain how specific individuals, ideas or events interact and develop over the course of the text.

[LAFS.1112.RI.2.4:](#)

Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze how an author uses and refines the meaning of a key term or terms over the course of a text (e.g., how Madison defines faction in Federalist No. 10).

Related Access Points

Name	Description
LAFS.1112.RI.2.AP.4a:	Determine the meaning of words and phrases as they are used in a text, including figurative (i.e., metaphors, similes and idioms) and connotative meanings.

[LAFS.1112.RI.2.5:](#)

Analyze and evaluate the effectiveness of the structure an author uses in his or her exposition or argument, including whether the structure makes points clear, convincing, and engaging.

Related Access Points

Name	Description
LAFS.1112.RI.2.AP.5a:	Analyze the structure an author uses in his or her exposition or argument.
LAFS.1112.RI.2.AP.5b:	Evaluate the effectiveness of the structure an author uses in his or her exposition or argument, to determine whether the structure makes points clear and convincing.

[LAFS.1112.RI.2.6:](#)

Determine an author’s point of view or purpose in a text in which the rhetoric is particularly effective, analyzing how style and content contribute to the power, persuasiveness or beauty of the text.

Related Access Points

Name	Description
LAFS.1112.RI.2.AP.6a:	Determine the author’s point of view or purpose in a text.
LAFS.1112.RI.2.AP.6b:	Determine what arguments the author makes.
LAFS.1112.RI.2.AP.6c:	Determine/identify the specific language/words that the author uses that contribute to the power, persuasiveness or beauty of the text.

[LAFS.1112.RI.3.7:](#)

Integrate and evaluate multiple sources of information presented in different media or formats (e.g., visually, quantitatively) as well as in words in order to address a question or solve a problem.

Related Access Points

Name	Description
LAFS.1112.RI.3.AP.7a:	Integrate and evaluate multiple sources of information presented in different media or formats (e.g., visually, quantitatively) as well as in words in order to address a question or solve a problem.

[LAFS.1112.RI.3.8:](#)

Delineate and evaluate the reasoning in seminal U.S. texts, including the application of constitutional principles and use of legal reasoning (e.g., in U.S. Supreme Court majority opinions and dissents) and the premises, purposes, and arguments in works of public advocacy (e.g., The Federalist, presidential addresses).

Related Access Points

Name	Description
LAFS.1112.RI.3.AP.8a:	Identify claims made by the author as being fact or opinion.
LAFS.1112.RI.3.AP.8b:	Distinguish reliable sources from non-reliable.
LAFS.1112.RI.3.AP.8c:	Evaluate the premises, purposes and argument that the author makes.
LAFS.1112.RI.3.AP.8d:	Delineate the premises, purposes, argument and specific claims in two or more texts on related topics.
LAFS.1112.RI.3.AP.8e:	Assess the validity of the premises, purposes and arguments across texts on related topics.

[LAFS.1112.RI.3.9:](#)

Analyze seventeenth-, eighteenth-, and nineteenth-century foundational U.S. documents of historical and literary significance (including The Declaration of Independence, the Preamble to the Constitution, the Bill of Rights, and Lincoln’s Second Inaugural Address) for their themes, purposes, and rhetorical features.

Related Access Points

Name	Description
LAFS.1112.RI.3.AP.9a:	Identify central ideas and concepts in seminal U.S. documents of historical and literary significance (e.g., Washington’s Farewell Address, the Gettysburg Address, Roosevelt’s Four Freedoms speech, King’s "Letter from Birmingham Jail").
LAFS.1112.RI.3.AP.9b:	Analyze seminal U.S. documents of historical and literary significance (e.g., Washington’s Farewell Address, the Gettysburg Address, Roosevelt’s Four Freedoms speech, King’s "Letter from Birmingham Jail").

[LAFS.1112.RI.4.10:](#)

By the end of grade 11, read and comprehend literary nonfiction in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range.

By the end of grade 12, read and comprehend literary nonfiction at the high end of the grades 11–CCR text complexity band independently and proficiently.

Related Access Points

Name	Description
LAFS.1112.RI.4.AP.10a:	Read or listen to a variety of texts, including biographies, essays, speeches, journals and news articles.
LAFS.1112.RI.4.AP.10b:	Independently read challenging, grade-appropriate texts.
LAFS.1112.RI.4.AP.10c:	Use a variety of strategies to derive meaning from a variety of print/non-print texts.

[LAFS.1112.W.1.1:](#)

- Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
- Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences claim(s), counterclaims, reasons, and evidence.
 - Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience’s knowledge level, concerns, values, and possible biases.
 - Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
 - Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.

e. Provide a concluding statement or section that follows from and supports the argument presented.

Related Access Points

Name	Description
LAFS.1112.W.1.AP.1a:	Introduce claim(s) for an argument that reflects knowledge of the topic.
LAFS.1112.W.1.AP.1b:	Use context or related text to establish the significance of the claim(s).
LAFS.1112.W.1.AP.1c:	Identify claim(s) from alternate or opposing claims(s) in writing.
LAFS.1112.W.1.AP.1d:	Create a writing organizational structure (e.g., introduce claims, distinguish supporting and opposing claims and relevant evidence for each, provide conclusion) logically sequencing claim(s), counterclaims, reason and evidence.
LAFS.1112.W.1.AP.1e:	Select the most relevant evidence for claim(s) and counterclaim(s) for use in writing.
LAFS.1112.W.1.AP.1f:	Develop clear claim(s) with the most relevant evidence for a topic or text.
LAFS.1112.W.1.AP.1g:	Use words, phrases and clauses to create cohesion within writing.
LAFS.1112.W.1.AP.1h:	Use words, phrases and clauses to clarify the relationship among claims, counterclaims, reasons and evidence.
LAFS.1112.W.1.AP.1i:	Maintain a consistent style and voice throughout writing (e.g., third person for formal style, accurate and efficient word choice, sentence fluency, voice should be active versus passive).
LAFS.1112.W.1.AP.1j:	Provide a concluding statement or section that supports the argument presented by stating the significance of the claim and/or presenting next steps related to the topic.

Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content.

- Introduce a topic; organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- Use appropriate and varied transitions and syntax to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- Use precise language, domain-specific vocabulary, and techniques such as metaphor, simile, and analogy to manage the complexity of the topic.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

[LAFS.1112.W.1.2:](#)

Related Access Points

Name	Description
LAFS.1112.W.1.AP.2a:	Create an organizational structure for writing that groups information logically (e.g., cause/effect, compare/contrast, descriptions and examples) to support paragraph focus.
LAFS.1112.W.1.AP.2b:	Provide a clear introduction previewing information to follow and summarizing stated focus.
LAFS.1112.W.1.AP.2c:	Provide the facts, extended definitions, concrete details, quotations or other information and examples that are most relevant to the focus and appropriate for the audience.
LAFS.1112.W.1.AP.2d:	Use transitional words, phrases and clauses that connect ideas and create cohesion within writing.
LAFS.1112.W.1.AP.2e:	Use precise language and domain-specific vocabulary to manage the complexity of the topic.
LAFS.1112.W.1.AP.2f:	Maintain a consistent style and voice throughout writing (e.g., third person for formal style, accurate and efficient word choice, sentence fluency, voice should be active versus passive).
LAFS.1112.W.1.AP.2g:	Provide a concluding statement or section that follows from and supports the information or explanation presented.
LAFS.1112.W.1.AP.2h:	Report on a topic using a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

- Engage and orient the reader by setting out a problem, situation, or observation and its significance, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
- Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.
- Use a variety of techniques to sequence events so that they build on one another to create a coherent whole and build toward a particular tone and outcome (e.g., a sense of mystery, suspense, growth, or resolution).
- Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.
- Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.

Name	Description
LAFS.1112.W.1.AP.3a:	Engage and orient the reader by setting out a problem, situation or observation and establishing one or multiple point(s) of view.
LAFS.1112.W.1.AP.3b:	Engage and orient the reader to the narrator and/or characters.
LAFS.1112.W.1.AP.3c:	Produce a narrative that includes dialogue that advances the plot or theme (e.g., reveals character motivation, feelings, thoughts, how character has changed perspectives).
LAFS.1112.W.1.AP.3d:	Include plot techniques and pacing (e.g., flashback, foreshadowing, suspense) as appropriate in writing.
LAFS.1112.W.1.AP.3e:	Use a variety of techniques to sequence events so that they build on one another to create a coherent whole and build toward a particular tone and outcome (e.g., a sense of mystery, suspense, growth or resolution).
LAFS.1112.W.1.AP.3f:	Create a smooth progression of experiences or events.

LAFS.1112.W.1.AP.3g:	Use precise words and phrases, telling details and sensory language to convey a vivid picture of the experiences, events, setting and/or characters.
LAFS.1112.W.1.AP.3h:	Provide a conclusion that follows from and reflects on what is experienced, observed or resolved over the course of the narrative.

[LAFS.1112.W.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

Related Access Points

Name	Description
LAFS.1112.W.2.AP.4a:	Produce a clear, coherent, permanent product that is appropriate to the specific task (e.g., topic), purpose (e.g., to inform) or audience (e.g., reader).
LAFS.1112.W.2.AP.4b:	Produce a clear, coherent, permanent product that is appropriate to the specific task, purpose (e.g., to entertain) or audience.
LAFS.1112.W.2.AP.4c:	Produce a clear coherent permanent product that is appropriate to the specific task, purpose (e.g., to argue or support claims) or audience.

[LAFS.1112.W.2.5:](#)

Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

Related Access Points

Name	Description
LAFS.1112.W.2.AP.5a:	Develop a plan for writing (e.g., determine the topic, gather information, develop the topic, provide a meaningful conclusion) focused on a specific purpose and audience.
LAFS.1112.W.2.AP.5b:	Develop a plan for writing (e.g., choose a topic, introduce story elements, develop storyline, conclude story).
LAFS.1112.W.2.AP.5c:	Develop a plan for writing (e.g., choose a topic, introduce argument topic, develop a claim, develop a counter claim, conclude argument).
LAFS.1112.W.2.AP.5d:	Strengthen writing by revising and editing.
LAFS.1112.W.2.AP.5e:	Strengthen writing by revising and editing (e.g., review product, strengthening story).

[LAFS.1112.W.2.6:](#)

Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.

Related Access Points

Name	Description
LAFS.1112.W.2.AP.6a:	Use technology to produce and publish writing (e.g., use the Internet to gather information, word processing to generate and collaborate on writing).

[LAFS.1112.W.3.7:](#)

Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

Related Access Points

Name	Description
LAFS.1112.W.3.AP.7a:	Follow steps to complete a short or sustained research project to build knowledge on a topic or text, answer a question and/or solve a problem (e.g., determine topic, locate information on a topic, organize information related to the topic, draft a permanent product).

[LAFS.1112.W.3.8:](#)

Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.

Related Access Points

Name	Description
LAFS.1112.W.3.AP.8a:	Gather (e.g., highlight, quote or paraphrase from source) relevant information about the topic or text from authoritative print and/or digital sources.
LAFS.1112.W.3.AP.8b:	Gather relevant information about the topic or text and stated claim from authoritative print and/or digital sources.
LAFS.1112.W.3.AP.8c:	Integrate information presented by others that is determined to be the most appropriate for the task, purpose and audience into the writing product while avoiding plagiarism.
LAFS.1112.W.3.AP.8d:	Use a standard format to write citations.
LAFS.1112.W.3.AP.8e:	Avoid plagiarism when integrating multiple sources into a written text or when discussing/referring to text.

[LAFS.1112.W.3.9:](#)

Draw evidence from literary or informational texts to support analysis, reflection, and research.

- Apply grades 11–12 Reading standards to literature (e.g., “Demonstrate knowledge of eighteenth-, nineteenth- and early-twentieth-century foundational works of American literature, including how two or more texts from the same period treat similar themes or topics”).
- Apply grades 11–12 Reading standards to literary nonfiction (e.g., “Delineate and evaluate the reasoning in seminal U.S. texts, including the application of constitutional principles and use of legal reasoning [e.g., in U.S. Supreme Court Case majority opinions and dissents] and the premises, purposes, and arguments in works of public advocacy [e.g., The Federalist, presidential addresses]”).

Related Access Points

Name	Description
------	-------------

[LAFS.1112.W.3.AP.9a](#): Provide evidence from literary or information texts to support analysis, reflection and research.

[LAFS.1112.W.3.AP.9b](#): Evaluate an argument within a seminal text or adapted text to determine if reasoning is valid; reasoning is accurate; evidence is relevant; and evidence is sufficient.

[LAFS.1112.W.3.AP.9c](#): Refine writing to assure accuracy/authenticity (e.g., historical, geographical, technical).

[LAFS.1112.W.4.10](#):

Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

Related Access Points

Name	Description
LAFS.1112.W.4.AP.10a	Write routinely over shorter time frames (e.g., journal entry, letter, graphic organizer) for a range of discipline-specific tasks, purposes and audiences.
LAFS.1112.W.4.AP.10b	Write routinely in a genre over extended time frames (planning, drafting, editing, revising, publishing) for a range of discipline-specific tasks, purposes and audiences.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.
- Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
- Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

Name	Description
LAFS.1112.SL.1.AP.1a	Consider a full range of ideas or positions on a given topic or text when presented in a discussion.
LAFS.1112.SL.1.AP.1b	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1c	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1d	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.1112.SL.1.AP.1e	Work with peers to promote democratic discussions.
LAFS.1112.SL.1.AP.1f	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1g	Engage appropriately in discussion with others who have a diverse or divergent perspectives.

[LAFS.1112.SL.1.2](#):

Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.2a	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.1112.SL.1.3](#):

Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.3a	Determine the speaker’s point of view or purpose in a text.
LAFS.1112.SL.1.AP.3b	Determine what arguments the speaker makes.
LAFS.1112.SL.1.AP.3c	Evaluate the evidence used to make the speaker’s argument.
LAFS.1112.SL.1.AP.3d	Evaluate a speaker’s point of view, reasoning, use of evidence and rhetoric for ideas, relationship between claims, reasoning, evidence and word choice.

[LAFS.1112.SL.2.4](#):

Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

Related Access Points

Name	Description
LAFS.1112.SL.2.AP.4a	Report orally on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.1112.SL.2.5](#):

Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

Related Access Points

Name	Description
------	-------------

[LAFS.1112.SL.2.AP.5a:](#) Include digital multimedia components and visual displays in presentations to clarify claims and findings and emphasize salient points.

[LAFS.1112.SL.2.6:](#)

Adapt speech to a variety of contexts and tasks, demonstrating a command of formal English when indicated or appropriate.

Related Access Points

Name	Description
LAFS.1112.SL.2.AP.6a:	Recognize situations when the use of formal English is necessary (e.g., making a presentation vs. talking with friends).

Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

[LAFS.1112.L.1.1:](#)

- Apply the understanding that usage is a matter of convention, can change over time, and is sometimes contested.
- Resolve issues of complex or contested usage, consulting references (e.g., *Merriam-Webster's Dictionary of English Usage*, *Garner's Modern American Usage*) as needed.

Related Access Points

Name	Description
LAFS.1112.L.1.AP.1a:	Apply conventions of usage in speaking and writing (e.g., who vs. that vs. which; ending a sentence with a preposition; who vs. whom), consulting reference material as needed.

Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

[LAFS.1112.L.1.2:](#)

- Observe hyphenation conventions.
- Spell correctly.

Related Access Points

Name	Description
LAFS.1112.L.1.AP.2a:	Follow hyphenation conventions.
LAFS.1112.L.1.AP.2b:	Spell correctly in writing.

Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

[LAFS.1112.L.2.3:](#)

- Vary syntax for effect, consulting references (e.g., Tufte's *Artful Sentences*) for guidance as needed; apply an understanding of syntax to the study of complex texts when reading.

Related Access Points

Name	Description
LAFS.1112.L.2.AP.3a:	Vary syntax within writing for effect.
LAFS.1112.L.2.AP.3b:	Write and edit work to conform to guidelines in a style manual.

Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on *grades 11–12 reading and content*, choosing flexibly from a range of strategies.

[LAFS.1112.L.3.4:](#)

- Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
- Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., conceive, conception, conceivable).
- Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, its etymology, or its standard usage.
- Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

Related Access Points

Name	Description
LAFS.1112.L.3.AP.4a:	Verify the prediction of the meaning of a new word or phrase.
LAFS.1112.L.3.AP.4b:	Consult reference materials to find the synonym for a word.
LAFS.1112.L.3.AP.4c:	Consult reference materials to find the precise meaning of a word.
LAFS.1112.L.3.AP.4d:	Consult reference materials to find the part of speech for a word.
LAFS.1112.L.3.AP.4e:	Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position in a sentence) as a clue to the meaning of a word or phrase.

Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

[LAFS.1112.L.3.5:](#)

- Interpret figures of speech (e.g., hyperbole, paradox) in context and analyze their role in the text.
- Analyze nuances in the meaning of words with similar denotations.

Related Access Points

Name	Description
LAFS.1112.L.3.AP.5a:	Interpret how literary devices advance the plot and affect the tone or pacing of a work.
LAFS.1112.L.3.AP.5b:	Identify the denotation for a known word.
LAFS.1112.L.3.AP.5c:	Explain differences or changes in the meaning of words with similar denotations.
LAFS.1112.L.3.AP.5d:	Identify hyperbole in a text.

[LAFS.1112.L.3.AP.5e:](#) Interpret figures of speech in context.

[LAFS.1112.L.3.6:](#)

Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

Related Access Points

Name	Description
LAFS.1112.L.3.AP.6a:	Use grade-appropriate general academic and domain-specific words and phrases accurately within writing.
LAFS.1112.L.3.AP.6b:	Use newly acquired domain-specific words and phrases accurately.

Explain skills needed to communicate effectively with family, peers, and others to enhance health.

[HE.912.B.4.1:](#)

Remarks/Examples:

Using "I" messages, voice pitch/volume, eye contact, journal experiences, writing letters, persuasive speech, and assertive communication.

Related Access Points

Name	Description
HE.912.B.4.In.a:	Describe strategies to communicate effectively with family, peers, and others to enhance health, such as having appropriate voice pitch and volume, maintaining eye contact, journaling, letter writing, and speaking persuasively.
HE.912.B.4.Su.a:	Identify strategies to communicate effectively with family, peers, and others to enhance health, such as having appropriate voice pitch and volume, maintaining eye contact, journaling, letter writing, and speaking persuasively.
HE.912.B.4.Pa.a:	Use selected communication strategies to enhance personal health, such as having appropriate volume, maintaining eye contact, and using words and gestures to clarify meaning.

Assess refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks.

[HE.912.B.4.2:](#)

Remarks/Examples:

Validate other's opinions, use direct statement, use active statement, and offer alternatives.

Related Access Points

Name	Description
HE.912.B.4.In.b:	Determine effective refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks, such as validating other's opinions, making direct and active statements, and offering alternatives.
HE.912.B.4.Su.b:	Demonstrate selected effective refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks, such as validating other's opinions, making direct and active statements, and offering alternatives.
HE.912.B.4.Pa.b:	Use a refusal, a negotiation, or a collaboration skill to avoid or reduce personal health risks or resolve conflicts, such as stating desires clearly, offering alternatives, using "I" messages, expressing emotions, or making direct statements.

Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others.

[HE.912.B.4.3:](#)

Remarks/Examples:

Effective verbal and nonverbal communication, compromise, and conflict-resolution.

Related Access Points

Name	Description
HE.912.B.4.In.c:	Use basic strategies to prevent or resolve interpersonal conflicts without harming self or others, such as using effective verbal and nonverbal communication, compromising, and using conflict-resolution skills.
HE.912.B.4.Su.c:	Use a basic strategy to prevent or resolve interpersonal conflicts without harming self or others, such as using effective verbal and nonverbal communication, compromising, or using conflict-resolution skills.
HE.912.B.4.Pa.c:	Use a refusal, a negotiation, or a collaboration skill to avoid or reduce personal health risks or resolve conflicts, such as stating desires clearly, offering alternatives, using "I" messages, expressing emotions, or making direct statements.

Analyze the validity of ways to ask for and offer assistance to enhance the health of self and others.

[HE.912.B.4.4:](#)

Remarks/Examples:

Verbal and written communication, active listening, and how to seek help for a friend.

Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: One credit (1)	Abbreviated Title: FUND ENG 1
Course Status: Draft - Course Pending Approval	Course Length: Year (Y)
	Class Size? Yes

VERSION DESCRIPTION

The purpose of this course is to provide students with disabilities, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language in preparation for college and career readiness.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
 - text craft and structure
 - elements of literature
 - arguments and claims supported by textual evidence
 - power and impact of language
 - influence of history, culture, and setting on language
 - personal critical and aesthetic response
- writing for varied purposes
 - developing and supporting argumentative claims
 - crafting coherent, supported informative/expository texts
 - responding to literature for personal and analytical purposes
 - writing narratives to develop real or imagined events
 - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

The College and Career Readiness (CCR) anchor standards and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate at each grade level. Students advancing through the grades are expected to meet each succeeding year's grade specific benchmarks, retain or further develop skills and understandings mastered in preceding grades, and work steadily toward meeting the more general expectations described by the CCR anchor standards.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should *specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:*

<http://www.cpalms.org/uploads/docs/standards/eld/la.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Course Standards

Reading Literature Standard Notes:

These reading literature standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

Reading Informational Text Standard Notes:

These reading informational text standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades.

Writing Standards Notes:

Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each succeeding year's grade-specific writing standards and retain or further develop skills and understandings mastered in preceding grades.

Speaking and Listening Standards Notes:

The following speaking and listening standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of communication skills and applications.

Language Standards Notes:

The following language standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of language skills and applications. Students advancing through the grades are expected to meet each succeeding year's grade-specific benchmarks and retain or further develop skills and understandings mastered in preceding grades. **The following standards may be addressed again in higher grades at a more rigorous level of study:**

Name	Description
LA.910.1.7.4:	The student will identify cause-and-effect relationships in text;
LA.910.1.7.5:	The student will analyze a variety of text structures (e.g., comparison/contrast, cause/effect, chronological order, argument/support, lists) and text features (main headings with subheadings) and explain their impact on meaning in text;
LA.910.2.2.1:	The student will analyze and evaluate information from text features (e.g., transitional devices, table of contents, glossary, index, bold or italicized text, headings, charts and graphs, illustrations, subheadings); Monitor current public issues in Florida.
SS.912.C.2.10:	Remarks/Examples: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
LAFS.910.RL.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
LAFS.910.RL.1.2:	Determine a theme or central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an objective summary of the text.
LAFS.910.RL.1.3:	Analyze how complex characters (e.g., those with multiple or conflicting motivations) develop over the course of a text, interact with other characters, and advance the plot or develop the theme.
LAFS.910.RL.2.4:	Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone).
LAFS.910.RL.2.5:	Analyze how an author's choices concerning how to structure a text, order events within it (e.g., parallel plots), and manipulate time (e.g., pacing, flashbacks) create such effects as mystery, tension, or surprise.
LAFS.910.RL.2.6:	Analyze a particular point of view or cultural experience reflected in a work of literature from outside the United States, drawing on a wide reading of world literature.
LAFS.910.RL.3.7:	Analyze the representation of a subject or a key scene in two different artistic mediums, including what is emphasized or absent in each treatment (e.g., Auden's "Musée des Beaux Arts" and Breughel's Landscape with the Fall of Icarus). By the end of grade 9, read and comprehend literature, including stories, dramas, and poems, in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.
LAFS.910.RL.4.10:	By the end of grade 10, read and comprehend literature, including stories, dramas, and poems, at the high end of the grades 9-10 text complexity band independently and proficiently.
LAFS.910.RI.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
LAFS.910.RI.1.2:	Determine a central idea of a text and analyze its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an objective summary of the text.
LAFS.910.RI.1.3:	Analyze how the author unfolds an analysis or series of ideas or events, including the order in which the points are made, how they are introduced and developed, and the connections that are drawn between them.
LAFS.910.RI.2.4:	Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language of a court opinion differs from that of a newspaper).
LAFS.910.RI.3.7:	Analyze various accounts of a subject told in different mediums (e.g., a person's life story in both print and multimedia), determining which details are emphasized in each account. By the end of grade 9, read and comprehend literary nonfiction in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

[LAFS.910.RI.4.10:](#)

By the end of grade 10, read and comprehend literary nonfiction at the high end of the grades 9–10 text complexity band independently and proficiently.

Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content.

- a. Introduce a topic; organize complex ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and **examples appropriate to the audience’s knowledge of the topic.**

[LAFS.910.W.1.2:](#)

- c. Use appropriate and varied transitions to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- d. Use precise language and domain-specific vocabulary to manage the complexity of the topic.
- e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

- a. Engage and orient the reader by setting out a problem, situation, or observation, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
- b. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.

[LAFS.910.W.1.3:](#)

- c. Use a variety of techniques to sequence events so that they build on one another to create a coherent whole.
- d. Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.
- e. Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.

[LAFS.910.W.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

[LAFS.910.W.2.5:](#)

Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

[LAFS.910.W.2.6:](#)

Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology’s capacity to link to other information and to display information flexibly and dynamically.

Draw evidence from literary or informational texts to support analysis, reflection, and research.

[LAFS.910.W.3.9:](#)

- a. Apply grades 9–10 Reading standards to literature (e.g., “Analyze how an author draws on and transforms source material in a specific work [e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare]”).
- b. Apply grades 9–10 Reading standards to literary nonfiction (e.g., “Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning”).

[LAFS.910.W.4.10:](#)

Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

[LAFS.910.SL.1.1:](#)

- a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

[LAFS.910.SL.2.5:](#)

Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

[LAFS.910.SL.2.6:](#)

Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate.

Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

[LAFS.910.L.1.1:](#)

- a. Use parallel structure.
- b. Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey specific meanings and add variety and interest to writing or presentations.

Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

[LAFS.910.L.1.2:](#)

- a. Use a semicolon, with or without a conjunctive adverb, to link two or more closely related independent clauses.
- b. Use a colon to introduce a list or quotation.
- c. Spell correctly.

[LAFS.910.L.1.2b:](#)

Use a colon to introduce a list or quotation.

LAFS.910.L.1.2c:	Spell correctly.
LAFS.910.L.2.3:	Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening. a. Write and edit work so that it conforms to the guidelines in a style manual (e.g., <i>MLA Handbook</i> , <i>Turabian's Manual for Writers</i>) appropriate for the discipline and writing type.
LAFS.910.L.3.4:	Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on <i>grades 9–10 reading and content</i> , choosing flexibly from a range of strategies. a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase. b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analysis, analytical; advocate, advocacy). c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology. d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).
LAFS.910.L.3.6:	Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.
HE.912.C.1.2:	Interpret the significance of interrelationships in mental/emotional, physical, and social health. Remarks/Examples: Substance abuse, eating disorders, sexual behaviors, healthy/unhealthy relationships, self-esteem, stress/anger management, and regular exercise.
HE.912.C.2.5:	Evaluate the effect of media on personal and family health. Remarks/Examples: Compares brand-name/store-brand items in home, analyzes television viewing habits, identifies effective PSAs, consumer skills, advertisements of health-related community resources, participation in risky behaviors, and deconstructs media to identify promotion of unhealthy stereotypes, and normalization of violence.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.LA.1:	English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Language Arts.
LAFS.910.L.3.5b:	Analyze nuances in the meaning of words with similar denotations.

There are more than 290 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12936>

Fundamental English 2 (#7910120)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7910120	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: One credit (1)	Abbreviated Title: FUND ENG 2
Course Status: Draft - Course Pending Approval	Course Length: Year (Y)
	Class Size? Yes

VERSION DESCRIPTION

The purpose of this course is to provide students with disabilities, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language in preparation for college and career readiness.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
 - text craft and structure
 - elements of literature
 - arguments and claims supported by textual evidence
 - power and impact of language
 - influence of history, culture, and setting on language
 - personal critical and aesthetic response
- writing for varied purposes
 - developing and supporting argumentative claims
 - crafting coherent, supported informative/expository texts
 - responding to literature for personal and analytical purposes
 - writing narratives to develop real or imagined events
 - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

The College and Career Readiness (CCR) anchor standards and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate at each grade level. Students advancing through the grades are expected to meet each succeeding year's grade specific benchmarks, retain or further develop skills and understandings mastered in preceding grades, and work steadily toward meeting the more general expectations described by the CCR anchor standards.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/la.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Course Standards

Reading Literature Standard Notes:

These reading literature standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

Reading Informational Text Standard Notes:

These reading informational text standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades.

Writing

Standards Notes: Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each succeeding year's grade-specific writing standards and retain or further develop skills and understandings mastered in preceding grades.

Speaking and Listening Standards Notes:

The following speaking and listening standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of communication skills and applications.

Language Standards Notes:

The following language standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of language skills and applications. Students advancing through the grades are expected to meet each succeeding year's grade-specific benchmarks and retain or further develop skills and understandings mastered in preceding grades. **The following standards may be addressed again in higher grades at a more rigorous level of study:**

Blended Curriculum:

The Florida Standards are designed to lead all children toward college and career readiness. To enhance clarity in Florida's transition to the Florida Standards, the following three Next Generation Sunshine State Standards are part of a blended curriculum design to be used during the 2013- 2014 school year. These three standards are implicitly interwoven into several of the Florida Standards; however, due to this rigorous, deeply embedded design, each one is explicitly listed here to ensure their inclusion in the English language arts curriculum for the 2013- 2014 school year. All other FCAT- assessed NGSS standards are clearly taught in the CCSS.

Name	Description
LA.910.1.7.4:	The student will identify cause-and-effect relationships in text;
LA.910.1.7.5:	The student will analyze a variety of text structures (e.g., comparison/contrast, cause/effect, chronological order, argument/support, lists) and text features (main headings with subheadings) and explain their impact on meaning in text;
LA.910.2.2.1:	The student will analyze and evaluate information from text features (e.g., transitional devices, table of contents, glossary, index, bold or italicized text, headings, charts and graphs, illustrations, subheadings);
SS.912.C.2.10:	Monitor current public issues in Florida.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
LAFS.910.RL.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
LAFS.910.RL.1.2:	Determine a theme or central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an objective summary of the text.
LAFS.910.RL.1.3:	Analyze how complex characters (e.g., those with multiple or conflicting motivations) develop over the course of a text, interact with other characters, and advance the plot or develop the theme.
LAFS.910.RL.2.4:	Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone).
LAFS.910.RL.2.5:	Analyze how an author's choices concerning how to structure a text, order events within it (e.g., parallel plots), and manipulate time (e.g., pacing, flashbacks) create such effects as mystery, tension, or surprise.
LAFS.910.RL.2.6:	Analyze a particular point of view or cultural experience reflected in a work of literature from outside the United States, drawing on a wide reading of world literature.
LAFS.910.RL.3.7:	Analyze the representation of a subject or a key scene in two different artistic mediums, including what is emphasized or absent in each treatment (e.g., Auden's "Musée des Beaux Arts" and Breughel's Landscape with the Fall of Icarus).
LAFS.910.RL.4.10:	By the end of grade 9, read and comprehend literature, including stories, dramas, and poems, in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.
LAFS.910.RL.4.10:	By the end of grade 10, read and comprehend literature, including stories, dramas, and poems, at the high end of the grades 9-10 text complexity band independently and proficiently.
LAFS.910.RI.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
LAFS.910.RI.1.2:	Determine a central idea of a text and analyze its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an objective summary of the text.

LAFS.910.RI.1.3:	Analyze how the author unfolds an analysis or series of ideas or events, including the order in which the points are made, how they are introduced and developed, and the connections that are drawn between them.
LAFS.910.RI.2.4:	Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language of a court opinion differs from that of a newspaper).
LAFS.910.RI.3.7:	Analyze various accounts of a subject told in different mediums (e.g., a person's life story in both print and multimedia), determining which details are emphasized in each account.
LAFS.910.RI.4.10:	By the end of grade 9, read and comprehend literary nonfiction in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range. By the end of grade 10, read and comprehend literary nonfiction at the high end of the grades 9–10 text complexity band independently and proficiently.
LAFS.910.W.1.2:	Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content. <ul style="list-style-type: none"> a. Introduce a topic; organize complex ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use appropriate and varied transitions to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.W.1.3:	Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences. <ul style="list-style-type: none"> a. Engage and orient the reader by setting out a problem, situation, or observation, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events. b. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters. c. Use a variety of techniques to sequence events so that they build on one another to create a coherent whole. d. Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters. e. Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.
LAFS.910.W.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)
LAFS.910.W.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.W.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.W.3.9:	Draw evidence from literary or informational texts to support analysis, reflection, and research. <ul style="list-style-type: none"> a. Apply grades 9–10 Reading standards to literature (e.g., "Analyze how an author draws on and transforms source material in a specific work [e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare]"). b. Apply grades 9–10 Reading standards to literary nonfiction (e.g., "Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning").
LAFS.910.W.4.10:	Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.SL.2.5:	Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.
LAFS.910.SL.2.6:	Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate.
LAFS.910.L.1.1:	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking. <ul style="list-style-type: none"> a. Use parallel structure. b. Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey specific meanings and add variety and interest to writing or presentations.

Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

[LAFS.910.L.1.2:](#)

- a. Use a semicolon, with or without a conjunctive adverb, to link two or more closely related independent clauses.
- b. Use a colon to introduce a list or quotation.
- c. Spell correctly.

Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

[LAFS.910.L.2.3:](#)

- a. Write and edit work so that it conforms to the guidelines in a style manual (e.g., *MLA Handbook*, *Turabian's Manual for Writers*) appropriate for the discipline and writing type.

Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on *grades 9–10 reading and content*, choosing flexibly from a range of strategies.

[LAFS.910.L.3.4:](#)

- a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
- b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analysis, analytical; advocate, advocacy).
- c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
- d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

[LAFS.910.L.3.5:](#)

- a. Interpret figures of speech (e.g., euphemism, oxymoron) in context and analyze their role in the text.
- b. Analyze nuances in the meaning of words with similar denotations.

Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

[LAFS.910.L.3.6:](#)

Justify the validity of a variety of technologies to gather health information.

[HE.912.B.3.3:](#)

Remarks/Examples:

Internet, telephone, 911 access, and medical technology, including X-rays, ultrasounds, mammograms, thermal imaging, and MRIs.

Determine the value of applying a thoughtful decision-making process in health-related situations.

[HE.912.B.5.1:](#)

Remarks/Examples:

Defining healthy boundaries and relationships, sexual activity, alcohol consumption, organ-donor decisions, child care, protection against infectious agents, wellness promotion, and first-aid-treatment options.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.LA.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Language Arts.

There are more than 290 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12937>

Fundamental English 3 (#7910125)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7910125	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: One credit (1)	Abbreviated Title: FUND ENG 3
Course Status: Draft - Course Pending Approval	Course Length: Year (Y)
	Class Size? Yes

VERSION DESCRIPTION

The purpose of this course is to provide students with disabilities, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language in preparation for college and career readiness.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
 - text craft and structure
 - elements of literature
 - arguments and claims supported by textual evidence
 - power and impact of language
 - influence of history, culture, and setting on language
 - personal critical and aesthetic response
- writing for varied purposes
 - developing and supporting argumentative claims
 - crafting coherent, supported informative/expository texts
 - responding to literature for personal and analytical purposes
 - writing narratives to develop real or imagined events
 - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

The College and Career Readiness (CCR) anchor standards and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate at each grade level. Students advancing through the grades are expected to meet each succeeding year's grade specific benchmarks, retain or further develop skills and understandings mastered in preceding grades, and work steadily toward meeting the more general expectations described by the CCR anchor standards.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should *specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:*

<http://www.cpalms.org/uploads/docs/standards/eld/la.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Course Standards

Reading Literature Standard Notes:

These reading literature standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

Reading Informational Text Standard Notes:

These reading informational text standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades.

Writing Standards Notes:

Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each succeeding year's grade-specific writing standards and retain or further develop skills and understandings mastered in preceding grades.

Speaking and Listening Standards Notes:

The following speaking and listening standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of communication skills and applications.

Language Standards Notes:

The following language standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of language skills and applications. Students advancing through the grades are expected to meet each succeeding year's grade-specific benchmarks and retain or further develop skills and understandings mastered in preceding grades. **The following standards may be addressed again in higher grades at a more rigorous level of study:**

Name	Description
	Monitor current public issues in Florida.
SS.912.C.2.10:	<div style="border: 1px solid black; padding: 5px;"> Remarks/Examples: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging. </div>
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
LAFS.1112.RL.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.
LAFS.1112.RL.1.2:	Determine two or more themes or central ideas of a text and analyze their development over the course of the text, including how they interact and build on one another to produce a complex account; provide an objective summary of the text.
LAFS.1112.RL.1.3:	Analyze the impact of the author's choices regarding how to develop and relate elements of a story or drama (e.g., where a story is set, how the action is ordered, how the characters are introduced and developed).
LAFS.1112.RL.2.4:	Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including words with multiple meanings or language that is particularly fresh, engaging, or beautiful. (Include Shakespeare as well as other authors.)
LAFS.1112.RL.3.7:	Analyze multiple interpretations of a story, drama, or poem (e.g., recorded or live production of a play or recorded novel or poetry), evaluating how each version interprets the source text. (Include at least one play by Shakespeare and one play by an American dramatist.)
LAFS.1112.RL.4.10:	By the end of grade 11, read and comprehend literature, including stories, dramas, and poems, in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range.
	By the end of grade 12, read and comprehend literature, including stories, dramas, and poems, at the high end of the grades 11–CCR text complexity band independently and proficiently.
LAFS.1112.RI.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.
LAFS.1112.RI.1.2:	Determine two or more central ideas of a text and analyze their development over the course of the text, including how they interact and build on one another to provide a complex analysis; provide an objective summary of the text.
LAFS.1112.RI.1.3:	Analyze a complex set of ideas or sequence of events and explain how specific individuals, ideas, or events interact and develop over the course of the text.
LAFS.1112.RI.2.4:	Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze how an author uses and refines the meaning of a key term or terms over the course of a text (e.g., how Madison defines faction in Federalist No. 10).
LAFS.1112.RI.3.7:	Integrate and evaluate multiple sources of information presented in different media or formats (e.g., visually, quantitatively) as well as in words in order to address a question or solve a problem.
	By the end of grade 11, read and comprehend literary nonfiction in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range.
LAFS.1112.RI.4.10:	By the end of grade 12, read and comprehend literary nonfiction at the high end of the grades 11–CCR text complexity band independently and proficiently.
	Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective

selection, organization, and analysis of content.

- a. Introduce a topic; organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- c. Use appropriate and varied transitions and syntax to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- d. Use precise language, domain-specific vocabulary, and techniques such as metaphor, simile, and analogy to manage the complexity of the topic.
- e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

[LAFS.1112.W.1.2:](#)

Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

- a. Engage and orient the reader by setting out a problem, situation, or observation and its significance, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
- b. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.
- c. Use a variety of techniques to sequence events so that they build on one another to create a coherent whole and build toward a particular tone and outcome (e.g., a sense of mystery, suspense, growth, or resolution).
- d. Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.
- e. Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.

[LAFS.1112.W.1.3:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

[LAFS.1112.W.2.4:](#)

Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

[LAFS.1112.W.2.5:](#)

Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.

[LAFS.1112.W.2.6:](#)

Draw evidence from literary or informational texts to support analysis, reflection, and research.

- a. Apply grades 11–12 Reading standards to literature (e.g., “Demonstrate knowledge of eighteenth-, nineteenth- and early-twentieth-century foundational works of American literature, including how two or more texts from the same period treat similar themes or topics”).
- b. Apply grades 11–12 Reading standards to literary nonfiction (e.g., “Delineate and evaluate the reasoning in seminal U.S. texts, including the application of constitutional principles and use of legal reasoning [e.g., in U.S. Supreme Court Case majority opinions and dissents] and the premises, purposes, and arguments in works of public advocacy [e.g., *The Federalist*, presidential addresses]”).

[LAFS.1112.W.3.9:](#)

Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

[LAFS.1112.W.4.10:](#)

Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.

[LAFS.1112.SL.1.2:](#)

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

[LAFS.1112.SL.1.3:](#)

Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

[LAFS.1112.SL.2.4:](#)

Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

[LAFS.1112.SL.2.5:](#)

Adapt speech to a variety of contexts and tasks, demonstrating a command of formal English when indicated or appropriate.

[LAFS.1112.SL.2.6:](#)

Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

- a. Apply the understanding that usage is a matter of convention, can change over time, and is sometimes contested.
- b. Resolve issues of complex or contested usage, consulting references (e.g., *Merriam-Webster's Dictionary of English Usage*, *Garner's Modern American Usage*) as needed.

[LAFS.1112.L.1.1:](#)

Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

- a. Observe hyphenation conventions.
- b. Spell correctly.

[LAFS.1112.L.1.2:](#)

Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

[LAFS.1112.L.2.3:](#)

- a. Vary syntax for effect, consulting references (e.g., Tufte's *Artful Sentences*) for guidance as needed; apply an understanding of syntax to the study of complex texts when reading.

Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on *grades 11–12 reading and content*, choosing flexibly from a range of strategies.

- a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
- b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., conceive, conception, conceivable).
- c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, its etymology, or its standard usage.
- d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

[LAFS.1112.L.3.4:](#)

Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the

LAFS.1112.L.3.6:	college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.	
	Explain skills needed to communicate effectively with family, peers, and others to enhance health.	
HE.912.B.4.1:	<table border="1"> <tr> <td>Remarks/Examples: Using "I" messages, voice pitch/volume, eye contact, journal experiences, writing letters, persuasive speech, and assertive communication.</td> </tr> </table>	Remarks/Examples: Using "I" messages, voice pitch/volume, eye contact, journal experiences, writing letters, persuasive speech, and assertive communication.
Remarks/Examples: Using "I" messages, voice pitch/volume, eye contact, journal experiences, writing letters, persuasive speech, and assertive communication.		
	Assess refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks.	
HE.912.B.4.2:	<table border="1"> <tr> <td>Remarks/Examples: Validate other's opinions, use direct statement, use active statement, and offer alternatives.</td> </tr> </table>	Remarks/Examples: Validate other's opinions, use direct statement, use active statement, and offer alternatives.
Remarks/Examples: Validate other's opinions, use direct statement, use active statement, and offer alternatives.		
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.	
ELD.K12.ELL.LA.1:	English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Language Arts.	
LAFS.1112.L.3.5b:	Analyze nuances in the meaning of words with similar denotations.	

There are more than 106 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12938>

Fundamental English 4 (#7910130)

VERSION DESCRIPTION

The purpose of this course is to provide students with disabilities, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language in preparation for college and career readiness.

GENERAL NOTES

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
 - text craft and structure
 - elements of literature
 - arguments and claims supported by textual evidence
 - power and impact of language
 - influence of history, culture, and setting on language
 - personal critical and aesthetic response
- writing for varied purposes
 - developing and supporting argumentative claims
 - crafting coherent, supported informative/expository texts
 - responding to literature for personal and analytical purposes
 - writing narratives to develop real or imagined events
 - writing to sources using text-based evidence and reasoning
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

Special Notes:

Instructional Practices: Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any purpose. Using the following instructional practices also helps student learning.

1. Reading assignments from longer text passages, as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

The College and Career Readiness (CCR) anchor standards and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate at each grade level. Students advancing through the grades are expected to meet each succeeding year's grade specific benchmarks, retain or further develop skills and understandings mastered in preceding grades, and work steadily toward meeting the more general expectations described by the CCR anchor standards.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Language Arts. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/la.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Course Standards

Reading Literature Standard Notes:

These reading literature standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

Reading Informational Text Standard Notes:

These reading informational text standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades.

Writing Standards Notes:

Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each succeeding year's grade-specific writing standards and retain or further develop skills and understandings mastered in preceding grades.

Speaking and Listening Standards Notes:

The following speaking and listening standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of communication skills and applications.

Language Standards Notes:

The following language standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of language skills and applications. Students advancing through the grades are expected to meet each succeeding year's grade-specific benchmarks and retain or further develop skills and understandings mastered in preceding grades.

Name	Description
SS.912.C.2.10:	Monitor current public issues in Florida. Remarks/Examples: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
LAFS.1112.RL.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.
LAFS.1112.RL.1.2:	Determine two or more themes or central ideas of a text and analyze their development over the course of the text, including how they interact and build on one another to produce a complex account; provide an objective summary of the text.
LAFS.1112.RL.1.3:	Analyze the impact of the author's choices regarding how to develop and relate elements of a story or drama (e.g., where a story is set, how the action is ordered, how the characters are introduced and developed).
LAFS.1112.RL.2.4:	Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including words with multiple meanings or language that is particularly fresh, engaging, or beautiful. (Include Shakespeare as well as other authors.)
LAFS.1112.RL.3.7:	Analyze multiple interpretations of a story, drama, or poem (e.g., recorded or live production of a play or recorded novel or poetry), evaluating how each version interprets the source text. (Include at least one play by Shakespeare and one play by an American dramatist.)
LAFS.1112.RL.4.10:	By the end of grade 11, read and comprehend literature, including stories, dramas, and poems, in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range.
LAFS.1112.RI.1.1:	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.
LAFS.1112.RI.1.2:	Determine two or more central ideas of a text and analyze their development over the course of the text, including how they interact and build on one another to provide a complex analysis; provide an objective summary of the text.
LAFS.1112.RI.1.3:	Analyze a complex set of ideas or sequence of events and explain how specific individuals, ideas, or events interact and develop over the course of the text.
LAFS.1112.RI.2.4:	Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze how an author uses and refines the meaning of a key term or terms over the course of a text (e.g., how Madison defines faction in Federalist No. 10).
LAFS.1112.RI.3.7:	Integrate and evaluate multiple sources of information presented in different media or formats (e.g., visually, quantitatively) as well as in words in order to address a question or solve a problem.
LAFS.1112.RI.4.10:	By the end of grade 11, read and comprehend literary nonfiction in the grades 11–CCR text complexity band proficiently, with scaffolding as needed at the high end of the range.
LAFS.1112.RI.4.10:	By the end of grade 12, read and comprehend literary nonfiction at the high end of the grades 11–CCR text complexity band independently and proficiently.
	Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content.

LAFS.1112.W.1.2:	<p>a. Introduce a topic; organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.</p> <p>b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.</p> <p>c. Use appropriate and varied transitions and syntax to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.</p> <p>d. Use precise language, domain-specific vocabulary, and techniques such as metaphor, simile, and analogy to manage the complexity of the topic.</p> <p>e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).</p>
LAFS.1112.W.1.3:	<p>Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.</p> <p>a. Engage and orient the reader by setting out a problem, situation, or observation and its significance, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.</p> <p>b. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.</p> <p>c. Use a variety of techniques to sequence events so that they build on one another to create a coherent whole and build toward a particular tone and outcome (e.g., a sense of mystery, suspense, growth, or resolution).</p> <p>d. Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.</p> <p>e. Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.</p>
LAFS.1112.W.2.4:	<p>Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)</p>
LAFS.1112.W.2.5:	<p>Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.</p>
LAFS.1112.W.2.6:	<p>Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.</p>
LAFS.1112.W.3.9:	<p>Draw evidence from literary or informational texts to support analysis, reflection, and research.</p> <p>a. Apply grades 11–12 Reading standards to literature (e.g., "Demonstrate knowledge of eighteenth-, nineteenth- and early-twentieth-century foundational works of American literature, including how two or more texts from the same period treat similar themes or topics").</p> <p>b. Apply grades 11–12 Reading standards to literary nonfiction (e.g., "Delineate and evaluate the reasoning in seminal U.S. texts, including the application of constitutional principles and use of legal reasoning [e.g., in U.S. Supreme Court Case majority opinions and dissents] and the premises, purposes, and arguments in works of public advocacy [e.g., <i>The Federalist</i>, presidential addresses]").</p>
LAFS.1112.W.4.10:	<p>Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.</p>
LAFS.1112.SL.1.2:	<p>Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.</p>
LAFS.1112.SL.1.3:	<p>Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.</p>
LAFS.1112.SL.2.4:	<p>Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.</p>
LAFS.1112.SL.2.5:	<p>Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.</p>
LAFS.1112.SL.2.6:	<p>Adapt speech to a variety of contexts and tasks, demonstrating a command of formal English when indicated or appropriate.</p>
LAFS.1112.L.1.1:	<p>Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.</p> <p>a. Apply the understanding that usage is a matter of convention, can change over time, and is sometimes contested.</p> <p>b. Resolve issues of complex or contested usage, consulting references (e.g., <i>Merriam-Webster's Dictionary of English Usage</i>, <i>Garner's Modern American Usage</i>) as needed.</p>
LAFS.1112.L.1.2:	<p>Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.</p> <p>a. Observe hyphenation conventions.</p> <p>b. Spell correctly.</p>
LAFS.1112.L.2.3:	<p>Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.</p> <p>a. Vary syntax for effect, consulting references (e.g., <i>Tufte's Artful Sentences</i>) for guidance as needed; apply an understanding of syntax to the study of complex texts when reading.</p>
LAFS.1112.L.3.4:	<p>Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on <i>grades 11–12 reading and content</i>, choosing flexibly from a range of strategies.</p> <p>a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.</p> <p>b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., conceive, conception, conceivable).</p> <p>c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, its etymology, or its standard usage.</p> <p>d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).</p>
LAFS.1112.L.3.5:	<p>Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.</p> <p>a. Interpret figures of speech (e.g., hyperbole, paradox) in context and analyze their role in the text.</p>

	b. Analyze nuances in the meaning of words with similar denotations.	
LAFS.1112.L.3.6:	Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.	
	Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others.	
HE.912.B.4.3:	<table border="1"> <tr> <td>Remarks/Examples: Effective verbal and nonverbal communication, compromise, and conflict-resolution.</td> </tr> </table>	Remarks/Examples: Effective verbal and nonverbal communication, compromise, and conflict-resolution.
Remarks/Examples: Effective verbal and nonverbal communication, compromise, and conflict-resolution.		
	Analyze the validity of ways to ask for and offer assistance to enhance the health of self and others.	
HE.912.B.4.4:	<table border="1"> <tr> <td>Remarks/Examples: Verbal and written communication, active listening, and how to seek help for a friend.</td> </tr> </table>	Remarks/Examples: Verbal and written communication, active listening, and how to seek help for a friend.
Remarks/Examples: Verbal and written communication, active listening, and how to seek help for a friend.		
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.	
ELD.K12.ELL.LA.1:	English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Language Arts.	

There are more than 106 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12939>

Access Informal Geometry (#7912060) [{ Informal Geometry - 1206300 }](#)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7912060	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Academics - Subject Areas >
Course Section: Exceptional Student Education	Abbreviated Title: ACCESS INF GEOMETRY
Number of Credits: Course may be taken for up to two credits	Course Length: Year (Y)
Course Type: Core	Class Size? Yes
Course Status: Draft - Course Pending Approval	Requires a Highly Qualified Teacher (HQT)? Yes
Grade Level(s) Version: 9,10,11,12	
NCLB? Yes	

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MAFS.912.N-RN.1.2:	Rewrite expressions involving radicals and rational exponents using the properties of exponents.
Related Access Points	
Name	Description
MAFS.912.N-RN.1.AP.2a:	Convert from radical representation to using rational exponents and vice versa.
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★
Related Access Points	
Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.
MAFS.912.A-SSE.2.3:	Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. ★ a. Factor a quadratic expression to reveal the zeros of the function it defines. b. Complete the square in a quadratic expression to reveal the maximum or minimum value of the function it defines. c. Use the properties of exponents to transform expressions for exponential functions. For example the expression 1.15^t can be rewritten as $(1.15^{1/12})^{12t} \approx 1.01^{12t}$ to reveal the approximate equivalent monthly interest rate if the annual rate is 15%.

Related Access Points

Name	Description
MAFS.912.A-SSE.2.AP.3a:	Write expressions in equivalent forms by factoring to find the zeros of a quadratic function and explain the meaning of the zeros.
MAFS.912.A-SSE.2.AP.3b:	Given a quadratic function, explain the meaning of the zeros of the function (e.g., if $f(x) = (x - c)(x - a)$ then $f(a) = 0$ and $f(c) = 0$).
MAFS.912.A-SSE.2.AP.3c:	Given a quadratic expression, explain the meaning of the zeros graphically (e.g., for an expression $(x - a)(x - c)$, a and c correspond to the x -intercepts (if a and c are real)).
MAFS.912.A-SSE.2.AP.3d:	Write expressions in equivalent forms by completing the square to convey the vertex form, to find the maximum or minimum value of a quadratic function, and to explain the meaning of the vertex.
MAFS.912.A-SSE.2.AP.3e:	Use properties of exponents (such as power of a power, product of powers, power of a product, and rational exponents, etc.) to write an equivalent form of an exponential function to reveal and explain specific information about its approximate rate of growth or decay.

[MAFS.912.A-CED.1.1:](#)

Create equations and inequalities in one variable and use them to solve problems. Include equations arising from linear and quadratic functions, and simple rational, absolute, and exponential functions. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.1a:	Create linear, quadratic, rational, and exponential equations and inequalities in one variable and use them in a contextual situation to solve problems.

Distinguish between situations that can be modeled with linear functions and with exponential functions. ★

- Prove that linear functions grow by equal differences over equal intervals, and that exponential functions grow by equal factors over equal intervals.
- Recognize situations in which one quantity changes at a constant rate per unit interval relative to another.
- Recognize situations in which a quantity grows or decays by a constant percent rate per unit interval relative to another.

[MAFS.912.F-LE.1.1:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.1a:	Select the appropriate graphical representation of a linear model based on real-world events.
MAFS.912.F-LE.1.AP.1b:	In a linear situation using graphs or numbers, predict the change in rate based on a given change in one variable (e.g., If I have been adding sugar at a rate of 1T per cup of water, what happens to my rate if I switch to 2T of sugar for every cup of water?).

[MAFS.912.G-CO.1.1:](#)

Know precise definitions of angle, circle, perpendicular line, parallel line, and line segment, based on the undefined notions of point, line, distance along a line, and distance around a circular arc.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.1a:	Identify precise definitions of angle, circle, perpendicular line, parallel line and line segment, based on the undefined notions of point, line, distance along a line, and distance around a circular arc.

[MAFS.912.G-CO.1.2:](#)

Represent transformations in the plane using, e.g., transparencies and geometry software; describe transformations as functions that take points in the plane as inputs and give other points as outputs. Compare transformations that preserve distance and angle to those that do not (e.g., translation versus horizontal stretch).

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.2a:	Represent transformations in the plane using, e.g., transparencies and geometry software.
MAFS.912.G-CO.1.AP.2b:	Compare transformations that preserve distance and angle to those that do not (e.g., translation versus horizontal stretch).

[MAFS.912.G-CO.1.3:](#)

Given a rectangle, parallelogram, trapezoid, or regular polygon, describe the rotations and reflections that carry it onto itself.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.3a:	Describe the rotations and reflections of a rectangle, parallelogram, trapezoid, or regular polygon that maps each figure onto itself.

[MAFS.912.G-CO.1.4:](#)

Develop definitions of rotations, reflections, and translations in terms of angles, circles, perpendicular lines, parallel lines, and line segments.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.4a:	Using previous comparisons and descriptions of transformations, develop and understand the meaning of rotations, reflections, and translations based on angles, circles, perpendicular lines, parallel lines, and line segments.

[MAFS.912.G-CO.1.5:](#)

Given a geometric figure and a rotation, reflection, or translation, draw the transformed figure using, e.g., graph paper, tracing paper, or geometry software. Specify a sequence of transformations that will carry a given figure onto another.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.5a:	Transform a geometric figure given a rotation, reflection, or translation using graph paper, tracing paper, or geometric software.
MAFS.912.G-CO.1.AP.5b:	Create sequences of transformations that map a geometric figure on to itself and another geometric figure.

[MAFS.912.G-CO.2.6:](#)

Use geometric descriptions of rigid motions to transform figures and to predict the effect of a given rigid motion on a given figure; given two figures, use the definition of congruence in terms of rigid motions to decide if they are congruent.

Related Access Points

Name	Description
MAFS.912.G-CO.2.AP.6a:	Use descriptions of rigid motion and transformed geometric figures to predict the effects rigid motion has on figures in the coordinate plane.
MAFS.912.G-CO.2.AP.6b:	Knowing that rigid transformations preserve size and shape or distance and angle, use this fact to connect the idea of congruency and develop the definition of congruent.

[MAFS.912.G-CO.2.7:](#)

Use the definition of congruence in terms of rigid motions to show that two triangles are congruent if and only if corresponding pairs of sides and corresponding pairs of angles are congruent.

Related Access Points

Name	Description
MAFS.912.G-CO.2.AP.7a:	Use definitions to demonstrate congruency and similarity in figures.

[MAFS.912.G-CO.2.8:](#)

Explain how the criteria for triangle congruence (ASA, SAS, SSS, and Hypotenuse-Leg) follow from the definition of congruence in terms of rigid motions.

Related Access Points

Name	Description
MAFS.912.G-CO.2.AP.8a:	Use the definition of congruence, based on rigid motion, to develop and explain the triangle congruence criteria; ASA, SSS, and SAS.

[MAFS.912.G-SRT.1.1:](#)

Verify experimentally the properties of dilations given by a center and a scale factor:

- A dilation takes a line not passing through the center of the dilation to a parallel line, and leaves a line passing through the center unchanged.
- The dilation of a line segment is longer or shorter in the ratio given by the scale factor.

Related Access Points

Name	Description
MAFS.912.G-SRT.1.AP.1a:	Given a center and a scale factor, verify experimentally that when dilating a figure in a coordinate plane, a segment of the pre-image that does not pass through the center of the dilation, is parallel to its image when the dilation is performed. However, a segment that passes through the center remains unchanged.
MAFS.912.G-SRT.1.AP.1b:	Given a center and a scale factor, verify experimentally that when performing dilations of a line segment, the pre-image, the segment which becomes the image is longer or shorter based on the ratio given by the scale factor.

[MAFS.912.G-SRT.1.2:](#)

Given two figures, use the definition of similarity in terms of similarity transformations to decide if they are similar; explain using similarity transformations the meaning of similarity for triangles as the equality of all corresponding pairs of angles and the proportionality of all corresponding pairs of sides.

Related Access Points

Name	Description
MAFS.912.G-SRT.1.AP.2a:	Determine if two figures are similar.
MAFS.912.G-SRT.1.AP.2b:	Given two figures, determine whether they are similar and explain their similarity based on the equality of corresponding angles and the proportionality of corresponding sides.

[MAFS.912.G-SRT.1.3:](#)

Use the properties of similarity transformations to establish the AA criterion for two triangles to be similar.

Related Access Points

Name	Description
MAFS.912.G-SRT.1.AP.3a:	Apply the angle-angle (AA) criteria for triangle similarity on two triangles.

Use congruence and similarity criteria for triangles to solve problems and to prove relationships in geometric figures.

[MAFS.912.G-SRT.2.5:](#)

Remarks/Examples: Geometry - Fluency Recommendations

Fluency with the triangle congruence and similarity criteria will help students throughout their investigations of triangles, quadrilaterals, circles, parallelism, and trigonometric ratios. These criteria are necessary tools in many geometric modeling tasks.

Related Access Points

Name	Description
------	-------------

[MAFS.912.G-2.AP.5a:](#) Apply the criteria for triangle congruence and/or similarity (angle-side-angle [ASA], side-angle-side [SAS], side-side-side [SSS], angle-side-angle [AAS], side-angle-side [SAS], side-side-side [SSS], angle-side-side [AAS]) to determine if geometric shapes that divide into triangles are or are not congruent and/or can be similar.

[MAFS.912.G-C.1.1:](#) Prove that all circles are similar.

Related Access Points

Name	Description
MAFS.912.G-C.1.AP.1a:	Compare the ratio of diameter to circumference for several circles to establish all circles are similar.

[MAFS.912.G-C.1.2:](#) Identify and describe relationships among inscribed angles, radii, and chords. Include the relationship between central, inscribed, and circumscribed angles; inscribed angles on a diameter are right angles; the radius of a circle is perpendicular to the tangent where the radius intersects the circle.

Related Access Points

Name	Description
MAFS.912.G-C.1.AP.2a:	Identify and describe relationships among inscribed angles, radii and chords.
MAFS.912.G-C.1.AP.3a:	Construct the inscribed and circumscribed circles of a triangle.

Use coordinates to prove simple geometric theorems algebraically. For example, prove or disprove that a figure defined by four given points in the coordinate plane is a rectangle; prove or disprove that the point $(1, \sqrt{3})$ lies on the circle centered at the origin and containing the point $(0, 2)$.

[MAFS.912.G-GPE.2.4:](#)

Remarks/Examples:
Geometry - Fluency Recommendations

Fluency with the use of coordinates to establish geometric results, calculate length and angle, and use geometric representations as a modeling tool are some of the most valuable tools in mathematics and related fields.

Related Access Points

Name	Description
MAFS.912.G-GPE.2.AP.4a:	Use coordinates to prove simple geometric theorems algebraically.

[MAFS.912.G-GPE.2.6:](#) Find the point on a directed line segment between two given points that partitions the segment in a given ratio.

Related Access Points

Name	Description
MAFS.912.G-GPE.2.AP.6a:	Given two points, find the point on the line segment between the two points that divides the segment into a given ratio.

Use coordinates to compute perimeters of polygons and areas of triangles and rectangles, e.g., using the distance formula. ★

[MAFS.912.G-GPE.2.7:](#)

Remarks/Examples:
Geometry - Fluency Recommendations

Fluency with the use of coordinates to establish geometric results, calculate length and angle, and use geometric representations as a modeling tool are some of the most valuable tools in mathematics and related fields.

Related Access Points

Name	Description
MAFS.912.G-GPE.2.AP.7a:	Use the distance formula to calculate perimeter and area of polygons plotted on a coordinate plane.

[MAFS.912.G-GMD.1.1:](#) Give an informal argument for the formulas for the circumference of a circle, area of a circle, volume of a cylinder, pyramid, and cone. Use dissection arguments, Cavalieri's principle, and informal limit arguments.

Related Access Points

Name	Description
MAFS.912.G-GMD.1.AP.1a:	Describe why the formulas work for a circle or cylinder (circumference of a circle, area of a circle, volume of a cylinder) based on a dissection.

[MAFS.912.G-GMD.1.3:](#) Use volume formulas for cylinders, pyramids, cones, and spheres to solve problems. ★

Related Access Points

Name	Description
MAFS.912.G-GMD.1.AP.3a:	Use appropriate formulas to calculate volume for cylinders, pyramids, and cones.

[MAFS.912.G-GMD.2.4:](#) Identify the shapes of two-dimensional cross-sections of three-dimensional objects, and identify three-dimensional objects generated by rotations of two-dimensional objects.

Related Access Points

Name	Description
MAFS.912.G-GMD.2.AP.4a:	Identify shapes created by cross sections of two-dimensional and three-dimensional figures.

[MAFS.912.G-MG.1.1:](#) Use geometric shapes, their measures, and their properties to describe objects (e.g., modeling a tree trunk or a human torso as a cylinder). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.1a:	Describe the relationship between the attributes of a figure and the changes in the area or volume when one attribute is changed.

[MAFS.912.G-MG.1.2:](#) Apply concepts of density based on area and volume in modeling situations (e.g., persons per square mile, BTUs per cubic foot). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.2a:	Recognize the relationship between density and area; density and volume using real-world models.

[MAFS.912.G-MG.1.3:](#) Apply geometric methods to solve design problems (e.g., designing an object or structure to satisfy physical constraints or minimize cost; working with typographic grid systems based on ratios). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.3a:	Apply the formula of geometric figures to solve design problems (e.g., designing an object or structure to satisfy physical restraints or minimize cost).

Represent data with plots on the real number line (dot plots, histograms, and box plots). ★

[MAFS.912.S-ID.1.1:](#)

Remarks/Examples:

In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.1a:	Complete a graph given the data, using dot plots, histograms or box plots.

[MAFS.912.S-ID.1.4:](#) Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.4a:	Use descriptive stats like range, median, mode, mean and outliers/gaps to describe the data set.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.1:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2:](#) Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker's point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker's point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#) Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.RST.1.3:](#) Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.1.1:](#)

[LAFS.910.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.3.9:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

Make sense of problems and persevere in solving them.

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

[MAFS.K12.MP.1.1:](#)

Reason abstractly and quantitatively.

Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.

[MAFS.K12.MP.2.1:](#)

Construct viable arguments and critique the reasoning of others.

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

[MAFS.K12.MP.3.1:](#)

Model with mathematics.

Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.

[MAFS.K12.MP.4.1:](#)

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software.

MAFS.K12.MP.5.1:	<p>Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
MAFS.K12.MP.7.1:	<p>Look for and make use of structure.</p> <p>Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y.</p>
MAFS.K12.MP.8.1:	<p>Look for and express regularity in repeated reasoning.</p> <p>Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through (1, 2) with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.</p>
ELD.K12.ELL.1.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.AC.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Mathematics.</p>

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MAFS.912.N-RN.1.2:	Rewrite expressions involving radicals and rational exponents using the properties of exponents.
Related Access Points	
Name	Description
MAFS.912.N-RN.1.AP.2a:	Convert from radical representation to using rational exponents and vice versa.
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★
Related Access Points	
Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.
MAFS.912.A-SSE.2.3:	Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. ★ <ol style="list-style-type: none"> Factor a quadratic expression to reveal the zeros of the function it defines. Complete the square in a quadratic expression to reveal the maximum or minimum value of the function it defines. Use the properties of exponents to transform expressions for exponential functions. For example the expression $1.15^{1/12}$ can be rewritten as $(1.15^{1/12})^{12} \approx 1.012^{12}$ to reveal the approximate equivalent monthly interest rate if the annual rate is 15%.

Related Access Points

Name	Description
MAFS.912.A-SSE.2.AP.3a:	Write expressions in equivalent forms by factoring to find the zeros of a quadratic function and explain the meaning of the zeros.
MAFS.912.A-SSE.2.AP.3b:	Given a quadratic function, explain the meaning of the zeros of the function (e.g., if $f(x) = (x - c)(x - a)$ then $f(a) = 0$ and $f(c) = 0$).
MAFS.912.A-SSE.2.AP.3c:	Given a quadratic expression, explain the meaning of the zeros graphically (e.g., for an expression $(x - a)(x - c)$, a and c correspond to the x -intercepts (if a and c are real)).
MAFS.912.A-SSE.2.AP.3d:	Write expressions in equivalent forms by completing the square to convey the vertex form, to find the maximum or minimum value of a quadratic function, and to explain the meaning of the vertex.
MAFS.912.A-SSE.2.AP.3e:	Use properties of exponents (such as power of a power, product of powers, power of a product, and rational exponents, etc.) to write an equivalent form of an exponential function to reveal and explain specific information about its approximate rate of growth or decay.

[MAFS.912.A-CED.1.1:](#)

Create equations and inequalities in one variable and use them to solve problems. Include equations arising from linear and quadratic functions, and simple rational, absolute, and exponential functions. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.1a:	Create linear, quadratic, rational, and exponential equations and inequalities in one variable and use them in a contextual situation to solve problems.

Distinguish between situations that can be modeled with linear functions and with exponential functions. ★

- Prove that linear functions grow by equal differences over equal intervals, and that exponential functions grow by equal factors over equal intervals.
- Recognize situations in which one quantity changes at a constant rate per unit interval relative to another.
- Recognize situations in which a quantity grows or decays by a constant percent rate per unit interval relative to another.

[MAFS.912.F-LE.1.1:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.1a:	Select the appropriate graphical representation of a linear model based on real-world events.
MAFS.912.F-LE.1.AP.1b:	In a linear situation using graphs or numbers, predict the change in rate based on a given change in one variable (e.g., If I have been adding sugar at a rate of 1T per cup of water, what happens to my rate if I switch to 2T of sugar for every cup of water?).

[MAFS.912.G-CO.1.1:](#)

Know precise definitions of angle, circle, perpendicular line, parallel line, and line segment, based on the undefined notions of point, line, distance along a line, and distance around a circular arc.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.1a:	Identify precise definitions of angle, circle, perpendicular line, parallel line and line segment, based on the undefined notions of point, line, distance along a line, and distance around a circular arc.

[MAFS.912.G-CO.1.2:](#)

Represent transformations in the plane using, e.g., transparencies and geometry software; describe transformations as functions that take points in the plane as inputs and give other points as outputs. Compare transformations that preserve distance and angle to those that do not (e.g., translation versus horizontal stretch).

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.2a:	Represent transformations in the plane using, e.g., transparencies and geometry software.
MAFS.912.G-CO.1.AP.2b:	Compare transformations that preserve distance and angle to those that do not (e.g., translation versus horizontal stretch).

[MAFS.912.G-CO.1.3:](#)

Given a rectangle, parallelogram, trapezoid, or regular polygon, describe the rotations and reflections that carry it onto itself.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.3a:	Describe the rotations and reflections of a rectangle, parallelogram, trapezoid, or regular polygon that maps each figure onto itself.

[MAFS.912.G-CO.1.4:](#)

Develop definitions of rotations, reflections, and translations in terms of angles, circles, perpendicular lines, parallel lines, and line segments.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.4a:	Using previous comparisons and descriptions of transformations, develop and understand the meaning of rotations, reflections, and translations based on angles, circles, perpendicular lines, parallel lines, and line segments.

[MAFS.912.G-CO.1.5:](#)

Given a geometric figure and a rotation, reflection, or translation, draw the transformed figure using, e.g., graph paper, tracing paper, or geometry software. Specify a sequence of transformations that will carry a given figure onto another.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.5a:	Transform a geometric figure given a rotation, reflection, or translation using graph paper, tracing paper, or geometric software.
MAFS.912.G-CO.1.AP.5b:	Create sequences of transformations that map a geometric figure on to itself and another geometric figure.

[MAFS.912.G-CO.2.6:](#)

Use geometric descriptions of rigid motions to transform figures and to predict the effect of a given rigid motion on a given figure; given two figures, use the definition of congruence in terms of rigid motions to decide if they are congruent.

Related Access Points

Name	Description
MAFS.912.G-CO.2.AP.6a:	Use descriptions of rigid motion and transformed geometric figures to predict the effects rigid motion has on figures in the coordinate plane.
MAFS.912.G-CO.2.AP.6b:	Knowing that rigid transformations preserve size and shape or distance and angle, use this fact to connect the idea of congruency and develop the definition of congruent.

[MAFS.912.G-CO.2.7:](#)

Use the definition of congruence in terms of rigid motions to show that two triangles are congruent if and only if corresponding pairs of sides and corresponding pairs of angles are congruent.

Related Access Points

Name	Description
MAFS.912.G-CO.2.AP.7a:	Use definitions to demonstrate congruency and similarity in figures.

[MAFS.912.G-CO.2.8:](#)

Explain how the criteria for triangle congruence (ASA, SAS, SSS, and Hypotenuse-Leg) follow from the definition of congruence in terms of rigid motions.

Related Access Points

Name	Description
MAFS.912.G-CO.2.AP.8a:	Use the definition of congruence, based on rigid motion, to develop and explain the triangle congruence criteria; ASA, SSS, and SAS.

[MAFS.912.G-CO.3.9:](#)

Prove theorems about lines and angles; use theorems about lines and angles to solve problems. Theorems include: vertical angles are congruent; when a transversal crosses parallel lines, alternate interior angles are congruent and corresponding angles are congruent; points on a perpendicular bisector of a line segment are exactly those equidistant from the segment's endpoints.

Related Access Points

Name	Description
MAFS.912.G-CO.3.AP.9a:	Measure lengths of line segments and angles to establish the facts about the angles created when parallel lines are cut by a transversal and the points on a perpendicular bisector.

[MAFS.912.G-CO.3.10:](#)

Prove theorems about triangles; use theorems about triangles to solve problems. Theorems include: measures of interior angles of a triangle sum to 180° ; triangle inequality theorem; base angles of isosceles triangles are congruent; the segment joining midpoints of two sides of a triangle is parallel to the third side and half the length; the medians of a triangle meet at a point.

Related Access Points

Name	Description
MAFS.912.G-CO.3.AP.10a:	Measure the angles and sides of equilateral, isosceles, and scalene triangles to establish facts about triangles.

[MAFS.912.G-CO.3.11:](#)

Prove theorems about parallelograms; use theorems about parallelograms to solve problems. Theorems include: opposite sides are congruent, opposite angles are congruent, the diagonals of a parallelogram bisect each other, and conversely, rectangles are parallelograms with congruent diagonals.

Related Access Points

Name	Description
MAFS.912.G-CO.3.AP.11a:	Measure the angles and sides of parallelograms to establish facts about parallelograms.

[MAFS.912.G-CO.4.12:](#)

Make formal geometric constructions with a variety of tools and methods (compass and straightedge, string, reflective devices, paper folding, dynamic geometric software, etc.). Copying a segment; copying an angle; bisecting a segment; bisecting an angle; constructing perpendicular lines, including the perpendicular bisector of a line segment; and constructing a line parallel to a given line through a point not on the line.

Remarks/Examples:
Geometry - Fluency Recommendations

Fluency with the use of construction tools, physical and computational, helps students draft a model of a geometric phenomenon and can lead to conjectures and proofs.

Related Access Points

Name	Description
MAFS.912.G-CO.4.AP.12a:	Copy a segment.
MAFS.912.G-CO.4.AP.12b:	Copy an angle.

MAFS.912.G-CO.4.AP.12c:	Bisect a segment.
MAFS.912.G-CO.4.AP.12d:	Bisect an angle.
MAFS.912.G-CO.4.AP.12e:	Construct perpendicular lines, including the perpendicular bisector of a line segment.
MAFS.912.G-CO.4.AP.12f:	Construct a line parallel to a given line through a point not on the line.

[MAFS.912.G-CO.4.13:](#) Construct an equilateral triangle, a square, and a regular hexagon inscribed in a circle.

Related Access Points

Name	Description
MAFS.912.G-CO.4.AP.13a:	Construct an equilateral triangle, a square and a regular hexagon inscribed in a circle.

Verify experimentally the properties of dilations given by a center and a scale factor:

[MAFS.912.G-SRT.1.1:](#)

- A dilation takes a line not passing through the center of the dilation to a parallel line, and leaves a line passing through the center unchanged.
- The dilation of a line segment is longer or shorter in the ratio given by the scale factor.

Related Access Points

Name	Description
MAFS.912.G-SRT.1.AP.1a:	Given a center and a scale factor, verify experimentally that when dilating a figure in a coordinate plane, a segment of the pre-image that does not pass through the center of the dilation, is parallel to its image when the dilation is performed. However, a segment that passes through the center remains unchanged.
MAFS.912.G-SRT.1.AP.1b:	Given a center and a scale factor, verify experimentally that when performing dilations of a line segment, the pre-image, the segment which becomes the image is longer or shorter based on the ratio given by the scale factor.

[MAFS.912.G-SRT.1.2:](#)

Given two figures, use the definition of similarity in terms of similarity transformations to decide if they are similar; explain using similarity transformations the meaning of similarity for triangles as the equality of all corresponding pairs of angles and the proportionality of all corresponding pairs of sides.

Related Access Points

Name	Description
MAFS.912.G-SRT.1.AP.2a:	Determine if two figures are similar.
MAFS.912.G-SRT.1.AP.2b:	Given two figures, determine whether they are similar and explain their similarity based on the equality of corresponding angles and the proportionality of corresponding sides.

[MAFS.912.G-SRT.1.3:](#)

Use the properties of similarity transformations to establish the AA criterion for two triangles to be similar.

Related Access Points

Name	Description
MAFS.912.G-SRT.1.AP.3a:	Apply the angle-angle (AA) criteria for triangle similarity on two triangles.

[MAFS.912.G-SRT.2.4:](#)

Prove theorems about triangles. Theorems include: a line parallel to one side of a triangle divides the other two proportionally, and conversely; the Pythagorean Theorem proved using triangle similarity.

Related Access Points

Name	Description
MAFS.912.G-SRT.2.AP.4a:	Establish facts about the lengths of segments of sides of a triangle when a line parallel to one side of the triangles divides the other two sides proportionally.

Use congruence and similarity criteria for triangles to solve problems and to prove relationships in geometric figures.

[MAFS.912.G-SRT.2.5:](#)

Remarks/Examples:
Geometry - Fluency Recommendations

Fluency with the triangle congruence and similarity criteria will help students throughout their investigations of triangles, quadrilaterals, circles, parallelism, and trigonometric ratios. These criteria are necessary tools in many geometric modeling tasks.

Related Access Points

Name	Description
MAFS.912.G-SRT.2.AP.5a:	Apply the criteria for triangle congruence and/or similarity (angle-side-angle [ASA], side-angle-side [SAS], side-side-side [SSS], angle-angle [AA]) to determine if geometric shapes that divide into triangles are or are not congruent and/or can be similar.

[MAFS.912.G-SRT.3.6:](#)

Understand that by similarity, side ratios in right triangles are properties of the angles in the triangle, leading to definitions of trigonometric ratios for acute angles.

Related Access Points

Name	Description
MAFS.912.G-SRT.3.AP.6a:	Using a corresponding angle of similar right triangles, show that the relationships of the side ratios are the same, which leads to the definition of trigonometric ratios for acute angles.

[MAFS.912.G-SRT.3.7:](#)

Explain and use the relationship between the sine and cosine of complementary angles.

Related Access Points

Name	Description
MAFS.912.G-SRT.3.AP.7a:	Explore the sine of an acute angle and the cosine of its complement and determine their relationship.

[MAFS.912.G-SRT.3.8:](#)

Use trigonometric ratios and the Pythagorean Theorem to solve right triangles in applied problems. ★

Related Access Points

Name	Description
MAFS.912.G-SRT.3.AP.8a:	Apply both trigonometric ratios and Pythagorean Theorem to solve application problems involving right triangles.

[MAFS.912.G-C.1.1:](#)

Prove that all circles are similar.

Related Access Points

Name	Description
MAFS.912.G-C.1.AP.1a:	Compare the ratio of diameter to circumference for several circles to establish all circles are similar.

[MAFS.912.G-C.1.2:](#)

Identify and describe relationships among inscribed angles, radii, and chords. Include the relationship between central, inscribed, and circumscribed angles; inscribed angles on a diameter are right angles; the radius of a circle is perpendicular to the tangent where the radius intersects the circle.

Related Access Points

Name	Description
MAFS.912.G-C.1.AP.2a:	Identify and describe relationships among inscribed angles, radii and chords.
MAFS.912.G-C.1.AP.3a:	Construct the inscribed and circumscribed circles of a triangle.

[MAFS.912.G-C.1.3:](#)

Construct the inscribed and circumscribed circles of a triangle, and prove properties of angles for a quadrilateral inscribed in a circle.

Related Access Points

Name	Description
MAFS.912.G-C.1.AP.3a:	Construct the inscribed and circumscribed circles of a triangle.

[MAFS.912.G-C.2.5:](#)

Derive using similarity the fact that the length of the arc intercepted by an angle is proportional to the radius, and define the radian measure of the angle as the constant of proportionality; derive the formula for the area of a sector.

Related Access Points

Name	Description
MAFS.912.G-C.2.AP.5a:	Find the arc length of a circle.
MAFS.912.G-C.2.AP.5b:	Derive the fact that the length of the arc intercepted by an angle is proportional to the radius.
MAFS.912.G-C.2.AP.5c:	Apply the formula to the area of a sector (e.g., area of a slice of pie).

[MAFS.912.G-GPE.1.1:](#)

Derive the equation of a circle of given center and radius using the Pythagorean Theorem; complete the square to find the center and radius of a circle given by an equation.

Related Access Points

Name	Description
MAFS.912.G-GPE.1.AP.1a:	Given the center and the radius of a circle, use the Pythagorean theorem to find the equation of the circle.
MAFS.912.G-GPE.1.AP.1b:	Given the equation, find the center and the radius of a circle.

Use coordinates to prove simple geometric theorems algebraically. For example, prove or disprove that a figure defined by four given points in the coordinate plane is a rectangle; prove or disprove that the point $(1, \sqrt{3})$ lies on the circle centered at the origin and containing the point $(0, 2)$.

[MAFS.912.G-GPE.2.4:](#)

Remarks/Examples:
Geometry - Fluency Recommendations

Fluency with the use of coordinates to establish geometric results, calculate length and angle, and use geometric representations as a modeling tool are some of the most valuable tools in mathematics and related fields.

Related Access Points

Name	Description
MAFS.912.G-GPE.2.AP.4a:	Use coordinates to prove simple geometric theorems algebraically.

Prove the slope criteria for parallel and perpendicular lines and use them to solve geometric problems (e.g., find the equation of a line parallel or perpendicular to a given line that passes through a given point).

[MAFS.912.G-GPE.2.5:](#)

Remarks/Examples:
Geometry - Fluency Recommendations

Fluency with the use of coordinates to establish geometric results, calculate length and angle, and use geometric representations as a modeling tool are some of the most valuable tools in mathematics and related fields.

Related Access Points

Name	Description
MAFS.912.G-GPE.2.AP.5a:	Using slope, prove lines are parallel or perpendicular.
MAFS.912.G-GPE.2.AP.5b:	Find equations of lines based on certain slope criteria such as; finding the equation of a line parallel or perpendicular to a given line that passes through a given point.

[MAFS.912.G-GPE.2.6:](#) Find the point on a directed line segment between two given points that partitions the segment in a given ratio.

Related Access Points

Name	Description
MAFS.912.G-GPE.2.AP.6a:	Given two points, find the point on the line segment between the two points that divides the segment into a given ratio.

Use coordinates to compute perimeters of polygons and areas of triangles and rectangles, e.g., using the distance formula. ★

Remarks/Examples:
Geometry - Fluency Recommendations

Fluency with the use of coordinates to establish geometric results, calculate length and angle, and use geometric representations as a modeling tool are some of the most valuable tools in mathematics and related fields.

[MAFS.912.G-GPE.2.7:](#)

Related Access Points

Name	Description
MAFS.912.G-GPE.2.AP.7a:	Use the distance formula to calculate perimeter and area of polygons plotted on a coordinate plane.

[MAFS.912.G-GMD.1.1:](#) Give an informal argument for the formulas for the circumference of a circle, area of a circle, volume of a cylinder, pyramid, and cone. Use dissection arguments, Cavalieri's principle, and informal limit arguments.

Related Access Points

Name	Description
MAFS.912.G-GMD.1.AP.1a:	Describe why the formulas work for a circle or cylinder (circumference of a circle, area of a circle, volume of a cylinder) based on a dissection.

[MAFS.912.G-GMD.1.3:](#) Use volume formulas for cylinders, pyramids, cones, and spheres to solve problems. ★

Related Access Points

Name	Description
MAFS.912.G-GMD.1.AP.3a:	Use appropriate formulas to calculate volume for cylinders, pyramids, and cones.

[MAFS.912.G-GMD.2.4:](#) Identify the shapes of two-dimensional cross-sections of three-dimensional objects, and identify three-dimensional objects generated by rotations of two-dimensional objects.

Related Access Points

Name	Description
MAFS.912.G-GMD.2.AP.4a:	Identify shapes created by cross sections of two-dimensional and three-dimensional figures.

[MAFS.912.G-MG.1.1:](#) Use geometric shapes, their measures, and their properties to describe objects (e.g., modeling a tree trunk or a human torso as a cylinder). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.1a:	Describe the relationship between the attributes of a figure and the changes in the area or volume when one attribute is changed.

[MAFS.912.G-MG.1.2:](#) Apply concepts of density based on area and volume in modeling situations (e.g., persons per square mile, BTUs per cubic foot). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.2a:	Recognize the relationship between density and area; density and volume using real-world models.

[MAFS.912.G-MG.1.3:](#) Apply geometric methods to solve design problems (e.g., designing an object or structure to satisfy physical constraints or minimize cost; working with typographic grid systems based on ratios). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.3a:	Apply the formula of geometric figures to solve design problems (e.g., designing an object or structure to satisfy physical restraints or minimize cost).

Represent data with plots on the real number line (dot plots, histograms, and box plots). ★

[MAFS.912.S-ID.1.1:](#)

Remarks/Examples:

In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.1a:	Complete a graph given the data, using dot plots, histograms or box plots.

[MAFS.912.S-ID.1.4:](#)

Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.4a:	Use descriptive stats like range, median, mode, mean and outliers/gaps to describe the data set.

[LAFS.910.SL.1.1:](#)

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker’s point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker’s point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.RST.1.3:](#)

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.2.4:](#)

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.3.7:](#)

Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships

among the claim(s), counterclaims, reasons, and evidence.

- b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- e. Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.1.1:](#)

[LAFS.910.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.3.9:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

Make sense of problems and persevere in solving them.

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

[MAFS.K12.MP.1.1:](#)

Reason abstractly and quantitatively.

Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.

[MAFS.K12.MP.2.1:](#)

Construct viable arguments and critique the reasoning of others.

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

[MAFS.K12.MP.3.1:](#)

Model with mathematics.

Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.

[MAFS.K12.MP.4.1:](#)

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

[MAFS.K12.MP.5.1:](#)

Attend to precision.

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

[MAFS.K12.MP.6.1:](#)

Look for and make use of structure.

Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see

[MAFS.K12.MP.7.1:](#)

complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y .

Look for and express regularity in repeated reasoning.

[MAFS.K12.MP.8.1:](#)

Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through (1, 2) with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AC.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Mathematics.

There are more than 768 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/10504>

Course Number: 7912070	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Course may be taken for up to two credits	Abbreviated Title: ACCESS LIB ARTS MATH
Course Type: Core	Course Length: Year (Y)
Course Status: Draft - Course Pending Approval	Class Size? Yes
Grade Level(s) Version: 9,10,11,12	
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MAFS.912.N-RN.1.2:	Rewrite expressions involving radicals and rational exponents using the properties of exponents.
Related Access Points	
Name	Description
MAFS.912.N-RN.1.AP.2a:	Convert from radical representation to using rational exponents and vice versa.
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★
Related Access Points	
Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.
Define appropriate quantities for the purpose of descriptive modeling. ★	
MAFS.912.N-Q.1.2:	Remarks/Examples: Algebra 1 Content Notes:

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.2a:	Determine and interpret appropriate quantities when using descriptive modeling.

[MAFS.912.N-Q.1.3:](#) Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.3a:	Describe the accuracy of measurement when reporting quantities (you can lessen your limitations by measuring precisely).

Interpret expressions that represent a quantity in terms of its context. ★

[MAFS.912.A-SSE.1.1:](#)

- Interpret parts of an expression, such as terms, factors, and coefficients.
- Interpret complicated expressions by viewing one or more of their parts as a single entity. For example, interpret $P(1+r)^n$ as the product of P and a factor not depending on P.

Related Access Points

Name	Description
MAFS.912.A-SSE.1.AP.1a:	Identify the different parts of the expression and explain their meaning within the context of a problem.
MAFS.912.A-SSE.1.AP.1b:	Decompose expressions and make sense of the multiple factors and terms by explaining the meaning of the individual parts.

Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. ★

[MAFS.912.A-SSE.2.3:](#)

- Factor a quadratic expression to reveal the zeros of the function it defines.
- Complete the square in a quadratic expression to reveal the maximum or minimum value of the function it defines.
- Use the properties of exponents to transform expressions for exponential functions. For example the expression 1.15^t can be rewritten as $(1.15^{1/12})^{12t} \approx 1.012^{12t}$ to reveal the approximate equivalent monthly interest rate if the annual rate is 15%.

Related Access Points

Name	Description
MAFS.912.A-SSE.2.AP.3a:	Write expressions in equivalent forms by factoring to find the zeros of a quadratic function and explain the meaning of the zeros.
MAFS.912.A-SSE.2.AP.3b:	Given a quadratic function, explain the meaning of the zeros of the function (e.g., if $f(x) = (x - c)(x - a)$ then $f(a) = 0$ and $f(c) = 0$).
MAFS.912.A-SSE.2.AP.3c:	Given a quadratic expression, explain the meaning of the zeros graphically (e.g., for an expression $(x - a)(x - c)$, a and c correspond to the x-intercepts (if a and c are real).
MAFS.912.A-SSE.2.AP.3d:	Write expressions in equivalent forms by completing the square to convey the vertex form, to find the maximum or minimum value of a quadratic function, and to explain the meaning of the vertex.
MAFS.912.A-SSE.2.AP.3e:	Use properties of exponents (such as power of a power, product of powers, power of a product, and rational exponents, etc.) to write an equivalent form of an exponential function to reveal and explain specific information about its approximate rate of growth or decay.

Understand that polynomials form a system analogous to the integers, namely, they are closed under the operations of addition, subtraction, and multiplication; add, subtract, and multiply polynomials.

Remarks/Examples:
Algebra 1 - Fluency Recommendations

[MAFS.912.A-APR.1.1:](#)

Fluency in adding, subtracting, and multiplying polynomials supports students throughout their work in algebra, as well as in their symbolic work with functions. Manipulation can be more mindful when it is fluent.

Related Access Points

Name	Description
MAFS.912.A-APR.1.AP.1a:	Understand the definition of a polynomial.
MAFS.912.A-APR.1.AP.1b:	Understand the concepts of combining like terms and closure.
MAFS.912.A-APR.1.AP.1c:	Add, subtract, and multiply polynomials and understand how closure applies under these operations.

[MAFS.912.A-CED.1.1:](#) Create equations and inequalities in one variable and use them to solve problems. Include equations arising from linear and quadratic functions, and simple rational, absolute, and exponential functions. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.1a:	Create linear, quadratic, rational, and exponential equations and inequalities in one variable and use them in a contextual situation to solve problems.

[MAFS.912.A-CED.1.2:](#) Create equations in two or more variables to represent relationships between quantities; graph equations on coordinate axes with labels and scales. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.2a:	Graph equations in two or more variables on coordinate axes with labels and scales.

[MAFS.912.A-CED.1.3:](#) Represent constraints by equations or inequalities, and by systems of equations and/or inequalities, and interpret solutions as viable or non-viable options in a modeling context. For example, represent inequalities describing nutritional and cost constraints on combinations of different foods. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.3a:	Identify and interpret the solution of a system of linear equations from a real-world context that has been graphed.

[MAFS.912.A-CED.1.4:](#) Rearrange formulas to highlight a quantity of interest, using the same reasoning as in solving equations. *For example, rearrange Ohm's law $V = IR$ to highlight resistance R .* ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.4a:	Solve multi-variable formulas or literal equations for a specific variable.

[MAFS.912.A-REI.1.1:](#) Explain each step in solving a simple equation as following from the equality of numbers asserted at the previous step, starting from the assumption that the original equation has a solution. Construct a viable argument to justify a solution method.

Related Access Points

Name	Description
MAFS.912.A-REI.1.AP.1a:	Solve equations with one or two variables and explain the process.

[MAFS.912.A-REI.1.2:](#) Solve simple rational and radical equations in one variable, and give examples showing how extraneous solutions may arise.

Related Access Points

Name	Description
MAFS.912.A-REI.1.AP.2a:	Solve simple rational and radical equations in one variable.

[MAFS.912.A-REI.2.3:](#) Solve linear equations and inequalities in one variable, including equations with coefficients represented by letters.

Related Access Points

Name	Description
MAFS.912.A-REI.2.AP.3a:	Solve linear equations in one variable, including coefficients represented by letters.
MAFS.912.A-REI.2.AP.3b:	Solve linear inequalities in one variable, including coefficients represented by letters.

[MAFS.912.A-REI.3.5:](#) Prove that, given a system of two equations in two variables, replacing one equation by the sum of that equation and a multiple of the other produces a system with the same solutions.

Related Access Points

Name	Description
MAFS.912.A-REI.3.AP.5a:	Create a multiple of a linear equation showing that they are equivalent (e.g., $x + y = 6$ is equivalent to $2x + 2y = 12$).
MAFS.912.A-REI.3.AP.5b:	Find the sum of two equations.

[MAFS.912.A-REI.3.6:](#) Solve systems of linear equations exactly and approximately (e.g., with graphs), focusing on pairs of linear equations in two variables.

Related Access Points

Name	Description
MAFS.912.A-REI.3.AP.6a:	Given a graph, describe or select the solution to a system of linear equations.
MAFS.912.A-REI.3.AP.6b:	Solve systems of nonlinear equations using substitution.

[MAFS.912.A-REI.4.10:](#) Understand that the graph of an equation in two variables is the set of all its solutions plotted in the coordinate plane, often forming a curve (which could be a line).

Related Access Points

Name	Description
MAFS.912.A-REI.4.AP.10a:	Identify and graph the solutions (ordered pairs) on a graph of an equation in two variables.

[MAFS.912.A-REI.4.11:](#) Explain why the x-coordinates of the points where the graphs of the equations $y = f(x)$ and $y = g(x)$ intersect are the solutions of the equation $f(x) = g(x)$; find the solutions approximately, e.g., using technology to graph the functions, make tables of values, or find successive approximations. Include cases where $f(x)$ and/or $g(x)$ are linear, polynomial, rational, absolute value, exponential, and logarithmic functions. ★

Related Access Points

Name	Description
MAFS.912.A-	Understand the solution to a system of two linear equations in two variables corresponds to a point(s) of an intersection of their

[REI.4.AP.11a:](#) graphs, because the point(s) of intersection satisfies both equations simultaneously.

[MAFS.912.A-REI.4.12:](#)

Graph the solutions to a linear inequality in two variables as a half-plane (excluding the boundary in the case of a strict inequality), and graph the solution set to a system of linear inequalities in two variables as the intersection of the corresponding half-planes.

Related Access Points

Name	Description
MAFS.912.A-REI.4.AP.12a:	Graph a linear inequality in two variables using at least two coordinate pairs that are solutions.
MAFS.912.A-REI.4.AP.12b:	Graph a system of linear inequalities in two variables using at least two coordinate pairs for each inequality.

[MAFS.912.F-IF.1.1:](#)

Understand that a function from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range. If f is a function and x is an element of its domain, then $f(x)$ denotes the output of f corresponding to the input x . The graph of f is the graph of the equation $y = f(x)$.

Related Access Points

Name	Description
MAFS.912.F-IF.1.AP.1a:	Demonstrate that to be a function, from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range.
MAFS.912.F-IF.1.AP.1b:	Map elements of the domain sets to the corresponding range sets of functions and determine the rules in the relationship.

[MAFS.912.F-IF.1.2:](#)

Use function notation, evaluate functions for inputs in their domains, and interpret statements that use function notation in terms of a context.

Related Access Points

Name	Description
MAFS.912.F-IF.1.AP.2a:	Match the correct function notation to a function or a model of a function (e.g., $x f(x) y$).

[MAFS.912.F-IF.2.4:](#)

For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship. Key features include: intercepts; intervals where the function is increasing, decreasing, positive, or negative; relative maximums and minimums; symmetries; end behavior; and periodicity. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.4a:	Recognize and interpret the key features of a function.
MAFS.912.F-IF.2.AP.4b:	Select the graph that matches the description of the relationship between two quantities in the function.

[MAFS.912.F-IF.2.5:](#)

Relate the domain of a function to its graph and, where applicable, to the quantitative relationship it describes. For example, if the function $h(n)$ gives the number of person-hours it takes to assemble engines in a factory, then the positive integers would be an appropriate domain for the function. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.5a:	Given the graph of a function, determine the domain.

[MAFS.912.F-IF.2.6:](#)

Calculate and interpret the average rate of change of a function (presented symbolically or as a table) over a specified interval. Estimate the rate of change from a graph. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.6a:	Describe the rate of change of a function using words.
MAFS.912.F-IF.2.AP.6b:	Describe the rate of change of a function using numbers.
MAFS.912.F-IF.2.AP.6c:	Pair the rate of change with its graph.

Distinguish between situations that can be modeled with linear functions and with exponential functions. ★

- Prove that linear functions grow by equal differences over equal intervals, and that exponential functions grow by equal factors over equal intervals.
- Recognize situations in which one quantity changes at a constant rate per unit interval relative to another.
- Recognize situations in which a quantity grows or decays by a constant percent rate per unit interval relative to another.

[MAFS.912.F-LE.1.1:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.1a:	Select the appropriate graphical representation of a linear model based on real-world events.
MAFS.912.F-LE.1.AP.1b:	In a linear situation using graphs or numbers, predict the change in rate based on a given change in one variable (e.g., If I have been adding sugar at a rate of 1T per cup of water, what happens to my rate if I switch to 2T of sugar for every cup of water?).

[MAFS.912.G-CO.1.1:](#)

Know precise definitions of angle, circle, perpendicular line, parallel line, and line segment, based on the undefined notions of point, line, distance along a line, and distance around a circular arc.

Related Access Points

Name	Description
MAFS.912.G-CO.1.2:	Identify precise definitions of angle, circle, perpendicular line, parallel line and line segment, based on the undefined notions of point, line, distance along a line, and distance around a circular arc.

[MAFS.912.G-CO.1.3:](#)

Given a rectangle, parallelogram, trapezoid, or regular polygon, describe the rotations and reflections that carry it onto itself.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.3a:	Describe the rotations and reflections of a rectangle, parallelogram, trapezoid, or regular polygon that maps each figure onto itself.

[MAFS.912.G-CO.1.4:](#)

Develop definitions of rotations, reflections, and translations in terms of angles, circles, perpendicular lines, parallel lines, and line segments.

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.4a:	Using previous comparisons and descriptions of transformations, develop and understand the meaning of rotations, reflections, and translations based on angles, circles, perpendicular lines, parallel lines, and line segments.

Make formal geometric constructions with a variety of tools and methods (compass and straightedge, string, reflective devices, paper folding, dynamic geometric software, etc.). Copying a segment; copying an angle; bisecting a segment; bisecting an angle; constructing perpendicular lines, including the perpendicular bisector of a line segment; and constructing a line parallel to a given line through a point not on the line.

[MAFS.912.G-CO.4.12:](#)

<p>Remarks/Examples: Geometry - Fluency Recommendations</p> <p>Fluency with the use of construction tools, physical and computational, helps students draft a model of a geometric phenomenon and can lead to conjectures and proofs.</p>
--

Related Access Points

Name	Description
MAFS.912.G-CO.4.AP.12a:	Copy a segment.
MAFS.912.G-CO.4.AP.12b:	Copy an angle.
MAFS.912.G-CO.4.AP.12c:	Bisect a segment.
MAFS.912.G-CO.4.AP.12d:	Bisect an angle.
MAFS.912.G-CO.4.AP.12e:	Construct perpendicular lines, including the perpendicular bisector of a line segment.
MAFS.912.G-CO.4.AP.12f:	Construct a line parallel to a given line through a point not on the line.

[MAFS.912.G-CO.4.13:](#)

Construct an equilateral triangle, a square, and a regular hexagon inscribed in a circle.

Related Access Points

Name	Description
MAFS.912.G-CO.4.AP.13a:	Construct an equilateral triangle, a square and a regular hexagon inscribed in a circle.

[MAFS.912.G-SRT.1.2:](#)

Given two figures, use the definition of similarity in terms of similarity transformations to decide if they are similar; explain using similarity transformations the meaning of similarity for triangles as the equality of all corresponding pairs of angles and the proportionality of all corresponding pairs of sides.

Related Access Points

Name	Description
MAFS.912.G-SRT.1.AP.2a:	Determine if two figures are similar.
MAFS.912.G-SRT.1.AP.2b:	Given two figures, determine whether they are similar and explain their similarity based on the equality of corresponding angles and the proportionality of corresponding sides.

[MAFS.912.G-SRT.1.3:](#)

Use the properties of similarity transformations to establish the AA criterion for two triangles to be similar.

Related Access Points

Name	Description
MAFS.912.G-SRT.1.AP.3a:	Apply the angle-angle (AA) criteria for triangle similarity on two triangles.

[MAFS.912.G-SRT.2.4:](#)

Prove theorems about triangles. Theorems include: a line parallel to one side of a triangle divides the other two proportionally, and conversely; the Pythagorean Theorem proved using triangle similarity.

Related Access Points

Name	Description
MAFS.912.G-SRT.2.AP.4a:	Establish facts about the lengths of segments of sides of a triangle when a line parallel to one side of the triangles divides the other two sides proportionally.

Use congruence and similarity criteria for triangles to solve problems and to prove relationships in geometric figures.

[MAFS.912.G-SRT.2.5:](#)

Remarks/Examples:
Geometry - Fluency Recommendations

Fluency with the triangle congruence and similarity criteria will help students throughout their investigations of triangles, quadrilaterals, circles, parallelism, and trigonometric ratios. These criteria are necessary tools in many geometric modeling tasks.

Related Access Points

Name	Description
MAFS.912.G-SRT.2.AP.5a:	Apply the criteria for triangle congruence and/or similarity (angle-side-angle [ASA], side-angle-side [SAS], side-side-side [SSS], angle-angle [AA]) to determine if geometric shapes that divide into triangles are or are not congruent and/or can be similar.

[MAFS.912.G-GMD.1.3:](#)

Use volume formulas for cylinders, pyramids, cones, and spheres to solve problems. ★

Related Access Points

Name	Description
MAFS.912.G-GMD.1.AP.3a:	Use appropriate formulas to calculate volume for cylinders, pyramids, and cones.

[MAFS.912.G-GMD.2.4:](#)

Identify the shapes of two-dimensional cross-sections of three-dimensional objects, and identify three-dimensional objects generated by rotations of two-dimensional objects.

Related Access Points

Name	Description
MAFS.912.G-GMD.2.AP.4a:	Identify shapes created by cross sections of two-dimensional and three-dimensional figures.

[MAFS.912.G-MG.1.1:](#)

Use geometric shapes, their measures, and their properties to describe objects (e.g., modeling a tree trunk or a human torso as a cylinder). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.1a:	Describe the relationship between the attributes of a figure and the changes in the area or volume when one attribute is changed.

[MAFS.912.G-MG.1.2:](#)

Apply concepts of density based on area and volume in modeling situations (e.g., persons per square mile, BTUs per cubic foot). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.2a:	Recognize the relationship between density and area; density and volume using real-world models.

[MAFS.912.G-MG.1.3:](#)

Apply geometric methods to solve design problems (e.g., designing an object or structure to satisfy physical constraints or minimize cost; working with topographic grid systems based on ratios). ★

Related Access Points

Name	Description
MAFS.912.G-MG.1.AP.3a:	Apply the formula of geometric figures to solve design problems (e.g., designing an object or structure to satisfy physical restraints or minimize cost).

Represent data with plots on the real number line (dot plots, histograms, and box plots). ★

[MAFS.912.S-ID.1.1:](#)

Remarks/Examples:
In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.1a:	Complete a graph given the data, using dot plots, histograms or box plots.

Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★

[MAFS.912.S-ID.1.2:](#)

Remarks/Examples:
In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.2a:	Describe a distribution using center and spread
MAFS.912.S-ID.1.AP.2b:	Use the correct measure of center and spread to describe a distribution that is symmetric or skewed.
MAFS.912.S-ID.1.AP.2c:	Identify outliers (extreme data points) and their effects on data sets.
MAFS.912.S-ID.1.AP.2d:	Compare two or more different data sets using the center and spread of each.

Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★

[MAFS.912.S-ID.1.3:](#)

Remarks/Examples:

In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.3a:	Use statistical vocabulary to describe the difference in shape, spread, outliers and the center (mean).

[MAFS.912.S-ID.1.4:](#)

Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.4a:	Use descriptive stats like range, median, mode, mean and outliers/gaps to describe the data set.

[LAFS.910.SL.1.1:](#)

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker’s point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker’s point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.RST.1.3:](#)

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.2.4:](#)

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.3.7:](#)

Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.1.1:](#)

[LAFS.910.WHST.2.4:](#) Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.3.9:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

Make sense of problems and persevere in solving them.

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

[MAFS.K12.MP.1.1:](#)

Reason abstractly and quantitatively.

Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.

[MAFS.K12.MP.2.1:](#)

Construct viable arguments and critique the reasoning of others.

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

[MAFS.K12.MP.3.1:](#)

Model with mathematics.

Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.

[MAFS.K12.MP.4.1:](#)

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

[MAFS.K12.MP.5.1:](#)

Attend to precision.

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

[MAFS.K12.MP.6.1:](#)

Look for and make use of structure.

Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and

[MAFS.K12.MP.7.1:](#)

can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y .

Look for and express regularity in repeated reasoning.

[MAFS.K12.MP.8.1:](#)

Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through $(1, 2)$ with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AC.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Mathematics.

There are more than 824 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/1764>

Number of Credits: Multiple Credit (more than 1 credit)	Course Length: Year (Y)
Course Type: Core	Class Size? Yes
Course Status: Draft - Course Pending Approval	Grade Level(s) Version: 9,10,11,12
Keywords: algebra, access	Graduation Requirement: Mathematics
Grade Level(s): 9, 10, 11, 12	Requires a Highly Qualified Teacher (HQT)? Yes
NCLB? Yes	

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description								
MAFS.912.N-RN.1.1:	<p>Explain how the definition of the meaning of rational exponents follows from extending the properties of integer exponents to those values, allowing for a notation for radicals in terms of rational exponents. For example, we define $5^{1/3}$ to be the cube root of 5 because we want $(5^{1/3})^3 = 5^{(1/3)3}$ to hold, so $(5^{1/3})^3$ must equal 5.</p> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>MAFS.912.N-RN.1.AP.1a:</td> <td>Understand that the denominator of the rational exponent is the root index and the numerator is the exponent of the radicand (e.g., $5^{1/2} = \sqrt{5}$).</td> </tr> <tr> <td>MAFS.912.N-RN.1.AP.1b:</td> <td>Extend the properties of exponents to justify that $(5^{1/2})^2 = 5$</td> </tr> </tbody> </table>	Name	Description	MAFS.912.N-RN.1.AP.1a:	Understand that the denominator of the rational exponent is the root index and the numerator is the exponent of the radicand (e.g., $5^{1/2} = \sqrt{5}$). MAFS.912.N-RN.2.AP.3b:	Know and justify that when adding a rational number and an irrational number the result is irrational.	MAFS.912.N-RN.2.AP.3c:	Know and justify that when multiplying of a nonzero rational number and an irrational number the result is irrational.
Name	Description								
MAFS.912.N-RN.2.AP.3a:	Know and justify that when adding or multiplying two rational numbers the result is a rational number.								
MAFS.912.N-RN.2.AP.3b:	Know and justify that when adding a rational number and an irrational number the result is irrational.								
MAFS.912.N-RN.2.AP.3c:	Know and justify that when multiplying of a nonzero rational number and an irrational number the result is irrational.								
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★								

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.

Define appropriate quantities for the purpose of descriptive modeling. ★

Remarks/Examples:

Algebra 1 Content Notes:

Working with quantities and the relationships between them provides grounding for work with expressions, equations, and functions.

[MAFS.912.N-Q.1.2:](#)

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.2a:	Determine and interpret appropriate quantities when using descriptive modeling.

[MAFS.912.N-Q.1.3:](#)

Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.3a:	Describe the accuracy of measurement when reporting quantities (you can lessen your limitations by measuring precisely).

Interpret expressions that represent a quantity in terms of its context. ★

- Interpret parts of an expression, such as terms, factors, and coefficients.
- Interpret complicated expressions by viewing one or more of their parts as a single entity. For example, interpret $P(1+r)^n$ as the product of P and a factor not depending on P.

[MAFS.912.A-SSE.1.1:](#)

Related Access Points

Name	Description
MAFS.912.A-SSE.1.AP.1a:	Identify the different parts of the expression and explain their meaning within the context of a problem.
MAFS.912.A-SSE.1.AP.1b:	Decompose expressions and make sense of the multiple factors and terms by explaining the meaning of the individual parts.

Use the structure of an expression to identify ways to rewrite it. For example, see $x^4 - y^4$ as $(x^2)^2 - (y^2)^2$, thus recognizing it as a difference of squares that can be factored as $(x^2 - y^2)(x^2 + y^2)$.

[MAFS.912.A-SSE.1.2:](#)

Related Access Points

Name	Description
MAFS.912.A-SSE.1.AP.2a:	Rewrite algebraic expressions in different equivalent forms, such as factoring or combining like terms.
MAFS.912.A-SSE.1.AP.2b:	Use factoring techniques such as common factors, grouping, the difference of two squares, the sum or difference of two cubes, or a combination of methods to factor completely.
MAFS.912.A-SSE.1.AP.2c:	Simplify expressions including combining like terms, using the distributive property, and other operations with polynomials.

Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. ★

- Factor a quadratic expression to reveal the zeros of the function it defines.
- Complete the square in a quadratic expression to reveal the maximum or minimum value of the function it defines.
- Use the properties of exponents to transform expressions for exponential functions. For example the expression 1.15^t can be rewritten as $(1.15^{1/12})^{12t} \approx 1.012^{12t}$ to reveal the approximate equivalent monthly interest rate if the annual rate is 15%.

[MAFS.912.A-SSE.2.3:](#)

Related Access Points

Name	Description
MAFS.912.A-SSE.2.AP.3a:	Write expressions in equivalent forms by factoring to find the zeros of a quadratic function and explain the meaning of the zeros.
MAFS.912.A-SSE.2.AP.3b:	Given a quadratic function, explain the meaning of the zeros of the function (e.g., if $f(x) = (x - c)(x - a)$ then $f(a) = 0$ and $f(c) = 0$).
MAFS.912.A-SSE.2.AP.3c:	Given a quadratic expression, explain the meaning of the zeros graphically (e.g., for an expression $(x - a)(x - c)$, a and c correspond to the x-intercepts (if a and c are real).
MAFS.912.A-SSE.2.AP.3d:	Write expressions in equivalent forms by completing the square to convey the vertex form, to find the maximum or minimum value of a quadratic function, and to explain the meaning of the vertex.
MAFS.912.A-SSE.2.AP.3e:	Use properties of exponents (such as power of a power, product of powers, power of a product, and rational exponents, etc.) to write an equivalent form of an exponential function to reveal and explain specific information about its approximate rate of growth or decay.

Understand that polynomials form a system analogous to the integers, namely, they are closed under the operations of addition, subtraction, and multiplication; add, subtract, and multiply polynomials.

[MAFS.912.A-APR.1.1:](#)

Remarks/Examples:
Algebra 1 - Fluency Recommendations

Fluency in adding, subtracting, and multiplying polynomials supports students throughout their work in algebra, as well as in their symbolic work with functions. Manipulation can be more mindful when it is fluent.

Related Access Points

Name	Description
MAFS.912.A-APR.1.AP.1a:	Understand the definition of a polynomial.
MAFS.912.A-APR.1.AP.1b:	Understand the concepts of combining like terms and closure.
MAFS.912.A-APR.1.AP.1c:	Add, subtract, and multiply polynomials and understand how closure applies under these operations.

[MAFS.912.A-APR.2.3:](#)

Identify zeros of polynomials when suitable factorizations are available, and use the zeros to construct a rough graph of the function defined by the polynomial.

Related Access Points

Name	Description
MAFS.912.A-APR.2.AP.3a:	Find the zeros of a polynomial when the polynomial is factored (e.g., If given the polynomial equation $y = x^2 + 5x + 6$, factor the polynomial as $y = (x + 3)(x + 2)$. Then find the zeros of y by setting each factor equal to zero and solving. $x = -2$ and $x = -3$ are the two zeroes of y .)
MAFS.912.A-APR.2.AP.3b:	Use the zeros of a function to sketch a graph of the function.

[MAFS.912.A-CED.1.1:](#)

Create equations and inequalities in one variable and use them to solve problems. Include equations arising from linear and quadratic functions, and simple rational, absolute, and exponential functions. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.1a:	Create linear, quadratic, rational, and exponential equations and inequalities in one variable and use them in a contextual situation to solve problems.

[MAFS.912.A-CED.1.2:](#)

Create equations in two or more variables to represent relationships between quantities; graph equations on coordinate axes with labels and scales. ★

Related Access Points

MAFS.912.A-REI.4.AP.12a:	Graph a linear inequality in two variables using at least two coordinate pairs that are solutions.
MAFS.912.A-REI.4.AP.12b:	Graph a system of linear inequalities in two variables using at least two coordinate pairs for each inequality.

[MAFS.912.F-IF.1.1:](#)

Understand that a function from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range. If f is a function and x is an element of its domain, then $f(x)$ denotes the output of f corresponding to the input x . The graph of f is the graph of the equation $y = f(x)$.

Related Access Points

Name	Description
MAFS.912.F-IF.1.AP.1a:	Demonstrate that to be a function, from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range.
MAFS.912.F-IF.1.AP.1b:	Map elements of the domain sets to the corresponding range sets of functions and determine the rules in the relationship.

[MAFS.912.F-IF.1.2:](#)

Use function notation, evaluate functions for inputs in their domains, and interpret statements that use function notation in terms of a context.

Related Access Points

Name	Description
MAFS.912.F-IF.1.AP.2a:	Match the correct function notation to a function or a model of a function (e.g., $x f(x) y$).

[MAFS.912.F-IF.1.3:](#)

Recognize that sequences are functions, sometimes defined recursively, whose domain is a subset of the integers. For example, the Fibonacci sequence is defined recursively by $f(0) = f(1) = 1$, $f(n+1) = f(n) + f(n-1)$ for $n \geq 1$.

Related Access Points

Name	Description
MAFS.912.F-IF.1.AP.3a:	Recognize that the domain of a sequence is a subset of the integers. .

[MAFS.912.F-IF.2.4:](#)

For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship. Key features include: intercepts; intervals where the function is increasing, decreasing, positive, or negative; relative maximums and minimums; symmetries; end behavior; and periodicity. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.4a:	Recognize and interpret the key features of a function.
MAFS.912.F-IF.2.AP.4b:	Select the graph that matches the description of the relationship between two quantities in the function.

[MAFS.912.F-IF.2.5:](#)

Relate the domain of a function to its graph and, where applicable, to the quantitative relationship it describes. For example, if the function $h(n)$ gives the number of person-hours it takes to assemble engines in a factory, then the positive integers would be an appropriate domain for the function. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.5a:	Given the graph of a function, determine the domain.

[MAFS.912.F-IF.2.6:](#)

Calculate and interpret the average rate of change of a function (presented symbolically or as a table) over a specified interval. Estimate the rate of change from a graph. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.6a:	Describe the rate of change of a function using words.
MAFS.912.F-IF.2.AP.6b:	Describe the rate of change of a function using numbers.
MAFS.912.F-IF.2.AP.6c:	Pair the rate of change with its graph.

[MAFS.912.F-IF.3.8:](#)

Write a function defined by an expression in different but equivalent forms to reveal and explain different properties of the function.

- Use the process of factoring and completing the square in a quadratic function to show zeros, extreme values, and symmetry of the graph, and interpret these in terms of a context.
- Use the properties of exponents to interpret expressions for exponential functions. For example, identify percent rate of change in functions such as $y = (1.02)^t$; $y = (0.97)^t$; $y = (1.01)^{2t}$; $y = (1.2)^{t/10}$, and classify them as representing exponential growth or decay.

Related Access Points

Name	Description
MAFS.912.F-IF.3.AP.8a:	Write or select an equivalent form of a function [e.g., $y = mx + b$, $f(x) = y$, $y - y_1 = m(x - x_1)$, $Ax + By = C$].
MAFS.912.F-IF.3.AP.8b:	Describe the properties of a function (e.g., rate of change, maximum, minimum, etc.).

[MAFS.912.F-IF.3.9:](#)

Compare properties of two functions each represented in a different way (algebraically, graphically, numerically in tables, or by verbal descriptions). For example, given a graph of one quadratic function and an algebraic expression for another, say which has the larger maximum.

Related Access Points

Name	Description
MAFS.912.F-IF.3.AP.9a:	Compare the properties of two functions.

[MAFS.912.F-BF.1.1:](#)

Write a function that describes a relationship between two quantities. ★

- Determine an explicit expression, a recursive process, or steps for calculation from a context.
- Combine standard function types using arithmetic operations. For example, build a function that models the temperature of a cooling body by adding a constant function to a decaying exponential, and relate these functions to the model.
- Compose functions. For example, if $T(y)$ is the temperature in the atmosphere as a function of height, and $h(t)$ is the height of a weather balloon as a function of time, then $T(h(t))$ is the temperature at the location of the weather balloon as a function of time.

Related Access Points

Name	Description
MAFS.912.F-BF.1.AP.1a:	Select a function that describes a relationship between two quantities (e.g., relationship between inches and centimeters, Celsius Fahrenheit, distance = rate \times time, recipe for peanut butter and jelly- relationship of peanut butter to jelly $f(x)=2x$, where x is the quantity of jelly, and $f(x)$ is peanut butter.

[MAFS.912.F-BF.2.3:](#)

Identify the effect on the graph of replacing $f(x)$ by $f(x) + k$, $k f(x)$, $f(kx)$, and $f(x + k)$ for specific values of k (both positive and negative); find the value of k given the graphs. Experiment with cases and illustrate an explanation of the effects on the graph using technology. Include recognizing even and odd functions from their graphs and algebraic expressions for them.

Related Access Points

Name	Description
MAFS.912.F-BF.2.AP.3a:	Write or select the graph that represents a defined change in the function (e.g., recognize the effect of changing k on the corresponding graph).

Distinguish between situations that can be modeled with linear functions and with exponential functions. ★

- a. Prove that linear functions grow by equal differences over equal intervals, and that exponential functions grow by equal factors over equal intervals.
- b. Recognize situations in which one quantity changes at a constant rate per unit interval relative to another.
- c. Recognize situations in which a quantity grows or decays by a constant percent rate per unit interval relative to another.

[MAFS.912.F-LE.1.1:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.1a:	Select the appropriate graphical representation of a linear model based on real-world events.
MAFS.912.F-LE.1.AP.1b:	In a linear situation using graphs or numbers, predict the change in rate based on a given change in one variable (e.g., If I have been adding sugar at a rate of 1T per cup of water, what happens to my rate if I switch to 2T of sugar for every cup of water?).

Construct linear and exponential functions, including arithmetic and geometric sequences, given a graph, a description of a relationship, or two input-output pairs (include reading these from a table). ★

[MAFS.912.F-LE.1.2:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.2a:	Select the graph, the description of a relationship or two input-output pairs of linear functions.

Observe using graphs and tables that a quantity increasing exponentially eventually exceeds a quantity increasing linearly, quadratically, or (more generally) as a polynomial function. ★

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.3a:	Compare graphs of linear, exponential, and quadratic growth graphed on the same coordinate plane.

Interpret the parameters in a linear or exponential function in terms of a context. ★

[MAFS.912.F-LE.2.5:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.2.AP.5a:	Describe the meaning of the factors and intercepts on linear and exponential functions.

Represent data with plots on the real number line (dot plots, histograms, and box plots). ★

[MAFS.912.S-ID.1.1:](#)

Remarks/Examples:
 In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.1a:	Complete a graph given the data, using dot plots, histograms or box plots.

Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★

[MAFS.912.S-ID.1.2:](#)

Remarks/Examples:
 In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.2a:	Describe a distribution using center and spread
MAFS.912.S-ID.1.AP.2b:	Use the correct measure of center and spread to describe a distribution that is symmetric or skewed.
MAFS.912.S-ID.1.AP.2c:	Identify outliers (extreme data points) and their effects on data sets.
MAFS.912.S-ID.1.AP.2d:	Compare two or more different data sets using the center and spread of each.

Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★

[MAFS.912.S-ID.1.3:](#)

Remarks/Examples:
 In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.3a:	Use statistical vocabulary to describe the difference in shape, spread, outliers and the center (mean).

[MAFS.912.S-ID.2.5:](#)

Summarize categorical data for two categories in two-way frequency tables. Interpret relative frequencies in the context of the data (including joint, marginal, and conditional relative frequencies). Recognize possible associations and trends in the data. ★

Related Access Points

Name	Description
MAFS.912.S-ID.2.AP.5a:	Recognize associations and trends in data from a two-way table.

[MAFS.912.S-ID.2.6:](#)

Represent data on two quantitative variables on a scatter plot, and describe how the variables are related. ★

- Fit a function to the data; use functions fitted to data to solve problems in the context of the data. Use given functions or choose a function suggested by the context. Emphasize linear, and exponential models.
- Informally assess the fit of a function by plotting and analyzing residuals.
- Fit a linear function for a scatter plot that suggests a linear association.

Remarks/Examples:

Students take a more sophisticated look at using a linear function to model the relationship between two numerical variables. In addition to fitting a line to data, students assess how well the model fits by analyzing residuals.

Related Access Points

Name	Description
MAFS.912.S-ID.2.AP.6a:	Create a scatter plot from two quantitative variables.
MAFS.912.S-ID.2.AP.6b:	Describe the form, strength, and direction of the relationship.
MAFS.912.S-ID.2.AP.6c:	Categorize data as linear or not.
MAFS.912.S-ID.2.AP.6d:	Use algebraic methods and technology to fit a linear function to the data.
MAFS.912.S-ID.2.AP.6e:	Use the function to predict values.
MAFS.912.S-ID.2.AP.6f:	Explain the meaning of the constant and coefficients in context.

[MAFS.912.S-ID.3.7:](#)

Interpret the slope (rate of change) and the intercept (constant term) of a linear model in the context of the data. ★

Related Access Points

MAFS.912.S-ID.3.AP.9a:	Given a correlation in a real-world scenario, determine if there is causation.

[LAFS.910.SL.1.1:](#)

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.

[LAFS.910.SL.1.AP.1d](#): Work with peers to set rules for collegial discussions and decision making.

[LAFS.910.SL.1.AP.1e](#): Actively seek the ideas or opinions of others in a discussion on a given topic or text.

[LAFS.910.SL.1.AP.1f](#): Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2](#):

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3](#):

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a	Determine the speaker's point of view or purpose in a text.
LAFS.910.SL.1.AP.3b	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d	Evaluate a speaker's point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4](#):

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.RST.1.3](#):

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.2.4](#):

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.3.7](#):

Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

[LAFS.910.WHST.1.1](#):

Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.2.4](#):

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.3.9](#):

Draw evidence from informational texts to support analysis, reflection, and research.

Make sense of problems and persevere in solving them.

[MAFS.K12.MP.1.1](#):

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

[MAFS.K12.MP.2.1](#):

Reason abstractly and quantitatively.

Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.

Construct viable arguments and critique the reasoning of others.

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to

MAFS.K12.MP.3.1:	<p>the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>
MAFS.K12.MP.4.1:	<p>Model with mathematics.</p> <p>Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.</p>
MAFS.K12.MP.5.1:	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
MAFS.K12.MP.7.1:	<p>Look for and make use of structure.</p> <p>Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y.</p>
MAFS.K12.MP.8.1:	<p>Look for and express regularity in repeated reasoning.</p> <p>Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through (1, 2) with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.</p>
ELD.K12.ELL.1.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.AC.1:	<p>English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Mathematics.</p>
MAFS.912.F-IF.3.7a:	<p>a. Graph linear and quadratic functions and show intercepts, maxima, and minima.</p>
MAFS.912.F-IF.3.7b:	<p>b. Graph square root, cube root, and piecewise-defined functions, including step functions and absolute value functions.</p>
MAFS.912.F-IF.3.7c:	<p>c. Graph polynomial functions, identifying zeros when suitable factorizations are available, and showing end behavior.</p>
MAFS.912.F-IF.3.7e:	<p>e. Graph exponential and logarithmic functions, showing intercepts and end behavior, and trigonometric functions, showing period, midline, and amplitude, and using phase shift.</p>

There are more than 839 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12901>

Course Number: 7912080	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Academics - Subject Areas >
Course Section: Exceptional Student Education	Abbreviated Title: ACCESS ALGEBRA 1A
Number of Credits: Course may be taken for up to two credits	Course Length: Year (Y)
Course Type: Core	Class Size? Yes
Course Status: Draft - Course Pending Approval	Requires a Highly Qualified Teacher (HQT)? Yes
Grade Level(s) Version: 9,10,11,12	
NCLB? Yes	

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description						
MAFS.912.N-RN.1.1:	<p>Explain how the definition of the meaning of rational exponents follows from extending the properties of integer exponents to those values, allowing for a notation for radicals in terms of rational exponents. For example, we define $\sqrt[3]{5}$ to be the cube root of 5 because we want $(\sqrt[3]{5})^3 = 5$ to hold, so $(\sqrt[3]{5})^3$ must equal 5.</p> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>MAFS.912.N-RN.1.AP.1a:</td> <td>Understand that the denominator of the rational exponent is the root index and the numerator is the exponent of the radicand (e.g., $5^{1/2} = \sqrt{5}$).</td> </tr> <tr> <td>MAFS.912.N-RN.1.AP.1b:</td> <td>Extend the properties of exponents to justify that $(5^{1/2})^2=5$</td> </tr> </tbody> </table>	Name	Description	MAFS.912.N-RN.1.AP.1a:	Understand that the denominator of the rational exponent is the root index and the numerator is the exponent of the radicand (e.g., $5^{1/2} = \sqrt{5}$).	MAFS.912.N-RN.1.AP.1b:	Extend the properties of exponents to justify that $(5^{1/2})^2=5$
Name	Description						
MAFS.912.N-RN.1.AP.1a:	Understand that the denominator of the rational exponent is the root index and the numerator is the exponent of the radicand (e.g., $5^{1/2} = \sqrt{5}$).						
MAFS.912.N-RN.1.AP.1b:	Extend the properties of exponents to justify that $(5^{1/2})^2=5$						
MAFS.912.N-RN.1.2:	<p>Rewrite expressions involving radicals and rational exponents using the properties of exponents.</p> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>MAFS.912.N-RN.1.AP.2a:</td> <td>Convert from radical representation to using rational exponents and vice versa.</td> </tr> </tbody> </table>	Name	Description	MAFS.912.N-RN.1.AP.2a:	Convert from radical representation to using rational exponents and vice versa.		
Name	Description						
MAFS.912.N-RN.1.AP.2a:	Convert from radical representation to using rational exponents and vice versa.						
MAFS.912.N-Q.1.1:	<p>Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★</p> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> </tbody> </table>	Name	Description				
Name	Description						

MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.

Define appropriate quantities for the purpose of descriptive modeling. ★

[MAFS.912.N-Q.1.2:](#)

Remarks/Examples:

Algebra 1 Content Notes:

Working with quantities and the relationships between them provides grounding for work with expressions, equations, and functions.

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.2a:	Determine and interpret appropriate quantities when using descriptive modeling.

[MAFS.912.N-Q.1.3:](#)

Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.3a:	Describe the accuracy of measurement when reporting quantities (you can lessen your limitations by measuring precisely).

Interpret expressions that represent a quantity in terms of its context. ★

[MAFS.912.A-SSE.1.1:](#)

- a. Interpret parts of an expression, such as terms, factors, and coefficients.
- b. Interpret complicated expressions by viewing one or more of their parts as a single entity. For example, interpret $P(1+r)^n$ as the product of P and a factor not depending on P.

Related Access Points

Name	Description
MAFS.912.A-SSE.1.AP.1a:	Identify the different parts of the expression and explain their meaning within the context of a problem.
MAFS.912.A-SSE.1.AP.1b:	Decompose expressions and make sense of the multiple factors and terms by explaining the meaning of the individual parts.

Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. ★

[MAFS.912.A-SSE.2.3:](#)

- a. Factor a quadratic expression to reveal the zeros of the function it defines.
- b. Complete the square in a quadratic expression to reveal the maximum or minimum value of the function it defines.
- c. Use the properties of exponents to transform expressions for exponential functions. For example the expression 1.15^t can be rewritten as $(1.15^{1/12})^{12t} \approx 1.012^{12t}$ to reveal the approximate equivalent monthly interest rate if the annual rate is 15%.

Related Access Points

Name	Description
MAFS.912.A-SSE.2.AP.3a:	Write expressions in equivalent forms by factoring to find the zeros of a quadratic function and explain the meaning of the zeros.
MAFS.912.A-SSE.2.AP.3b:	Given a quadratic function, explain the meaning of the zeros of the function (e.g., if $f(x) = (x - c)(x - a)$ then $f(a) = 0$ and $f(c) = 0$).
MAFS.912.A-SSE.2.AP.3c:	Given a quadratic expression, explain the meaning of the zeros graphically (e.g., for an expression $(x - a)(x - c)$, a and c correspond to the x-intercepts (if a and c are real).
MAFS.912.A-SSE.2.AP.3d:	Write expressions in equivalent forms by completing the square to convey the vertex form, to find the maximum or minimum value of a quadratic function, and to explain the meaning of the vertex.
MAFS.912.A-SSE.2.AP.3e:	Use properties of exponents (such as power of a power, product of powers, power of a product, and rational exponents, etc.) to write an equivalent form of an exponential function to reveal and explain specific information about its approximate rate of growth or decay.

[MAFS.912.A-CED.1.1:](#)

Create equations and inequalities in one variable and use them to solve problems. Include equations arising from linear and quadratic functions, and simple rational, absolute, and exponential functions. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.1a:	Create linear, quadratic, rational, and exponential equations and inequalities in one variable and use them in a contextual situation to solve problems.

[MAFS.912.A-CED.1.2:](#)

Create equations in two or more variables to represent relationships between quantities; graph equations on coordinate axes with labels and scales. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.2a:	Graph equations in two or more variables on coordinate axes with labels and scales.

[MAFS.912.A-CED.1.3:](#)

Represent constraints by equations or inequalities, and by systems of equations and/or inequalities, and interpret solutions as viable or non-viable options in a modeling context. For example, represent inequalities describing nutritional and cost constraints on combinations of different foods. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.3a:	Identify and interpret the solution of a system of linear equations from a real-world context that has been graphed.

[MAFS.912.A-CED.1.4:](#)

Rearrange formulas to highlight a quantity of interest, using the same reasoning as in solving equations. *For example, rearrange Ohm's law $V = IR$ to highlight resistance R .* ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.4a:	Solve multi-variable formulas or literal equations for a specific variable.

[MAFS.912.A-REI.1.1:](#)

Explain each step in solving a simple equation as following from the equality of numbers asserted at the previous step, starting from the assumption that the original equation has a solution. Construct a viable argument to justify a solution method.

Related Access Points

Name	Description
MAFS.912.A-REI.1.AP.1a:	Solve equations with one or two variables and explain the process.

[MAFS.912.A-REI.2.3:](#)

Solve linear equations and inequalities in one variable, including equations with coefficients represented by letters.

Related Access Points

Name	Description
MAFS.912.A-REI.2.AP.3a:	Solve linear equations in one variable, including coefficients represented by letters.
MAFS.912.A-REI.2.AP.3b:	Solve linear inequalities in one variable, including coefficients represented by letters.

[MAFS.912.A-REI.3.5:](#)

Prove that, given a system of two equations in two variables, replacing one equation by the sum of that equation and a multiple of the other produces a system with the same solutions.

Related Access Points

Name	Description
MAFS.912.A-REI.3.AP.5a:	Create a multiple of a linear equation showing that they are equivalent (e.g., $x + y = 6$ is equivalent to $2x + 2y = 12$).
MAFS.912.A-REI.3.AP.5b:	Find the sum of two equations.

[MAFS.912.A-REI.3.6:](#)

Solve systems of linear equations exactly and approximately (e.g., with graphs), focusing on pairs of linear equations in two variables.

Related Access Points

Name	Description
MAFS.912.A-REI.3.AP.6a:	Given a graph, describe or select the solution to a system of linear equations.
MAFS.912.A-REI.3.AP.6b:	Solve systems of nonlinear equations using substitution.

[MAFS.912.A-REI.4.10:](#)

Understand that the graph of an equation in two variables is the set of all its solutions plotted in the coordinate plane, often forming a curve (which could be a line).

Related Access Points

Name	Description
MAFS.912.A-REI.4.AP.10a:	Identify and graph the solutions (ordered pairs) on a graph of an equation in two variables.

[MAFS.912.A-REI.4.11:](#)

Explain why the x-coordinates of the points where the graphs of the equations $y = f(x)$ and $y = g(x)$ intersect are the solutions of the equation $f(x) = g(x)$; find the solutions approximately, e.g., using technology to graph the functions, make tables of values, or find successive approximations. Include cases where $f(x)$ and/or $g(x)$ are linear, polynomial, rational, absolute value, exponential, and logarithmic functions. ★

Related Access Points

Name	Description
MAFS.912.A-REI.4.AP.11a:	Understand the solution to a system of two linear equations in two variables corresponds to a point(s) of an intersection of their graphs, because the point(s) of intersection satisfies both equations simultaneously.

[MAFS.912.A-REI.4.12:](#)

Graph the solutions to a linear inequality in two variables as a half-plane (excluding the boundary in the case of a strict inequality), and graph the solution set to a system of linear inequalities in two variables as the intersection of the corresponding half-planes.

Related Access Points

Name	Description
MAFS.912.A-REI.4.AP.12a:	Graph a linear inequality in two variables using at least two coordinate pairs that are solutions.
MAFS.912.A-REI.4.AP.12b:	Graph a system of linear inequalities in two variables using at least two coordinate pairs for each inequality.

[MAFS.912.F-IF.1.1:](#)

Understand that a function from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range. If f is a function and x is an element of its domain, then $f(x)$ denotes the output of f corresponding to the input x . The graph of f is the graph of the equation $y = f(x)$.

Related Access Points

Name	Description
MAFS.912.F-IF.1.AP.1a:	Demonstrate that to be a function, from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range.
MAFS.912.F-IF.1.AP.1b:	Map elements of the domain sets to the corresponding range sets of functions and determine the rules in the relationship.

[MAFS.912.F-IF.1.2:](#) Use function notation, evaluate functions for inputs in their domains, and interpret statements that use function notation in terms of a context.

Related Access Points

Name	Description
MAFS.912.F-IF.1.AP.2a:	Match the correct function notation to a function or a model of a function (e.g., $x f(x) y$).

Recognize that sequences are functions, sometimes defined recursively, whose domain is a subset of the integers. For example, the Fibonacci sequence is defined recursively by $f(0) = f(1) = 1$, $f(n+1) = f(n) + f(n-1)$ for $n \geq 1$.

[MAFS.912.F-IF.1.3:](#)

Related Access Points

Name	Description
MAFS.912.F-IF.1.AP.3a:	Recognize that the domain of a sequence is a subset of the integers. .

[MAFS.912.F-IF.2.4:](#) For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship. Key features include: intercepts; intervals where the function is increasing, decreasing, positive, or negative; relative maximums and minimums; symmetries; end behavior; and periodicity. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.4a:	Recognize and interpret the key features of a function.
MAFS.912.F-IF.2.AP.4b:	Select the graph that matches the description of the relationship between two quantities in the function.

[MAFS.912.F-IF.2.5:](#) Relate the domain of a function to its graph and, where applicable, to the quantitative relationship it describes. For example, if the function $h(n)$ gives the number of person-hours it takes to assemble engines in a factory, then the positive integers would be an appropriate domain for the function. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.5a:	Given the graph of a function, determine the domain.

[MAFS.912.F-IF.2.6:](#) Calculate and interpret the average rate of change of a function (presented symbolically or as a table) over a specified interval. Estimate the rate of change from a graph. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.6a:	Describe the rate of change of a function using words.
MAFS.912.F-IF.2.AP.6b:	Describe the rate of change of a function using numbers.
MAFS.912.F-IF.2.AP.6c:	Pair the rate of change with its graph.

Graph functions expressed symbolically and show key features of the graph, by hand in simple cases and using technology for more complicated cases. ★

- Graph linear and quadratic functions and show intercepts, maxima, and minima.
- Graph square root, cube root, and piecewise-defined functions, including step functions and absolute value functions.
- Graph polynomial functions, identifying zeros when suitable factorizations are available, and showing end behavior.
- Graph rational functions, identifying zeros and asymptotes when suitable factorizations are available, and showing end behavior.
- Graph exponential and logarithmic functions, showing intercepts and end behavior, and trigonometric functions, showing period, midline, and amplitude, and using phase shift.

[MAFS.912.F-IF.3.7:](#)

Related Access Points

Name	Description
MAFS.912.F-IF.3.AP.7a:	Select a graph of a function that displays its symbolic representation (e.g., $f(x) = 3x + 5$).
MAFS.912.F-IF.3.AP.7b:	Locate the key features of linear and quadratic equations.

[MAFS.912.F-IF.3.9:](#) Compare properties of two functions each represented in a different way (algebraically, graphically, numerically in tables, or by verbal descriptions). For example, given a graph of one quadratic function and an algebraic expression for another, say which has the larger maximum.

Related Access Points

Name	Description
MAFS.912.F-IF.3.AP.9a:	Compare the properties of two functions.

Write a function that describes a relationship between two quantities. ★

- Determine an explicit expression, a recursive process, or steps for calculation from a context.
- Combine standard function types using arithmetic operations. For example, build a function that models the temperature of a cooling body by adding a constant function to a decaying exponential, and relate these functions to the model.
- Compose functions. For example, if $T(y)$ is the temperature in the atmosphere as a function of height, and $h(t)$ is the height of a weather balloon as a function of time, then $T(h(t))$ is the temperature at the location of the weather balloon as a function of time.

[MAFS.912.F-BF.1.1:](#)

Related Access Points

Name	Description
MAFS.912.F-BF.1.AP.1a:	Select a function that describes a relationship between two quantities (e.g., relationship between inches and centimeters, Celsius Fahrenheit, distance = rate \times time, recipe for peanut butter and jelly- relationship of peanut butter to jelly $f(x)=2x$, where x is the quantity of jelly, and $f(x)$ is peanut butter.

Identify the effect on the graph of replacing $f(x)$ by $f(x) + k$, $k f(x)$, $f(kx)$, and $f(x + k)$ for specific values of k (both positive and negative); find the value of k given the graphs. Experiment with cases and illustrate an explanation of the effects on the graph using technology. Include recognizing even and odd functions from their graphs and algebraic expressions for them.

[MAFS.912.F-BF.2.3:](#)

Related Access Points

Name	Description
MAFS.912.F-BF.2.AP.3a:	Write or select the graph that represents a defined change in the function (e.g., recognize the effect of changing k on the corresponding graph).

Distinguish between situations that can be modeled with linear functions and with exponential functions. ★

- Prove that linear functions grow by equal differences over equal intervals, and that exponential functions grow by equal factors over equal intervals.
- Recognize situations in which one quantity changes at a constant rate per unit interval relative to another.
- Recognize situations in which a quantity grows or decays by a constant percent rate per unit interval relative to another.

[MAFS.912.F-LE.1.1:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.1a:	Select the appropriate graphical representation of a linear model based on real-world events.
MAFS.912.F-LE.1.AP.1b:	In a linear situation using graphs or numbers, predict the change in rate based on a given change in one variable (e.g., If I have been adding sugar at a rate of 1T per cup of water, what happens to my rate if I switch to 2T of sugar for every cup of water?).

Construct linear and exponential functions, including arithmetic and geometric sequences, given a graph, a description of a relationship, or two input-output pairs (include reading these from a table). ★

[MAFS.912.F-LE.1.2:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.2a:	Select the graph, the description of a relationship or two input-output pairs of linear functions.

Observe using graphs and tables that a quantity increasing exponentially eventually exceeds a quantity increasing linearly, quadratically, or (more generally) as a polynomial function. ★

[MAFS.912.F-LE.1.3:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.3a:	Compare graphs of linear, exponential, and quadratic growth graphed on the same coordinate plane.

Interpret the parameters in a linear or exponential function in terms of a context. ★

[MAFS.912.F-LE.2.5:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.2.AP.5a:	Describe the meaning of the factors and intercepts on linear and exponential functions.

Represent data with plots on the real number line (dot plots, histograms, and box plots). ★

Remarks/Examples:
In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

[MAFS.912.S-ID.1.1:](#)

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.1a:	Complete a graph given the data, using dot plots, histograms or box plots.

Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★

[MAFS.912.S-ID.1.4:](#)

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.4a:	Use descriptive stats like range, median, mode, mean and outliers/gaps to describe the data set.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.1:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

[LAFS.910.SL.1.2:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

[LAFS.910.SL.1.3:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker’s point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker’s point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

[LAFS.910.SL.2.4:](#)

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.1.3:](#)

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.2.4:](#)

Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

[LAFS.910.RST.3.7:](#)

Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience’s knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.1.1:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.2.4:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

[LAFS.910.WHST.3.9:](#)

Make sense of problems and persevere in solving them.

[MAFS.K12.MP.1.1:](#)

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

Reason abstractly and quantitatively.

[MAFS.K12.MP.2.1:](#)

Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.

Construct viable arguments and critique the reasoning of others.

[MAFS.K12.MP.3.1:](#)

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

Model with mathematics.

[MAFS.K12.MP.4.1:](#)

Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.

Use appropriate tools strategically.

[MAFS.K12.MP.5.1:](#)

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

Attend to precision.

[MAFS.K12.MP.6.1:](#)

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

Look for and make use of structure.

[MAFS.K12.MP.7.1:](#)

Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y .

Look for and express regularity in repeated reasoning.

[MAFS.K12.MP.8.1:](#)

Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through $(1, 2)$ with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.

There are more than 740 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/1765>

Course Number: 7912090	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Academics - Subject Areas >
Course Section: Exceptional Student Education	Abbreviated Title: ACCESS ALGEBRA 1B
Number of Credits: Course may be taken for up to two credits	Course Length: Year (Y)
Course Type: Core	
Course Status: Draft - Course Pending Approval	Class Size? Yes
Grade Level(s) Version: 9,10,11,12	
NCLB? Yes	Graduation Requirement: Mathematics
	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MAFS.912.N-RN.1.2:	Rewrite expressions involving radicals and rational exponents using the properties of exponents.
Related Access Points	
Name	Description
MAFS.912.N-RN.1.AP.2a:	Convert from radical representation to using rational exponents and vice versa.
MAFS.912.N-RN.2.3:	Explain why the sum or product of two rational numbers is rational; that the sum of a rational number and an irrational number is irrational; and that the product of a nonzero rational number and an irrational number is irrational.
Related Access Points	
Name	Description
MAFS.912.N-RN.2.AP.3a:	Know and justify that when adding or multiplying two rational numbers the result is a rational number.
MAFS.912.N-RN.2.AP.3b:	Know and justify that when adding a rational number and an irrational number the result is irrational.
MAFS.912.N-RN.2.AP.3c:	Know and justify that when multiplying of a nonzero rational number and an irrational number the result is irrational.
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★
Related Access Points	
Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.

MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.

Interpret expressions that represent a quantity in terms of its context. ★

[MAFS.912.A-SSE.1.1:](#)

- Interpret parts of an expression, such as terms, factors, and coefficients.
- Interpret complicated expressions by viewing one or more of their parts as a single entity. For example, interpret $P(1+r)^n$ as the product of P and a factor not depending on P.

Related Access Points

Name	Description
MAFS.912.A-SSE.1.AP.1a:	Identify the different parts of the expression and explain their meaning within the context of a problem.
MAFS.912.A-SSE.1.AP.1b:	Decompose expressions and make sense of the multiple factors and terms by explaining the meaning of the individual parts.

Use the structure of an expression to identify ways to rewrite it. For example, see $x^4 - y^4$ as $(x^2)^2 - (y^2)^2$, thus recognizing it as a difference of squares that can be factored as $(x^2 - y^2)(x^2 + y^2)$.

[MAFS.912.A-SSE.1.2:](#)

Related Access Points

Name	Description
MAFS.912.A-SSE.1.AP.2a:	Rewrite algebraic expressions in different equivalent forms, such as factoring or combining like terms.
MAFS.912.A-SSE.1.AP.2b:	Use factoring techniques such as common factors, grouping, the difference of two squares, the sum or difference of two cubes, or a combination of methods to factor completely.
MAFS.912.A-SSE.1.AP.2c:	Simplify expressions including combining like terms, using the distributive property, and other operations with polynomials.

Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. ★

[MAFS.912.A-SSE.2.3:](#)

- Factor a quadratic expression to reveal the zeros of the function it defines.
- Complete the square in a quadratic expression to reveal the maximum or minimum value of the function it defines.
- Use the properties of exponents to transform expressions for exponential functions. For example the expression 1.15^t can be rewritten as $(1.15^{1/12})^{12t} \approx 1.012^{12t}$ to reveal the approximate equivalent monthly interest rate if the annual rate is 15%.

Related Access Points

Name	Description
MAFS.912.A-SSE.2.AP.3a:	Write expressions in equivalent forms by factoring to find the zeros of a quadratic function and explain the meaning of the zeros.
MAFS.912.A-SSE.2.AP.3b:	Given a quadratic function, explain the meaning of the zeros of the function (e.g., if $f(x) = (x - c)(x - a)$ then $f(a) = 0$ and $f(c) = 0$).
MAFS.912.A-SSE.2.AP.3c:	Given a quadratic expression, explain the meaning of the zeros graphically (e.g., for an expression $(x - a)(x - c)$, a and c correspond to the x-intercepts (if a and c are real)).
MAFS.912.A-SSE.2.AP.3d:	Write expressions in equivalent forms by completing the square to convey the vertex form, to find the maximum or minimum value of a quadratic function, and to explain the meaning of the vertex.
MAFS.912.A-SSE.2.AP.3e:	Use properties of exponents (such as power of a power, product of powers, power of a product, and rational exponents, etc.) to write an equivalent form of an exponential function to reveal and explain specific information about its approximate rate of growth or decay.

Understand that polynomials form a system analogous to the integers, namely, they are closed under the operations of addition, subtraction, and multiplication; add, subtract, and multiply polynomials.

[MAFS.912.A-APR.1.1:](#)

<p>Remarks/Examples:</p> <p>Algebra 1 - Fluency Recommendations</p> <p>Fluency in adding, subtracting, and multiplying polynomials supports students throughout their work in algebra, as well as in their symbolic work with functions. Manipulation can be more mindful when it is fluent.</p>
--

Related Access Points

Name	Description
MAFS.912.A-APR.1.AP.1a:	Understand the definition of a polynomial.
MAFS.912.A-APR.1.AP.1b:	Understand the concepts of combining like terms and closure.
MAFS.912.A-APR.1.AP.1c:	Add, subtract, and multiply polynomials and understand how closure applies under these operations.

[MAFS.912.A-APR.2.3:](#)

Identify zeros of polynomials when suitable factorizations are available, and use the zeros to construct a rough graph of the function defined by the polynomial.

Related Access Points

Name	Description
------	-------------

[MAFS.912.A-APR.2.AP.3a:](#) Find the zeros of a polynomial when the polynomial is factored (e.g., If given the polynomial equation $y = x^2 + 5x + 6$, factor the polynomial as $y = (x + 3)(x + 2)$. Then find the zeros of y by setting each factor equal to zero and solving. $x = -2$ and $x = -3$ are the two zeros of y .)

[MAFS.912.A-APR.2.AP.3b:](#) Use the zeros of a function to sketch a graph of the function.

[MAFS.912.A-CED.1.1:](#)

Create equations and inequalities in one variable and use them to solve problems. Include equations arising from linear and quadratic functions, and simple rational, absolute, and exponential functions. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.1a:	Create linear, quadratic, rational, and exponential equations and inequalities in one variable and use them in a contextual situation to solve problems.

[MAFS.912.A-CED.1.2:](#)

Create equations in two or more variables to represent relationships between quantities; graph equations on coordinate axes with labels and scales. ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.2a:	Graph equations in two or more variables on coordinate axes with labels and scales.

[MAFS.912.A-CED.1.4:](#)

Rearrange formulas to highlight a quantity of interest, using the same reasoning as in solving equations. *For example, rearrange Ohm's law $V = IR$ to highlight resistance R .* ★

Related Access Points

Name	Description
MAFS.912.A-CED.1.AP.4a:	Solve multi-variable formulas or literal equations for a specific variable.

Solve quadratic equations in one variable.

- Use the method of completing the square to transform any quadratic equation in x into an equation of the form $(x - p)^2 = q$ that has the same solutions. Derive the quadratic formula from this form.
- Solve quadratic equations by inspection (e.g., for $x^2 = 49$), taking square roots, completing the square, the quadratic formula and factoring, as appropriate to the initial form of the equation. Recognize when the quadratic formula gives complex solutions and write them as $a \pm bi$ for real numbers a and b .

[MAFS.912.A-REI.2.4:](#)

Related Access Points

Name	Description
MAFS.912.A-REI.2.AP.4a:	Solve quadratic equations by completing the square.
MAFS.912.A-REI.2.AP.4b:	Solve quadratic equations by using the quadratic formula.
MAFS.912.A-REI.2.AP.4c:	Solve quadratic equations by factoring.

[MAFS.912.F-IF.2.4:](#)

For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship. Key features include: intercepts; intervals where the function is increasing, decreasing, positive, or negative; relative maximums and minimums; symmetries; end behavior; and periodicity. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.4a:	Recognize and interpret the key features of a function.
MAFS.912.F-IF.2.AP.4b:	Select the graph that matches the description of the relationship between two quantities in the function.

[MAFS.912.F-IF.2.5:](#)

Relate the domain of a function to its graph and, where applicable, to the quantitative relationship it describes. For example, if the function $h(n)$ gives the number of person-hours it takes to assemble engines in a factory, then the positive integers would be an appropriate domain for the function. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.5a:	Given the graph of a function, determine the domain.

[MAFS.912.F-IF.2.6:](#)

Calculate and interpret the average rate of change of a function (presented symbolically or as a table) over a specified interval. Estimate the rate of change from a graph. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.6a:	Describe the rate of change of a function using words.
MAFS.912.F-IF.2.AP.6b:	Describe the rate of change of a function using numbers.
MAFS.912.F-IF.2.AP.6c:	Pair the rate of change with its graph.

Graph functions expressed symbolically and show key features of the graph, by hand in simple cases and using technology for more complicated cases. ★

- Graph linear and quadratic functions and show intercepts, maxima, and minima.

[MAFS.912.F-IF.3.7:](#)

- b. Graph square root, cube root, and piecewise-defined functions, including step functions and absolute value functions.
- c. Graph polynomial functions, identifying zeros when suitable factorizations are available, and showing end behavior.
- d. Graph rational functions, identifying zeros and asymptotes when suitable factorizations are available, and showing end behavior.
- e. Graph exponential and logarithmic functions, showing intercepts and end behavior, and trigonometric functions, showing period, midline, and amplitude, and using phase shift.

Related Access Points

Name	Description
MAFS.912.F-IF.3.AP.7a:	Select a graph of a function that displays its symbolic representation (e.g., $f(x) = 3x + 5$).
MAFS.912.F-IF.3.AP.7b:	Locate the key features of linear and quadratic equations.

Write a function defined by an expression in different but equivalent forms to reveal and explain different properties of the function.

- a. Use the process of factoring and completing the square in a quadratic function to show zeros, extreme values, and symmetry of the graph, and interpret these in terms of a context.

[MAFS.912.F-IF.3.8:](#)

- b. Use the properties of exponents to interpret expressions for exponential functions. For example, identify percent rate of change in functions such as $y = (1.02)^t$, $y = (0.97)^t$, $y = (1.01)^{12t}$, $y = (1.2)^{t/10}$, and classify them as representing exponential growth or decay.

Related Access Points

Name	Description
MAFS.912.F-IF.3.AP.8a:	Write or select an equivalent form of a function [e.g., $y = mx + b$, $f(x) = y$, $y - y1 = m(x - x1)$, $Ax + By = C$].
MAFS.912.F-IF.3.AP.8b:	Describe the properties of a function (e.g., rate of change, maximum, minimum, etc.).

Compare properties of two functions each represented in a different way (algebraically, graphically, numerically in tables, or by verbal descriptions). For example, given a graph of one quadratic function and an algebraic expression for another, say which has the larger maximum.

[MAFS.912.F-IF.3.9:](#)

Related Access Points

Name	Description
MAFS.912.F-IF.3.AP.9a:	Compare the properties of two functions.

Write a function that describes a relationship between two quantities. ★

- a. Determine an explicit expression, a recursive process, or steps for calculation from a context.
- b. Combine standard function types using arithmetic operations. For example, build a function that models the temperature of a cooling body by adding a constant function to a decaying exponential, and relate these functions to the model.
- c. Compose functions. For example, if $T(y)$ is the temperature in the atmosphere as a function of height, and $h(t)$ is the height of a weather balloon as a function of time, then $T(h(t))$ is the temperature at the location of the weather balloon as a function of time.

[MAFS.912.F-BF.1.1:](#)

Related Access Points

Name	Description
MAFS.912.F-BF.1.AP.1a:	Select a function that describes a relationship between two quantities (e.g., relationship between inches and centimeters, Celsius Fahrenheit, distance = rate x time, recipe for peanut butter and jelly- relationship of peanut butter to jelly $f(x)=2x$, where x is the quantity of jelly, and $f(x)$ is peanut butter.

Identify the effect on the graph of replacing $f(x)$ by $f(x) + k$, $k f(x)$, $f(kx)$, and $f(x + k)$ for specific values of k (both positive and negative); find the value of k given the graphs. Experiment with cases and illustrate an explanation of the effects on the graph using technology. Include recognizing even and odd functions from their graphs and algebraic expressions for them.

[MAFS.912.F-BF.2.3:](#)

Related Access Points

Name	Description
MAFS.912.F-BF.2.AP.3a:	Write or select the graph that represents a defined change in the function (e.g., recognize the effect of changing k on the corresponding graph).

Distinguish between situations that can be modeled with linear functions and with exponential functions. ★

- a. Prove that linear functions grow by equal differences over equal intervals, and that exponential functions grow by equal factors over equal intervals.
- b. Recognize situations in which one quantity changes at a constant rate per unit interval relative to another.
- c. Recognize situations in which a quantity grows or decays by a constant percent rate per unit interval relative to another.

[MAFS.912.F-LE.1.1:](#)

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.1a:	Select the appropriate graphical representation of a linear model based on real-world events.
MAFS.912.F-LE.1.AP.1b:	In a linear situation using graphs or numbers, predict the change in rate based on a given change in one variable (e.g., If I have been adding sugar at a rate of 1T per cup of water, what happens to my rate if I switch to 2T of sugar for every cup of water?).

[MAFS.912.F-LE.1.3:](#)

Observe using graphs and tables that a quantity increasing exponentially eventually exceeds a quantity increasing linearly, quadratically, or (more generally) as a polynomial function. ★

Related Access Points

Name	Description
MAFS.912.F-LE.1.AP.3a:	Compare graphs of linear, exponential, and quadratic growth graphed on the same coordinate plane.

Represent data with plots on the real number line (dot plots, histograms, and box plots). ★

[MAFS.912.S-ID.1.1:](#)

Remarks/Examples:
In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.1a:	Complete a graph given the data, using dot plots, histograms or box plots.

Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★

[MAFS.912.S-ID.1.2:](#)

Remarks/Examples:
In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.2a:	Describe a distribution using center and spread
MAFS.912.S-ID.1.AP.2b:	Use the correct measure of center and spread to describe a distribution that is symmetric or skewed.
MAFS.912.S-ID.1.AP.2c:	Identify outliers (extreme data points) and their effects on data sets.
MAFS.912.S-ID.1.AP.2d:	Compare two or more different data sets using the center and spread of each.

Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★

[MAFS.912.S-ID.1.3:](#)

Remarks/Examples:
In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.3a:	Use statistical vocabulary to describe the difference in shape, spread, outliers and the center (mean).

Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★

[MAFS.912.S-ID.1.4:](#)

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.4a:	Use descriptive stats like range, median, mode, mean and outliers/gaps to describe the data set.

Summarize categorical data for two categories in two-way frequency tables. Interpret relative frequencies in the context of the data (including joint, marginal, and conditional relative frequencies). Recognize possible associations and trends in the data. ★

[MAFS.912.S-ID.2.5:](#)

Related Access Points

Name	Description
MAFS.912.S-ID.2.AP.5a:	Recognize associations and trends in data from a two-way table.

Represent data on two quantitative variables on a scatter plot, and describe how the variables are related. ★

- Fit a function to the data; use functions fitted to data to solve problems in the context of the data. Use given functions or choose a function suggested by the context. Emphasize linear, and exponential models.
- Informally assess the fit of a function by plotting and analyzing residuals.
- Fit a linear function for a scatter plot that suggests a linear association.

[MAFS.912.S-ID.2.6:](#)

Remarks/Examples:
Students take a more sophisticated look at using a linear function to model the relationship between two numerical variables. In addition to fitting a line to data, students assess how well the model fits by analyzing residuals.

Related Access Points

Name	Description
MAFS.912.S-ID.2.AP.6a:	Create a scatter plot from two quantitative variables.
MAFS.912.S-ID.2.AP.6b:	Describe the form, strength, and direction of the relationship.
MAFS.912.S-ID.2.AP.6c:	Categorize data as linear or not.

MAFS.912.S-ID.2.AP.6d:	Use algebraic methods and technology to fit a linear function to the data.
MAFS.912.S-ID.2.AP.6e:	Use the function to predict values.
MAFS.912.S-ID.2.AP.6f:	Explain the meaning of the constant and coefficients in context.

[MAFS.912.S-ID.3.7:](#)

Interpret the slope (rate of change) and the intercept (constant term) of a linear model in the context of the data. ★

Related Access Points

Name	Description
MAFS.912.S-ID.3.AP.7a:	Interpret the meaning of the slope and y-intercept in context.

[MAFS.912.S-ID.3.8:](#)

Compute (using technology) and interpret the correlation coefficient of a linear fit. ★

Related Access Points

Name	Description
MAFS.912.S-ID.3.AP.8a:	Identify the correlation coefficient (r) of a linear fit.
MAFS.912.S-ID.3.AP.8b:	Describe the correlation coefficient (r) of a linear fit (e.g., a strong or weak positive, negative, perfect correlation).

[MAFS.912.S-ID.3.9:](#)

Distinguish between correlation and causation. ★

Related Access Points

Name	Description
MAFS.912.S-ID.3.AP.9a:	Given a correlation in a real-world scenario, determine if there is causation.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.1:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker’s point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker’s point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

LAFS.910.RST.1.3:	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.
LAFS.910.RST.2.4:	Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.
LAFS.910.RST.3.7:	Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.
LAFS.910.WHST.1.1:	<p>Write arguments focused on discipline-specific content.</p> <ol style="list-style-type: none"> Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience’s knowledge level and concerns. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.2.1:	<p>Reason abstractly and quantitatively.</p> <p>Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>
MAFS.K12.MP.4.1:	<p>Model with mathematics.</p> <p>Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.</p>
MAFS.K12.MP.5.1:	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently,</p>

express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

Look for and make use of structure.

[MAFS.K12.MP.7.1:](#)

Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y .

Look for and express regularity in repeated reasoning.

[MAFS.K12.MP.8.1:](#)

Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through (1, 2) with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AC.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Mathematics.

Fundamental Algebraic Skills (#7912100)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7912100

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas >

Course Section: Exceptional Student Education

Number of Credits: One credit (1)

Course Status: Draft - Course Pending Approval

Abbreviated Title: FUND ALGEBRA SKLS

Course Length: Year (Y)

VERSION DESCRIPTION

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

The fundamental purpose of this course is to formalize and extend the mathematics that students learned in the middle grades. The critical areas deepen and extend understanding of linear and exponential relationships by contrasting them with each other and by applying linear models to data that exhibit a linear trend, and students engage in methods for analyzing, solving, and using functions. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MAFS.912.N-RN.2.3:	Explain why the sum or product of two rational numbers is rational; that the sum of a rational number and an irrational number is irrational; and that the product of a nonzero rational number and an irrational number is irrational.
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★
MAFS.912.N-Q.1.2:	Define appropriate quantities for the purpose of descriptive modeling. ★
MAFS.912.N-Q.1.3:	Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★
MAFS.912.A-SSE.1.1:	Interpret expressions that represent a quantity in terms of its context. ★ <ul style="list-style-type: none"> a. Interpret parts of an expression, such as terms, factors, and coefficients. b. Interpret complicated expressions by viewing one or more of their parts as a single entity. For example, interpret $P(1+r)^n$ as the product of P and a factor not depending on P.
MAFS.912.A-CED.1.1:	Create equations and inequalities in one variable and use them to solve problems. Include equations arising from linear and quadratic functions, and simple rational, absolute, and exponential functions. ★

Remarks/Examples:

Algebra 1 Content Notes:

Working with quantities and the relationships between them provides grounding for work with expressions, equations, and functions.

MAFS.912.A-CED.1.2:	Create equations in two or more variables to represent relationships between quantities; graph equations on coordinate axes with labels and scales. ★
MAFS.912.A-CED.1.3:	Represent constraints by equations or inequalities, and by systems of equations and/or inequalities, and interpret solutions as viable or non-viable options in a modeling context. For example, represent inequalities describing nutritional and cost constraints on combinations of different foods. ★
MAFS.912.A-CED.1.4:	Rearrange formulas to highlight a quantity of interest, using the same reasoning as in solving equations. <i>For example, rearrange Ohm's law $V = IR$ to highlight resistance R.</i> ★
MAFS.912.A-REI.1.1:	Explain each step in solving a simple equation as following from the equality of numbers asserted at the previous step, starting from the assumption that the original equation has a solution. Construct a viable argument to justify a solution method.
MAFS.912.A-REI.2.3:	Solve linear equations and inequalities in one variable, including equations with coefficients represented by letters.
MAFS.912.A-REI.3.5:	Prove that, given a system of two equations in two variables, replacing one equation by the sum of that equation and a multiple of the other produces a system with the same solutions.
MAFS.912.A-REI.3.6:	Solve systems of linear equations exactly and approximately (e.g., with graphs), focusing on pairs of linear equations in two variables.
MAFS.912.A-REI.4.10:	Understand that the graph of an equation in two variables is the set of all its solutions plotted in the coordinate plane, often forming a curve (which could be a line).
MAFS.912.A-REI.4.11:	Explain why the x-coordinates of the points where the graphs of the equations $y = f(x)$ and $y = g(x)$ intersect are the solutions of the equation $f(x) = g(x)$; find the solutions approximately, e.g., using technology to graph the functions, make tables of values, or find successive approximations. Include cases where $f(x)$ and/or $g(x)$ are linear, polynomial, rational, absolute value, exponential, and logarithmic functions. ★
MAFS.912.A-REI.4.12:	Graph the solutions to a linear inequality in two variables as a half-plane (excluding the boundary in the case of a strict inequality), and graph the solution set to a system of linear inequalities in two variables as the intersection of the corresponding half-planes.
MAFS.912.F-IF.1.1:	Understand that a function from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range. If f is a function and x is an element of its domain, then $f(x)$ denotes the output of f corresponding to the input x . The graph of f is the graph of the equation $y = f(x)$.
MAFS.912.F-IF.1.2:	Use function notation, evaluate functions for inputs in their domains, and interpret statements that use function notation in terms of a context.
MAFS.912.F-IF.1.3:	Recognize that sequences are functions, sometimes defined recursively, whose domain is a subset of the integers. For example, the Fibonacci sequence is defined recursively by $f(0) = f(1) = 1$, $f(n+1) = f(n) + f(n-1)$ for $n \geq 1$.
MAFS.912.F-IF.2.4:	For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship. Key features include: intercepts; intervals where the function is increasing, decreasing, positive, or negative; relative maximums and minimums; symmetries; end behavior; and periodicity. ★
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★
MAFS.912.S-ID.2.5:	Summarize categorical data for two categories in two-way frequency tables. Interpret relative frequencies in the context of the data (including joint, marginal, and conditional relative frequencies). Recognize possible associations and trends in the data. ★
MAFS.912.S-ID.2.6:	<p>Represent data on two quantitative variables on a scatter plot, and describe how the variables are related. ★</p> <ol style="list-style-type: none"> Fit a function to the data; use functions fitted to data to solve problems in the context of the data. Use given functions or choose a function suggested by the context. Emphasize linear, and exponential models. Informally assess the fit of a function by plotting and analyzing residuals. Fit a linear function for a scatter plot that suggests a linear association.
MAFS.912.S-ID.3.7:	Interpret the slope (rate of change) and the intercept (constant term) of a linear model in the context of the data. ★
MAFS.912.S-ID.3.8:	Compute (using technology) and interpret the correlation coefficient of a linear fit. ★
LAFS.910.RST.1.3:	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.
LAFS.910.RST.2.4:	Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.
LAFS.910.RST.3.7:	Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.
LAFS.910.WHST.1.1:	<p>Write arguments focused on discipline-specific content.</p> <ol style="list-style-type: none"> Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from or supports the argument presented.

LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.2.1:	<p>Reason abstractly and quantitatively.</p> <p>Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>
MAFS.K12.MP.4.1:	<p>Model with mathematics.</p> <p>Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.</p>
MAFS.K12.MP.5.1:	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
MAFS.K12.MP.7.1:	<p>Look for and make use of structure.</p> <p>Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y.</p>
	<p>Look for and express regularity in repeated reasoning.</p> <p>Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a</p>

[MAFS.K12.MP.8.1:](#)

repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through (1, 2) with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AC.1:](#)

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Mathematics.

Fundamental Consumer Mathematics (#7912105)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7912105

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas >

Course Section: Exceptional Student Education

Number of Credits: One credit (1)

Course Status: Draft - Course Pending Approval

Abbreviated Title: FUND CONSUMER MATH

Course Length: Year (Y)

VERSION DESCRIPTION

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MA.912.F.1.1:	<p>Explain the difference between simple and compound interest.</p> <p>Remarks/Examples: Example: Compare the <u>similarities</u> and differences for calculating the final amount of money in your savings account based on simple interest or <u>compound interest</u>.</p>
MA.912.F.1.2:	<p>Solve problems involving compound interest.</p> <p>Remarks/Examples: Example: Find the amount of money on deposit at the end of 5 years if you started with \$500 and it was compounded quarterly at 6 % interest. Example: Joe won \$25,000 in the lottery. How many years will it take at 6% interest compounded yearly for his money to double?</p>
MA.912.F.1.3:	<p>Demonstrate the relationship between simple interest and linear growth.</p> <p>Remarks/Examples: Example: Find the account balance at the end of each month for a 5 month span for \$1500 @ 3 % interest based on simple interest for 1 year. Graph this scenario and explain if this is a linear or exponential problem.</p>
MA.912.F.1.4:	<p>Demonstrate the relationship between compound interest and exponential growth.</p> <p>Remarks/Examples: Example: Using an <u>exponential function</u>, find the account balance at the end of 4 years if you deposited \$1300 in an account paying 3.5% interest compounded annually. Graph the scenario.</p>
MA.912.F.3.1:	<p>Compare the advantages and disadvantages of using cash versus a credit card.</p> <p>Remarks/Examples: Example: Compare paying for a tank of gasoline in cash or paying with a credit card over a period of time.</p>
	Analyze credit scores and reports.

MA.912.F.3.2:	<p>Remarks/Examples: Example: Explain how each of the following categories affects a credit score: 1) past payment history, 2) amount of debt, 3) public records information, 4) <u>length</u> of credit history, and 5) the number of recent credit inquiries.</p>
	<p>Calculate the finance charges and total amount due on a credit card bill.</p>
MA.912.F.3.3:	<p>Remarks/Examples: Example: Calculate the finance charge each month and the total amount paid for 5 months if you charged \$500 on your credit card but you can only afford to pay \$100 each month. Your credit card has a monthly periodic finance <u>rate</u> of .688% and an annual finance <u>rate</u> of 8.9%.</p>
	<p>Compare the advantages and disadvantages of deferred payments.</p>
MA.912.F.3.4:	<p>Remarks/Examples: Example: Compare paying on a college loan between a Stafford loan or a PLUS loan two years after graduation</p>
	<p>Calculate deferred payments.</p>
MA.912.F.3.5:	<p>Remarks/Examples: Example: You want to buy a sofa that cost \$899. Company A will let you pay \$100 down and then pay the remaining amount over 3 years at 22% interest. Company B will not make you pay a down payment and they will defer payments for one year. However, you will accrue interest at a <u>rate</u> of 20 % interest during that first year. Starting the second year you will have to pay the new amount for 2 years at a <u>rate</u> of 26 % interest. Which deal is better and why? Calculate the total amount paid for both deals. Example: An electronics company advertises that you don't have to pay anything for 2 years. If you bought a big screen TV for \$2999 on January 1st what would your balance be two years later if you haven't made any payments assuming an interest <u>rate</u> of 23.99%? What would your monthly payments be to pay the TV off in 2 years? What did the TV really cost you?</p>
	<p>Calculate the total amount to be paid over the life of a fixed rate loan.</p>
MA.912.F.3.9:	<p>Remarks/Examples: Example: Calculate the total amount to be paid for a \$275,000 loan at 5.75% interest over 30 years</p>
	<p>Develop personal budgets that fit within various income brackets.</p>
MA.912.F.4.1:	<p>Remarks/Examples: Example: Develop a budget worksheet that includes typical expenses such as housing, transportation, utilities, food, medical expenses, and miscellaneous expenses. Add categories for savings toward your own financial goals, and determine the monthly income needed, before taxes, to meet the requirements of your budget.</p>
	<p>Explain cash management strategies including debit accounts, checking accounts, and savings accounts.</p>
MA.912.F.4.2:	<p>Remarks/Examples: Example: Explain the <u>difference</u> between a checking account and a savings account. Why might you want to have both types of accounts? Why might you want to have only one or the other type? Why is it rare to find someone who has a savings account but no checking account?</p>
	<p>Calculate net worth.</p>
MA.912.F.4.3:	<p>Remarks/Examples: Example: Jose is trying to prepare a balance sheet for the end of the year. His balances and details for the year are given in the <u>table</u> below. Write a balance sheet of Jose's liabilities and assets, and compute his <u>net</u> worth.</p>
	<p>Establish a plan to pay off debt.</p>
MA.912.F.4.4:	<p>Remarks/Examples: Example: Suppose you currently have a balance of \$4500 on a credit card that charges 18% annual interest. What monthly payment would you have to make in order to pay off the card in 3 years, assuming you do not make any more charges to the card?</p>
	<p>Develop and apply a variety of strategies to use tax tables, and to determine, calculate, and complete yearly federal income tax.</p>
MA.912.F.4.5:	<p>Remarks/Examples: Example: Suppose that Joe had income of \$40,000 in 2005, and had various deductions totaling \$6,240. If Joe filed as a single person, how much income tax did he have to pay that year?</p>
MA.912.F.4.6:	<p>Compare different insurance options and fees.</p>
	<p>Compare and contrast the role of insurance as a device to mitigate risk and calculate expenses of various options.</p>
MA.912.F.4.7:	<p>Remarks/Examples: Example: Explain why a person might choose to buy life insurance. Are there any circumstances under which one might not want life insurance?</p>
	<p>Collect, organize, and interpret data to determine an effective retirement savings plan to meet personal financial goals.</p>
MA.912.F.4.8:	<p>Remarks/Examples: Example: Investigate historical <u>rates</u> of return for stocks, bonds, savings accounts, mutual funds, as well as the relative risks for each type of investment. Organize your results in a <u>table</u> showing the relative returns and risks of each type of investment over short and long terms, and use these data to determine a combination of investments suitable for building a retirement account sufficient to meet anticipated financial needs.</p>
LAFS.910.RST.1.3:	<p>Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.</p>
LAFS.910.RST.2.4:	<p>Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.</p>
LAFS.910.RST.3.7:	<p>Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.</p>
	<p>Write arguments focused on discipline-specific content.</p>
	<p>a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.</p>

[LAFS.910.WHST.1.1:](#)

- b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- e. Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.3.9:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

Make sense of problems and persevere in solving them.

[MAFS.K12.MP.1.1:](#)

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

[MAFS.K12.MP.2.1:](#)

Reason abstractly and quantitatively.

Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.

[MAFS.K12.MP.3.1:](#)

Construct viable arguments and critique the reasoning of others.

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

[MAFS.K12.MP.4.1:](#)

Model with mathematics.

Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.

[MAFS.K12.MP.5.1:](#)

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

[MAFS.K12.MP.6.1:](#)

Attend to precision.

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

[MAFS.K12.MP.7.1:](#)

Look for and make use of structure.

Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x$

$-y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y .

Look for and express regularity in repeated reasoning.

[MAFS.K12.MP.8.1:](#)

Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through $(1, 2)$ with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.

Fundamental Explorations in Mathematics 1 (#7912110)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7912110	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: One credit (1)	Abbreviated Title: FUND EXPLORS IN MATH 1
Course Status: Draft - Course Pending Approval	Course Length: Year (Y)

VERSION DESCRIPTION

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Mathematics. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/MA.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MAFS.6.RP.1.1:	Understand the concept of a ratio and use ratio language to describe a ratio relationship between two quantities. <i>For example, "The ratio of wings to beaks in the bird house at the zoo was 2:1, because for every 2 wings there was 1 beak." "For every vote candidate A received, candidate C received nearly three votes."</i>
MAFS.6.RP.1.2:	Understand the concept of a unit rate a/b associated with a ratio $a:b$ with $b \neq 0$, and use rate language in the context of a ratio relationship. <i>For example, "This recipe has a ratio of 3 cups of flour to 4 cups of sugar, so there is $3/4$ cup of flour for each cup of sugar." "We paid \$75 for 15 hamburgers, which is a rate of \$5 per hamburger."</i>
MAFS.6.RP.1.3:	Use ratio and rate reasoning to solve real-world and mathematical problems, e.g., by reasoning about tables of equivalent ratios, tape diagrams, double number line diagrams, or equations. <ul style="list-style-type: none"> a. Make tables of equivalent ratios relating quantities with whole-number measurements, find missing values in the tables, and plot the pairs of values on the coordinate plane. Use tables to compare ratios. b. Solve unit rate problems including those involving unit pricing and constant speed. For example, if it took 7 hours to mow 4 lawns, then at that rate, how many lawns could be mowed in 35 hours? At what rate were lawns being mowed? c. Find a percent of a quantity as a rate per 100 (e.g., 30% of a quantity means $30/100$ times the quantity); solve problems involving finding the whole, given a part and the percent. d. Use ratio reasoning to convert measurement units; manipulate and transform units appropriately when multiplying or dividing quantities. e. Understand the concept of Pi as the ratio of the circumference of a circle to its diameter. <p>(¹See Table 2 Common Multiplication and Division Situations)</p> <div style="border: 1px solid black; padding: 5px;"> <p>Remarks/Examples: Examples of Opportunities for In-Depth Focus</p> <p>When students work toward meeting this standard, they use a range of reasoning and representations to analyze proportional relationships.</p> </div>

Interpret and compute quotients of fractions, and solve word problems involving division of fractions by fractions, e.g., by using visual fraction models and equations to represent the problem. *For example, create a story context for $(2/3) \div (3/4)$ and use a visual fraction model to show the quotient; use the relationship between multiplication and division to explain that $(2/3) \div (3/4) = 8/9$ because $3/4$ of $8/9$ is $2/3$. (In general, $(a/b) \div (c/d) = ad/bc$.)* How much chocolate will each person get if 3 people share $1/2$ lb of chocolate equally? How many $3/4$ -cup servings are in $2/3$ of a cup of yogurt? How wide is a rectangular strip of land with length $3/4$ mi and area $1/2$ square mi?

[MAFS.6.NS.1.1:](#)

Remarks/Examples:

Examples of Opportunities for In-Depth Focus

This is a culminating standard for extending multiplication and division to fractions.

Fluency Expectations or Examples of Culminating Standards

Students interpret and compute quotients of fractions and solve word problems involving division of fractions by fractions. This completes the extension of operations to fractions.

Fluently divide multi-digit numbers using the standard algorithm.

[MAFS.6.NS.2.2:](#)

Remarks/Examples:

Fluency Expectations or Examples of Culminating Standards

Students fluently divide multi-digit numbers using the standard algorithm. This is the culminating standard for several years' worth of work with division of whole numbers.

Fluently add, subtract, multiply, and divide multi-digit decimals using the standard algorithm for each operation.

[MAFS.6.NS.2.3:](#)

Remarks/Examples:

Fluency Expectations or Examples of Culminating Standards

Students fluently add, subtract, multiply, and divide multi-digit decimals using the standard algorithm for each operation. This is the culminating standard for several years' worth of work relating to the domains of Number and Operations in Base Ten, Operations and Algebraic Thinking, and Number and Operations — Fractions.

[MAFS.6.NS.2.4:](#)

Find the greatest common factor of two whole numbers less than or equal to 100 and the least common multiple of two whole numbers less than or equal to 12. Use the distributive property to express a sum of two whole numbers 1–100 with a common factor as a multiple of a sum of two whole numbers with no common factor. For example, express $36 + 8$ as $4(9 + 2)$.

[MAFS.6.NS.3.5:](#)

Understand that positive and negative numbers are used together to describe quantities having opposite directions or values (e.g., temperature above/below zero, elevation above/below sea level, credits/debits, positive/negative electric charge); use positive and negative numbers to represent quantities in real-world contexts, explaining the meaning of 0 in each situation.

[MAFS.6.NS.3.6:](#)

Understand a rational number as a point on the number line. Extend number line diagrams and coordinate axes familiar from previous grades to represent points on the line and in the plane with negative number coordinates.

- Recognize opposite signs of numbers as indicating locations on opposite sides of 0 on the number line; recognize that the opposite of the opposite of a number is the number itself, e.g., $-(-3) = 3$, and that 0 is its own opposite.
- Understand signs of numbers in ordered pairs as indicating locations in quadrants of the coordinate plane; recognize that when two ordered pairs differ only by signs, the locations of the points are related by reflections across one or both axes.
- Find and position integers and other rational numbers on a horizontal or vertical number line diagram; find and position pairs of integers and other rational numbers on a coordinate plane.

[MAFS.6.NS.3.7:](#)

Understand ordering and absolute value of rational numbers.

- Interpret statements of inequality as statements about the relative position of two numbers on a number line diagram. For example, interpret $-3 > -7$ as a statement that -3 is located to the right of -7 on a number line oriented from left to right.
- Write, interpret, and explain statements of order for rational numbers in real-world contexts. For example, write $-3^{\circ}\text{C} > -7^{\circ}\text{C}$ to express the fact that -3°C is warmer than -7°C .
- Understand the absolute value of a rational number as its distance from 0 on the number line; interpret absolute value as magnitude for a positive or negative quantity in a real-world situation. For example, for an account balance of -30 dollars, write $|-30| = 30$ to describe the size of the debt in dollars.
- Distinguish comparisons of absolute value from statements about order. For example, recognize that an account balance less than -30 dollars represents a debt greater than 30 dollars.

[MAFS.6.NS.3.8:](#)

Remarks/Examples:

Examples of Opportunities for In-Depth Focus

When students work with rational numbers in the coordinate plane to solve problems, they combine and consolidate elements from the other standards in this cluster.

[MAFS.6.EE.1.1:](#)

Write and evaluate numerical expressions involving whole-number exponents.

Write, read, and evaluate expressions in which letters stand for numbers.

- Write expressions that record operations with numbers and with letters standing for numbers. *For example, express the calculation "Subtract y*

from 5" as $5 - y$.

- b. Identify parts of an expression using mathematical terms (sum, term, product, factor, quotient, coefficient); view one or more parts of an expression as a single entity. For example, describe the expression $2(8 + 7)$ as a product of two factors; view $(8 + 7)$ as both a single entity and a sum of two terms.
- c. Evaluate expressions at specific values of their variables. Include expressions that arise from formulas used in real-world problems. Perform arithmetic operations, including those involving whole-number exponents, in the conventional order when there are no parentheses to specify a particular order (Order of Operations). For example, use the formulas $V = s^3$ and $A = 6s^2$ to find the volume and surface area of a cube with sides of length $s = 1/2$.

[MAFS.6.EE.1.2:](#)

Apply the properties of operations to generate equivalent expressions. For example, apply the distributive property to the expression $3(2 + x)$ to produce the equivalent expression $6 + 3x$; apply the distributive property to the expression $24x + 18y$ to produce the equivalent expression $6(4x + 3y)$; apply properties of operations to $y + y + y$ to produce the equivalent expression $3y$.

[MAFS.6.EE.1.3:](#)

**Remarks/Examples:
Examples of Opportunities for In-Depth Focus**

By applying properties of operations to generate equivalent expressions, students use properties of operations that they are familiar with from previous grades' work with numbers — generalizing arithmetic in the process.

[MAFS.6.EE.1.4:](#)

Identify when two expressions are equivalent (i.e., when the two expressions name the same number regardless of which value is substituted into them). For example, the expressions $y + y + y$ and $3y$ are equivalent because they name the same number regardless of which number y stands for.

[MAFS.6.EE.2.5:](#)

Understand solving an equation or inequality as a process of answering a question: which values from a specified set, if any, make the equation or inequality true? Use substitution to determine whether a given number in a specified set makes an equation or inequality true.

[MAFS.6.EE.2.6:](#)

Use variables to represent numbers and write expressions when solving a real-world or mathematical problem; understand that a variable can represent an unknown number, or, depending on the purpose at hand, any number in a specified set.

Solve real-world and mathematical problems by writing and solving equations of the form $x + p = q$ and $px = q$ for cases in which p , q and x are all non-negative rational numbers.

**Remarks/Examples:
Examples of Opportunities for In-Depth Focus**

When students write equations of the form $x + p = q$ and $px = q$ to solve real-world and mathematical problems, they draw on meanings of operations that they are familiar with from previous grades' work. They also begin to learn algebraic approaches to solving problems.¹⁶

¹⁶ For example, suppose Daniel went to visit his grandmother, who gave him \$5.50. Then he bought a book costing \$9.20 and had \$2.30 left. To find how much money he had before visiting his grandmother, an algebraic approach leads to the equation $x + 5.50 - 9.20 = 2.30$. An arithmetic approach without using variables at all would be to begin with 2.30, then add 9.20, then subtract 5.50. This yields the desired answer, but students will eventually encounter problems in which arithmetic approaches are unrealistically difficult and algebraic approaches must be used.

[MAFS.6.EE.2.7:](#)

[MAFS.6.EE.3.9:](#)

Use variables to represent two quantities in a real-world problem that change in relationship to one another; write an equation to express one quantity, thought of as the dependent variable, in terms of the other quantity, thought of as the independent variable. Analyze the relationship between the dependent and independent variables using graphs and tables, and relate these to the equation. For example, in a problem involving motion at constant speed, list and graph ordered pairs of distances and times, and write the equation $d = 65t$ to represent the relationship between distance and time.

[MAFS.6.G.1.1:](#)

Find the area of right triangles, other triangles, special quadrilaterals, and polygons by composing into rectangles or decomposing into triangles and other shapes; apply these techniques in the context of solving real-world and mathematical problems.

[MAFS.6.G.1.2:](#)

Find the volume of a right rectangular prism with fractional edge lengths by packing it with unit cubes of the appropriate unit fraction edge lengths, and show that the volume is the same as would be found by multiplying the edge lengths of the prism. Apply the formulas $V = lwh$ and $V = Bh$ to find volumes of right rectangular prisms with fractional edge lengths in the context of solving real-world and mathematical problems.

[MAFS.6.SP.1.1:](#)

Recognize a statistical question as one that anticipates variability in the data related to the question and accounts for it in the answers. For example, "How old am I?" is not a statistical question, but "How old are the students in my school?" is a statistical question because one anticipates variability in students' ages.

[MAFS.6.SP.1.2:](#)

Understand that a set of data collected to answer a statistical question has a distribution which can be described by its center, spread, and overall shape.

Summarize numerical data sets in relation to their context, such as by:

- Reporting the number of observations.
- Describing the nature of the attribute under investigation, including how it was measured and its units of measurement.
- Giving quantitative measures of center (median and/or mean) and variability (interquartile range and/or mean absolute deviation), as well as describing any overall pattern and any striking deviations from the overall pattern with reference to the context in which the data were gathered.
- Relating the choice of measures of center and variability to the shape of the data distribution and the context in which the data were gathered.

[LAFS.910.RST.1.3:](#)

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.2.4:](#)

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.3.7:](#)

Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.

[LAFS.910.WHST.1.1:](#)

- d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- e. Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.3.9:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

Make sense of problems and persevere in solving them.

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

[MAFS.K12.MP.1.1:](#)

Reason abstractly and quantitatively.

Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.

[MAFS.K12.MP.2.1:](#)

Construct viable arguments and critique the reasoning of others.

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

[MAFS.K12.MP.3.1:](#)

Model with mathematics.

Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.

[MAFS.K12.MP.4.1:](#)

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

[MAFS.K12.MP.5.1:](#)

Attend to precision.

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

[MAFS.K12.MP.6.1:](#)

Look for and make use of structure.

Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y .

[MAFS.K12.MP.7.1:](#)

Look for and express regularity in repeated reasoning.

Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary

[MAFS.K12.MP.8.1:](#)

students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through (1, 2) with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AC.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Mathematics.

There are more than 665 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12932>

Fundamental Explorations in Mathematics 2 (#7912115)

This document was generated on CPALMS - www.cpalms.org

Course Standards

Name	Description
MAFS.7.RP.1.1:	Compute unit rates associated with ratios of fractions, including ratios of lengths, areas and other quantities measured in like or different units. For example, if a person walks 1/2 mile in each 1/4 hour, compute the unit rate as the complex fraction 1/2/1/4 miles per hour, equivalently 2 miles per hour.
MAFS.7.RP.1.2:	Recognize and represent proportional relationships between quantities. <ul style="list-style-type: none"> a. Decide whether two quantities are in a proportional relationship, e.g., by testing for equivalent ratios in a table or graphing on a coordinate plane and observing whether the graph is a straight line through the origin. b. Identify the constant of proportionality (unit rate) in tables, graphs, equations, diagrams, and verbal descriptions of proportional relationships. c. Represent proportional relationships by equations. For example, if total cost t is proportional to the number n of items purchased at a constant price p, the relationship between the total cost and the number of items can be expressed as $t = pn$. d. Explain what a point (x, y) on the graph of a proportional relationship means in terms of the situation, with special attention to the points $(0, 0)$ and $(1, r)$ where r is the unit rate. <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Remarks/Examples: Examples of Opportunities for In-Depth Focus</p> <p>Students in grade 7 grow in their ability to recognize, represent, and analyze proportional relationships in various ways, including by using tables, graphs, and equations.</p> </div>
MAFS.7.RP.1.3:	Use proportional relationships to solve multistep ratio and percent problems. Examples: simple interest, tax, markups and markdowns, gratuities and commissions, fees, percent increase and decrease, percent error.
	Apply and extend previous understandings of addition and subtraction to add and subtract rational numbers; represent addition and subtraction on a horizontal or vertical number line diagram.

- Describe situations in which opposite quantities combine to make 0. For example, a hydrogen atom has 0 charge because its two constituents are oppositely charged.
- Understand $p + q$ as the number located a distance $|q|$ from p , in the positive or negative direction depending on whether q is positive or negative. Show that a number and its opposite have a sum of 0 (are additive inverses). Interpret sums of rational numbers by describing real-world contexts.
- Understand subtraction of rational numbers as adding the additive inverse, $p - q = p + (-q)$. Show that the distance between two rational numbers on the number line is the absolute value of their difference, and apply this principle in real-world contexts.
- Apply properties of operations as strategies to add and subtract rational numbers.

[MAFS.7.NS.1.1:](#)

Remarks/Examples:

Fluency Expectations or Examples of Culminating Standards

Adding, subtracting, multiplying, and dividing rational numbers is the culmination of numerical work with the four basic operations. The number system will continue to develop in grade 8, expanding to become the real numbers by the introduction of irrational numbers, and will develop further in high school, expanding to become the complex numbers with the introduction of imaginary numbers. Because there are no specific standards for rational number arithmetic in later grades and because so much other work in grade 7 depends on rational number arithmetic, fluency with rational number arithmetic should be the goal in grade 7.

Apply and extend previous understandings of multiplication and division and of fractions to multiply and divide rational numbers.

- Understand that multiplication is extended from fractions to rational numbers by requiring that operations continue to satisfy the properties of operations, particularly the distributive property, leading to products such as $(-1)(-1) = 1$ and the rules for multiplying signed numbers. Interpret products of rational numbers by describing real-world contexts.
- Understand that integers can be divided, provided that the divisor is not zero, and every quotient of integers (with non-zero divisor) is a rational number. If p and q are integers, then $-(p/q) = (-p)/q = p/(-q)$. Interpret quotients of rational numbers by describing real-world contexts.
- Apply properties of operations as strategies to multiply and divide rational numbers.
- Convert a rational number to a decimal using long division; know that the decimal form of a rational number terminates in 0s or eventually repeats.

[MAFS.7.NS.1.2:](#)

Remarks/Examples:

Fluency Expectations or Examples of Culminating Standards

Adding, subtracting, multiplying, and dividing rational numbers is the culmination of numerical work with the four basic operations. The number system will continue to develop in grade 8, expanding to become the real numbers by the introduction of irrational numbers, and will develop further in high school, expanding to become the complex numbers with the introduction of imaginary numbers. Because there are no specific standards for rational number arithmetic in later grades and because so much other work in grade 7 depends on rational number arithmetic, fluency with rational number arithmetic should be the goal in grade 7.

[MAFS.7.EE.1.1:](#)

Apply properties of operations as strategies to add, subtract, factor, and expand linear expressions with rational coefficients.

[MAFS.7.EE.1.2:](#)

Understand that rewriting an expression in different forms in a problem context can shed light on the problem and how the quantities in it are related. *For example, $a + 0.05a = 1.05a$ means that "increase by 5%" is the same as "multiply by 1.05."*

Solve multi-step real-life and mathematical problems posed with positive and negative rational numbers in any form (whole numbers, fractions, and decimals), using tools strategically. Apply properties of operations to calculate with numbers in any form; convert between forms as appropriate; and assess the reasonableness of answers using mental computation and estimation strategies. For example: If a woman making \$25 an hour gets a 10% raise, she will make an additional $1/10$ of her salary an hour, or \$2.50, for a new salary of \$27.50. If you want to place a towel bar $9 \frac{3}{4}$ inches long in the center of a door that is $27 \frac{1}{2}$ inches wide, you will need to place the bar about 9 inches from each edge; this estimate can be used as a check on the exact computation.

[MAFS.7.EE.2.3:](#)

Remarks/Examples:

Fluency Expectations or Examples of Culminating Standards

Students solve multistep problems posed with positive and negative rational numbers in any form (whole numbers, fractions, and decimals), using tools strategically. This work is the culmination of many progressions of learning in arithmetic, problem solving and mathematical practices.

Examples of Opportunities for In-Depth Focus

This is a major capstone standard for arithmetic and its applications.

Use variables to represent quantities in a real-world or mathematical problem, and construct simple equations and inequalities to solve problems by reasoning about the quantities.

- Solve word problems leading to equations of the form $px + q = r$ and $p(x + q) = r$, where p , q , and r are specific rational numbers. Solve equations of these forms fluently. Compare an algebraic solution to an arithmetic solution, identifying the sequence of the operations used in each approach. For example, the perimeter of a rectangle is 54 cm. Its length is 6 cm. What is its width?
- Solve word problems leading to inequalities of the form $px + q > r$ or $px + q < r$, where p , q , and r are specific rational numbers. Graph the solution set of the inequality and interpret it in the context of the problem. For example: As a salesperson, you are paid \$50 per week plus \$3 per sale. This week you want your pay to be at least \$100. Write an inequality for the number of sales you need to make, and describe the solutions.

[MAFS.7.EE.2.4:](#)

Remarks/Examples:

Fluency Expectations or Examples of Culminating Standards

In solving word problems leading to one-variable equations of the form $px + q = r$ and $p(x + q) = r$, students solve the equations fluently. This will require fluency with rational number arithmetic (7.NS.1.1–1.3), as well as fluency to some extent with applying properties operations to rewrite linear expressions with rational coefficients (7.EE.1.1).

Examples of Opportunities for In-Depth Focus

Work toward meeting this standard builds on the work that led to meeting 6.EE.2.7 and prepares students for the work that will lead to meeting 8.EE.3.7.

[MAFS.7.G.2.4:](#) Know the formulas for the area and circumference of a circle and use them to solve problems; give an informal derivation of the relationship between the circumference and area of a circle.

Solve real-world and mathematical problems involving area, volume and surface area of two- and three-dimensional objects composed of triangles, quadrilaterals, polygons, cubes, and right prisms.

[MAFS.7.G.2.6:](#)

Remarks/Examples:
Examples of Opportunities for In-Depth Focus

Work toward meeting this standard draws together grades 3–6 work with geometric measurement.

[MAFS.8.NS.1.1:](#)

Know that numbers that are not rational are called irrational. Understand informally that every number has a decimal expansion; for rational numbers show that the decimal expansion repeats eventually, and convert a decimal expansion which repeats eventually into a rational number.

[MAFS.8.EE.1.1:](#)

Know and apply the properties of integer exponents to generate equivalent numerical expressions. *For example, $3^2 \times 3^{-5} = 3^{-3} = 1/3^3 = 1/27$*

[MAFS.8.EE.1.2:](#)

Use square root and cube root symbols to represent solutions to equations of the form $x^2 = p$ and $x^3 = p$, where p is a positive rational number. Evaluate square roots of small perfect squares and cube roots of small perfect cubes. Know that $\sqrt{2}$ is irrational.

Graph proportional relationships, interpreting the unit rate as the slope of the graph. Compare two different proportional relationships represented in different ways. For example, compare a distance-time graph to a distance-time equation to determine which of two moving objects has greater speed.

[MAFS.8.EE.2.5:](#)

Remarks/Examples:
Examples of Opportunities for In-Depth Focus

When students work toward meeting this standard, they build on grades 6–7 work with proportions and position themselves for grade 8 work with functions and the equation of a line.

Analyze and solve pairs of simultaneous linear equations.

- Understand that solutions to a system of two linear equations in two variables correspond to points of intersection of their graphs, because points of intersection satisfy both equations simultaneously.
- Solve systems of two linear equations in two variables algebraically, and estimate solutions by graphing the equations. Solve simple cases by inspection. For example, $3x + 2y = 5$ and $3x + 2y = 6$ have no solution because $3x + 2y$ cannot simultaneously be 5 and 6.
- Solve real-world and mathematical problems leading to two linear equations in two variables. For example, given coordinates for two pairs of points, determine whether the line through the first pair of points intersects the line through the second pair.

[MAFS.8.EE.3.8:](#)

Remarks/Examples:
Examples of Opportunities for In-Depth Focus

When students work toward meeting this standard, they build on what they know about two-variable linear equations, and they enlarge the varieties of real-world and mathematical problems they can solve.

[MAFS.8.F.1.1:](#)

Understand that a function is a rule that assigns to each input exactly one output. The graph of a function is the set of ordered pairs consisting of an input and the corresponding output.

Verify experimentally the properties of rotations, reflections, and translations:

[MAFS.8.G.1.1:](#)

- Lines are taken to lines, and line segments to line segments of the same length.
- Angles are taken to angles of the same measure.
- Parallel lines are taken to parallel lines.

[MAFS.8.G.1.3:](#)

Describe the effect of dilations, translations, rotations, and reflections on two-dimensional figures using coordinates.

Apply the Pythagorean Theorem to determine unknown side lengths in right triangles in real-world and mathematical problems in two and three dimensions.

[MAFS.8.G.2.7:](#)

Remarks/Examples:
Examples of Opportunities for In-Depth Focus

The Pythagorean theorem is useful in practical problems, relates to grade-level work in irrational numbers and plays an important role mathematically in coordinate geometry in high school.

[LAFS.910.RST.1.3:](#)

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.2.4:](#)

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.3.7:](#)

Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

Write arguments focused on discipline-specific content.

[LAFS.910.WHST.1.1:](#)

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.

- d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- e. Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.3.9:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

Make sense of problems and persevere in solving them.

[MAFS.K12.MP.1.1:](#)

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

Reason abstractly and quantitatively.

[MAFS.K12.MP.2.1:](#)

Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved. Quantitative reasoning entails habits of creating a coherent representation of the problem at hand; considering the units involved; attending to the meaning of quantities, not just how to compute them; and knowing and flexibly using different properties of operations and objects.

Construct viable arguments and critique the reasoning of others.

[MAFS.K12.MP.3.1:](#)

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

Model with mathematics.

[MAFS.K12.MP.4.1:](#)

Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace. In early grades, this might be as simple as writing an addition equation to describe a situation. In middle grades, a student might apply proportional reasoning to plan a school event or analyze a problem in the community. By high school, a student might use geometry to solve a design problem or use a function to describe how one quantity of interest depends on another. Mathematically proficient students who can apply what they know are comfortable making assumptions and approximations to simplify a complicated situation, realizing that these may need revision later. They are able to identify important quantities in a practical situation and map their relationships using such tools as diagrams, two-way tables, graphs, flowcharts and formulas. They can analyze those relationships mathematically to draw conclusions. They routinely interpret their mathematical results in the context of the situation and reflect on whether the results make sense, possibly improving the model if it has not served its purpose.

Use appropriate tools strategically.

[MAFS.K12.MP.5.1:](#)

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

Attend to precision.

[MAFS.K12.MP.6.1:](#)

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

Look for and make use of structure.

[MAFS.K12.MP.7.1:](#)

Mathematically proficient students look closely to discern a pattern or structure. Young students, for example, might notice that three and seven more is the same amount as seven and three more, or they may sort a collection of shapes according to how many sides the shapes have. Later, students will see 7×8 equals the well remembered $7 \times 5 + 7 \times 3$, in preparation for learning about the distributive property. In the expression $x^2 + 9x + 14$, older students can see the 14 as 2×7 and the 9 as $2 + 7$. They recognize the significance of an existing line in a geometric figure and can use the strategy of drawing an auxiliary line for solving problems. They also can step back for an overview and shift perspective. They can see complicated things, such as some algebraic expressions, as single objects or as being composed of several objects. For example, they can see $5 - 3(x - y)^2$ as 5 minus a positive number times a square and use that to realize that its value cannot be more than 5 for any real numbers x and y .

Look for and express regularity in repeated reasoning.

Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts. Upper elementary

[MAFS.K12.MP.8.1:](#)

students might notice when dividing 25 by 11 that they are repeating the same calculations over and over again, and conclude they have a repeating decimal. By paying attention to the calculation of slope as they repeatedly check whether points are on the line through (1, 2) with slope 3, middle school students might abstract the equation $(y - 2)/(x - 1) = 3$. Noticing the regularity in the way terms cancel when expanding $(x - 1)(x + 1)$, $(x - 1)(x^2 + x + 1)$, and $(x - 1)(x^3 + x^2 + x + 1)$ might lead them to the general formula for the sum of a geometric series. As they work to solve a problem, mathematically proficient students maintain oversight of the process, while attending to the details. They continually evaluate the reasonableness of their intermediate results.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AC.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Mathematics.

Specially Designed Physical Education (#7915010)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7915010
Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas > **Abbreviated Title:** SPECI DESIGN PE
Course Section: Exceptional Student Education
Number of Credits: Multiple Credit (more than 1 credit)
Course Status: Draft - Course Pending Approval

VERSION DESCRIPTION

A. Major Concepts/Content. The purpose of this course is to provide experience and opportunities for students with disabilities to develop motor skills and to participate in various physical activities that may be modified to meet individual needs.

The content should include, but not be limited to, the following:

- team sports
- independent sports
- recreational sports
- motor development
- physical fitness

This course shall integrate the Sunshine State Standards and Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the individual student and to the content and processes of the subject matter. Students with disabilities shall:

CL.A.1.In.1 complete specified Sunshine State Standards with modifications as appropriate for the individual student.

CL.A.1.Su.1 complete specified Sunshine State Standards with modifications and guidance and support as appropriate for the individual student.

CL.A.1.Pa.1 participate in activities of peers' addressing Sunshine State Standards with assistance as appropriate for the individual student.

B. Special Note. This entire course may not be mastered in one year. A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed to reflect the wide range of abilities within the population of students with disabilities. The particular benchmark for a course requirement should be selected for individual students based on their levels of functioning and their desired postschool outcomes for adult living and employment specified in the Transition Individual Educational Plan.

Three levels of functioning, independent, supported, and participatory, have been designated to provide a way to differentiate benchmarks and course requirements for students with diverse abilities. Individual students may function at one level across all areas, or at several different levels, depending on the requirements of the situation. Students functioning at independent levels are generally capable of working and living independently. Students functioning at supported levels are generally capable of living and working with ongoing supervision and support. Students functioning at participatory levels are generally capable of participating in major life activities and require extensive support systems.

Instructional activities involving practical applications of course requirements may occur in naturalistic settings in home, school, and community for the purposes of practice, generalization, and maintenance of skills. These applications may require that the student acquire the knowledge and skills involved with the use of related technology, tools, and equipment.

GENERAL NOTES

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

C. Course Requirements. These requirements include, but are not limited to, the benchmarks from the State Standards for Special Diploma that are most relevant to this

course. Benchmarks correlated with a specific course requirement may also be addressed by other course requirements as appropriate. Some requirements in this course are not fully addressed in the State Standards for Special Diploma.

After successfully completing this course, the student will:

- 1. Perform physical movement skills at levels consistent with own capabilities.**
- 2. Perform skills in individual and team activities at levels consistent with own capabilities.**
- 3. Perform recreational skills involved in selected activities at levels consistent with own capabilities.**

IF.A.1.In.1 complete productive and leisure activities used in the home and community.
IF.A.1.Su.1 complete productive and leisure activities used in the home and community—with guidance and support.
IF.A.1.Pa.1 participate in routines of productive and leisure activities used in the home and community—with assistance.

- 4. Demonstrate understanding of the importance of regular participation in physical activities, fitness activities, and recreation for maintenance of physical well-being.**

IF.A.1.In.2 complete personal care, health, and fitness activities.
IF.A.1.Su.2 complete personal care, health, and fitness activities—with guidance and support.
IF.A.1.Pa.2 participate in personal care, health, and safety routines—with assistance.

- 5. Use responsible personal and social behaviors when participating in physical activities.**

IF.B.2.In.1 identify patterns of conduct that comply with social and environmental expectations in specified situations.
IF.B.2.In.2 demonstrate patterns of conduct that comply with social and environmental expectations in specified situations.
IF.B.2.In.3 respond effectively to unexpected events and potentially harmful situations.
IF.B.2.Su.1 identify patterns of conduct that comply with social and environmental expectations in specified situations—with guidance and support.
IF.B.2.Su.2 demonstrate patterns of conduct that comply with social and environmental expectations in specified situations—with guidance and support.
IF.B.2.Su.3 respond effectively to unexpected events and potentially harmful situations—with guidance and support.
IF.B.2.Pa.1 participate in using patterns of conduct that comply with social and environmental expectations in specified situations—with assistance.
IF.B.2.Pa.2 participate in responding appropriately to unexpected events and potentially harmful situations—with assistance.

- 6. Use technology to participate in and gain knowledge about own individual fitness and recreation activities.**
- 7. Select and participate regularly in physical activities based on availability in the community and personal choice at levels consistent with own capabilities.**

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. HE.912.B.4.Su.d:	Identify an effective personal health plan for a period of time, such as for stress reduction, weight management, healthier eating habits, or improved physical fitness.
HE.912.B.4.Pa.d:	Follow guided steps to develop an effective personal health plan for a period of time, such as for stress reduction, weight management, healthier eating habits, or improved physical fitness.

Predict how healthy behaviors can affect health status.

[HE.912.C.1.1:](#)

Remarks/Examples:
Some examples may include healthy fast food selections, regular medical screenings, regular physical activity, and industrial hygiene.

Related Access Points

Name	Description
HE.912.C.1.In.a:	Explain how healthy behaviors can affect health status, such as healthy fast food selections, regular medical screenings, and regular physical activity.
HE.912.C.1.Su.a:	Identify how healthy behaviors can affect health status, such as healthy fast food selections, regular medical screenings, and regular physical activity.
HE.912.C.1.Pa.a:	Recognize ways personal health can be affected by healthy behaviors, such as healthy fast food selections, regular medical checkups, and physical activity.

Interpret the interrelationships of mental/emotional, intellectual, physical, and social health.

[HE.912.C.1.2:](#)

Remarks/Examples:
Some examples may include binge drinking, eating disorders, sexual relationships, healthy relationships, sexual abstinence/risk reduction behaviors.

Related Access Points

Name	Description
HE.912.C.1.In.b:	Explain the interrelationships of mental/emotional, intellectual, physical, and social health, such as how drinking alcohol or sexual activity impacts physical, social, and mental/emotional dimensions of health.
HE.912.C.1.Su.b:	Identify the interrelationship between healthy behaviors and the dimensions of health (physical, mental/emotional, social, and intellectual), such as how drinking alcohol or sexual activity impacts physical and social dimensions of health.
HE.912.C.1.Pa.b:	Distinguish between healthy and unhealthy physical, mental/emotional, social, and intellectual behaviors, such as drinking alcohol or avoiding alcohol, and appropriate or inappropriate sexual behaviors.

Analyze how heredity and family history can impact personal health.

[HE.912.C.1.4:](#)

Remarks/Examples:
Some examples may include drug use, family obesity, heart disease, mental health, and non-communicable illness or disease.

Related Access Points

Name	Description
HE.912.C.1.In.d:	Explain how heredity and family history can impact personal health, such as drug use, family obesity, heart disease, and mental health.
HE.912.C.1.Su.d:	Describe ways personal health can be affected by heredity and family history, such as drug use, family obesity, heart disease, and mental health.
HE.912.C.1.Pa.d:	Recognize ways personal health can be affected by heredity or family history, such as drug use, family obesity, heart disease, and mental health.

Propose strategies to reduce or prevent injuries and health problems.

[HE.912.C.1.5:](#)

Remarks/Examples:
Some examples may include mandatory passenger restraint/helmet laws, mandatory immunizations, improve inspection of food sources.

Related Access Points

Name	Description
HE.912.C.1.In.e:	Describe strategies to reduce or prevent injuries and health problems, such as mandatory passenger restraint and helmet laws, mandatory immunizations, and proper handling of food.
HE.912.C.1.Su.e:	Identify strategies to reduce or prevent injuries and other adolescent health problems, such as mandatory passenger restraint and helmet laws, mandatory immunizations, and proper handling of food.
HE.912.C.1.Pa.e:	Recognize a strategy to prevent injury and adolescent health problems, such as mandatory passenger restraint/helmet laws or proper handling of food.

Assess the degree of susceptibility to injury, illness or death if engaging in unhealthy/risky behaviors.

[HE.912.C.1.7:](#)

Remarks/Examples:
Some examples may include death from alcohol poisoning, cancer and chronic lung disease related to tobacco use, overdose from illegal drug use, date rape as a result of alcohol use and/or adulterated food or beverage, child abuse or neglect, and serial monogamy.

Related Access Points

Name	Description
HE.912.C.1.In.g:	Predict the likelihood of injury, illness, or death from engaging in unhealthy behaviors, such as death from alcohol poisoning, cancer and chronic lung disease related to tobacco use, overdose from illegal drug use, or engaging in risky games.

HE.912.C.1.Su.g:	Describe the likelihood of injury, illness, or death from engaging in unhealthy behaviors, such as death from alcohol poisoning, cancer and chronic lung disease related to tobacco use, overdose from illegal drug use, or engaging in risky games.
HE.912.C.1.Pa.g:	Recognize likely injuries or illnesses resulting from engaging in unhealthy behaviors, such as death or injury from drinking and driving, injuries resulting from fighting and bullying, and infections from poor hygiene.

Analyze strategies for prevention, detection, and treatment of communicable and chronic diseases.

[HE.912.C.1.8:](#)

Remarks/Examples:

Some examples may include health prevention, detection, and treatment: breast and testicular cancer, suicide, obesity, and industrial-related chronic disease.

Related Access Points

Name	Description
HE.912.C.1.Su.h:	Identify common strategies for prevention, detection, and treatment of common communicable and chronic diseases, such as preventing and treating obesity, early detection of cancer, and getting adequate physical exercise to help prevent diabetes and heart disease.
HE.912.C.1.Pa.h:	Recognize selected strategies for prevention of common communicable diseases, such as sanitization, avoiding direct contact with infection, and proper disposal of hygiene products.

Analyze how the family influences the health of individuals.

[HE.912.C.2.1:](#)

Remarks/Examples:

Some examples may include nutritional management of meals, composition of various families, health insurance status, and safety and injury prevention.

Related Access Points

Name	Description
HE.912.C.2.In.a:	Explain how the family influences the health of individuals, such as nutritional management of meals, the composition of the family, and health insurance status.
HE.912.C.2.Su.a:	Describe how the family influences the health of individuals, such as providing nutritious meals, the composition of the family, and health insurance status.
HE.912.C.2.Pa.a:	Recognize selected ways the family influences the health of family members, such as providing nutritious meals and the composition of the family.

Compare how peers influence healthy and unhealthy behaviors.

[HE.912.C.2.2:](#)

Remarks/Examples:

Some examples may include binge drinking and social groups, pressure from boyfriend/girlfriend to be sexually involved, students' recommendations for school vending machines, healthy lifestyle, review trends in current and emerging diseases, and use of helmets and seatbelts.

Related Access Points

Name	Description
HE.912.C.2.In.b:	Examine how peers influence healthy and unhealthy behaviors, such as binge drinking and social groups, pressuring a girlfriend or boyfriend to be sexually active, and student recommendations for school vending machines.
HE.912.C.2.Su.b:	Describe how peers influence healthy and unhealthy behaviors, such as drinking alcohol in social groups, pressuring a girlfriend or boyfriend to be sexually active, and making recommendations for school vending machines.
HE.912.C.2.Pa.b:	Recognize ways peers influence healthy or unhealthy behaviors, such as drinking alcohol in social groups, pressuring a girlfriend or boyfriend to be sexually active, and making recommendations for school vending machines.

Assess how the school and community can affect personal health practice and behaviors.

[HE.912.C.2.3:](#)

Remarks/Examples:

Some examples may include healthier foods in vending machines, required health education, health screenings, and AED availability and training.

Related Access Points

Name	Description
HE.912.C.2.In.c:	Describe how the school and community can influence personal health practice and behavior, such as healthy foods in vending machines, required health education, and health screenings.
HE.912.C.2.Su.c:	Identify how the school and community can influence personal health practice and behavior, such as having healthy food in vending machines, required health education, and health screenings.
HE.912.C.2.Pa.c:	Recognize ways the school and community can influence personal health, such as having healthy food in vending machines, required health education, and health screenings.

Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

[HE.912.C.2.4:](#)

Remarks/Examples:

Some examples may include seat belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

Related Access Points

Name	Description
------	-------------

HE.912.C.2.In.d:	Describe how public health policies and government regulations can influence health promotion and disease prevention, such as enforcing seat belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Su.d:	Identify ways school and public health policies can influence health promotion and disease prevention, such as enforcing seat belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Pa.d:	Recognize ways selected school and public health policies can influence health promotion and disease prevention, such as enforcing seat belt laws, preventing underage alcohol sales, and assessing health status.

Evaluate the effect of media on personal and family health.

[HE.912.C.2.5:](#)

Remarks/Examples:
Some examples may include comparison of brand name/store brand items in home, analyze television viewing habits, identifying effective PSAs, consumer skills, advertisements of health-related community resources, and participation in risky behaviors.

Related Access Points

Name	Description
HE.912.C.2.In.e:	Examine the effect of media on personal and family health, such as comparing name and store brand items in the home, analyzing television viewing habits, and identifying effective public service announcements (PSAs).
HE.912.C.2.Su.e:	Describe the effect of media on personal and family health, such as comparing name and store brand items in the home, analyzing television viewing habits, and identifying effective public service announcements (PSAs).
HE.912.C.2.Pa.e:	Recognize the effect of media on personal and family health, such as television viewing habits and sedentary lifestyle and identifying effective public service announcements (PSAs).

Evaluate the impact of technology on personal, family, and community health.

[HE.912.C.2.6:](#)

Remarks/Examples:
Some examples may include AED use in community, pedestrian cross walks with audible directions, type of information requested from local 211/hotlines or websites, consumer websites, Internet safety, and disease prevention and control.

Related Access Points

Name	Description
HE.912.C.2.In.f:	Explain the impact of technology on personal, family, or community health, such as the availability of automated external defibrillators (AEDs) in the community, audible directions on pedestrian cross walks, and hotlines such as 211 or related Web sites.
HE.912.C.2.Su.f:	Describe the impact of technology on personal, family, and community health, such as the availability of automated external defibrillators (AEDs) in the community, audible directions on pedestrian cross walks, and hotlines such as 211 or related Web sites.
HE.912.C.2.Pa.f:	Recognize a way that the use of technology impacts personal, family, or community health, such as the availability of audible directions on pedestrian cross walks or hotlines such as 211 or related Web sites.

Assess the consequences of health risk behaviors.

[HE.912.C.2.7:](#)

Remarks/Examples:
Some examples may include dating someone who tries to control you, failure to establish sexual boundaries in relationships, abuse of a drug prescribed for someone else, child abuse, human contact as a mode of transmission of infectious agents, review of health information, and unintentional and intentional injury.

Related Access Points

Name	Description
HE.912.C.2.In.g:	Describe the consequences of selected health risk behaviors, such as dating someone who tries to control you, failing to establish sexual boundaries in relationships, and taking a drug prescribed for someone else.
HE.912.C.2.Su.g:	Identify the consequences of health-risk behaviors, such as dating someone who tries to control you, failing to establish sexual boundaries in relationships, and taking a drug prescribed for someone else.
HE.912.C.2.Pa.g:	Recognize the consequences of selected health-risk behaviors, such as dating someone who tries to control you, failing to establish sexual boundaries in relationships, and taking a drug prescribed for someone else.

Analyze how the perceptions of norms influence healthy and unhealthy behaviors.

[HE.912.C.2.8:](#)

Remarks/Examples:
Some examples may include driving over the speed limit, teen parenting, binge drinking, parenting, analyze health information, and environmental practices.

Related Access Points

Name	Description
HE.912.C.2.In.h:	Describe how the perceptions of social norms influence healthy and unhealthy behaviors, such as driving over the speed limit, becoming a teen parent, and binge drinking.
HE.912.C.2.Su.h:	Describe how the perceptions of selected social norms influence healthy and unhealthy behaviors, such as driving over the speed limit, becoming a teen parent, and binge drinking.
HE.912.C.2.Pa.h:	Recognize ways common social or cultural practices (norms) influence healthy and unhealthy behaviors, such as becoming a teen parent, binge drinking, dietary patterns, rites of passage, and courtship practices.

Analyze how culture supports and challenges health beliefs, practices, and behaviors.

[HE.912.C.2.9:](#)

Remarks/Examples:
Some examples may include various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and

parenting.

Related Access Points

Name	Description
HE.912.C.2.Su.i:	Identify ways culture influences health beliefs, practices, and behaviors, such as dietary patterns, rites of passage, and courtship practices.
HE.912.C.2.Pa.i:	Recognize ways common social or cultural practices (norms) influence healthy and unhealthy behaviors, such as becoming a teen parent, binge drinking, dietary patterns, rites of passage, and courtship practices.

[PE.912.C.1.11:](#)

Explain how each of the health-related fitness components (cardiorespiratory endurance, muscular strength, muscular endurance, flexibility, body composition) are improved through the application of training principles.

Related Access Points

Name	Description
PE.912.C.1.In.k:	Describe how each of the health-related fitness components, such as physical conditioning, flexibility, cardiorespiratory endurance, and body composition, are improved through the application of training principles.
PE.912.C.1.Su.k:	Identify how health-related fitness components such as physical conditioning, flexibility, cardiorespiratory endurance, and body composition, are improved through the application of training principles.
PE.912.C.1.Pa.k:	Recognize that exercise and training improves health-related fitness.

[PE.912.C.1.12:](#)

Compare and contrast aerobic versus anaerobic activities.

Related Access Points

Name	Description
PE.912.C.1.In.l:	Describe the differences between aerobic and anaerobic activities.
PE.912.C.1.Su.l:	Identify the differences between aerobic and anaerobic activities.
PE.912.C.1.Pa.l:	Recognize selected aerobic and anaerobic activities.

[PE.912.C.1.13:](#)

Document food intake, calories consumed, and energy expended through physical activity and analyze the results.

Related Access Points

Name	Description
PE.912.C.1.In.m:	Document food intake, calories consumed, and energy expended through physical activity and examine the results.
PE.912.C.1.Su.m:	Document food intake and physical activity and identify the results.
PE.912.C.1.Pa.m:	Document food intake and physical activity and recognize results.

Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★

[MAFS.912.S-ID.1.2:](#)

Remarks/Examples:
In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.2a:	Describe a distribution using center and spread
MAFS.912.S-ID.1.AP.2b:	Use the correct measure of center and spread to describe a distribution that is symmetric or skewed.
MAFS.912.S-ID.1.AP.2c:	Identify outliers (extreme data points) and their effects on data sets.
MAFS.912.S-ID.1.AP.2d:	Compare two or more different data sets using the center and spread of each.

[LAFS.910.RL.2.4:](#)

Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone).

Related Access Points

Name	Description
LAFS.910.RL.2.AP.4a:	Determine the meaning of words and phrases as they are used in a text, including figurative (i.e., metaphors, similes and idioms) and connotative meanings.

[LAFS.910.W.3.8:](#)

Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

Related Access Points

Name	Description
LAFS.910.W.3.AP.8a:	Gather (e.g., highlight, quote or paraphrase from source) relevant information about the topic from authoritative print and/or digital sources.
LAFS.910.W.3.AP.8b:	Gather relevant information about the topic or text and stated claim from authoritative print and/or digital sources.
LAFS.910.W.3.AP.8c:	Integrate information presented by others into the writing product while avoiding plagiarism.
LAFS.910.W.3.AP.8d:	Use a standard format to write citations.

[LAFS.910.W.3.AP.8e](#): Avoid plagiarism when integrating multiple sources into a written text or when discussing/referring to text.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.1](#):

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a :	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b :	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c :	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d :	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e :	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f :	Engage appropriately in discussion with others who have a diverse or divergent perspective.

Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

[LAFS.910.L.3.6](#):

Related Access Points

Name	Description
LAFS.910.L.3.AP.6a :	Use grade-appropriate general academic and domain-specific words and phrases accurately within writing.
LAFS.910.L.3.AP.6b :	Use newly acquired domain-specific words and phrases accurately.

Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

[LAFS.910.WHST.2.6](#):

Assess refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks.

[HE.912.B.4.2](#):

Remarks/Examples:

Validate other's opinions, use direct statement, use active statement, and offer alternatives.

Related Access Points

Name	Description
HE.912.B.4.In.b :	Determine effective refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks, such as validating other's opinions, making direct and active statements, and offering alternatives.
HE.912.B.4.Su.b :	Demonstrate selected effective refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks, such as validating other's opinions, making direct and active statements, and offering alternatives.
HE.912.B.4.Pa.b :	Use a refusal, a negotiation, or a collaboration skill to avoid or reduce personal health risks or resolve conflicts, such as stating desires clearly, offering alternatives, using "I" messages, expressing emotions, or making direct statements.

Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others.

[HE.912.B.4.3](#):

Remarks/Examples:

Effective verbal and nonverbal communication, compromise, and conflict-resolution.

Related Access Points

Name	Description
HE.912.B.4.In.c :	Use basic strategies to prevent or resolve interpersonal conflicts without harming self or others, such as using effective verbal and nonverbal communication, compromising, and using conflict-resolution skills.
HE.912.B.4.Su.c :	Use a basic strategy to prevent or resolve interpersonal conflicts without harming self or others, such as using effective verbal and nonverbal communication, compromising, or using conflict-resolution skills.
HE.912.B.4.Pa.c :	Use a refusal, a negotiation, or a collaboration skill to avoid or reduce personal health risks or resolve conflicts, such as stating desires clearly, offering alternatives, using "I" messages, expressing emotions, or making direct statements.

Analyze the validity of ways to ask for and offer assistance to enhance the health of self and others.

[HE.912.B.4.4](#):

Remarks/Examples:

Verbal and written communication, active listening, and how to seek help for a friend.

Related Access Points

Name	Description
------	-------------

HE.912.B.4.In.d:	Explain the effectiveness of various ways of asking for and offering assistance to enhance the health of self and others, such as verbalizing, writing, listening actively, and seeking help for a friend.
HE.912.B.4.Su.d:	Describe effective ways to ask for and offer assistance to enhance the health of self and others, such as verbalizing, writing, listening actively, and seeking help for a friend.
HE.912.B.4.Pa.d:	Identify an effective way to ask for and offer assistance to enhance the health of self and others, such as verbalizing, listening actively, and seeking help for a friend.

Determine the value of applying a thoughtful decision-making process in health-related situations.

[HE.912.B.5.1:](#)

Remarks/Examples:
Defining healthy boundaries and relationships, sexual activity, alcohol consumption, organ-donor decisions, child care, protection against infectious agents, wellness promotion, and first-aid-treatment options.

Related Access Points

Name	Description
HE.912.B.5.In.1:	Describe the value of applying a thoughtful decision-making process in health-related situations, such as decisions regarding sexual activity, alcohol consumption, and organ donation.
HE.912.B.5.Su.1:	Identify the value of applying a thoughtful decision-making process in health-related situations, such as decisions regarding sexual activity, alcohol consumption, and organ donation.
HE.912.B.5.Pa.1:	Recognize a health-related situation that requires the application of a thoughtful decision-making process, such as decisions regarding sexual activity, alcohol consumption, and organ donation.

Generate alternatives to health-related issues or problems.

[HE.912.B.5.2:](#)

Remarks/Examples:
Health benefits of menu options, refusal-skill options, pre- and post-natal care, natural and man-made conditions, and current trends in disease prevention.

Related Access Points

Name	Description
HE.912.B.5.In.2:	Explain alternatives to health-related issues or problems, such as the health benefits of menu options, getting enough physical activity, and practicing refusal skills.
HE.912.B.5.Su.2:	Describe alternatives to health-related issues or problems, such as the health benefits of menu options, getting enough physical activity, and practicing refusal skills.
HE.912.B.5.Pa.2:	Recognize healthy and unhealthy alternatives to selected health-related issues or problems, such as the health benefits of menu options, getting enough physical activity, and practicing refusal skills.

Appraise the potential short-term and long-term outcomes of each alternative on self and others.

[HE.912.B.5.3:](#)

Remarks/Examples:
Nutrition plan based on personal needs and preferences, impact of chronic health condition on individual and family, weapons on campus, and use of stress management and coping skills.

Related Access Points

Name	Description
HE.912.B.5.In.3:	Describe the potential short-term and long-term outcomes of each alternative on self or others when making a health-related decision, such as a nutrition plan based on personal needs and preferences, the impact of chronic health conditions on the individual and family, and weapons on campus.
HE.912.B.5.Su.3:	Identify the potential short-term and long-term outcomes of each alternative on self or others when making a health-related decision, such as a nutrition plan based on personal needs and preferences, the impact of chronic health conditions on the individual and family, and weapons on campus.
HE.912.B.5.Pa.3:	Recognize a potential outcome of each option on self when making a health-related decision, such as a nutrition plan based on personal needs and preferences, the impact of chronic health conditions on the individual, or weapons on campus.

Assess whether individual or collaborative decision making is needed to make a healthy decision.

[HE.912.B.5.4:](#)

Remarks/Examples:
Planning a post-high school career/education, purchasing the family's groceries for the week, planning the weekly menu, planning appropriate activities for siblings, community planning, Internet safety, and purchasing insurance.

Related Access Points

Name	Description
HE.912.B.5.In.4:	Determine whether individual or collaborative decision making is needed to make a healthy decision, such as planning a post-high-school career or education, purchasing the family's groceries, planning a weekly menu, and planning activities for siblings.
HE.912.B.5.Su.4:	Determine whether individual or collaborative decision making is needed to make a healthy decision in selected situations, such as planning a post-high-school career or education, purchasing the family's groceries, planning a weekly menu, and planning activities for siblings.
HE.912.B.5.Pa.4:	Identify the need for individual or collaborative decision making in selected health-related situations, such as planning a post-high-school career/education, purchasing the family's groceries, planning a weekly menu, and planning activities for siblings.

Evaluate personal health practices and overall health status to include all dimensions of health.

[HE.912.B.6.1:](#)

Remarks/Examples:

Personal strengths, physical fitness, peer relationships, environmental health, personal hygiene, non-communicable illness or disease, injury prevention, and first-aid responder's safety practices.

Related Access Points

Name	Description
HE.912.B.6.In.1:	Assess personal health practices and identifies overall health status for multiple dimensions of health, such as personal strengths, physical fitness, peer relationships, environmental health, and personal hygiene.
HE.912.B.6.Su.1:	Examine personal health practices and recognize overall health status for a selected dimension of health, such as personal strengths, physical fitness, peer relationships, environmental health, and personal hygiene.
HE.912.B.6.Pa.1:	Recognize personal health practices and overall health status, such as personal strengths, physical fitness, peer relationships, environmental health, and good personal hygiene.

Formulate a plan to attain a personal health goal that addresses strengths, needs, and risks.

[HE.912.B.6.2:](#)

Remarks/Examples:

Weight management, comprehensive physical fitness, stress management, dating relationships, risky behaviors, and a wellness-program plan.

Related Access Points

Name	Description
HE.912.B.6.In.2:	Use selected strategies to develop a plan to attain a personal health goal that addresses strengths, needs, and risks, such as weight management, comprehensive physical fitness, stress management, dating relationships, or risky behaviors.
HE.912.B.6.Su.2:	Follow a selected procedure to develop a plan to attain a personal health goal that addresses strengths, needs, and risks, such as weight management, comprehensive physical fitness, stress management, dating relationships, or risky behaviors.
HE.912.B.6.Pa.2:	Follow guided steps to develop a selected plan for achieving a personal health goal that addresses strengths, needs, and risks, such as weight management, comprehensive physical fitness, stress management, dating relationships, or risky behaviors.

Implement strategies and monitor progress in achieving a personal health goal.

[HE.912.B.6.3:](#)

Remarks/Examples:

Stress management, time out, using of a squeeze ball when frustrated, talking with a friend or professional, pacing yourself, setting realistic expectations, using rewards, getting support, and wellness promotion.

Related Access Points

Name	Description
HE.912.B.6.In.3:	Use strategies and monitor progress toward achieving a personal health goal, such as stress management, time out, use a squeeze ball when frustrated, talk with a friend or professional, pace oneself, set realistic expectations, use rewards, and get support.
HE.912.B.6.Su.3:	Use selected strategies and monitor progress toward achieving a personal health goal, such as stress management, time out, use a squeeze ball when frustrated, talk with a friend or professional, pace oneself, set realistic expectations, use rewards, and get support.
HE.912.B.6.Pa.3:	Use a selected strategy and track progress toward achieving a personal health goal, such as time out, using a squeeze ball when frustrated, talking with a friend or professional, or using rewards and supports.

Formulate an effective long-term personal health plan.

[HE.912.B.6.4:](#)

Remarks/Examples:

Stress reduction, weight management, healthier eating habits, improved physical fitness, and individual responsibilities for protecting health.

Related Access Points

Name	Description
HE.912.B.6.In.4:	Develop an effective long-term personal health plan, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.
HE.912.B.6.Su.4:	Identify an effective personal health plan for a period of time, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.
HE.912.B.6.Pa.4:	Follow guided steps to develop an effective personal health plan for a period of time, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.

Analyze the role of individual responsibility in enhancing health.

[HE.912.P.7.1:](#)

Remarks/Examples:

Food choices, media messages, future impact of lifestyle choices, individual responsibility for health protection, and stress management.

Related Access Points

Name	Description
HE.912.P.7.In.1:	Examine the role of individual responsibility in enhancing health, such as making good fast-food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.
HE.912.P.7.Su.1:	Explain the role of individual responsibility in enhancing health, such as making good fast-food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.
HE.912.P.7.Pa.1:	Identify that it is important to take personal responsibility for enhancing health, such as making good fast-food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.

Evaluate healthy practices and behaviors that will maintain or improve health and reduce health risks.

[HE.912.P.7.2:](#)

Remarks/Examples:
Lifestyle choices: drug use/abuse, healthy diet, controlling modes of transmission of infectious agents, riding with impaired drivers, seeking mental-health services when needed, sexual behavior, and engaging in healthy relationships.

Related Access Points

Name	Description
HE.912.P.7.In.2:	Examine healthy practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.
HE.912.P.7.Su.2:	Explain healthy practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.
HE.912.P.7.Pa.2:	Identify selected practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.

Demonstrate how to influence and support others in making positive health choices.

[HE.912.P.8.1:](#)

Remarks/Examples:
Avoidance of underage drinking, prevention of driving under the influence, suicide prevention, promotion of healthy dating/personal relationships, responsible parenting, disease prevention, and promotion of first-aid training.

Related Access Points

Name	Description
HE.912.P.8.In.1:	Demonstrate basic ways to influence and support others in making positive health choices, such as avoiding underage drinking, preventing someone from driving under the influence, preventing suicide, and promoting healthy dating, and personal relationships.
HE.912.P.8.Su.1:	Demonstrate a basic way to influence and support others in making positive health choices, such as avoiding underage drinking, preventing someone from driving under the influence, preventing suicide, and promoting healthy dating, and personal relationships.
HE.912.P.8.Pa.1:	Encourage others to make positive health choices.

Work cooperatively as an advocate for improving personal, family, and community health.

[HE.912.P.8.3:](#)

Remarks/Examples:
Support local availability of healthy food options; environmentally friendly shopping; victim, drug or teen court advocacy; advocate for peer-led abuse-prevention education programs, community resource information; and home/school safety.

Related Access Points

Name	Description
HE.912.P.8.In.3:	Work with others to advocate for improving personal, family, and community health, such as supporting local availability of healthy food options, and shopping at environmentally friendly vendors.
HE.912.P.8.Su.3:	Work with others to promote health practices that improve personal, family, or community health, such as supporting local availability of healthy food options, and environmentally friendly shopping.
HE.912.P.8.Pa.3:	Work with others to promote healthy practices for individuals, peers, families, or schools, such as healthy food options, or environmentally friendly shopping.

Predict how healthy behaviors can affect health status.

[HE.912.C.1.1:](#)

Remarks/Examples:
Making positive choices/avoiding risky behaviors: healthy food, substance abuse, and healthy relationship skills; regular medical and dental screenings; regular physical activity, and workplace safety.

Related Access Points

Name	Description
HE.912.C.1.In.a:	Explain how healthy behaviors can affect health status, such as healthy fast-food selections, regular medical screenings, and regular physical activity.
HE.912.C.1.Su.a:	Identify how healthy behaviors can affect health status, such as healthy fast-food selections, regular medical screenings, and regular physical activity.
HE.912.C.1.Pa.a:	Recognize ways personal health can be affected by healthy behaviors, such as healthy fast-food selections, regular medical checkups, and physical activity.

Interpret the significance of interrelationships in mental/emotional, physical, and social health.

[HE.912.C.1.2:](#)

Remarks/Examples:
Substance abuse, eating disorders, sexual behaviors, healthy/unhealthy relationships, self-esteem, stress/anger management, and regular exercise.

Related Access Points

Name	Description
HE.912.C.1.In.b:	Explain the interrelationships of mental/emotional, intellectual, physical, and social health, such as how drinking alcohol or sexual activity impacts physical, social, and mental/emotional dimensions of health.

HE.912.C.1.Su.b:	Identify the interrelationship between healthy behaviors and the dimensions of health (physical, mental/emotional, social, and intellectual), such as how drinking alcohol or sexual activity impacts physical and social dimensions of health.
HE.912.C.1.Pa.b:	Distinguish between healthy and unhealthy physical, mental/emotional, social, and intellectual behaviors, such as drinking alcohol or avoiding alcohol, and appropriate or inappropriate sexual behaviors.

Propose strategies to reduce or prevent injuries and health problems.

[HE.912.C.1.4:](#)

Remarks/Examples:

Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.

Related Access Points

Name	Description
HE.912.C.1.In.d:	Describe strategies to reduce or prevent injuries and health problems, such as mandatory passenger- restraint and helmet laws, mandatory immunizations, and proper handling of food.
HE.912.C.1.Su.d:	Identify strategies to reduce or prevent injuries and other adolescent health problems, such as mandatory passenger-restraint and helmet laws, mandatory immunizations, and proper handling of food.
HE.912.C.1.Pa.d:	Recognize a strategy to prevent injury and adolescent health problems, such as mandatory passenger- restraint/helmet laws, or proper handling of food.

Analyze strategies for prevention, detection, and treatment of communicable and chronic diseases.

[HE.912.C.1.5:](#)

Remarks/Examples:

Health prevention, detection, and treatment of: breast and testicular cancer, suicide, obesity, and industrial-related chronic disease.

Related Access Points

Name	Description
HE.912.C.1.In.e:	Describe strategies for prevention, detection, and treatment of common communicable and chronic diseases, such as preventing and treating obesity, early detection of cancer, and getting adequate physical exercise to help prevent diabetes and heart disease.
HE.912.C.1.Su.e:	Identify common strategies for prevention, detection, and treatment of common communicable and chronic diseases, such as preventing and treating obesity, early detection of cancer, and getting adequate physical exercise to help prevent diabetes and heart disease.
HE.912.C.1.Pa.e:	Recognize selected strategies for prevention of common communicable diseases, such as sanitization, avoiding direct contact with infection, and proper disposal of hygiene products.

Analyze how heredity and family history can impact personal health.

[HE.912.C.1.7:](#)

Remarks/Examples:

Drug use, family obesity, heart disease, mental health, and non-communicable illness or disease.

Related Access Points

Name	Description
HE.912.C.1.In.g:	Explain how heredity and family history can impact personal health, such as drug use, family obesity, heart disease, and mental health.
HE.912.C.1.Su.g:	Describe ways personal health can be affected by heredity and family history, such as drug use, family obesity, heart disease, and mental health.
HE.912.C.1.Pa.g:	Recognize ways personal health can be affected by heredity or family history, such as drug use, family obesity, heart disease, and mental health.

Assess the degree of susceptibility to injury, illness, or death if engaging in unhealthy/risky behaviors.

[HE.912.C.1.8:](#)

Remarks/Examples:

Risks associated with alcohol abuse, including poison, date rape, and death; cancer and chronic lung disease related to tobacco use; overdose from drug use; child abuse or neglect; and dating violence.

Related Access Points

Name	Description
HE.912.C.1.In.h:	Predict the likelihood of injury, illness, or death from engaging in unhealthy behaviors, such as death from alcohol poisoning, cancer and chronic lung disease related to tobacco use, overdose from illegal drug use, or engaging in risky games.
HE.912.C.1.Su.h:	Describe the likelihood of injury, illness, or death from engaging in unhealthy behaviors, such as death from alcohol poisoning, cancer and chronic lung disease related to tobacco use, overdose from illegal drug use, or engaging in risky games.
HE.912.C.1.Pa.h:	Recognize likely injuries or illnesses resulting from engaging in unhealthy behaviors, such as death or injury from drinking and driving, injuries resulting from fighting and bullying, and infections from poor hygiene.

[PE.912.C.2.6:](#)

Compare and contrast the health-related benefits of various physical activities.

Related Access Points

Name	Description
PE.912.C.2.In.f:	Describe the health-related benefits of various physical activities.
PE.912.C.2.Su.f:	Identify the health-related benefits of various physical activities.
PE.912.C.2.Pa.f:	Recognize the health-related benefits of various physical activities.

[PE.912.C.2.7:](#)

Evaluate the effectiveness of specific warm-up and cool-down activities.

Related Access Points

Name	Description
PE.912.C.2.In.g:	Examine the effectiveness of specific warm-up and cool-down activities.
PE.912.C.2.Su.g:	Identify the effectiveness of specific warm-up and cool-down activities.
PE.912.C.2.Pa.g:	Recognize the effect of a specific warm-up or cool-down activity.

Differentiate between the three different types of heat illnesses associated with fluid loss.

[PE.912.C.2.8:](#)

Remarks/Examples:
The three types of heat illnesses are heat cramps, heat exhaustion and heat stroke.

Related Access Points

Name	Description
PE.912.C.2.In.h:	Identify the three stages (types) of heat illnesses and the symptoms associated with fluid loss, such as heat cramps, heat exhaustion and heat stroke.
PE.912.C.2.Su.h:	Identify symptoms of heat illnesses associated with fluid loss, such as heat cramps, heat exhaustion and heat stroke.
PE.912.C.2.Pa.h:	Recognize a symptom of heat illnesses associated with fluid loss, such as heat cramps, heat exhaustion or heat stroke.

Explain the precautions to be taken when exercising in extreme weather and/or environmental conditions.

[PE.912.C.2.9:](#)

Remarks/Examples:
Some examples of precautions are hydration and appropriate attire.

Related Access Points

Name	Description
PE.912.C.2.In.i:	Describe the precautions to be taken when exercising in extreme weather and environmental conditions.
PE.912.C.2.Su.i:	Identify precautions to be taken when exercising in a variety of weather conditions or environmental conditions.
PE.912.C.2.Pa.i:	Recognize a precaution to be taken when exercising in selected environmental conditions.

[PE.912.C.2.10:](#)

Analyze long-term benefits of regularly participating in physical activity.

Related Access Points

Name	Description
PE.912.C.2.In.j:	Describe long-term benefits of regularly participating in physical activity.
PE.912.C.2.Su.j:	Identify long-term benefits of regularly participating in physical activity.
PE.912.C.2.Pa.j:	Recognize a long-term benefit of regularly participating in physical activity.

Explain how each of the health-related components of fitness are improved through the application of training principles.

[PE.912.C.2.11:](#)

Remarks/Examples:
The health-related components of fitness are cardiorespiratory endurance, muscular strength, muscular endurance, flexibility and body composition.

Related Access Points

Name	Description
PE.912.C.2.In.k:	Describe how each of the health-related components of fitness, such as physical conditioning, flexibility, cardiorespiratory endurance and body composition, are improved through the application of training principles.
PE.912.C.2.Su.k:	Identify how health-related components of fitness, such as physical conditioning, flexibility, cardiorespiratory endurance and body composition are improved through the application of training principles.
PE.912.C.2.Pa.k:	Recognize that exercise and training improves health-related fitness.

[PE.912.C.2.12:](#)

Compare and contrast aerobic versus anaerobic activities.

Related Access Points

Name	Description
PE.912.C.2.In.l:	Describe the differences between aerobic and anaerobic activities.
PE.912.C.2.Su.l:	Identify the differences between aerobic and anaerobic activities.
PE.912.C.2.Pa.l:	Recognize selected aerobic and anaerobic activities.

[PE.912.C.2.13:](#)

Document food intake, calories consumed and energy expended through physical activity and analyze the results.

Related Access Points

Name	Description
PE.912.C.2.In.m:	Document food intake, calories consumed and energy expended through physical activity and examine the results.
PE.912.C.2.Su.m:	Document food intake and physical activity and identify the results.
PE.912.C.2.Pa.m:	Document food intake and physical activity and recognize results.

Compare and contrast the skill-related components of fitness used in various physical activities.

[PE.912.C.2.14:](#)

Remarks/Examples:

The skill-related components of fitness are speed, coordination, balance, power, agility and reaction time.

Related Access Points

Name	Description
PE.912.C.2.In.n:	Identify differences in the skill-related components of fitness, such as speed, coordination, balance, power, agility and reaction time in various physical activities.
PE.912.C.2.Su.n:	Recognize differences in the skill-related components of fitness, such as speed, coordination, balance, power, agility and reaction time in various physical activities.
PE.912.C.2.Pa.n:	Recognize more than one skill-related components of fitness, such as speed, coordination, balance, power, agility or reaction time in various physical activities.

[PE.912.C.2.15:](#)

Calculate individual target heart-rate zone and analyze how to adjust intensity level to stay within the desired range.

Related Access Points

Name	Description
PE.912.C.2.In.o:	Identify individual target heart rate and how to adjust intensity level to stay within the desired range.
PE.912.C.2.Su.o:	Recognize individual target heart rate and how to adjust intensity level to stay within the desired range.
PE.912.C.2.Pa.o:	Recognize the relationship between intensity level of physical activity and heart rate.

Explain the methods of monitoring levels of intensity during aerobic activity.

[PE.912.C.2.16:](#)

Remarks/Examples:

Some examples are a talk test, rate of perceived exertion and checking one's heart rate/pulse.

Related Access Points

Name	Description
PE.912.C.2.In.p:	Describe methods of monitoring levels of intensity during aerobic activity, such as a talk test, rate of perceived exertion and heart rate/pulse.
PE.912.C.2.Su.p:	Identify methods of monitoring levels of intensity during aerobic activity, such as a talk test, rate of perceived exertion and heart rate/pulse.
PE.912.C.2.Pa.p:	Recognize selected methods of monitoring levels of intensity during aerobic activity, such as a talk test and heart rate/pulse.

Assess physiological effects of exercise during and after physical activity.

[PE.912.C.2.17:](#)

Remarks/Examples:

Some examples are breathing, resting heart rate and blood pressure.

Related Access Points

Name	Description
PE.912.C.2.In.q:	Examine physiological effects of exercise, such as breathing, resting heart rate and blood pressure, during and after physical activity.
PE.912.C.2.Su.q:	Identify physiological effects of exercise, such as breathing, resting heart rate and blood pressure, during and after physical activity.
PE.912.C.2.Pa.q:	Recognize a physiological effect of exercise, such as breathing or resting heart rate, during and after physical activity.

Differentiate between fact and fallacy as it relates to consumer physical fitness products and programs.

[PE.912.C.2.18:](#)

Remarks/Examples:

Some examples are weight-loss pills, food labels and exercise equipment.

Related Access Points

Name	Description
PE.912.C.2.In.r:	Categorize information as true or false as it relates to consumer physical fitness products and programs, such as weight- loss pills, food labels and exercise equipment.
PE.912.C.2.Su.r:	Identify information as true or false as it relates to consumer physical fitness products and programs, such as weight- loss pills, food labels and exercise equipment.
PE.912.C.2.Pa.r:	Recognize information as it relates to a selected consumer physical fitness product, such as weight-loss pills, food labels or exercise equipment.

Explain the skill-related components of fitness and how they enhance performance levels.

[PE.912.C.2.22:](#)

Remarks/Examples:

The skill-related components of fitness are speed, coordination, balance, power, agility and reaction time.

Related Access Points

Name	Description
PE.912.C.2.In.v:	Describe the skill-related components of fitness such as balance, reaction time, agility, coordination, power and speed, and how they enhance performance levels.

PE.912.C.2.Su.v:	Identify the skill-related components of fitness that enhance performance, such as balance, reaction time, agility, coordination, power and speed.
PE.912.C.2.Pa.v:	Recognize a skill-related component of fitness that enhances performance, such as balance, reaction time, agility, coordination, power or speed.

[PE.912.C.2.23:](#) Apply appropriate technology and analyze data to evaluate, monitor and/or improve performance.

Related Access Points

Name	Description
PE.912.C.2.In.w:	Use appropriate technology to assess, monitor and improve performance.
PE.912.C.2.Su.w:	Use appropriate technology to monitor and improve performance.
PE.912.C.2.Pa.w:	Use a selected technology to monitor or improve performance.

[PE.912.C.2.25:](#) Analyze and evaluate the risks, safety procedures, rules and equipment associated with specific course activities.

Related Access Points

Name	Description
PE.912.C.2.In.y:	Describe the safety procedures, rules and equipment associated with specific course activities.
PE.912.C.2.Su.y:	Identify the safety procedures, rules and equipment associated with specific course activities.
PE.912.C.2.Pa.y:	Recognize the safety procedures, rules and equipment associated with specific course activities.

Compare and contrast how movement skills from one physical activity can be transferred and used in other physical activities.

[PE.912.C.2.27:](#)

Remarks/Examples:
Some examples are volleyball and tennis serve, surfing and skate boarding.

Related Access Points

Name	Description
PE.912.C.2.In.aa:	Examine how movement skills from one physical activity can be transferred and used in other physical activities.
PE.912.C.2.Su.aa:	Identify how movement skills from one physical activity can be transferred and used in other physical activities.
PE.912.C.2.Pa.aa:	Recognize that movement skills from one physical activity can be used in other physical activities.

Evaluate the impact of technology on personal, family, and community health.

[HE.912.C.2.6:](#)

Remarks/Examples:
Automated external defibrillator in the community, pedestrian crosswalks with audible directions, type of information requested from local 211/hotlines or websites, consumer websites, Internet safety, and disease prevention and control.

Related Access Points

Name	Description
HE.912.C.2.In.f:	Explain the impact of technology on personal, family, or community health, such as the availability of automated external defibrillators (AEDs) in the community, audible directions on pedestrian crosswalks, and hotlines such as 211 or related websites.
HE.912.C.2.Su.f:	Describe the impact of technology on personal, family, and community health, such as the availability of automated external defibrillators (AEDs) in the community, audible directions on pedestrian crosswalks, and hotlines such as 211 or related websites.
HE.912.C.2.Pa.f:	Recognize a way that technology impacts personal, family, or community health, such as the availability of audible directions on pedestrian crosswalks or hotlines such as 211 or related websites.

Analyze how culture supports and challenges health beliefs, practices, and behaviors.

[HE.912.C.2.7:](#)

Remarks/Examples:
Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

Related Access Points

Name	Description
HE.912.C.2.In.g:	Describe ways that culture supports and challenges health beliefs, practices, and behaviors, such as dietary patterns, rites of passage, and courtship practices.
HE.912.C.2.Su.g:	Identify ways culture influences health beliefs, practices, and behaviors, such as dietary patterns, rites of passage, and courtship practices.
HE.912.C.2.Pa.g:	Recognize ways common social or cultural practices (norms) influence healthy and unhealthy behaviors, such as becoming a teen parent, binge drinking, dietary patterns, rites of passage, and courtship practices.

Analyze how the perceptions of norms influence healthy and unhealthy behaviors.

[HE.912.C.2.8:](#)

Remarks/Examples:
Driving over the speed limit, teen parenting, binge drinking, relationships, parenting, health information, environmental practices, and media messages.

Related Access Points

Name	Description
------	-------------

HE.912.C.2.In.h:	Describe how the perceptions of social norms influence healthy and unhealthy behaviors, such as driving over the speed limit, becoming a teen parent, and binge drinking.
HE.912.C.2.Su.h:	Describe how the perceptions of selected social norms influence healthy and unhealthy behaviors, such as driving over the speed limit, becoming a teen parent, and binge drinking.
HE.912.C.2.Pa.h:	Recognize ways common social or cultural practices (norms) influence healthy and unhealthy behaviors, such as becoming a teen parent, binge drinking, dietary patterns, rites of passage, and courtship practices.

Evaluate the influence of personal values, attitudes, and beliefs about individual health practices and behaviors.

[HE.912.C.2.9:](#)

Remarks/Examples:
Social conformity, self-discipline, and impulse vs. delayed gratification.

Related Access Points

Name	Description
HE.912.C.2.In.i:	Explain how personal values, attitudes, and beliefs influence individual health practices and behaviors.
HE.912.C.2.Su.i:	Identify how personal values, attitudes, and beliefs influence individual health practices and behaviors.
HE.912.C.2.Pa.i:	Identify how a personal value, attitudes, or belief influences an individual health practice or behavior.

[PE.912.L.3.1:](#)

Participate in a variety of physical activities to meet the recommended number of minutes of moderate to vigorous physical activity beyond physical education on five or more days of the week.

Related Access Points

Name	Description
PE.912.L.3.In.a:	Participate in a variety of physical activities to meet the recommended number of minutes of moderate to vigorous physical activity beyond physical education on five or more days of the week.
PE.912.L.3.Su.a:	Participate in a variety of moderate to vigorous physical activities beyond physical education five or more days of the week.
PE.912.L.3.Pa.a:	Participate in a variety of moderate to vigorous modified physical activities beyond physical education five or more days of the week.

[PE.912.L.3.5:](#)

Identify the community opportunities for participation in a variety of physical activities.

Related Access Points

Name	Description
PE.912.L.3.In.e:	Recognize community opportunities for participation in a variety of physical activities.
PE.912.L.3.Su.e:	Recognize selected community opportunities for participation in a variety of physical activities.
PE.912.L.3.Pa.e:	Recognize a selected community opportunity for participation in physical activity.

Participate in a variety of activities that promote the health-related components of fitness.

[PE.912.L.3.2:](#)

Remarks/Examples:
The health-related components of fitness are cardiorespiratory endurance, muscular strength, muscular endurance, flexibility and body composition.

Related Access Points

Name	Description
PE.912.L.3.In.b:	Participate in a variety of basic activities that promote cardiorespiratory fitness, muscular strength and endurance, flexibility and body composition.
PE.912.L.3.Su.b:	Participate in a variety of selected basic activities that promote cardiorespiratory fitness, muscular strength and endurance, flexibility and body composition.
PE.912.L.3.Pa.b:	Participate in a variety of selected modified activities that promote cardiorespiratory fitness, muscular strength and endurance, flexibility and body composition.

[PE.912.L.3.3:](#)

Identify a variety of activities that promote effective stress management.

Related Access Points

Name	Description
PE.912.L.3.In.c:	Recognize a variety of basic activities that promote effective stress management.
PE.912.L.3.Su.c:	Recognize a variety of selected basic activities that promote effective stress management.
PE.912.L.3.Pa.c:	Recognize a variety of selected modified activities that promote effective stress management.

[PE.912.L.3.4:](#)

Identify the in-school opportunities for participation in a variety of physical activities.

Related Access Points

Name	Description
PE.912.L.3.In.d:	Recognize the in-school opportunities for participation in a variety of physical activities.
PE.912.L.3.Su.d:	Recognize selected in-school opportunities for participation in physical activities.
PE.912.L.3.Pa.d:	Recognize an in school opportunity for participation in physical activity.

[PE.912.L.3.6:](#)

Identify risks and safety factors that may affect physical activity throughout life.

Related Access Points

Name	Description
PE.912.L.3.In.f:	Recognize risk and safety factors that can affect physical activity throughout life.
PE.912.L.3.Su.f:	Recognize risk and safety factors that can affect physical activity for many years.
PE.912.L.3.Pa.f:	Recognize a risk and a safety factor that can affect physical activity.

Design a personal fitness program.

[PE.912.L.4.1:](#)

Remarks/Examples:

Some examples of things to consider when designing a personal fitness program are timelines and current fitness level.

Related Access Points

Name	Description
PE.912.L.4.In.a:	Design a personal fitness program that includes current fitness level.
PE.912.L.4.Su.a:	Recognize timelines and current fitness level in a personal fitness program.
PE.912.L.4.Pa.a:	Actively participate in modifying a personal fitness program in collaboration with a teacher.

[PE.912.L.4.2:](#)

Identify ways to self-assess and modify a personal fitness program.

Related Access Points

Name	Description
PE.912.L.4.In.b:	Recognize ways to self-assess and modify a personal fitness program.
PE.912.L.4.Su.b:	Recognize ways to self-assess a personal fitness program.
PE.912.L.4.Pa.b:	Recognize a self-assessment for a personal fitness program.

[PE.912.L.4.3:](#)

Identify strategies for setting goals when developing a personal fitness program.

Related Access Points

Name	Description
PE.912.L.4.In.c:	Select goals, identify strategies and create a timeline for a personal physical-activity plan.
PE.912.L.4.Su.c:	Select goals, recognize strategies and create a timeline for a personal physical-activity plan.
PE.912.L.4.Pa.c:	Select a goal and timeline for a personal physical-activity plan.

[PE.912.L.4.4:](#)

Use available technology to assess, design and evaluate a personal fitness program.

Related Access Points

Name	Description
PE.912.L.4.In.d:	Use a variety of resources, including available technology, to design and assess a personal fitness program.
PE.912.L.4.Su.d:	Use a variety of resources, including available technology, to assess a personal fitness program.
PE.912.L.4.Pa.d:	Use resources, including available technology, to recognize the effect of a personal fitness program.

Apply the principles of training to personal fitness goals.

[PE.912.L.4.5:](#)

Remarks/Examples:

Some examples of training principles are overload, specificity and progression.

Related Access Points

Name	Description
PE.912.L.4.In.e:	Use the principles of training (overload, specificity and progression) in accordance with personal fitness goals.
PE.912.L.4.Su.e:	Use selected principles of training (overload, specificity and progression) in accordance with personal fitness goals.
PE.912.L.4.Pa.e:	Use a selected principle of training (overload, specificity or progression) in accordance with personal fitness goals.

[PE.912.L.4.6:](#)

Identify health-related problems associated with low levels of cardiorespiratory endurance, muscular strength and endurance, flexibility and body composition.

Related Access Points

Name	Description
PE.912.L.4.In.f:	Examine health-related problems associated with low levels of cardiorespiratory endurance, muscular strength and endurance, flexibility and body composition.
PE.912.L.4.Su.f:	Identify health-related problems associated with low levels of cardiorespiratory endurance, muscular strength and endurance, flexibility and body composition.
PE.912.L.4.Pa.f:	Recognize health-related problems associated with low levels of physical activity.

[PE.912.L.4.7:](#)

Evaluate how to make changes in an individual wellness plan as lifestyle changes occur.

Related Access Points

Name	Description
PE.912.L.4.In.g:	Examine how to make changes in an individual wellness plan as lifestyle changes occur.
PE.912.L.4.Su.g:	Identify how to make changes in an individual wellness plan as lifestyle changes occur.
PE.912.L.4.Pa.g:	Recognize changes in an individual wellness plan as lifestyle changes occur.

[PE.912.R.5.2:](#)

Develop strategies for including persons of diverse backgrounds and abilities while participating in a variety of physical activities.

Related Access Points

Name	Description
PE.912.R.5.In.b:	Identify strategies for including persons of diverse backgrounds and abilities in a variety of physical activities.
PE.912.R.5.Su.b:	Recognize strategies for including persons of diverse backgrounds and abilities in a variety of physical activities.
PE.912.R.5.Pa.b:	Participate cooperatively with persons of diverse backgrounds and abilities in a variety of physical activities.

Demonstrate sportsmanship during game situations.

[PE.912.R.5.3:](#)

Remarks/Examples:

Some examples are controlling emotions, resolving conflicts, respecting opponents and officials, and accepting both victory and defeat.

Related Access Points

Name	Description
PE.912.R.5.In.c:	Use responsible behaviors during physical activities, such as controlling emotions, resolving conflicts, respecting opponents and officials and accepting both victory and defeat.
PE.912.R.5.Su.c:	Use responsible behaviors during selected physical activities, such as controlling emotions, respecting opponents and officials and accepting both victory and defeat.
PE.912.R.5.Pa.c:	Use selected responsible behaviors during selected physical activities, such as controlling emotions and respecting opponents and officials.

Maintain appropriate personal, social and ethical behavior while participating in a variety of physical activities.

[PE.912.R.5.4:](#)

Remarks/Examples:

Some examples are respecting teammates, opponents and officials, and accepting both victory and defeat.

Related Access Points

Name	Description
PE.912.R.5.In.d:	Use appropriate personal, social and ethical behavior while participating in a variety of physical activities.
PE.912.R.5.Su.d:	Use appropriate personal and ethical behavior while participating in a variety of physical activities.
PE.912.R.5.Pa.d:	Use appropriate personal behavior while participating in a variety of physical activities.

[PE.912.R.5.5:](#)

Demonstrate appropriate etiquette, care of equipment, respect for facilities and safe behaviors while participating in a variety of physical activities.

Related Access Points

Name	Description
PE.912.R.5.In.e:	Identify appropriate etiquette, care of equipment, respect for facilities and safe behaviors while participating in a variety of physical activities.
PE.912.R.5.Su.e:	Use appropriate etiquette, respect for facilities and safe behaviors while participating in a variety of physical activities.
PE.912.R.5.Pa.e:	Use appropriate etiquette and safe behaviors while participating in a variety of physical activities.

[PE.912.R.6.1:](#)

Discuss opportunities for participation in a variety of physical activities outside of the school setting that contribute to personal enjoyment and the attainment or maintenance of a healthy lifestyle.

Related Access Points

Name	Description
PE.912.R.6.In.a:	Identify a variety of physical activities outside of the school setting that contribute to personal enjoyment and the attainment or maintenance of a healthy lifestyle.
PE.912.R.6.Su.a:	Recognize selected physical activities outside of the school setting that contribute to personal enjoyment and the attainment or maintenance of a healthy lifestyle.
PE.912.R.6.Pa.a:	Associate opportunity to participate in physical activity outside of the school setting with personal enjoyment or the maintenance of a healthy lifestyle.

Analyze physical activities from which benefits can be derived.

[PE.912.R.6.2:](#)

Remarks/Examples:

Some examples of potential benefits are physical, mental, emotional and social.

Related Access Points

Name	Description
PE.912.R.6.In.b:	Describe physical activities from which physical, mental, emotional and social benefits can be derived.
PE.912.R.6.Su.b:	Identify from which physical, mental, emotional and social benefits can be derived.
PE.912.R.6.Pa.b:	Associate physical activities with selected benefits, such as physical, mental, emotional or social.

[PE.912.R.6.3:](#)

Analyze the roles of games, sports and/or physical activities in other cultures.

Related Access Points

Name	Description
------	-------------

PE.912.R.6.In.c:	Describe the role of games, sports or physical activities in other cultures.
PE.912.R.6.Su.c:	Identify the role of games, sports or physical activities in other cultures.
PE.912.R.6.Pa.c:	Recognize a benefit of games, sports or physical activities in other cultures.

Select and perform complex movements using a variety of equipment which lead to improved or maintained muscular strength and endurance.

[PE.912.M.1.12:](#)

Remarks/Examples: An example is performing plyometrics.

Related Access Points

Name	Description
PE.912.M.1.In.l:	Select and perform basic movements using a variety of equipment that lead to improved or maintained muscular strength and endurance.
PE.912.M.1.Su.l:	Identify and perform basic movements using a variety of equipment that lead to improved or maintained muscular strength and endurance.
PE.912.M.1.Pa.l:	Perform basic movements using a variety of equipment that lead to improved or maintained muscular strength and endurance.

[PE.912.M.1.13:](#)

Perform a student-designed cardiorespiratory enhancing workout.

Related Access Points

Name	Description
PE.912.M.1.In.m:	Identify correct exercises and perform a cardiorespiratory-enhancing workout.
PE.912.M.1.Su.m:	Recognize correct exercises and perform a cardiorespiratory-enhancing workout.
PE.912.M.1.Pa.m:	Perform a cardiorespiratory-enhancing workout.

Utilize technology to assess, enhance and maintain health and skill-related fitness levels.

[PE.912.M.1.14:](#)

Remarks/Examples: Some examples of technology are Excel spreadsheets or web based programs to chart or log activities, heart rate monitors, videotapes or digital cameras.
--

Related Access Points

Name	Description
PE.912.M.1.In.n:	Use technology to develop, enhance and maintain health and skill-related fitness levels.
PE.912.M.1.Su.n:	Use technology to develop and maintain health and skill-related fitness levels.
PE.912.M.1.Pa.n:	Use selected technology to develop health and skill-related fitness levels.

[PE.912.M.1.15:](#)

Select and apply sport/activity specific warm-up and cool-down techniques.

Related Access Points

Name	Description
PE.912.M.1.In.o:	Identify and use sports/activity specific warm-up and cool-down techniques.
PE.912.M.1.Su.o:	Recognize and use activity specific warm-up and cool-down techniques.
PE.912.M.1.Pa.o:	Perform an activity specific warm-up and cool-down technique.

Apply the principles of training and conditioning to accommodate individual needs and strengths.

[PE.912.M.1.16:](#)

Remarks/Examples: Some examples of training principles are overload, specificity and progression.

Related Access Points

Name	Description
PE.912.M.1.In.p:	Use the principles of training (overload, specificity and progression) and conditioning (frequency, intensity, time and type) to accommodate individual needs and strengths.
PE.912.M.1.Su.p:	Use selected principles of training (overload, specificity or progression) and conditioning (frequency, intensity, time and type) to accommodate individual needs and strengths.
PE.912.M.1.Pa.p:	Use selected principles of training (overload, specificity or progression) and conditioning (frequency, intensity, time and type) to accommodate individual needs and strengths for selected modified physical activities.

[PE.912.M.1.17:](#)

Demonstrate basic cardiopulmonary resuscitation (CPR) procedures.

Related Access Points

Name	Description
PE.912.M.1.In.q:	Perform basic cardiopulmonary resuscitation procedures.
PE.912.M.1.Su.q:	Imitate basic cardiopulmonary resuscitation procedures.
PE.912.M.1.Pa.q:	Perform guided basic emergency response procedures.

[PE.912.M.1.19:](#)

Use correct body alignment, strength, flexibility and coordination in the performance of technical movements.

Related Access Points

Name	Description
PE.912.M.1.In.s:	Use correct body alignment, strength and flexibility to perform technical movements in gymnastics.
PE.912.M.1.Su.s:	Use strength and flexibility to perform technical movements in basic gymnastics.
PE.912.M.1.Pa.s:	Use strength and flexibility to perform guided movements in basic gymnastics.

[PE.912.M.1.33:](#) Practice complex motor activities in order to improve performance.

Related Access Points

Name	Description
PE.912.M.1.In.ag:	Practice motor activities in order to improve performance.
PE.912.M.1.Su.ag:	Practice basic motor activities in order to improve performance.
PE.912.M.1.Pa.ag:	Practice modified movement (motor) activities in order to improve performance.

Demonstrate use of the mechanical principles as they apply to specific course activities.

[PE.912.M.1.34:](#)

Remarks/Examples:
Some examples are balance, force and leverage.

Related Access Points

Name	Description
PE.912.M.1.In.ah:	Use selected mechanical principles, such as balance, force or leverage, as they apply to specific course activities.
PE.912.M.1.Su.ah:	Use a mechanical principle, such as balance, force or leverage, as it applies to selected course activities.
PE.912.M.1.Pa.ah:	Use a mechanical principle, such as balance, force or leverage, as it applies to selected modified course activities.

[PE.912.M.1.35:](#) Select proper equipment and apply all appropriate safety procedures necessary for participation.

Related Access Points

Name	Description
PE.912.M.1.In.ai:	Identify proper equipment and demonstrate all safety procedures for participation.
PE.912.M.1.Su.ai:	Recognize proper equipment and demonstrates all safety procedures for participation.
PE.912.M.1.Pa.ai:	Perform all safety procedures for participation.

[ELD.K12.ELL.1.1:](#) English language learners communicate for social and instructional purposes within the school setting.

There are more than 127 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12910>

Access Personal Fitness (#7915020)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7915020	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Multiple credits	Abbreviated Title: Access Personal Fitness
Course Type: Elective	Course Length: Semester (S)
Course Status: Draft - Course Pending Approval	
Keywords: access, personal fitness, health, integration of health	
Grade Level(s): 9, 10, 11, 12	Grade Level(s) Version: 9,10,11,12
	Graduation Requirement: Physical Education

VERSION DESCRIPTION

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

GENERAL NOTES

The purpose of this course is to provide students with the knowledge, skills and values they need to become healthy and physically active for a lifetime. This course addresses both the health and skill-related components of physical fitness which are critical for students' success.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description										
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Remarks/Examples: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>MAFS.912.S-ID.1.AP.2a:</td> <td>Describe a distribution using center and spread</td> </tr> <tr> <td>MAFS.912.S-ID.1.AP.2b:</td> <td>Use the correct measure of center and spread to describe a distribution that is symmetric or skewed.</td> </tr> <tr> <td>MAFS.912.S-ID.1.AP.2c:</td> <td>Identify outliers (extreme data points) and their effects on data sets.</td> </tr> <tr> <td>MAFS.912.S-ID.1.AP.2d:</td> <td>Compare two or more different data sets using the center and spread of each.</td> </tr> </tbody> </table>	Name	Description	MAFS.912.S-ID.1.AP.2a:	Describe a distribution using center and spread	MAFS.912.S-ID.1.AP.2b:	Use the correct measure of center and spread to describe a distribution that is symmetric or skewed.	MAFS.912.S-ID.1.AP.2c:	Identify outliers (extreme data points) and their effects on data sets.	MAFS.912.S-ID.1.AP.2d:	Compare two or more different data sets using the center and spread of each.
Name	Description										
MAFS.912.S-ID.1.AP.2a:	Describe a distribution using center and spread										
MAFS.912.S-ID.1.AP.2b:	Use the correct measure of center and spread to describe a distribution that is symmetric or skewed.										
MAFS.912.S-ID.1.AP.2c:	Identify outliers (extreme data points) and their effects on data sets.										
MAFS.912.S-ID.1.AP.2d:	Compare two or more different data sets using the center and spread of each.										
MAFS.912.S-MD.2.7:	<p>Analyze decisions and strategies using probability concepts (e.g., product testing, medical testing, pulling a hockey goalie at the end of a game). ★</p> <p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.</p> <p>a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from</p>										

texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.

- b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.1:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on *grades 9–10 reading and content*, choosing flexibly from a range of strategies.

- a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word’s position or function in a sentence) as a clue to the meaning of a word or phrase.
- b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analysis, analytical; advocate, advocacy).
- c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
- d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

[LAFS.910.L.3.4:](#)

Related Access Points

Name	Description
LAFS.910.L.3.AP.4a:	Verify the prediction of the meaning of a new word or phrase.
LAFS.910.L.3.AP.4b:	Find the synonym for a word.
LAFS.910.L.3.AP.4c:	Find the precise meaning of a word.
LAFS.910.L.3.AP.4d:	Find the part of speech for a word.
LAFS.910.L.3.AP.4e:	Use context (e.g., the overall meaning of a sentence, paragraph or text; a word’s position in a sentence) as a clue to the meaning of a word or phrase.

[LAFS.1112.RST.3.7:](#)

Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.

[LAFS.910.WHST.2.6:](#)

Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology’s capacity to link to other information and to display information flexibly and dynamically.

Formulate an effective long-term personal health plan.

[HE.912.B.6.4:](#)

Remarks/Examples: Stress reduction, weight management, healthier eating habits, improved physical fitness, and individual responsibilities for protecting health.

Related Access Points

Name	Description
HE.912.B.6.In.4:	Develop an effective long-term personal health plan, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.
HE.912.B.6.Su.4:	Identify an effective personal health plan for a period of time, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.
HE.912.B.6.Pa.4:	Follow guided steps to develop an effective personal health plan for a period of time, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.

Analyze the role of individual responsibility in enhancing health.

[HE.912.P.7.1:](#)

Remarks/Examples: Food choices, media messages, future impact of lifestyle choices, individual responsibility for health protection, and stress management.

Related Access Points

Name	Description
HE.912.P.7.In.1:	Examine the role of individual responsibility in enhancing health, such as making good fast-food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.
HE.912.P.7.Su.1:	Explain the role of individual responsibility in enhancing health, such as making good fast-food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.
HE.912.P.7.Pa.1:	Identify that it is important to take personal responsibility for enhancing health, such as making good fast- food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.

Evaluate healthy practices and behaviors that will maintain or improve health and reduce health risks.

[HE.912.P.7.2:](#)

Remarks/Examples:

Lifestyle choices: drug use/abuse, healthy diet, controlling modes of transmission of infectious agents, riding with impaired drivers, seeking mental-health services when needed, sexual behavior, and engaging in healthy relationships.

Related Access Points

Name	Description
HE.912.P.7.In.2:	Examine healthy practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.
HE.912.P.7.Su.2:	Explain healthy practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.
HE.912.P.7.Pa.2:	Identify selected practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.

Predict how healthy behaviors can affect health status.

[HE.912.C.1.1:](#)

Remarks/Examples:

Making positive choices/avoiding risky behaviors: healthy food, substance abuse, and healthy relationship skills; regular medical and dental screenings; regular physical activity, and workplace safety.

Related Access Points

Name	Description
HE.912.C.1.In.a:	Explain how healthy behaviors can affect health status, such as healthy fast-food selections, regular medical screenings, and regular physical activity.
HE.912.C.1.Su.a:	Identify how healthy behaviors can affect health status, such as healthy fast-food selections, regular medical screenings, and regular physical activity.
HE.912.C.1.Pa.a:	Recognize ways personal health can be affected by healthy behaviors, such as healthy fast-food selections, regular medical checkups, and physical activity.

Evaluate how environment and personal health are interrelated.

[HE.912.C.1.3:](#)

Remarks/Examples:

Food options within a community; prenatal-care services; availability of recreational facilities; air quality; weather-safety awareness; and weather, air, and water conditions.

Related Access Points

Name	Description
HE.912.C.1.In.c:	Explain how environment and personal health are interrelated, such as food options within a community and availability of recreational facilities.
HE.912.C.1.Su.c:	Identify ways selected environmental factors can affect personal health, such as food options within a community and availability of recreational facilities.
HE.912.C.1.Pa.c:	Recognize environmental factors and related personal health behaviors, such as having recreational facilities available and increased physical activity.

Propose strategies to reduce or prevent injuries and health problems.

[HE.912.C.1.4:](#)

Remarks/Examples:

Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.

Related Access Points

Name	Description
HE.912.C.1.In.d:	Describe strategies to reduce or prevent injuries and health problems, such as mandatory passenger- restraint and helmet laws, mandatory immunizations, and proper handling of food.
HE.912.C.1.Su.d:	Identify strategies to reduce or prevent injuries and other adolescent health problems, such as mandatory passenger-restraint and helmet laws, mandatory immunizations, and proper handling of food.
HE.912.C.1.Pa.d:	Recognize a strategy to prevent injury and adolescent health problems, such as mandatory passenger- restraint/helmet laws, or proper handling of food.

[PE.912.C.2.15:](#)

Calculate individual target heart-rate zone and analyze how to adjust intensity level to stay within the desired range.

Related Access Points

Name	Description
PE.912.C.2.In.o:	Identify individual target heart rate and how to adjust intensity level to stay within the desired range.
PE.912.C.2.Su.o:	Recognize individual target heart rate and how to adjust intensity level to stay within the desired range.
PE.912.C.2.Pa.o:	Recognize the relationship between intensity level of physical activity and heart rate.

Explain the methods of monitoring levels of intensity during aerobic activity.

[PE.912.C.2.16:](#)

Remarks/Examples:

Some examples are a talk test, rate of perceived exertion and checking one's heart rate/pulse.

Related Access Points

Name	Description
PE.912.C.2.In.p:	Describe methods of monitoring levels of intensity during aerobic activity, such as a talk test, rate of perceived exertion and heart rate/pulse.
PE.912.C.2.Su.p:	Identify methods of monitoring levels of intensity during aerobic activity, such as a talk test, rate of perceived exertion and heart rate/pulse.
PE.912.C.2.Pa.p:	Recognize selected methods of monitoring levels of intensity during aerobic activity, such as a talk test and heart rate/pulse.

Assess physiological effects of exercise during and after physical activity.

[PE.912.C.2.17:](#)

Remarks/Examples:

Some examples are breathing, resting heart rate and blood pressure.

Related Access Points

Name	Description
PE.912.C.2.In.q:	Examine physiological effects of exercise, such as breathing, resting heart rate and blood pressure, during and after physical activity.
PE.912.C.2.Su.q:	Identify physiological effects of exercise, such as breathing, resting heart rate and blood pressure, during and after physical activity.
PE.912.C.2.Pa.q:	Recognize a physiological effect of exercise, such as breathing or resting heart rate, during and after physical activity.

Differentiate between fact and fallacy as it relates to consumer physical fitness products and programs.

[PE.912.C.2.18:](#)

Remarks/Examples:

Some examples are weight-loss pills, food labels and exercise equipment.

Related Access Points

Name	Description
PE.912.C.2.In.r:	Categorize information as true or false as it relates to consumer physical fitness products and programs, such as weight-loss pills, food labels and exercise equipment.
PE.912.C.2.Su.r:	Identify information as true or false as it relates to consumer physical fitness products and programs, such as weight-loss pills, food labels and exercise equipment.
PE.912.C.2.Pa.r:	Recognize information as it relates to a selected consumer physical fitness product, such as weight-loss pills, food labels or exercise equipment.

Explain the skill-related components of fitness and how they enhance performance levels.

[PE.912.C.2.22:](#)

Remarks/Examples:

The skill-related components of fitness are speed, coordination, balance, power, agility and reaction time.

Related Access Points

Name	Description
PE.912.C.2.In.v:	Describe the skill-related components of fitness such as balance, reaction time, agility, coordination, power and speed, and how they enhance performance levels.
PE.912.C.2.Su.v:	Identify the skill-related components of fitness that enhance performance, such as balance, reaction time, agility, coordination, power and speed.
PE.912.C.2.Pa.v:	Recognize a skill-related component of fitness that enhances performance, such as balance, reaction time, agility, coordination, power or speed.

[PE.912.C.2.22:](#)

Apply appropriate technology and analyze data to evaluate, monitor and/or improve performance.

Related Access Points

Name	Description
PE.912.C.2.In.w:	Use appropriate technology to assess, monitor and improve performance.
PE.912.C.2.Su.w:	Use appropriate technology to monitor and improve performance.
PE.912.C.2.Pa.w:	Use a selected technology to monitor or improve performance.

Compare how peers influence healthy and unhealthy behaviors.

[HE.912.C.2.2:](#)

Remarks/Examples:

Binge drinking and social groups, sexual coercion [pressure, force, or manipulation] by a dating partner, students' recommendations for school vending machines, healthy lifestyle, review trends in current and emerging diseases, and use of helmets and seatbelts.

Related Access Points

Name	Description
HE.912.C.2.In.b:	Examine how peers influence healthy and unhealthy behaviors, such as binge drinking and social groups, pressuring a girlfriend or boyfriend to be sexually active, and student recommendations for school vending machines.

HE.912.C.2.Su.b:	Describe how peers influence healthy and unhealthy behaviors, such as drinking alcohol in social groups, pressuring a girlfriend or boyfriend to be sexually active, and making recommendations for school vending machines.
HE.912.C.2.Pa.b:	Recognize ways peers influence healthy or unhealthy behaviors, such as drinking alcohol in social groups, pressuring a girlfriend or boyfriend to be sexually active, and making recommendations for school vending machines.

Evaluate the effect of media on personal and family health.

[HE.912.C.2.5:](#)

Remarks/Examples:

Compares brand-name/store-brand items in home, analyzes television viewing habits, identifies effective PSAs, consumer skills, advertisements of health-related community resources, participation in risky behaviors, and deconstructs media to identify promotion of unhealthy stereotypes, and normalization of violence.

Related Access Points

Name	Description
HE.912.C.2.In.e:	Examine the effect of media on personal and family health, such as comparing name- and store-brand items in the home, analyzing television-viewing habits, and identifying effective public-service announcements (PSAs).
HE.912.C.2.Su.e:	Describe the effect of media on personal and family health, such as comparing name- and store-brand items in the home, analyzing television-viewing habits, and identifying effective public-service announcements (PSAs).
HE.912.C.2.Pa.e:	Recognize the effect of media on personal and family health, such as television-viewing habits and sedentary lifestyle and identifying effective public-service announcements (PSAs).

[PE.912.L.3.1:](#)

Participate in a variety of physical activities to meet the recommended number of minutes of moderate to vigorous physical activity beyond physical education on five or more days of the week.

Related Access Points

Name	Description
PE.912.L.3.In.a:	Participate in a variety of physical activities to meet the recommended number of minutes of moderate to vigorous physical activity beyond physical education on five or more days of the week.
PE.912.L.3.Su.a:	Participate in a variety of moderate to vigorous physical activities beyond physical education five or more days of the week.
PE.912.L.3.Pa.a:	Participate in a variety of moderate to vigorous modified physical activities beyond physical education five or more days of the week.

Participate in a variety of activities that promote the health-related components of fitness.

[PE.912.L.3.2:](#)

Remarks/Examples:

The health-related components of fitness are cardiorespiratory endurance, muscular strength, muscular endurance, flexibility and body composition.

Related Access Points

Name	Description
PE.912.L.3.In.b:	Participate in a variety of basic activities that promote cardiorespiratory fitness, muscular strength and endurance, flexibility and body composition.
PE.912.L.3.Su.b:	Participate in a variety of selected basic activities that promote cardiorespiratory fitness, muscular strength and endurance, flexibility and body composition.
PE.912.L.3.Pa.b:	Participate in a variety of selected modified activities that promote cardiorespiratory fitness, muscular strength and endurance, flexibility and body composition.

[PE.912.L.3.3:](#)

Identify a variety of activities that promote effective stress management.

Related Access Points

Name	Description
PE.912.L.3.In.c:	Recognize a variety of basic activities that promote effective stress management.
PE.912.L.3.Su.c:	Recognize a variety of selected basic activities that promote effective stress management.
PE.912.L.3.Pa.c:	Recognize a variety of selected modified activities that promote effective stress management.

[PE.912.L.3.6:](#)

Identify risks and safety factors that may affect physical activity throughout life.

Related Access Points

Name	Description
PE.912.L.3.In.f:	Recognize risk and safety factors that can affect physical activity throughout life.
PE.912.L.3.Su.f:	Recognize risk and safety factors that can affect physical activity for many years.
PE.912.L.3.Pa.f:	Recognize a risk and a safety factor that can affect physical activity.

Design a personal fitness program.

[PE.912.L.4.1:](#)

Remarks/Examples:

Some examples of things to consider when designing a personal fitness program are timelines and current fitness level.

Related Access Points

Name	Description
PE.912.L.4.In.a:	Design a personal fitness program that includes current fitness level.

PE.912.L.4.Su.a:	Recognize timelines and current fitness level in a personal fitness program.
PE.912.L.4.Pa.a:	Actively participate in modifying a personal fitness program in collaboration with a teacher.

[PE.912.L.4.2:](#) Identify ways to self-assess and modify a personal fitness program.

Related Access Points

Name	Description
PE.912.L.4.In.b:	Recognize ways to self-assess and modify a personal fitness program.
PE.912.L.4.Su.b:	Recognize ways to self-assess a personal fitness program.
PE.912.L.4.Pa.b:	Recognize a self-assessment for a personal fitness program.

[PE.912.L.4.3:](#) Identify strategies for setting goals when developing a personal fitness program.

Related Access Points

Name	Description
PE.912.L.4.In.c:	Select goals, identify strategies and create a timeline for a personal physical-activity plan.
PE.912.L.4.Su.c:	Select goals, recognize strategies and create a timeline for a personal physical-activity plan.
PE.912.L.4.Pa.c:	Select a goal and timeline for a personal physical-activity plan.

[PE.912.L.4.4:](#) Use available technology to assess, design and evaluate a personal fitness program.

Related Access Points

Name	Description
PE.912.L.4.In.d:	Use a variety of resources, including available technology, to design and assess a personal fitness program.
PE.912.L.4.Su.d:	Use a variety of resources, including available technology, to assess a personal fitness program.
PE.912.L.4.Pa.d:	Use resources, including available technology, to recognize the effect of a personal fitness program.

Apply the principles of training to personal fitness goals.

[PE.912.L.4.5:](#)

Remarks/Examples:
Some examples of training principles are overload, specificity and progression.

Related Access Points

Name	Description
PE.912.L.4.In.e:	Use the principles of training (overload, specificity and progression) in accordance with personal fitness goals.
PE.912.L.4.Su.e:	Use selected principles of training (overload, specificity and progression) in accordance with personal fitness goals.
PE.912.L.4.Pa.e:	Use a selected principle of training (overload, specificity or progression) in accordance with personal fitness goals.

[PE.912.L.4.6:](#) Identify health-related problems associated with low levels of cardiorespiratory endurance, muscular strength and endurance, flexibility and body composition.

Related Access Points

Name	Description
PE.912.L.4.In.f:	Examine health-related problems associated with low levels of cardiorespiratory endurance, muscular strength and endurance, flexibility and body composition.
PE.912.L.4.Su.f:	Identify health-related problems associated with low levels of cardiorespiratory endurance, muscular strength and endurance, flexibility and body composition.
PE.912.L.4.Pa.f:	Recognize health-related problems associated with low levels of physical activity.

[PE.912.L.4.7:](#) Evaluate how to make changes in an individual wellness plan as lifestyle changes occur.

Related Access Points

Name	Description
PE.912.L.4.In.g:	Examine how to make changes in an individual wellness plan as lifestyle changes occur.
PE.912.L.4.Su.g:	Identify how to make changes in an individual wellness plan as lifestyle changes occur.
PE.912.L.4.Pa.g:	Recognize changes in an individual wellness plan as lifestyle changes occur.

[PE.912.R.5.2:](#) Develop strategies for including persons of diverse backgrounds and abilities while participating in a variety of physical activities.

Related Access Points

Name	Description
PE.912.R.5.In.b:	Identify strategies for including persons of diverse backgrounds and abilities in a variety of physical activities.
PE.912.R.5.Su.b:	Recognize strategies for including persons of diverse backgrounds and abilities in a variety of physical activities.
PE.912.R.5.Pa.b:	Participate cooperatively with persons of diverse backgrounds and abilities in a variety of physical activities.

Demonstrate sportsmanship during game situations.

[PE.912.R.5.3:](#)

Remarks/Examples:
Some examples are controlling emotions, resolving conflicts, respecting opponents and officials, and accepting both victory and defeat.

Related Access Points

Name	Description
PE.912.R.5.In.c:	Use responsible behaviors during physical activities, such as controlling emotions, resolving conflicts, respecting opponents and officials and accepting both victory and defeat.
PE.912.R.5.Su.c:	Use responsible behaviors during selected physical activities, such as controlling emotions, respecting opponents and officials and accepting both victory and defeat.
PE.912.R.5.Pa.c:	Use selected responsible behaviors during selected physical activities, such as controlling emotions and respecting opponents and officials.

[PE.912.R.5.5:](#) Demonstrate appropriate etiquette, care of equipment, respect for facilities and safe behaviors while participating in a variety of physical activities.

Related Access Points

Name	Description
PE.912.R.5.In.e:	Identify appropriate etiquette, care of equipment, respect for facilities and safe behaviors while participating in a variety of physical activities.
PE.912.R.5.Su.e:	Use appropriate etiquette, respect for facilities and safe behaviors while participating in a variety of physical activities.
PE.912.R.5.Pa.e:	Use appropriate etiquette and safe behaviors while participating in a variety of physical activities.

[PE.912.R.6.1:](#) Discuss opportunities for participation in a variety of physical activities outside of the school setting that contribute to personal enjoyment and the attainment or maintenance of a healthy lifestyle.

Related Access Points

Name	Description
PE.912.R.6.In.a:	Identify a variety of physical activities outside of the school setting that contribute to personal enjoyment and the attainment or maintenance of a healthy lifestyle.
PE.912.R.6.Su.a:	Recognize selected physical activities outside of the school setting that contribute to personal enjoyment and the attainment or maintenance of a healthy lifestyle.
PE.912.R.6.Pa.a:	Associate opportunity to participate in physical activity outside of the school setting with personal enjoyment or the maintenance of a healthy lifestyle.

Analyze physical activities from which benefits can be derived.

[PE.912.R.6.2:](#)

Remarks/Examples:
Some examples of potential benefits are physical, mental, emotional and social.

Related Access Points

Name	Description
PE.912.R.6.In.b:	Describe physical activities from which physical, mental, emotional and social benefits can be derived.
PE.912.R.6.Su.b:	Identify from which physical, mental, emotional and social benefits can be derived.
PE.912.R.6.Pa.b:	Associate physical activities with selected benefits, such as physical, mental, emotional or social.

[PE.912.R.6.3:](#) Analyze the roles of games, sports and/or physical activities in other cultures.

Related Access Points

Name	Description
PE.912.R.6.In.c:	Describe the role of games, sports or physical activities in other cultures.
PE.912.R.6.Su.c:	Identify the role of games, sports or physical activities in other cultures.
PE.912.R.6.Pa.c:	Recognize a benefit of games, sports or physical activities in other cultures.

[PE.912.M.1.5:](#) Apply strategies for self improvement based on individual strengths and needs.

Related Access Points

Name	Description
PE.912.M.1.In.e:	Demonstrate strategies for self-improvement based on individual strengths and needs.
PE.912.M.1.Su.e:	Use strategies for self-improvement based on individual strengths and needs.
PE.912.M.1.Pa.e:	Perform a guided activity for self-improvement based on individual strengths and needs.

Select and perform complex movements using a variety of equipment which lead to improved or maintained muscular strength and endurance.

[PE.912.M.1.12:](#)

Remarks/Examples:
An example is performing plyometrics.

Related Access Points

Name	Description
PE.912.M.1.In.l:	Select and perform basic movements using a variety of equipment that lead to improved or maintained muscular strength and endurance.
PE.912.M.1.Su.l:	Identify and perform basic movements using a variety of equipment that lead to improved or maintained muscular strength and endurance.
PE.912.M.1.Pa.l:	Perform basic movements using a variety of equipment that lead to improved or maintained muscular strength and endurance.

[PE.912.M.1.13:](#) Perform a student-designed cardiorespiratory enhancing workout.

Related Access Points

Name	Description
PE.912.M.1.In.m:	Identify correct exercises and perform a cardiorespiratory-enhancing workout.
PE.912.M.1.Su.m:	Recognize correct exercises and perform a cardiorespiratory-enhancing workout.
PE.912.M.1.Pa.m:	Perform a cardiorespiratory-enhancing workout.

Utilize technology to assess, enhance and maintain health and skill-related fitness levels.

[PE.912.M.1.14:](#)

Remarks/Examples:
Some examples of technology are Excel spreadsheets or web based programs to chart or log activities, heart rate monitors, videotapes or digital cameras.

Related Access Points

Name	Description
PE.912.M.1.In.n:	Use technology to develop, enhance and maintain health and skill-related fitness levels.
PE.912.M.1.Su.n:	Use technology to develop and maintain health and skill-related fitness levels.
PE.912.M.1.Pa.n:	Use selected technology to develop health and skill-related fitness levels.

[PE.912.M.1.15:](#) Select and apply sport/activity specific warm-up and cool-down techniques.

Related Access Points

Name	Description
PE.912.M.1.In.o:	Identify and use sports/activity specific warm-up and cool-down techniques.
PE.912.M.1.Su.o:	Recognize and use activity specific warm-up and cool-down techniques.
PE.912.M.1.Pa.o:	Perform an activity specific warm-up and cool-down technique.

[PE.912.M.1.19:](#)

Use correct body alignment, strength, flexibility and coordination in the performance of technical movements.

Related Access Points

Name	Description
PE.912.M.1.In.s:	Use correct body alignment, strength and flexibility to perform technical movements in gymnastics.
PE.912.M.1.Su.s:	Use strength and flexibility to perform technical movements in basic gymnastics.
PE.912.M.1.Pa.s:	Use strength and flexibility to perform guided movements in basic gymnastics.

Demonstrate use of the mechanical principles as they apply to specific course activities.

[PE.912.M.1.34:](#)

Remarks/Examples:
Some examples are balance, force and leverage.

Related Access Points

Name	Description
PE.912.M.1.In.ah:	Use selected mechanical principles, such as balance, force or leverage, as they apply to specific course activities.
PE.912.M.1.Su.ah:	Use a mechanical principle, such as balance, force or leverage, as it applies to selected course activities.
PE.912.M.1.Pa.ah:	Use a mechanical principle, such as balance, force or leverage, as it applies to selected modified course activities.

[PE.912.M.1.35:](#)

Select proper equipment and apply all appropriate safety procedures necessary for participation.

Related Access Points

Name	Description
PE.912.M.1.In.ai:	Identify proper equipment and demonstrate all safety procedures for participation.
PE.912.M.1.Su.ai:	Recognize proper equipment and demonstrates all safety procedures for participation.
PE.912.M.1.Pa.ai:	Perform all safety procedures for participation.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

Driver Education for Special Learners (#7919010)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7919010
Course Section: Exceptional Student Education
Number of Credits: Multiple Credit (more than 1 credit)
Course Status: Draft - Course Pending Approval

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Miscellaneous >
Abbreviated Title: DR ED SP LRNRS

VERSION DESCRIPTION

A. Major Concepts/Content. The purpose of this course is to provide students with disabilities with the basic knowledge necessary to obtain a Florida driver's license.

The content should include, but not be limited to, the following:

- driving rules/regulations
- safety signs/symbols
- driving courtesy
- map reading skills
- simple auto maintenance
- insurance

This course shall integrate the Sunshine State Standards and Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the individual student and to the content and processes of the subject matter. Students with disabilities shall:

CL.A.1.In.1 complete specified Sunshine State Standards with modifications as appropriate for the individual student.

B. Special Note. This entire course may not be mastered in one year. A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed primarily for students functioning at independent levels, who are generally capable of living and working independently with occasional assistance.

Instructional activities involving practical applications of course requirements may occur in naturalistic settings or on the driving range and in the community for the purposes of practice, generalization, and maintenance of skills. These applications may require that the student acquire the knowledge and skills involved with the use of related technology, tools, and driving equipment. Students must obtain a Florida restricted driver's license before they can be allowed to drive on the driving range or in the community.

GENERAL NOTES

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

C. Course Requirements. These requirements include, but are not limited to, the benchmarks from the State Standards for Special Diploma that are most relevant to this course. Benchmarks correlated with a specific course requirement may also be addressed by other course requirements as appropriate. Some requirements in this course are not fully addressed in the State Standards for Special Diploma.

After successfully completing this course, the student will:

1. Demonstrate understanding of traffic signs and traffic regulations.

- CL.B.1.In.1 identify and locate oral, print, or visual information for specified purposes.
- CL.B.1.In.2 interpret and use oral, print, or visual information for specified purposes.

2. Demonstrate knowledge of Florida laws related to driving.

CL.B.1.In.1 identify and locate oral, print, or visual information for specified purposes.
CL.B.1.In.2 interpret and use oral, print, or visual information for specified purposes.

3. Demonstrate knowledge of basic operational features of an automobile.

4. Demonstrate knowledge and skills needed to be a courteous driver.

5. Exhibit driving skills necessary for obtaining a driver's license in Florida.

6. Demonstrate knowledge of simple auto maintenance.

CL.B.4.In.1 identify problems and examine alternative solutions.
CL.B.4.In.2 implement solutions to problems and evaluate effectiveness.

7. Exhibit map reading skills needed for driving.

CL.B.1.In.1 identify and locate oral, print, or visual information for specified purposes.
CL.B.1.In.2 interpret and use oral, print, or visual information for specified purposes.

8. Demonstrate knowledge of auto insurance, including legal requirements, characteristics, costs, and procedures for obtaining a policy.

NCLB? Yes	
	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Science. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SC.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Laboratory investigations that include the use of scientific inquiry, research, measurement, problem solving, laboratory apparatus and technologies, experimental procedures, and safety procedures are an integral part of this course. The National Science Teachers Association (NSTA) recommends that at the high school level, all students should be in the science lab or field, collecting data every week. School laboratory investigations (labs) are defined by the National Research Council (NRC) as an experience in the laboratory, classroom, or the field that provides students with opportunities to interact directly with natural phenomena or with data collected by others using tools, materials, data collection techniques, and models (NRC, 2006, p. 3). Laboratory investigations in the high school classroom should help all students develop a growing understanding of the complexity and ambiguity of empirical work, as well as the skills to calibrate and troubleshoot equipment used to make observations. Learners should understand measurement error; and have the skills to aggregate, interpret, and present the resulting data (National Research Council, 2006, p.77; NSTA, 2007).

Course Standards

Name	Description
	Define a problem based on a specific body of knowledge, for example: biology, chemistry, physics, and earth/space science, and do the following: <ol style="list-style-type: none">1. Pose questions about the natural world, (Articulate the purpose of the investigation and identify the relevant scientific concepts).2. Conduct systematic observations, (Write procedures that are clear and replicable. Identify observables and examine relationships between test (independent) variable and outcome (dependent) variable. Employ appropriate methods for accurate and consistent observations; conduct and record measurements at appropriate levels of precision. Follow safety guidelines).3. Examine books and other sources of information to see what is already known,4. Review what is known in light of empirical evidence, (Examine whether available empirical evidence can be interpreted in terms of existing knowledge and models, and if not, modify or develop new models).5. Plan investigations, (Design and evaluate a scientific investigation).6. Use tools to gather, analyze, and interpret data (this includes the use of measurement in metric and other systems, and also the generation and interpretation of graphical representations of data, including data tables and graphs), (Collect data or evidence in an organized way. Properly use instruments, equipment, and materials (e.g., scales, probeware, meter sticks, microscopes, computers) including set-up, calibration, technique, maintenance, and storage).

7. Pose answers, explanations, or descriptions of events,
8. Generate explanations that explicate or describe natural phenomena (inferences),
9. Use appropriate evidence and reasoning to justify these explanations to others,
10. Communicate results of scientific investigations, and
11. Evaluate the merits of the explanations produced by others.

SC.912.N.1.1:

Remarks/Examples:

Florida Standards Connections for 6-12 Literacy in Science
 For Students in Grades 9-10

LAFS.910.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.

LAFS.910.RST.1.3 Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks attending to special cases or exceptions defined in the text.

LAFS.910.RST.3.7 Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

LAFS.910.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

LAFS.910.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.

For Students in Grades 11-12

LAFS.1112.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account.

LAFS.1112.RST.1.3 Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks analyze the specific results based on explanations in the text.

LAFS.1112.RST.3.7 Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.

LAFS.1112.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

LAFS.1112.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.

Florida Standards Connections for Mathematical Practices

- MAFS.K12.MP.1: Make sense of problems and persevere in solving them.
- MAFS.K12.MP.2: Reason abstractly and quantitatively.
- MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others. [Viable arguments include evidence.]
- MAFS.K12.MP.4: Model with mathematics.
- MAFS.K12.MP.5: Use appropriate tools strategically.
- MAFS.K12.MP.6: Attend to precision.
- MAFS.K12.MP.7: Look for and make use of structure.
- MAFS.K12.MP.8: Look for and express regularity in repeated reasoning.

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Describe and explain what characterizes science and its methods.

SC.912.N.1.2:

Remarks/Examples:

Science is characterized by empirical observations, testable questions, formation of hypotheses, and experimentation that results in stable and replicable results, logical reasoning, and coherent theoretical constructs.

Florida Standards Connections: MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Related Access Points

Name	Description
SC.912.N.1.In.2:	Describe the processes used in scientific investigations, including posing a research question, forming a hypothesis, reviewing what is known, collecting evidence, evaluating results, and reaching conclusions.
SC.912.N.1.Su.2:	Identify the basic process used in scientific investigations, including questioning, observing, recording, determining, and sharing results.
SC.912.N.1.Pa.2:	Recognize a process used in science to solve problems, such as observing, following procedures, and recognizing results.

Identify sources of information and assess their reliability according to the strict standards of scientific investigation.

[SC.912.N.1.4:](#)

Remarks/Examples:

Read, interpret, and examine the credibility and validity of scientific claims in different sources of information, such as scientific articles, advertisements, or media stories. Strict standards of science include controlled variables, sufficient sample size, replication of results, empirical and measurable evidence, and the concept of falsification.

Florida Standards Connections: [LAFS.910.RST.1.1](#) / [LAFS.1112.RST.1.1](#).

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Describe and provide examples of how similar investigations conducted in many parts of the world result in the same outcome.

[SC.912.N.1.5:](#)

Remarks/Examples:

Recognize that contributions to science can be made and have been made by people from all over the world.

Related Access Points

Name	Description
SC.912.N.1.In.3:	Identify that scientific investigations are sometimes repeated in different locations.
SC.912.N.1.Su.3:	Recognize that scientific investigations can be repeated in different locations.
SC.912.N.1.Pa.3:	Recognize that when a variety of common activities are repeated the same way, the outcomes are the same.

Describe how scientific inferences are drawn from scientific observations and provide examples from the content being studied.

[SC.912.N.1.6:](#)

Remarks/Examples:

Collect data/evidence and use tables/graphs to draw conclusions and make inferences based on patterns or trends in the data.

Florida Standards Connections: [MAFS.K12.MP.1](#): Make sense of problems and persevere in solving them.

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Recognize the role of creativity in constructing scientific questions, methods and explanations.

[SC.912.N.1.7:](#)

Remarks/Examples:

Work through difficult problems using creativity, and critical and analytical thinking in problem solving (e.g. convergent versus divergent thinking and creativity in problem solving).

Florida Standards Connections: [MAFS.K12.MP.1](#): Make sense of problems and persevere in solving them and [MAFS.K12.MP.2](#): Reason abstractly and quantitatively.

Related Access Points

Name	Description
SC.912.N.1.In.4:	Identify that scientists use many different methods in conducting their research.
SC.912.N.1.Su.4:	Recognize that scientists use a variety of methods to get answers to their research questions.
SC.912.N.1.Pa.4:	Recognize that people try different ways to complete a task when the first one does not work.

Identify which questions can be answered through science and which questions are outside the boundaries of scientific investigation, such as questions addressed by other ways of knowing, such as art, philosophy, and religion.

[SC.912.N.2.2:](#)

Remarks/Examples:

Identify scientific questions that can be disproved by experimentation/testing. Recognize that pseudoscience is a claim, belief, or practice which is presented as scientific, but does not adhere to strict standards of science (e.g. controlled variables, sample size, replicability, empirical and measurable evidence, and the concept of falsification).

Related Access Points

Name	Description
SC.912.N.2.In.2:	Distinguish between questions that can be answered by science and observable information and questions that can't be answered by science and observable information.
SC.912.N.2.Su.1:	Identify questions that can be answered by science.
SC.912.N.2.Pa.1:	Recognize an example of work by scientists.

Explain that scientific knowledge is both durable and robust and open to change. Scientific knowledge can change because it is often examined and re-examined by new investigations and scientific argumentation. Because of these frequent examinations, scientific knowledge becomes stronger, leading to its durability.

[SC.912.N.2.4:](#)

Remarks/Examples:
Recognize that ideas with the most durable explanatory power become established theories, but scientific explanations are continually subjected to change in the face of new evidence.
Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Related Access Points

Name	Description
SC.912.N.2.In.3:	Recognize that scientific knowledge can be challenged or confirmed by new investigations and reexamination.
SC.912.N.2.Su.2:	Recognize that what is known about science can change based on new information.
SC.912.N.2.Pa.2:	Recognize a variety of cause-effect relationships related to science.

Describe instances in which scientists' varied backgrounds, talents, interests, and goals influence the inferences and thus the explanations that they make about observations of natural phenomena and describe that competing interpretations (explanations) of scientists are a strength of science as they are a source of new, testable ideas that have the potential to add new evidence to support one or another of the explanations.

[SC.912.N.2.5:](#)

Remarks/Examples:
Recognize that scientific questions, <u>observations</u> , and conclusions may be influenced by the existing state of scientific knowledge, the social and cultural context of the researcher, and the observer's experiences and expectations. Identify possible bias in qualitative and quantitative data analysis.

Related Access Points

Name	Description
SC.912.N.2.In.4:	Identify major contributions of scientists.
SC.912.N.2.Su.3:	Recognize major contributions of scientists.
SC.912.N.2.Pa.1:	Recognize an example of work by scientists.

Describe the role consensus plays in the historical development of a theory in any one of the disciplines of science.

[SC.912.N.3.2:](#)

Remarks/Examples:
Recognize that scientific argument, disagreement, discourse, and discussion create a broader and more accurate understanding of natural processes and events.
Florida Standards Connections: MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Related Access Points

Name	Description
SC.912.N.3.In.1:	Recognize that a scientific theory is developed by repeated investigations of many scientists and agreement on the likely explanation.
SC.912.N.3.Su.1:	Recognize that scientific theories are supported by evidence and agreement of many scientists.
SC.912.N.3.Pa.1:	Recognize examples of cause-effect descriptions or explanations related to science.

Explain that scientific laws are descriptions of specific relationships under given conditions in nature, but do not offer explanations for those relationships.

[SC.912.N.3.3:](#)

Remarks/Examples:
Recognize that a scientific theory provides a broad explanation of many observed phenomena while a scientific <u>law</u> describes how something behaves.

Related Access Points

Name	Description
SC.912.N.3.In.2:	Identify examples of scientific laws that describe relationships in the natural world, such as Newton's laws.
SC.912.N.3.Su.2:	Recognize examples of scientific laws that describe relationships in nature, such as Newton's laws.
SC.912.N.3.Pa.1:	Recognize examples of cause-effect descriptions or explanations related to science.

Describe the function of models in science, and identify the wide range of models used in science.

SC.912.N.3.5:

Remarks/Examples:

Describe how models are used by scientists to explain observations of nature.

Florida Standards Connections: MAFS.K12.MP.4: Model with mathematics.

Related Access Points

Name	Description
SC.912.N.3.In.3:	Identify ways models are used in the study of science.
SC.912.N.3.Su.3:	Recognize ways models are used in the study of science.
SC.912.N.3.Pa.2:	Recognize a model used in the context of one's own study of science.

Explain how scientific knowledge and reasoning provide an empirically-based perspective to inform society's decision making.

SC.912.N.4.1:

Remarks/Examples:

Recognize that no single universal step-by-step scientific method captures the complexity of doing science. A number of shared values and perspectives characterize a scientific approach.

MAFS.K12.MP.1: Make sense of problems and persevere in solving them, and MAFS.K12.MP.2: Reason abstractly and quantitatively.

Related Access Points

Name	Description
SC.912.N.4.In.1:	Identify ways scientific knowledge and problem solving benefit people.
SC.912.N.4.Su.1:	Recognize ways scientific knowledge and problem solving benefit people.
SC.912.N.4.Pa.1:	Recognize science information that helps people.

Differentiate among the four states of matter.

SC.912.P.8.1:

Remarks/Examples:

Differentiate among the four states of matter (solid, liquid, gas and plasma) in terms of energy, particle motion, and phase transitions. (Note: Currently five states of matter have been identified.)

Related Access Points

Name	Description
SC.912.P.8.In.1:	Classify states of matter as solid, liquid, and gaseous.
SC.912.P.8.Su.1:	Identify examples of states of matter as solid, liquid, and gaseous.
SC.912.P.8.Pa.1:	Select an example of a common solid, liquid, and gas.

Differentiate between physical and chemical properties and physical and chemical changes of matter.

SC.912.P.8.2:

Remarks/Examples:

Discuss volume, compressibility, density, conductivity, malleability, reactivity, molecular composition, freezing, melting and boiling points. Describe simple laboratory techniques that can be used to separate homogeneous and heterogeneous mixtures (e.g. filtration, distillation, chromatography, evaporation).

Related Access Points

Name	Description
SC.912.P.8.In.2:	Compare characteristics of physical and chemical changes of matter.
SC.912.P.8.Su.2:	Identify examples of physical and chemical changes.
SC.912.P.8.Pa.2:	Recognize a common chemical change, such as cooking, burning, rusting, or decaying.

Explore the scientific theory of atoms (also known as atomic theory) by describing changes in the atomic model over time and why those changes were necessitated by experimental evidence.

SC.912.P.8.3:

Remarks/Examples:

Describe the development and historical importance of atomic theory from Dalton (atomic theory), Thomson (the electron), Rutherford (the nucleus and "gold foil" experiment), and Bohr (planetary model of atom), and understand how each discovery leads to modern atomic theory.

Florida Standards Connections: MAFS.K12.MP.4: Model with mathematics.

Related Access Points

Name	Description
SC.912.P.8.In.3:	Identify the nucleus as the center of an atom.
SC.912.P.8.Su.3:	Recognize that atoms are tiny particles in materials, too small to see.
SC.912.P.8.Pa.3:	Recognize that the parts of an object can be put together to make a whole.

Explore the scientific theory of atoms (also known as atomic theory) by describing the structure of atoms in terms of protons, neutrons and electrons, and differentiate among these particles in terms of their mass, electrical charges and locations within the atom.

SC.912.P.8.4:

Remarks/Examples:

Explain that electrons, protons and neutrons are parts of the atom and that the nuclei of atoms are composed of protons and neutrons, which

experience [forces](#) of [attraction](#) and repulsion consistent with their charges and masses.

Florida Standards Connections: MAFS.K12.MP.4: [Model](#) with mathematics.

Related Access Points

Name	Description
SC.912.P.8.In.3:	Identify the nucleus as the center of an atom.
SC.912.P.8.Su.3:	Recognize that atoms are tiny particles in materials, too small to see.
SC.912.P.8.Pa.3:	Recognize that the parts of an object can be put together to make a whole.

Relate properties of atoms and their position in the periodic table to the arrangement of their electrons.

[SC.912.P.8.5:](#)

Remarks/Examples:

Use the [periodic table](#) and [electron](#) configuration to determine an element's number of valence [electrons](#) and its chemical and physical properties. Explain how chemical properties depend almost entirely on the configuration of the outer [electron](#) shell.

Related Access Points

Name	Description
SC.912.P.8.In.4:	Recognize that the periodic table includes all known elements.
SC.912.P.8.Su.4:	Recognize examples of common elements, such as oxygen and hydrogen.
SC.912.P.8.Pa.3:	Recognize that the parts of an object can be put together to make a whole.

Distinguish between bonding forces holding compounds together and other attractive forces, including hydrogen bonding and van der Waals forces.

[SC.912.P.8.6:](#)

Remarks/Examples:

Describe how [atoms](#) combine to form [molecules](#) through ionic, covalent, and hydrogen bonding. Compare and contrast the characteristics of the interactions between [atoms](#) in ionic and covalent [compounds](#) and how these bonds form. Use electronegativity to explain the difference between polar and nonpolar covalent bonds.

Related Access Points

Name	Description
SC.912.P.8.In.5:	Identify that compounds are made of two or more elements.
SC.912.P.8.Su.5:	Recognize examples of common compounds, such as water and salt.
SC.912.P.8.Pa.4:	Match common compounds to their names or communication symbols.

Interpret formula representations of molecules and compounds in terms of composition and structure.

[SC.912.P.8.7:](#)

Remarks/Examples:

Write chemical formulas for simple covalent (HCl, SO₂, CO₂, and CH₄), ionic (Na⁺ + Cl⁻ → NaCl) and molecular (O₂, H₂O) [compounds](#). Predict the formulas of ionic [compounds](#) based on the number of valence [electrons](#) and the charges on the ions.

Related Access Points

Name	Description
SC.912.P.8.In.6:	Identify formulas for common compounds, such as H ₂ O and CO ₂ .
SC.912.P.8.Su.6:	Match common chemical formulas to their common name, such as H ₂ O to water.
SC.912.P.8.Pa.4:	Match common compounds to their names or communication symbols.

Relate acidity and basicity to hydronium and hydroxyl ion concentration and pH.

[SC.912.P.8.11:](#)

Remarks/Examples:

Use experimental data to illustrate and explain the pH scale to characterize [acid](#) and [base](#) solutions. Compare and contrast the strengths of various common [acids](#) and [bases](#).

Related Access Points

Name	Description
SC.912.P.8.In.7:	Identify properties of common acids and bases.
SC.912.P.8.Su.7:	Categorize common materials or foods as acids or bases.
SC.912.P.8.Pa.5:	Recognize that some acids and bases can be dangerous and identify related hazard symbols.

Characterize types of chemical reactions, for example: redox, acid-base, synthesis, and single and double replacement reactions.

[SC.912.P.8.8:](#)

Remarks/Examples:

Classify chemical reactions as synthesis (combination), decomposition, single displacement (replacement), double displacement, and combustion.

Related Access Points

Name	Description
SC.912.P.8.In.2:	Compare characteristics of physical and chemical changes of matter.
SC.912.P.8.Su.2:	Identify examples of physical and chemical changes.
SC.912.P.8.Pa.2:	Recognize a common chemical change, such as cooking, burning, rusting, or decaying.

Apply the mole concept and the law of conservation of mass to calculate quantities of chemicals participating in reactions.

[SC.912.P.8.9:](#)

Remarks/Examples:

Recognize one mole equals 6.02×10^{23} particles (atoms or molecules). Determine number of particles for elements and compounds using the mole concept, in terms of number of particles, mass, and the volume of an ideal gas at specified conditions of temperature and pressure. Use experimental data to determine percent yield, empirical formulas, molecular formulas, and calculate the mass-to-mass stoichiometry for a chemical reaction.

Related Access Points

Name	Description
SC.912.P.8.In.2:	Compare characteristics of physical and chemical changes of matter.
SC.912.P.8.Su.2:	Identify examples of physical and chemical changes.
SC.912.P.8.Pa.2:	Recognize a common chemical change, such as cooking, burning, rusting, or decaying.

Distinguish between endothermic and exothermic chemical processes.

[SC.912.P.10.7:](#)

Remarks/Examples:

Classify chemical reactions and phase changes as exothermic (release thermal energy) or endothermic (absorb thermal energy).

Related Access Points

Name	Description
SC.912.P.10.In.4:	Describe a process that gives off heat (exothermic), such as burning, and a process that absorbs heat (endothermic), such as water coming to a boil.
SC.912.P.10.Su.4:	Recognize common processes that give off heat (exothermic), such as burning, and processes that absorb heat (endothermic), such as water coming to a boil.
SC.912.P.10.Pa.4:	Identify materials that provide protection (insulation) from heat.

Describe the quantization of energy at the atomic level.

[SC.912.P.10.9:](#)

Remarks/Examples:

Explain that when electrons transition to higher energy levels they absorb energy, and when they transition to lower energy levels they emit energy. Recognize that spectral lines are the result of transitions of electrons between energy levels that correspond to photons of light with an energy and frequency related to the energy spacing between levels (Planck's relationship $E = hv$).

Related Access Points

Name	Description
SC.912.P.10.In.6:	Identify that atoms can be changed to release energy, such as in nuclear power plants, and recognize one related safety issue.
SC.912.P.10.Su.5:	Recognize that nuclear power plants generate electricity and can be dangerous.
SC.912.P.10.Pa.5:	Recognize the universal symbols for radioactive and other hazardous materials.

Differentiate between chemical and nuclear reactions.

[SC.912.P.10.12:](#)

Remarks/Examples:

Describe how chemical reactions involve the rearranging of atoms to form new substances, while nuclear reactions involve the change of atomic nuclei into entirely new atoms. Identify real-world examples where chemical and nuclear reactions occur every day.

Related Access Points

Name	Description
SC.912.P.10.In.6:	Identify that atoms can be changed to release energy, such as in nuclear power plants, and recognize one related safety issue.
SC.912.P.10.Su.5:	Recognize that nuclear power plants generate electricity and can be dangerous.
SC.912.P.10.Pa.5:	Recognize the universal symbols for radioactive and other hazardous materials.

Relate temperature to the average molecular kinetic energy.

[SC.912.P.10.5:](#)

Remarks/Examples:

Recognize that the internal energy of an object includes the energy of random motion of the object's atoms and molecules, often referred to as thermal energy.

Related Access Points

Name	Description
SC.912.P.10.In.3:	Relate the transfer of heat to the states of matter, including gases result from heating, liquids result from cooling a gas, and solids result from further cooling a liquid.
SC.912.P.10.Su.3:	Observe and recognize ways that heat travels, such as through space (radiation), through solids (conduction), and through liquids and gases (convection).
SC.912.P.10.Pa.3:	Recognize the source and recipient of heat transfer.

Differentiate among the various forms of energy and recognize that they can be transformed from one form to others.

Remarks/Examples:

[SC.912.P.10.1:](#)

Differentiate between kinetic and potential energy. Recognize that energy cannot be created or destroyed, only transformed. Identify examples of transformation of energy: Heat to light in incandescent electric light bulbs Light to heat in laser drills Electrical to sound in radios Sound to electrical in microphones Electrical to chemical in battery rechargers Chemical to electrical in dry cells Mechanical to electrical in generators [power plants] Nuclear to heat in nuclear reactors Gravitational potential energy of a falling object is converted to kinetic energy then to heat and sound energy when the object hits the ground.

Related Access Points

Name	Description
SC.912.P.10.In.1:	Identify examples of energy being transformed from one form to another (conserved quantity).
SC.912.P.10.Su.1:	Recognize energy transformations that occur in everyday life, such as solar energy to electricity.
SC.912.P.10.Pa.1:	Observe and recognize examples of the transformation of electrical energy to light and heat.

Create and interpret potential energy diagrams, for example: chemical reactions, orbits around a central body, motion of a pendulum.

[SC.912.P.10.6:](#)

Remarks/Examples:

Construct and interpret potential energy diagrams for endothermic and exothermic chemical reactions, and for rising or falling objects. Describe the transformation of energy as a pendulum swings.

Related Access Points

Name	Description
SC.912.P.10.In.1:	Identify examples of energy being transformed from one form to another (conserved quantity).
SC.912.P.10.Su.1:	Recognize energy transformations that occur in everyday life, such as solar energy to electricity.
SC.912.P.10.Pa.4:	Identify materials that provide protection (insulation) from heat.

Explore the theory of electromagnetism by comparing and contrasting the different parts of the electromagnetic spectrum in terms of wavelength, frequency, and energy, and relate them to phenomena and applications.

[SC.912.P.10.18:](#)

Remarks/Examples:

Describe the electromagnetic spectrum (i.e., radio waves, microwaves, infrared, visible light, ultraviolet, X-rays and gamma rays) in terms of frequency, wavelength and energy. Solve problems involving wavelength, frequency, and energy.

Related Access Points

Name	Description
SC.912.P.10.In.9:	Identify common applications of electromagnetic waves moving through different media, such as radio waves, microwaves, x-rays, or infrared.
SC.912.P.10.Su.10:	Recognize examples of electromagnetic waves moving through different media, such as microwave ovens, radios, and x-rays.
SC.912.P.10.Pa.10:	Recognize primary and secondary colors in visible light.

Interpret the behavior of ideal gases in terms of kinetic molecular theory.

[SC.912.P.12.10:](#)

Remarks/Examples:

Using the kinetic molecular theory, explain the behavior of gases and the relationship between pressure and volume (Boyle's law), volume and temperature (Charles' s law), pressure and temperature (Gay-Lussac' s law), and number of particles in a gas sample (Avogadro' s hypothesis).

Related Access Points

Name	Description
SC.912.P.12.In.6:	Identify that gases exert pressure in a closed surface, such as pressure inside a basketball or a hot air balloon.
SC.912.P.12.Su.6:	Recognize that a gas can exert pressure, such as in balloons, car tires, or pool floats.
SC.912.P.12.Pa.6:	Recognize that some objects contain air, such as balloons, tires, and balls.

Describe phase transitions in terms of kinetic molecular theory.

[SC.912.P.12.11:](#)

Remarks/Examples:

Explain, at the molecular level, the behavior of matter as it undergoes phase transitions.

Explain how various factors, such as concentration, temperature, and presence of a catalyst affect the rate of a chemical reaction.

[SC.912.P.12.12:](#)

Remarks/Examples:

Various factors could include: temperature, pressure, solvent and/or solute concentration, sterics, surface area, and catalysts. The rate of reaction is determined by the activation energy, and the pathway of the reaction can be shorter in the presence of enzymes or catalysts. Examples may include: decomposition of hydrogen peroxide using manganese (IV) oxide nitration of benzene using concentrated sulfuric acid hydrogenation of a C=C double bond using nickel.

Explain the concept of dynamic equilibrium in terms of reversible processes occurring at the same rates.

[SC.912.P.12.13:](#)

Remarks/Examples:

Identify and explain the factors that affect the rate of dissolving (e.g., temperature, concentration, surface area, pressure, mixing). Explain that equilibrium is established when forward and reverse-reaction rates are equal.

Discuss the special properties of water that contribute to Earth's suitability as an environment for life: cohesive behavior, ability to moderate temperature, expansion upon freezing, and versatility as a solvent.

[SC.912.L.18.12:](#)

Remarks/Examples:

Annually assessed on Biology EOC.

Related Access Points

Name	Description
SC.912.L.18.In.7:	Identify that special properties of water, such as the ability to moderate temperature and dissolve substances, help to sustain living things on Earth.
SC.912.L.18.Su.6:	Identify the important role of water in sustaining life of plants and animals.
SC.912.L.18.Pa.5:	Recognize that plants and animals use water to live.

[MAFS.912.N-Q.1.1:](#)

Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.

[MAFS.912.N-Q.1.3:](#)

Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.3a:	Describe the accuracy of measurement when reporting quantities (you can lessen your limitations by measuring precisely).

[MAFS.912.F-IF.2.4:](#)

For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship. Key features include: intercepts; intervals where the function is increasing, decreasing, positive, or negative; relative maximums and minimums; symmetries; end behavior; and periodicity. ★

Related Access Points

Name	Description
MAFS.912.F-IF.2.AP.4a:	Recognize and interpret the key features of a function.
MAFS.912.F-IF.2.AP.4b:	Select the graph that matches the description of the relationship between two quantities in the function.

Graph functions expressed symbolically and show key features of the graph, by hand in simple cases and using technology for more complicated cases. ★

[MAFS.912.F-IF.3.7:](#)

- a. Graph linear and quadratic functions and show intercepts, maxima, and minima.
- b. Graph square root, cube root, and piecewise-defined functions, including step functions and absolute value functions.
- c. Graph polynomial functions, identifying zeros when suitable factorizations are available, and showing end behavior.
- d. Graph rational functions, identifying zeros and asymptotes when suitable factorizations are available, and showing end behavior.
- e. Graph exponential and logarithmic functions, showing intercepts and end behavior, and trigonometric functions, showing period, midline, and amplitude, and using phase shift.

Related Access Points

Name	Description
MAFS.912.F-IF.3.AP.7a:	Select a graph of a function that displays its symbolic representation (e.g., $f(x) = 3x + 5$).
MAFS.912.F-IF.3.AP.7b:	Locate the key features of linear and quadratic equations.

Represent data with plots on the real number line (dot plots, histograms, and box plots). ★

[MAFS.912.S-ID.1.1:](#)

Remarks/Examples:

In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.1a:	Complete a graph given the data, using dot plots, histograms or box plots.

Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★

[MAFS.912.S-ID.1.2:](#)

Remarks/Examples:

In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
------	-------------

MAFS.912.S-ID.1.AP.2a:	Describe a distribution using center and spread
MAFS.912.S-ID.1.AP.2b:	Use the correct measure of center and spread to describe a distribution that is symmetric or skewed.
MAFS.912.S-ID.1.AP.2c:	Identify outliers (extreme data points) and their effects on data sets.
MAFS.912.S-ID.1.AP.2d:	Compare two or more different data sets using the center and spread of each.

Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★

[MAFS.912.S-ID.1.3:](#)

Remarks/Examples:

In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.3a:	Use statistical vocabulary to describe the difference in shape, spread, outliers and the center (mean).

[MAFS.912.S-ID.1.4:](#)

Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★

Related Access Points

Name	Description
MAFS.912.S-ID.1.AP.4a:	Use descriptive stats like range, median, mode, mean and outliers/gaps to describe the data set.

[MAFS.912.S-ID.2.5:](#)

Summarize categorical data for two categories in two-way frequency tables. Interpret relative frequencies in the context of the data (including joint, marginal, and conditional relative frequencies). Recognize possible associations and trends in the data. ★

Related Access Points

Name	Description
MAFS.912.S-ID.2.AP.5a:	Recognize associations and trends in data from a two-way table.

Represent data on two quantitative variables on a scatter plot, and describe how the variables are related. ★

- Fit a function to the data; use functions fitted to data to solve problems in the context of the data. Use given functions or choose a function suggested by the context. Emphasize linear, and exponential models.
- Informally assess the fit of a function by plotting and analyzing residuals.
- Fit a linear function for a scatter plot that suggests a linear association.

[MAFS.912.S-ID.2.6:](#)

Remarks/Examples:

Students take a more sophisticated look at using a linear function to model the relationship between two numerical variables. In addition to fitting a line to data, students assess how well the model fits by analyzing residuals.

Related Access Points

Name	Description
MAFS.912.S-ID.2.AP.6a:	Create a scatter plot from two quantitative variables.
MAFS.912.S-ID.2.AP.6b:	Describe the form, strength, and direction of the relationship.
MAFS.912.S-ID.2.AP.6c:	Categorize data as linear or not.
MAFS.912.S-ID.2.AP.6d:	Use algebraic methods and technology to fit a linear function to the data.
MAFS.912.S-ID.2.AP.6e:	Use the function to predict values.
MAFS.912.S-ID.2.AP.6f:	Explain the meaning of the constant and coefficients in context.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

[LAFS.1112.SL.1.1:](#)

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.
- Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
- Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.1a:	Consider a full range of ideas or positions on a given topic or text when presented in a discussion.
LAFS.1112.SL.1.AP.1b:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1c:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1d:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.1112.SL.1.AP.1e:	Work with peers to promote democratic discussions.

[LAFS.1112.SL.1.AP.1f](#): Actively seek the ideas or opinions of others in a discussion on a given topic or text.

[LAFS.1112.SL.1.AP.1g](#): Engage appropriately in discussion with others who have a diverse or divergent perspectives.

[LAFS.1112.SL.1.2](#):

Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.2a	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.1112.SL.1.3](#):

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.3a	Determine the speaker's point of view or purpose in a text.
LAFS.1112.SL.1.AP.3b	Determine what arguments the speaker makes.
LAFS.1112.SL.1.AP.3c	Evaluate the evidence used to make the speaker's argument.
LAFS.1112.SL.1.AP.3d	Evaluate a speaker's point of view, reasoning, use of evidence and rhetoric for ideas, relationship between claims, reasoning, evidence and word choice.

[LAFS.1112.SL.2.4](#):

Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

Related Access Points

Name	Description
LAFS.1112.SL.2.AP.4a	Report orally on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.1112.SL.2.5](#):

Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

Related Access Points

Name	Description
LAFS.1112.SL.2.AP.5a	Include digital multimedia components and visual displays in presentations to clarify claims and findings and emphasize salient points.

[LAFS.1112.RST.1.1](#):

Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account.

[LAFS.1112.RST.1.2](#):

Determine the central ideas or conclusions of a text; summarize complex concepts, processes, or information presented in a text by paraphrasing them in simpler but still accurate terms.

[LAFS.1112.RST.1.3](#):

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks; analyze the specific results based on explanations in the text.

[LAFS.1112.RST.2.4](#):

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 11–12 texts and topics.

[LAFS.1112.RST.2.5](#):

Analyze how the text structures information or ideas into categories or hierarchies, demonstrating understanding of the information or ideas.

[LAFS.1112.RST.2.6](#):

Analyze the author's purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, identifying important issues that remain unresolved.

[LAFS.1112.RST.3.7](#):

Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.

[LAFS.1112.RST.3.8](#):

Evaluate the hypotheses, data, analysis, and conclusions in a science or technical text, verifying the data when possible and corroborating or challenging conclusions with other sources of information.

[LAFS.1112.RST.3.9](#):

Synthesize information from a range of sources (e.g., texts, experiments, simulations) into a coherent understanding of a process, phenomenon, or concept, resolving conflicting information when possible.

[LAFS.1112.RST.4.10](#):

By the end of grade 12, read and comprehend science/technical texts in the grades 11–12 text complexity band independently and proficiently.

Write arguments focused on discipline-specific content.

- Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.
- Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.1112.WHST.1.1](#):

Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

- Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other

	information and examples appropriate to the audience's knowledge of the topic.
LAFS.1112.WHST.1.2:	<ul style="list-style-type: none"> c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts. d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers. e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.XX.1:	English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Science.

There are more than 550 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12918>

This document was generated on CPALMS - www.cpalms.org

Course Number: 7920015	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Course may be taken for up to two credits	Abbreviated Title: ACCESS BIOLOGY 1
Course Type: Core	Course Length: Year (Y)
Course Status: Draft - Course Pending Approval	Class Size? Yes
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Science. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SC.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Laboratory investigations that include the use of scientific inquiry, research, measurement, problem solving, laboratory apparatus and technologies, experimental procedures, and safety procedures are an integral part of this course. The National Science Teachers Association (NSTA) recommends that at the high school level, all students should be in the science lab or field, collecting data every week. School laboratory investigations (labs) are defined by the National Research Council (NRC) as an experience in the laboratory, classroom, or the field that provides students with opportunities to interact directly with natural phenomena or with data collected by others using tools, materials, data collection techniques, and models (NRC, 2006, p. 3). Laboratory investigations in the high school classroom should help all students develop a growing understanding of the complexity and ambiguity of empirical work, as well as the skills to calibrate and troubleshoot equipment used to make observations. Learners should understand measurement error; and have the skills to aggregate, interpret, and present the resulting data (National Research Council, 2006, p.77; NSTA, 2007).

Course Standards

Name	Description
	<p>Define a problem based on a specific body of knowledge, for example: biology, chemistry, physics, and earth/space science, and do the following:</p> <ol style="list-style-type: none"> Pose questions about the natural world, (Articulate the purpose of the investigation and identify the relevant scientific concepts). Conduct systematic observations, (Write procedures that are clear and replicable. Identify observables and examine relationships between test (independent) variable and outcome (dependent) variable. Employ appropriate methods for accurate and consistent observations; conduct and record measurements at appropriate levels of precision. Follow safety guidelines). Examine books and other sources of information to see what is already known, Review what is known in light of empirical evidence, (Examine whether available empirical evidence can be interpreted in terms of existing knowledge and models, and if not, modify or develop new models). Plan investigations, (Design and evaluate a scientific investigation). Use tools to gather, analyze, and interpret data (this includes the use of measurement in metric and other systems, and also the generation and interpretation of graphical representations of data, including data tables and graphs), (Collect data or evidence in an organized way. Properly use instruments, equipment, and materials (e.g., scales, probeware, meter sticks, microscopes, computers) including set-up, calibration, technique, maintenance, and storage).

7. Pose answers, explanations, or descriptions of events,
8. Generate explanations that explicate or describe natural phenomena (inferences),
9. Use appropriate evidence and reasoning to justify these explanations to others,
10. Communicate results of scientific investigations, and
11. Evaluate the merits of the explanations produced by others.

Remarks/Examples:

Florida Standards Connections for 6-12 Literacy in Science
For Students in Grades 9-10

LAFS.910.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.

LAFS.910.RST.1.3 Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks attending to special cases or exceptions defined in the text.

LAFS.910.RST.3.7 Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

LAFS.910.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

LAFS.910.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.

For Students in Grades 11-12

LAFS.1112.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account.

LAFS.1112.RST.1.3 Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks analyze the specific results based on explanations in the text.

LAFS.1112.RST.3.7 Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.

LAFS.1112.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

LAFS.1112.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.

Florida Standards Connections for Mathematical Practices

- MAFS.K12.MP.1: Make sense of problems and persevere in solving them.
- MAFS.K12.MP.2: Reason abstractly and quantitatively.
- MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others. [Viable arguments include evidence.]
- MAFS.K12.MP.4: Model with mathematics.
- MAFS.K12.MP.5: Use appropriate tools strategically.
- MAFS.K12.MP.6: Attend to precision.
- MAFS.K12.MP.7: Look for and make use of structure.
- MAFS.K12.MP.8: Look for and express regularity in repeated reasoning.

[SC.912.N.1.1:](#)

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Recognize that the strength or usefulness of a scientific claim is evaluated through scientific argumentation, which depends on critical and logical thinking, and the active consideration of alternative scientific explanations to explain the data presented.

Remarks/Examples:

Assess the reliability of data and identify reasons for inconsistent results, such as sources of error or uncontrolled conditions.

Florida Standards Connections: MAFS.K12.MP.2: Reason abstractly and quantitatively MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others

[SC.912.N.1.3:](#)

Related Access Points

Name	Description
SC.912.N.1.In.2:	Describe the processes used in scientific investigations, including posing a research question, forming a hypothesis, reviewing what is known, collecting evidence, evaluating results, and reaching conclusions.
SC.912.N.1.Su.2:	Identify the basic process used in scientific investigations, including questioning, observing, recording, determining, and sharing results.
SC.912.N.1.Pa.2:	Recognize a process used in science to solve problems, such as observing, following procedures, and recognizing results.

Identify sources of information and assess their reliability according to the strict standards of scientific investigation.

[SC.912.N.1.4:](#)

Remarks/Examples:
Read, interpret, and examine the credibility and validity of scientific claims in different sources of information, such as scientific articles, advertisements, or media stories. Strict standards of science include controlled variables, sufficient sample size, replication of results, empirical and measurable evidence, and the concept of falsification.

Florida Standards Connections: [LAFS.910.RST.1.1](#) / [LAFS.1112.RST.1.1](#).

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Describe how scientific inferences are drawn from scientific observations and provide examples from the content being studied.

[SC.912.N.1.6:](#)

Remarks/Examples:
Collect data/evidence and use tables/graphs to draw conclusions and make inferences based on patterns or trends in the data.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them.

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Identify what is science, what clearly is not science, and what superficially resembles science (but fails to meet the criteria for science).

[SC.912.N.2.1:](#)

Remarks/Examples:
Science is the systematic and organized inquiry that is derived from observations and experimentation that can be verified or tested by further investigation to explain natural phenomena (e.g. Science is testable, pseudo-science is not science seeks falsifications, pseudo-science seeks confirmations.)

Related Access Points

Name	Description
SC.912.N.2.In.1:	Identify examples of investigations that involve science.
SC.912.N.2.Su.1:	Identify questions that can be answered by science.
SC.912.N.2.Pa.1:	Recognize an example of work by scientists.

Identify which questions can be answered through science and which questions are outside the boundaries of scientific investigation, such as questions addressed by other ways of knowing, such as art, philosophy, and religion.

[SC.912.N.2.2:](#)

Remarks/Examples:
Identify scientific questions that can be disproved by experimentation/testing. Recognize that pseudoscience is a claim, belief, or practice which is presented as scientific, but does not adhere to strict standards of science (e.g. controlled variables, sample size, replicability, empirical and measurable evidence, and the concept of falsification).

Florida Standards Connections: MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Related Access Points

Name	Description
SC.912.N.2.In.2:	Distinguish between questions that can be answered by science and observable information and questions that can't be answered by science and observable information.
SC.912.N.2.Su.1:	Identify questions that can be answered by science.
SC.912.N.2.Pa.1:	Recognize an example of work by scientists.

Explain that a scientific theory is the culmination of many scientific investigations drawing together all the current evidence concerning a substantial range of phenomena; thus, a scientific theory represents the most powerful explanation scientists have to offer.

[SC.912.N.3.1:](#)

Remarks/Examples:

Explain that a scientific theory is a well-tested hypothesis supported by a preponderance of empirical evidence.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them and, MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Related Access Points

Name	Description
SC.912.N.3.In.1:	Recognize that a scientific theory is developed by repeated investigations of many scientists and agreement on the likely explanation.
SC.912.N.3.Su.1:	Recognize that scientific theories are supported by evidence and agreement of many scientists.
SC.912.N.3.Pa.1:	Recognize examples of cause-effect descriptions or explanations related to science.

Recognize that theories do not become laws, nor do laws become theories; theories are well supported explanations and laws are well supported descriptions.

[SC.912.N.3.4:](#)

Remarks/Examples:

Recognize that theories do not become laws, theories explain laws. Recognize that not all scientific laws have accompanying explanatory theories.

Related Access Points

Name	Description
SC.912.N.3.In.1:	Recognize that a scientific theory is developed by repeated investigations of many scientists and agreement on the likely explanation.
SC.912.N.3.In.2:	Identify examples of scientific laws that describe relationships in the natural world, such as Newton's laws.
SC.912.N.3.Su.1:	Recognize that scientific theories are supported by evidence and agreement of many scientists.
SC.912.N.3.Su.2:	Recognize examples of scientific laws that describe relationships in nature, such as Newton's laws.
SC.912.N.3.Pa.1:	Recognize examples of cause-effect descriptions or explanations related to science.

Analyze the movement of matter and energy through the different biogeochemical cycles, including water and carbon.

[SC.912.E.7.1:](#)

Remarks/Examples:

Describe that the Earth system contains fixed amounts of each stable chemical element and that each element moves among reservoirs in the solid earth, oceans, atmosphere and living organisms as part of biogeochemical cycles (i.e., nitrogen, water, carbon, oxygen and phosphorus), which are driven by energy from within the Earth and from the Sun.

Related Access Points

Name	Description
SC.912.E.7.In.1:	Identify cycles that occur on Earth, such as the water and carbon cycles, and the role energy plays in them.
SC.912.E.7.Su.1:	Recognize the phases of the water cycle that occur on Earth and the role energy plays in the water cycle.
SC.912.E.7.Pa.1:	Recognize that clouds release rain (part of the water cycle).

[SC.912.L.14.4:](#)

Compare and contrast structure and function of various types of microscopes.

Describe the scientific theory of cells (cell theory) and relate the history of its discovery to the process of science.

[SC.912.L.14.1:](#)

Remarks/Examples:

Describe how continuous investigations and/or new scientific information influenced the development of the cell theory. Recognize the contributions of scientists in the development of the cell theory.

Related Access Points

Name	Description
SC.912.L.14.In.1:	Identify that all living things are made of cells and cells function in similar ways (cell theory).
SC.912.L.14.Su.1:	Identify that the cell is the smallest basic unit of life and that all living things are made of cells.
SC.912.L.14.Pa.1:	Match parts of common living things to their functions.

[SC.912.L.14.2:](#)

Relate structure to function for the components of plant and animal cells. Explain the role of cell membranes as a highly selective barrier (passive and active transport).

Related Access Points

Name	Description
SC.912.L.14.In.2:	Identify the major parts of plant and animal cells, including the cell membrane, nucleus, and cytoplasm, and their basic functions.
SC.912.L.14.Su.2:	Recognize that cells have different parts and each has a function.
SC.912.L.14.Pa.1:	Match parts of common living things to their functions.

Compare and contrast the general structures of plant and animal cells. Compare and contrast the general structures of prokaryotic and eukaryotic cells.

[SC.912.L.14.3:](#)

Remarks/Examples:

Annually Assessed on Biology EOC. Also assesses [SC.912.L.14.2](#).

Related Access Points

Name	Description
SC.912.L.14.In.2:	Identify the major parts of plant and animal cells, including the cell membrane, nucleus, and cytoplasm, and their basic functions.
SC.912.L.14.Su.2:	Recognize that cells have different parts and each has a function.
SC.912.L.14.Pa.1:	Match parts of common living things to their functions.

[SC.912.L.14.6:](#)

Explain the significance of genetic factors, environmental factors, and pathogenic agents to health from the perspectives of both individual and public health.

Related Access Points

Name	Description
SC.912.L.14.In.4:	Describe common human health issues.
SC.912.L.14.Su.3:	Recognize common human health issues.
SC.912.L.14.Pa.3:	Identify ways to prevent infection from bacteria and viruses, such as hand washing and first aid.

Relate the structure of each of the major plant organs and tissues to physiological processes.

[SC.912.L.14.7:](#)

Remarks/Examples:
Annually Assessed on Biology EOC.

Related Access Points

Name	Description
SC.912.L.14.In.5:	Describe the general processes of food production, support, water transport, and reproduction in the major parts of plants.
SC.912.L.14.Su.4:	Relate parts of plants, such as leaf, stem, root, seed, and flower, to the functions of food production, support, water transport, and reproduction.
SC.912.L.14.Pa.4:	Recognize major plant parts, such as root, stem, leaf, and flower.

Identify the major parts of the brain on diagrams or models.

[SC.912.L.14.26:](#)

Remarks/Examples:
Annually Assessed on Biology EOC.
Florida Standards Connections: MAFS.K12.MP.4: [Model](#) with mathematics.

[SC.912.L.14.36:](#)

Describe the factors affecting blood flow through the cardiovascular system.

Explain the basic functions of the human immune system, including specific and nonspecific immune response, vaccines, and antibiotics.

[SC.912.L.14.52:](#)

Remarks/Examples:
Annually Assessed on Biology EOC. Also assesses [SC.912.L.14.6](#) [HE.912.C.1.7](#) and [HE.912.C.1.5](#).

Explain how the scientific theory of evolution is supported by the fossil record, comparative anatomy, comparative embryology, biogeography, molecular biology, and observed evolutionary change.

[SC.912.L.15.1:](#)

Remarks/Examples:
Annually Assessed on Biology EOC. Also assesses [SC.912.L.15.10](#) [SC.912.N.1.3](#) [SC.912.N.1.4](#) [SC.912.N.1.6](#) [SC.912.N.2.1](#) [SC.912.N.3.1](#) and [SC.912.N.3.4](#).

Related Access Points

Name	Description
SC.912.L.15.In.1:	Identify that prehistoric plants and animals changed over time (evolved) or became extinct.
SC.912.L.15.Su.1:	Match fossils to related species.
SC.912.L.15.Pa.1:	Recognize that plants and animals change as they age.

[SC.912.L.15.4:](#)

Describe how and why organisms are hierarchically classified and based on evolutionary relationships.

Related Access Points

Name	Description
SC.912.L.15.In.2:	Classify living organisms into their kingdoms.
SC.912.L.15.Su.2:	Match organisms to the animal, plant, and fungus kingdoms.
SC.912.L.15.Pa.2:	Sort common living things into plant and animal kingdoms.

[SC.912.L.15.5:](#)

Explain the reasons for changes in how organisms are classified.

Discuss distinguishing characteristics of the domains and kingdoms of living organisms.

[SC.912.L.15.6:](#)

Remarks/Examples:
Annually Assessed on Biology EOC. Also assesses [SC.912.L.15.4](#) [SC.912.L.15.5](#) [SC.912.N.1.3](#) and [SC.912.N.1.6](#).

Related Access Points

Name	Description
SC.912.L.15.In.2:	Classify living organisms into their kingdoms.
SC.912.L.15.Su.2:	Match organisms to the animal, plant, and fungus kingdoms.

[SC.912.L.15.Pa.2:](#)

Sort common living things into plant and animal kingdoms.

Describe the scientific explanations of the origin of life on Earth.

[SC.912.L.15.8:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.N.1.3](#), [SC.912.N.1.4](#), and [SC.912.N.2.1](#).

Related Access Points

Name	Description
SC.912.L.15.In.3:	Identify that there are scientific explanations of the origin of life on Earth.
SC.912.L.15.Su.3:	Recognize that there are scientific explanations of how life began.
SC.912.L.15.Pa.1:	Recognize that plants and animals change as they age.

[SC.912.L.15.10:](#)

Identify basic trends in hominid evolution from early ancestors six million years ago to modern humans, including brain size, jaw size, language, and manufacture of tools.

Related Access Points

Name	Description
SC.912.L.15.In.4:	Recognize ways that the appearance of humans, their language, and their tools have changed over time.
SC.912.L.15.Su.4:	Recognize that humans have changed in appearance over a very long period of time.
SC.912.L.15.Pa.1:	Recognize that plants and animals change as they age.

Describe the conditions required for natural selection, including: overproduction of offspring, inherited variation, and the struggle to survive, which result in differential reproductive success.

[SC.912.L.15.13:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.15.14](#), [SC.912.L.15.15](#), and [SC.912.N.1.3](#).

Related Access Points

Name	Description
SC.912.L.15.In.5:	Recognize that some living things produce very large numbers of offspring to ensure that enough survive to continue the species (a condition for natural selection).
SC.912.L.15.Su.5:	Recognize that some living things, such as fish and turtles, produce very large numbers of offspring because most will die as a result of dangers in the environment before they grow up.
SC.912.L.15.Pa.3:	Recognize that animals produce offspring.

[SC.912.L.15.14:](#)

Discuss mechanisms of evolutionary change other than natural selection such as genetic drift and gene flow.

Related Access Points

Name	Description
SC.912.L.15.In.1:	Identify that prehistoric plants and animals changed over time (evolved) or became extinct.
SC.912.L.15.Su.1:	Match fossils to related species.
SC.912.L.15.Pa.1:	Recognize that plants and animals change as they age.

[SC.912.L.15.15:](#)

Describe how mutation and genetic recombination increase genetic variation.

Related Access Points

Name	Description
SC.912.L.15.Su.6:	Recognize that characteristics of the offspring of living things are sometimes different from their parents.
SC.912.L.15.Pa.4:	Recognize differences in physical characteristics within a species of animals, such as different types of dogs.

Use Mendel's laws of segregation and independent assortment to analyze patterns of inheritance.

[SC.912.L.16.1:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.16.2](#).

Related Access Points

Name	Description
SC.912.L.16.In.1:	Identify that genes are sets of instructions that determine which characteristics are passed from parent to offspring.
SC.912.L.16.Su.1:	Recognize characteristics (traits) that offspring inherit from parents.
SC.912.L.16.Pa.1:	Recognize similar characteristics (traits) between a child and parents, such as hair, eye, and skin color, or height.

[SC.912.L.16.2:](#)

Discuss observed inheritance patterns caused by various modes of inheritance, including dominant, recessive, codominant, sex-linked, polygenic, and multiple alleles.

Related Access Points

Name	Description
SC.912.L.16.In.2:	Identify traits that plants and animals, including humans, inherit.

[SC.912.L.16.Su.1:](#) Recognize characteristics (traits) that offspring inherit from parents.

[SC.912.L.16.Pa.1:](#) Recognize similar characteristics (traits) between a child and parents, such as hair, eye, and skin color, or height.

[SC.912.L.16.9:](#) Explain how and why the genetic code is universal and is common to almost all organisms.

Related Access Points

Name	Description
SC.912.L.16.In.3:	Recognize that a substance called DNA carries genetic information in all organisms, and changes (mutations) in DNA can be helpful or harmful to an organism.
SC.912.L.16.Su.2:	Recognize that all organisms have a substance called DNA with unique information.
SC.912.L.16.Pa.2:	Recognize similarities in characteristics of plants and animals of the same type (species).

Describe the basic process of DNA replication and how it relates to the transmission and conservation of the genetic information.

Remarks/Examples:

Integrate [HE.912.C.1.7](#). Analyze how [heredity](#) and family history can impact personal health. Annually assessed on Biology EOC. Also assesses [SC.912.L.16.4](#) [SC.912.L.16.5](#) [SC.912.L.16.9](#).

[SC.912.L.16.3:](#)

Related Access Points

Name	Description
SC.912.L.16.In.3:	Recognize that a substance called DNA carries genetic information in all organisms, and changes (mutations) in DNA can be helpful or harmful to an organism.
SC.912.L.16.Su.2:	Recognize that all organisms have a substance called DNA with unique information.
SC.912.L.16.Pa.2:	Recognize similarities in characteristics of plants and animals of the same type (species).

[SC.912.L.16.4:](#) Explain how mutations in the DNA sequence may or may not result in phenotypic change. Explain how mutations in gametes may result in phenotypic changes in offspring.

Related Access Points

Name	Description
SC.912.L.16.In.3:	Recognize that a substance called DNA carries genetic information in all organisms, and changes (mutations) in DNA can be helpful or harmful to an organism.
SC.912.L.16.Su.2:	Recognize that all organisms have a substance called DNA with unique information.
SC.912.L.16.Pa.2:	Recognize similarities in characteristics of plants and animals of the same type (species).

[SC.912.L.16.5:](#) Explain the basic processes of transcription and translation, and how they result in the expression of genes.

Related Access Points

Name	Description
SC.912.L.16.In.3:	Recognize that a substance called DNA carries genetic information in all organisms, and changes (mutations) in DNA can be helpful or harmful to an organism.
SC.912.L.16.Su.2:	Recognize that all organisms have a substance called DNA with unique information.
SC.912.L.16.Pa.2:	Recognize similarities in characteristics of plants and animals of the same type (species).

Explain the relationship between mutation, cell cycle, and uncontrolled cell growth potentially resulting in cancer.

[SC.912.L.16.8:](#)

Remarks/Examples:

Integrate [HE.912.C.1.7](#). Analyze how [heredity](#) and family history can impact personal health.

Related Access Points

Name	Description
SC.912.L.16.In.4:	Identify that cancer can result when cells change or grow uncontrollably.
SC.912.L.16.Su.3:	Recognize that cancer may result when cells change or grow too fast.
SC.912.L.16.Pa.3:	Recognize that illness can result when parts of our bodies are not working properly.

Evaluate the impact of biotechnology on the individual, society and the environment, including medical and ethical issues.

[SC.912.L.16.10:](#)

Remarks/Examples:

Annually assessed on Biology EOC.

Related Access Points

Name	Description
SC.912.L.16.In.5:	Identify ways that biotechnology has impacted society and the environment, such as the development of new medicines and farming techniques.
SC.912.L.16.Su.4:	Recognize that new medicines and foods can be developed by science (biotechnology).
SC.912.L.16.Pa.4:	Recognize a food.

Describe the basic anatomy and physiology of the human reproductive system. Describe the process of human development from fertilization to birth and major changes that occur in each trimester of pregnancy.

[SC.912.L.16.13:](#)

Remarks/Examples:

Annually assessed on Biology EOC.

Related Access Points

Name	Description
SC.912.L.16.In.6:	Describe the basic process of human development from fertilization to birth.
SC.912.L.16.Su.5:	Recognize major phases in the process of human development from fertilization to birth.
SC.912.L.16.Pa.5:	Recognize the sequence of human development from baby to child to adult.

[SC.912.L.16.14:](#)

Describe the cell cycle, including the process of mitosis. Explain the role of mitosis in the formation of new cells and its importance in maintaining chromosome number during asexual reproduction.

Related Access Points

Name	Description
SC.912.L.16.In.7:	Recognize that cells reproduce by dividing to produce new cells that are identical (mitosis) or new cells that are different (meiosis).
SC.912.L.16.Su.6:	Recognize that cells reproduce by dividing.
SC.912.L.16.Pa.6:	Recognize that living things produce offspring (reproduce).

[SC.912.L.16.16:](#)

Describe the process of meiosis, including independent assortment and crossing over. Explain how reduction division results in the formation of haploid gametes or spores.

Related Access Points

Name	Description
SC.912.L.16.In.7:	Recognize that cells reproduce by dividing to produce new cells that are identical (mitosis) or new cells that are different (meiosis).
SC.912.L.16.Su.6:	Recognize that cells reproduce by dividing.
SC.912.L.16.Pa.6:	Recognize that living things produce offspring (reproduce).

Compare and contrast mitosis and meiosis and relate to the processes of sexual and asexual reproduction and their consequences for genetic variation.

[SC.912.L.16.17:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.16.8](#) [SC.912.L.16.14](#) [SC.912.L.16.16](#).

Related Access Points

Name	Description
SC.912.L.16.Su.6:	Recognize that cells reproduce by dividing.
SC.912.L.16.Pa.6:	Recognize that living things produce offspring (reproduce).

[SC.912.L.17.2:](#)

Explain the general distribution of life in aquatic systems as a function of chemistry, geography, light, depth, salinity, and temperature.

Related Access Points

Name	Description
SC.912.L.17.In.1:	Recognize that living things in oceans and fresh water are affected by the location, availability of light, depth of the water, and temperature.
SC.912.L.17.Su.1:	Recognize that living things in bodies of water are affected by the location and depth of the water.
SC.912.L.17.Pa.1:	Recognize common living things in bodies of water.

[SC.912.L.17.4:](#)

Describe changes in ecosystems resulting from seasonal variations, climate change and succession.

Related Access Points

Name	Description
SC.912.L.17.In.2:	Identify that living things in an ecosystem are affected by changes in the environment, such as changes to the food supply, climate change, or the introduction of predators.
SC.912.L.17.Su.2:	Recognize how animals and plants in an ecosystem may be affected by changes to the food supply or climate.
SC.912.L.17.Pa.2:	Recognize what happens to plants and animals when they don't get enough food or water.

[SC.912.L.17.5:](#)

Analyze how population size is determined by births, deaths, immigration, emigration, and limiting factors (biotic and abiotic) that determine carrying capacity.

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.17.2](#) [SC.912.L.17.4](#) [SC.912.L.17.8](#) [SC.912.N.1.4](#).

Related Access Points

Name	Description
SC.912.L.17.In.2:	Identify that living things in an ecosystem are affected by changes in the environment, such as changes to the food supply, climate change, or the introduction of predators.
SC.912.L.17.Su.2:	Recognize how animals and plants in an ecosystem may be affected by changes to the food supply or climate.
SC.912.L.17.Pa.2:	Recognize what happens to plants and animals when they don't get enough food or water.

[SC.912.L.17.8:](#)

Recognize the consequences of the losses of biodiversity due to catastrophic events, climate changes, human activity, and the introduction of invasive, non-native species.

Related Access Points

Name	Description
SC.912.L.17.In.4:	Recognize possible changes in an ecosystem (biodiversity) that can result from natural catastrophic events, changes in climate, and human activity.
SC.912.L.17.Su.4:	Recognize changes in living things (biodiversity) that can result from natural catastrophic events and human activity.
SC.912.L.17.Pa.4:	Recognize actions that are harmful to living things.

Use a food web to identify and distinguish producers, consumers, and decomposers. Explain the pathway of energy transfer through trophic levels and the reduction of available energy at successive trophic levels.

[SC.912.L.17.9:](#)

Remarks/Examples:
Annually assessed on Biology EOC. Also assesses [SC.912.E.7.1](#).

Related Access Points

Name	Description
SC.912.L.17.In.5:	Identify the components of a food web, including sunlight, producers, consumers, and decomposers, and trace the flow of energy from the Sun.
SC.912.L.17.Su.5:	Identify producers, consumers, and decomposers in a simple food chain.
SC.912.L.17.Pa.5:	Recognize that animals (consumers) eat animals and plants for food.

[SC.912.L.17.11:](#)

Evaluate the costs and benefits of renewable and nonrenewable resources, such as water, energy, fossil fuels, wildlife, and forests.

Related Access Points

Name	Description
SC.912.L.17.In.7:	Identify types of renewable and nonrenewable natural resources and explain the need for conservation.
SC.912.L.17.Su.7:	Identify a way to conserve a familiar, nonrenewable, natural resource.
SC.912.L.17.Pa.6:	Recognize the importance of clean water for living things.

[SC.912.L.17.13:](#)

Discuss the need for adequate monitoring of environmental parameters when making policy decisions.

Predict the impact of individuals on environmental systems and examine how human lifestyles affect sustainability.

[SC.912.L.17.20:](#)

Remarks/Examples:
Annually assessed on Biology EOC. Also assesses [SC.912.L.17.11](#), [SC.912.L.17.13](#), [SC.912.N.1.3](#).

Related Access Points

Name	Description
SC.912.L.17.In.8:	Describe ways the lifestyles of individuals and groups can help or hurt the environment.
SC.912.L.17.Su.8:	Identify ways individuals can help the environment.
SC.912.L.17.Pa.7:	Recognize a way to help the local environment.

Describe the basic molecular structures and primary functions of the four major categories of biological macromolecules.

[SC.912.L.18.1:](#)

Remarks/Examples:
Annually assessed on Biology EOC. Also assesses [SC.912.L.18.11](#).

Related Access Points

Name	Description
SC.912.L.18.In.1:	Identify that carbohydrates, fats, proteins, and nucleic acids (macromolecules) are important for human organisms.
SC.912.L.18.Su.1:	Recognize that humans use proteins, carbohydrates, and fats.
SC.912.L.18.Pa.1:	Recognize that humans need different kinds of food.

[SC.912.L.18.7:](#)

Identify the reactants, products, and basic functions of photosynthesis.

Related Access Points

Name	Description
SC.912.L.18.In.2:	Identify the products and function of photosynthesis.
SC.912.L.18.Su.2:	Recognize that the function of photosynthesis is to produce food for plants.
SC.912.L.18.Pa.2:	Recognize that plants need water, light, and air to grow.

[SC.912.L.18.8:](#)

Identify the reactants, products, and basic functions of aerobic and anaerobic cellular respiration.

Related Access Points

Name	Description
SC.912.L.18.In.3:	Identify that cells release energy from food so the organism can use it (cellular respiration).
SC.912.L.18.Su.3:	Recognize that cells get energy from food.

[SC.912.L.18.Pa.3:](#) Identify that food is a source of energy.

Explain the interrelated nature of photosynthesis and cellular respiration.

[SC.912.L.18.9:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.18.7](#) [SC.912.L.18.8](#) [SC.912.L.18.10](#).

Related Access Points

Name	Description
SC.912.L.18.In.4:	Recognize that plants give off oxygen that is used by animals and animals give off carbon dioxide that is used by plants.
SC.912.L.18.Su.4:	Recognize that people and animals breathe in the oxygen that plants give off.
SC.912.L.18.Pa.2:	Recognize that plants need water, light, and air to grow.

[SC.912.L.18.10:](#)

Connect the role of adenosine triphosphate (ATP) to energy transfers within a cell.

Related Access Points

Name	Description
SC.912.L.18.In.5:	Recognize that energy is stored in cells.
SC.912.L.18.Su.3:	Recognize that cells get energy from food.
SC.912.L.18.Pa.3:	Identify that food is a source of energy.

[SC.912.L.18.11:](#)

Explain the role of enzymes as catalysts that lower the activation energy of biochemical reactions. Identify factors, such as pH and temperature, and their effect on enzyme activity.

Related Access Points

Name	Description
SC.912.L.18.In.6:	Recognize that enzymes break down food molecules during the digestive process.
SC.912.L.18.Su.5:	Recognize that food is broken down in digestion (use of enzymes).
SC.912.L.18.Pa.4:	Recognize that saliva helps people eat when they chew.

[SC.912.L.18.12:](#)

Discuss the special properties of water that contribute to Earth's suitability as an environment for life: cohesive behavior, ability to moderate temperature, expansion upon freezing, and versatility as a solvent.

Remarks/Examples:

Annually assessed on Biology EOC.

Related Access Points

Name	Description
SC.912.L.18.In.7:	Identify that special properties of water, such as the ability to moderate temperature and dissolve substances, help to sustain living things on Earth.
SC.912.L.18.Su.6:	Identify the important role of water in sustaining life of plants and animals.
SC.912.L.18.Pa.5:	Recognize that plants and animals use water to live.

[HE.912.C.1.3:](#)

Evaluate how environment and personal health are interrelated.

Remarks/Examples:

Some examples may include food options within a community, prenatal care services, availability of recreational facilities.

Related Access Points

Name	Description
HE.912.C.1.In.c:	Explain how environment and personal health are interrelated, such as food options within a community and availability of recreational facilities.
HE.912.C.1.Su.c:	Identify ways selected environmental factors can affect personal health, such as food options within a community and availability of recreational facilities.
HE.912.C.1.Pa.c:	Recognize environmental factors and related personal health behaviors, such as having recreational facilities available and increased physical activity.

[MAFS.912.N-Q.1.1:](#)

Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.

[MAFS.912.N-Q.1.3:](#)

Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.3a:	Describe the accuracy of measurement when reporting quantities (you can lessen your limitations by measuring precisely).

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.1:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker’s point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker’s point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.SL.2.5:](#)

Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.5a:	Include multimedia components and visual displays in presentations to clarify claims and findings and emphasize salient points.

[LAFS.910.RST.1.1:](#)

Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.

[LAFS.910.RST.1.2:](#)

Determine the central ideas or conclusions of a text; trace the text’s explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text.

[LAFS.910.RST.1.3:](#)

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.2.4:](#)

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.2.5:](#)

Analyze the structure of the relationships among concepts in a text, including relationships among key terms (e.g., force, friction, reaction force, energy).

[LAFS.910.RST.2.6:](#)

Analyze the author’s purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, defining the question the author seeks to address.

[LAFS.910.RST.3.7:](#)

Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

LAFS.910.RST.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claim or a recommendation for solving a scientific or technical problem.
LAFS.910.RST.3.9:	Compare and contrast findings presented in a text to those from other sources (including their own experiments), noting when the findings support or contradict previous explanations or accounts.
LAFS.910.RST.4.10:	By the end of grade 10, read and comprehend science/technical texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.WHST.1.1:	Write arguments focused on discipline-specific content. <ul style="list-style-type: none"> a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

HE.912.C.1.3:	Evaluate how environment and personal health are interrelated. Remarks/Examples: Food options within a community; prenatal-care services; availability of recreational facilities; air quality; weather-safety awareness; and weather, air, and water conditions.
-------------------------------	--

Related Access Points

Name	Description
HE.912.C.1.In.c:	Explain how environment and personal health are interrelated, such as food options within a community and availability of recreational facilities.
HE.912.C.1.Su.c:	Identify ways selected environmental factors can affect personal health, such as food options within a community and availability of recreational facilities.
HE.912.C.1.Pa.c:	Recognize environmental factors and related personal health behaviors, such as having recreational facilities available and increased physical activity.

HE.912.C.1.5:	Analyze strategies for prevention, detection, and treatment of communicable and chronic diseases. Remarks/Examples: Health prevention, detection, and treatment of: breast and testicular cancer, suicide, obesity, and industrial-related chronic disease.
-------------------------------	--

Related Access Points

Name	Description
HE.912.C.1.In.e:	Describe strategies for prevention, detection, and treatment of common communicable and chronic diseases, such as preventing and treating obesity, early detection of cancer, and getting adequate physical exercise to help prevent diabetes and heart disease.
HE.912.C.1.Su.e:	Identify common strategies for prevention, detection, and treatment of common communicable and chronic diseases, such as preventing and treating obesity, early detection of cancer, and getting adequate physical exercise to help prevent diabetes and heart disease.
HE.912.C.1.Pa.e:	Recognize selected strategies for prevention of common communicable diseases, such as sanitization, avoiding direct contact with infection, and proper disposal of hygiene products.

Analyze how heredity and family history can impact personal health.

[HE.912.C.1.7:](#)

Remarks/Examples:

Drug use, family obesity, heart disease, mental health, and non-communicable illness or disease.

Related Access Points

Name	Description
HE.912.C.1.In.g:	Explain how heredity and family history can impact personal health, such as drug use, family obesity, heart disease, and mental health.
HE.912.C.1.Su.g:	Describe ways personal health can be affected by heredity and family history, such as drug use, family obesity, heart disease, and mental health.
HE.912.C.1.Pa.g:	Recognize ways personal health can be affected by heredity or family history, such as drug use, family obesity, heart disease, and mental health.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.XX.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Science.

There are more than 751 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12919>

Access Earth/Space Science (#7920020)

{ [Earth/Space Science - 2001310](#) }

This document was generated on CPALMS - www.cpalms.org

Course Number: 7920020	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Course may be taken for up to two credits	Abbreviated Title: ACCESS E/S SCI
Course Type: Core	Course Length: Year (Y)
Course Status: Draft - Course Pending Approval	Class Size? Yes
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Science. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SC.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Laboratory investigations that include the use of scientific inquiry, research, measurement, problem solving, laboratory apparatus and technologies, experimental procedures, and safety procedures are an integral part of this course. The National Science Teachers Association (NSTA) recommends that at the high school level, all students should be in the science lab or field, collecting data every week. School laboratory investigations (labs) are defined by the National Research Council (NRC) as an experience in the laboratory, classroom, or the field that provides students with opportunities to interact directly with natural phenomena or with data collected by others using tools, materials, data collection techniques, and models (NRC, 2006, p. 3). Laboratory investigations in the high school classroom should help all students develop a growing understanding of the complexity and ambiguity of empirical work, as well as the skills to calibrate and troubleshoot equipment used to make observations. Learners should understand measurement error; and have the skills to aggregate, interpret, and present the resulting data (National Research Council, 2006, p.77; NSTA, 2007).

Course Standards

Name	Description
	<p>Define a problem based on a specific body of knowledge, for example: biology, chemistry, physics, and earth/space science, and do the following:</p> <ol style="list-style-type: none"> 1. Pose questions about the natural world, (Articulate the purpose of the investigation and identify the relevant scientific concepts). 2. Conduct systematic observations, (Write procedures that are clear and replicable. Identify observables and examine relationships between test (independent) variable and outcome (dependent) variable. Employ appropriate methods for accurate and consistent observations; conduct and record measurements at appropriate levels of precision. Follow safety guidelines). 3. Examine books and other sources of information to see what is already known, 4. Review what is known in light of empirical evidence, (Examine whether available empirical evidence can be interpreted in terms of existing knowledge and models, and if not, modify or develop new models). 5. Plan investigations, (Design and evaluate a scientific investigation). 6. Use tools to gather, analyze, and interpret data (this includes the use of measurement in metric and other systems, and also the generation and interpretation of graphical representations of data, including data tables and graphs), (Collect data or evidence in an

organized way. Properly use instruments, equipment, and materials (e.g., scales, probeware, meter sticks, microscopes, computers) including set-up, calibration, technique, maintenance, and storage).

7. Pose answers, explanations, or descriptions of events,
8. Generate explanations that explicate or describe natural phenomena (inferences),
9. Use appropriate evidence and reasoning to justify these explanations to others,
10. Communicate results of scientific investigations, and
11. Evaluate the merits of the explanations produced by others.

[SC.912.N.1.1:](#)

<p>Remarks/Examples:</p> <p>Florida Standards Connections for 6-12 Literacy in Science For Students in Grades 9-10</p> <p>LAFS.910.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.</p> <p>LAFS.910.RST.1.3 Follow precisely a complex multistep procedure when carrying out <u>experiments</u>, taking measurements, or performing technical tasks attending to special cases or exceptions defined in the text.</p> <p>LAFS.910.RST.3.7 Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.</p> <p>LAFS.910.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ <u>experiments</u>, or technical processes.</p> <p>LAFS.910.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.</p> <p>For Students in Grades 11-12</p> <p>LAFS.1112.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account.</p> <p>LAFS.1112.RST.1.3 Follow precisely a complex multistep procedure when carrying out <u>experiments</u>, taking measurements, or performing technical tasks analyze the specific results based on explanations in the text.</p> <p>LAFS.1112.RST.3.7 Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.</p> <p>LAFS.1112.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ <u>experiments</u>, or technical processes.</p> <p>LAFS.1112.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.</p> <p>Florida Standards Connections for Mathematical Practices</p> <p>MAFS.K12.MP.1: Make sense of problems and persevere in solving them. MAFS.K12.MP.2: Reason abstractly and quantitatively. MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others. [Viable arguments include evidence.] MAFS.K12.MP.4: <u>Model</u> with mathematics. MAFS.K12.MP.5: Use appropriate tools strategically. MAFS.K12.MP.6: Attend to precision. MAFS.K12.MP.7: Look for and make use of structure. MAFS.K12.MP.8: Look for and express regularity in repeated reasoning.</p>
--

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Identify sources of information and assess their reliability according to the strict standards of scientific investigation.

[SC.912.N.1.4:](#)

<p>Remarks/Examples:</p> <p>Read, interpret, and examine the credibility and validity of scientific claims in different sources of information, such as scientific articles, advertisements, or media stories. Strict standards of science include controlled <u>variables</u>, sufficient sample size, replication of results, empirical and measurable evidence, and the concept of falsification.</p> <p>Florida Standards Connections: LAFS.910.RST.1.1 / LAFS.1112.RST.1.1.</p>

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and

observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.

Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.

Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Describe and provide examples of how similar investigations conducted in many parts of the world result in the same outcome.

SC.912.N.1.5:

Remarks/Examples:

Recognize that contributions to science can be made and have been made by people from all over the world.

Related Access Points

Name	Description
SC.912.N.1.In.3:	Identify that scientific investigations are sometimes repeated in different locations.
SC.912.N.1.Su.3:	Recognize that scientific investigations can be repeated in different locations.
SC.912.N.1.Pa.3:	Recognize that when a variety of common activities are repeated the same way, the outcomes are the same.

Describe how scientific inferences are drawn from scientific observations and provide examples from the content being studied.

SC.912.N.1.6:

Remarks/Examples:

Collect data/evidence and use tables/graphs to draw conclusions and make inferences based on patterns or trends in the data.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them.

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Explain that scientific knowledge is both durable and robust and open to change. Scientific knowledge can change because it is often examined and re-examined by new investigations and scientific argumentation. Because of these frequent examinations, scientific knowledge becomes stronger, leading to its durability.

SC.912.N.2.4:

Remarks/Examples:

Recognize that ideas with the most durable explanatory power become established theories, but scientific explanations are continually subjected to change in the face of new evidence.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Related Access Points

Name	Description
SC.912.N.2.In.3:	Recognize that scientific knowledge can be challenged or confirmed by new investigations and reexamination.
SC.912.N.2.Su.2:	Recognize that what is known about science can change based on new information.
SC.912.N.2.Pa.2:	Recognize a variety of cause-effect relationships related to science.

Describe instances in which scientists' varied backgrounds, talents, interests, and goals influence the inferences and thus the explanations that they make about observations of natural phenomena and describe that competing interpretations (explanations) of scientists are a strength of science as they are a source of new, testable ideas that have the potential to add new evidence to support one or another of the explanations.

SC.912.N.2.5:

Remarks/Examples:

Recognize that scientific questions, observations, and conclusions may be influenced by the existing state of scientific knowledge, the social and cultural context of the researcher, and the observer's experiences and expectations. Identify possible bias in qualitative and quantitative data analysis.

Related Access Points

Name	Description
SC.912.N.2.In.4:	Identify major contributions of scientists.
SC.912.N.2.Su.3:	Recognize major contributions of scientists.
SC.912.N.2.Pa.1:	Recognize an example of work by scientists.

Explain that a scientific theory is the culmination of many scientific investigations drawing together all the current evidence concerning a substantial range of phenomena; thus, a scientific theory represents the most powerful explanation scientists have to offer.

[SC.912.N.3.1:](#)

Remarks/Examples:

Explain that a scientific theory is a well-tested hypothesis supported by a preponderance of empirical evidence.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them and, MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Related Access Points

Name	Description
SC.912.N.3.In.1:	Recognize that a scientific theory is developed by repeated investigations of many scientists and agreement on the likely explanation.
SC.912.N.3.Su.1:	Recognize that scientific theories are supported by evidence and agreement of many scientists.
SC.912.N.3.Pa.1:	Recognize examples of cause-effect descriptions or explanations related to science.

Describe the function of models in science, and identify the wide range of models used in science.

[SC.912.N.3.5:](#)

Remarks/Examples:

Describe how models are used by scientists to explain observations of nature.

Florida Standards Connections: MAFS.K12.MP.4: Model with mathematics.

Related Access Points

Name	Description
SC.912.N.3.In.3:	Identify ways models are used in the study of science.
SC.912.N.3.Su.3:	Recognize ways models are used in the study of science.
SC.912.N.3.Pa.2:	Recognize a model used in the context of one's own study of science.

Explain how scientific knowledge and reasoning provide an empirically-based perspective to inform society's decision making.

[SC.912.N.4.1:](#)

Remarks/Examples:

Recognize that no single universal step-by-step scientific method captures the complexity of doing science. A number of shared values and perspectives characterize a scientific approach.

MAFS.K12.MP.1: Make sense of problems and persevere in solving them, and MAFS.K12.MP.2: Reason abstractly and quantitatively.

Related Access Points

Name	Description
SC.912.N.4.In.1:	Identify ways scientific knowledge and problem solving benefit people.
SC.912.N.4.Su.1:	Recognize ways scientific knowledge and problem solving benefit people.
SC.912.N.4.Pa.1:	Recognize science information that helps people.

Describe and predict how the initial mass of a star determines its evolution.

[SC.912.E.5.3:](#)

Remarks/Examples:

Compare and contrast the evolution of stars of different masses (include the three outcomes of stellar evolution based on mass: black hole, neutron star, white dwarf). Differentiate between the different types of stars found on the Hertzsprung-Russell diagram and the balance between gravitational collapse and nuclear fusion in determining the color, brightness, and life span of a star.

Related Access Points

Name	Description
SC.912.E.5.In.2:	Identify stars as giant masses of burning gases that are changing.
SC.912.E.5.Su.2:	Recognize that stars are made of burning gases.
SC.912.E.5.Pa.2:	Recognize that stars are bright.

Analyze the broad effects of space exploration on the economy and culture of Florida.

[SC.912.E.5.9:](#)

Remarks/Examples:

Recognize the economic, technical and social benefits of spinoff technology developed through the space program.

Related Access Points

Name	Description
SC.912.E.5.Su.6:	Identify major contributions related to space exploration that affected Florida.
SC.912.E.5.Pa.5:	Recognize items, such as freeze-dried food and space blankets, developed because of space exploration.

Cite evidence used to develop and verify the scientific theory of the Big Bang (also known as the Big Bang Theory) of the origin of the universe.

[SC.912.E.5.1:](#)

Remarks/Examples:

Explain evidence to support the formation of the universe, which has been expanding for approximately 15 billion year (e.g. ratio of gases, red-shift from distant galaxies, and cosmic background radiation).

Related Access Points

Name	Description
SC.912.E.5.In.1:	Recognize that the Milky Way is part of the expanding universe.
SC.912.E.5.Su.1:	Recognize that the universe consists of many galaxies, including the Milky Way.
SC.912.E.5.Pa.1:	Recognize that when objects move away from each other, the distance between them expands.

Identify patterns in the organization and distribution of matter in the universe and the forces that determine them.

Remarks/Examples:

Identify patterns that influence the formation, hierarchy, and motions of the various kinds of objects in the solar system and the role of gravity and inertia on these motions (include the Sun, Earth, and Moon, planets, satellites, comets, asteroids, star clusters, galaxies, galaxy clusters). Recognize that the universe contains many billions of galaxies, and each galaxy contains many billions of stars. Recognize that constellations are contrived associations of stars that do not reflect functional relationships in space.

Florida Standards Connections: MAFS.K12.MP.7: Look for and make use of structure.

[SC.912.E.5.2:](#)

Related Access Points

Name	Description
SC.912.E.5.In.1:	Recognize that the Milky Way is part of the expanding universe.
SC.912.E.5.Su.1:	Recognize that the universe consists of many galaxies, including the Milky Way.
SC.912.E.5.Pa.1:	Recognize that when objects move away from each other, the distance between them expands.

Explain the physical properties of the Sun and its dynamic nature and connect them to conditions and events on Earth.

Remarks/Examples:

Describe the physical properties of the Sun (sunspot cycles, solar flares, prominences, layers of the Sun, coronal mass ejections, and nuclear reactions) and the impact of the Sun as the main source of external energy for the Earth.

[SC.912.E.5.4:](#)

Related Access Points

Name	Description
SC.912.E.5.In.3:	Describe the Sun as a medium-sized star with sunspots and storms that can affect weather and radio transmissions on Earth.
SC.912.E.5.Su.3:	Describe observable effects of the Sun on Earth, such as changes in light and temperature.
SC.912.E.5.Pa.3:	Observe and recognize effects of the Sun on Earth, such as temperature changes.

Explain the formation of planetary systems based on our knowledge of our Solar System and apply this knowledge to newly discovered planetary systems.

Remarks/Examples:

Describe how evidence from the study of our Solar System and newly discovered extra solar planetary systems supports the Nebular theory of the formation of planetary systems.

[SC.912.E.5.5:](#)

Related Access Points

Name	Description
SC.912.E.5.In.4:	Recognize that there are other planetary systems in the universe besides the Solar System.
SC.912.E.5.Su.4:	Recognize that there are planetary systems in the Universe.
SC.912.E.5.Pa.4:	Recognize that Earth is a planet.

Develop logical connections through physical principles, including Kepler's and Newton's Laws about the relationships and the effects of Earth, Moon, and Sun on each other.

Remarks/Examples:

Explain that Kepler's laws determine the orbits of objects in the solar system and recognize that Kepler's laws are a direct consequence of Newton's Law of Universal Gravitation and Laws of Motion.

[SC.912.E.5.6:](#)

Related Access Points

Name	Description
SC.912.E.5.In.7:	Recognize a lunar eclipse, a solar eclipse, and the effect of the Moon on tides on Earth.
SC.912.E.5.Su.5:	Recognize an eclipse.
SC.912.E.5.Pa.3:	Observe and recognize effects of the Sun on Earth, such as temperature changes.

Distinguish the various methods of measuring astronomical distances and apply each in appropriate situations.

Remarks/Examples:

Determine which units of measurement are appropriate to describe distance (e.g. astronomical units, parallax, and light years).

Florida Standards Connections: MAFS.K12.MP.5: Use appropriate tools strategically and MAFS.K12.MP.6: Attend to precision.

[SC.912.E.5.11:](#)

Describe and differentiate the layers of Earth and the interactions among them.

Remarks/Examples:

Recognize the importance of the study of seismic wave data and how it can be used to determine the internal structure, density variations, and dynamic processes between Earth's layers.

[SC.912.E.6.1:](#)

Related Access Points

Name	Description
SC.912.E.6.In.1:	Describe the three layers of Earth (core, mantle, and crust).
SC.912.E.6.Su.1:	Recognize the three layers of Earth (core, mantle, and crust).
SC.912.E.6.Pa.1:	Identify a surface feature of Earth, such as a hill.

Connect surface features to surface processes that are responsible for their formation.

Remarks/Examples:

Identify various landforms (e.g. dunes, lakes, sinkholes, aquifers) and describe how they form (erosion, physical/chemical weathering, and deposition). Explain how sea level changes over time have exposed and inundated continental shelves, created and destroyed inland seas, and shaped the surface of the Earth.

[SC.912.E.6.2:](#)

Related Access Points

Name	Description
SC.912.E.6.In.2:	Describe examples of surface features, such as glaciers, valleys, canyons, and dried riverbeds, which are caused by wind and erosion (surface processes).
SC.912.E.6.Su.2:	Identify types of surface features, such as hills and valleys.
SC.912.E.6.Pa.1:	Identify a surface feature of Earth, such as a hill.

Analyze the scientific theory of plate tectonics and identify related major processes and features as a result of moving plates.

Remarks/Examples:

Discuss the development of plate tectonic theory, which is derived from the combination of two theories: continental drift and seafloor spreading. Compare and contrast the three primary types of plate boundaries (convergent, divergent, and transform). Explain the origin of geologic features and processes that result from plate tectonics (e.g. earthquakes, volcanoes, trenches, mid-ocean ridges, island arcs and chains, hot spots, earthquake distribution, tsunamis, mountain ranges).

[SC.912.E.6.3:](#)

Related Access Points

Name	Description
SC.912.E.6.In.3:	Relate a cause and effect of movements in Earth's crust (plate tectonics), such as fault lines in the plates causing earthquakes.
SC.912.E.6.Su.3:	Recognize that Earth's crust is broken into parts (plates) that move and cause mountains and volcanoes.
SC.912.E.6.Pa.2:	Recognize that the surface of Earth can change.

Analyze how specific geologic processes and features are expressed in Florida and elsewhere.

Remarks/Examples:

Describe the effect of ocean and Gulf water currents, gravel mining, beach erosion, dune development, aquifers and ground water, salt water intrusion, springs, and sink holes on the formation of the Florida peninsula. Explain the effects of latitude, elevation, topography (land surface type), proximity to large bodies of water, and temperature of ocean currents, on climate in Florida.

[SC.912.E.6.4:](#)

Related Access Points

Name	Description
SC.912.E.6.In.4:	Identify natural geological processes that change the land and water in Florida, including beach erosion and sinkholes.
SC.912.E.6.Su.4:	Recognize examples of natural changes to Florida's land and water, such as beach erosion.
SC.912.E.6.Pa.2:	Recognize that the surface of Earth can change.

Describe the geologic development of the present day oceans and identify commonly found features.

Remarks/Examples:

Describe the topography of the ocean floor and how it formed (e.g. plate tectonics, sea level changes).

[SC.912.E.6.5:](#)

Analyze the movement of matter and energy through the different biogeochemical cycles, including water and carbon.

Remarks/Examples:

Describe that the Earth system contains fixed amounts of each stable chemical element and that each element moves among reservoirs in the solid earth, oceans, atmosphere and living organisms, as part of biogeochemical cycles (i.e., nitrogen, water, carbon, oxygen and phosphorus), which are driven by energy from within the Earth and from the Sun.

[SC.912.E.7.1:](#)

Related Access Points

Name	Description
SC.912.E.7.In.1:	Identify cycles that occur on Earth, such as the water and carbon cycles, and the role energy plays in them.
SC.912.E.7.Su.1:	Recognize the phases of the water cycle that occur on Earth and the role energy plays in the water cycle.
SC.912.E.7.Pa.1:	Recognize that clouds release rain (part of the water cycle).

Analyze the causes of the various kinds of surface and deep water motion within the oceans and their impacts on the transfer of energy between the poles and the equator.

Remarks/Examples:

Explain how surface and deep-water circulation patterns (Coriolis effect, La Niña, El Niño, Southern Oscillation, upwelling, ocean surface cooling, freshwater influx, density differences, Labrador Current and Gulf Stream) impact energy transfer in the environment.

[SC.912.E.7.2:](#)

Related Access Points

Name	Description
SC.912.E.7.In.2:	Recognize that there are circular movements of ocean water (surface and deep-water currents) which move cold water from the poles toward the tropics and vice versa.
SC.912.E.7.Su.2:	Recognize that currents move the ocean water around Earth.
SC.912.E.7.Pa.2:	Recognize waves in the ocean.

Differentiate and describe the various interactions among Earth systems, including: atmosphere, hydrosphere, cryosphere, geosphere, and biosphere.

[SC.912.E.7.3:](#)

Remarks/Examples:

Interactions include transfer of energy (biogeochemical cycles, water cycle, ground and surface waters, photosynthesis, radiation, plate tectonics, conduction, and convection), storms, winds, waves, erosion, currents, deforestation and wildfires, hurricanes, tsunamis, volcanoes.

Related Access Points

Name	Description
SC.912.E.7.In.3:	Describe the interactions among the atmosphere, hydrosphere, and biosphere, including how air, water, and land support living things and how air temperature affects water and land temperatures.
SC.912.E.7.Su.3:	Recognize components of the atmosphere, the hydrosphere, and the biosphere.
SC.912.E.7.Pa.3:	Recognize that humans, plants, and animals live on the Earth (biosphere).

Summarize the conditions that contribute to the climate of a geographic area, including the relationships to lakes and oceans.

[SC.912.E.7.4:](#)

Remarks/Examples:

Describe how latitude, altitude, topography, prevailing winds, proximity to large bodies of water, vegetation and ocean currents determine the climate of a geographic area.

Related Access Points

Name	Description
SC.912.E.7.In.4:	Describe variations in climate due to geological locations, such as on mountains and the nearness to large bodies of water.
SC.912.E.7.Su.4:	Identify the climate conditions in different parts of the world.
SC.912.E.7.Pa.4:	Recognize that weather (climate) is different in different locations.

Predict future weather conditions based on present observations and conceptual models and recognize limitations and uncertainties of such predictions.

[SC.912.E.7.5:](#)

Remarks/Examples:

Use models, weather maps and other tools to predict weather conditions and differentiate between accuracy of short-range and long-range weather forecasts.

Related Access Points

Name	Description
SC.912.E.7.In.5:	Identify weather conditions using weather data and weather maps.
SC.912.E.7.Su.5:	Identify weather conditions, including temperature, wind speed, and humidity.
SC.912.E.7.Pa.5:	Recognize the weather conditions, including severe weather, in Florida.

Relate the formation of severe weather to the various physical factors.

[SC.912.E.7.6:](#)

Remarks/Examples:

Identify the causes of severe weather. Compare and contrast physical factors that affect the formation of severe weather events (e.g. hurricanes, tornados, flash floods, thunderstorms, and drought).

Related Access Points

Name	Description
SC.912.E.7.In.6:	Compare weather conditions in different types of severe storms, including hurricanes, tornadoes, and thunderstorms.
SC.912.E.7.Su.6:	Recognize conditions in severe storms, such as hurricanes, tornadoes, and thunderstorms.
SC.912.E.7.Pa.5:	Recognize the weather conditions, including severe weather, in Florida.

Identify, analyze, and relate the internal (Earth system) and external (astronomical) conditions that contribute to global climate change.

[SC.912.E.7.7:](#)

Remarks/Examples:

Explain the possible natural (e.g. increased global temperature, wildfires, volcanic dust) and anthropogenic mechanisms (e.g. air pollution, acid rain, greenhouse gases, burning of fossil fuels) and the effects of these mechanisms on global climate change.

Related Access Points

Name	Description
SC.912.E.7.In.7:	Recognize that global climate change is related to conditions in the atmosphere and oceans.
SC.912.E.7.Su.7:	Recognize that global climate change occurs over a long period of time.
SC.912.E.7.Pa.4:	Recognize that weather (climate) is different in different locations.

Explain how various atmospheric, oceanic, and hydrologic conditions in Florida have influenced and can influence human behavior, both individually and

collectively.

[SC.912.E.7.8:](#)

Remarks/Examples:

Describe and discuss the conditions that bring about floods, droughts, wildfires, thunderstorms, hurricanes, rip currents, and tsunamis and how these conditions can influence human behavior (e.g. energy, alternatives, conservation, migration, storm preparedness).

Related Access Points

Name	Description
SC.912.E.7.In.8:	Describe how atmospheric and hydrologic conditions, such as hurricanes, drought, wildfires, and sinkholes, affect human behavior.
SC.912.E.7.Su.8:	Identify how weather and water conditions affect humans in Florida.
SC.912.E.7.Pa.5:	Recognize the weather conditions, including severe weather, in Florida.

[SC.912.P.10.4:](#)

Describe heat as the energy transferred by convection, conduction, and radiation, and explain the connection of heat to change in temperature or states of matter.

Related Access Points

Name	Description
SC.912.P.10.In.3:	Relate the transfer of heat to the states of matter, including gases result from heating, liquids result from cooling a gas, and solids result from further cooling a liquid.
SC.912.P.10.Su.3:	Observe and recognize ways that heat travels, such as through space (radiation), through solids (conduction), and through liquids and gases (convection).
SC.912.P.10.Pa.3:	Recognize the source and recipient of heat transfer.

Compare the magnitude and range of the four fundamental forces (gravitational, electromagnetic, weak nuclear, strong nuclear).

[SC.912.P.10.10:](#)

Remarks/Examples:

Recognize and discuss the effect of each force on the structure of matter and the evidence for it.

Related Access Points

Name	Description
SC.912.P.10.In.5:	Identify fundamental forces, including gravitational and electromagnetic.
SC.912.P.10.Su.6:	Recognize fundamental forces, such as gravitational.
SC.912.P.10.Pa.6:	Recognize that an object falls unless stopped (gravity).

Explain and compare nuclear reactions (radioactive decay, fission and fusion), the energy changes associated with them and their associated safety issues.

[SC.912.P.10.11:](#)

Remarks/Examples:

Identify the three main types of radioactive decay (alpha, beta, and gamma) and compare their properties (composition, mass, charge, and penetrating power). Explain the concept of half-life for an isotope (e.g. C-14 is used to determine the age of objects) and calculate the amount of a radioactive substance remaining after an integral number of half-lives have passed. Recognize that the energy release per gram of material is much larger in nuclear fusion or fission reactions than in chemical reactions due to the large amount of energy related to small amounts of mass by equation $E=mc^2$.

Related Access Points

Name	Description
SC.912.P.10.In.6:	Identify that atoms can be changed to release energy, such as in nuclear power plants, and recognize one related safety issue.
SC.912.P.10.Su.5:	Recognize that nuclear power plants generate electricity and can be dangerous.
SC.912.P.10.Pa.5:	Recognize the universal symbols for radioactive and other hazardous materials.

Explain the relationship between moving charges and magnetic fields, as well as changing magnetic fields and electric fields, and their application to modern technologies.

[SC.912.P.10.16:](#)

Remarks/Examples:

Explain that moving electric charges produce magnetic forces and moving magnets produce electric forces. Recognize the Lorentz force is the force on a point charge due to electromagnetic fields and occurs in many devices, including mass spectrometers.

Related Access Points

Name	Description
SC.912.P.10.In.5:	Identify fundamental forces, including gravitational and electromagnetic.
SC.912.P.10.Su.9:	Observe and identify the effects of magnetic attraction on iron.
SC.912.P.10.Pa.9:	Recognize how magnets are used in real-world situations.

Explore the theory of electromagnetism by comparing and contrasting the different parts of the electromagnetic spectrum in terms of wavelength, frequency, and energy, and relate them to phenomena and applications.

[SC.912.P.10.18:](#)

Remarks/Examples:

Describe the electromagnetic spectrum (i.e., radio waves, microwaves, infrared, visible light, ultraviolet, X-rays and gamma rays) in terms of frequency, wavelength and energy. Solve problems involving wavelength, frequency, and energy.

Related Access Points

Name	Description
SC.912.P.10.In.9:	Identify common applications of electromagnetic waves moving through different media, such as radio waves, microwaves, x-rays, or infrared.
SC.912.P.10.Su.10:	Recognize examples of electromagnetic waves moving through different media, such as microwave ovens, radios, and x-rays.
SC.912.P.10.Pa.10:	Recognize primary and secondary colors in visible light.

[SC.912.P.10.19:](#) Explain that all objects emit and absorb electromagnetic radiation and distinguish between objects that are blackbody radiators and those that are not. Describe the measurable properties of waves and explain the relationships among them and how these properties change when the wave moves from one medium to another.

Remarks/Examples:
Describe the measurable properties of waves (velocity, frequency, wavelength, amplitude, period, reflection and refraction) and explain the relationships among them. Recognize that the source of all waves is a vibration and waves carry energy from one place to another. Distinguish between transverse and longitudinal waves in mechanical media, such as springs and ropes, and on the earth (seismic waves). Describe sound as a longitudinal wave whose speed depends on the properties of the medium in which it propagates.

[SC.912.P.10.20:](#)

Related Access Points

Name	Description
SC.912.P.10.In.9:	Identify common applications of electromagnetic waves moving through different media, such as radio waves, microwaves, x-rays, or infrared.
SC.912.P.10.Su.10:	Recognize examples of electromagnetic waves moving through different media, such as microwave ovens, radios, and x-rays.
SC.912.P.10.Pa.10:	Recognize primary and secondary colors in visible light.

Analyze the motion of an object in terms of its position, velocity, and acceleration (with respect to a frame of reference) as functions of time.

Remarks/Examples:
Solve problems involving distance, velocity, speed, and acceleration. Create and interpret graphs of 1-dimensional motion, such as position versus time, distance versus time, speed versus time, velocity versus time, and acceleration versus time where acceleration is constant.
Florida Standards Connections: MAFS.912.N-VM.3 (+) Solve problems involving velocity and other quantities that can be represented by vectors.

[SC.912.P.12.2:](#)

Related Access Points

Name	Description
SC.912.P.12.In.2:	Identify acceleration as a change in speed or direction.
SC.912.P.12.Su.2:	Recognize that acceleration generally involves a change in speed.
SC.912.P.12.Pa.2:	Identify the speed and direction of a moving object, including fast and slow, up and down, round and round, straight line.

Describe how the gravitational force between two objects depends on their masses and the distance between them.

Remarks/Examples:
Describe Newton's law of universal gravitation in terms of the attraction between two objects, their masses, and the inverse square of the distance between them.

[SC.912.P.12.4:](#)

Related Access Points

Name	Description
SC.912.P.12.In.4:	Identify examples of how gravity attracts other objects, such as people to Earth or orbits of planets in the Solar System.
SC.912.P.12.Su.4:	Identify that gravity is a force that attracts objects.
SC.912.P.12.Pa.4:	Recognize that things fall down toward Earth unless stopped or held up (gravity).

Explain how the scientific theory of evolution is supported by the fossil record, comparative anatomy, comparative embryology, biogeography, molecular biology, and observed evolutionary change.

Remarks/Examples:
Annually Assessed on Biology EOC. Also assesses [SC.912.L.15.10](#) [SC.912.N.1.3](#) [SC.912.N.1.4](#) [SC.912.N.1.6](#) [SC.912.N.2.1](#) [SC.912.N.3.1](#) and [SC.912.N.3.4](#).

[SC.912.L.15.1:](#)

Related Access Points

Name	Description
SC.912.L.15.In.1:	Identify that prehistoric plants and animals changed over time (evolved) or became extinct.
SC.912.L.15.Su.1:	Match fossils to related species.
SC.912.L.15.Pa.1:	Recognize that plants and animals change as they age.

Describe the scientific explanations of the origin of life on Earth.

Remarks/Examples:
Annually assessed on Biology EOC. Also assesses [SC.912.N.1.3](#), [SC.912.N.1.4](#), and [SC.912.N.2.1](#).

[SC.912.L.15.8:](#)

Related Access Points

Name	Description
SC.912.L.15.In.3:	Identify that there are scientific explanations of the origin of life on Earth.
SC.912.L.15.Su.3:	Recognize that there are scientific explanations of how life began.
SC.912.L.15.Pa.1:	Recognize that plants and animals change as they age.

[MAFS.912.N-Q.1.1:](#)

Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.

[MAFS.912.N-Q.1.3:](#)

Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.3a:	Describe the accuracy of measurement when reporting quantities (you can lessen your limitations by measuring precisely).

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.1:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker's point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker's point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.SL.2.5:](#) Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.5a:	Include multimedia components and visual displays in presentations to clarify claims and findings and emphasize salient points.

[LAFS.910.RST.1.1:](#) Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.

[LAFS.910.RST.1.2:](#) **Determine the central ideas or conclusions of a text; trace the text’s explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text.**

[LAFS.910.RST.1.3:](#) Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.2.4:](#) Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.2.5:](#) Analyze the structure of the relationships among concepts in a text, including relationships among key terms (e.g., force, friction, reaction force, energy).

[LAFS.910.RST.2.6:](#) Analyze the author’s purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, defining the question the author seeks to address.

[LAFS.910.RST.3.7:](#) Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

[LAFS.910.RST.3.8:](#) Assess the extent to which the reasoning and evidence in a text support the author’s claim or a recommendation for solving a scientific or technical problem.

[LAFS.910.RST.3.9:](#) Compare and contrast findings presented in a text to those from other sources (including their own experiments), noting when the findings support or contradict previous explanations or accounts.

[LAFS.910.RST.4.10:](#) **By the end of grade 10, read and comprehend science/technical texts in the grades 9–10 text complexity band independently and proficiently.**

[LAFS.910.WHST.1.1:](#) Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) **and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience’s knowledge level and concerns.**
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.1.2:](#) Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

- Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and **examples appropriate to the audience’s knowledge of the topic.**
- Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.
- Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

[LAFS.910.WHST.2.4:](#) Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.2.5:](#) Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

[LAFS.910.WHST.2.6:](#) **Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology’s capacity to link to other information and to display information flexibly and dynamically.**

[LAFS.910.WHST.3.7:](#) Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

[LAFS.910.WHST.3.8:](#) Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

[LAFS.910.WHST.3.9:](#) Draw evidence from informational texts to support analysis, reflection, and research.

[LAFS.910.WHST.4.10:](#) Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

[ELD.K12.ELL.1.1:](#) English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.XX.1:](#) English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Science.

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Science. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SC.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Laboratory investigations that include the use of scientific inquiry, research, measurement, problem solving, laboratory apparatus and technologies, experimental procedures, and safety procedures are an integral part of this course. The National Science Teachers Association (NSTA) recommends that at the high school level, all students should be in the science lab or field, collecting data every week. School laboratory investigations (labs) are defined by the National Research Council (NRC) as an experience in the laboratory, classroom, or the field that provides students with opportunities to interact directly with natural phenomena or with data collected by others using tools, materials, data collection techniques, and models (NRC, 2006, p. 3). Laboratory investigations in the high school classroom should help all students develop a growing understanding of the complexity and ambiguity of empirical work, as well as the skills to calibrate and troubleshoot equipment used to make observations. Learners should understand measurement error; and have the skills to aggregate, interpret, and present the resulting data (National Research Council, 2006, p.77; NSTA, 2007).

Course Standards

Name	Description
	Define a problem based on a specific body of knowledge, for example: biology, chemistry, physics, and earth/space science, and do the following: <ol style="list-style-type: none"> 1. Pose questions about the natural world, (Articulate the purpose of the investigation and identify the relevant scientific concepts). 2. Conduct systematic observations, (Write procedures that are clear and replicable. Identify observables and examine relationships between test (independent) variable and outcome (dependent) variable. Employ appropriate methods for accurate and consistent observations; conduct and record measurements at appropriate levels of precision. Follow safety guidelines). 3. Examine books and other sources of information to see what is already known, 4. Review what is known in light of empirical evidence, (Examine whether available empirical evidence can be interpreted in terms of existing knowledge and models, and if not, modify or develop new models). 5. Plan investigations, (Design and evaluate a scientific investigation). 6. Use tools to gather, analyze, and interpret data (this includes the use of measurement in metric and other systems, and also the generation and interpretation of graphical representations of data, including data tables and graphs), (Collect data or evidence in an

organized way. Properly use instruments, equipment, and materials (e.g., scales, probeware, meter sticks, microscopes, computers) including set-up, calibration, technique, maintenance, and storage).

7. **Pose answers, explanations, or descriptions of events,**
8. **Generate explanations that explicate or describe natural phenomena (inferences),**
9. **Use appropriate evidence and reasoning to justify these explanations to others,**
10. **Communicate results of scientific investigations, and**
11. **Evaluate the merits of the explanations produced by others.**

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Describe and explain what characterizes science and its methods.

SC.912.N.1.2:

<p>Remarks/Examples:</p> <p>Science is characterized by empirical <u>observations</u>, testable questions, formation of <u>hypotheses</u>, and experimentation that results in stable and replicable results, logical reasoning, and coherent theoretical constructs.</p> <p>Florida Standards Connections: MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.</p>
--

Related Access Points

Name	Description
SC.912.N.1.In.2:	Describe the processes used in scientific investigations, including posing a research question, forming a hypothesis, reviewing what is known, collecting evidence, evaluating results, and reaching conclusions.
SC.912.N.1.Su.2:	Identify the basic process used in scientific investigations, including questioning, observing, recording, determining, and sharing results.

[SC.912.N.1.Pa.2:](#) Recognize a process used in science to solve problems, such as observing, following procedures, and recognizing results.

Recognize that the strength or usefulness of a scientific claim is evaluated through scientific argumentation, which depends on critical and logical thinking, and the active consideration of alternative scientific explanations to explain the data presented.

[SC.912.N.1.3:](#)

Remarks/Examples:

Assess the reliability of data and identify reasons for inconsistent results, such as sources of error or uncontrolled conditions.

Florida Standards Connections: [MAFS.K12.MP.2:](#) Reason abstractly and quantitatively [MAFS.K12.MP.3:](#) Construct viable arguments and critique the reasoning of others

Related Access Points

Name	Description
SC.912.N.1.In.2:	Describe the processes used in scientific investigations, including posing a research question, forming a hypothesis, reviewing what is known, collecting evidence, evaluating results, and reaching conclusions.
SC.912.N.1.Su.2:	Identify the basic process used in scientific investigations, including questioning, observing, recording, determining, and sharing results.
SC.912.N.1.Pa.2:	Recognize a process used in science to solve problems, such as observing, following procedures, and recognizing results.

Identify sources of information and assess their reliability according to the strict standards of scientific investigation.

[SC.912.N.1.4:](#)

Remarks/Examples:

Read, interpret, and examine the credibility and validity of scientific claims in different sources of information, such as scientific articles, advertisements, or media stories. Strict standards of science include controlled variables, sufficient sample size, replication of results, empirical and measurable evidence, and the concept of falsification.

Florida Standards Connections: [LAFS.910.RST.1.1](#) / [LAFS.1112.RST.1.1](#).

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Describe how scientific inferences are drawn from scientific observations and provide examples from the content being studied.

[SC.912.N.1.6:](#)

Remarks/Examples:

Collect data/evidence and use tables/graphs to draw conclusions and make inferences based on patterns or trends in the data.

Florida Standards Connections: [MAFS.K12.MP.1:](#) Make sense of problems and persevere in solving them.

Related Access Points

Name	Description
SC.912.N.1.In.1:	Identify a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Identify a scientific question 2. Examine reliable sources of information to identify what is already known 3. Develop a possible explanation (hypothesis) 4. Plan and carry out an experiment 5. Gather data based on measurement and observations 6. Evaluate the data 7. Use the data to support reasonable explanations, inferences, and conclusions.
SC.912.N.1.Su.1:	Recognize a problem based on a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Recognize a scientific question 2. Use reliable information and identify what is already known 3. Create possible explanation 4. Carry out a planned experiment 5. Record observations 6. Summarize results 7. Reach a reasonable conclusion.
SC.912.N.1.Pa.1:	Recognize a problem related to a specific body of knowledge, including life science, earth and space science, or physical science, and do the following: 1. Observe objects and activities 2. Follow planned procedures 3. Recognize a solution.

Recognize the role of creativity in constructing scientific questions, methods and explanations.

[SC.912.N.1.7:](#)

Remarks/Examples:

Work through difficult problems using creativity, and critical and analytical thinking in problem solving (e.g. convergent versus divergent thinking and creativity in problem solving).

Florida Standards Connections: [MAFS.K12.MP.1:](#) Make sense of problems and persevere in solving them and [MAFS.K12.MP.2:](#) Reason abstractly and quantitatively.

Related Access Points

Name	Description
SC.912.N.1.In.4:	Identify that scientists use many different methods in conducting their research.
SC.912.N.1.Su.4:	Recognize that scientists use a variety of methods to get answers to their research questions.

[SC.912.N.1.Pa.4:](#) Recognize that people try different ways to complete a task when the first one does not work.

Identify what is science, what clearly is not science, and what superficially resembles science (but fails to meet the criteria for science).

[SC.912.N.2.1:](#)

Remarks/Examples:

Science is the systematic and organized inquiry that is derived from observations and experimentation that can be verified or tested by further investigation to explain natural phenomena (e.g. Science is testable, pseudo-science is not science seeks falsifications, pseudo-science seeks confirmations.)

Related Access Points

Name	Description
SC.912.N.2.In.1:	Identify examples of investigations that involve science.
SC.912.N.2.Su.1:	Identify questions that can be answered by science.
SC.912.N.2.Pa.1:	Recognize an example of work by scientists.

Explain that a scientific theory is the culmination of many scientific investigations drawing together all the current evidence concerning a substantial range of phenomena; thus, a scientific theory represents the most powerful explanation scientists have to offer.

[SC.912.N.3.1:](#)

Remarks/Examples:

Explain that a scientific theory is a well-tested hypothesis supported by a preponderance of empirical evidence.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them and, MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Related Access Points

Name	Description
SC.912.N.3.In.1:	Recognize that a scientific theory is developed by repeated investigations of many scientists and agreement on the likely explanation.
SC.912.N.3.Su.1:	Recognize that scientific theories are supported by evidence and agreement of many scientists.
SC.912.N.3.Pa.1:	Recognize examples of cause-effect descriptions or explanations related to science.

Explain that scientific laws are descriptions of specific relationships under given conditions in nature, but do not offer explanations for those relationships.

[SC.912.N.3.3:](#)

Remarks/Examples:

Recognize that a scientific theory provides a broad explanation of many observed phenomena while a scientific law describes how something behaves.

Related Access Points

Name	Description
SC.912.N.3.In.2:	Identify examples of scientific laws that describe relationships in the natural world, such as Newton's laws.
SC.912.N.3.Su.2:	Recognize examples of scientific laws that describe relationships in nature, such as Newton's laws.
SC.912.N.3.Pa.1:	Recognize examples of cause-effect descriptions or explanations related to science.

Recognize that theories do not become laws, nor do laws become theories; theories are well supported explanations and laws are well supported descriptions.

[SC.912.N.3.4:](#)

Remarks/Examples:

Recognize that theories do not become laws, theories explain laws. Recognize that not all scientific laws have accompanying explanatory theories.

Related Access Points

Name	Description
SC.912.N.3.In.1:	Recognize that a scientific theory is developed by repeated investigations of many scientists and agreement on the likely explanation.
SC.912.N.3.In.2:	Identify examples of scientific laws that describe relationships in the natural world, such as Newton's laws.
SC.912.N.3.Su.1:	Recognize that scientific theories are supported by evidence and agreement of many scientists.
SC.912.N.3.Su.2:	Recognize examples of scientific laws that describe relationships in nature, such as Newton's laws.
SC.912.N.3.Pa.1:	Recognize examples of cause-effect descriptions or explanations related to science.

Describe the function of models in science, and identify the wide range of models used in science.

[SC.912.N.3.5:](#)

Remarks/Examples:

Describe how models are used by scientists to explain observations of nature.

Florida Standards Connections: MAFS.K12.MP.4: Model with mathematics.

Related Access Points

Name	Description
SC.912.N.3.In.3:	Identify ways models are used in the study of science.
SC.912.N.3.Su.3:	Recognize ways models are used in the study of science.
SC.912.N.3.Pa.2:	Recognize a model used in the context of one's own study of science.

Cite evidence used to develop and verify the scientific theory of the Big Bang (also known as the Big Bang Theory) of the origin of the universe.

[SC.912.E.5.1:](#)

Remarks/Examples:

Explain evidence to support the formation of the universe, which has been expanding for approximately 15 billion year (e.g. ratio of gases, red-shift from distant galaxies, and cosmic background radiation).

Related Access Points

Name	Description
SC.912.E.5.In.1:	Recognize that the Milky Way is part of the expanding universe.
SC.912.E.5.Su.1:	Recognize that the universe consists of many galaxies, including the Milky Way.
SC.912.E.5.Pa.1:	Recognize that when objects move away from each other, the distance between them expands.

Identify patterns in the organization and distribution of matter in the universe and the forces that determine them.

[SC.912.E.5.2:](#)

Remarks/Examples:

Identify patterns that influence the formation, heirarchy, and motions of the various kinds of objects in the solar system and the role of gravity and inertia on these motions (include the Sun, Earth, and Moon, planets, satellites, comets, asteroids, star clusters, galaxies, galaxy clusters). Recognize that the universe contains many billions of galaxies, and each galaxy contains many billions of stars. Recognize that constellations are contrived associations of stars that do not reflect functional relationships in space.

Florida Standards Connections: MAFS.K12.MP.7: Look for and make use of structure.

Related Access Points

Name	Description
SC.912.E.5.In.1:	Recognize that the Milky Way is part of the expanding universe.
SC.912.E.5.Su.1:	Recognize that the universe consists of many galaxies, including the Milky Way.
SC.912.E.5.Pa.1:	Recognize that when objects move away from each other, the distance between them expands.

Explain the physical properties of the Sun and its dynamic nature and connect them to conditions and events on Earth.

[SC.912.E.5.4:](#)

Remarks/Examples:

Describe the physical properties of the Sun (sunspot cycles, solar flares, prominences, layers of the Sun, coronal mass ejections, and nuclear reactions) and the impact of the Sun as the main source of external energy for the Earth.

Related Access Points

Name	Description
SC.912.E.5.In.3:	Describe the Sun as a medium-sized star with sunspots and storms that can affect weather and radio transmissions on Earth.
SC.912.E.5.Su.3:	Describe observable effects of the Sun on Earth, such as changes in light and temperature.
SC.912.E.5.Pa.3:	Observe and recognize effects of the Sun on Earth, such as temperature changes.

Relate the history of and explain the justification for future space exploration and continuing technology development.

[SC.912.E.5.7:](#)

Remarks/Examples:

Identify examples of historical space exploration (e.g. telescopes, high altitude balloons, lunar landers, deep-space probes, space station) that had significant impact on current space exploration and recognize the importance of continued exploration in space.

Related Access Points

Name	Description
SC.912.E.5.In.6:	Identify major contributions and research from space exploration that affected Florida's economy and culture.
SC.912.E.5.Su.6:	Identify major contributions related to space exploration that affected Florida.
SC.912.E.5.Pa.5:	Recognize items, such as freeze-dried food and space blankets, developed because of space exploration.

Connect the concepts of radiation and the electromagnetic spectrum to the use of historical and newly-developed observational tools.

[SC.912.E.5.8:](#)

Remarks/Examples:

Describe how frequency is related to the characteristics of electromagnetic radiation and recognize how spectroscopy is used to detect and interpret information from electromagnetic radiation sources.

Related Access Points

Name	Description
SC.912.E.5.In.5:	Identify tools that use different types of radiation, such as radio waves, ultraviolet radiation, and infrared waves.
SC.912.E.5.Su.7:	Recognize examples of tools that use radiation for observation purposes, such as x-rays and infrared night goggles.
SC.912.E.5.Pa.6:	Recognize a tool that uses radiation for personal reasons, such as x-rays.

Describe and differentiate the layers of Earth and the interactions among them.

[SC.912.E.6.1:](#)

Remarks/Examples:

Recognize the importance of the study of seismic wave data and how it can be used to determine the internal structure, density variations, and dynamic processes between Earth's layers.

Related Access Points

Name	Description
SC.912.E.6.In.1:	Describe the three layers of Earth (core, mantle, and crust).
SC.912.E.6.Su.1:	Recognize the three layers of Earth (core, mantle, and crust).
SC.912.E.6.Pa.1:	Identify a surface feature of Earth, such as a hill.

Connect surface features to surface processes that are responsible for their formation.

[SC.912.E.6.2:](#)

Remarks/Examples:

Identify various landforms (e.g. [dunes](#), lakes, sinkholes, aquifers) and describe how they form ([erosion](#), physical/chemical weathering, and [deposition](#)). Explain how sea level changes over time have exposed and inundated continental shelves, created and destroyed inland seas, and shaped the surface of the Earth.

Related Access Points

Name	Description
SC.912.E.6.In.2:	Describe examples of surface features, such as glaciers, valleys, canyons, and dried riverbeds, which are caused by wind and erosion (surface processes).
SC.912.E.6.Su.2:	Identify types of surface features, such as hills and valleys.
SC.912.E.6.Pa.1:	Identify a surface feature of Earth, such as a hill.

Analyze the scientific theory of plate tectonics and identify related major processes and features as a result of moving plates.

[SC.912.E.6.3:](#)

Remarks/Examples:

Discuss the development of plate tectonic theory, which is derived from the combination of two theories: continental drift and seafloor spreading. Compare and contrast the three primary types of plate boundaries (convergent, divergent, and transform). Explain the origin of geologic features and processes that result from plate tectonics (e.g. [earthquakes](#), volcanoes, trenches, mid-ocean ridges, island arcs and chains, hot spots, [earthquake](#) distribution, tsunamis, mountain ranges).

Related Access Points

Name	Description
SC.912.E.6.In.3:	Relate a cause and effect of movements in Earth's crust (plate tectonics), such as fault lines in the plates causing earthquakes.
SC.912.E.6.Su.3:	Recognize that Earth's crust is broken into parts (plates) that move and cause mountains and volcanoes.
SC.912.E.6.Pa.2:	Recognize that the surface of Earth can change.

Analyze the movement of matter and energy through the different biogeochemical cycles, including water and carbon.

[SC.912.E.7.1:](#)

Remarks/Examples:

Describe that the Earth system contains fixed amounts of each stable chemical element and that each element moves among reservoirs in the solid earth, oceans, [atmosphere](#) and living [organisms](#) as part of biogeochemical cycles (i.e., nitrogen, water, carbon, oxygen and phosphorus), which are driven by [energy](#) from within the Earth and from the Sun.

Related Access Points

Name	Description
SC.912.E.7.In.1:	Identify cycles that occur on Earth, such as the water and carbon cycles, and the role energy plays in them.
SC.912.E.7.Su.1:	Recognize the phases of the water cycle that occur on Earth and the role energy plays in the water cycle.
SC.912.E.7.Pa.1:	Recognize that clouds release rain (part of the water cycle).

Differentiate and describe the various interactions among Earth systems, including: atmosphere, hydrosphere, cryosphere, geosphere, and biosphere.

[SC.912.E.7.3:](#)

Remarks/Examples:

Interactions include transfer of [energy](#) (biogeochemical cycles, [water cycle](#), ground and surface waters, photosynthesis, radiation, plate tectonics, [conduction](#), and [convection](#)), storms, winds, waves, [erosion](#), currents, [deforestation](#) and wildfires, hurricanes, tsunamis, volcanoes.

Related Access Points

Name	Description
SC.912.E.7.In.3:	Describe the interactions among the atmosphere, hydrosphere, and biosphere, including how air, water, and land support living things and how air temperature affects water and land temperatures.
SC.912.E.7.Su.3:	Recognize components of the atmosphere, the hydrosphere, and the biosphere.
SC.912.E.7.Pa.3:	Recognize that humans, plants, and animals live on the Earth (biosphere).

Differentiate among the four states of matter.

[SC.912.P.8.1:](#)

Remarks/Examples:

Differentiate among the four states of [matter](#) (solid, [liquid](#), [gas](#) and plasma) in terms of [energy](#), particle [motion](#), and phase transitions. (Note: Currently five states of [matter](#) have been identified.)

Related Access Points

Name	Description
SC.912.P.8.In.1:	Classify states of matter as solid, liquid, and gaseous.
SC.912.P.8.Su.1:	Identify examples of states of matter as solid, liquid, and gaseous.

[SC.912.P.8.Pa.1:](#)

Select an example of a common solid, liquid, and gas.

Differentiate between physical and chemical properties and physical and chemical changes of matter.

[SC.912.P.8.2:](#)

Remarks/Examples:

Discuss volume, compressibility, density, conductivity, malleability, reactivity, molecular composition, freezing, melting and boiling points. Describe simple laboratory techniques that can be used to separate homogeneous and heterogeneous mixtures (e.g. filtration, distillation, chromatography, evaporation).

Related Access Points

Name	Description
SC.912.P.8.In.2:	Compare characteristics of physical and chemical changes of matter.
SC.912.P.8.Su.2:	Identify examples of physical and chemical changes.
SC.912.P.8.Pa.2:	Recognize a common chemical change, such as cooking, burning, rusting, or decaying.

Explore the scientific theory of atoms (also known as atomic theory) by describing changes in the atomic model over time and why those changes were necessitated by experimental evidence.

[SC.912.P.8.3:](#)

Remarks/Examples:

Describe the development and historical importance of atomic theory from Dalton (atomic theory), Thomson (the electron), Rutherford (the nucleus and "gold foil" experiment), and Bohr (planetary model of atom), and understand how each discovery leads to modern atomic theory.

Florida Standards Connections: MAFS.K12.MP.4: Model with mathematics.

Related Access Points

Name	Description
SC.912.P.8.In.3:	Identify the nucleus as the center of an atom.
SC.912.P.8.Su.3:	Recognize that atoms are tiny particles in materials, too small to see.
SC.912.P.8.Pa.3:	Recognize that the parts of an object can be put together to make a whole.

Explore the scientific theory of atoms (also known as atomic theory) by describing the structure of atoms in terms of protons, neutrons and electrons, and differentiate among these particles in terms of their mass, electrical charges and locations within the atom.

[SC.912.P.8.4:](#)

Remarks/Examples:

Explain that electrons, protons and neutrons are parts of the atom and that the nuclei of atoms are composed of protons and neutrons, which experience forces of attraction and repulsion consistent with their charges and masses.

Florida Standards Connections: MAFS.K12.MP.4: Model with mathematics.

Related Access Points

Name	Description
SC.912.P.8.In.3:	Identify the nucleus as the center of an atom.
SC.912.P.8.Su.3:	Recognize that atoms are tiny particles in materials, too small to see.
SC.912.P.8.Pa.3:	Recognize that the parts of an object can be put together to make a whole.

Relate properties of atoms and their position in the periodic table to the arrangement of their electrons.

[SC.912.P.8.5:](#)

Remarks/Examples:

Use the periodic table and electron configuration to determine an element's number of valence electrons and its chemical and physical properties. Explain how chemical properties depend almost entirely on the configuration of the outer electron shell.

Related Access Points

Name	Description
SC.912.P.8.In.4:	Recognize that the periodic table includes all known elements.
SC.912.P.8.Su.4:	Recognize examples of common elements, such as oxygen and hydrogen.
SC.912.P.8.Pa.3:	Recognize that the parts of an object can be put together to make a whole.

Interpret formula representations of molecules and compounds in terms of composition and structure.

[SC.912.P.8.7:](#)

Remarks/Examples:

Write chemical formulas for simple covalent (HCl, SO₂, CO₂, and CH₄), ionic (Na⁺ + Cl⁻ → NaCl) and molecular (O₂, H₂O) compounds. Predict the formulas of ionic compounds based on the number of valence electrons and the charges on the ions.

Related Access Points

Name	Description
SC.912.P.8.In.6:	Identify formulas for common compounds, such as H ₂ O and CO ₂ .
SC.912.P.8.Su.6:	Match common chemical formulas to their common name, such as H ₂ O to water.
SC.912.P.8.Pa.4:	Match common compounds to their names or communication symbols.

Distinguish between endothermic and exothermic chemical processes.

SC.912.P.10.7:

Remarks/Examples:

Classify chemical reactions and phase changes as exothermic (release thermal energy) or endothermic (absorb thermal energy).

Related Access Points

Name	Description
SC.912.P.10.In.4:	Describe a process that gives off heat (exothermic), such as burning, and a process that absorbs heat (endothermic), such as water coming to a boil.
SC.912.P.10.Su.4:	Recognize common processes that give off heat (exothermic), such as burning, and processes that absorb heat (endothermic), such as water coming to a boil.
SC.912.P.10.Pa.4:	Identify materials that provide protection (insulation) from heat.

Differentiate among the various forms of energy and recognize that they can be transformed from one form to others.

Remarks/Examples:

Differentiate between kinetic and potential energy. Recognize that energy cannot be created or destroyed, only transformed. Identify examples of transformation of energy: Heat to light in incandescent electric light bulbs light to heat in laser drills Electrical to sound in radios Sound to electrical in microphones Electrical to chemical in battery rechargers Chemical to electrical in dry cells Mechanical to electrical in generators [power plants] Nuclear to heat in nuclear reactors Gravitational potential energy of a falling object is converted to kinetic energy, then to heat and sound energy when the object hits the ground.

SC.912.P.10.1:

Related Access Points

Name	Description
SC.912.P.10.In.1:	Identify examples of energy being transformed from one form to another (conserved quantity).
SC.912.P.10.Su.1:	Recognize energy transformations that occur in everyday life, such as solar energy to electricity.
SC.912.P.10.Pa.1:	Observe and recognize examples of the transformation of electrical energy to light and heat.

SC.912.P.10.4:

Describe heat as the energy transferred by convection, conduction, and radiation, and explain the connection of heat to change in temperature or states of matter.

Related Access Points

Name	Description
SC.912.P.10.In.3:	Relate the transfer of heat to the states of matter, including gases result from heating, liquids result from cooling a gas, and solids result from further cooling a liquid.
SC.912.P.10.Su.3:	Observe and recognize ways that heat travels, such as through space (radiation), through solids (conduction), and through liquids and gases (convection).
SC.912.P.10.Pa.3:	Recognize the source and recipient of heat transfer.

Describe the measurable properties of waves and explain the relationships among them and how these properties change when the wave moves from one medium to another.

Remarks/Examples:

Describe the measurable properties of waves (velocity, frequency, wavelength, amplitude, period, reflection and refraction) and explain the relationships among them. Recognize that the source of all waves is a vibration and waves carry energy from one place to another. Distinguish between transverse and longitudinal waves in mechanical media, such as springs and ropes, and on the earth (seismic waves). Describe sound as a longitudinal wave whose speed depends on the properties of the medium in which it propagates.

SC.912.P.10.20:

Related Access Points

Name	Description
SC.912.P.10.In.9:	Identify common applications of electromagnetic waves moving through different media, such as radio waves, microwaves, x-rays, or infrared.
SC.912.P.10.Su.10:	Recognize examples of electromagnetic waves moving through different media, such as microwave ovens, radios, and x-rays.
SC.912.P.10.Pa.10:	Recognize primary and secondary colors in visible light.

Interpret and apply Newton's three laws of motion.

Remarks/Examples:

Explain that when the net force on an object is zero, no acceleration occurs thus, a moving object continues to move at a constant speed in the same direction, or, if at rest, it remains at rest (Newton's first law). Explain that when a net force is applied to an object its motion will change, or accelerate (according to Newton's second law, $F = ma$). Predict and explain how when one object exerts a force on a second object, the second object always exerts a force of equal magnitude but of opposite direction and force back on the first: $F_1 \text{ on } 2 = -F_1 \text{ on } 1$ (Newton's third law).

SC.912.P.12.3:

Related Access Points

Name	Description
SC.912.P.12.In.3:	Recognize various situations that show Newton's third law of motion: for every action there is an equal and opposite reaction.
SC.912.P.12.Su.3:	Recognize the action and reaction in a situation that show Newton's third law of motion: for every action there is an equal and opposite reaction.
SC.912.P.12.Pa.3:	Identify the source of the force moving an object.

SC.912.L.14.4:

Compare and contrast structure and function of various types of microscopes.

Describe the scientific theory of cells (cell theory) and relate the history of its discovery to the process of science.

[SC.912.L.14.1:](#)

Remarks/Examples:

Describe how continuous [investigations](#), and/or new scientific information influenced the development of the [cell](#) theory. Recognize the contributions of scientists in the development of the [cell](#) theory.

Related Access Points

Name	Description
SC.912.L.14.In.1:	Identify that all living things are made of cells and cells function in similar ways (cell theory).
SC.912.L.14.Su.1:	Identify that the cell is the smallest basic unit of life and that all living things are made of cells.
SC.912.L.14.Pa.1:	Match parts of common living things to their functions.

[SC.912.L.14.2:](#)

Relate structure to function for the components of plant and animal cells. Explain the role of cell membranes as a highly selective barrier (passive and active transport).

Related Access Points

Name	Description
SC.912.L.14.In.2:	Identify the major parts of plant and animal cells, including the cell membrane, nucleus, and cytoplasm, and their basic functions.
SC.912.L.14.Su.2:	Recognize that cells have different parts and each has a function.
SC.912.L.14.Pa.1:	Match parts of common living things to their functions.

Compare and contrast the general structures of plant and animal cells. Compare and contrast the general structures of prokaryotic and eukaryotic cells.

[SC.912.L.14.3:](#)

Remarks/Examples:

Annually Assessed on Biology EOC. Also assesses [SC.912.L.14.2](#).

Related Access Points

Name	Description
SC.912.L.14.In.2:	Identify the major parts of plant and animal cells, including the cell membrane, nucleus, and cytoplasm, and their basic functions.
SC.912.L.14.Su.2:	Recognize that cells have different parts and each has a function.
SC.912.L.14.Pa.1:	Match parts of common living things to their functions.

Relate the structure of each of the major plant organs and tissues to physiological processes.

[SC.912.L.14.7:](#)

Remarks/Examples:

Annually Assessed on Biology EOC.

Related Access Points

Name	Description
SC.912.L.14.In.5:	Describe the general processes of food production, support, water transport, and reproduction in the major parts of plants.
SC.912.L.14.Su.4:	Relate parts of plants, such as leaf, stem, root, seed, and flower, to the functions of food production, support, water transport, and reproduction.
SC.912.L.14.Pa.4:	Recognize major plant parts, such as root, stem, leaf, and flower.

Explain how the scientific theory of evolution is supported by the fossil record, comparative anatomy, comparative embryology, biogeography, molecular biology, and observed evolutionary change.

[SC.912.L.15.1:](#)

Remarks/Examples:

Annually Assessed on Biology EOC. Also assesses [SC.912.L.15.10](#) [SC.912.N.1.3](#) [SC.912.N.1.4](#) [SC.912.N.1.6](#) [SC.912.N.2.1](#) [SC.912.N.3.1](#) and [SC.912.N.3.4](#).

Related Access Points

Name	Description
SC.912.L.15.In.1:	Identify that prehistoric plants and animals changed over time (evolved) or became extinct.
SC.912.L.15.Su.1:	Match fossils to related species.
SC.912.L.15.Pa.1:	Recognize that plants and animals change as they age.

[SC.912.L.15.4:](#)

Describe how and why organisms are hierarchically classified and based on evolutionary relationships.

Related Access Points

Name	Description
SC.912.L.15.In.2:	Classify living organisms into their kingdoms.
SC.912.L.15.Su.2:	Match organisms to the animal, plant, and fungus kingdoms.
SC.912.L.15.Pa.2:	Sort common living things into plant and animal kingdoms.

[SC.912.L.15.5:](#)

Explain the reasons for changes in how organisms are classified.

Discuss distinguishing characteristics of the domains and kingdoms of living organisms.

[SC.912.L.15.6:](#)

Remarks/Examples:

Annually Assessed on Biology EOC. Also assesses [SC.912.L.15.4](#) [SC.912.L.15.5](#) [SC.912.N.1.3](#) and [SC.912.N.1.6](#).

Related Access Points

Name	Description
SC.912.L.15.In.2:	Classify living organisms into their kingdoms.
SC.912.L.15.Su.2:	Match organisms to the animal, plant, and fungus kingdoms.
SC.912.L.15.Pa.2:	Sort common living things into plant and animal kingdoms.

Describe the scientific explanations of the origin of life on Earth.

[SC.912.L.15.8:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.N.1.3](#), [SC.912.N.1.4](#), and [SC.912.N.2.1](#).

Related Access Points

Name	Description
SC.912.L.15.In.3:	Identify that there are scientific explanations of the origin of life on Earth.
SC.912.L.15.Su.3:	Recognize that there are scientific explanations of how life began.
SC.912.L.15.Pa.1:	Recognize that plants and animals change as they age.

Use Mendel's laws of segregation and independent assortment to analyze patterns of inheritance.

[SC.912.L.16.1:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.16.2](#).

Related Access Points

Name	Description
SC.912.L.16.In.1:	Identify that genes are sets of instructions that determine which characteristics are passed from parent to offspring.
SC.912.L.16.Su.1:	Recognize characteristics (traits) that offspring inherit from parents.
SC.912.L.16.Pa.1:	Recognize similar characteristics (traits) between a child and parents, such as hair, eye, and skin color, or height.

[SC.912.L.16.14:](#)

Describe the cell cycle, including the process of mitosis. Explain the role of mitosis in the formation of new cells and its importance in maintaining chromosome number during asexual reproduction.

Related Access Points

Name	Description
SC.912.L.16.In.7:	Recognize that cells reproduce by dividing to produce new cells that are identical (mitosis) or new cells that are different (meiosis).
SC.912.L.16.Su.6:	Recognize that cells reproduce by dividing.
SC.912.L.16.Pa.6:	Recognize that living things produce offspring (reproduce).

[SC.912.L.16.16:](#)

Describe the process of meiosis, including independent assortment and crossing over. Explain how reduction division results in the formation of haploid gametes or spores.

Related Access Points

Name	Description
SC.912.L.16.In.7:	Recognize that cells reproduce by dividing to produce new cells that are identical (mitosis) or new cells that are different (meiosis).
SC.912.L.16.Su.6:	Recognize that cells reproduce by dividing.
SC.912.L.16.Pa.6:	Recognize that living things produce offspring (reproduce).

[SC.912.L.16.17:](#)

Compare and contrast mitosis and meiosis and relate to the processes of sexual and asexual reproduction and their consequences for genetic variation.

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.16.8](#) [SC.912.L.16.14](#) [SC.912.L.16.16](#).

Related Access Points

Name	Description
SC.912.L.16.Su.6:	Recognize that cells reproduce by dividing.
SC.912.L.16.Pa.6:	Recognize that living things produce offspring (reproduce).

[SC.912.L.17.2:](#)

Explain the general distribution of life in aquatic systems as a function of chemistry, geography, light, depth, salinity, and temperature.

Related Access Points

Name	Description
SC.912.L.17.In.1:	Recognize that living things in oceans and fresh water are affected by the location, availability of light, depth of the water, and temperature.
SC.912.L.17.Su.1:	Recognize that living things in bodies of water are affected by the location and depth of the water.
SC.912.L.17.Pa.1:	Recognize common living things in bodies of water.

[SC.912.L.17.3:](#) Discuss how various oceanic and freshwater processes, such as currents, tides, and waves, affect the abundance of aquatic organisms.

Related Access Points

Name	Description
SC.912.L.17.In.1:	Recognize that living things in oceans and fresh water are affected by the location, availability of light, depth of the water, and temperature.
SC.912.L.17.Su.1:	Recognize that living things in bodies of water are affected by the location and depth of the water.
SC.912.L.17.Pa.1:	Recognize common living things in bodies of water.

[SC.912.L.17.4:](#) Describe changes in ecosystems resulting from seasonal variations, climate change and succession.

Related Access Points

Name	Description
SC.912.L.17.In.2:	Identify that living things in an ecosystem are affected by changes in the environment, such as changes to the food supply, climate change, or the introduction of predators.
SC.912.L.17.Su.2:	Recognize how animals and plants in an ecosystem may be affected by changes to the food supply or climate.
SC.912.L.17.Pa.2:	Recognize what happens to plants and animals when they don't get enough food or water.

Use a food web to identify and distinguish producers, consumers, and decomposers. Explain the pathway of energy transfer through trophic levels and the reduction of available energy at successive trophic levels.

[SC.912.L.17.9:](#)

Remarks/Examples:
Annually assessed on Biology EOC. Also assesses [SC.912.E.7.1](#).

Related Access Points

Name	Description
SC.912.L.17.In.5:	Identify the components of a food web, including sunlight, producers, consumers, and decomposers, and trace the flow of energy from the Sun.
SC.912.L.17.Su.5:	Identify producers, consumers, and decomposers in a simple food chain.
SC.912.L.17.Pa.5:	Recognize that animals (consumers) eat animals and plants for food.

[SC.912.L.17.11:](#) Evaluate the costs and benefits of renewable and nonrenewable resources, such as water, energy, fossil fuels, wildlife, and forests.

Related Access Points

Name	Description
SC.912.L.17.In.7:	Identify types of renewable and nonrenewable natural resources and explain the need for conservation.
SC.912.L.17.Su.7:	Identify a way to conserve a familiar, nonrenewable, natural resource.
SC.912.L.17.Pa.6:	Recognize the importance of clean water for living things.

Describe the basic molecular structures and primary functions of the four major categories of biological macromolecules.

[SC.912.L.18.1:](#)

Remarks/Examples:
Annually assessed on Biology EOC. Also assesses [SC.912.L.18.11](#).

Related Access Points

Name	Description
SC.912.L.18.In.1:	Identify that carbohydrates, fats, proteins, and nucleic acids (macromolecules) are important for human organisms.
SC.912.L.18.Su.1:	Recognize that humans use proteins, carbohydrates, and fats.
SC.912.L.18.Pa.1:	Recognize that humans need different kinds of food.

[SC.912.L.18.7:](#) Identify the reactants, products, and basic functions of photosynthesis.

Related Access Points

Name	Description
SC.912.L.18.In.2:	Identify the products and function of photosynthesis.
SC.912.L.18.Su.2:	Recognize that the function of photosynthesis is to produce food for plants.
SC.912.L.18.Pa.2:	Recognize that plants need water, light, and air to grow.

[SC.912.L.18.8:](#) Identify the reactants, products, and basic functions of aerobic and anaerobic cellular respiration.

Related Access Points

Name	Description
SC.912.L.18.In.3:	Identify that cells release energy from food so the organism can use it (cellular respiration).
SC.912.L.18.Su.3:	Recognize that cells get energy from food.
SC.912.L.18.Pa.3:	Identify that food is a source of energy.

Explain the interrelated nature of photosynthesis and cellular respiration.

[SC.912.L.18.9:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.18.7](#) [SC.912.L.18.8](#) [SC.912.L.18.10](#).

Related Access Points

Name	Description
SC.912.L.18.In.4:	Recognize that plants give off oxygen that is used by animals and animals give off carbon dioxide that is used by plants.
SC.912.L.18.Su.4:	Recognize that people and animals breathe in the oxygen that plants give off.
SC.912.L.18.Pa.2:	Recognize that plants need water, light, and air to grow.

Discuss the special properties of water that contribute to Earth's suitability as an environment for life: cohesive behavior, ability to moderate temperature, expansion upon freezing, and versatility as a solvent.

[SC.912.L.18.12:](#)

Remarks/Examples:

Annually assessed on Biology EOC.

Related Access Points

Name	Description
SC.912.L.18.In.7:	Identify that special properties of water, such as the ability to moderate temperature and dissolve substances, help to sustain living things on Earth.
SC.912.L.18.Su.6:	Identify the important role of water in sustaining life of plants and animals.
SC.912.L.18.Pa.5:	Recognize that plants and animals use water to live.

Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★

[MAFS.912.N-Q.1.1:](#)

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.1a:	Interpret units in the context of the problem.
MAFS.912.N-Q.1.AP.1b:	When solving a multi-step problem, use units to evaluate the appropriateness of the solution.
MAFS.912.N-Q.1.AP.1c:	Choose the appropriate units for a specific formula and interpret the meaning of the unit in that context.
MAFS.912.N-Q.1.AP.1d:	Choose and interpret both the scale and the origin in graphs and data displays.

Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★

[MAFS.912.N-Q.1.3:](#)

Related Access Points

Name	Description
MAFS.912.N-Q.1.AP.3a:	Describe the accuracy of measurement when reporting quantities (you can lessen your limitations by measuring precisely).

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

[LAFS.910.SL.1.1:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

[LAFS.910.SL.1.2:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

[LAFS.910.SL.1.3:](#)

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker's point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker's point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.SL.2.5:](#)

Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.5a:	Include multimedia components and visual displays in presentations to clarify claims and findings and emphasize salient points.

[LAFS.910.RST.1.1:](#)

Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.

[LAFS.910.RST.1.2:](#)

Determine the central ideas or conclusions of a text; trace the text's explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text.

[LAFS.910.RST.1.3:](#)

Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in the text.

[LAFS.910.RST.2.4:](#)

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.RST.2.5:](#)

Analyze the structure of the relationships among concepts in a text, including relationships among key terms (e.g., force, friction, reaction force, energy).

[LAFS.910.RST.2.6:](#)

Analyze the author's purpose in providing an explanation, describing a procedure, or discussing an experiment in a text, defining the question the author seeks to address.

[LAFS.910.RST.3.7:](#)

Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

[LAFS.910.RST.3.8:](#)

Assess the extent to which the reasoning and evidence in a text support the author's claim or a recommendation for solving a scientific or technical problem.

[LAFS.910.RST.3.9:](#)

Compare and contrast findings presented in a text to those from other sources (including their own experiments), noting when the findings support or contradict previous explanations or accounts.

[LAFS.910.RST.4.10:](#)

By the end of grade 10, read and comprehend science/technical texts in the grades 9–10 text complexity band independently and proficiently.

[LAFS.910.WHST.1.1:](#)

Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.1.2:](#)

Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

- Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.
- Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

[LAFS.910.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.910.WHST.2.5:](#)

Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

[LAFS.910.WHST.2.6:](#)

Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

[LAFS.910.WHST.3.7:](#)

Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each

LAFS.910.WHST.3.8:	source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.XX.1:	English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Science.

There are more than 714 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12922>

Fundamental Integrated Science 1 (#7920030)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7920030

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas >

Course Section: Exceptional Student Education

Number of Credits: One credit (1)

Course Status: Draft - Course Pending Approval

Abbreviated Title: FUND INTEG SCI 1

Course Length: Year (Y)

GENERAL NOTES

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Laboratory investigations that include the use of scientific inquiry, research, measurement, problem solving, laboratory apparatus and technologies, experimental procedures, and safety procedures are an integral part of this course. The National Science Teachers Association (NSTA) recommends that at the high school level, all students should be in the science lab or field, collecting data every week. School laboratory investigations (labs) are defined by the National Research Council (NRC) as an experience in the laboratory, classroom, or the field that provides students with opportunities to interact directly with natural phenomena or with data collected by others using tools, materials, data collection techniques, and models (NRC, 2006, p. 3).

Laboratory investigations in the high school classroom should help all students develop a growing understanding of the complexity and ambiguity of empirical work, as well as the skills to calibrate and troubleshoot equipment used to make observations. Learners should understand measurement error; and have the skills to aggregate, interpret, and present the resulting data (National Research Council, 2006, p.77; NSTA, 2007).

Special Notes:

Instructional Strategies

1. Utilize UDL strategies when planning lessons for all students.
2. Ensure that students have accessible instructional materials.
3. Ensure that students read from text that varies in length and complexity.
4. Provide graphic organizers and instruct students on how to use them properly to support understanding of concepts.
5. Use rubrics for assignments that clearly outline expectations for students.
6. Make close reading and rereading of texts central to lessons and provide guided practice and immediate feedback in how to do this.
7. Provide multiple opportunities to practice new vocabulary.
8. Provide explicit instruction in how students can locate evidence from text to support their answers.
9. Provide extensive research and writing opportunities (claims and evidence) based on student interest.
10. Provide students with outlines that assist them in note taking during teacher-led instruction.
11. Teach students to utilize appropriate graphic organizers or organize thoughts when planning for writing assignments.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Science. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SC.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
SC.6.E.6.1:	Describe and give examples of ways in which Earth's surface is built up and torn down by physical and chemical weathering, erosion, and deposition.
	Recognize that there are a variety of different landforms on Earth's surface such as coastlines, dunes, rivers, mountains, glaciers, deltas, and lakes and relate these landforms as they apply to Florida.
SC.6.E.6.2:	Remarks/Examples:

Annually assessed on Grade 5 Science FCAT 2.0. Also assesses [SC.4.E.6.1](#).

SC.6.E.7.1:	Differentiate among radiation, conduction, and convection, the three mechanisms by which heat is transferred through Earth's system.
SC.6.L.14.2:	Investigate and explain the components of the scientific theory of cells (cell theory): all organisms are composed of cells (single-celled or multi-cellular), all cells come from pre-existing cells, and cells are the basic unit of life.
SC.6.L.14.3:	Recognize and explore how cells of all organisms undergo similar processes to maintain homeostasis, including extracting energy from food, getting rid of waste, and reproducing.
SC.6.L.14.4:	Compare and contrast the structure and function of major organelles of plant and animal cells, including cell wall, cell membrane, nucleus, cytoplasm, chloroplasts, mitochondria, and vacuoles. Remarks/Examples: Florida Standards Connections: MAFS.K12.MP.7 : Look for and make use of structure.
SC.6.L.15.1:	Analyze and describe how and why organisms are classified according to shared characteristics with emphasis on the Linnaean system combined with the concept of Domains.
SC.7.L.16.1:	Understand and explain that every organism requires a set of instructions that specifies its traits, that this hereditary information (DNA) contains genes located in the chromosomes of each cell, and that heredity is the passage of these instructions from one generation to another. Remarks/Examples: Integrate HE.7.C.1.4 . Describe how heredity can affect personal health.
SC.7.L.16.2:	Determine the probabilities for genotype and phenotype combinations using Punnett Squares and pedigrees.
SC.7.L.16.3:	Compare and contrast the general processes of sexual reproduction requiring meiosis and asexual reproduction requiring mitosis.
SC.7.L.17.1:	Explain and illustrate the roles of and relationships among producers, consumers, and decomposers in the process of energy transfer in a food web.
SC.8.P.8.1:	Explore the scientific theory of atoms (also known as atomic theory) by using models to explain the motion of particles in solids, liquids, and gases. Remarks/Examples: Recognize that matter is composed of discrete units called atoms and atoms are composed of sub-atomic particles called protons, neutrons , and electrons . Solid is the state in which intermolecular attractions keep the molecules in fixed spatial relationships. Liquid is the state in which intermolecular attractions keep molecules in proximity, but not in fixed relationships. Gas is the state in which molecules are comparatively separated and intermolecular attractions have relatively little effect on their respective motions. Florida Standards Connections: MAFS.K12.MP.4 : Model with mathematics.
SC.8.P.8.4:	Classify and compare substances on the basis of characteristic physical properties that can be demonstrated or measured; for example, density, thermal or electrical conductivity, solubility, magnetic properties, melting and boiling points, and know that these properties are independent of the amount of the sample. Remarks/Examples: Florida Standards Connections: MAFS.K12.MP.5 : Use appropriate tools strategically and, MAFS.K12.MP.6 : Attend to precision.
SC.8.P.8.6:	Recognize that elements are grouped in the periodic table according to similarities of their properties.
SC.8.P.8.7:	Explore the scientific theory of atoms (also known as atomic theory) by recognizing that atoms are the smallest unit of an element and are composed of sub-atomic particles (electrons surrounding a nucleus containing protons and neutrons). Remarks/Examples: Florida Standards Connections: MAFS.K12.MP.4 : Model with mathematics.
SC.8.P.8.8:	Identify basic examples of and compare and classify the properties of compounds, including acids, bases, and salts.
SC.8.P.9.3:	Investigate and describe how temperature influences chemical changes.
SC.8.L.18.1:	Describe and investigate the process of photosynthesis, such as the roles of light, carbon dioxide, water and chlorophyll; production of food; release of oxygen.
SC.8.L.18.2:	Describe and investigate how cellular respiration breaks down food to provide energy and releases carbon dioxide.
	Define a problem based on a specific body of knowledge, for example: biology, chemistry, physics, and earth/space science, and do the following: <ol style="list-style-type: none">1. Pose questions about the natural world, (Articulate the purpose of the investigation and identify the relevant scientific concepts).2. Conduct systematic observations, (Write procedures that are clear and replicable. Identify observables and examine relationships between test (independent) variable and outcome (dependent) variable. Employ appropriate methods for accurate and consistent observations; conduct and record measurements at appropriate levels of precision. Follow safety guidelines).3. Examine books and other sources of information to see what is already known,4. Review what is known in light of empirical evidence, (Examine whether available empirical evidence can be interpreted in terms of existing knowledge and models, and if not, modify or develop new models).5. Plan investigations, (Design and evaluate a scientific investigation).6. Use tools to gather, analyze, and interpret data (this includes the use of measurement in metric and other systems, and also the generation and interpretation of graphical representations of data, including data tables and graphs), (Collect data or evidence in an organized way. Properly use instruments, equipment, and materials (e.g., scales, probeware, meter sticks, microscopes, computers) including set-up, calibration, technique, maintenance, and storage).7. Pose answers, explanations, or descriptions of events,8. Generate explanations that explicate or describe natural phenomena (inferences),9. Use appropriate evidence and reasoning to justify these explanations to others,10. Communicate results of scientific investigations, and11. Evaluate the merits of the explanations produced by others. Remarks/Examples: Florida Standards Connections for 6-12 Literacy in Science For Students in Grades 9-10 LAFS.910.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.

[SC.912.N.1.1:](#)

LAFS.910.RST.1.3 Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks attending to special cases or exceptions defined in the text.

LAFS.910.RST.3.7 Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

LAFS.910.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

LAFS.910.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.

For Students in Grades 11-12

LAFS.1112.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account.

LAFS.1112.RST.1.3 Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks analyze the specific results based on explanations in the text.

LAFS.1112.RST.3.7 Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.

LAFS.1112.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

LAFS.1112.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.

Florida Standards Connections for Mathematical Practices

MAFS.K12.MP.1: Make sense of problems and persevere in solving them.

MAFS.K12.MP.2: Reason abstractly and quantitatively.

MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others. [Viable arguments include evidence.]

MAFS.K12.MP.4: Model with mathematics.

MAFS.K12.MP.5: Use appropriate tools strategically.

MAFS.K12.MP.6: Attend to precision.

MAFS.K12.MP.7: Look for and make use of structure.

MAFS.K12.MP.8: Look for and express regularity in repeated reasoning.

Describe how scientific inferences are drawn from scientific observations and provide examples from the content being studied.

Remarks/Examples:

Collect data/evidence and use tables/graphs to draw conclusions and make inferences based on patterns or trends in the data.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them.

[SC.912.N.1.6:](#)

Identify what is science, what clearly is not science, and what superficially resembles science (but fails to meet the criteria for science).

Remarks/Examples:

Science is the systematic and organized inquiry that is derived from observations and experimentation that can be verified or tested by further investigation to explain natural phenomena (e.g. Science is testable, pseudo-science is not science seeks falsifications, pseudo-science seeks confirmations.)

[SC.912.N.2.1:](#)

Explain that a scientific theory is the culmination of many scientific investigations drawing together all the current evidence concerning a substantial range of phenomena; thus, a scientific theory represents the most powerful explanation scientists have to offer.

Remarks/Examples:

Explain that a scientific theory is a well-tested hypothesis supported by a preponderance of empirical evidence.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them and, MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

[SC.912.N.3.1:](#)

Explain that scientific laws are descriptions of specific relationships under given conditions in nature, but do not offer explanations for those relationships.

Remarks/Examples:

Recognize that a scientific theory provides a broad explanation of many observed phenomena while a scientific law describes how something behaves.

[SC.912.N.3.3:](#)

Recognize that theories do not become laws, nor do laws become theories; theories are well supported explanations and laws are well supported descriptions.

Remarks/Examples:

Recognize that theories do not become laws, theories explain laws. Recognize that not all scientific laws have accompanying explanatory theories.

[SC.912.N.3.4:](#)

[SC.912.L.17.14:](#)

Assess the need for adequate waste management strategies.

[SC.912.L.17.4:](#)

Describe changes in ecosystems resulting from seasonal variations, climate change and succession.

Describe the basic molecular structures and primary functions of the four major categories of biological macromolecules.

[SC.912.L.18.1:](#)

Remarks/Examples:

Annually assessed on Biology EOC. Also assesses [SC.912.L.18.11](#).

[SC.912.L.18.7:](#)

Identify the reactants, products, and basic functions of photosynthesis.

Discuss the special properties of water that contribute to Earth's suitability as an environment for life: cohesive behavior, ability to moderate temperature, expansion upon freezing, and versatility as a solvent.

[SC.912.L.18.12:](#)

Remarks/Examples:

Annually assessed on Biology EOC.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.XX.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Science.

GENERAL NOTES

Laboratory investigations that include the use of scientific inquiry, research, measurement, problem solving, laboratory apparatus and technologies, experimental procedures, and safety procedures are an integral part of this course. The National Science Teachers Association (NSTA) recommends that at the high school level, all students should be in the science lab or field, collecting data every week.

School laboratory investigations (labs) are defined by the National Research Council (NRC) as an experience in the laboratory, classroom, or the field that provides students with opportunities to interact directly with natural phenomena or with data collected by others using tools, materials, data collection techniques, and models (NRC, 2006, p. 3). Laboratory investigations in the high school classroom should help all students develop a growing understanding of the complexity and ambiguity of empirical work, as well as the skills to calibrate and troubleshoot equipment used to make observations. Learners should understand measurement error; and have the skills to aggregate, interpret, and present the resulting data (National Research Council, 2006, p.77; NSTA, 2007).

Special Notes:

Instructional Strategies

- Utilize UDL strategies when planning lessons for all students.
- Ensure that students have accessible instructional materials.
- Ensure that students read from text that varies in length and complexity.
- Provide graphic organizers and instruct students on how to use them properly to support understanding of concepts.
- Use rubrics for assignments that clearly outline expectations for students.
- Make close reading and rereading of texts central to lessons and provide guided practice and immediate feedback in how to do this.
- Provide multiple opportunities to practice new vocabulary.
- Provide explicit instruction in how students can locate evidence from text to support their answers.
- Provide extensive research and writing opportunities (claims and evidence) based on student interest.
- Provide students with outlines that assist them in note taking during teacher-led instruction.
- Teach students to utilize appropriate graphic organizers or organize thoughts when planning for writing assignments.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Science. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SC.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Course Standards

Name	Description
SC.6.E.7.4:	Differentiate and show interactions among the geosphere, hydrosphere, cryosphere, atmosphere, and biosphere.
	Explain how energy provided by the sun influences global patterns of atmospheric movement and the temperature differences between air, water,

and land.

[SC.6.E.7.5:](#)

Remarks/Examples:

Florida Standards Connections: MAFS.K12.MP.7: Look for and make use of structure.

[SC.6.L.14.5:](#)

Identify and investigate the general functions of the major systems of the human body (digestive, respiratory, circulatory, reproductive, excretory, immune, nervous, and musculoskeletal) and describe ways these systems interact with each other to maintain homeostasis.

Compare and contrast types of infectious agents that may infect the human body, including viruses, bacteria, fungi, and parasites.

[SC.6.L.14.6:](#)

Remarks/Examples:

Integrate [HE.6.C.1.8](#). Explain how body systems are impacted by hereditary factors and infectious agents.

[SC.7.L.16.1:](#)

Understand and explain that every organism requires a set of instructions that specifies its traits, that this hereditary information (DNA) contains genes located in the chromosomes of each cell, and that heredity is the passage of these instructions from one generation to another.

Remarks/Examples:

Integrate [HE.7.C.1.4](#). Describe how heredity can affect personal health.

[SC.7.L.16.3:](#)

Compare and contrast the general processes of sexual reproduction requiring meiosis and asexual reproduction requiring mitosis.

Recognize and explore the impact of biotechnology (cloning, genetic engineering, artificial selection) on the individual, society and the environment.

[SC.7.L.16.4:](#)

Remarks/Examples:

Integrate [HE.7.C.1.4](#). Describe how heredity can affect personal health.

[SC.7.L.17.1:](#)

Explain and illustrate the roles of and relationships among producers, consumers, and decomposers in the process of energy transfer in a food web.

[SC.7.L.17.2:](#)

Compare and contrast the relationships among organisms such as mutualism, predation, parasitism, competition, and commensalism.

[SC.8.E.5.4:](#) Explore the Law of Universal Gravitation by explaining the role that gravity plays in the formation of planets, stars, and solar systems and in determining their motions.

[SC.8.E.5.7:](#)

Compare and contrast the properties of objects in the Solar System including the Sun, planets, and moons to those of Earth, such as gravitational force, distance from the Sun, speed, movement, temperature, and atmospheric conditions.

[SC.8.L.18.1:](#)

Describe and investigate the process of photosynthesis, such as the roles of light, carbon dioxide, water and chlorophyll; production of food; release of oxygen.

Define a problem based on a specific body of knowledge, for example: biology, chemistry, physics, and earth/space science, and do the following:

1. **Pose questions about the natural world**, (Articulate the purpose of the investigation and identify the relevant scientific concepts).
2. **Conduct systematic observations**, (Write procedures that are clear and replicable. Identify observables and examine relationships between test (independent) variable and outcome (dependent) variable. Employ appropriate methods for accurate and consistent observations; conduct and record measurements at appropriate levels of precision. Follow safety guidelines).
3. **Examine books and other sources of information to see what is already known**,
4. **Review what is known in light of empirical evidence**, (Examine whether available empirical evidence can be interpreted in terms of existing knowledge and models, and if not, modify or develop new models).
5. **Plan investigations**, (Design and evaluate a scientific investigation).
6. **Use tools to gather, analyze, and interpret data** (this includes the use of measurement in metric and other systems, and also the generation and interpretation of graphical representations of data, including data tables and graphs), (Collect data or evidence in an organized way. Properly use instruments, equipment, and materials (e.g., scales, probeware, meter sticks, microscopes, computers) including set-up, calibration, technique, maintenance, and storage).
7. **Pose answers, explanations, or descriptions of events**,
8. **Generate explanations that explicate or describe natural phenomena (inferences)**,
9. **Use appropriate evidence and reasoning to justify these explanations to others**,
10. **Communicate results of scientific investigations, and**
11. **Evaluate the merits of the explanations produced by others.**

Remarks/Examples:

Florida Standards Connections for 6-12 Literacy in Science
For Students in Grades 9-10

LAFS.910.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.

VERSION REQUIREMENTS

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Course Standards

Name	Description
SC.6.E.6.2:	Recognize that there are a variety of different landforms on Earth's surface such as coastlines, dunes, rivers, mountains, glaciers, deltas, and lakes and relate these landforms as they apply to Florida.
	Remarks/Examples:

Annually assessed on Grade 5 Science FCAT 2.0. Also assesses [SC.4.E.6.1](#).

Investigate and apply how the cycling of water between the atmosphere and hydrosphere has an effect on weather patterns and climate.

[SC.6.E.7.2:](#)

Remarks/Examples:

Florida Standards Connections: MAFS.K12.MP.7: Look for and make use of structure.

[SC.6.L.15.1:](#)

Analyze and describe how and why organisms are classified according to shared characteristics with emphasis on the Linnaean system combined with the concept of Domains.

[SC.7.E.6.4:](#)

Explain and give examples of how physical evidence supports scientific theories that Earth has evolved over geologic time due to natural processes.

[SC.7.E.6.7:](#)

Recognize that heat flow and movement of material within Earth causes earthquakes and volcanic eruptions, and creates mountains and ocean basins.

[SC.7.L.15.1:](#)

Recognize that fossil evidence is consistent with the scientific theory of evolution that living things evolved from earlier species.

[SC.7.L.15.2:](#)

Explore the scientific theory of evolution by recognizing and explaining ways in which genetic variation and environmental factors contribute to evolution by natural selection and diversity of organisms.

[SC.7.L.15.3:](#)

Explore the scientific theory of evolution by relating how the inability of a species to adapt within a changing environment may contribute to the extinction of that species.

[SC.7.L.16.1:](#)

Remarks/Examples:

Integrate [HE.7.C.1.4](#). Describe how [heredity](#) can affect personal health.

Recognize and explore the impact of biotechnology (cloning, genetic engineering, artificial selection) on the individual, society and the environment.

[SC.7.L.16.4:](#)

Remarks/Examples:

Integrate [HE.7.C.1.4](#). Describe how [heredity](#) can affect personal health.

[SC.7.L.17.3:](#)

Describe and investigate various limiting factors in the local ecosystem and their impact on native populations, including food, shelter, water, space, disease, parasitism, predation, and nesting sites.

Define a problem based on a specific body of knowledge, for example: biology, chemistry, physics, and earth/space science, and do the following:

1. **Pose questions about the natural world, (Articulate the purpose of the investigation and identify the relevant scientific concepts).**
2. **Conduct systematic observations, (Write procedures that are clear and replicable. Identify observables and examine relationships between test (independent) variable and outcome (dependent) variable. Employ appropriate methods for accurate and consistent observations; conduct and record measurements at appropriate levels of precision. Follow safety guidelines).**
3. **Examine books and other sources of information to see what is already known,**
4. **Review what is known in light of empirical evidence, (Examine whether available empirical evidence can be interpreted in terms of existing knowledge and models, and if not, modify or develop new models).**
5. **Plan investigations, (Design and evaluate a scientific investigation).**
6. **Use tools to gather, analyze, and interpret data (this includes the use of measurement in metric and other systems, and also the generation and interpretation of graphical representations of data, including data tables and graphs), (Collect data or evidence in an organized way. Properly use instruments, equipment, and materials (e.g., scales, probeware, meter sticks, microscopes, computers) including set-up, calibration, technique, maintenance, and storage).**
7. **Pose answers, explanations, or descriptions of events,**
8. **Generate explanations that explicate or describe natural phenomena (inferences),**
9. **Use appropriate evidence and reasoning to justify these explanations to others,**
10. **Communicate results of scientific investigations, and**
11. **Evaluate the merits of the explanations produced by others.**

Remarks/Examples:

Florida Standards Connections for 6-12 Literacy in Science
For Students in Grades 9-10

LAFS.910.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to the precise details of explanations or descriptions.

LAFS.910.RST.1.3 Follow precisely a complex multistep procedure when carrying out [experiments](#), taking measurements, or performing technical tasks attending to special cases or exceptions defined in the text.

[SC.912.N.1.1:](#)

LAFS.910.RST.3.7 Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.

LAFS.910.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ [experiments](#), or technical processes.

LAFS.910.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.

For Students in Grades 11-12

LAFS.1112.RST.1.1 Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account.

LAFS.1112.RST.1.3 Follow precisely a complex multistep procedure when carrying out [experiments](#), taking measurements, or performing technical tasks analyze the specific results based on explanations in the text.

LAFS.1112.RST.3.7 Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.

LAFS.1112.WHST.1.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ [experiments](#), or technical processes.

LAFS.1112.WHST.3.9 Draw evidence from informational texts to support analysis, reflection, and research.

Florida Standards Connections for Mathematical Practices

- MAFS.K12.MP.1: Make sense of problems and persevere in solving them.
- MAFS.K12.MP.2: Reason abstractly and quantitatively.
- MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others. [Viable arguments include evidence.]
- MAFS.K12.MP.4: Model with mathematics.
- MAFS.K12.MP.5: Use appropriate tools strategically.
- MAFS.K12.MP.6: Attend to precision.
- MAFS.K12.MP.7: Look for and make use of structure.
- MAFS.K12.MP.8: Look for and express regularity in repeated reasoning.

Recognize that the strength or usefulness of a scientific claim is evaluated through scientific argumentation, which depends on critical and logical thinking, and the active consideration of alternative scientific explanations to explain the data presented.

[SC.912.N.1.3:](#)

Remarks/Examples:

Assess the reliability of data and identify reasons for inconsistent results, such as sources of error or uncontrolled conditions.

Florida Standards Connections: MAFS.K12.MP.2: Reason abstractly and quantitatively MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others

Describe how scientific inferences are drawn from scientific observations and provide examples from the content being studied.

[SC.912.N.1.6:](#)

Remarks/Examples:

Collect data/evidence and use tables/graphs to draw conclusions and make inferences based on patterns or trends in the data.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them.

Identify which questions can be answered through science and which questions are outside the boundaries of scientific investigation, such as questions addressed by other ways of knowing, such as art, philosophy, and religion.

[SC.912.N.2.2:](#)

Remarks/Examples:

Identify scientific questions that can be disproved by experimentation/testing. Recognize that pseudoscience is a claim, belief, or practice which is presented as scientific, but does not adhere to strict standards of science (e.g. controlled variables, sample size, replicability, empirical and measurable evidence, and the concept of falsification).

Florida Standards Connections: MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Explain that a scientific theory is the culmination of many scientific investigations drawing together all the current evidence concerning a substantial range of phenomena; thus, a scientific theory represents the most powerful explanation scientists have to offer.

[SC.912.N.3.1:](#)

Remarks/Examples:

Explain that a scientific theory is a well-tested hypothesis supported by a preponderance of empirical evidence.

Florida Standards Connections: MAFS.K12.MP.1: Make sense of problems and persevere in solving them and, MAFS.K12.MP.3: Construct viable arguments and critique the reasoning of others.

Analyze how specific geologic processes and features are expressed in Florida and elsewhere.

[SC.912.E.6.4:](#)

Remarks/Examples:

Describe the effect of ocean and Gulf water currents, gravel mining, beach erosion, dune development, aquifers and ground water, salt water intrusion, springs, and sink holes on the formation of the Florida peninsula. Explain the effects of latitude, elevation, topography (land surface type), proximity to large bodies of water, and temperature of ocean currents, on climate in Florida.

Predict future weather conditions based on present observations and conceptual models and recognize limitations and uncertainties of such predictions.

[SC.912.E.7.5:](#)

Remarks/Examples:

Use models, weather maps and other tools to predict weather conditions and differentiate between accuracy of short-range and long-range weather forecasts.

Relate the formation of severe weather to the various physical factors.

[SC.912.E.7.6:](#)

Remarks/Examples:

Identify the causes of severe weather. Compare and contrast physical factors that affect the formation of severe weather events (e.g. hurricanes, tornados, flash floods, thunderstorms, and drought).

Describe oxidation-reduction reactions in living and non-living systems.

[SC.912.P.8.10:](#)

Remarks/Examples:

Identify the substance(s) losing and gaining electrons in oxidation-reduction reactions. Discuss voltaic cells, various types of batteries, electrolysis of water, smelting and purification of metals, electrolysis of brine versus molten NaCl, neutralization reactions, electrolytic cells, and living systems (photosynthesis and cellular respiration).

Interpret the behavior of ideal gases in terms of kinetic molecular theory.

[SC.912.P.12.10:](#)

Remarks/Examples:

Using the kinetic molecular theory, explain the behavior of gases and the relationship between pressure and volume (Boyle's law), volume and temperature (Charles's law), pressure and temperature (Gay-Lussac's law), and number of particles in a gas sample (Avogadro's hypothesis).

Explain how the scientific theory of evolution is supported by the fossil record, comparative anatomy, comparative embryology, biogeography, molecular biology, and observed evolutionary change.

[SC.912.L.15.1:](#)

Remarks/Examples:

	Annually Assessed on Biology EOC. Also assesses SC.912.L.15.10 SC.912.N.1.3 SC.912.N.1.4 SC.912.N.1.6 SC.912.N.2.1 SC.912.N.3.1 and SC.912.N.3.4 .
	Discuss distinguishing characteristics of the domains and kingdoms of living organisms.
SC.912.L.15.6:	Remarks/Examples: Annually Assessed on Biology EOC. Also assesses SC.912.L.15.4 SC.912.L.15.5 SC.912.N.1.3 and SC.912.N.1.6 .
	Describe the conditions required for natural selection, including: overproduction of offspring, inherited variation, and the struggle to survive, which result in differential reproductive success.
SC.912.L.15.13:	Remarks/Examples: Annually assessed on Biology EOC. Also assesses SC.912.L.15.14 , SC.912.L.15.15 , and SC.912.N.1.3 .
SC.912.L.16.4:	Explain how mutations in the DNA sequence may or may not result in phenotypic change. Explain how mutations in gametes may result in phenotypic changes in offspring.
	Explain the relationship between mutation, cell cycle, and uncontrolled cell growth potentially resulting in cancer.
SC.912.L.16.8:	Remarks/Examples: Integrate HE.912.C.1.7 . Analyze how heredity and family history can impact personal health.
	Evaluate the impact of biotechnology on the individual, society and the environment, including medical and ethical issues.
SC.912.L.16.10:	Remarks/Examples: Annually assessed on Biology EOC.
	Describe the basic anatomy and physiology of the human reproductive system. Describe the process of human development from fertilization to birth and major changes that occur in each trimester of pregnancy.
SC.912.L.16.13:	Remarks/Examples: Annually assessed on Biology EOC.
	Analyze how population size is determined by births, deaths, immigration, emigration, and limiting factors (biotic and abiotic) that determine carrying capacity.
SC.912.L.17.5:	Remarks/Examples: Annually assessed on Biology EOC. Also assesses SC.912.L.17.2 SC.912.L.17.4 SC.912.L.17.8 SC.912.N.1.4 .
SC.912.L.17.8:	Recognize the consequences of the losses of biodiversity due to catastrophic events, climate changes, human activity, and the introduction of invasive, non-native species.
SC.912.L.17.11:	Evaluate the costs and benefits of renewable and nonrenewable resources, such as water, energy, fossil fuels, wildlife, and forests.
	Predict the impact of individuals on environmental systems and examine how human lifestyles affect sustainability.
SC.912.L.17.20:	Remarks/Examples: Annually assessed on Biology EOC. Also assesses SC.912.L.17.11 , SC.912.L.17.13 , SC.912.N.1.3 .
	Discuss the special properties of water that contribute to Earth's suitability as an environment for life: cohesive behavior, ability to moderate temperature, expansion upon freezing, and versatility as a solvent.
SC.912.L.18.12:	Remarks/Examples: Annually assessed on Biology EOC.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.XX.1:	English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Science.

There are more than 467 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12927>

Access Health and Safety (#7920050)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7920050

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas >

Course Section: Exceptional Student Education

Number of Credits: Multiple credits

Course Type: Elective

Course Status: Draft - Course Pending Approval

Keywords: access, health, safety, ESE

Abbreviated Title: Access Health and Safety

Course Length: Semester (S)

VERSION DESCRIPTION

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

Three levels of functioning, independent, supported, and participatory, have been designated to provide a way to differentiate benchmarks and course requirements for students with diverse abilities. Individual students may function at one level across all areas, or at several different levels, depending on the requirements of the situation.

GENERAL NOTES

Any student whose parents or guardian make a written request to the school principal shall be exempt from instructional activities regarding HIV/AIDS or human sexuality. Course requirements for HIV/AIDS and human sexuality shall not interfere with the local determination of appropriate curriculum which reflects local values and concerns.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MAFS.912.S-MD.2.7:	Analyze decisions and strategies using probability concepts (e.g., product testing, medical testing, pulling a hockey goalie at the end of a game). ★
LAFS.910.RL.2.4:	Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone).
Related Access Points	
LAFS.910.RL.2.AP.4a:	Determine the meaning of words and phrases as they are used in a text, including figurative (i.e., metaphors, similes and idioms) and connotative meanings.
LAFS.910.L.3.6:	Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.
Related Access Points	
LAFS.910.L.3.AP.6a:	Use grade-appropriate general academic and domain-specific words and phrases accurately within writing.

Compile data reflecting the accessibility of resources from home, school, and community that provide valid health information.

[HE.912.B.3.2:](#)

Remarks/Examples:

Internet, family member, nurse, guidance counselor, physician, clinic, hotline, support group, community agency, domestic/dating-violence service provider, and first-aid training location, expense, services available, eligibility, scheduling appointments, healthcare, and mental-health resources.

Related Access Points

Name	Description
HE.912.B.3.In.b:	Describe accessible resources in the home, school, and community that provide valid health information, such as Internet sites, family members, nurses, guidance counselors, physicians, clinics, hotlines, and support groups.
HE.912.B.3.Su.b:	Identify accessible resources in the home, school, and community that provide valid health information, such as Internet sites, family members, nurses, guidance counselors, physicians, clinics, hotlines, and support groups.
HE.912.B.3.Pa.b:	Recognize the accessibility of selected products and services that enhance health, such as location, expense, services available, eligibility, and appointment scheduling.

Justify the validity of a variety of technologies to gather health information.

[HE.912.B.3.3:](#)

Remarks/Examples:

Internet, telephone, 911 access, and medical technology, including X-rays, ultrasounds, mammograms, thermal imaging, and MRIs.

Related Access Points

Name	Description
HE.912.B.3.In.c:	Describe common technologies that provide valid health information, such as the Internet, telephone, 911 access, and medical technology including X-rays, ultrasounds, mammograms, and MRIs.
HE.912.B.3.Su.c:	Identify selected technologies that provide valid health information, such as the Internet, telephone, 911 access, and medical technology including X-rays, ultrasounds, mammograms, and MRIs.
HE.912.B.3.Pa.c:	Recognize selected technologies that provide valid health information, such as the Internet, telephone, 911 access, and medical technology, including X-rays.

Justify when professional health services or providers may be required.

[HE.912.B.3.4:](#)

Remarks/Examples:

Injury, depression, suicide, drug abuse, medical emergency, 911, child abuse, domestic and/or dating violence, and natural or man-made conditions.

Related Access Points

Name	Description
HE.912.B.3.In.d:	Explain when professional health services or providers may be required, such as for injury, depression, suicide, drug abuse, a medical emergency, child abuse, or domestic violence.
HE.912.B.3.Su.d:	Describe when professional health services may be required, such as for injury, depression, suicide, drug abuse, a medical emergency, child abuse, or domestic violence.
HE.912.B.3.Pa.d:	Identify a selected situation when a professional health service or provider may be required, such as for injury, depression, suicide, drug abuse, a medical emergency, child abuse, or domestic violence.

Explain skills needed to communicate effectively with family, peers, and others to enhance health.

[HE.912.B.4.1:](#)

Remarks/Examples:

Using "I" messages, voice pitch/volume, eye contact, journal experiences, writing letters, persuasive speech, and assertive communication.

Related Access Points

Name	Description
HE.912.B.4.In.a:	Describe strategies to communicate effectively with family, peers, and others to enhance health, such as having appropriate voice pitch and volume, maintaining eye contact, journaling, letter writing, and speaking persuasively.
HE.912.B.4.Su.a:	Identify strategies to communicate effectively with family, peers, and others to enhance health, such as having appropriate voice pitch and volume, maintaining eye contact, journaling, letter writing, and speaking persuasively.
HE.912.B.4.Pa.a:	Use selected communication strategies to enhance personal health, such as having appropriate volume, maintaining eye contact, and using words and gestures to clarify meaning.

Assess refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks.

[HE.912.B.4.2:](#)

Remarks/Examples:

Validate other's opinions, use direct statement, use active statement, and offer alternatives.

Related Access Points

Name	Description
HE.912.B.4.In.b:	Determine effective refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks, such as validating other's opinions, making direct and active statements, and offering alternatives.
HE.912.B.4.Su.b:	Demonstrate selected effective refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks, such as validating other's opinions, making direct and active statements, and offering alternatives.

[HE.912.B.4.Pa.b:](#) Use a refusal, a negotiation, or a collaboration skill to avoid or reduce personal health risks or resolve conflicts, such as stating desires clearly, offering alternatives, using "I" messages, expressing emotions, or making direct statements.

Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others.

[HE.912.B.4.3:](#)

Remarks/Examples:

Effective verbal and nonverbal communication, compromise, and conflict-resolution.

Related Access Points

Name	Description
HE.912.B.4.In.c:	Use basic strategies to prevent or resolve interpersonal conflicts without harming self or others, such as using effective verbal and nonverbal communication, compromising, and using conflict-resolution skills.
HE.912.B.4.Su.c:	Use a basic strategy to prevent or resolve interpersonal conflicts without harming self or others, such as using effective verbal and nonverbal communication, compromising, or using conflict-resolution skills.
HE.912.B.4.Pa.c:	Use a refusal, a negotiation, or a collaboration skill to avoid or reduce personal health risks or resolve conflicts, such as stating desires clearly, offering alternatives, using "I" messages, expressing emotions, or making direct statements.

Analyze the validity of ways to ask for and offer assistance to enhance the health of self and others.

[HE.912.B.4.4:](#)

Remarks/Examples:

Verbal and written communication, active listening, and how to seek help for a friend.

Related Access Points

Name	Description
HE.912.B.4.In.d:	Explain the effectiveness of various ways of asking for and offering assistance to enhance the health of self and others, such as verbalizing, writing, listening actively, and seeking help for a friend.
HE.912.B.4.Su.d:	Describe effective ways to ask for and offer assistance to enhance the health of self and others, such as verbalizing, writing, listening actively, and seeking help for a friend.
HE.912.B.4.Pa.d:	Identify an effective way to ask for and offer assistance to enhance the health of self and others, such as verbalizing, listening actively, and seeking help for a friend.

Determine the value of applying a thoughtful decision-making process in health-related situations.

[HE.912.B.5.1:](#)

Remarks/Examples:

Defining healthy boundaries and relationships, sexual activity, alcohol consumption, organ-donor decisions, child care, protection against infectious agents, wellness promotion, and first-aid-treatment options.

Related Access Points

Name	Description
HE.912.B.5.In.1:	Describe the value of applying a thoughtful decision-making process in health-related situations, such as decisions regarding sexual activity, alcohol consumption, and organ donation.
HE.912.B.5.Su.1:	Identify the value of applying a thoughtful decision-making process in health-related situations, such as decisions regarding sexual activity, alcohol consumption, and organ donation.
HE.912.B.5.Pa.1:	Recognize a health-related situation that requires the application of a thoughtful decision-making process, such as decisions regarding sexual activity, alcohol consumption, and organ donation.

Generate alternatives to health-related issues or problems.

[HE.912.B.5.2:](#)

Remarks/Examples:

Health benefits of menu options, refusal-skill options, pre- and post-natal care, natural and man-made conditions, and current trends in disease prevention.

Related Access Points

Name	Description
HE.912.B.5.In.2:	Explain alternatives to health-related issues or problems, such as the health benefits of menu options, getting enough physical activity, and practicing refusal skills.
HE.912.B.5.Su.2:	Describe alternatives to health-related issues or problems, such as the health benefits of menu options, getting enough physical activity, and practicing refusal skills.
HE.912.B.5.Pa.2:	Recognize healthy and unhealthy alternatives to selected health-related issues or problems, such as the health benefits of menu options, getting enough physical activity, and practicing refusal skills.

Appraise the potential short-term and long-term outcomes of each alternative on self and others.

[HE.912.B.5.3:](#)

Remarks/Examples:

Nutrition plan based on personal needs and preferences, impact of chronic health condition on individual and family, weapons on campus, and use of stress management and coping skills.

Related Access Points

Name	Description
HE.912.B.5.In.3:	Describe the potential short-term and long-term outcomes of each alternative on self or others when making a health-related decision, such as a nutrition plan based on personal needs and preferences, the impact of chronic health conditions on the individual

and family, and weapons on campus.

Identify the potential short-term and long-term outcomes of each alternative on self or others when making a health-related decision, such as a nutrition plan based on personal needs and preferences, the impact of chronic health conditions on the individual and family, and weapons on campus.

Recognize a potential outcome of each option on self when making a health-related decision, such as a nutrition plan based on personal needs and preferences, the impact of chronic health conditions on the individual, or weapons on campus.

Assess whether individual or collaborative decision making is needed to make a healthy decision.

HE.912.B.5.4:

Remarks/Examples:
Planning a post-high school career/education, purchasing the family's groceries for the week, planning the weekly menu, planning appropriate activities for siblings, community planning, Internet safety, and purchasing insurance.

Related Access Points

Name	Description
HE.912.B.5.In.4:	Determine whether individual or collaborative decision making is needed to make a healthy decision, such as planning a post-high-school career or education, purchasing the family's groceries, planning a weekly menu, and planning activities for siblings.
HE.912.B.5.Su.4:	Determine whether individual or collaborative decision making is needed to make a healthy decision in selected situations, such as planning a post-high-school career or education, purchasing the family's groceries, planning a weekly menu, and planning activities for siblings.
HE.912.B.5.Pa.4:	Identify the need for individual or collaborative decision making in selected health-related situations, such as planning a post-high-school career/education, purchasing the family's groceries, planning a weekly menu, and planning activities for siblings.

Examine barriers that can hinder healthy decision making.

HE.912.B.5.5:

Remarks/Examples:
Interpersonal, financial, environmental factors, and accessibility of health information.

Related Access Points

Name	Description
HE.912.B.5.In.5:	Explain barriers that can hinder healthy decision making, such as interpersonal, financial, and environmental factors.
HE.912.B.5.Su.5:	Describe barriers that can hinder healthy decision making, such as interpersonal, financial, and environmental factors.
HE.912.B.5.Pa.5:	Identify selected barriers that can hinder healthy decision making, such as interpersonal, financial, and environmental factors.

Evaluate personal health practices and overall health status to include all dimensions of health.

HE.912.B.6.1:

Remarks/Examples:
Personal strengths, physical fitness, peer relationships, environmental health, personal hygiene, non-communicable illness or disease, injury prevention, and first-aid responder's safety practices.

Related Access Points

Name	Description
HE.912.B.6.In.1:	Assess personal health practices and identifies overall health status for multiple dimensions of health, such as personal strengths, physical fitness, peer relationships, environmental health, and personal hygiene.
HE.912.B.6.Su.1:	Examine personal health practices and recognize overall health status for a selected dimension of health, such as personal strengths, physical fitness, peer relationships, environmental health, and personal hygiene.
HE.912.B.6.Pa.1:	Recognize personal health practices and overall health status, such as personal strengths, physical fitness, peer relationships, environmental health, and good personal hygiene.

Formulate a plan to attain a personal health goal that addresses strengths, needs, and risks.

HE.912.B.6.2:

Remarks/Examples:
Weight management, comprehensive physical fitness, stress management, dating relationships, risky behaviors, and a wellness-program plan.

Related Access Points

Name	Description
HE.912.B.6.In.2:	Use selected strategies to develop a plan to attain a personal health goal that addresses strengths, needs, and risks, such as weight management, comprehensive physical fitness, stress management, dating relationships, or risky behaviors.
HE.912.B.6.Su.2:	Follow a selected procedure to develop a plan to attain a personal health goal that addresses strengths, needs, and risks, such as weight management, comprehensive physical fitness, stress management, dating relationships, or risky behaviors.
HE.912.B.6.Pa.2:	Follow guided steps to develop a selected plan for achieving a personal health goal that addresses strengths, needs, and risks, such as weight management, comprehensive physical fitness, stress management, dating relationships, or risky behaviors.

Implement strategies and monitor progress in achieving a personal health goal.

HE.912.B.6.3:

Remarks/Examples:
Stress management, time out, using of a squeeze ball when frustrated, talking with a friend or professional, pacing yourself, setting realistic expectations, using rewards, getting support, and wellness promotion.

Related Access Points

Name	Description
------	-------------

HE.912.B.6.In.3:	Use strategies and monitor progress toward achieving a personal health goal, such as stress management, time out, use a squeeze ball when frustrated, talk with a friend or professional, pace oneself, set realistic expectations, use rewards, and get support.
HE.912.B.6.Su.3:	Use selected strategies and monitor progress toward achieving a personal health goal, such as stress management, time out, use a squeeze ball when frustrated, talk with a friend or professional, pace oneself, set realistic expectations, use rewards, and get support.
HE.912.B.6.Pa.3:	Use a selected strategy and track progress toward achieving a personal health goal, such as time out, using a squeeze ball when frustrated, talking with a friend or professional, or using rewards and supports.

Formulate an effective long-term personal health plan.

[HE.912.B.6.4:](#)

Remarks/Examples: Stress reduction, weight management, healthier eating habits, improved physical fitness, and individual responsibilities for protecting health.

Related Access Points

Name	Description
HE.912.B.6.In.4:	Develop an effective long-term personal health plan, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.
HE.912.B.6.Su.4:	Identify an effective personal health plan for a period of time, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.
HE.912.B.6.Pa.4:	Follow guided steps to develop an effective personal health plan for a period of time, such as stress reduction, weight management, healthier eating habits, or improved physical fitness.

Analyze the role of individual responsibility in enhancing health.

[HE.912.P.7.1:](#)

Remarks/Examples: Food choices, media messages, future impact of lifestyle choices, individual responsibility for health protection, and stress management.

Related Access Points

Name	Description
HE.912.P.7.In.1:	Examine the role of individual responsibility in enhancing health, such as making good fast-food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.
HE.912.P.7.Su.1:	Explain the role of individual responsibility in enhancing health, such as making good fast-food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.
HE.912.P.7.Pa.1:	Identify that it is important to take personal responsibility for enhancing health, such as making good fast-food choices, recognizing the influence of media messages, and recognizing the future impact of lifestyle choices.

Evaluate healthy practices and behaviors that will maintain or improve health and reduce health risks.

[HE.912.P.7.2:](#)

Remarks/Examples: Lifestyle choices: drug use/abuse, healthy diet, controlling modes of transmission of infectious agents, riding with impaired drivers, seeking mental-health services when needed, sexual behavior, and engaging in healthy relationships.
--

Related Access Points

Name	Description
HE.912.P.7.In.2:	Examine healthy practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.
HE.912.P.7.Su.2:	Explain healthy practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.
HE.912.P.7.Pa.2:	Identify selected practices and behaviors that will maintain or improve health, and reduce health risks, such as avoiding drug use and abuse, abstaining from sexual activity, having a healthy diet, avoiding riding with impaired drivers, making good personal lifestyle choices, and seeking mental-health services when needed.

Demonstrate how to influence and support others in making positive health choices.

[HE.912.P.8.1:](#)

Remarks/Examples: Avoidance of underage drinking, prevention of driving under the influence, suicide prevention, promotion of healthy dating/personal relationships, responsible parenting, disease prevention, and promotion of first-aid training.
--

Related Access Points

Name	Description
HE.912.P.8.In.1:	Demonstrate basic ways to influence and support others in making positive health choices, such as avoiding underage drinking, preventing someone from driving under the influence, preventing suicide, and promoting healthy dating, and personal relationships.
HE.912.P.8.Su.1:	Demonstrate a basic way to influence and support others in making positive health choices, such as avoiding underage drinking, preventing someone from driving under the influence, preventing suicide, and promoting healthy dating, and personal relationships.
HE.912.P.8.Pa.1:	Encourage others to make positive health choices.

Utilize current, accurate data/information to formulate a health-enhancing message.

[HE.912.P.8.2:](#)

Remarks/Examples: Validate perceptions of peers and societal norms regarding drug use, violence, sexual activity, visiting parenting-focused websites, data provided
--

by government or community agencies, societal influences on the workplace, and teen-driving safety.

Related Access Points

Name	Description
HE.912.P.8.In.2:	Use accurate information to create a health-enhancing message, such as validating perceptions of peers or societal norms regarding drug use, violence, and sexual activity.
HE.912.P.8.Su.2:	Use selected accurate information to create a brief health-enhancing message, such as validating perceptions of peers or societal norms regarding drug use, violence, or sexual activity.
HE.912.P.8.Pa.2:	Use accurate information to communicate a simple health-enhancing message to others, such as smoking is harmful, say no to drugs, or avoid violence.

Work cooperatively as an advocate for improving personal, family, and community health.

[HE.912.P.8.3:](#)

Remarks/Examples:

Support local availability of healthy food options; environmentally friendly shopping; victim, drug or teen court advocacy; advocate for peer-led abuse-prevention education programs, community resource information; and home/school safety.

Related Access Points

Name	Description
HE.912.P.8.In.3:	Work with others to advocate for improving personal, family, and community health, such as supporting local availability of healthy food options, and shopping at environmentally friendly vendors.
HE.912.P.8.Su.3:	Work with others to promote health practices that improve personal, family, or community health, such as supporting local availability of healthy food options, and environmentally friendly shopping.
HE.912.P.8.Pa.3:	Work with others to promote healthy practices for individuals, peers, families, or schools, such as healthy food options, or environmentally friendly shopping.

Adapt health messages and communication techniques to a specific target audience.

[HE.912.P.8.4:](#)

Remarks/Examples:

Internet safety, disease prevention, health disparities, disaster relief, and CPR/AED training.

Related Access Points

Name	Description
HE.912.P.8.In.4:	Create a health message that targets a specific audience using a common communication technique, such as promoting Internet safety, preventing disease, reducing poverty, and offering disaster relief.
HE.912.P.8.Su.4:	Create a health message for a selected audience using a selected communication technique, such as promoting Internet safety, preventing disease, reducing poverty, and offering disaster relief.
HE.912.P.8.Pa.4:	Use accurate information to communicate a simple health-enhancing message to others, such as smoking is harmful, say no to drugs, or avoid violence.

Predict how healthy behaviors can affect health status.

[HE.912.C.1.1:](#)

Remarks/Examples:

Making positive choices/avoiding risky behaviors: healthy food, substance abuse, and healthy relationship skills; regular medical and dental screenings; regular physical activity, and workplace safety.

Related Access Points

Name	Description
HE.912.C.1.In.a:	Explain how healthy behaviors can affect health status, such as healthy fast-food selections, regular medical screenings, and regular physical activity.
HE.912.C.1.Su.a:	Identify how healthy behaviors can affect health status, such as healthy fast-food selections, regular medical screenings, and regular physical activity.
HE.912.C.1.Pa.a:	Recognize ways personal health can be affected by healthy behaviors, such as healthy fast-food selections, regular medical checkups, and physical activity.

Interpret the significance of interrelationships in mental/emotional, physical, and social health.

[HE.912.C.1.2:](#)

Remarks/Examples:

Substance abuse, eating disorders, sexual behaviors, healthy/unhealthy relationships, self-esteem, stress/anger management, and regular exercise.

Related Access Points

Name	Description
HE.912.C.1.In.b:	Explain the interrelationships of mental/emotional, intellectual, physical, and social health, such as how drinking alcohol or sexual activity impacts physical, social, and mental/emotional dimensions of health.
HE.912.C.1.Su.b:	Identify the interrelationship between healthy behaviors and the dimensions of health (physical, mental/emotional, social, and intellectual), such as how drinking alcohol or sexual activity impacts physical and social dimensions of health.
HE.912.C.1.Pa.b:	Distinguish between healthy and unhealthy physical, mental/emotional, social, and intellectual behaviors, such as drinking alcohol or avoiding alcohol, and appropriate or inappropriate sexual behaviors.

Evaluate how environment and personal health are interrelated.

[HE.912.C.1.3:](#)

Remarks/Examples:

Food options within a community; prenatal-care services; availability of recreational facilities; air quality; weather-safety awareness; and weather, air, and water conditions.

Related Access Points

Name	Description
HE.912.C.1.In.c:	Explain how environment and personal health are interrelated, such as food options within a community and availability of recreational facilities.
HE.912.C.1.Su.c:	Identify ways selected environmental factors can affect personal health, such as food options within a community and availability of recreational facilities.
HE.912.C.1.Pa.c:	Recognize environmental factors and related personal health behaviors, such as having recreational facilities available and increased physical activity.

Propose strategies to reduce or prevent injuries and health problems.

[HE.912.C.1.4:](#)

Remarks/Examples:

Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.

Related Access Points

Name	Description
HE.912.C.1.In.d:	Describe strategies to reduce or prevent injuries and health problems, such as mandatory passenger- restraint and helmet laws, mandatory immunizations, and proper handling of food.
HE.912.C.1.Su.d:	Identify strategies to reduce or prevent injuries and other adolescent health problems, such as mandatory passenger-restraint and helmet laws, mandatory immunizations, and proper handling of food.
HE.912.C.1.Pa.d:	Recognize a strategy to prevent injury and adolescent health problems, such as mandatory passenger- restraint/helmet laws, or proper handling of food.

Analyze strategies for prevention, detection, and treatment of communicable and chronic diseases.

[HE.912.C.1.5:](#)

Remarks/Examples:

Health prevention, detection, and treatment of: breast and testicular cancer, suicide, obesity, and industrial-related chronic disease.

Related Access Points

Name	Description
HE.912.C.1.In.e:	Describe strategies for prevention, detection, and treatment of common communicable and chronic diseases, such as preventing and treating obesity, early detection of cancer, and getting adequate physical exercise to help prevent diabetes and heart disease.
HE.912.C.1.Su.e:	Identify common strategies for prevention, detection, and treatment of common communicable and chronic diseases, such as preventing and treating obesity, early detection of cancer, and getting adequate physical exercise to help prevent diabetes and heart disease.
HE.912.C.1.Pa.e:	Recognize selected strategies for prevention of common communicable diseases, such as sanitization, avoiding direct contact with infection, and proper disposal of hygiene products.

Evaluate the relationship between access to health care and health status.

[HE.912.C.1.6:](#)

Remarks/Examples:

Early detection and treatment of cancer, HIV, diabetes, bipolar disorder, schizophrenia, childhood disease or illness, and first-responder care.

Related Access Points

Name	Description
HE.912.C.1.In.f:	Identify the relationship between access to health care and health status, such as availability of sources of checkups for early detection and treatment of cancer, HIV, diabetes, bipolar disorder, or schizophrenia.
HE.912.C.1.Su.f:	Recognize the relationship between access to health care and health status, such as availability of sources of checkups for early detection and treatment of cancer, HIV, diabetes, bipolar disorder, or schizophrenia.
HE.912.C.1.Pa.f:	Associate access to health care with good health, such as obtaining screenings, having checkups, or receiving treatment.

Analyze how heredity and family history can impact personal health.

[HE.912.C.1.7:](#)

Remarks/Examples:

Drug use, family obesity, heart disease, mental health, and non-communicable illness or disease.

Related Access Points

Name	Description
HE.912.C.1.In.g:	Explain how heredity and family history can impact personal health, such as drug use, family obesity, heart disease, and mental health.
HE.912.C.1.Su.g:	Describe ways personal health can be affected by heredity and family history, such as drug use, family obesity, heart disease, and mental health.
HE.912.C.1.Pa.g:	Recognize ways personal health can be affected by heredity or family history, such as drug use, family obesity, heart disease, and mental health.

Assess the degree of susceptibility to injury, illness, or death if engaging in unhealthy/risky behaviors.

[HE.912.C.1.8:](#)

Remarks/Examples:

Risks associated with alcohol abuse, including poison, date rape, and death; cancer and chronic lung disease related to tobacco use; overdose from drug use; child abuse or neglect; and dating violence.

Related Access Points

Name	Description
HE.912.C.1.In.h:	Predict the likelihood of injury, illness, or death from engaging in unhealthy behaviors, such as death from alcohol poisoning, cancer and chronic lung disease related to tobacco use, overdose from illegal drug use, or engaging in risky games.
HE.912.C.1.Su.h:	Describe the likelihood of injury, illness, or death from engaging in unhealthy behaviors, such as death from alcohol poisoning, cancer and chronic lung disease related to tobacco use, overdose from illegal drug use, or engaging in risky games.
HE.912.C.1.Pa.h:	Recognize likely injuries or illnesses resulting from engaging in unhealthy behaviors, such as death or injury from drinking and driving, injuries resulting from fighting and bullying, and infections from poor hygiene.

Analyze how the family influences the health of individuals.

[HE.912.C.2.1:](#)

Remarks/Examples:

Nutritional management of meals, composition of and relationships within families, and health-insurance status.

Related Access Points

Name	Description
HE.912.C.2.In.a:	Explain how the family influences the health of individuals, such as nutritional management of meals, the composition of the family, and health-insurance status.
HE.912.C.2.Su.a:	Describe how the family influences the health of individuals, such as providing nutritious meals, the composition of the family, and health-insurance status.
HE.912.C.2.Pa.a:	Recognize selected ways the family influences the health of family members, such as providing nutritious meals and the composition of the family.

Compare how peers influence healthy and unhealthy behaviors.

[HE.912.C.2.2:](#)

Remarks/Examples:

Binge drinking and social groups, sexual coercion [pressure, force, or manipulation] by a dating partner, students' recommendations for school vending machines, healthy lifestyle, review trends in current and emerging diseases, and use of helmets and seatbelts.

Related Access Points

Name	Description
HE.912.C.2.In.b:	Examine how peers influence healthy and unhealthy behaviors, such as binge drinking and social groups, pressuring a girlfriend or boyfriend to be sexually active, and student recommendations for school vending machines.
HE.912.C.2.Su.b:	Describe how peers influence healthy and unhealthy behaviors, such as drinking alcohol in social groups, pressuring a girlfriend or boyfriend to be sexually active, and making recommendations for school vending machines.
HE.912.C.2.Pa.b:	Recognize ways peers influence healthy or unhealthy behaviors, such as drinking alcohol in social groups, pressuring a girlfriend or boyfriend to be sexually active, and making recommendations for school vending machines.

Assess how the school and community can affect personal health practice and behaviors.

[HE.912.C.2.3:](#)

Remarks/Examples:

Healthier foods, required health education, health screenings, and enforcement of "no tolerance" policies related to all forms of violence, and AED availability and training.

Related Access Points

Name	Description
HE.912.C.2.In.c:	Describe how the school and community can influence personal health practice and behavior, such as healthy foods in vending machines, required health education, and health screenings.
HE.912.C.2.Su.c:	Identify how the school and community can influence personal health practice and behavior, such as having healthy food in vending machines, required health education, and health screenings.
HE.912.C.2.Pa.c:	Recognize ways the school and community can influence personal health, such as having healthy food in vending machines, required health education, and health screenings.

Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

[HE.912.C.2.4:](#)

Remarks/Examples:

Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

Related Access Points

Name	Description
HE.912.C.2.In.d:	Describe how public-health policies and government regulations can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Su.d:	Identify ways school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Pa.d:	Recognize ways selected school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and assessing health status.

Evaluate the effect of media on personal and family health.

[HE.912.C.2.5:](#)

Remarks/Examples:

Compares brand-name/store-brand items in home, analyzes television viewing habits, identifies effective PSAs, consumer skills, advertisements of health-related community resources, participation in risky behaviors, and deconstructs media to identify promotion of unhealthy stereotypes, and normalization of violence.

Related Access Points

Name	Description
HE.912.C.2.In.e:	Examine the effect of media on personal and family health, such as comparing name- and store-brand items in the home, analyzing television-viewing habits, and identifying effective public-service announcements (PSAs).
HE.912.C.2.Su.e:	Describe the effect of media on personal and family health, such as comparing name- and store-brand items in the home, analyzing television-viewing habits, and identifying effective public-service announcements (PSAs).
HE.912.C.2.Pa.e:	Recognize the effect of media on personal and family health, such as television-viewing habits and sedentary lifestyle and identifying effective public-service announcements (PSAs).

Evaluate the impact of technology on personal, family, and community health.

[HE.912.C.2.6:](#)

Remarks/Examples:

Automated external defibrillator in the community, pedestrian crosswalks with audible directions, type of information requested from local 211/hotlines or websites, consumer websites, Internet safety, and disease prevention and control.

Related Access Points

Name	Description
HE.912.C.2.In.f:	Explain the impact of technology on personal, family, or community health, such as the availability of automated external defibrillators (AEDs) in the community, audible directions on pedestrian crosswalks, and hotlines such as 211 or related websites.
HE.912.C.2.Su.f:	Describe the impact of technology on personal, family, and community health, such as the availability of automated external defibrillators (AEDs) in the community, audible directions on pedestrian crosswalks, and hotlines such as 211 or related websites.
HE.912.C.2.Pa.f:	Recognize a way that technology impacts personal, family, or community health, such as the availability of audible directions on pedestrian crosswalks or hotlines such as 211 or related websites.

Analyze how culture supports and challenges health beliefs, practices, and behaviors.

[HE.912.C.2.7:](#)

Remarks/Examples:

Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

Related Access Points

Name	Description
HE.912.C.2.In.g:	Describe ways that culture supports and challenges health beliefs, practices, and behaviors, such as dietary patterns, rites of passage, and courtship practices.
HE.912.C.2.Su.g:	Identify ways culture influences health beliefs, practices, and behaviors, such as dietary patterns, rites of passage, and courtship practices.
HE.912.C.2.Pa.g:	Recognize ways common social or cultural practices (norms) influence healthy and unhealthy behaviors, such as becoming a teen parent, binge drinking, dietary patterns, rites of passage, and courtship practices.

Analyze how the perceptions of norms influence healthy and unhealthy behaviors.

[HE.912.C.2.8:](#)

Remarks/Examples:

Driving over the speed limit, teen parenting, binge drinking, relationships, parenting, health information, environmental practices, and media messages.

Related Access Points

Name	Description
HE.912.C.2.In.h:	Describe how the perceptions of social norms influence healthy and unhealthy behaviors, such as driving over the speed limit, becoming a teen parent, and binge drinking.
HE.912.C.2.Su.h:	Describe how the perceptions of selected social norms influence healthy and unhealthy behaviors, such as driving over the speed limit, becoming a teen parent, and binge drinking.
HE.912.C.2.Pa.h:	Recognize ways common social or cultural practices (norms) influence healthy and unhealthy behaviors, such as becoming a teen parent, binge drinking, dietary patterns, rites of passage, and courtship practices.

Evaluate the influence of personal values, attitudes, and beliefs about individual health practices and behaviors.

[HE.912.C.2.9:](#)

Remarks/Examples:

Social conformity, self-discipline, and impulse vs. delayed gratification.

Related Access Points

Name	Description
HE.912.C.2.In.i:	Explain how personal values, attitudes, and beliefs influence individual health practices and behaviors.
HE.912.C.2.Su.i:	Identify how personal values, attitudes, and beliefs influence individual health practices and behaviors.
HE.912.C.2.Pa.i:	Identify how a personal value, attitudes, or belief influences an individual health practice or behavior.

Access United States Government (#7921015)

{ [American Government United States Government - 2106310](#) }

This document was generated on CPALMS - www.cpalms.org

Course Number: 7921015	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Course may be taken for up to two credits	Abbreviated Title: ACCESS US GOVT
Course Type: Core	Course Length: Multiple (M) - Course length can vary
Course Status: Draft - Course Pending Approval	Class Size? Yes
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
Related Access Points	
Name	Description
SS.912.C.1.In.a:	Identify the influence of founding principles in American government, such as civic participation and voting, representative legislative bodies, and rule of law.
SS.912.C.1.Su.a:	Recognize the influence of founding principles in American government, such as civic participation and voting, representative legislative bodies, or rule of law.
SS.912.C.1.Pa.a:	Recognize civic participation as a founding principle of American government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
Related Access Points	
Name	Description
SS.912.C.1.In.b:	Identify principles of natural rights, individual rights, and government of the people (popular sovereignty) reflected in the Declaration of Independence.
SS.912.C.1.Su.b:	Recognize principles of natural rights and government of the people reflected in the Declaration of Independence.
SS.912.C.1.Pa.b:	Recognize government of the people as a principle of the Declaration of Independence.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.

Related Access Points

Name	Description
SS.912.C.1.In.c:	Identify principles of natural rights, individual rights, and government of the people (popular sovereignty) reflected in the Declaration of Independence.
SS.912.C.1.Su.c:	Recognize principles of natural rights and government of the people reflected in the Declaration of Independence.
SS.912.C.1.Pa.c:	Recognize government of the people as a principle of the Declaration of Independence.

[SS.912.C.1.4:](#)

Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.

Related Access Points

Name	Description
SS.912.C.1.In.d:	Identify major debates and compromises in the process of writing and adopting the Constitution, such as plans developed by various states, the Great Compromise—the formation of the House and Senate, and the promise of the Bill of Rights.
SS.912.C.1.Su.d:	Recognize that there were compromises in developing the Constitution, such as the Great Compromise—the formation of the House and Senate—and the promise of the Bill of Rights.
SS.912.C.1.Pa.d:	Recognize that forming the American government involved a compromise.

[SS.912.C.1.5:](#)

Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.

Related Access Points

Name	Description
SS.912.C.1.In.e:	Identify the importance of the political principles reflected in the Constitution, such as rule of law, separation of powers, checks and balances, and representative government (republicanism).
SS.912.C.1.Su.e:	Recognize examples of practices that reflect political principles in the Constitution, such as representative government, respecting the law, and functions of the three branches of government.
SS.912.C.1.Pa.e:	Recognize a practice that reflects government by the people (democracy) in the Constitution.

[SS.912.C.2.1:](#)

Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.

Related Access Points

Name	Description
SS.912.C.2.In.a:	Describe the differences between a citizen and a noncitizen and ways people can become citizens of a country, such as by birth or naturalization.
SS.912.C.2.Su.a:	Identify the differences between a citizen and a noncitizen.
SS.912.C.2.Pa.a:	Recognize a difference between a citizen and a noncitizen.

[SS.912.C.2.2:](#)

Evaluate the importance of political participation and civic participation.

Related Access Points

Name	Description
SS.912.C.2.In.b:	Identify examples of political participation and civic participation, such as registering to vote, keeping informed, communicating with elected officials, and participating in political campaigns.
SS.912.C.2.Su.b:	Recognize examples of political participation and civic participation, such as registering to vote, keeping informed, communicating with elected officials, and participating in political campaigns.
SS.912.C.2.Pa.b:	Recognize ways to participate in the political process.

Experience the responsibilities of citizens at the local, state, or federal levels.

[SS.912.C.2.3:](#)

Remarks/Examples:
Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.

Related Access Points

Name	Description
SS.912.C.2.In.c:	Identify examples of political participation and civic participation, such as registering to vote, keeping informed, communicating with elected officials, and participating in political campaigns.
SS.912.C.2.Su.c:	Recognize examples of political participation and civic participation, such as registering to vote, keeping informed, communicating with elected officials, and participating in political campaigns.
SS.912.C.2.Pa.c:	Recognize ways to participate in the political process.

[SS.912.C.2.4:](#)

Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.

Related Access Points

Name	Description
SS.912.C.2.In.d:	Identify a position on issues that cause the government to balance the interests of individuals with the public good, such as for or against recycling, curfews, and building regulations.

[SS.912.C.2.Su.d.](#) Recognize a position on issues that cause the government to balance the interests of individuals with the public good, such as for or against recycling and curfews.

[SS.912.C.2.Pa.d.](#) Recognize an issue that causes the government to balance the interests of individuals with the public good, such as recycling.

Conduct a service project to further the public good.

[SS.912.C.2.5:](#)

Remarks/Examples:

Examples are school, community, state, national, international.

Related Access Points

Name	Description
SS.912.C.2.In.e.	Engage in a service project to further the public good, such as at school, community, state, and national levels.
SS.912.C.2.Su.e.	Assist with a service project to further the public good, such as at school, community, state, and national levels.
SS.912.C.2.Pa.e.	Participate in a service project to further the public good, such as at school, community, state, and national levels.

[SS.912.C.2.6:](#)

Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights.

Related Access Points

Name	Description
SS.912.C.2.In.f.	Defend a position about individual rights protected by the Constitution and Bill of Rights.
SS.912.C.2.Su.f.	Identify a position about individual rights protected by the Constitution and Bill of Rights.
SS.912.C.2.Pa.f.	Recognize an individual right protected by the Constitution.

Explain why rights have limits and are not absolute.

[SS.912.C.2.7:](#)

Remarks/Examples:

Examples are speech, search and seizure, religion, gun possession.

Related Access Points

Name	Description
SS.912.C.2.In.g.	Identify a reason why rights have limits and are not absolute, such as speech and gun possession.
SS.912.C.2.Su.g.	Recognize that some rights are limited, such as speech or gun possession.
SS.912.C.2.Pa.g.	Recognize that rights have limits.

Analyze the impact of citizen participation as a means of achieving political and social change.

[SS.912.C.2.8:](#)

Remarks/Examples:

Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.

Related Access Points

Name	Description
SS.912.C.2.In.h.	Identify examples of citizen participation, such as email, protests, demonstrations, and letters to the editor, to achieve change.
SS.912.C.2.Su.h.	Recognize examples of citizen participation, such as demonstrations, protests, and letters to the editor, to achieve change.
SS.912.C.2.Pa.h.	Recognize a demonstration or protest to achieve change.

Identify the expansion of civil rights and liberties by examining the principles contained in primary documents.

[SS.912.C.2.9:](#)

Remarks/Examples:

Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.

Related Access Points

Name	Description
SS.912.C.2.In.i.	Identify the expansion of civil rights as reflected in the Declaration of Independence, the Constitution and its amendments, and the Voting Rights Act of 1965.
SS.912.C.2.Su.i.	Recognize the expansion of civil rights as reflected in the Constitution and its amendments.
SS.912.C.2.Pa.i.	Recognize examples of civil rights.

Monitor current public issues in Florida.

[SS.912.C.2.10:](#)

Remarks/Examples:

Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.

Related Access Points

Name	Description
SS.912.C.2.In.j.	Identify current public issues in Florida.
SS.912.C.2.Su.j.	Recognize current public issues in Florida.
SS.912.C.2.Pa.j.	Recognize a current public issue in Florida.

[SS.912.C.2.11:](#)

Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.

Related Access Points

Name	Description
SS.912.C.2.In.k:	Describe a solution to resolve a public issue.
SS.912.C.2.Su.k:	Identify a solution to resolve a public issue.
SS.912.C.2.Pa.k:	Recognize a solution to a public issue.

[SS.912.C.2.12:](#)

Explain the changing roles of television, radio, press, and Internet in political communication.

Related Access Points

Name	Description
SS.912.C.2.In.l:	Identify the role of television, radio, the press, and the Internet in political communications.
SS.912.C.2.Su.l:	Recognize the role of television, radio, and the press in political communications.
SS.912.C.2.Pa.l:	Recognize forms of political communication, such as television, magazines, or newspapers.

Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.

[SS.912.C.2.13:](#)

Remarks/Examples: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.

Related Access Points

Name	Description
SS.912.C.2.In.m:	Identify various forms of political communication, such as campaign advertisements, political speech, and political cartoons, and identify their accuracy or emotional appeal.
SS.912.C.2.Su.m:	Recognize a form of political communication, such as a campaign advertisement, political speech, or political cartoon, and identify its emotional appeal.
SS.912.C.2.Pa.m:	Recognize forms of political communications, such as television, magazines, or newspapers.

[SS.912.C.2.14:](#)

Evaluate the processes and results of an election at the state or federal level.

Related Access Points

Name	Description
SS.912.C.2.In.n:	Identify the process and results of an election.
SS.912.C.2.Su.n:	Recognize the campaign, voting, and results of an election.
SS.912.C.2.Pa.n:	Recognize voting and results of an election.

[SS.912.C.2.15:](#)

Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy.

Related Access Points

Name	Description
SS.912.C.2.In.o:	Identify the role of political parties, special interest groups, and media in shaping public policy.
SS.912.C.2.Su.o:	Identify the role of political parties and media in shaping public policy.
SS.912.C.2.Pa.o:	Recognize that media influences government.

Analyze trends in voter turnout.

[SS.912.C.2.16:](#)

Remarks/Examples: Examples are youth voter turnout, issue-based voting.

Related Access Points

Name	Description
SS.912.C.2.In.p:	Identify the process and results of an election.
SS.912.C.2.Su.p:	Recognize the campaign, voting, and results of an election.
SS.912.C.2.Pa.p:	Recognize voting and results of an election.

[SS.912.C.3.1:](#)

Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.

Related Access Points

Name	Description
SS.912.C.3.In.a:	Identify principles of the Constitution that limit the power of the government, such as rule of law, individual rights, and consent of the governed.
SS.912.C.3.Su.a:	Recognize principles of the Constitution that limit the power of the government, such as rule of law, individual rights, or consent of the governed.
SS.912.C.3.Pa.a:	Recognize that the government has limits on its power.

[SS.912.C.3.2:](#)

Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.

Related Access Points

Name	Description
SS.912.C.3.In.b:	Identify examples of the powers granted and denied states and the national government, such as the national government may not change state boundaries or violate the Bill of Rights and state governments may not print money or suspend a person's rights without due process.
SS.912.C.3.Su.b:	Recognize examples of the powers granted and denied states and the national government, such as the national government may not change state boundaries and state governments may not print money.
SS.912.C.3.Pa.b:	Recognize an example of a power granted to the national government and not the state government, such as printing money.

[SS.912.C.3.3:](#) Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.

Related Access Points

Name	Description
SS.912.C.3.In.c:	Identify the structure and function of the legislative branch of the government identified in the Constitution.
SS.912.C.3.Su.c:	Identify the function of the legislative branch of the government identified in the Constitution.
SS.912.C.3.Pa.c:	Recognize that the legislative branch of government creates laws.

[SS.912.C.3.4:](#) Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution.

Related Access Points

Name	Description
SS.912.C.3.In.d:	Identify the structure and functions of the executive branch of the government identified in the Constitution.
SS.912.C.3.Su.d:	Identify the function of the executive branch of the government identified in the Constitution.
SS.912.C.3.Pa.d:	Recognize that the executive branch of government enforces laws.

Identify the impact of independent regulatory agencies in the federal bureaucracy.

[SS.912.C.3.5:](#)

Remarks/Examples: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
--

Related Access Points

Name	Description
SS.912.C.3.In.e:	Identify the purpose of independent regulatory agencies in the federal bureaucracy, such as the Federal Reserve (fiscal policy) and the Food and Drug Administration (ensures safety of food and drugs).
SS.912.C.3.Su.e:	Recognize the purpose of an independent regulatory agency in the federal bureaucracy, such as the Food and Drug Administration (ensures safety of food and drugs).
SS.912.C.3.Pa.e:	Recognize that federal agencies help people in America.

[SS.912.C.3.6:](#) Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.

Related Access Points

Name	Description
SS.912.C.3.In.f:	Identify the structure and function of the judicial branch of the government as identified in the Constitution.
SS.912.C.3.Su.f:	Identify the function of the judicial branch of the government as identified in the Constitution.
SS.912.C.3.Pa.f:	Recognize that the judicial branch of government interprets laws.

[SS.912.C.3.7:](#) Describe the role of judicial review in American constitutional government.

Related Access Points

Name	Description
SS.912.C.3.In.g:	Identify the structure and function of the judicial branch of the government as identified in the Constitution.
SS.912.C.3.Su.g:	Identify the function of the judicial branch of the government as identified in the Constitution.
SS.912.C.3.Pa.g:	Recognize that the judicial branch of government interprets laws.

Compare the role of judges on the state and federal level with other elected officials.

[SS.912.C.3.8:](#)

Remarks/Examples: Examples are decisions based on the law vs. will of the majority.

Related Access Points

Name	Description
SS.912.C.3.In.h:	Identify the structure and function of the judicial branch of the government as identified in the Constitution.
SS.912.C.3.Su.h:	Identify the function of the judicial branch of the government as identified in the Constitution.
SS.912.C.3.Pa.h:	Recognize that the judicial branch of government interprets laws.

[SS.912.C.3.9:](#) Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them.

Related Access Points

Name	Description
SS.912.C.3.In.i:	Identify the levels of courts in the federal and state judicial system and their major responsibilities, such as criminal and civil cases and appeals.

[SS.912.C.3.Su.i](#): Recognize different levels of courts in the judicial system, such as state and federal courts.

[SS.912.C.3.Pa.i](#): Recognize that courts settle conflicts at the federal and state level.

Evaluate the significance and outcomes of landmark Supreme Court cases.

Remarks/Examples:

Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmer, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.

[SS.912.C.3.10:](#)

Related Access Points

Name	Description
SS.912.C.3.In.j	Identify the importance of landmark Supreme Court cases, such as Plessy v. Ferguson, United States v. Nixon, and Roe v. Wade.
SS.912.C.3.Su.j	Recognize the importance of landmark Supreme Court cases, such as United States v. Nixon and Roe v. Wade.
SS.912.C.3.Pa.j	Recognize that Supreme Court cases have important outcomes that affect all citizens.

[SS.912.C.3.11:](#)

Contrast how the Constitution safeguards and limits individual rights.

Related Access Points

Name	Description
SS.912.C.3.In.k	Identify that the Constitution safeguards and limits rights.
SS.912.C.3.Su.k	Recognize that the Constitution safeguards and limits rights.
SS.912.C.3.Pa.k	Recognize that the government protects rights.

[SS.912.C.3.12:](#)

Simulate the judicial decision-making process in interpreting law at the state and federal level.

Related Access Points

Name	Description
SS.912.C.3.In.l	Identify the structure and function of the judicial branch of the government as identified in the Constitution.
SS.912.C.3.Su.l	Identify the function of the judicial branch of the government as identified in the Constitution.
SS.912.C.3.Pa.l	Recognize that the judicial branch of government interprets laws.

Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.

[SS.912.C.3.13:](#)

Remarks/Examples:

Examples are education, transportation, crime prevention, funding of services.

Related Access Points

Name	Description
SS.912.C.3.In.m	Identify the effects of government on the daily lives of citizens at the local, state, and national level.
SS.912.C.3.Su.m	Recognize an effect of government on the daily lives of citizens at the local, state, and national level.
SS.912.C.3.Pa.m	Recognize an effect of government on the daily lives of citizens.

[SS.912.C.3.14:](#)

Examine constitutional powers (expressed, implied, concurrent, reserved).

Related Access Points

Name	Description
SS.912.C.3.In.n	Identify examples of the use of constitutional powers, such as being limited to the federal government, shared by both federal and state government, or limited to state governments.
SS.912.C.3.Su.n	Recognize examples of the use of constitutional powers, such as specifying powers of the federal and state governments.
SS.912.C.3.Pa.n	Recognize an example of a power granted to the national government and not the state government, such as printing money.

[SS.912.C.3.15:](#)

Examine how power and responsibility are distributed, shared, and limited by the Constitution.

Related Access Points

Name	Description
SS.912.C.3.In.o	Identify examples of the use of constitutional powers, such as being limited to the federal government, shared by both federal and state government, or limited to state governments.
SS.912.C.3.Su.o	Recognize examples of the use of constitutional powers, such as specifying powers of the federal and state governments.
SS.912.C.3.Pa.o	Recognize an example of a power granted to the national government and not the state government, such as printing money.

[SS.912.C.4.1:](#)

Explain how the world's nations are governed differently.

Related Access Points

Name	Description
SS.912.C.4.In.a	Identify different forms of governments in other countries in the world.
SS.912.C.4.Su.a	Recognize a different form of government in another country in the world.
SS.912.C.4.Pa.a	Recognize that not all countries are governed like the United States.

Related Access Points

Name	Description
SS.912.C.4.In.b:	Identify the influence of American foreign policy on other nations.
SS.912.C.4.Su.b:	Recognize an influence of American foreign policy on other nations.
SS.912.C.4.Pa.b:	Recognize that the United States works with other nations.

Assess human rights policies of the United States and other countries.

Related Access Points

Name	Description
SS.912.C.4.In.c:	Identify examples of human rights policies of the United States, such as the Bill of Rights.
SS.912.C.4.Su.c:	Recognize examples of human rights policies of the United States, such as the Bill of Rights.
SS.912.C.4.Pa.c:	Recognize a human right.

Compare indicators of democratization in multiple countries.

Related Access Points

Name	Description
SS.912.C.4.In.d:	Identify common indicators of democratization, such as civil and political rights.
SS.912.C.4.Su.d:	Recognize common indicators of democratization, such as civil or political rights.
SS.912.C.4.Pa.d:	Recognize an example of democratization, such as human rights.

Interpret population growth and other demographic data for any given place.

Related Access Points

Name	Description
SS.912.G.4.In.a:	Identify changes in population for selected places.
SS.912.G.4.Su.a:	Recognize changes in population for selected places.
SS.912.G.4.Pa.a:	Recognize that change is a characteristic of population.

Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.

Related Access Points

Name	Description
SS.912.G.5.In.e:	Use geographic terms and tools to identify effects of government policies or programs for resource use and management.
SS.912.G.5.Su.e:	Use geographic terms and tools to recognize effects of government policies or programs for resource use and management.
SS.912.G.5.Pa.e:	Recognize an impact of humans on an ecosystem.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.
- Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
- Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.1a:	Consider a full range of ideas or positions on a given topic or text when presented in a discussion.
LAFS.1112.SL.1.AP.1b:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1c:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1d:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.1112.SL.1.AP.1e:	Work with peers to promote democratic discussions.
LAFS.1112.SL.1.AP.1f:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1g:	Engage appropriately in discussion with others who have a diverse or divergent perspectives.

Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.1112.SL.1.3:](#)

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.3a:	Determine the speaker's point of view or purpose in a text.
LAFS.1112.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.1112.SL.1.AP.3c:	Evaluate the evidence used to make the speaker's argument.
LAFS.1112.SL.1.AP.3d:	Evaluate a speaker's point of view, reasoning, use of evidence and rhetoric for ideas, relationship between claims, reasoning, evidence and word choice.

[LAFS.1112.SL.2.4:](#)

Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

Related Access Points

Name	Description
LAFS.1112.SL.2.AP.4a:	Report orally on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.1112.RH.1.1:](#)

Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.

[LAFS.1112.RH.1.2:](#)

Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.

[LAFS.1112.RH.1.3:](#)

Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.

[LAFS.1112.RH.2.4:](#)

Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines faction in Federalist No. 10).

[LAFS.1112.RH.2.5:](#)

Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.

[LAFS.1112.RH.2.6:](#)

Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.

[LAFS.1112.RH.3.7:](#)

Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.

[LAFS.1112.RH.3.8:](#)

Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.

[LAFS.1112.RH.3.9:](#)

Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.

[LAFS.1112.RH.4.10:](#)

By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.

[LAFS.1112.WHST.1.1:](#)

- Write arguments focused on discipline-specific content.
- Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence.
 - Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.
 - Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
 - Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
 - Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.1112.WHST.1.2:](#)

- Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.
- Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
 - Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
 - Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
 - Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.
 - Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).

[LAFS.1112.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.1112.WHST.2.5:](#)

Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

[LAFS.1112.WHST.2.6:](#)

Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.

[LAFS.1112.WHST.3.7:](#)

Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

[LAFS.1112.WHST.3.8:](#)

Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.

[LAFS.1112.WHST.3.9:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

[LAFS.1112.WHST.4.10:](#)

Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

[HE.912.C.2.4:](#)

Remarks/Examples:

Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

Related Access Points

Name	Description
HE.912.C.2.In.d:	Describe how public-health policies and government regulations can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Su.d:	Identify ways school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Pa.d:	Recognize ways selected school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and assessing health status.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AA.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Social Studies.

There are more than 257 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12923>

Access Economics (#7921020) [{ Economics - 2102310 }](#)

This document was generated on CPALMS - www.cpalms.org

The course was/will be terminated at the end of Year 2013 - 2014

Course Number: 7921020	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Multiple Credit (more than 1 credit)	Abbreviated Title: ACCESS ECONOMICS
Course Type: Core	Course Length: Semester (S)
Course Status: Terminated	Class Size? Yes
Grade Level(s) Version: 9,10,11,12	Graduation Requirement: Economics
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description								
SS.912.E.1.1:	Identify the factors of production and why they are necessary for the production of goods and services. <div style="border: 1px solid black; padding: 5px;"> Remarks/Examples: Examples are land, labor, capital, entrepreneurship. </div> Related Access Points <table border="1" style="width: 100%;"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>SS.912.E.1.In.a:</td> <td>Identify examples of factors of production, such as land, labor, and capital.</td> </tr> <tr> <td>SS.912.E.1.Su.a:</td> <td>Recognize examples of factors of production, such as land, labor, and capital.</td> </tr> <tr> <td>SS.912.E.1.Pa.a:</td> <td>Recognize that products are made from resources.</td> </tr> </tbody> </table>	Name	Description	SS.912.E.1.In.a:	Identify examples of factors of production, such as land, labor, and capital. SS.912.E.1.In.b:	Identify the impact of scarcity, choice, and opportunity costs on the production of goods and services.								
SS.912.E.1.Su.b:	Identify an example of scarcity, choice, and trade-offs in the production of goods.								
SS.912.E.1.Pa.b:	Recognize examples of scarcity and choice.								
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?; (2) How to produce?; and (3) For whom to produce? Related Access Points <table border="1" style="width: 100%;"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>SS.912.E.1.In.c:</td> <td>Identify differences in the major characteristics of the market, command, and mixed economic systems.</td> </tr> <tr> <td>SS.912.E.1.Su.c:</td> <td>Recognize a major characteristic of the market and the command economic systems.</td> </tr> <tr> <td>SS.912.E.1.Pa.c:</td> <td>Recognize that goods are produced because people want or need them (supply and demand).</td> </tr> </tbody> </table>	Name	Description	SS.912.E.1.In.c:	Identify differences in the major characteristics of the market, command, and mixed economic systems.	SS.912.E.1.Su.c:	Recognize a major characteristic of the market and the command economic systems.	SS.912.E.1.Pa.c:	Recognize that goods are produced because people want or need them (supply and demand).
Name	Description								
SS.912.E.1.In.c:	Identify differences in the major characteristics of the market, command, and mixed economic systems.								
SS.912.E.1.Su.c:	Recognize a major characteristic of the market and the command economic systems.								
SS.912.E.1.Pa.c:	Recognize that goods are produced because people want or need them (supply and demand).								

[SS.912.E.1.4:](#)

Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.

Related Access Points

Name	Description
SS.912.E.1.In.d:	Describe how the interaction between supply and demand affects the price of a product.
SS.912.E.1.Su.d:	Identify examples of the interaction between supply and demand.
SS.912.E.1.Pa.d:	Recognize that goods are produced because people want or need them (supply and demand).

Compare different forms of business organizations.

[SS.912.E.1.5:](#)

Remarks/Examples:

Examples are sole proprietorship, partnership, corporation, limited liability corporation.

Related Access Points

Name	Description
SS.912.E.1.In.e:	Identify forms of business organization, such as sole proprietorship, partnership, and corporation.
SS.912.E.1.Su.e:	Recognize forms of business organization, such as sole proprietorship, partnership, or corporation.
SS.912.E.1.Pa.e:	Recognize that some businesses are owned by people.

[SS.912.E.1.6:](#)

Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).

Related Access Points

Name	Description
SS.912.E.1.In.f:	Identify differences between a monopoly and pure competition market structure.
SS.912.E.1.Su.f:	Recognize a difference between a monopoly and pure competition market structure.
SS.912.E.1.Pa.f:	Recognize a basic characteristic of a market structure, such as buyers and sellers.

[SS.912.E.1.7:](#)

Graph and explain how firms determine price and output through marginal cost analysis.

Related Access Points

Name	Description
SS.912.E.1.In.g:	Identify factors that determine the price of a good or service, such as fixed and variable costs.
SS.912.E.1.Su.g:	Recognize factors that determine the price of a good or service, such as fixed costs.
SS.912.E.1.Pa.g:	Recognize that goods are produced because people want or need them (supply and demand).

[SS.912.E.1.8:](#)

Explain ways firms engage in price and nonprice competition.

Related Access Points

Name	Description
SS.912.E.1.In.h:	Identify characteristics of price and non-price competition, such as discounts and rebates, and quality and extra service.
SS.912.E.1.Su.h:	Recognize an example of price and non-price competition, such as discounts or extra service.
SS.912.E.1.Pa.h:	Recognize that products have different prices.

Describe how the earnings of workers are determined.

[SS.912.E.1.9:](#)

Remarks/Examples:

Examples are minimum wage, the market value of the product produced, workers' productivity.

Related Access Points

Name	Description
SS.912.E.1.In.i:	Identify factors that determine the earnings of workers, such as minimum wage, the market value of the product, and worker productivity.
SS.912.E.1.Su.i:	Recognize that the earnings of workers reflect worker productivity.
SS.912.E.1.Pa.i:	Recognize that workers receive wages.

[SS.912.E.1.10:](#)

Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.

Related Access Points

Name	Description
SS.912.E.1.In.j:	Identify that the government uses taxation and oversight of government spending to support the economy.
SS.912.E.1.Su.j:	Recognize that the government uses tax money to support the economy.
SS.912.E.1.Pa.j:	Recognize that the government makes rules about money.

[SS.912.E.1.11:](#)

Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.

Related Access Points

Name	Description
------	-------------

SS.912.E.1.In.k:	Identify that the Federal Reserve controls interest rates to affect economic growth.
SS.912.E.1.Su.k:	Recognize that the bank of the federal government (Federal Reserve) controls some interest rates.
SS.912.E.1.Pa.k:	Recognize that the government makes rules about money.

[SS.912.E.1.12:](#) Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).

Related Access Points

Name	Description
SS.912.E.1.In.l:	Identify changes in the business cycle, such as peak, contraction-unemployment, trough, and expansion-inflation.
SS.912.E.1.Su.l:	Recognize changes in the business cycle, such as peak, contraction-unemployment, trough, and expansion-inflation.
SS.912.E.1.Pa.l:	Recognize a change in the business cycle, such as growth (peak).

[SS.912.E.1.13:](#) Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.

Related Access Points

Name	Description
SS.912.E.1.In.m:	Describe the basic functions of money in the United States.
SS.912.E.1.Su.m:	Identify the basic functions of money in the United States.
SS.912.E.1.Pa.m:	Recognize a use for money in the United States.

[SS.912.E.1.14:](#) Compare credit, savings, and investment services available to the consumer from financial institutions.

Related Access Points

Name	Description
SS.912.E.1.In.n:	Identify major differences between credit, savings, and investment services.
SS.912.E.1.Su.n:	Recognize a credit and savings service.
SS.912.E.1.Pa.n:	Recognize that money in a bank can be withdrawn.

Describe the risk and return profiles of various investment vehicles and the importance of diversification.

[SS.912.E.1.15:](#)

Remarks/Examples:
Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.

Related Access Points

Name	Description
SS.912.E.1.In.o:	Identify sources of information on investments, such as stocks, bonds, and mutual funds.
SS.912.E.1.Su.o:	Recognize the purpose of saving and investing money.
SS.912.E.1.Pa.o:	Recognize the purpose of saving money.

Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item.

[SS.912.E.1.16:](#)

Remarks/Examples:
Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel.
Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions.
Examples of a credit plan are interest rates, credit scores, payment plan.

Related Access Points

Name	Description
SS.912.E.1.In.p:	Identify a budget plan that includes wages for a specific career, ongoing expenses, and a plan for purchasing a major item.
SS.912.E.1.Su.p:	Recognize a budget plan that includes wages and essential expenses, such as food and housing.
SS.912.E.1.Pa.p:	Recognize a plan (budget) to save and spend money.

Identify and explain broad economic goals.

[SS.912.E.2.1:](#)

Remarks/Examples:
Examples are freedom, efficiency, equity, security, growth, price stability, full employment.

Related Access Points

Name	Description
SS.912.E.2.In.a:	Identify broad economic goals, such as freedom, security, and full employment.
SS.912.E.2.Su.a:	Recognize a broad economic goal, such as full employment.
SS.912.E.2.Pa.a:	Recognize a reason for employment.

[SS.912.E.2.2:](#) Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.

Related Access Points

Name	Description
SS.912.E.2.In.b:	Identify a public policy issue that affects the student’s community and potential consequences, such as rezoning for housing and businesses or building new roads.
SS.912.E.2.Su.b:	Recognize a public policy issue that affects the student’s community and a possible consequence, such as planning for new houses.
SS.912.E.2.Pa.b:	Recognize the value of a community project, such as recycling.

[SS.912.E.2.3:](#)

Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.

Related Access Points

Name	Description
SS.912.E.2.In.c:	Describe contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.E.2.Su.c:	Identify contributions of an entrepreneur, inventor, and other key individual from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.E.2.Pa.c:	Recognize an individual who has contributed to the United States.

[SS.912.E.2.4:](#)

Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls.

Remarks/Examples:
Examples are shortage, surplus, other inefficiencies.

Related Access Points

Name	Description
SS.912.E.2.In.d:	Identify examples of government wage and price controls, such as minimum wage and rent control.
SS.912.E.2.Su.d:	Recognize examples of government wage and price controls, such as minimum wage and rent control.
SS.912.E.2.Pa.d:	Recognize that government sets the minimum wage.

[SS.912.E.2.5:](#)

Analyze how capital investments may impact productivity and economic growth.

Remarks/Examples:
Examples are factories, machinery, technology, people.

Related Access Points

Name	Description
SS.912.E.2.In.e:	Identify how investment in factories, machinery, technology, or people can impact productivity.
SS.912.E.2.Su.e:	Recognize that investment in factories, machinery, technology, or people can impact productivity.
SS.912.E.2.Pa.e:	Recognize that investment may increase productivity.

[SS.912.E.2.6:](#)

Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies.

Remarks/Examples:
Examples are electric, water, cable, waste management.

Related Access Points

Name	Description
SS.912.E.2.In.f:	Identify the purpose of natural monopolies regulated by the government, such as electricity and water.
SS.912.E.2.Su.f:	Recognize examples of a natural monopoly, such as electricity and water.
SS.912.E.2.Pa.f:	Recognize an example of a natural monopoly, such as electricity or water.

[SS.912.E.2.7:](#)

Identify the impact of inflation on society.

Related Access Points

Name	Description
SS.912.E.2.In.g:	Identify a common impact of inflation on society.
SS.912.E.2.Su.g:	Recognize a common impact of inflation on society.
SS.912.E.2.Pa.g:	Recognize that the cost of items can increase.

[SS.912.E.2.8:](#)

Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive).

Remarks/Examples:
Examples are income, sales, social security.

Related Access Points

Name	Description
SS.912.E.2.In.h:	Identify different types of taxes, such as income, sales, and social security.
SS.912.E.2.Su.h:	Recognize different types of taxes, such as income, sales, and social security.
SS.912.E.2.Pa.h:	Recognize a tax, such as sales tax.

[SS.912.E.2.9:](#)

Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt.

Related Access Points

Name	Description
SS.912.E.2.In.i:	Recognize the relationship between government spending and taxation and the economy.
SS.912.E.2.Su.i:	Recognize that government spending and taxation affects the economy.
SS.912.E.2.Pa.i:	Recognize that the government spends money.

[SS.912.E.2.10:](#)

Describe the organization and functions of the Federal Reserve System.

Related Access Points

Name	Description
SS.912.E.2.In.j:	Identify a function of the Federal Reserve System, such as to control interest rates and the money supply and supervise banking institutions.
SS.912.E.2.Su.j:	Recognize a function of the Federal Reserve System, such as to control interest rates.
SS.912.E.2.Pa.j:	Recognize that the government controls money.

Assess the economic impact of negative and positive externalities on the local, state, and national environment.

[SS.912.E.2.11:](#)

Remarks/Examples:
 Examples of negative are pollution, global warming.
 Examples of positive are pure water, better air quality.

Related Access Points

Name	Description
SS.912.E.2.In.k:	Describe an example of the economic impact of positive and negative side effects (externalities) on the environment.
SS.912.E.2.Su.k:	Identify an example of the economic impact of a positive and negative side effect (externality) on the environment.
SS.912.E.2.Pa.k:	Recognize a positive or negative side effect (externality) of producing goods.

[SS.912.E.2.12:](#)

Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade.

Related Access Points

Name	Description
SS.912.E.2.In.l:	Identify the flow of money in a local economy, including the individual and household, businesses, banks, government, and international trade.
SS.912.E.2.Su.l:	Recognize the movement of money in a local economy, including the individual and household, businesses, banks, and government.
SS.912.E.2.Pa.l:	Recognize that money moves from buyer to seller.

Demonstrate the impact of inflation on world economies.

[SS.912.E.3.1:](#)

Remarks/Examples:
 Examples are oil prices, 1973 oil crisis, Great Depression, World War II.

Related Access Points

Name	Description
SS.912.E.3.In.a:	Identify the impact of inflation on world economies, such as oil prices and the Great Depression.
SS.912.E.3.Su.a:	Recognize an impact of inflation on the economy, such as oil prices.
SS.912.E.3.Pa.a:	Recognize that costs of goods and services change over time.

[SS.912.E.3.2:](#)

Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage.

Related Access Points

Name	Description
SS.912.E.3.In.b:	Identify economic advantages a country may have when trading with another country, such as abundant natural resources and a cheap labor force.
SS.912.E.3.Su.b:	Recognize examples of economic advantages a country may have when trading with another country, such as abundant natural resources.
SS.912.E.3.Pa.b:	Recognize the advantage of a trade.

Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones.

[SS.912.E.3.3:](#)

Remarks/Examples:
 Examples are NAFTA, CAFTA.
 Examples are quotas, tariffs.

Related Access Points

Name	Description
SS.912.E.3.In.c:	Identify examples of barriers to trade, such as quotas and tariffs.

[SS.912.E.3.Su.c:](#) Recognize a barrier to trade, such as quotas and tariffs.

[SS.912.E.3.Pa.c:](#) Recognize a disadvantage (barrier) of a trade.

Assess the economic impact of negative and positive externalities on the international environment.

[SS.912.E.3.4:](#)

Remarks/Examples:

Examples of negative are pollution, global warming.

Examples of positive are pure water, better air quality.

Related Access Points

Name	Description
SS.912.E.3.In.d:	Identify an example of the economic impact of positive and negative side effects (externalities) on the international environment.
SS.912.E.3.Su.d:	Recognize an example of the economic impact of a positive and negative side effect (externality) on the international environment.
SS.912.E.3.Pa.d:	Recognize a positive or negative side effect (externality) of producing goods in the international environment.

Compare the current United States economy with other developed and developing nations.

[SS.912.E.3.5:](#)

Remarks/Examples:

Examples are standard of living, exchange rates, productivity, gross domestic product.

Related Access Points

Name	Description
SS.912.E.3.In.e:	Identify differences in the economies of the United States and another country, such as the standard of living and productivity.
SS.912.E.3.Su.e:	Recognize a characteristic of another country's economy, such as the standard of living.
SS.912.E.3.Pa.e:	Recognize an economic characteristic of daily living, such as the cost of housing.

Differentiate and draw conclusions about historical economic thought theorized by economists.

[SS.912.E.3.6:](#)

Remarks/Examples:

Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.

Related Access Points

Name	Description
SS.912.E.3.In.f:	Identify that economics involves the study of how people and countries make decisions about the use of scarce resources in the most efficient way.
SS.912.E.3.Su.f:	Recognize that economics involves the study of how people and countries make decisions about the use of scarce resources in the most efficient way.
SS.912.E.3.Pa.f:	Recognize that people study the economy.

[SS.912.G.2.2:](#)

Describe the factors and processes that contribute to the differences between developing and developed regions of the world.

Related Access Points

Name	Description
SS.912.G.2.In.b:	Recognize factors and processes that contribute to differences between developing and developed regions of the world.
SS.912.G.2.Su.b:	Recognize a factor that contributes to differences between developing and developed regions of the world.
SS.912.G.2.Pa.b:	Recognize a characteristic of development.

[SS.912.G.3.3:](#)

Use geographic terms and tools to explain differing perspectives on the use of renewable and non-renewable resources in Florida, the United States, and the world.

Related Access Points

Name	Description
SS.912.G.3.In.c:	Use geographic terms and tools to identify different opinions on the use of renewable and non-renewable resources in Florida, the United States, and the world.
SS.912.G.3.Su.c:	Use geographic terms and tools to recognize ways that people have used renewable and non-renewable resources in Florida, the United States, or the world.
SS.912.G.3.Pa.c:	Recognize a way to recycle resources.

Use geographic terms and tools to analyze case studies of issues in globalization.

[SS.912.G.4.4:](#)

Remarks/Examples:

Examples are cultural imperialism, outsourcing.

Related Access Points

Name	Description
SS.912.G.4.In.d:	Use geographic terms and tools to identify issues in globalization, such as outsourcing and unfair treatment of certain population groups.
SS.912.G.4.Su.d:	Use geographic terms and tools to recognize an issue in globalization, such as outsourcing or unfair treatment of certain population groups.
SS.912.G.4.Pa.d:	Recognize an effect of globalization.

[LAFS.1112.SL.1.2:](#) Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.1112.SL.1.3:](#) Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.3a:	Determine the speaker's point of view or purpose in a text.
LAFS.1112.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.1112.SL.1.AP.3c:	Evaluate the evidence used to make the speaker's argument.
LAFS.1112.SL.1.AP.3d:	Evaluate a speaker's point of view, reasoning, use of evidence and rhetoric for ideas, relationship between claims, reasoning, evidence and word choice.

[LAFS.1112.SL.2.4:](#) Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

Related Access Points

Name	Description
LAFS.1112.SL.2.AP.4a:	Report orally on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.1112.RH.1.1:](#) Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.

[LAFS.1112.RH.1.2:](#) Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.

[LAFS.1112.RH.1.3:](#) Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.

[LAFS.1112.RH.2.4:](#) Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines faction in Federalist No. 10).

[LAFS.1112.RH.2.5:](#) Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.

[LAFS.1112.RH.2.6:](#) Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.

[LAFS.1112.RH.3.7:](#) Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.

[LAFS.1112.RH.3.8:](#) Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.

[LAFS.1112.RH.3.9:](#) Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.

[LAFS.1112.RH.4.10:](#) By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.

Write arguments focused on discipline-specific content.

- Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.
- Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.1112.WHST.1.1:](#)

Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

- Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.
- Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).

[LAFS.1112.WHST.1.2:](#)

[LAFS.1112.WHST.2.4:](#) Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.1112.WHST.2.5:](#) Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.								
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.								
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.								
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.								
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.								
	Make sense of problems and persevere in solving them.								
	Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.								
MAFS.K12.MP.1.1:									
	Construct viable arguments and critique the reasoning of others.								
	Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.								
MAFS.K12.MP.3.1:									
	Use appropriate tools strategically.								
	Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.								
MAFS.K12.MP.5.1:									
	Attend to precision.								
	Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.								
MAFS.K12.MP.6.1:									
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.								
HE.912.C.2.4:	<table border="1"> <tr> <td>Remarks/Examples: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</td> </tr> </table>	Remarks/Examples: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.							
Remarks/Examples: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.									
	Related Access Points								
	<table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>HE.912.C.2.In.d:</td> <td>Describe how public-health policies and government regulations can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.</td> </tr> <tr> <td>HE.912.C.2.Su.d:</td> <td>Identify ways school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.</td> </tr> <tr> <td>HE.912.C.2.Pa.d:</td> <td>Recognize ways selected school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and assessing health status.</td> </tr> </tbody> </table>	Name	Description	HE.912.C.2.In.d:	Describe how public-health policies and government regulations can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.	HE.912.C.2.Su.d:	Identify ways school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.	HE.912.C.2.Pa.d:	Recognize ways selected school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and assessing health status.
Name	Description								
HE.912.C.2.In.d:	Describe how public-health policies and government regulations can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.								
HE.912.C.2.Su.d:	Identify ways school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.								
HE.912.C.2.Pa.d:	Recognize ways selected school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and assessing health status.								
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.								
ELD.K12.ELL.AA.1:	English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Social Studies.								

There are more than 248 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12824>

Access Economics with Financial Literacy (#7921022)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7921022	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Academics - Subject Areas >
Course Section: Exceptional Student Education	Abbreviated Title: ACCESS ECON FIN LIT
Number of Credits: Multiple Credit (more than 1 credit)	Course Length: Multiple (M) - Course length can vary
Course Type: Core	Class Size? Yes
Course Status: Draft - Course Pending Approval	Grade Level(s) Version: 9,10,11,12
Keywords: access economics with financial literacy, ESE, high school, exceptional student education, access, financial, finance, financial literacy, economics	Requires a Highly Qualified Teacher (HQT)? Yes
Grade Level(s): 9, 10, 11, 12	
NCLB? Yes	

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section: Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>. For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description														
MA.912.A.1.1:	<p>Know equivalent forms of real numbers (including integer exponents and radicals, percents, scientific notation, absolute value, rational numbers, irrational numbers).</p> <div style="border: 1px solid black; padding: 5px;"> <p>Remarks/Examples: Example: Express 5^{-2} without an exponent.</p> </div> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>MA.912.A.1.In.a:</td> <td>Identify and use equivalent forms of fractions, such as halves, fourths, thirds, sixths, eighths, tenths, and sixteenths; decimals to the hundredths place; and percents, such as 25%, 50%, 75%, 100%, 33%, and 67%, using visual and numerical representation</td> </tr> <tr> <td>MA.912.A.1.In.b:</td> <td>Identify examples of positive and negative whole numbers in real-world situations.</td> </tr> <tr> <td>MA.912.A.1.In.c:</td> <td>Determine the value of numbers to 10 with the exponents 2 and 3, such as 42 and 33, using physical and visual patterns.</td> </tr> <tr> <td>MA.912.A.1.Su.a:</td> <td>Identify equivalent forms of fractions, such as halves, thirds, and fourths; percents, such as 50%, 33%, and 25%; and decimals in the context of money, using visual and numerical representation in real-world situations.</td> </tr> <tr> <td>MA.912.A.1.Su.b:</td> <td>Identify the value of numbers to 5 with the exponent 2 using physical and visual models.</td> </tr> <tr> <td>MA.912.A.1.Pa.a:</td> <td>Identify and express quantity in sets to 10 using objects, pictures, symbols, or number names.</td> </tr> </tbody> </table>	Name	Description	MA.912.A.1.In.a:	Identify and use equivalent forms of fractions, such as halves, fourths, thirds, sixths, eighths, tenths, and sixteenths; decimals to the hundredths place; and percents, such as 25%, 50%, 75%, 100%, 33%, and 67%, using visual and numerical representation	MA.912.A.1.In.b:	Identify examples of positive and negative whole numbers in real-world situations.	MA.912.A.1.In.c:	Determine the value of numbers to 10 with the exponents 2 and 3, such as 42 and 33, using physical and visual patterns.	MA.912.A.1.Su.a:	Identify equivalent forms of fractions, such as halves, thirds, and fourths; percents, such as 50%, 33%, and 25%; and decimals in the context of money, using visual and numerical representation in real-world situations.	MA.912.A.1.Su.b:	Identify the value of numbers to 5 with the exponent 2 using physical and visual models.	MA.912.A.1.Pa.a:	Identify and express quantity in sets to 10 using objects, pictures, symbols, or number names.
Name	Description														
MA.912.A.1.In.a:	Identify and use equivalent forms of fractions, such as halves, fourths, thirds, sixths, eighths, tenths, and sixteenths; decimals to the hundredths place; and percents, such as 25%, 50%, 75%, 100%, 33%, and 67%, using visual and numerical representation														
MA.912.A.1.In.b:	Identify examples of positive and negative whole numbers in real-world situations.														
MA.912.A.1.In.c:	Determine the value of numbers to 10 with the exponents 2 and 3, such as 42 and 33, using physical and visual patterns.														
MA.912.A.1.Su.a:	Identify equivalent forms of fractions, such as halves, thirds, and fourths; percents, such as 50%, 33%, and 25%; and decimals in the context of money, using visual and numerical representation in real-world situations.														
MA.912.A.1.Su.b:	Identify the value of numbers to 5 with the exponent 2 using physical and visual models.														
MA.912.A.1.Pa.a:	Identify and express quantity in sets to 10 using objects, pictures, symbols, or number names.														
MA.912.F.1.1:	<p>Explain the difference between simple and compound interest.</p> <div style="border: 1px solid black; padding: 5px;"> <p>Remarks/Examples: Example: Compare the <u>similarities</u> and differences for calculating the final amount of money in your savings account based on simple interest or <u>compound interest</u>.</p> </div> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> </tbody> </table>	Name	Description												
Name	Description														

MA.912.F.1.In.a:	Identify interest on a loan or credit card as money charged for borrowing money.
MA.912.F.1.In.b:	Identify interest on a savings account as money earned by keeping money in the account over time.
MA.912.F.1.Su.a:	Identify interest as extra money charged when borrowing money.
MA.912.F.1.Su.b:	Identify interest on a savings account as money earned by keeping money in the account.
MA.912.F.1.Su.c:	Identify interest rates used in real-world situations.
MA.912.F.1.Pa.a:	Recognize that some items cost more than others.

Analyze credit scores and reports.

[MA.912.F.3.2:](#)

Remarks/Examples:
 Example: Explain how each of the following categories affects a credit score: 1) past payment history, 2) amount of debt, 3) public records information, 4) length of credit history, and 5) the number of recent credit inquiries.

Calculate the finance charges and total amount due on a credit card bill.

[MA.912.F.3.3:](#)

Remarks/Examples:
 Example: Calculate the finance charge each month and the total amount paid for 5 months if you charged \$500 on your credit card but you can only afford to pay \$100 each month. Your credit card has a monthly periodic finance rate of .688% and an annual finance rate of 8.9%.

Related Access Points

Name	Description
MA.912.F.3.In.c:	Identify finance charges as extra amounts added to cost of items that are not paid for on time.
MA.912.F.3.Su.c:	Identify the effects of not paying bills on time.
MA.912.F.3.Pa.a:	Recognize that a predetermined amount of money can be used to pay for an item in common purchasing situations.

Compare the advantages and disadvantages of deferred payments.

[MA.912.F.3.4:](#)

Remarks/Examples:
 Example: Compare paying on a college loan between a Stafford loan or a PLUS loan two years after graduation

Related Access Points

Name	Description
MA.912.F.3.In.d:	Recognize that deferred payments result in extra charges, such as increased interest rates.
MA.912.F.3.Su.c:	Identify the effects of not paying bills on time.
MA.912.F.3.Pa.a:	Recognize that a predetermined amount of money can be used to pay for an item in common purchasing situations.

Calculate deferred payments.

[MA.912.F.3.5:](#)

Remarks/Examples:
 Example: You want to buy a sofa that cost \$899. Company A will let you pay \$100 down and then pay the remaining amount over 3 years at 22% interest. Company B will not make you pay a down payment and they will defer payments for one year. However, you will accrue interest at a rate of 20 % interest during that first year. Starting the second year you will have to pay the new amount for 2 years at a rate of 26 % interest. Which deal is better and why? Calculate the total amount paid for both deals. Example: An electronics company advertises that you don't have to pay anything for 2 years. If you bought a big screen TV for \$2999 on January 1st what would your balance be two years later if you haven't made any payments assuming an interest rate of 23.99%? What would your monthly payments be to pay the TV off in 2 years? What did the TV really cost you?

Calculate total cost of purchasing consumer durables over time given different down payments, financing options, and fees.

[MA.912.F.3.6:](#)

Remarks/Examples:
 Example: Find the actual cost of a car and interest charged with a showroom price of \$15,999, down payment of \$1,600, rate of interest of 12%, and 30 monthly payments.

Related Access Points

Name	Description
MA.912.F.3.In.e:	Identify reasons for paying bills on time and the effects of late payments or nonpayment.
MA.912.F.3.Su.c:	Identify the effects of not paying bills on time.
MA.912.F.3.Pa.a:	Recognize that a predetermined amount of money can be used to pay for an item in common purchasing situations.

Calculate the total amount to be paid over the life of a fixed rate loan.

[MA.912.F.3.9:](#)

Remarks/Examples:
 Example: Calculate the total amount to be paid for a \$275,000 loan at 5.75% interest over 30 years

Calculate the effects on the monthly payment in the change of interest rate based on an adjustable rate mortgage.

[MA.912.F.3.10:](#)

Remarks/Examples:
 Example: You would like to borrow \$245,000 using a 30-year, 1-year ARM indexed to the 1-year Treasury security with a 2.75 percent margin and 2/6 caps (2 percent per year and 6 percent lifetime). The initial interest rate on this loan is 2.75 percent. The lender is charging you 1.50 points and \$1,200 in miscellaneous fees to close the loan.

a) What is the initial payment on this mortgage?
 b) If the 1- year Treasury security is yielding 2.25 percent at the first adjustment date, what is your payment on this loan during the second year?
 c) Suppose that the 1-year Treasury is yielding 2.75 percent at the second adjustment

date. What is the new payment on this loan during the third year?
 d) Assuming that you pay of the loan at the end of the third year, what yield did the lender earn on this loan?
 Now resolve all four parts of the last problem assuming that the loan has a 20 percent payment cap instead of 2/6 interest rate caps.
 a) What is the initial payment on this mortgage?
 b) If the 1- year Treasury security is yielding 2.25 percent at the first adjustment date, what is your payment on this loan during the second year?
 c) Suppose that the 1-year Treasury is yielding 2.75 percent at the second adjustment date. What is the new payment on this loan during the third year?
 d) Assuming that you pay of the loan at the end of the third year, what yield did the lender earn on this loan?

Calculate the final pay out amount for a balloon mortgage.

MA.912.F.3.11:

Remarks/Examples:
 Example: If you have a 5-year balloon mortgage with a 15 year amortization schedule, a rate of 6.5%, and a \$100,000 loan what would the remaining balance be after the end of the fifth year?

Compare the cost of paying a higher interest rate and lower points versus a lower interest rate and more points.

MA.912.F.3.12:

Remarks/Examples:
 Example: Assuming all of the following were originally 15 year mortgages, which fixed rate mortgage cost the mortgagor the least?
 a) 7.375% interest + 0 points paid off in 10 years
 b) 7.375% interest + 0 points paid off in 7 years
 c) 7 % interest + 3 points paid off in 10 years
 d) 7 % interest + 3 points paid off in 7 years

Calculate the total amount paid for the life of a loan for a house including the down payment, points, fees, and interest.

MA.912.F.3.13:

Remarks/Examples:
 Example: Calculate the total amount paid for a \$100,000 house with a 15 year fixed rate loan at 5.65% if the mortgagor pays a \$25,000 down payment 2 points 1% origination fee maximum brokerage fee on a net loan and State Documentary Stamps on the deed at a tax rate of \$.70 per \$100, the mortgage note at a tax rate of \$.35 per \$100, a and Intangible Tax at a rate of .002.

Compare the total cost for a set purchase price using a fixed rate, adjustable rate, and a balloon mortgage.

MA.912.F.3.14:

Remarks/Examples:
 Example: Find the total cost for a \$225,000 mortgage for the following options:
 a) 30 year fixed rate mortgage with a rate of 6.35 %
 b) 3/1 ARM with a rate of 6.75% with a maximum adjustment of 2 points per year with a cap of 6 points for 30 years c) 10 year balloon mortgage with a 30 year amortization schedule with a rate of 5.5%
 Next describe the benefits and detriments of each mortgage option.

Collect, organize, and interpret data to determine an effective retirement savings plan to meet personal financial goals.

MA.912.F.4.8:

Remarks/Examples:
 Example: Investigate historical rates of return for stocks, bonds, savings accounts, mutual funds, as well as the relative risks for each type of investment. Organize your results in a table showing the relative returns and risks of each type of investment over short and long terms, and use these data to determine a combination of investments suitable for building a retirement account sufficient to meet anticipated financial needs.

Calculate, compare, and contrast different types of retirement plans, including IRAs, ROTH accounts, and annuities.

MA.912.F.4.9:

Remarks/Examples:
 Example: Suppose you put \$5000 per year into an IRA for 40 years. If the account pays 6% per year interest, how much would you have at the end of the 40 years? If, at that time, you are in the 15% income tax bracket, how much would this be after taxes?
 Suppose that, instead, you paid the tax each year on the \$5000 at your current rate of 28% and put the remaining funds in a ROTH account paying 6% interest. How much would you then have after 40 years?
 Which appears to be the better option? What are some of the risks of deferring tax payments until retirement?
 Example: Explain the difference between an Individual Retirement Account (IRA) and a ROTH account.
 Why might somebody choose to put retirement funds in a ROTH account rather than an IRA?

MA.912.F.4.10:

Analyze diversification in investments.

Purchase stock with a set amount of money, and follow the process through gains, losses, and selling.

MA.912.F.4.11:

Remarks/Examples:
 Example: At the beginning of the year, Mary invests \$3000, buying \$1500 of Stock A at \$30 per share, \$1000 of Stock B at \$40 per share, and putting \$500 in a money market account paying 5% interest. At the end of the year, stock A is priced at \$34 per share, and stock B is priced at \$38 per share. What is the overall rate of return for the year on Mary's investments?

Compare and contrast income from purchase of common stock, preferred stock, and bonds.

MA.912.F.4.12:

Remarks/Examples:
 Example: Explain the difference between common and preferred stock. What are some reasons people might choose common stock over preferred stock? Which type of stock is more prevalent in the market today?
 Example: Compare corporate bonds, government bonds, and common stock as investments with respect to the following attributes: rates of return, price risk, default risk, and taxability of earnings

Given current exchange rates be able to convert from one form of currency to another.

[MA.912.F.4.13:](#)

Remarks/Examples:

Example: Suppose you are traveling in Europe, and while there you withdraw 150 Euros to pay for expenses. If the exchange rate at the time was \$1.27 per Euro, how much money (in dollars) was charged to your bank account?

[MA.912.F.4.14:](#)

Use data to compare historical rates of return on investments with investment claims to make informed decisions and identify potential fraud.

Identify the factors of production and why they are necessary for the production of goods and services.

[SS.912.E.1.1:](#)

Remarks/Examples:

Examples are land, labor, capital, entrepreneurship.

Related Access Points

Name	Description
SS.912.E.1.In.a:	Identify examples of factors of production, such as land, labor, and capital.
SS.912.E.1.Su.a:	Recognize examples of factors of production, such as land, labor, and capital.
SS.912.E.1.Pa.a:	Recognize that products are made from resources.

[SS.912.E.1.2:](#)

Analyze production possibilities curves to explain choice, scarcity, and opportunity costs.

Related Access Points

Name	Description
SS.912.E.1.In.b:	Identify the impact of scarcity, choice, and opportunity costs on the production of goods and services.
SS.912.E.1.Su.b:	Identify an example of scarcity, choice, and trade-offs in the production of goods.
SS.912.E.1.Pa.b:	Recognize examples of scarcity and choice.

[SS.912.E.1.3:](#)

Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?; (2) How to produce?; and (3) For whom to produce?

Related Access Points

Name	Description
SS.912.E.1.In.c:	Identify differences in the major characteristics of the market, command, and mixed economic systems.
SS.912.E.1.Su.c:	Recognize a major characteristic of the market and the command economic systems.
SS.912.E.1.Pa.c:	Recognize that goods are produced because people want or need them (supply and demand).

[SS.912.E.1.4:](#)

Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.

Related Access Points

Name	Description
SS.912.E.1.In.d:	Describe how the interaction between supply and demand affects the price of a product.
SS.912.E.1.Su.d:	Identify examples of the interaction between supply and demand.
SS.912.E.1.Pa.d:	Recognize that goods are produced because people want or need them (supply and demand).

Compare different forms of business organizations.

[SS.912.E.1.5:](#)

Remarks/Examples:

Examples are sole proprietorship, partnership, corporation, limited liability corporation.

Related Access Points

Name	Description
SS.912.E.1.In.e:	Identify forms of business organization, such as sole proprietorship, partnership, and corporation.
SS.912.E.1.Su.e:	Recognize forms of business organization, such as sole proprietorship, partnership, or corporation.
SS.912.E.1.Pa.e:	Recognize that some businesses are owned by people.

[SS.912.E.1.6:](#)

Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).

Related Access Points

Name	Description
SS.912.E.1.In.f:	Identify differences between a monopoly and pure competition market structure.
SS.912.E.1.Su.f:	Recognize a difference between a monopoly and pure competition market structure.
SS.912.E.1.Pa.f:	Recognize a basic characteristic of a market structure, such as buyers and sellers.

[SS.912.E.1.7:](#)

Graph and explain how firms determine price and output through marginal cost analysis.

Related Access Points

Name	Description
SS.912.E.1.In.g:	Identify factors that determine the price of a good or service, such as fixed and variable costs.
SS.912.E.1.Su.g:	Recognize factors that determine the price of a good or service, such as fixed costs.
SS.912.E.1.Pa.g:	Recognize that goods are produced because people want or need them (supply and demand).

[SS.912.E.1.8:](#) Explain ways firms engage in price and nonprice competition.

Related Access Points

Name	Description
SS.912.E.1.In.h:	Identify characteristics of price and non-price competition, such as discounts and rebates, and quality and extra service.
SS.912.E.1.Su.h:	Recognize an example of price and non-price competition, such as discounts or extra service.
SS.912.E.1.Pa.h:	Recognize that products have different prices.

Describe how the earnings of workers are determined.

[SS.912.E.1.9:](#)

Remarks/Examples:

Examples are minimum wage, the market value of the product produced, workers' productivity.

Related Access Points

Name	Description
SS.912.E.1.In.i:	Identify factors that determine the earnings of workers, such as minimum wage, the market value of the product, and worker productivity.
SS.912.E.1.Su.i:	Recognize that the earnings of workers reflect worker productivity.
SS.912.E.1.Pa.i:	Recognize that workers receive wages.

[SS.912.E.1.10:](#) Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.

Related Access Points

Name	Description
SS.912.E.1.In.j:	Identify that the government uses taxation and oversight of government spending to support the economy.
SS.912.E.1.Su.j:	Recognize that the government uses tax money to support the economy.
SS.912.E.1.Pa.j:	Recognize that the government makes rules about money.

[SS.912.E.1.11:](#)

Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.

Related Access Points

Name	Description
SS.912.E.1.In.k:	Identify that the Federal Reserve controls interest rates to affect economic growth.
SS.912.E.1.Su.k:	Recognize that the bank of the federal government (Federal Reserve) controls some interest rates.
SS.912.E.1.Pa.k:	Recognize that the government makes rules about money.

[SS.912.E.1.12:](#) Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).

Related Access Points

Name	Description
SS.912.E.1.In.l:	Identify changes in the business cycle, such as peak, contraction-unemployment, trough, and expansion-inflation.
SS.912.E.1.Su.l:	Recognize changes in the business cycle, such as peak, contraction-unemployment, trough, and expansion-inflation.
SS.912.E.1.Pa.l:	Recognize a change in the business cycle, such as growth (peak).

[SS.912.E.1.13:](#)

Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.

Related Access Points

Name	Description
SS.912.E.1.In.m:	Describe the basic functions of money in the United States.
SS.912.E.1.Su.m:	Identify the basic functions of money in the United States.
SS.912.E.1.Pa.m:	Recognize a use for money in the United States.

[SS.912.E.1.14:](#) Compare credit, savings, and investment services available to the consumer from financial institutions.

Related Access Points

Name	Description
SS.912.E.1.In.n:	Identify major differences between credit, savings, and investment services.
SS.912.E.1.Su.n:	Recognize a credit and savings service.
SS.912.E.1.Pa.n:	Recognize that money in a bank can be withdrawn.

Describe the risk and return profiles of various investment vehicles and the importance of diversification.

[SS.912.E.1.15:](#)

Remarks/Examples:

Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.

Related Access Points

Name	Description
------	-------------

[SS.912.E.1.In.o:](#) Identify sources of information on investments, such as stocks, bonds, and mutual funds.

[SS.912.E.1.Su.o:](#) Recognize the purpose of saving and investing money.

[SS.912.E.1.Pa.o:](#) Recognize the purpose of saving money.

Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item.

Remarks/Examples:

Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel.

Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions.

Examples of a credit plan are interest rates, credit scores, payment plan.

[SS.912.E.1.16:](#)

Related Access Points

Name	Description
SS.912.E.1.In.p:	Identify a budget plan that includes wages for a specific career, ongoing expenses, and a plan for purchasing a major item.
SS.912.E.1.Su.p:	Recognize a budget plan that includes wages and essential expenses, such as food and housing.
SS.912.E.1.Pa.p:	Recognize a plan (budget) to save and spend money.

Identify and explain broad economic goals.

Remarks/Examples:

Examples are freedom, efficiency, equity, security, growth, price stability, full employment.

[SS.912.E.2.1:](#)

Related Access Points

Name	Description
SS.912.E.2.In.a:	Identify broad economic goals, such as freedom, security, and full employment.
SS.912.E.2.Su.a:	Recognize a broad economic goal, such as full employment.
SS.912.E.2.Pa.a:	Recognize a reason for employment.

Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.

[SS.912.E.2.2:](#)

Related Access Points

Name	Description
SS.912.E.2.In.b:	Identify a public policy issue that affects the student's community and potential consequences, such as rezoning for housing and businesses or building new roads.
SS.912.E.2.Su.b:	Recognize a public policy issue that affects the student's community and a possible consequence, such as planning for new houses.
SS.912.E.2.Pa.b:	Recognize the value of a community project, such as recycling.

Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.

[SS.912.E.2.3:](#)

Related Access Points

Name	Description
SS.912.E.2.In.c:	Describe contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.E.2.Su.c:	Identify contributions of an entrepreneur, inventor, and other key individual from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.E.2.Pa.c:	Recognize an individual who has contributed to the United States.

Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls.

[SS.912.E.2.4:](#)

Remarks/Examples:

Examples are shortage, surplus, other inefficiencies.

Related Access Points

Name	Description
SS.912.E.2.In.d:	Identify examples of government wage and price controls, such as minimum wage and rent control.
SS.912.E.2.Su.d:	Recognize examples of government wage and price controls, such as minimum wage and rent control.
SS.912.E.2.Pa.d:	Recognize that government sets the minimum wage.

Analyze how capital investments may impact productivity and economic growth.

[SS.912.E.2.5:](#)

Remarks/Examples:

Examples are factories, machinery, technology, people.

Related Access Points

Name	Description
SS.912.E.2.In.e:	Identify how investment in factories, machinery, technology, or people can impact productivity.
SS.912.E.2.Su.e:	Recognize that investment in factories, machinery, technology, or people can impact productivity.
SS.912.E.2.Pa.e:	Recognize that investment may increase productivity.

Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies.

[SS.912.E.2.6:](#)

Remarks/Examples:
Examples are electric, water, cable, waste management.

Related Access Points

Name	Description
SS.912.E.2.In.f:	Identify the purpose of natural monopolies regulated by the government, such as electricity and water.
SS.912.E.2.Su.f:	Recognize examples of a natural monopoly, such as electricity and water.
SS.912.E.2.Pa.f:	Recognize an example of a natural monopoly, such as electricity or water.

[SS.912.E.2.7:](#)

Identify the impact of inflation on society.

Related Access Points

Name	Description
SS.912.E.2.In.g:	Identify a common impact of inflation on society.
SS.912.E.2.Su.g:	Recognize a common impact of inflation on society.
SS.912.E.2.Pa.g:	Recognize that the cost of items can increase.

Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive).

[SS.912.E.2.8:](#)

Remarks/Examples:
Examples are income, sales, social security.

Related Access Points

Name	Description
SS.912.E.2.In.h:	Identify different types of taxes, such as income, sales, and social security.
SS.912.E.2.Su.h:	Recognize different types of taxes, such as income, sales, and social security.
SS.912.E.2.Pa.h:	Recognize a tax, such as sales tax.

[SS.912.E.2.9:](#)

Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt.

Related Access Points

Name	Description
SS.912.E.2.In.i:	Recognize the relationship between government spending and taxation and the economy.
SS.912.E.2.Su.i:	Recognize that government spending and taxation affects the economy.
SS.912.E.2.Pa.i:	Recognize that the government spends money.

[SS.912.E.2.10:](#)

Describe the organization and functions of the Federal Reserve System.

Related Access Points

Name	Description
SS.912.E.2.In.j:	Identify a function of the Federal Reserve System, such as to control interest rates and the money supply and supervise banking institutions.
SS.912.E.2.Su.j:	Recognize a function of the Federal Reserve System, such as to control interest rates.
SS.912.E.2.Pa.j:	Recognize that the government controls money.

Assess the economic impact of negative and positive externalities on the local, state, and national environment.

[SS.912.E.2.11:](#)

Remarks/Examples:
Examples of negative are pollution, global warming.
Examples of positive are pure water, better air quality.

Related Access Points

Name	Description
SS.912.E.2.In.k:	Describe an example of the economic impact of positive and negative side effects (externalities) on the environment.
SS.912.E.2.Su.k:	Identify an example of the economic impact of a positive and negative side effect (externality) on the environment.
SS.912.E.2.Pa.k:	Recognize a positive or negative side effect (externality) of producing goods.

[SS.912.E.2.12:](#)

Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade.

Related Access Points

Name	Description
------	-------------

[SS.912.E.2.In.l:](#) Identify the flow of money in a local economy, including the individual and household, businesses, banks, government, and international trade.

[SS.912.E.2.Su.l:](#) Recognize the movement of money in a local economy, including the individual and household, businesses, banks, and government.

[SS.912.E.2.Pa.l:](#) Recognize that money moves from buyer to seller.

Demonstrate the impact of inflation on world economies.

[SS.912.E.3.1:](#)

Remarks/Examples:

Examples are oil prices, 1973 oil crisis, Great Depression, World War II.

Related Access Points

Name	Description
SS.912.E.3.In.a:	Identify the impact of inflation on world economies, such as oil prices and the Great Depression.
SS.912.E.3.Su.a:	Recognize an impact of inflation on the economy, such as oil prices.
SS.912.E.3.Pa.a:	Recognize that costs of goods and services change over time.

[SS.912.E.3.2:](#)

Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage.

Related Access Points

Name	Description
SS.912.E.3.In.b:	Identify economic advantages a country may have when trading with another country, such as abundant natural resources and a cheap labor force.
SS.912.E.3.Su.b:	Recognize examples of economic advantages a country may have when trading with another country, such as abundant natural resources.
SS.912.E.3.Pa.b:	Recognize the advantage of a trade.

Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones.

[SS.912.E.3.3:](#)

Remarks/Examples:

Examples are NAFTA, CAFTA.
Examples are quotas, tariffs.

Related Access Points

Name	Description
SS.912.E.3.In.c:	Identify examples of barriers to trade, such as quotas and tariffs.
SS.912.E.3.Su.c:	Recognize a barrier to trade, such as quotas and tariffs.
SS.912.E.3.Pa.c:	Recognize a disadvantage (barrier) of a trade.

Assess the economic impact of negative and positive externalities on the international environment.

[SS.912.E.3.4:](#)

Remarks/Examples:

Examples of negative are pollution, global warming.
Examples of positive are pure water, better air quality.

Related Access Points

Name	Description
SS.912.E.3.In.d:	Identify an example of the economic impact of positive and negative side effects (externalities) on the international environment.
SS.912.E.3.Su.d:	Recognize an example of the economic impact of a positive and negative side effect (externality) on the international environment.
SS.912.E.3.Pa.d:	Recognize a positive or negative side effect (externality) of producing goods in the international environment.

Compare the current United States economy with other developed and developing nations.

[SS.912.E.3.5:](#)

Remarks/Examples:

Examples are standard of living, exchange rates, productivity, gross domestic product.

Related Access Points

Name	Description
SS.912.E.3.In.e:	Identify differences in the economies of the United States and another country, such as the standard of living and productivity.
SS.912.E.3.Su.e:	Recognize a characteristic of another country's economy, such as the standard of living.
SS.912.E.3.Pa.e:	Recognize an economic characteristic of daily living, such as the cost of housing.

Differentiate and draw conclusions about historical economic thought theorized by economists.

[SS.912.E.3.6:](#)

Remarks/Examples:

Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.

Related Access Points

Name	Description
SS.912.E.3.In.f:	Identify that economics involves the study of how people and countries make decisions about the use of scarce resources in the most efficient way.

[SS.912.E.3.Su.f.](#) Recognize that economics involves the study of how people and countries make decisions about the use of scarce resources in the most efficient way.

[SS.912.E.3.Pa.f.](#) Recognize that people study the economy.

[SS.912.G.2.2:](#)

Describe the factors and processes that contribute to the differences between developing and developed regions of the world.

Related Access Points

Name	Description
SS.912.G.2.In.b.	Recognize factors and processes that contribute to differences between developing and developed regions of the world.
SS.912.G.2.Su.b.	Recognize a factor that contributes to differences between developing and developed regions of the world.
SS.912.G.2.Pa.b.	Recognize a characteristic of development.

[SS.912.G.3.3:](#)

Use geographic terms and tools to explain differing perspectives on the use of renewable and non-renewable resources in Florida, the United States, and the world.

Related Access Points

Name	Description
SS.912.G.3.In.c.	Use geographic terms and tools to identify different opinions on the use of renewable and non-renewable resources in Florida, the United States, and the world.
SS.912.G.3.Su.c.	Use geographic terms and tools to recognize ways that people have used renewable and non-renewable resources in Florida, the United States, or the world.
SS.912.G.3.Pa.c.	Recognize a way to recycle resources.

Use geographic terms and tools to analyze case studies of issues in globalization.

[SS.912.G.4.4:](#)

Remarks/Examples:
Examples are cultural imperialism, outsourcing.

Related Access Points

Name	Description
SS.912.G.4.In.d.	Use geographic terms and tools to identify issues in globalization, such as outsourcing and unfair treatment of certain population groups.
SS.912.G.4.Su.d.	Use geographic terms and tools to recognize an issue in globalization, such as outsourcing or unfair treatment of certain population groups.
SS.912.G.4.Pa.d.	Recognize an effect of globalization.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.
- Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
- Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

[LAFS.1112.SL.1.1:](#)

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.1a:	Consider a full range of ideas or positions on a given topic or text when presented in a discussion.
LAFS.1112.SL.1.AP.1b:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1c:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1d:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.1112.SL.1.AP.1e:	Work with peers to promote democratic discussions.
LAFS.1112.SL.1.AP.1f:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1g:	Engage appropriately in discussion with others who have a diverse or divergent perspectives.

[LAFS.1112.SL.1.2:](#)

Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.1112.SL.1.3:](#)

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.3a:	Determine the speaker's point of view or purpose in a text.
LAFS.1112.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.1112.SL.1.AP.3c:	Evaluate the evidence used to make the speaker's argument.
LAFS.1112.SL.1.AP.3d:	Evaluate a speaker's point of view, reasoning, use of evidence and rhetoric for ideas, relationship between claims, reasoning, evidence and word choice.

Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

[LAFS.1112.SL.2.4:](#)

Related Access Points

Name	Description
LAFS.1112.SL.2.AP.4a:	Report orally on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.1112.RH.1.1:](#)

Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.

[LAFS.1112.RH.1.2:](#)

Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.

[LAFS.1112.RH.1.3:](#)

Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.

[LAFS.1112.RH.2.4:](#)

Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines faction in Federalist No. 10).

[LAFS.1112.RH.2.5:](#)

Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.

[LAFS.1112.RH.2.6:](#)

Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.

[LAFS.1112.RH.3.7:](#)

Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.

[LAFS.1112.RH.3.8:](#)

Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.

[LAFS.1112.RH.3.9:](#)

Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.

[LAFS.1112.RH.4.10:](#)

By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.

[LAFS.1112.WHST.1.1:](#)

Write arguments focused on discipline-specific content.

- Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.
- Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.1112.WHST.1.2:](#)

Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

- Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.
- Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).

[LAFS.1112.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[LAFS.1112.WHST.2.5:](#)

Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

[LAFS.1112.WHST.2.6:](#)

Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.

[LAFS.1112.WHST.3.7:](#)

Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

[LAFS.1112.WHST.3.8:](#)

Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.

[LAFS.1112.WHST.3.9:](#)

Draw evidence from informational texts to support analysis, reflection, and research.

[LAFS.1112.WHST.4.10:](#)

Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

Make sense of problems and persevere in solving them.

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway

rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

[MAFS.K12.MP.1.1:](#)

Construct viable arguments and critique the reasoning of others.

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

[MAFS.K12.MP.3.1:](#)

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

[MAFS.K12.MP.5.1:](#)

Attend to precision.

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

[MAFS.K12.MP.6.1:](#)

Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

[HE.912.C.2.4:](#)

Remarks/Examples:

Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

Related Access Points

Name	Description
HE.912.C.2.In.d:	Describe how public-health policies and government regulations can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Su.d:	Identify ways school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Pa.d:	Recognize ways selected school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and assessing health status.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AA.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Social Studies.

There are more than 265 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/13009>

Access United States History (#7921025)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7921025	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Course may be taken for up to two credits	Abbreviated Title: ACCESS US HIST
Course Type: Core	Course Length: Year (Y)
Course Status: Draft - Course Pending Approval	Class Size? Yes
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
Related Access Points	
Name	Description
SS.912.A.1.In.a:	Identify the importance of the use of authentic sources and critical review by historians to write about events.
SS.912.A.1.Su.a:	Identify the importance of the use of authentic sources by historians to write about events.
SS.912.A.1.Pa.a:	Recognize that historians write about events.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period.
Related Access Points	
Name	Description
SS.912.A.1.In.b:	Identify the author and purpose of significant historical documents using primary and secondary sources.
SS.912.A.1.Su.b:	Identify the author and purpose of significant historical documents.
SS.912.A.1.Pa.b:	Use appropriate sources to obtain information about history.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
Related Access Points	
Name	Description
SS.912.A.1.In.c:	Use a timeline to identify the sequence of historical data.

SS.912.A.1.Su.c:	Use a timeline to identify a historical event.
SS.912.A.1.Pa.c:	Use a timeline to recognize an event that occurred in the past.

[SS.912.A.1.4:](#) Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.

Related Access Points

Name	Description
SS.912.A.1.In.d:	Interpret pictures, cartoons, graphs, artwork, artifacts, or writings to obtain information about a time period and events from the past.
SS.912.A.1.Su.d:	Use pictures, cartoons, graphs, artwork, artifacts, or writings to obtain information about a time period and events from the past.
SS.912.A.1.Pa.d:	Recognize pictures, cartoons, or artifacts about the past.

Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources.

[SS.912.A.1.5:](#) **Remarks/Examples:**
Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/Library_Media/pdf/12TotalFINDS.pdf

Related Access Points

Name	Description
SS.912.A.1.In.e:	Determine the accuracy of current events and Internet resources by comparing them to reliable sources.
SS.912.A.1.Su.e:	Recognize the accuracy of current events and Internet resources by comparing them to reliable sources.
SS.912.A.1.Pa.e:	Recognize information about current events.

[SS.912.A.1.6:](#) Use case studies to explore social, political, legal, and economic relationships in history.

Related Access Points

Name	Description
SS.912.A.1.In.f:	Use a case study to identify social, political, legal, and economic relationships in history.
SS.912.A.1.Su.f:	Use a case study to recognize social, political, legal, and economic relationships in history.
SS.912.A.1.Pa.f:	Use a case study to obtain information on history.

[SS.912.A.1.7:](#) Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.

Related Access Points

Name	Description
SS.912.A.1.In.g:	Identify selected socio-cultural aspects of American life, such as the arts, artifacts, literature, education, and publications.
SS.912.A.1.Su.g:	Recognize selected socio-cultural aspects of American life, such as the arts, artifacts, literature, education, and publications.
SS.912.A.1.Pa.g:	Recognize a selected socio-cultural aspect of American life, such as the arts, artifacts, literature, education, or publications.

Review causes and consequences of the Civil War.

[SS.912.A.2.1:](#) **Remarks/Examples:**
Examples may include, but are not limited to, slavery, states' rights, territorial claims, abolitionist movement, regional differences, Reconstruction, 13th, 14th, and 15th amendments.

Related Access Points

Name	Description
SS.912.A.2.In.a:	Identify the major causes and consequences of the Civil War.
SS.912.A.2.Su.a:	Recognize the major causes and consequences of the Civil War.
SS.912.A.2.Pa.a:	Recognize characteristics of life during the Civil War.

Assess the influence of significant people or groups on Reconstruction.

[SS.912.A.2.2:](#) **Remarks/Examples:**
Examples may include, but are not limited to, Andrew Johnson, Radical Republicans, Jefferson Davis, Frederick Douglass, Ulysses S. Grant, Robert E. Lee, William T. Sherman, Buffalo Soldiers, Harriet Tubman, and Sojourner Truth.

Related Access Points

Name	Description
SS.912.A.2.In.b:	Describe the influence of significant people or groups on Reconstruction, such as Andrew Johnson, Ulysses S. Grant, Robert E. Lee, Buffalo Soldiers, and Harriet Tubman.
SS.912.A.2.Su.b:	Recognize the influence of significant people or groups on Reconstruction, such as Andrew Johnson, Ulysses S. Grant, Robert E. Lee, Buffalo Soldiers, and Harriet Tubman.
SS.912.A.2.Pa.b:	Recognize there were leaders who promoted social justice.

Describe the issues that divided Republicans during the early Reconstruction era.

[SS.912.A.2.3:](#)

Remarks/Examples:

Examples may include, but are not limited to, the impeachment of Andrew Johnson, southern whites, blacks, black legislators and white extremist organizations such as the KKK, Knights of the White Camellia, The White League, Red Shirts, and Pale Faces.

Related Access Points

Name	Description
SS.912.A.2.In.c:	Identify major challenges during Reconstruction, such as initial resistance to readmission by Southern states, disagreements between President Johnson and the Congress, and opposition to blacks by white extremist organizations, such as the Ku Klux Klan (KKK).
SS.912.A.2.Su.c:	Recognize major challenges in the period of Reconstruction, such as the disagreements between the President and Congress and opposition to blacks by groups such as the Ku Klux Klan (KKK).
SS.912.A.2.Pa.c:	Recognize that groups of people continued to disagree about slavery after the war.

Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution.

[SS.912.A.2.4:](#)

Remarks/Examples:

Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection.

Related Access Points

Name	Description
SS.912.A.2.In.d:	Identify freedoms guaranteed to African American males in the amendments to the Constitution, such as the abolition of slavery, the right to citizenship, and the right to vote.
SS.912.A.2.Su.d:	Recognize freedoms guaranteed to African American males in the amendments to the Constitution, such as the abolition of slavery and the right to vote.
SS.912.A.2.Pa.d:	Recognize that African American males have the right to vote.

[SS.912.A.2.5:](#)

Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups.

Related Access Points

Name	Description
SS.912.A.2.In.e:	Identify the purpose of laws of segregation, often called Jim Crow Laws.
SS.912.A.2.Su.e:	Recognize examples of laws of segregation, often called Jim Crow Laws.
SS.912.A.2.Pa.e:	Recognize the social issue of segregation.

[SS.912.A.2.6:](#)

Compare the effects of the Black Codes and the Nadir on freed people, and analyze the sharecropping system and debt peonage as practiced in the United States.

Related Access Points

Name	Description
SS.912.A.2.In.f:	Identify the sharecropping and debt peonage system that was practiced in the United States.
SS.912.A.2.Su.f:	Recognize that sharecropping was a common way of life for freed people.
SS.912.A.2.Pa.f:	Recognize the social issue of segregation.

Review the Native American experience.

[SS.912.A.2.7:](#)

Remarks/Examples:

Examples may include, but are not limited to, westward expansion, reservation system, the Dawes Act, Wounded Knee Massacre, Sand Creek Massacre, Battle of Little Big Horn, Indian Schools, government involvement in the killing of the buffalo.

Related Access Points

Name	Description
SS.912.A.2.In.g:	Identify the Native American experience during the westward expansion, such as being forced to leave their native lands to go to reservations and give up tribal identity and culture.
SS.912.A.2.Su.g:	Recognize the Native American experience during the westward expansion, such as being forced to leave their native lands to go to reservations and give up tribal identity and culture.
SS.912.A.2.Pa.g:	Recognize the social issue of forced integration.

Analyze the economic challenges to American farmers and farmers' responses to these challenges in the mid to late 1800s.

[SS.912.A.3.1:](#)

Remarks/Examples:

Examples may include, but are not limited to, creation of agricultural colleges, Morrill Land Grant Act, gold standard and Bimetallism, the creation of the Populist Party.

Related Access Points

Name	Description
SS.912.A.3.In.a:	Identify responses to economic challenges faced by farmers, such as shifting from hand labor to machine farming, the creation of colleges to support agricultural development, and increasing the use of commercial agriculture.
SS.912.A.3.Su.a:	Recognize responses to economic challenges faced by farmers, such as shifting from hand labor to machine farming, the creation of colleges to support agricultural development, and increasing the use of commercial agriculture.
SS.912.A.3.Pa.a:	Recognize employment options in America.

[SS.912.A.3.2:](#) Examine the social, political, and economic causes, course, and consequences of the second Industrial Revolution that began in the late 19th century.

Related Access Points

Name	Description
SS.912.A.3.In.b:	Identify economic developments in the second Industrial Revolution, such as mass production of consumer goods, including transportation, food and drink, clothing, and entertainment (cinema, radio, the gramophone).
SS.912.A.3.Su.b:	Recognize that mass production of transportation, food, and clothing was developed during the second Industrial Revolution.
SS.912.A.3.Pa.b:	Recognize goods that are manufactured, such as clothing.

Compare the first and second Industrial Revolutions in the United States.

[SS.912.A.3.3:](#)

Remarks/Examples:
Examples may include, but are not limited to, trade, development of new industries.

Related Access Points

Name	Description
SS.912.A.3.In.c:	Identify technological developments and inventions in the Industrial Revolutions in the United States.
SS.912.A.3.Su.c:	Recognize technological developments and inventions in the Industrial Revolutions in the United States.
SS.912.A.3.Pa.c:	Recognize that inventions changed life in the United States.

Determine how the development of steel, oil, transportation, communication, and business practices affected the United States economy.

[SS.912.A.3.4:](#)

Remarks/Examples:
Examples may include, but are not limited to, railroads, the telegraph, pools, holding companies, trusts, corporations, contributed to westward expansion, expansion of trade and development of new industries, vertical and horizontal integration.

Related Access Points

Name	Description
SS.912.A.3.In.d:	Identify how developments in industry affected the United States economy, such as railroads, forms of communication, and corporations.
SS.912.A.3.Su.d:	Recognize how a development in industry affected the United States economy, such as railroads or forms of communication.
SS.912.A.3.Pa.d:	Recognize transportation and communication systems.

Identify significant inventors of the Industrial Revolution including African Americans and women.

[SS.912.A.3.5:](#)

Remarks/Examples:
Examples may include, but are not limited to, Lewis Howard Latimer, Jan E. Matzeliger, Sarah E. Goode, Granville T. Woods, Alexander Graham Bell, Thomas Edison, George Pullman, Henry Ford, Orville and Wilbur Wright, Elijah McCoy, Garrett Morgan, Madame C.J. Walker, George Westinghouse.

Related Access Points

Name	Description
SS.912.A.3.In.e:	Identify a significant inventor of the Industrial Revolution, including an African American or a woman.
SS.912.A.3.Su.e:	Recognize a significant inventor of the Industrial Revolution, including an African American or a woman.
SS.912.A.3.Pa.e:	Recognize that inventions help people.

Analyze changes that occurred as the United States shifted from agrarian to an industrial society.

[SS.912.A.3.6:](#)

Remarks/Examples:
Examples may include, but are not limited to, Social Darwinism, laissez-faire, government regulations of food and drugs, migration to cities, urbanization, changes to the family structure, Ellis Island, Angel Island, push-pull factors.

Related Access Points

Name	Description
SS.912.A.3.In.f:	Identify changes that occurred as the United States shifted from an agrarian to an industrial society, such as laissez-faire policies and government regulations of food and drugs.
SS.912.A.3.Su.f:	Recognize changes that occurred as the United States shifted from an agrarian to an industrial society, such as laissez-faire policies and government regulations of food and drugs.
SS.912.A.3.Pa.f:	Recognize that government can control business.

Compare the experience of European immigrants in the east to that of Asian immigrants in the west (the Chinese Exclusion Act, Gentlemen's Agreement with Japan).

[SS.912.A.3.7:](#)

Remarks/Examples:
Examples may include, but are not limited to nativism, integration of immigrants into society when comparing "Old" [before 1890] and "New" immigrants [after 1890], Immigration Act of 1924.

Related Access Points

Name	Description
------	-------------

SS.912.A.3.In.g:	Identify similarities in the way European immigrants in the east and Asian immigrants in the west were treated, such as discrimination in housing and employment.
SS.912.A.3.Su.g:	Recognize similarities in the way European immigrants in the east and Asian immigrants in the west were treated, such as discrimination in housing and employment.
SS.912.A.3.Pa.g:	Recognize the social issue of inequality.

[SS.912.A.3.8:](#) Examine the importance of social change and reform in the late 19th and early 20th centuries (class system, migration from farms to cities, Social Gospel movement, role of settlement houses and churches in providing services to the poor).

Related Access Points

Name	Description
SS.912.A.3.In.h:	Identify the importance of social change and reform, such as settlement houses and churches that helped the poor during the early 1900s.
SS.912.A.3.Su.h:	Recognize the importance of social change and reform, such as settlement houses and churches that helped the poor during the early 1900s.
SS.912.A.3.Pa.h:	Recognize types of assistance for personal and social needs.

Examine causes, course, and consequences of the labor movement in the late 19th and early 20th centuries.

[SS.912.A.3.9:](#)

Remarks/Examples:
Examples may include, but are not limited to, unions, Knights of Labor, American Federation of Labor, Socialist Party, labor laws.

Related Access Points

Name	Description
SS.912.A.3.In.i:	Identify a cause and consequence of the labor movement in the late 1800s and early 1900s, such as the need to improve working conditions and the resulting child labor laws and work regulations.
SS.912.A.3.Su.i:	Recognize a cause and consequence of the labor movement in the late 1800s and early 1900s, such as the need to improve working conditions and the resulting child labor laws and work regulations.
SS.912.A.3.Pa.i:	Recognize that workers have rights.

Review different economic and philosophic ideologies.

[SS.912.A.3.10:](#)

Remarks/Examples:
Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy.

Related Access Points

Name	Description
SS.912.A.3.In.j:	Identify major differences in economic systems, such as capitalism and communism.
SS.912.A.3.Su.j:	Recognize an example of an economic system, such as capitalism.
SS.912.A.3.Pa.j:	Recognize that people buy and sell goods and services.

Analyze the impact of political machines in United States cities in the late 19th and early 20th centuries.

[SS.912.A.3.11:](#)

Remarks/Examples:
Examples may include, but are not limited to, Boss Tweed, Tammany Hall, George Washington Plunkitt, Washington Gladden, Thomas Nast.

Related Access Points

Name	Description
SS.912.A.3.In.k:	Identify ways powerful groups (political machines) in United States cities controlled the government, such as having enough votes to maintain control of the city and giving jobs or contracts only to people who supported them.
SS.912.A.3.Su.k:	Recognize that powerful groups in United States cities controlled the government and gave favors to people who supported them.
SS.912.A.3.Pa.k:	Recognize that powerful groups have a strong influence on government.

Compare how different nongovernmental organizations and progressives worked to shape public policy, restore economic opportunities, and correct injustices in American life.

[SS.912.A.3.12:](#)

Remarks/Examples:
Examples may include, but are not limited to, NAACP, YMCA, Women's Christian Temperance Union, National Women's Suffrage Association, National Women's Party, Robert LaFollette, Florence Kelley, Ida M. Tarbell, Eugene Debs, Carrie Chapman Catt, Alice Paul, Theodore Roosevelt, William Taft, Woodrow Wilson, Upton Sinclair, Booker T. Washington, W.E.B. DuBois, Gifford Pinchot, William Jennings Bryan.

Related Access Points

Name	Description
SS.912.A.3.In.l:	Identify ways organizations and people have shaped public policy and corrected injustices in American life, such as the NAACP, the YMCA, Theodore Roosevelt, and Booker T. Washington.
SS.912.A.3.Su.l:	Recognize a way an organization or person has shaped public policy and corrected injustices in American life, such as the NAACP, the YMCA, Theodore Roosevelt, or Booker T. Washington.
SS.912.A.3.Pa.l:	Recognize an organization in the community that helps people.

Examine key events and peoples in Florida history as they relate to United States history.

[SS.912.A.3.13:](#)

Remarks/Examples:

Examples may include, but are not limited to, the railroad industry, bridge construction in the Florida Keys, the cattle industry, the cigar industry, the influence of Cuban, Greek and Italian immigrants, Henry B. Plant, William Chipley, Henry Flagler, George Proctor, Thomas DeSaille Tucker, Hamilton Disston.

Related Access Points

Name	Description
SS.912.A.3.In.m:	Identify key events and people in Florida history related to United States history, such as the railroad industry, the cattle industry, and the influence of immigrants.
SS.912.A.3.Su.m:	Recognize a key event or person in Florida history related to United States history, such as the railroad industry, the cattle industry, or the influence of immigrants.
SS.912.A.3.Pa.m:	Recognize a key event or person in Florida history.

Analyze the major factors that drove United States imperialism.

[SS.912.A.4.1:](#)

Remarks/Examples:

Examples may include, but are not limited to, the Monroe Doctrine, Manifest Destiny, The Influence of Sea Power Upon History, Turner's thesis, the Roosevelt Corollary, natural resources, markets for resources, elimination of spheres of influence in China.

Related Access Points

Name	Description
SS.912.A.4.In.a:	Identify major factors that drove the United States to expand its influence to other territories, such as forced trade with China and Japan, policies that restricted access to the Western Hemisphere, and the construction of the Panama Canal.
SS.912.A.4.Su.a:	Recognize a factor that drove the United States to expand its influence to other territories, such as forced trade with China and Japan, policies that restricted access to the Western Hemisphere, or the construction of the Panama Canal.
SS.912.A.4.Pa.a:	Recognize the continuing growth over time of the United States.

Explain the motives of the United States acquisition of the territories.

[SS.912.A.4.2:](#)

Remarks/Examples:

Examples may include, but are not limited to, Alaska, Hawaii, Puerto Rico, Philippines, Guam, Samoa, Marshall Islands, Midway Island, Virgin Islands.

Related Access Points

Name	Description
SS.912.A.4.In.b:	Identify the benefits of expanding into other territories by the United States, such as Alaska and Hawaii, Puerto Rico, and other islands.
SS.912.A.4.Su.b:	Recognize a benefit of expanding into other territories by the United States, such as Alaska and Hawaii, Puerto Rico, and other islands.
SS.912.A.4.Pa.b:	Recognize the continuing growth over time of the United States.

Examine causes, course, and consequences of the Spanish American War.

[SS.912.A.4.3:](#)

Remarks/Examples:

Examples may include, but are not limited to, Cuba as a protectorate, Yellow Journalism, sinking of the Maine, the Philippines, Commodore Dewey, the Rough Riders, acquisition of territories, the Treaty of Paris.

Related Access Points

Name	Description
SS.912.A.4.In.c:	Identify consequences of the Spanish American War, such as ending the Spanish control over Cuba and gaining control of islands in the Caribbean and Pacific.
SS.912.A.4.Su.c:	Recognize a consequence of the Spanish American War, such as ending the Spanish control over Cuba or gaining control of islands in the Caribbean and Pacific.
SS.912.A.4.Pa.c:	Recognize the continuing growth over time of the United States.

Analyze the economic, military, and security motivations of the United States to complete the Panama Canal as well as major obstacles involved in its construction.

[SS.912.A.4.4:](#)

Remarks/Examples:

Examples may include, but are not limited to, disease, environmental impact, challenges faced by various ethnic groups such as Africans and indigenous populations, shipping routes, increased trade, defense and independence for Panama.

Related Access Points

Name	Description
SS.912.A.4.In.d:	Identify reasons why the United States completed the Panama Canal, such as improving trade and decreasing travel time; and identify challenges that were faced during its construction, such as disease and environmental impact.
SS.912.A.4.Su.d:	Recognize why the United States completed the Panama Canal, such as improving trade and decreasing travel time; and recognize challenges that were faced during its construction, such as disease and environmental impact.
SS.912.A.4.Pa.d:	Recognize that a canal is a man-made waterway for travel.

Examine causes, course, and consequences of United States involvement in World War I.

[SS.912.A.4.5:](#)

Remarks/Examples:

Examples may include, but are not limited to, nationalism, imperialism, militarism, entangling alliances vs. neutrality, Zimmerman Note, the Lusitania, the Selective Service Act, the homefront, the American Expeditionary Force, Wilson's Fourteen Points, the Treaty of Versailles (and opposition to it), isolationism.

Related Access Points

Name	Description
SS.912.A.4.In.e:	Identify causes and consequences of United States involvement in World War I, such as conflicts among European nations, sinking of the Lusitania, threats by Germany, the arms race, and the Allies' plan for peace.
SS.912.A.4.Su.e:	Recognize a cause and consequence of United States involvement in World War I, such as conflicts among European nations, sinking of the Lusitania, threats by Germany, the arms race, and the Allies' plan for peace.
SS.912.A.4.Pa.e:	Recognize how countries help each other in a war.

[SS.912.A.4.6:](#)

Examine how the United States government prepared the nation for war with war measures (Selective Service Act, War Industries Board, war bonds, Espionage Act, Sedition Act, Committee of Public Information).

Related Access Points

Name	Description
SS.912.A.4.In.f:	Identify ways the United States government prepared the nation for World War I, such as initiating the draft, issuing war bonds, and using propaganda.
SS.912.A.4.Su.f:	Recognize a way the United States government prepared the nation for World War I, such as initiating the draft, issuing war bonds, or using propaganda.
SS.912.A.4.Pa.f:	Recognize that citizens support their country during a war.

[SS.912.A.4.7:](#)

Examine the impact of airplanes, battleships, new weaponry and chemical warfare in creating new war strategies (trench warfare, convoys).

Related Access Points

Name	Description
SS.912.A.4.In.g:	Identify impacts of the development of airplanes, battleships, and new weapons during World War I.
SS.912.A.4.Su.g:	Recognize an impact of the development of airplanes, battleships, or new weapons during World War I.
SS.912.A.4.Pa.g:	Recognize types of transportation used in wars.

[SS.912.A.4.8:](#)

Compare the experiences Americans (African Americans, Hispanics, Asians, women, conscientious objectors) had while serving in Europe.

Related Access Points

Name	Description
SS.912.A.4.In.h:	Identify experiences Americans had while serving in Europe, including groups such as African Americans and women.
SS.912.A.4.Su.h:	Recognize experiences Americans had while serving in Europe, including groups such as African Americans and women.
SS.912.A.4.Pa.h:	Recognize people in the armed services.

[SS.912.A.4.9:](#)

Compare how the war impacted German Americans, Asian Americans, African Americans, Hispanic Americans, Jewish Americans, Native Americans, women and dissenters in the United States.

Related Access Points

Name	Description
SS.912.A.4.In.i:	Identify impacts of the war on diverse groups of people in the United States, including dissenters.
SS.912.A.4.Su.i:	Recognize an impact of the war on diverse groups of people in the United States, including dissenters.
SS.912.A.4.Pa.i:	Recognize that some people do not support war.

Examine the provisions of the Treaty of Versailles and the failure of the United States to support the League of Nations.

[SS.912.A.4.10:](#)

Remarks/Examples:

Examples may include, but are not limited to, self-determination, boundaries, demilitarized zone, sanctions reparations, and the League of Nations (including Article X of the Covenant).

Related Access Points

Name	Description
SS.912.A.4.In.j:	Identify that the Treaty of Versailles held Germany responsible for the damages of World War I and established the League of Nations.
SS.912.A.4.Su.j:	Recognize that the Treaty of Versailles held Germany responsible for the damages of World War I and established the League of Nations.
SS.912.A.4.Pa.j:	Recognize an unintended effect of an agreement (treaty).

Examine key events and peoples in Florida history as they relate to United States history.

[SS.912.A.4.11:](#)

Remarks/Examples:

Examples may include, but are not limited to, the Spanish-American War, Ybor City, Jose Marti.

Related Access Points

Name	Description
SS.912.A.4.In.k:	Identify key events and people in Florida history, such as the participation of Florida troops and the role of Tampa during the Spanish-American War.
SS.912.A.4.Su.k:	Recognize key events and people in Florida history, such as the participation of Florida troops in the Spanish American War.
SS.912.A.4.Pa.k:	Recognize a contribution of Florida as it relates to American history.

Examine key events and people in Florida history as they relate to United States history.

[SS.912.A.5.12:](#)

Remarks/Examples:
 Examples may include, but are not limited to, Rosewood, land boom, speculation, impact of climate and natural disasters on the end of the land boom, invention of modern air conditioning in 1929, Alfred DuPont, Majorie Kinnan Rawlings, Zora Neale Hurston, James Weldon Johnson.

Related Access Points

Name	Description
SS.912.A.5.In.l:	Identify key events and people in Florida, such as the Florida land boom, air conditioning, New Deal programs, and Marjorie Kinnan Rawlings.
SS.912.A.5.Su.l:	Recognize key events in Florida, such as the Florida land boom and the development of air conditioning.
SS.912.A.5.Pa.l:	Recognize an important development in Florida, such as air conditioning.

[SS.912.A.5.1:](#)

Discuss the economic outcomes of demobilization.

Related Access Points

Name	Description
SS.912.A.5.In.a:	Identify an economic result of demobilization, such as reintegration of soldiers into civilian life or reconstruction.
SS.912.A.5.Su.a:	Recognize a result of demobilization, such as the reintegration of soldiers into civilian life.
SS.912.A.5.Pa.a:	Recognize that soldiers return home after a war.

Explain the causes of the public reaction (Sacco and Vanzetti, labor, racial unrest) associated with the Red Scare.

[SS.912.A.5.2:](#)

Remarks/Examples:
 Examples may also include, but are not limited to, Palmer Raids, FBI, J. Edgar Hoover.

Related Access Points

Name	Description
SS.912.A.5.In.b:	Identify the causes and reactions associated with the Red Scare, such as fear of a communist revolution, strikes by workers, laws limiting immigration, and racial unrest.
SS.912.A.5.Su.b:	Recognize a cause and a reaction of the Red Scare, such as fear of a communist revolution, strikes by workers, laws limiting immigration, or racial unrest.
SS.912.A.5.Pa.b:	Recognize behaviors that result from fears.

Examine the impact of United States foreign economic policy during the 1920s.

[SS.912.A.5.3:](#)

Remarks/Examples:
 Examples may include, but are not limited to, the Depression of 1920-21, "The Business of America is Business," assembly line, installment buying, consumerism.

Related Access Points

Name	Description
SS.912.A.5.In.c:	Identify impacts of United States government economic policies during the 1920s, such as tax cuts, a reduction in federal spending, and high tariffs.
SS.912.A.5.Su.c:	Recognize an impact of United States government economic policies during the 1920s, such as tax cuts, a reduction in federal spending, and high tariffs.
SS.912.A.5.Pa.c:	Recognize that the government makes rules about taxes and spending.

[SS.912.A.5.4:](#)

Evaluate how the economic boom during the Roaring Twenties changed consumers, businesses, manufacturing, and marketing practices.

Related Access Points

Name	Description
SS.912.A.5.In.d:	Identify results of the economic boom of the Roaring Twenties, such as the rise of automobile ownership, the mass production of goods, and the use of marketing.
SS.912.A.5.Su.d:	Recognize a result of the economic boom of the Roaring Twenties, such as the rise of automobile ownership, the mass production of goods, or the use of marketing.
SS.912.A.5.Pa.d:	Recognize that when people have more money, they can buy more goods.

Describe efforts by the United States and other world powers to avoid future wars.

[SS.912.A.5.5:](#)

Remarks/Examples:
 Examples may include, but are not limited to, League of Nations, Washington Naval Conference, London Conference, Kellogg-Briand Pact, the Nobel Prize.

Related Access Points

Name	Description
SS.912.A.5.In.e:	Identify actions of the United States and world powers to avoid future wars, such as forming the League of Nations.
SS.912.A.5.Su.e:	Recognize that the League of Nations was formed to prevent wars.
SS.912.A.5.Pa.e:	Recognize that countries want to prevent wars.

[SS.912.A.5.6:](#)

Analyze the influence that Hollywood, the Harlem Renaissance, the Fundamentalist movement, and prohibition had in changing American society in the 1920s.

Related Access Points

Name	Description
SS.912.A.5.In.f:	Identify the influences of Hollywood, the Harlem Renaissance, and prohibition on American society in the 1920s.
SS.912.A.5.Su.f:	Recognize an influence of Hollywood, the Harlem Renaissance, or prohibition on American society in the 1920s.
SS.912.A.5.Pa.f:	Recognize the influences of groups with different beliefs.

[SS.912.A.5.7:](#)

Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women.

Related Access Points

Name	Description
SS.912.A.5.In.g:	Identify the effects of freedom movements that advocated for civil rights for African Americans, Latinos, Asians, and women, such as a feeling of unity and a sense of community.
SS.912.A.5.Su.g:	Recognize the effects of freedom movements that advocated for civil rights for African Americans, Latinos, Asians, and women, such as a feeling of unity and a sense of community.
SS.912.A.5.Pa.g:	Recognize that people in the same ethnic group may feel a sense of community.

[SS.912.A.5.8:](#)

Compare the views of Booker T. Washington, W.E.B. DuBois, and Marcus Garvey relating to the African American experience.

Related Access Points

Name	Description
SS.912.A.5.In.h:	Identify the major view of a leader relating to the African American experience, such as Booker T. Washington, W.E.B. DuBois, or Marcus Garvey.
SS.912.A.5.Su.h:	Recognize the view of a leader relating to the African American experience, such as the way African Americans should go about obtaining their rights.
SS.912.A.5.Pa.h:	Recognize that people in the same ethnic group may feel a sense of community.

[SS.912.A.5.9:](#)

Explain why support for the Ku Klux Klan varied in the 1920s with respect to issues such as anti-immigration, anti-African American, anti-Catholic, anti-Jewish, anti-women, and anti-union ideas.

Remarks/Examples:

Examples may include, but are not limited to, 100 Percent Americanism.

Related Access Points

Name	Description
SS.912.A.5.In.i:	Identify that support of the Ku Klux Klan changed during the 1920s with respect to groups, such as immigrants, African Americans, Catholics, Jews, women, and unions.
SS.912.A.5.Su.i:	Recognize that support of the Ku Klux Klan changed during the 1920s with respect to groups, such as immigrants, African Americans, Catholics, Jews, women, and unions.
SS.912.A.5.Pa.i:	Recognize that groups may fear people who are different.

[SS.912.A.5.10:](#)

Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.

Related Access Points

Name	Description
SS.912.A.5.In.j:	Identify reasons why there was support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.
SS.912.A.5.Su.j:	Recognize a reason why there was support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.
SS.912.A.5.Pa.j:	Recognize that groups may fear people who are different.

[SS.912.A.5.11:](#)

Examine causes, course, and consequences of the Great Depression and the New Deal.

Related Access Points

Name	Description
SS.912.A.5.In.k:	Identify a cause of the Great Depression, such as drought, inflation, or the stock market crash, and a consequence, such as the New Deal plan for relief, recovery, and reform.
SS.912.A.5.Su.k:	Recognize a cause of the Great Depression, such as drought, inflation, or the stock market crash, and a consequence, such as the New Deal plan for relief, recovery, and reform.
SS.912.A.5.Pa.k:	Recognize that people struggle to meet their needs when they don't have enough money.

Examine causes, course, and consequences of World War II on the United States and the world.

[SS.912.A.6.1:](#)

Remarks/Examples:

Examples may include, but are not limited to, rise of dictators, attack on Pearl Harbor, Nazi party, American neutrality, D-Day, Battle of the Bulge, War in the Pacific, internment camps, Holocaust, Yalta.

Related Access Points

Name	Description
SS.912.A.6.In.a:	Identify major causes and consequences of World War II on the United States and the world.
SS.912.A.6.Su.a:	Recognize a major cause and result of World War II on the United States and the world.
SS.912.A.6.Pa.a:	Recognize that the United States fought in a war.

[SS.912.A.6.2:](#)

Describe the United States response in the early years of World War II (Neutrality Acts, Cash and Carry, Lend Lease Act).

Related Access Points

Name	Description
SS.912.A.6.In.b:	Identify the United States response in the early years of World War II, such as the Neutrality Act, giving aid to Britain, and supplying war material to other countries.
SS.912.A.6.Su.b:	Recognize the United States response in the early years of World War II, such as trying to stay out of the war and providing aid and war material to other countries fighting in the war.
SS.912.A.6.Pa.b:	Recognize that a country can provide aid to other countries (allies) during a war.

[SS.912.A.6.3:](#)

Analyze the impact of the Holocaust during World War II on Jews as well as other groups.

Related Access Points

Name	Description
SS.912.A.6.In.c:	Identify the impact of the Holocaust during World War II on Jews and other groups.
SS.912.A.6.Su.c:	Recognize an impact of the Holocaust during World War II on Jews and other groups.
SS.912.A.6.Pa.c:	Recognize that groups may be treated badly because they are different.

Examine efforts to expand or contract rights for various populations during World War II.

[SS.912.A.6.4:](#)

Remarks/Examples:

Examples may include, but are not limited to, women, African Americans, German Americans, Japanese Americans and their internment, Native Americans, Hispanic Americans, Italian Americans.

Related Access Points

Name	Description
SS.912.A.6.In.d:	Identify actions related to rights for groups during World War II, such as women, African Americans, German Americans, Japanese Americans, Native Americans, Hispanic Americans, or Italian Americans.
SS.912.A.6.Su.d:	Recognize an action related to rights for groups during World War II, such as women, African Americans, German Americans, Japanese Americans, Native Americans, Hispanic Americans, or Italian Americans.
SS.912.A.6.Pa.d:	Recognize that groups may be treated differently during a war.

Explain the impact of World War II on domestic government policy.

[SS.912.A.6.5:](#)

Remarks/Examples:

Examples may include, but are not limited to, rationing, national security, civil rights, increased job opportunities for African Americans, women, Jews, and other refugees.

Related Access Points

Name	Description
SS.912.A.6.In.e:	Identify an impact of World War II on domestic government policy, such as rationing, national security, civil rights, and increased job opportunities.
SS.912.A.6.Su.e:	Recognize an impact of World War II on domestic government policy, such as rationing, national security, civil rights, or increased job opportunities.
SS.912.A.6.Pa.e:	Recognize that war causes changes in home life.

[SS.912.A.6.6:](#)

Analyze the use of atomic weapons during World War II and the aftermath of the bombings.

Related Access Points

Name	Description
SS.912.A.6.In.f:	Identify a reason why the United States decided to use atomic weapons against Japan and identify the aftermath, such as destruction and the ending of World War II.
SS.912.A.6.Su.f:	Recognize the aftermath of the use of atomic weapons against Japan, such as destruction and the ending of World War II.
SS.912.A.6.Pa.f:	Recognize that countries may take drastic measures to end a war.

[SS.912.A.6.7:](#)

Describe the attempts to promote international justice through the Nuremberg Trials.

Related Access Points

Name	Description
SS.912.A.6.In.g:	Identify attempts to promote international justice by trying Nazi war crimes after World War II (Nuremberg Trials).

[SS.912.A.6.Su.g:](#) Recognize attempts to promote international justice by trying Nazi war crimes after World War II (Nuremberg Trials).

[SS.912.A.6.Pa.g:](#) Recognize that people who commit war crimes may have a trial.

Analyze the effects of the Red Scare on domestic United States policy.

[SS.912.A.6.8:](#)

Remarks/Examples:

Examples may include, but are not limited to, loyalty review program, House Un-American Activities Committee, McCarthyism (Sen. Joe McCarthy), McCarran Act.

Related Access Points

Name	Description
SS.912.A.6.In.h:	Identify the effects of the Red Scare on the United States, such as the loyalty review program and the House Un-American Activities Committee.
SS.912.A.6.Su.h:	Recognize an effect of the Red Scare on the United States, such as the loyalty review program.
SS.912.A.6.Pa.h:	Recognize loyalty to one's country.

Describe the rationale for the formation of the United Nations, including the contribution of Mary McLeod Bethune.

[SS.912.A.6.9:](#)

Remarks/Examples:

Examples may include, but are not limited to, the Declaration of Human Rights.

Related Access Points

Name	Description
SS.912.A.6.In.i:	Identify that the United Nations was formed as an international organization to keep world peace and Mary McLeod Bethune was involved in developing the charter.
SS.912.A.6.Su.i:	Recognize a peacekeeping role of the United Nations.
SS.912.A.6.Pa.i:	Recognize that countries work together in the United Nations.

[SS.912.A.6.10:](#)

Examine causes, course, and consequences of the early years of the Cold War (Truman Doctrine, Marshall Plan, NATO, Warsaw Pact).

Related Access Points

Name	Description
SS.912.A.6.In.j:	Identify the consequences of the early years of the Cold War, such as the establishment of the Truman Doctrine, the Marshall Plan, NATO, and the Warsaw Pact.
SS.912.A.6.Su.j:	Recognize a consequence of the Cold War, such as the arms race, fear of the spread of communism, plans to help countries rebuild after World War II, or that countries in communist and western nations formed separate alliances.
SS.912.A.6.Pa.j:	Recognize that countries help each other to prevent wars.

[SS.912.A.6.11:](#)

Examine the controversy surrounding the proliferation of nuclear technology in the United States and the world.

Related Access Points

Name	Description
SS.912.A.6.In.k:	Identify concerns about the spread of nuclear technology in the United States and the world.
SS.912.A.6.Su.k:	Recognize a concern about the spread of nuclear technology in the United States and the world.
SS.912.A.6.Pa.k:	Recognize that countries make agreements to prevent war.

Examine causes, course, and consequences of the Korean War.

[SS.912.A.6.12:](#)

Remarks/Examples:

Examples may include, but are not limited to, Communist China, 38th parallel, cease fire, firing of Gen. Douglas McArthur.

Related Access Points

Name	Description
SS.912.A.6.In.l:	Identify a cause and consequence of the Korean War.
SS.912.A.6.Su.l:	Recognize a cause and consequence of the Korean War.
SS.912.A.6.Pa.l:	Recognize that countries help other countries in war.

Analyze significant foreign policy events during the Truman, Eisenhower, Kennedy, Johnson, and Nixon administrations.

[SS.912.A.6.13:](#)

Remarks/Examples:

Examples may include, but are not limited to, the Domino Theory, Sputnik, space race, Korean Conflict, Vietnam Conflict, U-2 and Gary Powers, Bay of Pigs invasion, Cuban Missile Crisis, Berlin Wall, Ping Pong Diplomacy, opening of China.

Related Access Points

Name	Description
SS.912.A.6.In.m:	Identify results of significant foreign policy events, such as the Cuban missile crisis, the Gulf of Tonkin Resolution—Vietnam, and relations with China.
SS.912.A.6.Su.m:	Recognize the results of a significant foreign policy event, such as the Cuban missile crisis, the Gulf of Tonkin Resolution—Vietnam, or relations with China.
SS.912.A.6.Pa.m:	Recognize that the United States is involved with other nations.

Analyze causes, course, and consequences of the Vietnam War.

[SS.912.A.6.14:](#)

Remarks/Examples:

Examples may include, but are not limited to, Geneva Accords, Gulf of Tonkin Resolution, the draft, escalating protest at home, Vietnamization, the War Powers Act.

Related Access Points

Name	Description
SS.912.A.6.In.n:	Identify causes and results of the Vietnam War.
SS.912.A.6.Su.n:	Recognize a cause and result of the Vietnam War.
SS.912.A.6.Pa.n:	Recognize that countries help other countries in war.

Examine key events and peoples in Florida history as they relate to United States history.

[SS.912.A.6.15:](#)

Remarks/Examples:

Examples may include, but are not limited to, Mosquito Fleet, "Double V Campaign", construction of military bases and WWII training centers, 1959 Cuban coup and its impact on Florida, development of the space program and NASA.

Related Access Points

Name	Description
SS.912.A.6.In.o:	Identify key events in Florida, such as the construction of military bases and World War II training centers and the development of the space program and NASA.
SS.912.A.6.Su.o:	Recognize key events in Florida, such as the construction of military bases and the development of the space program.
SS.912.A.6.Pa.o:	Recognize a development in Florida, such as the space program.

Identify causes for Post-World War II prosperity and its effects on American society.

[SS.912.A.7.1:](#)

Remarks/Examples:

Examples may include, but are not limited to, G.I. Bill, Baby Boom, growth of suburbs, Beatnik movement, youth culture, religious revivalism (e.g., Billy Graham and Bishop Fulton J. Sheen), conformity of the 1950s and the protest in the 1960s.

Related Access Points

Name	Description
SS.912.A.7.In.a:	Identify effects of post-World War II prosperity on American society, such as the Baby Boom and the growth of suburbs.
SS.912.A.7.Su.a:	Recognize an effect of post-World War II prosperity on American society, such as the Baby Boom or the growth of suburbs.
SS.912.A.7.Pa.a:	Recognize a characteristic of post-World War II, such as suburbs and modern appliances.

[SS.912.A.7.2:](#)

Compare the relative prosperity between different ethnic groups and social classes in the post-World War II period.

Related Access Points

Name	Description
SS.912.A.7.In.b:	Identify the prosperity of different ethnic groups and social classes in the post-World War II period.
SS.912.A.7.Su.b:	Recognize the prosperity of different ethnic groups and social classes in the post-World War II period.
SS.912.A.7.Pa.b:	Recognize that different groups of people may be rich or poor.

Examine the changing status of women in the United States from post-World War II to present.

[SS.912.A.7.3:](#)

Remarks/Examples:

Examples may include, but are not limited to, increased numbers of women in the workforce, Civil Rights Act of 1964, The Feminine Mystique, National Organization for Women, Roe v. Wade, Equal Rights Amendment, Title IX, Betty Freidan, Gloria Steinem, Phyllis Schlafly, Billie Jean King, feminism.

Related Access Points

Name	Description
SS.912.A.7.In.c:	Identify ways that the role of women in the United States has changed since World War II, such as having more women in the workforce and politics and the use of birth control.
SS.912.A.7.Su.c:	Recognize a way that the role of women in the United States has changed since World War II, such as having more women in the workforce and politics or the use of birth control.
SS.912.A.7.Pa.c:	Recognize a role of women, such as working outside the home.

Evaluate the success of 1960s era presidents' foreign and domestic policies.

[SS.912.A.7.4:](#)

Remarks/Examples:

Examples may include, but are not limited to, civil rights legislation, Space Race, Great Society, War on Poverty.

Related Access Points

Name	Description
SS.912.A.7.In.d:	Examine government policies and programs in the 1960s, such as civil rights legislation, the Space Race, and the Great Society.
SS.912.A.7.Su.d:	Identify a government policy or program in the 1960s, such as civil rights legislation, the Space Race, or the Great Society.

[SS.912.A.7.Pa.d:](#) Recognize a government program that helps people.

Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.

[SS.912.A.7.5:](#)

Remarks/Examples:

Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.

Related Access Points

Name	Description
SS.912.A.7.In.e:	Identify violent and nonviolent approaches used by groups, such as African Americans, women, Native Americans, and Hispanics, to achieve civil rights.
SS.912.A.7.Su.e:	Recognize violent and nonviolent approaches used by groups, such as African Americans, women, Native Americans, and Hispanics, to achieve civil rights.
SS.912.A.7.Pa.e:	Recognize that people act in violent and nonviolent ways to bring about change.

Assess key figures and organizations in shaping the Civil Rights Movement and Black Power Movement.

[SS.912.A.7.6:](#)

Remarks/Examples:

Examples may include, but are not limited to, the NAACP, National Urban League, SNCC, CORE, James Farmer, Charles Houston, Thurgood Marshall, Rosa Parks, Constance Baker Motley, the Little Rock Nine, Roy Wilkins, Whitney M. Young, A. Philip Randolph, Dr. Martin Luther King, Jr., Robert F. Williams, Fannie Lou Hamer, Malcolm X [El-Hajj Malik El-Shabazz], Stokely Carmichael [Kwame Ture], H. Rap Brown [Jamil Abdullah Al-Amin], the Black Panther Party [e.g., Huey P. Newton, Bobby Seale].

Related Access Points

Name	Description
SS.912.A.7.In.f:	Identify important acts of key persons and organizations in the Civil Rights Movement and Black Power Movement, such as Martin Luther King, Rosa Parks, the NAACP, and Malcolm X.
SS.912.A.7.Su.f:	Recognize important acts of key persons and organizations in the Civil Rights Movement and Black Power Movement, such as Martin Luther King, Rosa Parks, the NAACP, and Malcolm X.
SS.912.A.7.Pa.f:	Recognize that people act in violent and nonviolent ways to bring about change.

Assess the building of coalitions between African Americans, whites, and other groups in achieving integration and equal rights.

[SS.912.A.7.7:](#)

Remarks/Examples:

Examples may include, but are not limited to, Freedom Summer, Freedom Rides, Montgomery Bus Boycott, Tallahassee Bus Boycott of 1956, March on Washington.

Related Access Points

Name	Description
SS.912.A.7.In.g:	Identify ways African Americans, whites, and other groups joined together to bring about changes in integration and equal rights, such as the Freedom Rides and the March on Washington.
SS.912.A.7.Su.g:	Recognize ways African Americans, whites, and other groups joined together to bring about changes in integration and equal rights, such as the Freedom Rides and the March on Washington.
SS.912.A.7.Pa.g:	Recognize that people act in violent and nonviolent ways to bring about change.

Analyze significant Supreme Court decisions relating to integration, busing, affirmative action, the rights of the accused, and reproductive rights.

[SS.912.A.7.8:](#)

Remarks/Examples:

Examples may include, but are not limited to, Plessy v. Ferguson [1896], Brown v. Board of Education [1954], Swann v. Charlotte-Mecklenburg Board of Education [1971], Regents of the University of California v. Bakke [1978], Miranda v. Arizona [1966], Gideon v. Wainright [1963], Mapp v. Ohio [1961], and Roe v. Wade [1973].

Related Access Points

Name	Description
SS.912.A.7.In.h:	Identify the importance of landmark Supreme Court cases, such as integration—Brown v. Board of Education (1954), affirmative action—Regents of the University of California v. Bakke (1978), rights of the accused—Gideon v. Wainright (1963), and reproductive rights—Roe v. Wade (1973).
SS.912.A.7.Su.h:	Recognize the importance of landmark Supreme Court cases, such as integration—Brown v. Board of Education (1954), affirmative action—Regents of the University of California v. Bakke (1978), rights of the accused—Gideon v. Wainright (1963), and reproductive rights—Roe v. Wade (1973).
SS.912.A.7.Pa.h:	Recognize that Supreme Court cases have important outcomes that affect all citizens.

[SS.912.A.7.9:](#)

Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.

Related Access Points

Name	Description
SS.912.A.7.In.i:	Identify social movements of the 1960s and 1970s, such as reimbursement for Native American lands, working conditions of Hispanics and bilingual and bicultural education, and women's rights.
SS.912.A.7.Su.i:	Recognize social movements of the 1960s and 1970s, such as reimbursement for Native American lands, working conditions of Hispanics and bilingual and bicultural education, and women's rights.
SS.912.A.7.Pa.i:	Recognize that people work together for positive change.

Analyze the significance of Vietnam and Watergate on the government and people of the United States.

[SS.912.A.7.10:](#)

Remarks/Examples:

Examples may include, but are not limited to, mistrust of government, reinforcement of freedom of the press, as well as checks and balances, New York Times v. Nixon.

Related Access Points

Name	Description
SS.912.A.7.In.j:	Identify the impact of the Vietnam War and Watergate on the United States.
SS.912.A.7.Su.j:	Recognize an impact of the Vietnam War and Watergate on the United States.
SS.912.A.7.Pa.j:	Recognize an impact of war on people.

Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.

[SS.912.A.7.11:](#)

Remarks/Examples:

Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War.

Related Access Points

Name	Description
SS.912.A.7.In.k:	Identify aspects of United States foreign policy as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.
SS.912.A.7.Su.k:	Recognize an aspect of United States foreign policy as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.
SS.912.A.7.Pa.k:	Recognize that the United States has interests in other countries.

Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.

[SS.912.A.7.12:](#)

Remarks/Examples:

Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.

Related Access Points

Name	Description
SS.912.A.7.In.l:	Identify political, economic, and social concerns that emerged from the late 1900s to early 2000s.
SS.912.A.7.Su.l:	Recognize political, economic, and social concerns that emerged from the late 1900s to early 2000s.
SS.912.A.7.Pa.l:	Recognize a social or economic concern of people.

Analyze the attempts to extend New Deal legislation through the Great Society and the successes and failures of these programs to promote social and economic stability.

[SS.912.A.7.13:](#)

Remarks/Examples:

Examples may include, but are not limited to, Civil Rights Act of 1964, Voting Rights Act of 1965, War on Poverty, Medicare, Medicaid, Headstart.

Related Access Points

Name	Description
SS.912.A.7.In.m:	Identify components of the Great Society program, such as Medicare and Medicaid, urban development, housing, and transit.
SS.912.A.7.Su.m:	Recognize a component of the Great Society program, such as Medicare and Medicaid, or housing.
SS.912.A.7.Pa.m:	Recognize a social program of the government.

Review the role of the United States as a participant in the global economy (trade agreements, international competition, impact on American labor, environmental concerns).

[SS.912.A.7.14:](#)

Remarks/Examples:

Examples may include, but are not limited to, NAFTA, World Trade Organization.

Related Access Points

Name	Description
SS.912.A.7.In.n:	Identify ways the United States participates in the global economy, such as by trading with other countries and making trade agreements.
SS.912.A.7.Su.n:	Recognize a way the United States participates in the global economy, such as by trading with other countries or making trade agreements.
SS.912.A.7.Pa.n:	Recognize a product produced in another country.

Analyze the effects of foreign and domestic terrorism on the American people.

[SS.912.A.7.15:](#)

Remarks/Examples:

Examples may include, but are not limited to, Oklahoma City bombing, attack of September 11, 2001, Patriot Act, wars in Afghanistan and Iraq.

Related Access Points

Name	Description
SS.912.A.7.In.o:	Identify effects of terrorism in the United States, such as the attacks on September 11, 2001, which led to the wars in Afghanistan and Iraq.

[SS.912.A.7.Su.o](#): Recognize that the United States has been affected by acts of terrorism, such as the attacks on September 11, 2001.

[SS.912.A.7.Pa.o](#): Recognize an act of terrorism, such as September 11, 2001.

[SS.912.A.7.16](#):

Examine changes in immigration policy and attitudes toward immigration since 1950.

Related Access Points

Name	Description
SS.912.A.7.In.p	Identify ways that immigration policy and attitudes have changed since 1950.
SS.912.A.7.Su.p	Recognize that immigration policy and attitudes have changed since 1950.
SS.912.A.7.Pa.p	Recognize that people immigrate to this country.

Examine key events and key people in Florida history as they relate to United States history.

Remarks/Examples:

Examples may include, but are not limited to, selection of Central Florida as a location for Disney, growth of the citrus and cigar industries, construction of Interstates, Harry T. Moore, Pork Chop Gang, Claude Pepper, changes in the space program, use of DEET, Hurricane Andrew, the Election of 2000, migration and immigration, Sunbelt state.

[SS.912.A.7.17](#):

Related Access Points

Name	Description
SS.912.A.7.In.q	Identify key events in Florida, such as the construction of Disney World, the growth of the citrus industry, changes in the space program, and immigration.
SS.912.A.7.Su.q	Identify a key event in Florida, such as the construction of Disney World, the growth of the citrus industry, changes in the space program, or immigration.
SS.912.A.7.Pa.q	Recognize a key event in Florida, such as construction of Disney World.

[SS.912.G.1.2](#):

Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.

Related Access Points

Name	Description
SS.912.G.1.In.b	Use spatial perspective and appropriate geographic terms and tools to organize and identify information about a location.
SS.912.G.1.Su.b	Use spatial perspective and appropriate geographic terms and tools to identify information about a location.
SS.912.G.1.Pa.b	Associate terms used by geographers with places, people, or the environment.

[SS.912.G.1.3](#):

Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.

Related Access Points

Name	Description
SS.912.G.1.In.c	Use applicable units of measurement and scale to determine the distance between two places on a map or globe to solve simple problems.
SS.912.G.1.Su.c	Use applicable units of measurement to identify the distance between two places on a map to solve simple problems.
SS.912.G.1.Pa.c	Use positional words to identify a relative location on a map.

Identify the physical characteristics and the human characteristics that define and differentiate regions.

[SS.912.G.2.1](#):

Remarks/Examples:

Examples of physical characteristics are climate, terrain, resources.

Examples of human characteristics are religion, government, economy, demography.

Related Access Points

Name	Description
SS.912.G.2.In.a	Identify physical characteristics—such as climate and terrain, and human elements—such as religion and economy, that explain settlement patterns in the United States regions over time.
SS.912.G.2.Su.a	Recognize physical characteristics—such as climate and terrain, and human elements—such as religion and economy, that affected where people settled in the United States.
SS.912.G.2.Pa.a	Recognize the effect of a physical characteristic of a place on people.

[SS.912.G.4.2](#):

Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.

Related Access Points

Name	Description
SS.912.G.4.In.b	Use geographic terms and tools to describe the push/pull factors contributing to human migration.
SS.912.G.4.Su.b	Use geographic terms and tools to identify the push/pull factors contributing to human migration.
SS.912.G.4.Pa.b	Recognize a cause of migration.

[SS.912.G.4.3](#):

Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.

Related Access Points

Name	Description
SS.912.G.4.In.c:	Use geographic terms and tools to examine effects of migration on the place of origin and destination.
SS.912.G.4.Su.c:	Use geographic terms and tools to identify an effect of migration on the place of origin and destination.
SS.912.G.4.Pa.c:	Recognize an effect of migration.

Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created.

[SS.912.H.1.1:](#)

Remarks/Examples:

Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.

Name	Description
SS.912.H.1.In.a:	Identify works in the arts, including architecture, music, and visual arts, from time periods, such as Classical, Renaissance, Modern, and Contemporary.
SS.912.H.1.Su.a:	Recognize works in the arts, including music and visual arts, from a time period, such as Classical, Renaissance, or Contemporary.
SS.912.H.1.Pa.a:	Recognize a characteristic of a work in the arts from a time period.

Relate works in the arts to various cultures.

[SS.912.H.1.3:](#)

Remarks/Examples:

Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.

Related Access Points

Name	Description
SS.912.H.1.In.c:	Identify works in the arts from various cultures, such as African, Asian, European, the Americas, and Middle Eastern.
SS.912.H.1.Su.c:	Recognize works in the arts from various cultures, such as African, Asian, the Americas, and Middle Eastern.
SS.912.H.1.Pa.c:	Recognize a characteristic of a work in the arts from a time period.

Examine artistic response to social issues and new ideas in various cultures.

[SS.912.H.1.5:](#)

Remarks/Examples:

Examples are Victor Hugo's Les Miserables, Langston Hughes' poetry, Pete Seeger's Bring 'Em Home.

Related Access Points

Name	Description
SS.912.H.1.In.e:	Identify ways historical events, social context, culture, and government are reflected in works of art, such as imperial Roman sculpture, the Palace of Versailles, and the layout of Washington, DC.
SS.912.H.1.Su.e:	Recognize that works of art reflect events, cultures, or government.
SS.912.H.1.Pa.e:	Recognize a characteristic of a work in the arts from a time period.

[SS.912.H.3.1:](#)

Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.

Related Access Points

Name	Description
SS.912.H.3.In.a:	Identify effects of transportation, trade, communication, science, and technology on the preservation of a culture and its diffusion to other locations.
SS.912.H.3.Su.a:	Recognize an effect of transportation, trade, communication, science, or technology on the diffusion of a culture to another location.
SS.912.H.3.Pa.a:	Recognize that communication helps spread ideas to other cultures.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.
- Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
- Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.1a:	Consider a full range of ideas or positions on a given topic or text when presented in a discussion.
LAFS.1112.SL.1.AP.1b:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1c:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.1112.SL.1.AP.1d:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.

[LAFS.1112.SL.1.AP.1e](#): Work with peers to promote democratic discussions.

[LAFS.1112.SL.1.AP.1f](#): Actively seek the ideas or opinions of others in a discussion on a given topic or text.

[LAFS.1112.SL.1.AP.1g](#): Engage appropriately in discussion with others who have a diverse or divergent perspectives.

[LAFS.1112.SL.1.2](#):

Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.2a	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.1112.SL.1.3](#):

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

Related Access Points

Name	Description
LAFS.1112.SL.1.AP.3a	Determine the speaker's point of view or purpose in a text.
LAFS.1112.SL.1.AP.3b	Determine what arguments the speaker makes.
LAFS.1112.SL.1.AP.3c	Evaluate the evidence used to make the speaker's argument.
LAFS.1112.SL.1.AP.3d	Evaluate a speaker's point of view, reasoning, use of evidence and rhetoric for ideas, relationship between claims, reasoning, evidence and word choice.

[LAFS.1112.SL.2.4](#):

Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

Related Access Points

Name	Description
LAFS.1112.SL.2.AP.4a	Report orally on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.1112.RH.1.1](#):

Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.

[LAFS.1112.RH.1.2](#):

Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.

[LAFS.1112.RH.1.3](#):

Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.

[LAFS.1112.RH.2.4](#):

Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines faction in Federalist No. 10).

[LAFS.1112.RH.2.5](#):

Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.

[LAFS.1112.RH.2.6](#):

Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.

[LAFS.1112.RH.3.7](#):

Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.

[LAFS.1112.RH.3.8](#):

Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.

[LAFS.1112.RH.3.9](#):

Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.

[LAFS.1112.RH.4.10](#):

By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.

[LAFS.1112.WHST.1.1](#):

Write arguments focused on discipline-specific content.

- Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.
- Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.1112.WHST.1.2](#):

Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

- Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.
- Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).

LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.								
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.								
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.								
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.								
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.								
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.								
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.								
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.								
	<div style="border: 1px solid black; padding: 5px;"> <p>Remarks/Examples: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p> </div>

Access World History (#7921027)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7921027	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Academics - Subject Areas >
Course Section: Exceptional Student Education	Abbreviated Title: ACCESS WORLD HISTORY
Number of Credits: Multiple Credit (more than 1 credit)	Course Length: Year (Y)
Course Type: Core	Class Size? Yes
Course Status: Draft - Course Pending Approval	Grade Level(s) Version: 9,10,11,12
Keywords: access world history, world history	Requires a Highly Qualified Teacher (HQT)? Yes
Grade Level(s): 9, 10, 11, 12	
NCLB? Yes	

GENERAL NOTES

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
SS.912.W.2.2:	Describe the impact of Constantine the Great's establishment of "New Rome" (Constantinople) and his recognition of Christianity as a legal religion.
Related Access Points	
Name	Description
SS.912.W.2.In.b:	Identify the impact of the establishment of "New Rome" by Constantine the Great with Christianity as the official religion.
SS.912.W.2.Su.b:	Recognize that Constantine the Great established Christianity as the official religion of Constantinople.
SS.912.W.2.Pa.b:	Recognize Christianity as a religion.
SS.912.W.2.3:	Analyze the extent to which the Byzantine Empire was a continuation of the old Roman Empire and in what ways it was a departure.
Related Access Points	
Name	Description
SS.912.W.2.In.c:	Identify similarities and differences of the Byzantine Empire and Roman Empire.
SS.912.W.2.Su.c:	Recognize a similarity and difference of the Byzantine Empire and Roman Empire.
SS.912.W.2.Pa.c:	Recognize a characteristic of empires.
Identify key figures associated with the Byzantine Empire.	
SS.912.W.2.4:	Remarks/Examples: Examples are Justinian the Great, Theodora, Belisarius, John of Damascus, Anna Comnena, Cyril and Methodius.
Related Access Points	
Name	Description
SS.912.W.2.In.d:	Recognize a key figure from the Byzantine Empire, such as the emperor, Justinian the Great.
SS.912.W.2.Su.d:	Associate a key figure, such as Justinian the Great, with the Byzantine Empire.
SS.912.W.2.Pa.d:	Recognize a characteristic of empires.
Explain the contributions of the Byzantine Empire.	

[SS.912.W.2.5:](#)

Remarks/Examples:

Examples are Justinian's Code, the preservation of ancient Greek and Roman learning and culture, artistic and architectural achievements, the empire's impact on the development of Western Europe, Islamic civilization, and Slavic peoples.

Related Access Points

Name	Description
SS.912.W.2.In.e:	Identify contributions of the Byzantine Empire, such as the development of Western Europe, Islamic civilization, and spread of Christianity in Eastern Europe (Slavic peoples).
SS.912.W.2.Su.e:	Recognize a contribution of the Byzantine Empire, such as the development of Western Europe, Islamic civilization, or spread of Christianity in Eastern Europe (Slavic peoples).
SS.912.W.2.Pa.e:	Recognize a contribution of medieval civilizations.

[SS.912.W.2.6:](#)

Describe the causes and effects of the Iconoclast controversy of the 8th and 9th centuries and the 11th century Christian schism between the churches of Constantinople and Rome.

Related Access Points

Name	Description
SS.912.W.2.In.f:	Identify contributions of the Byzantine Empire, such as the development of Western Europe, Islamic civilization, and spread of Christianity in Eastern Europe (Slavic peoples).
SS.912.W.2.Su.f:	Recognize a contribution of the Byzantine Empire, such as the development of Western Europe, Islamic civilization, or spread of Christianity in Eastern Europe (Slavic peoples).
SS.912.W.2.Pa.f:	Recognize a contribution of medieval civilizations.

[SS.912.W.2.7:](#)

Analyze causes (Justinian's Plague, ongoing attacks from the "barbarians," the Crusades, and internal political turmoil) of the decline of the Byzantine Empire.

Related Access Points

Name	Description
SS.912.W.2.In.g:	Recognize causes of the decline of the Byzantine Empire, such as the plague, attacks from barbarian tribes, or the Crusades.
SS.912.W.2.Su.g:	Recognize a cause of the decline of the Byzantine Empire, such as the plague, attacks from barbarian tribes, or the Crusades.
SS.912.W.2.Pa.g:	Recognize that disease or war can destroy a civilization.

[SS.912.W.2.8:](#)

Describe the rise of the Ottoman Turks, the conquest of Constantinople in 1453, and the subsequent growth of the Ottoman empire under the sultanate including Mehmet the Conquerer and Suleyman the Magnificent.

Related Access Points

Name	Description
SS.912.W.2.In.h:	Identify that the Ottoman Turks conquered the Byzantine Empire and the Ottoman Empire grew.
SS.912.W.2.Su.h:	Recognize that the Ottoman Turks conquered the Byzantine Empire.
SS.912.W.2.Pa.h:	Recognize that countries fight to take control of other countries.

[SS.912.W.2.9:](#)

Analyze the impact of the collapse of the Western Roman Empire on Europe.

Related Access Points

Name	Description
SS.912.W.2.In.i:	Identify the changes that occurred after the collapse of the Western Roman Empire, such as less trade, the loss of learning and knowledge, and the breakup into barbarian states.
SS.912.W.2.Su.i:	Recognize a change that occurred after the collapse of the Western Roman Empire, such as less trade, the loss of learning and knowledge, or the breakup into barbarian states.
SS.912.W.2.Pa.i:	Recognize a negative consequence of change in civilization.

[SS.912.W.2.10:](#)

Describe the orders of medieval social hierarchy, the changing role of the Church, the emergence of feudalism, and the development of private property as a distinguishing feature of Western Civilization.

Related Access Points

Name	Description
SS.912.W.2.In.j:	Identify the social rankings in medieval society and the role feudalism played in Western Civilization.
SS.912.W.2.Su.j:	Recognize a feature of Western Civilization that came from medieval times, such as a social class system or private property.
SS.912.W.2.Pa.j:	Recognize a contribution of medieval civilizations.

[SS.912.W.2.11:](#)

Describe the rise and achievements of significant rulers in medieval Europe.

Remarks/Examples:

Examples are Charles Martel, Charlemagne, Otto the Great, William the Conqueror.

Related Access Points

Name	Description
SS.912.W.2.In.k:	Identify the achievements under the leadership of Charlemagne, such as religious reform, establishment of courts, and cultural revival.

[SS.912.W.2.Su.k:](#) Recognize an achievement under the leadership of Charlemagne, such as religious reform, establishment of courts, or cultural revival.

[SS.912.W.2.Pa.k:](#) Recognize a positive consequence of change in civilization.

[SS.912.W.2.12:](#)

Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.

Related Access Points

Name	Description
SS.912.W.2.In.l:	Recognize ways Christian monasteries and convents helped the people through education, charity, and agriculture.
SS.912.W.2.Su.l:	Recognize a way Christian monasteries and convents helped the people through education and charity.
SS.912.W.2.Pa.l:	Recognize a social support provided by religious organizations.

[SS.912.W.2.13:](#)

Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.

Related Access Points

Name	Description
SS.912.W.2.In.m:	Identify the major influences in Western Civilization that fostered cultural unity.
SS.912.W.2.Su.m:	Recognize that Western Civilization was influenced by many cultures.
SS.912.W.2.Pa.m:	Recognize that people in different cultures can join together.

[SS.912.W.2.14:](#)

Describe the causes and effects of the Great Famine of 1315-1316, The Black Death, The Great Schism of 1378, and the Hundred Years War on Western Europe.

Related Access Points

Name	Description
SS.912.W.2.In.n:	Recognize difficulties experienced by Western Europe in the 1300s, such as the Great Famine, Black Death, and the Hundred Years War.
SS.912.W.2.Su.n:	Recognize a difficulty experienced by Western Europe in the 1300s, such as the Great Famine or Black Death.
SS.912.W.2.Pa.n:	Recognize that disease or war can destroy a civilization.

[SS.912.W.2.15:](#)

Determine the factors that contributed to the growth of a modern economy.

Remarks/Examples:

Examples are growth of banking, technological and agricultural improvements, commerce, towns, guilds, rise of a merchant class.

Related Access Points

Name	Description
SS.912.W.2.In.o:	Recognize how the modern economy developed, such as from the growth of the early banking system, advancements in agriculture, the rise of the merchant class, and the growth of towns and cities.
SS.912.W.2.Su.o:	Recognize a way the modern economy developed, such as from the growth of the early banking system, advancements in agriculture, the rise of the merchant class, or the growth of towns and cities.
SS.912.W.2.Pa.o:	Recognize that an economy involves buying and trading goods.

[SS.912.W.2.16:](#)

Trace the growth and development of a national identity in the countries of England, France, and Spain.

Related Access Points

Name	Description
SS.912.W.2.In.p:	Identify characteristics of national identity in England, France, and Spain.
SS.912.W.2.Su.p:	Recognize a characteristic of national identity in England, France, and Spain.
SS.912.W.2.Pa.p:	Recognize a characteristic of national identity.

[SS.912.W.2.17:](#)

Identify key figures, artistic, and intellectual achievements of the medieval period in Western Europe.

Remarks/Examples:

Examples are Anselm of Canterbury, Chaucer, Thomas Aquinas, Roger Bacon, Hildegard of Bingen, Dante, Code of Chivalry, Gothic architecture, illumination, universities, Natural Law Philosophy, Scholasticism.

Related Access Points

Name	Description
SS.912.W.2.In.q:	Identify figures, such as Thomas Aquinas and Roger Bacon, and achievements, such as the advancement of education and law, of the medieval period in Western Europe.
SS.912.W.2.Su.q:	Recognize an achievement of the medieval period in Western Europe, such as the advancement of education through the universities.
SS.912.W.2.Pa.q:	Recognize important components of culture, such as education.

[SS.912.W.2.18:](#)

Describe developments in medieval English legal and constitutional history and their importance to the rise of modern democratic institutions and procedures.

Remarks/Examples:

Examples are Magna Carta, parliament, habeas corpus.

Related Access Points

Name	Description
SS.912.W.2.In.r:	Recognize that developments in medieval English history established important legal principles, such as English Common law, the Magna Carta, habeas corpus, and the development of modern democratic institutions.
SS.912.W.2.Su.r:	Recognize a development in medieval English history that established modern democratic government, such as English Common law or the Magna Carta.
SS.912.W.2.Pa.r:	Recognize that people are governed by laws.

[SS.912.W.2.19:](#) Describe the impact of Japan's physiography on its economic and political development.

Related Access Points

Name	Description
SS.912.W.2.In.s:	Identify physical features of Japan that impacted its development.
SS.912.W.2.Su.s:	Recognize selected physical features of Japan that impacted its development.
SS.912.W.2.Pa.s:	Recognize an impact of a physical feature on a location.

Summarize the major cultural, economic, political, and religious developments in medieval Japan.

[SS.912.W.2.20:](#)

Remarks/Examples:

Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.

Related Access Points

Name	Description
SS.912.W.2.In.t:	Identify major developments in medieval Japan, such as the influence of the religions, feudal system, government, and military.
SS.912.W.2.Su.t:	Recognize a major development in medieval Japan, such as the influence of the religions, feudal system, government, or military.
SS.912.W.2.Pa.t:	Recognize that civilizations change over time.

[SS.912.W.2.21:](#) Compare Japanese feudalism with Western European feudalism during the Middle Ages.

Related Access Points

Name	Description
SS.912.W.2.In.u:	Identify major developments in medieval Japan, such as the influence of the religions, feudal system, government, and military.
SS.912.W.2.Su.u:	Recognize a major development in medieval Japan, such as the influence of the religions, feudal system, government, or military.
SS.912.W.2.Pa.u:	Recognize that civilizations change over time.

[SS.912.W.2.1:](#) Locate the extent of Byzantine territory at the height of the empire.

Related Access Points

Name	Description
SS.912.W.2.In.a:	Identify the extent of Byzantine territory.
SS.912.W.2.Su.a:	Recognize the extent of Byzantine territory.
SS.912.W.2.Pa.a:	Recognize that there were civilizations in different parts of the world.

[SS.912.W.2.22:](#) Describe Japan's cultural and economic relationship to China and Korea.

Related Access Points

Name	Description
SS.912.W.2.In.v:	Identify an example of Japan's cultural and economic relationship to China and Korea.
SS.912.W.2.Su.v:	Recognize an example of Japan's cultural and economic relationship to China and Korea.
SS.912.W.2.Pa.v:	Recognize that people in different cultures share customs and practices.

[SS.912.W.1.1:](#) Use timelines to establish cause and effect relationships of historical events.

Related Access Points

Name	Description
SS.912.W.1.In.a:	Use a timeline to show the relationship of historical events.
SS.912.W.1.Su.a:	Use a simple timeline to identify the relationship of historical events.
SS.912.W.1.Pa.a:	Use a simple pictorial timeline to recognize a sequence of events.

Compare time measurement systems used by different cultures.

[SS.912.W.1.2:](#)

Remarks/Examples:

Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.

Related Access Points

Name	Description
SS.912.W.1.In.b:	Identify terms of time sequence, such as decade, century, and era.
SS.912.W.1.Su.b:	Recognize terms of time sequence, such as decade and century.
SS.912.W.1.Pa.b:	Recognize terms that relate to time, such as day, week, month, and year.

Interpret and evaluate primary and secondary sources.

[SS.912.W.1.3:](#)

Remarks/Examples:
Examples are artifacts, images, auditory and written sources.

Related Access Points

Name	Description
SS.912.W.1.In.c:	Examine and describe information in primary and secondary sources, such as artifacts, images, and auditory and written sources.
SS.912.W.1.Su.c:	Identify information in a primary and secondary source, such as artifacts, images, and auditory and written sources.
SS.912.W.1.Pa.c:	Recognize sources of information, such as artifacts, images, and auditory and written sources.

Explain how historians use historical inquiry and other sciences to understand the past.

[SS.912.W.1.4:](#)

Remarks/Examples:
Examples are archaeology, economics, geography, forensic chemistry, political science, physics.

Related Access Points

Name	Description
SS.912.W.1.In.d:	Identify basic uses of historical inquiry and the relation to geography, economics, and civics.
SS.912.W.1.Su.d:	Recognize a use of historical inquiry and the relation to geography, economics, and civics.
SS.912.W.1.Pa.d:	Recognize sources of information, such as artifacts, images, and auditory and written sources.

[SS.912.W.1.5:](#)

Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).

Related Access Points

Name	Description
SS.912.W.1.In.e:	Recognize differences in interpretations of historians about events.
SS.912.W.1.Su.e:	Recognize that interpretations of historians may differ.
SS.912.W.1.Pa.e:	Recognize sources of information, such as artifacts, images, and auditory and written sources.

Evaluate the role of history in shaping identity and character.

[SS.912.W.1.6:](#)

Remarks/Examples:
Examples are ethnic, cultural, personal, national, religious.

Related Access Points

Name	Description
SS.912.W.1.In.f:	Identify the role of history in shaping the identity of culture and character.
SS.912.W.1.Su.f:	Recognize the role of history in shaping the identity of culture and character.
SS.912.W.1.Pa.f:	Recognize a characteristic of cultural identity.

Discuss significant people and beliefs associated with Islam.

[SS.912.W.3.1:](#)

Remarks/Examples:
Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.

Related Access Points

Name	Description
SS.912.W.3.In.a:	Identify significant people and beliefs associated with Islam, such as Muhammad, Islamic law, and the relationship between government and religion.
SS.912.W.3.Su.a:	Recognize a significant person or belief associated with Islam, such as Muhammad or Islamic law.
SS.912.W.3.Pa.a:	Recognize that religion influences culture.

[SS.912.W.3.2:](#)

Compare the major beliefs and principles of Judaism, Christianity, and Islam.

Related Access Points

Name	Description
SS.912.W.3.In.b:	Identify major differences in beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.Su.b:	Recognize a difference in beliefs or principles of Judaism, Christianity, and Islam.
SS.912.W.3.Pa.b:	Recognize that there is more than one religion.

[SS.912.W.3.3:](#)

Determine the causes, effects, and extent of Islamic military expansion through Central Asia, North Africa, and the Iberian Peninsula.

Related Access Points

Name	Description
SS.912.W.3.In.c:	Recognize effects of Islamic military expansion through Central Asia, North Africa, and the Iberian Peninsula, such as the Crusades, the capture of Jerusalem, and conversion of the Mongols to Islam.
SS.912.W.3.Su.c:	Recognize an effect of Islamic military expansion through Central Asia, North Africa, and the Iberian Peninsula, such as the spread of Islam.
SS.912.W.3.Pa.c:	Recognize that religion influences culture.

[SS.912.W.3.4:](#) Describe the expansion of Islam into India and the relationship between Muslims and Hindus.

Related Access Points

Name	Description
SS.912.W.3.In.d:	Identify factors that led to the expansion of Islam into India, such as traders, missionary activities, invasions, and the introduction of the Islamic faith to Hindus in India.
SS.912.W.3.Su.d:	Recognize a factor that led to the expansion of Islam into India, such as traders, missionary activities, invasions, or the introduction of Islamic faith to Hindus in India.
SS.912.W.3.Pa.d:	Recognize that religion influences culture.

Describe the achievements, contributions, and key figures associated with the Islamic Golden Age.

[SS.912.W.3.5:](#)

Remarks/Examples:
Examples are Al-Ma'mun, Avicenna, Averroes, Algebra, Al-Razi, Alhambra, The Thousand and One Nights.

Related Access Points

Name	Description
SS.912.W.3.In.e:	Recognize achievements, contributions, and key figures associated with the Islamic Golden Age, such as in medicine (Avicenna), mathematics, and philosophy (Averroes).
SS.912.W.3.Su.e:	Recognize that achievements in the Islamic Golden Age included advancements in many areas of learning.
SS.912.W.3.Pa.e:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

Describe key economic, political, and social developments in Islamic history.

[SS.912.W.3.6:](#)

Remarks/Examples:
Examples are growth of the caliphate, division of Sunni and Shi'a, role of trade, dhimmitude, Islamic slave trade.

Related Access Points

Name	Description
SS.912.W.3.In.f:	Recognize key developments in Islamic history, such as the form of government (caliphate), the formation of different religious groups—Sunni and Shi'a, and the importance of slave trade.
SS.912.W.3.Su.f:	Recognize a key development in Islamic history, such as the form of government (caliphate), the formation of different religious groups—Sunni and Shi'a, or the importance of slave trade.
SS.912.W.3.Pa.f:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

Analyze the causes, key events, and effects of the European response to Islamic expansion beginning in the 7th century.

[SS.912.W.3.7:](#)

Remarks/Examples:
Examples are Crusades, Reconquista.

Related Access Points

Name	Description
SS.912.W.3.In.g:	Recognize effects of the European response to Islamic expansion, such as the Crusades and Reconquista.
SS.912.W.3.Su.g:	Recognize that the Crusades were a key European response to Islamic expansion.
SS.912.W.3.Pa.g:	Recognize people fight for their religious beliefs.

Identify important figures associated with the Crusades.

[SS.912.W.3.8:](#)

Remarks/Examples:
Examples are Alexius Comnenus, Pope Urban, Bernard of Clairvaux, Godfrey of Bouillon, Saladin, Richard the Lionheart, Baybars, Louis IX.

Related Access Points

Name	Description
SS.912.W.3.In.h:	Recognize effects of the European response to Islamic expansion, such as the Crusades and Reconquista.
SS.912.W.3.Su.h:	Recognize that the Crusades were a key European response to Islamic expansion.
SS.912.W.3.Pa.h:	Recognize people fight for their religious beliefs.

Trace the growth of major sub-Saharan African kingdoms and empires.

[SS.912.W.3.9:](#)

Remarks/Examples:
Examples are Ghana, Mali, Songhai.

Related Access Points

Name	Description
SS.912.W.3.In.i:	Identify the growth of sub-Saharan African kingdoms and empires, such as Ghana, Mali, or Songhai.
SS.912.W.3.Su.i:	Recognize the growth of sub-Saharan African kingdoms and empires.
SS.912.W.3.Pa.i:	Recognize change of leadership over time.

Identify key significant economic, political, and social characteristics of Ghana.

[SS.912.W.3.10:](#)

Remarks/Examples:

Examples are salt and gold trade, taxation system, gold monopoly, matrilineal inheritance, griots, ancestral worship, rise of Islam, slavery.

Related Access Points

Name	Description
SS.912.W.3.In.j:	Recognize significant characteristics of Ghana, such as salt and gold trade, matrilineal inheritance, rise of Islam, and slavery.
SS.912.W.3.Su.j:	Recognize a characteristic of Ghana, such as salt and gold trade, matrilineal inheritance, rise of Islam, or slavery.
SS.912.W.3.Pa.j:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

Identify key figures and significant economic, political, and social characteristics associated with Mali.

[SS.912.W.3.11:](#)

Remarks/Examples:

Examples are Sundiata, Epic of Sundiata, Mansa Musa, Ibn Battuta, gold mining and salt trade, slavery.

Related Access Points

Name	Description
SS.912.W.3.In.k:	Recognize significant characteristics of Mali, such as gold mining, salt trade, and slavery.
SS.912.W.3.Su.k:	Recognize a characteristic of Mali, such as gold mining, salt trade, or slavery.
SS.912.W.3.Pa.k:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

Identify key figures and significant economic, political, and social characteristics associated with Songhai.

[SS.912.W.3.12:](#)

Remarks/Examples:

Examples are Sunni Ali, Askia Mohammad the Great, gold, salt trade, cowries as a medium of exchange, Sankore University, slavery, professional army, provincial political structure.

Related Access Points

Name	Description
SS.912.W.3.In.l:	Identify characteristics associated with Songhai, such as gold, salt trade, Sankore University, and provincial political structure.
SS.912.W.3.Su.l:	Recognize a characteristic associated with Songhai, such as gold, salt trade, Sankore University, or provincial political structure.
SS.912.W.3.Pa.l:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

[SS.912.W.3.13:](#)

Compare economic, political, and social developments in East, West, and South Africa.

Related Access Points

Name	Description
SS.912.W.3.In.m:	Recognize major characteristics of developments in East, West, and South Africa.
SS.912.W.3.Su.m:	Recognize a major characteristic of developments in East, West, and South Africa.
SS.912.W.3.Pa.m:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

Examine the internal and external factors that led to the fall of the empires of Ghana, Mali, and Songhai.

[SS.912.W.3.14:](#)

Remarks/Examples:

Examples are disruption of trade, internal political struggles, Islamic invasions.

Related Access Points

Name	Description
SS.912.W.3.In.n:	Recognize factors that led to the fall of the empires of Ghana, Mali, and Songhai, such as disruption of trade and internal political struggles.
SS.912.W.3.Su.n:	Recognize a factor that led to the fall of the empires of Ghana, Mali, and Songhai, such as disruption of trade or internal political struggles.
SS.912.W.3.Pa.n:	Recognize change of leadership over time.

[SS.912.W.3.15:](#)

Analyze the legacies of the Olmec, Zapotec, and Chavin on later Meso and South American civilizations.

Related Access Points

Name	Description
SS.912.W.3.In.o:	Identify legacies—such as religion, astronomy, and architecture—of the Olmec, Zapotec, and Chavin on later civilizations.
SS.912.W.3.Su.o:	Recognize a legacy—such as religion, astronomy, or architecture—of the Olmec, Zapotec, or Chavin on later civilizations.
SS.912.W.3.Pa.o:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

Locate major civilizations of Mesoamerica and Andean South America.

[SS.912.W.3.16:](#)

Remarks/Examples:

Examples are Maya, Aztec, Inca.

Related Access Points

Name	Description
SS.912.W.3.In.p:	Recognize major civilizations of Mesoamerica and Andean South America, such as Maya, Aztec, and Inca.
SS.912.W.3.Su.p:	Recognize a major civilization of Mesoamerica and Andean South America.
SS.912.W.3.Pa.p:	Recognize that there were civilizations in different parts of the world.

Describe the roles of people in the Maya, Inca, and Aztec societies.

[SS.912.W.3.17:](#)

Remarks/Examples:

Examples are class structure, family life, warfare, religious beliefs and practices, slavery.

Related Access Points

Name	Description
SS.912.W.3.In.q:	Recognize the roles of people in Maya, Inca, and Aztec societies, such as class structures, family life, warfare, religious beliefs and practices, and slavery.
SS.912.W.3.Su.q:	Recognize a role of people in Maya, Inca, and Aztec societies, such as class structures, family life, warfare, religious beliefs and practices, or slavery.
SS.912.W.3.Pa.q:	Recognize different roles of people.

Compare the key economic, cultural, and political characteristics of the major civilizations of Meso and South America.

[SS.912.W.3.18:](#)

Remarks/Examples:

Examples are agriculture, architecture, astronomy, literature, mathematics, trade networks, government.

Related Access Points

Name	Description
SS.912.W.3.In.r:	Recognize common characteristics of the major civilizations of Meso and South America, such as agriculture, architecture, astronomy, mathematics, and government.
SS.912.W.3.Su.r:	Recognize a common characteristic of the major civilizations of Meso and South America, such as agriculture, architecture, astronomy, mathematics, or government.
SS.912.W.3.Pa.r:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

[SS.912.W.3.19:](#)

Determine the impact of significant Meso and South American rulers such as Pacal the Great, Moctezuma I, and Huayna Capac.

Related Access Points

Name	Description
SS.912.W.3.In.s:	Recognize common characteristics of the major civilizations of Meso and South America, such as agriculture, architecture, astronomy, mathematics, and government.
SS.912.W.3.Su.s:	Recognize a common characteristic of the major civilizations of Meso and South America, such as agriculture, architecture, astronomy, mathematics, or government.
SS.912.W.3.Pa.s:	Recognize an achievement or contribution of Asian, African, or Meso-American civilizations.

[SS.912.W.4.1:](#)

Identify the economic and political causes for the rise of the Italian city-states (Florence, Milan, Naples, Rome, Venice).

Related Access Points

Name	Description
SS.912.W.4.In.a:	Recognize that Italian city-states had ideal locations on the Italian peninsula that made them grow wealthy through trade and cultural diversity.
SS.912.W.4.Su.a:	Recognize that Italian city-states grew wealthy through trade and cultural diversity.
SS.912.W.4.Pa.a:	Recognize that trade is a characteristic of society.

[SS.912.W.4.2:](#)

Recognize major influences on the architectural, artistic, and literary developments of Renaissance Italy (Classical, Byzantine, Islamic, Western European).

Related Access Points

Name	Description
SS.912.W.4.In.b:	Recognize an influence of architectural, artistic, and literary development of Renaissance Italy.
SS.912.W.4.Su.b:	Recognize that artistic, literary, and technological accomplishments are distinctive characteristics of societies.
SS.912.W.4.Pa.b:	Recognize that architecture is a characteristic of society.

Identify the major artistic, literary, and technological contributions of individuals during the Renaissance.

[SS.912.W.4.3:](#)

Remarks/Examples:

Examples are Petrarch, Brunelleschi, Giotto, the Medici Family, Michelangelo, Leonardo da Vinci, Erasmus, Thomas More, Machiavelli, Shakespeare, Gutenberg, El Greco, Artemisia Gentileschi, Van Eyck.

Related Access Points

Name	Description
SS.912.W.4.In.c:	Recognize the artistic, literary and technological contributions during the Renaissance of artists, such as da Vinci and Michelangelo; of writers, such as Petrarch and Shakespeare; and of inventors, such as Gutenberg.
SS.912.W.4.Su.c:	Recognize a development of the Renaissance, such as the work of artists, like Michelangelo and da Vinci; writers, like Shakespeare; or inventors, like Gutenberg.
SS.912.W.4.Pa.c:	Recognize that art is a characteristic of society.

Identify characteristics of Renaissance humanism in works of art.

[SS.912.W.4.4:](#)

Remarks/Examples: Examples are influence of classics, School of Athens.

Related Access Points

Name	Description
SS.912.W.4.In.d:	Recognize characteristics of Renaissance humanism in literature and the arts.
SS.912.W.4.Su.d:	Recognize that works of art reflect the culture and values of their society.
SS.912.W.4.Pa.d:	Recognize that art is a characteristic of society.

[SS.912.W.4.5:](#)

Describe how ideas from the Middle Ages and Renaissance led to the Scientific Revolution.

Related Access Points

Name	Description
SS.912.W.4.In.e:	Recognize new ideas developed during the Scientific Revolution, such as the discovery that the Earth and planets revolve around the Sun, the pendulum, the law of gravity, the scientific method, and the microscope.
SS.912.W.4.Su.e:	Recognize a new idea developed during the Scientific Revolution, such as the discovery that the Earth and planets revolve around the Sun, the pendulum, the law of gravity, or the microscope.
SS.912.W.4.Pa.e:	Recognize the impact of science on civilization.

[SS.912.W.4.6:](#)

Describe how scientific theories and methods of the Scientific Revolution challenged those of the early classical and medieval periods.

Related Access Points

Name	Description
SS.912.W.4.In.f:	Recognize new ideas developed during the Scientific Revolution, such as the discovery that the Earth and planets revolve around the Sun, the pendulum, the law of gravity, the scientific method, and the microscope.
SS.912.W.4.Su.f:	Recognize a new idea developed during the Scientific Revolution, such as the discovery that the Earth and planets revolve around the Sun, the pendulum, the law of gravity, or the microscope.
SS.912.W.4.Pa.f:	Recognize the impact of science on civilization.

[SS.912.W.4.7:](#)

Identify criticisms of the Roman Catholic Church by individuals such as Wycliffe, Hus and Erasmus and their impact on later reformers.

Related Access Points

Name	Description
SS.912.W.4.In.g:	Recognize the impact of the Roman Catholic reformers, such as Erasmus, Wycliffe, or Huss.
SS.912.W.4.Su.g:	Recognize that reformers challenged the beliefs of the Roman Catholic Church.
SS.912.W.4.Pa.g:	Recognize that people may change their beliefs.

Summarize religious reforms associated with Luther, Calvin, Zwingli, Henry VIII, and John of Leyden and the effects of the Reformation on Europe.

[SS.912.W.4.8:](#)

Remarks/Examples: Examples are Catholic and Counter Reformation, political and religious fragmentation, military conflict, expansion of capitalism.

Related Access Points

Name	Description
SS.912.W.4.In.h:	Recognize characteristics of the Protestant religious reforms of Luther, Calvin, and Henry VIII.
SS.912.W.4.Su.h:	Recognize that reformers challenged the beliefs of the Roman Catholic Church.
SS.912.W.4.Pa.h:	Recognize that people may change their beliefs.

Analyze the Roman Catholic Church's response to the Protestant Reformation in the forms of the Counter and Catholic Reformation.

[SS.912.W.4.9:](#)

Remarks/Examples: Examples are Council of Trent, Thomas More, Ignatius of Loyola and the Jesuits, Teresa of Avila, Charles V.

Related Access Points

Name	Description
SS.912.W.4.In.i:	Recognize the reforms that were enacted by the Roman Catholic Church during the Catholic Counter Reformation.
SS.912.W.4.Su.i:	Recognize that reformers challenged the beliefs of the Roman Catholic Church.
SS.912.W.4.Pa.i:	Recognize that people may change their beliefs.

Identify the major contributions of individuals associated with the Scientific Revolution.

[SS.912.W.4.10:](#)

Remarks/Examples:

Examples are Francis Bacon, Nicholas Copernicus, Rene Descartes, Galileo Galilei, Johannes Kepler, Isaac Newton, Blaise Pascal, Vesalius.

Related Access Points

Name	Description
SS.912.W.4.In.j:	Recognize new ideas developed during the Scientific Revolution, such as the discovery that the Earth and planets revolve around the Sun, the pendulum, the law of gravity, the scientific method, and the microscope.
SS.912.W.4.Su.j:	Recognize a new idea developed during the Scientific Revolution, such as the discovery that the Earth and planets revolve around the Sun, the pendulum, the law of gravity, or the microscope.
SS.912.W.4.Pa.j:	Recognize the impact of science on civilization.

[SS.912.W.4.11:](#)

Summarize the causes that led to the Age of Exploration, and identify major voyages and sponsors.

Related Access Points

Name	Description
SS.912.W.4.In.k:	Recognize causes that led to the Age of Exploration, such as the need for new routes and goods to trade.
SS.912.W.4.Su.k:	Recognize why explorers came to the New World, such as to find routes for trade.
SS.912.W.4.Pa.k:	Recognize a cause for exploration.

[SS.912.W.4.12:](#)

Evaluate the scope and impact of the Columbian Exchange on Europe, Africa, Asia, and the Americas.

Related Access Points

Name	Description
SS.912.W.4.In.l:	Recognize impacts of the Columbian Exchange, such as the exchange of agricultural goods, diseases, and ideas between Europe, Africa, and the Americas.
SS.912.W.4.Su.l:	Recognize an impact of the Columbian Exchange, such as the exchange of agricultural goods, diseases, or ideas between Europe, Africa, and the Americas.
SS.912.W.4.Pa.l:	Recognize a cause for exchange of goods.

[SS.912.W.4.13:](#)

Examine the various economic and political systems of Portugal, Spain, the Netherlands, France, and England in the Americas.

Related Access Points

Name	Description
SS.912.W.4.In.m:	Recognize ways the economic and political systems of European countries were used in the Americas.
SS.912.W.4.Su.m:	Recognize that European countries influenced the economic or political systems in the Americas.
SS.912.W.4.Pa.m:	Recognize that people value traditional ways of life.

[SS.912.W.4.14:](#)

Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.

Related Access Points

Name	Description
SS.912.W.4.In.n:	Recognize how the practice of slavery and other forms of forced labor differed in Africa, Europe, and the Americas.
SS.912.W.4.Su.n:	Recognize that slavery and forced labor were used in Africa, Europe, and the Americas.
SS.912.W.4.Pa.n:	Recognize that slaves did not have freedom.

[SS.912.W.4.15:](#)

Explain the origins, developments, and impact of the trans-Atlantic slave trade between West Africa and the Americas.

Related Access Points

Name	Description
SS.912.W.4.In.o:	Recognize how the practice of slavery and other forms of forced labor differed in Africa, Europe, and the Americas.
SS.912.W.4.Su.o:	Recognize that slavery and forced labor were used in Africa, Europe, and the Americas.
SS.912.W.4.Pa.o:	Recognize that slaves did not have freedom.

[SS.912.W.5.1:](#)

Compare the causes and effects of the development of constitutional monarchy in England with those of the development of absolute monarchy in France, Spain, and Russia.

Related Access Points

Name	Description
SS.912.W.5.In.a:	Identify differences between constitutional monarchies and absolute monarchies in Europe.
SS.912.W.5.Su.a:	Recognize that a constitutional government can limit the powers of a king or queen.
SS.912.W.5.Pa.a:	Recognize a king or queen as a leader.

Identify major causes of the Enlightenment.

[SS.912.W.5.2:](#)

Remarks/Examples:

Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.

Related Access Points

Name	Description
SS.912.W.5.In.b:	Recognize influences of the Enlightenment, such as the Renaissance, Scientific Revolution, and Reformation.
SS.912.W.5.Su.b:	Recognize an influence of the Enlightenment, such as the Renaissance, Scientific Revolution, or Reformation.
SS.912.W.5.Pa.b:	Recognize that leaders can influence people.

[SS.912.W.5.3:](#)

Summarize the major ideas of Enlightenment philosophers.

Related Access Points

Name	Description
SS.912.W.5.In.c:	Recognize major ideas of Enlightenment philosophers, such as the importance of a government and natural rights.
SS.912.W.5.Su.c:	Recognize a major idea of Enlightenment philosophers, such as the importance of a government or natural rights.
SS.912.W.5.Pa.c:	Recognize that leaders can influence people.

[SS.912.W.5.4:](#)

Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.

Related Access Points

Name	Description
SS.912.W.5.In.d:	Identify ways the Enlightenment influenced development in the Western World, such as the spread of democracy and equality in politics and religious freedom.
SS.912.W.5.Su.d:	Recognize a way the Enlightenment influenced development in the Western World, such as the spread of democracy and equality in politics or religious freedom.
SS.912.W.5.Pa.d:	Recognize an example of equality and freedom.

[SS.912.W.5.5:](#)

Analyze the extent to which the Enlightenment impacted the American and French Revolutions.

Related Access Points

Name	Description
SS.912.W.5.In.e:	Identify ways the Enlightenment influenced development in the Western World, such as the spread of democracy and equality in politics and religious freedom.
SS.912.W.5.Su.e:	Recognize a way the Enlightenment influenced development in the Western World, such as the spread of democracy and equality in politics or religious freedom.
SS.912.W.5.Pa.e:	Recognize an example of equality and freedom.

[SS.912.W.5.6:](#)

Summarize the important causes, events, and effects of the French Revolution including the rise and rule of Napoleon.

Related Access Points

Name	Description
SS.912.W.5.In.f:	Recognize effects of the French Revolution, including the rise and rule of Napoleon.
SS.912.W.5.Su.f:	Recognize an effect of the French Revolution.
SS.912.W.5.Pa.f:	Recognize an example of equality and freedom.

[SS.912.W.5.7:](#)

Describe the causes and effects of 19th Latin American and Caribbean independence movements led by people including Bolivar, de San Martin, and L' Ouverture.

Related Access Points

Name	Description
SS.912.W.5.In.g:	Recognize effects of the Latin American and Caribbean independence movements.
SS.912.W.5.Su.g:	Recognize that Latin American and Caribbean countries achieved independence.
SS.912.W.5.Pa.g:	Recognize that people fight for freedom.

[SS.912.W.6.1:](#)

Describe the agricultural and technological innovations that led to industrialization in Great Britain and its subsequent spread to continental Europe, the United States, and Japan.

Related Access Points

Name	Description
SS.912.W.6.In.a:	Recognize technological innovations that led to industrialization in Western Europe, the United States, and Japan.
SS.912.W.6.Su.a:	Recognize a technological innovation that led to industrialization in Western Europe, the United States, and Japan.
SS.912.W.6.Pa.a:	Recognize the impact of inventions.

Summarize the social and economic effects of the Industrial Revolution.

[SS.912.W.6.2:](#)

Remarks/Examples:

Examples are urbanization, increased productivity and wealth, rise of the middle class, conditions faced by workers, rise of labor unions, expansion of colonialism.

Related Access Points

Name	Description
SS.912.W.6.In.b:	Recognize effects of the Industrial Revolution, such as increased productivity, the rise of the middle class, and the conditions faced by workers.

[SS.912.W.6.Su.b.](#) Recognize an effect of the Industrial Revolution, such as increased productivity, the rise of the middle class, or the conditions faced by workers.

[SS.912.W.6.Pa.b.](#) Recognize a social or economic benefit of work.

[SS.912.W.6.3:](#) Compare the philosophies of capitalism, socialism, and communism as described by Adam Smith, Robert Owen, and Karl Marx.

Related Access Points

Name	Description
SS.912.W.6.In.c.	Recognize the major differences between capitalism and communism.
SS.912.W.6.Su.c.	Recognize that private individuals or government can own businesses.
SS.912.W.6.Pa.c.	Recognize that businesses are owned by people.

Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America.

[SS.912.W.6.4:](#)

Remarks/Examples:

Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.

Related Access Points

Name	Description
SS.912.W.6.In.d.	Recognize effects of reform movements, such as abolition of slavery in the British Empire, expansion of women's rights, and labor laws.
SS.912.W.6.Su.d.	Recognize an effect of reform movements, such as abolition of slavery in the British Empire, expansion of women's rights, or labor laws.
SS.912.W.6.Pa.d.	Recognize a characteristic of equality and freedom.

[SS.912.W.6.5:](#) Summarize the causes, key events, and effects of the unification of Italy and Germany.

Related Access Points

Name	Description
SS.912.W.6.In.e.	Recognize the effect of the unification of both Italy and Germany, such as the establishment of two countries with strong senses of patriotism and national pride.
SS.912.W.6.Su.e.	Recognize a beneficial effect of the unification of separate nations or states into one country, such as national pride.
SS.912.W.6.Pa.e.	Recognize the benefit of people or countries working together to achieve a goal.

Analyze the causes and effects of imperialism.

[SS.912.W.6.6:](#)

Remarks/Examples:

Examples are social impact on indigenous peoples, the Crimean War, development of the Suez Canal, Spheres of Influence)

Related Access Points

Name	Description
SS.912.W.6.In.f.	Recognize effects of imperialism, such as social and religious impact on indigenous peoples, expansion of political and economic control of other countries, and perceived superiority of Western ways.
SS.912.W.6.Su.f.	Recognize an effect of imperialism, such as social and religious impact on indigenous peoples, expansion of political and economic control of other countries, or perceived superiority of Western ways.
SS.912.W.6.Pa.f.	Recognize a characteristic of domination of one group over another.

Identify major events in China during the 19th and early 20th centuries related to imperialism.

[SS.912.W.6.7:](#)

Remarks/Examples:

Examples are Western incursions, Opium Wars, Taiping and Boxer Rebellions, nationalist revolution.

Related Access Points

Name	Description
SS.912.W.6.In.g.	Recognize major events in China, such as the Western incursions and the nationalist revolution and formation of the Republic of China.
SS.912.W.6.Su.g.	Recognize a major event in China, such as the nationalist revolution and formation of the Republic of China.
SS.912.W.6.Pa.g.	Recognize a cause of change in government.

[SS.912.W.7.1:](#)

Analyze the causes of World War I including the formation of European alliances and the roles of imperialism, nationalism, and militarism.

Related Access Points

Name	Description
SS.912.W.7.In.a.	Recognize major causes of World War I, such as imperialism, nationalism, and militarism, and the formation of European alliances.
SS.912.W.7.Su.a.	Recognize a cause of World War I, such as imperialism, nationalism, militarism, or the formation of European alliances.
SS.912.W.7.Pa.a.	Recognize a reason for forming an alliance.

Describe the changing nature of warfare during World War I.

[SS.912.W.7.2:](#)

Remarks/Examples:

Examples are the impact of industrialization, use of total war, trench warfare, destruction of the physical landscape and human life.

Related Access Points

Name	Description
SS.912.W.7.In.b:	Identify the changing nature of warfare during World War I, such as the use of new weapons and strategies and increased destruction of the land and human life.
SS.912.W.7.Su.b:	Recognize the changing nature of warfare during World War I, such as the use of new weapons and strategies and increased destruction of the land and human life.
SS.912.W.7.Pa.b:	Recognize a characteristic of warfare during World War I.

Summarize significant effects of World War I.

Remarks/Examples:

Examples are collapse of the Romanov dynasty, creation of the Weimar Republic, dissolution of the German, Russian, Austro-Hungarian and Ottoman empires, Armenian Genocide, Balfour Declaration, Treaty of Versailles.

[SS.912.W.7.3:](#)

Related Access Points

Name	Description
SS.912.W.7.In.c:	Recognize the important effects of World War I, such as the breakup of empires into separate countries and the Treaty of Versailles.
SS.912.W.7.Su.c:	Recognize an effect of World War I, such as the breakup of empires into separate countries.
SS.912.W.7.Pa.c:	Recognize an effect of war.

[SS.912.W.7.4:](#)

Describe the causes and effects of the German economic crisis of the 1920s and the global depression of the 1930s, and analyze how governments responded to the Great Depression.

Related Access Points

Name	Description
SS.912.W.7.In.d:	Identify effects of the German economic crisis and global depression, such as closing of businesses and banks, loss of jobs, poverty, and how governments responded.
SS.912.W.7.Su.d:	Recognize effects of the German economic crisis and global depression, such as closing of businesses and banks, loss of jobs, and poverty.
SS.912.W.7.Pa.d:	Recognize an effect of economic depression.

[SS.912.W.7.5:](#)

Describe the rise of authoritarian governments in the Soviet Union, Italy, Germany, and Spain, and analyze the policies and main ideas of Vladimir Lenin, Joseph Stalin, Benito Mussolini, Adolf Hitler, and Francisco Franco.

Related Access Points

Name	Description
SS.912.W.7.In.e:	Recognize why authoritarian governments came to power in the Soviet Union, Italy, Germany, and Spain.
SS.912.W.7.Su.e:	Recognize a reason that authoritarian governments came to power in Europe after the depression.
SS.912.W.7.Pa.e:	Recognize an effect of economic depression.

[SS.912.W.7.6:](#)

Analyze the restriction of individual rights and the use of mass terror against populations in the Soviet Union, Nazi Germany, and occupied territories.

Related Access Points

Name	Description
SS.912.W.7.In.f:	Recognize that the Soviet Union and Nazi Germany used mass terror and restriction of individual rights in order to control their people.
SS.912.W.7.Su.f:	Recognize that some governments used mass terror and restriction of individual rights in order to control their people.
SS.912.W.7.Pa.f:	Recognize an individual right.

[SS.912.W.7.7:](#)

Trace the causes and key events related to World War II.

Related Access Points

Name	Description
SS.912.W.7.In.g:	Recognize the causes of World War II and the major events in the war, such as rise of totalitarian governments, conquest of countries in Europe, and Japanese invasion of China; and the bombing of Pearl Harbor, Battle of Midway, and D-Day invasion.
SS.912.W.7.Su.g:	Recognize a major cause and event of World War II, such as expansion of control of dictators and bombing of Pearl Harbor.
SS.912.W.7.Pa.g:	Recognize a characteristic of world wars.

[SS.912.W.7.8:](#)

Explain the causes, events, and effects of the Holocaust (1933-1945) including its roots in the long tradition of anti-Semitism, 19th century ideas about race and nation, and Nazi dehumanization of the Jews and other victims.

Related Access Points

Name	Description
SS.912.W.7.In.h:	Recognize major effects of the Holocaust, including the Nazi dehumanization of Jews and other victims.
SS.912.W.7.Su.h:	Recognize an effect of the Holocaust, including the Nazi dehumanization of Jews and other victims.
SS.912.W.7.Pa.h:	Recognize a characteristic of discrimination.

Identify the wartime strategy and post-war plans of the Allied leaders.

[SS.912.W.7.9:](#)

Remarks/Examples:
Examples are Churchill, Roosevelt, Stalin.

Related Access Points

Name	Description
SS.912.W.7.In.i:	Recognize the wartime strategies and post-war plans that were developed by the Allied leaders, such as Churchill, Roosevelt, and Stalin.
SS.912.W.7.Su.i:	Recognize that Allied leaders worked together to plan wartime strategies and create plans after World War II.
SS.912.W.7.Pa.i:	Recognize that leaders work together during and after war.

[SS.912.W.7.10:](#)

Summarize the causes and effects of President Truman's decision to drop the atomic bombs on Japan.

Related Access Points

Name	Description
SS.912.W.7.In.j:	Recognize that President Truman's decision to drop the atomic bombs on Japan ended the war but led to the beginning of the nuclear arms race.
SS.912.W.7.Su.j:	Recognize that the United States dropped atomic bombs on Japan and ended the war.
SS.912.W.7.Pa.j:	Recognize a characteristic of warfare during World War II.

Describe the effects of World War II.

[SS.912.W.7.11:](#)

Remarks/Examples:
Examples are human toll, financial cost, physical destruction, emergence of the United States and Soviet Union as superpowers, creation of the United Nations.

Related Access Points

Name	Description
SS.912.W.7.In.k:	Recognize effects of World War II, such as death of soldiers and civilians, destruction of land and property, and creation of the United Nations.
SS.912.W.7.Su.k:	Recognize an effect of World War II, such as death of soldiers and civilians or the creation of the United Nations.
SS.912.W.7.Pa.k:	Recognize an effect of war.

[SS.912.W.8.1:](#)

Identify the United States and Soviet aligned states of Europe, and contrast their political and economic characteristics.

Related Access Points

Name	Description
SS.912.W.8.In.a:	Recognize that the countries of NATO aligned with the United States and countries in the Warsaw Pact aligned with the Soviet Union after World War II.
SS.912.W.8.Su.a:	Recognize that countries aligned with the United States or the Soviet Union after World War II.
SS.912.W.8.Pa.a:	Recognize a characteristic of an alliance.

Describe characteristics of the early Cold War.

[SS.912.W.8.2:](#)

Remarks/Examples:
Examples are containment policy, Truman Doctrine, Marshall Plan, NATO, Iron Curtain, Berlin Airlift, Warsaw Pact.

Related Access Points

Name	Description
SS.912.W.8.In.b:	Identify characteristics of the early Cold War, such as the Truman Doctrine, Marshall Plan, NATO, and the Iron Curtain.
SS.912.W.8.Su.b:	Recognize characteristics of the early Cold War, such as fear of communism, formation of alliances, and division of the free world from the communists.
SS.912.W.8.Pa.b:	Recognize a characteristic of an alliance.

Summarize key developments in post-war China.

[SS.912.W.8.3:](#)

Remarks/Examples:
Examples are Chinese Civil War, communist victory, Great Leap Forward, Cultural Revolution, China's subsequent rise as a world power.

Related Access Points

Name	Description
SS.912.W.8.In.c:	Identify that China became a world power after the communists defeated the nationalists in the Chinese Civil War.
SS.912.W.8.Su.c:	Recognize that China became a world power after the communists took over the government.
SS.912.W.8.Pa.c:	Recognize a result of change in government.

[SS.912.W.8.4:](#)

Summarize the causes and effects of the arms race and proxy wars in Africa, Asia, Latin America, and the Middle East.

Related Access Points

Name	Description
SS.912.W.8.In.d:	Identify effects of the arms race, such as increased weapons and armies.
SS.912.W.8.Su.d:	Recognize effects of the arms race, such as increased weapons and armies.
SS.912.W.8.Pa.d:	Recognize a characteristic of national defense.

Identify the factors that led to the decline and fall of communism in the Soviet Union and Eastern Europe.

[SS.912.W.8.5:](#)

Remarks/Examples:

Examples are the arms race, Soviet invasion of Afghanistan, growing internal resistance to communism, perestroika and glasnost, United States influence.

Related Access Points

Name	Description
SS.912.W.8.In.e:	Recognize factors that led to the fall of communism in the Soviet Union and Eastern Europe, such as the arms race and resistance by the citizens within the countries.
SS.912.W.8.Su.e:	Recognize a factor that led to the fall of communism in the Soviet Union and Eastern Europe was the resistance by the citizens within the countries.
SS.912.W.8.Pa.e:	Recognize that government can change.

[SS.912.W.8.6:](#)

Explain the 20th century background for the establishment of the modern state of Israel in 1948 and the ongoing military and political conflicts between Israel and the Arab-Muslim world.

Related Access Points

Name	Description
SS.912.W.8.In.f:	Recognize a reason why Israel became a country and characteristics of conflicts between Israel and the Arab world.
SS.912.W.8.Su.f:	Recognize a reason why Israel became a country.
SS.912.W.8.Pa.f:	Recognize a characteristic of national independence.

[SS.912.W.8.7:](#)

Compare post-war independence movements in African, Asian, and Caribbean countries.

Related Access Points

Name	Description
SS.912.W.8.In.g:	Identify post-war independence movements in African, Asian, or Caribbean colonies.
SS.912.W.8.Su.g:	Recognize that African, Asian, and Caribbean colonies moved toward independence after World War II.
SS.912.W.8.Pa.g:	Recognize a characteristic of national independence.

Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies.

[SS.912.W.8.8:](#)

Remarks/Examples:

Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.

Related Access Points

Name	Description
SS.912.W.8.In.h:	Recognize the goals of nationalist leaders, such as Mahatma Ghandi, Fidel Castro, and Gamal Abdel Nasser, in the post-war era.
SS.912.W.8.Su.h:	Recognize a goal of selected nationalist leaders, such as Mahatma Ghandi, Fidel Castro, and Gamal Abdel Nasser, in the post-war era.
SS.912.W.8.Pa.h:	Recognize a characteristic of leadership.

[SS.912.W.8.9:](#)

Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America.

Related Access Points

Name	Description
SS.912.W.8.In.i:	Identify post-war independence movements in African, Asian, or Caribbean colonies.
SS.912.W.8.Su.i:	Recognize that African, Asian, and Caribbean colonies moved toward independence after World War II.
SS.912.W.8.Pa.i:	Recognize a characteristic of national independence.

Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades.

[SS.912.W.8.10:](#)

Remarks/Examples:

Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.

Related Access Points

Name	Description
SS.912.W.8.In.j:	Recognize impacts of religious fundamentalism and other factors in the Middle East, such as the Iranian Revolution, armed warriors (Mujahideen) in Afghanistan, and the Persian Gulf War.
SS.912.W.8.Su.j:	Recognize an impact of religious fundamentalism or other factors in the Middle East, such as the Iranian Revolution, armed warriors (Mujahideen) in Afghanistan, or the Persian Gulf War.
SS.912.W.8.Pa.j:	Recognize a cause of conflict.

Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life.

[SS.912.W.9.1:](#)

Remarks/Examples:

Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.

Related Access Points

Name	Description
SS.912.W.9.In.a:	Recognize selected major scientists, their important discoveries, and their impact on everyday life.
SS.912.W.9.Su.a:	Recognize a selected major scientist, the important discovery, and the impact on everyday life.
SS.912.W.9.Pa.a:	Recognize an effect of scientific discovery.

Describe the causes and effects of post-World War II economic and demographic changes.

[SS.912.W.9.2:](#)

Remarks/Examples:

Examples are medical and technological advances, free market economics, increased consumption of natural resources and goods, rise in expectations for standards of living.

Related Access Points

Name	Description
SS.912.W.9.In.b:	Recognize effects of post-World War II economic changes, such as medical and technological advances, increased consumption, and rise in expectations for standards of living.
SS.912.W.9.Su.b:	Recognize an effect of post-World War II economic changes, such as medical and technological advances, increased consumption, or rise in expectations for standards of living.
SS.912.W.9.Pa.b:	Recognize an effect of economic growth.

Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.

[SS.912.W.9.3:](#)

Remarks/Examples:

Examples are prejudice, racism, stereotyping, economic competition.

Related Access Points

Name	Description
SS.912.W.9.In.c:	Recognize that governmental policies and economic, religious, and other cultural factors have contributed to acts of discrimination and ethnic cleansing (genocide) in some countries.
SS.912.W.9.Su.c:	Recognize that different factors have contributed to acts of discrimination and ethnic cleansing (genocide) in some countries.
SS.912.W.9.Pa.c:	Recognize an effect of discrimination.

Describe the causes and effects of twentieth century nationalist conflicts.

[SS.912.W.9.4:](#)

Remarks/Examples:

Examples are Cyprus, Kashmir, Tibet, Northern Ireland.

Related Access Points

Name	Description
SS.912.W.9.In.d:	Recognize that governmental policies and economic, religious, and other cultural factors have contributed to acts of discrimination and ethnic cleansing (genocide) in some countries.
SS.912.W.9.Su.d:	Recognize that different factors have contributed to acts of discrimination and ethnic cleansing (genocide) in some countries.
SS.912.W.9.Pa.d:	Recognize an effect of discrimination.

[SS.912.W.9.5:](#)

Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.

Related Access Points

Name	Description
SS.912.W.9.In.e:	Identify the impacts of the spread of diseases on groups in developing countries.
SS.912.W.9.Su.e:	Recognize the impacts of the spread of diseases on groups in developing countries.
SS.912.W.9.Pa.e:	Recognize that diseases can spread.

[SS.912.W.9.6:](#)

Analyze the rise of regional trade blocs such as the European Union and NAFTA, and predict the impact of increased globalization in the 20th and 21st centuries.

Related Access Points

Name	Description
SS.912.W.9.In.f:	Recognize ways nations participate in global trade and trade agreements with other countries.
SS.912.W.9.Su.f:	Recognize a way a nation participates in global trade and trade agreements with other countries.
SS.912.W.9.Pa.f:	Recognize a characteristic of global trade.

[SS.912.W.9.7:](#)

Describe the impact of and global response to international terrorism.

Related Access Points

Name	Description
SS.912.W.9.In.g:	Recognize selected impacts and responses to threats of international terrorism.
SS.912.W.9.Su.g:	Recognize an impact and response to threats of international terrorism.
SS.912.W.9.Pa.g:	Recognize a characteristic of terrorism.

[SS.912.G.1.1:](#)

Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.

Related Access Points

Name	Description
SS.912.G.1.In.a:	Create maps using technology to show physical and cultural attributes of a major world region.
SS.912.G.1.Su.a:	Create maps using technology to show physical or cultural attributes of a region.
SS.912.G.1.Pa.a:	Use technology to complete a map to show a physical or cultural attribute of a location.

[SS.912.G.1.2:](#)

Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.

Related Access Points

Name	Description
SS.912.G.1.In.b:	Use spatial perspective and appropriate geographic terms and tools to organize and identify information about a location.
SS.912.G.1.Su.b:	Use spatial perspective and appropriate geographic terms and tools to identify information about a location.
SS.912.G.1.Pa.b:	Associate terms used by geographers with places, people, or the environment.

[SS.912.G.1.3:](#)

Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.

Related Access Points

Name	Description
SS.912.G.1.In.c:	Use applicable units of measurement and scale to determine the distance between two places on a map or globe to solve simple problems.
SS.912.G.1.Su.c:	Use applicable units of measurement to identify the distance between two places on a map to solve simple problems.
SS.912.G.1.Pa.c:	Use positional words to identify a relative location on a map.

Identify the physical characteristics and the human characteristics that define and differentiate regions.

[SS.912.G.2.1:](#)

Remarks/Examples: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.

Related Access Points

Name	Description
SS.912.G.2.In.a:	Identify physical characteristics—such as climate and terrain, and human elements—such as religion and economy, that explain settlement patterns in the United States regions over time.
SS.912.G.2.Su.a:	Recognize physical characteristics—such as climate and terrain, and human elements—such as religion and economy, that affected where people settled in the United States.
SS.912.G.2.Pa.a:	Recognize the effect of a physical characteristic of a place on people.

[SS.912.G.2.2:](#)

Describe the factors and processes that contribute to the differences between developing and developed regions of the world.

Related Access Points

Name	Description
SS.912.G.2.In.b:	Recognize factors and processes that contribute to differences between developing and developed regions of the world.
SS.912.G.2.Su.b:	Recognize a factor that contributes to differences between developing and developed regions of the world.
SS.912.G.2.Pa.b:	Recognize a characteristic of development.

Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.

[SS.912.G.2.3:](#)

Remarks/Examples: Examples are desertification, global warming, cataclysmic natural disasters.
--

Related Access Points

Name	Description
SS.912.G.2.In.c:	Use geographic terms and tools to describe areas of the world that have experienced critical economic or physical changes, such as desertification, global warming, or natural disasters.
SS.912.G.2.Su.c:	Use geographic tools to identify areas in the world that have experienced a critical economic or physical change, such as desertification, global warming, or natural disasters.
SS.912.G.2.Pa.c:	Recognize a change in a place due to a natural disaster or other event in the world.

[SS.912.G.4.1:](#)

Interpret population growth and other demographic data for any given place.

Related Access Points

Name	Description
SS.912.G.4.In.a:	Identify changes in population for selected places.
SS.912.G.4.Su.a:	Recognize changes in population for selected places.
SS.912.G.4.Pa.a:	Recognize that change is a characteristic of population.

[SS.912.G.4.2:](#) Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.

Related Access Points

Name	Description
SS.912.G.4.In.b:	Use geographic terms and tools to describe the push/pull factors contributing to human migration.
SS.912.G.4.Su.b:	Use geographic terms and tools to identify the push/pull factors contributing to human migration.
SS.912.G.4.Pa.b:	Recognize a cause of migration.

[SS.912.G.4.3:](#) Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.

Related Access Points

Name	Description
SS.912.G.4.In.c:	Use geographic terms and tools to examine effects of migration on the place of origin and destination.
SS.912.G.4.Su.c:	Use geographic terms and tools to identify an effect of migration on the place of origin and destination.
SS.912.G.4.Pa.c:	Recognize an effect of migration.

[SS.912.G.4.7:](#) Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.

Related Access Points

Name	Description
SS.912.G.4.In.g:	Use geographic terms and tools to identify characteristics of cultural diffusion throughout selected places, regions, and the world.
SS.912.G.4.Su.g:	Use geographic terms and tools to recognize characteristics of cultural diffusion throughout selected places, regions, and the world.
SS.912.G.4.Pa.g:	Use a geographic term, such as movement, to recognize a change in the population of a place.

[SS.912.G.4.9:](#) Use political maps to describe the change in boundaries and governments within continents over time.

Related Access Points

Name	Description
SS.912.G.4.In.i:	Use political maps to identify changes in boundaries or governments within a continent.
SS.912.G.4.Su.i:	Use political maps to recognize changes in boundaries or governments within a continent.
SS.912.G.4.Pa.i:	Use maps to recognize changes in boundaries.

Relate works in the arts to various cultures.

[SS.912.H.1.3:](#)

Remarks/Examples:
Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.

Related Access Points

Name	Description
SS.912.H.1.In.c:	Identify works in the arts from various cultures, such as African, Asian, European, the Americas, and Middle Eastern.
SS.912.H.1.Su.c:	Recognize works in the arts from various cultures, such as African, Asian, the Americas, and Middle Eastern.
SS.912.H.1.Pa.c:	Recognize a characteristic of a work in the arts from a time period.

[SS.912.H.3.1:](#) Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.

Related Access Points

Name	Description
SS.912.H.3.In.a:	Identify effects of transportation, trade, communication, science, and technology on the preservation of a culture and its diffusion to other locations.
SS.912.H.3.Su.a:	Recognize an effect of transportation, trade, communication, science, or technology on the diffusion of a culture to another location.
SS.912.H.3.Pa.a:	Recognize that communication helps spread ideas to other cultures.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

[LAFS.910.SL.1.1:](#)

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker's point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker's point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.RH.1.1:](#)

Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.

[LAFS.910.RH.1.2:](#)

Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.

[LAFS.910.RH.1.3:](#)

Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.

[LAFS.910.RH.2.4:](#)

Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.

[LAFS.910.RH.2.5:](#)

Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.

[LAFS.910.RH.2.6:](#)

Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.

[LAFS.910.RH.3.7:](#)

Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.

[LAFS.910.RH.3.8:](#)

Assess the extent to which the reasoning and evidence in a text support the author's claims.

[LAFS.910.RH.3.9:](#)

Compare and contrast treatments of the same topic in several primary and secondary sources.

[LAFS.910.RH.4.10:](#)

By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.

[LAFS.910.WHST.1.1:](#)

Write arguments focused on discipline-specific content.

- Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.
- Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.
- Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- Provide a concluding statement or section that follows from or supports the argument presented.

[LAFS.910.WHST.1.2:](#)

Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

- Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.
- Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.
- Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.

f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

Make sense of problems and persevere in solving them.

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

[MAFS.K12.MP.1.1:](#)

Construct viable arguments and critique the reasoning of others.

Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

[MAFS.K12.MP.3.1:](#)

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

[MAFS.K12.MP.5.1:](#)

Attend to precision.

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

[MAFS.K12.MP.6.1:](#)

Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

[HE.912.C.2.4:](#)

Remarks/Examples:

Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

Related Access Points

Name	Description
HE.912.C.2.In.d:	Describe how public-health policies and government regulations can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Su.d:	Identify ways school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and reporting communicable diseases.
HE.912.C.2.Pa.d:	Recognize ways selected school and public-health policies can influence health promotion and disease prevention, such as enforcing seat-belt laws, preventing underage alcohol sales, and assessing health status.

Fundamental World History (#7921030)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7921030
Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas >
Course Section: Exceptional Student Education
Number of Credits: One credit (1)
Course Status: Draft - Course Pending Approval
Abbreviated Title: FUND WORLD HISTORY

GENERAL NOTES

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

World History 9-12 Course – The grade 9-12 World History course consists of the following content area strands: World History, Geography and Humanities. This course is a continued in-depth study of the history of civilizations and societies from the middle school course, and includes the history of civilizations and societies of North and South America. Students will be exposed to historical periods leading to the beginning of the 21st Century. So that students can clearly see the relationship between cause and effect in historical events, students should have the opportunity to review those fundamental ideas and events from ancient and classical civilizations.

Mathematics Benchmark Guidance – Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes: Instructional Strategies

1. Utilize UDL strategies when planning lessons for all students.
2. Ensure that students have accessible instructional materials.
3. Ensure that students read from text that varies in length and complexity.
4. Provide graphic organizers and instruct students on how to use them properly to support understanding of concepts.
5. Use rubrics for assignments that clearly outline expectations for students.
6. Make close reading and rereading of texts central to lessons and provide guided practice and immediate feedback in how to do this.
7. Provide multiple opportunities to practice new vocabulary.
8. Provide explicit instruction in how students can locate evidence from text to support their answers.
9. Provide extensive research and writing opportunities (claims and evidence) based on student interest.
10. Provide students with outlines that assist them in note taking during teacher-led instruction.
11. Teach students to utilize appropriate graphic organizers or organize thoughts when planning for writing assignments.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

NEXT GENERATION SUNSHINE STATE STANDARDS

SS.912.W - World History

Standard 1: Utilize historical inquiry skills and analytical processes.

Standard 2: Recognize significant events, figures, and contributions of medieval civilizations (Byzantine Empire, Western Europe, Japan).

Standard 3: Recognize significant events, figures, and contributions of Islamic, Meso and South American, and Sub-Saharan African civilizations.

Standard 4: Analyze the causes, events, and effects of the Renaissance, Reformation, Scientific Revolution, and Age of Exploration.

Standard 5: Analyze the causes, events, and effects of the Enlightenment and its impact on the American, French and other Revolutions.

Standard 6: Understand the development of Western and non-Western nationalism, industrialization and imperialism, and the significant processes and consequences of each.

Standard 7: Recognize significant causes, events, figures, and consequences of the Great War period and the impact on worldwide balance of power.

Standard 8: Recognize significant events and people from the post World War II and Cold War eras.

Standard 9: Identify major economic, political, social, and technological trends beginning in the 20th century.

SS.912.G - Geography

Standard 1: Understand how to use maps and other geographic representations, tools, and technology to report information.

Standard 2: Understand physical and cultural characteristics of places.

Standard 4: Understand the characteristics, distribution, and migration of human populations.

Name	Description
LAFS.910.SL.1.1:	<p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.</p> <ol style="list-style-type: none">Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

GENERAL NOTES

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

United States History (U.S. History) 9-12 Course – The grade 9-12 United States History course consists of the following content area strands: United States History, Geography, and Humanities. The primary content emphasis for this course pertains to the study of United States history from Reconstruction to the present day. Students will be exposed to the historical, geographic, political, economic, and sociological events which influenced the development of the United States and the resulting impact on world history. So that students can clearly see the relationship between cause and effect in historical events, students should have the opportunity to review those fundamental ideas and events which occurred before the end of Reconstruction.

Mathematics Benchmark Guidance – Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes: Instructional Strategies

1. Utilize UDL strategies when planning lessons for all students.
2. Ensure that students have accessible instructional materials.
3. Ensure that students read from text that varies in length and complexity.
4. Provide graphic organizers and instruct students on how to use them properly to support understanding of concepts.
5. Use rubrics for assignments that clearly outline expectations for students.
6. Make close reading and rereading of texts central to lessons and provide guided practice and immediate feedback in how to do this.
7. Provide multiple opportunities to practice new vocabulary.
8. Provide explicit instruction in how students can locate evidence from text to support their answers.
9. Provide extensive research and writing opportunities (claims and evidence) based on student interest.
10. Provide students with outlines that assist them in note taking during teacher-led instruction.
11. Teach students to utilize appropriate graphic organizers or organize thoughts when planning for writing assignments.

Additional content that may be contained in the NAEP Grade 12 United States History assessment includes material from all time periods on the following topics:

- Change and Continuity in American Democracy: Ideas, Institutions, Events, Key Figures, and Controversies
- The Gathering and Interactions of Peoples, Cultures, and Ideas
- Economic and Technological Changes and Their Relationship to Society, Ideas, and the Environment
- The Changing Role of America in the World

The NAEP frameworks for United States History may be accessed at <http://www.nagb.org/content/nagb/assets/documents/publications/frameworks/historyframework.pdf>

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. Course Standards

SS.912.A - American History

- Standard 1: Use research and inquiry skills to analyze American history using primary and secondary sources.
- Standard 2: Understand the causes, course, and consequences of the Civil War and Reconstruction and its effects on the American people.
- Standard 3: Analyze the transformation of the American economy and the changing social and political conditions in response to the Industrial Revolution.
- Standard 4: Demonstrate an understanding of the changing role of the United States in world affairs through the end of World War I.
- Standard 5: Analyze the effects of the changing social, political, and economic conditions of the Roaring Twenties and the Great Depression.
- Standard 6: Understand the causes and course of World War II, the character of the war at home and abroad, and its reshaping of the United States role in the post-war world.
- Standard 7: Understand the rise and continuing international influence of the United States as a world leader and the impact of contemporary social and political movements on American life.

SS.912.G - Geography

- Standard 1: Understand how to use maps and other geographic representations, tools, and technology to report information.
- Standard 2: Understand physical and cultural characteristics of places.
- Standard 4: Understand the characteristics, distribution, and migration of human populations.

Name	Description
LAFS.910.SL.1.1:	<p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.</p> <ul style="list-style-type: none"> a. LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

[MAFS.K12.MP.5.1:](#)

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AA.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Social Studies.

Fundamental Economics (#7921040)

This document was generated on CPALMS - www.cpalms.org

The course was/will be terminated at the end of Year 2013 - 2014

Course Number: 7921040	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Half credit (.5)	Abbreviated Title: FUND ECONOMICS
Course Status: Terminated	Course Length: Semester (S)
Grade Level(s) Version: 9,10,11,12	Class Size? Yes
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Economics - The grade 9-12 Economics course consists of the following content area strands: Economics and Geography. The primary content emphasis for this course pertains to the study of the concepts and processes of the national and international economic systems. Content should include, but is not limited to, currency, banking, and monetary policy, the fundamental concepts relevant to the major economic systems, the global market and economy, major economic theories and economists, the role and influence of the government and fiscal policies, economic measurements, tools, and methodology, financial and investment markets, and the business cycle.

Mathematics Benchmark Guidance – Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes: Instructional Strategies

1. Utilize UDL strategies when planning lessons for all students.
2. Ensure that students have accessible instructional materials.
3. Ensure that students read from text that varies in length and complexity.
4. Provide graphic organizers and instruct students on how to use them properly to support understanding of concepts.
5. Use rubrics for assignments that clearly outline expectations for students.
6. Make close reading and rereading of texts central to lessons and provide guided practice and immediate feedback in how to do this.
7. Provide multiple opportunities to practice new vocabulary.
8. Provide explicit instruction in how students can locate evidence from text to support their answers.
9. Provide extensive research and writing opportunities (claims and evidence) based on student interest.
10. Provide students with outlines that assist them in note taking during teacher-led instruction.
11. Teach students to utilize appropriate graphic organizers or organize thoughts when planning for writing assignments.

Additional content that may be contained in the NAEP Grade 12 United States History assessment includes material from all time periods on the following topics:

- Change and Continuity in American Democracy: Ideas, Institutions, Events, Key Figures, and Controversies
- The Gathering and Interactions of Peoples, Cultures, and Ideas
- Economic and Technological Changes and Their Relationship to Society, Ideas, and the Environment
- The Changing Role of America in the World

The NAEP frameworks for United States History may be accessed at <http://www.nagb.org/content/nagb/assets/documents/publications/frameworks/historyframework.pdf>

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

NEXT GENERATION SUNSHINE STATE STANDARDS

SS.912.E - Economics

Standard 1: Understand the fundamental concepts relevant to the development of a market economy.

Standard 2: Understand the fundamental concepts relevant to the institutions, structure, and functions of a national economy.

Standard 3: Understand the fundamental concepts and interrelationships of the United States economy in the international marketplace.

SS.912.G - Geography

Standard 2: Understand physical and cultural characteristics of places.

Standard 3: Understand the relationships between the Earth's ecosystems and the populations that dwell within them.

Standard 4: Understand the characteristics, distribution, and migration of human populations.

Name	Description
SS.912.E.1.1:	Identify the factors of production and why they are necessary for the production of goods and services. Remarks/Examples: Examples are land, labor, capital, entrepreneurship.
SS.912.E.1.2:	Analyze production possibilities curves to explain choice, scarcity, and opportunity costs.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?; (2) How to produce?; and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.
SS.912.E.1.5:	Compare different forms of business organizations. Remarks/Examples: Examples are sole proprietorship, partnership, corporation, limited liability corporation.
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).
SS.912.E.1.7:	Graph and explain how firms determine price and output through marginal cost analysis.
SS.912.E.1.8:	Explain ways firms engage in price and nonprice competition.
SS.912.E.1.9:	Describe how the earnings of workers are determined. Remarks/Examples: Examples are minimum wage, the market value of the product produced, workers' productivity.
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.12:	Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).
SS.912.E.1.13:	Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.1.15:	Describe the risk and return profiles of various investment vehicles and the importance of diversification. Remarks/Examples: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.
SS.912.E.1.16:	Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item. Remarks/Examples: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.

	Identify and explain broad economic goals.
SS.912.E.2.1:	Remarks/Examples: Examples are freedom, efficiency, equity, security, growth, price stability, full employment.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.3:	Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
	Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls.
SS.912.E.2.4:	Remarks/Examples: Examples are shortage, surplus, other inefficiencies.
	Analyze how capital investments may impact productivity and economic growth.
SS.912.E.2.5:	Remarks/Examples: Examples are factories, machinery, technology, people.
	Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies.
SS.912.E.2.6:	Remarks/Examples: Examples are electric, water, cable, waste management.
SS.912.E.2.7:	Identify the impact of inflation on society.
	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive).
SS.912.E.2.8:	Remarks/Examples: Examples are income, sales, social security.
SS.912.E.2.9:	Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt.
SS.912.E.2.10:	Describe the organization and functions of the Federal Reserve System.
	Assess the economic impact of negative and positive externalities on the local, state, and national environment.
SS.912.E.2.11:	Remarks/Examples: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.2.12:	Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade.
	Demonstrate the impact of inflation on world economies.
SS.912.E.3.1:	Remarks/Examples: Examples are oil prices, 1973 oil crisis, Great Depression, World War II.
SS.912.E.3.2:	Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage.
	Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones.
SS.912.E.3.3:	Remarks/Examples: Examples are NAFTA, CAFTA. Examples are quotas, tariffs.
	Assess the economic impact of negative and positive externalities on the international environment.
SS.912.E.3.4:	Remarks/Examples: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
	Compare the current United States economy with other developed and developing nations.
SS.912.E.3.5:	Remarks/Examples: Examples are standard of living, exchange rates, productivity, gross domestic product.
	Differentiate and draw conclusions about historical economic thought theorized by economists.
SS.912.E.3.6:	Remarks/Examples: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.3.3:	Use geographic terms and tools to explain differing perspectives on the use of renewable and non-renewable resources in Florida, the United States, and the world.
	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
LAFS.910.SL.1.1:	<ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.1112.SL.1.1:	<p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.</p> <ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.
LAFS.1112.SL.1.2:	Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
LAFS.1112.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
LAFS.1112.SL.2.4:	Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines faction in Federalist No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
LAFS.910.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <ol style="list-style-type: none"> Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
	<p>Write arguments focused on discipline-specific content.</p> <ol style="list-style-type: none"> Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns,

LAFS.1112.WHST.1.1:	<p>values, and possible biases.</p> <p>c. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.</p> <p>d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>e. Provide a concluding statement or section that follows from or supports the argument presented.</p>
LAFS.1112.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <p>a. Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.</p> <p>b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.</p> <p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.</p> <p>d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).</p>
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>
MAFS.K12.MP.5.1:	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

Remarks/Examples:

Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AA.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Social Studies.

There are more than 511 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12930>

Fundamental Economics with Financial Literacy (#7921042)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7921042	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Academics - Subject Areas >
Course Section: Exceptional Student Education	Abbreviated Title: FUND ECONOMICS WITH FIN LIT
Number of Credits: Half credit (.5)	Course Length: Semester (S)
Course Type: Core	
Course Status: Draft - Course Pending Approval	Class Size? Yes
Keywords: Fundamental, Economics, Financial, Literacy, ESE, 9-12, special education	
Grade Level(s): 9, 10, 11, 12	Grade Level(s) Version: 9,10,11,12
NCLB? Yes	
	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

Economics - The grade 9-12 Economics course consists of the following content area strands: Economics and Geography. The primary content emphasis for this course pertains to the study of the concepts and processes of the national and international economic systems. Content should include, but is not limited to, currency, banking, and monetary policy, the fundamental concepts relevant to the major economic systems, the global market and economy, major economic theories and economists, the role and influence of the government and fiscal policies, economic measurements, tools, and methodology, financial and investment markets, and the business cycle.

Mathematics Benchmark Guidance – Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes: Instructional Strategies

1. Utilize UDL strategies when planning lessons for all students.
2. Ensure that students have accessible instructional materials.
3. Ensure that students read from text that varies in length and complexity.
4. Provide graphic organizers and instruct students on how to use them properly to support understanding of concepts.
5. Use rubrics for assignments that clearly outline expectations for students.
6. Make close reading and rereading of texts central to lessons and provide guided practice and immediate feedback in how to do this.
7. Provide multiple opportunities to practice new vocabulary.
8. Provide explicit instruction in how students can locate evidence from text to support their answers.
9. Provide extensive research and writing opportunities (claims and evidence) based on student interest.
10. Provide students with outlines that assist them in note taking during teacher-led instruction.
11. Teach students to utilize appropriate graphic organizers or organize thoughts when planning for writing assignments.

Additional content that may be contained in the NAEP Grade 12 United States History assessment includes material from all time periods on the following topics:

- Change and Continuity in American Democracy: Ideas, Institutions, Events, Key Figures, and Controversies
- The Gathering and Interactions of Peoples, Cultures, and Ideas
- Economic and Technological Changes and Their Relationship to Society, Ideas, and the Environment
- The Changing Role of America in the World

The NAEP frameworks for United States History may be accessed at <http://www.nagb.org/content/nagb/assets/documents/publications/frameworks/historyframework.pdf>
English Language Development ELD Standards Special Notes Section: Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>. For additional information on the development and implementation of the ELD standards, please

Course Standards

Name	Description
	Explain the difference between simple and compound interest.
MA.912.F.1.1:	<p>Remarks/Examples: Example: Compare the <u>similarities</u> and differences for calculating the final amount of money in your savings account based on simple interest or <u>compound interest</u>.</p>
	Analyze credit scores and reports.
MA.912.F.3.2:	<p>Remarks/Examples: Example: Explain how each of the following categories affects a credit score: 1) past payment history, 2) amount of debt, 3) public records information, 4) <u>length</u> of credit history, and 5) the number of recent credit inquiries.</p>
	Calculate the finance charges and total amount due on a credit card bill.
MA.912.F.3.3:	<p>Remarks/Examples: Example: Calculate the finance charge each month and the total amount paid for 5 months if you charged \$500 on your credit card but you can only afford to pay \$100 each month. Your credit card has a monthly periodic finance <u>rate</u> of .688% and an annual finance <u>rate</u> of 8.9%.</p>
	Compare the advantages and disadvantages of deferred payments.
MA.912.F.3.4:	<p>Remarks/Examples: Example: Compare paying on a college loan between a Stafford loan or a PLUS loan two years after graduation</p>
	Calculate deferred payments.
MA.912.F.3.5:	<p>Remarks/Examples: Example: You want to buy a sofa that cost \$899. Company A will let you pay \$100 down and then pay the remaining amount over 3 years at 22% interest. Company B will not make you pay a down payment and they will defer payments for one year. However, you will accrue interest at a <u>rate</u> of 20 % interest during that first year. Starting the second year you will have to pay the new amount for 2 years at a <u>rate</u> of 26 % interest. Which deal is better and why? Calculate the total amount paid for both deals. Example: An electronics company advertises that you don't have to pay anything for 2 years. If you bought a big screen TV for \$2999 on January 1st what would your balance be two years later if you haven't made any payments assuming an interest <u>rate</u> of 23.99%? What would your monthly payments be to pay the TV off in 2 years? What did the TV really cost you?</p>
	Develop personal budgets that fit within various income brackets.
MA.912.F.4.1:	<p>Remarks/Examples: Example: Develop a budget worksheet that includes typical expenses such as housing, transportation, utilities, food, medical expenses, and miscellaneous expenses. Add categories for savings toward your own financial goals, and determine the monthly income needed, before taxes, to meet the requirements of your budget.</p>
	Calculate net worth.
MA.912.F.4.3:	<p>Remarks/Examples: Example: Jose is trying to prepare a balance sheet for the end of the year. His balances and details for the year are given in the <u>table</u> below. Write a balance sheet of Jose's liabilities and assets, and compute his <u>net</u> worth.</p>
	Establish a plan to pay off debt.
MA.912.F.4.4:	<p>Remarks/Examples: Example: Suppose you currently have a balance of \$4500 on a credit card that charges 18% annual interest. What monthly payment would you have to make in order to pay off the card in 3 years, assuming you do not make any more charges to the card?</p>
MA.912.F.4.6:	Compare different insurance options and fees.
	Collect, organize, and interpret data to determine an effective retirement savings plan to meet personal financial goals.
MA.912.F.4.8:	<p>Remarks/Examples: Example: Investigate historical <u>rates</u> of return for stocks, bonds, savings accounts, mutual funds, as well as the relative risks for each type of investment. Organize your results in a <u>table</u> showing the relative returns and risks of each type of investment over short and long terms, and use these data to determine a combination of investments suitable for building a retirement account sufficient to meet anticipated financial needs.</p>
	Given current exchange rates be able to convert from one form of currency to another.
MA.912.F.4.13:	<p>Remarks/Examples: Example: Suppose you are traveling in Europe, and while there you withdraw 150 Euros to pay for expenses. If the exchange <u>rate</u> at the time was \$1.27 per Euro, how much money (in dollars) was charged to your bank account?</p>
	Identify the factors of production and why they are necessary for the production of goods and services.
SS.912.E.1.1:	<p>Remarks/Examples: Examples are land, labor, capital, entrepreneurship.</p>
SS.912.E.1.2:	Analyze production possibilities curves to explain choice, scarcity, and opportunity costs.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?; (2) How to produce?; and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.
	Compare different forms of business organizations.

SS.912.E.1.5:	Remarks/Examples: Examples are sole proprietorship, partnership, corporation, limited liability corporation.
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).
SS.912.E.1.7:	Graph and explain how firms determine price and output through marginal cost analysis.
SS.912.E.1.8:	Explain ways firms engage in price and nonprice competition. Describe how the earnings of workers are determined.
SS.912.E.1.9:	Remarks/Examples: Examples are minimum wage, the market value of the product produced, workers' productivity.
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.12:	Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).
SS.912.E.1.13:	Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions. Describe the risk and return profiles of various investment vehicles and the importance of diversification.
SS.912.E.1.15:	Remarks/Examples: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.
SS.912.E.1.16:	Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item. Remarks/Examples: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.
SS.912.E.2.1:	Identify and explain broad economic goals. Remarks/Examples: Examples are freedom, efficiency, equity, security, growth, price stability, full employment.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.3:	Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.E.2.4:	Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls. Remarks/Examples: Examples are shortage, surplus, other inefficiencies.
SS.912.E.2.5:	Analyze how capital investments may impact productivity and economic growth. Remarks/Examples: Examples are factories, machinery, technology, people.
SS.912.E.2.6:	Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies. Remarks/Examples: Examples are electric, water, cable, waste management.
SS.912.E.2.7:	Identify the impact of inflation on society. Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive).
SS.912.E.2.8:	Remarks/Examples: Examples are income, sales, social security.
SS.912.E.2.9:	Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt.
SS.912.E.2.10:	Describe the organization and functions of the Federal Reserve System. Assess the economic impact of negative and positive externalities on the local, state, and national environment.
SS.912.E.2.11:	Remarks/Examples: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.2.12:	Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade. Demonstrate the impact of inflation on world economies.
SS.912.E.3.1:	Remarks/Examples: Examples are oil prices, 1973 oil crisis, Great Depression, World War II.
SS.912.E.3.2:	Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage. Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones.
SS.912.E.3.3:	Remarks/Examples: Examples are NAFTA, CAFTA.

	Examples are quotas, tariffs.
	Assess the economic impact of negative and positive externalities on the international environment.
SS.912.E.3.4:	Remarks/Examples: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
	Compare the current United States economy with other developed and developing nations.
SS.912.E.3.5:	Remarks/Examples: Examples are standard of living, exchange rates, productivity, gross domestic product.
	Differentiate and draw conclusions about historical economic thought theorized by economists.
SS.912.E.3.6:	Remarks/Examples: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.3.3:	Use geographic terms and tools to explain differing perspectives on the use of renewable and non-renewable resources in Florida, the United States, and the world.
	Use geographic terms and tools to analyze case studies of issues in globalization.
SS.912.G.4.4:	Remarks/Examples: Examples are cultural imperialism, outsourcing.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
LAFS.1112.SL.1.1:	a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed. c. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives. d. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.
LAFS.1112.SL.1.2:	Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
LAFS.1112.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
LAFS.1112.SL.2.4:	Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines faction in Federalist No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.
	a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.

LAFS.910.WHST.1.2:	<p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.</p> <p>d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).</p>
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.1.1:	<p>Write arguments focused on discipline-specific content.</p> <p>a. Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence.</p> <p>b. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.</p> <p>c. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.</p> <p>d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>e. Provide a concluding statement or section that follows from or supports the argument presented.</p>
LAFS.1112.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <p>a. Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.</p> <p>b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.</p> <p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.</p> <p>d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).</p>
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized</p>

or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

Use appropriate tools strategically.

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

[MAFS.K12.MP.5.1:](#)

Attend to precision.

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

[MAFS.K12.MP.6.1:](#)

Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

[HE.912.C.2.4:](#)

Remarks/Examples:

Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

[ELD.K12.ELL.AA.1:](#)

English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Social Studies.

There are more than 474 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/13008>

Fundamental United States Government (#7921045)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7921045
Course Section: Exceptional Student Education
Number of Credits: Half credit (.5)
Course Status: Draft - Course Pending Approval

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas >
Abbreviated Title: FUND US GOVERNMENT
Course Length: Semester (S)

GENERAL NOTES

Graduation Requirements: Fundamental courses are academic skill-building courses which support a student's participation in general education classes by allowing them more time to build the necessary skills for success. Students with disabilities may earn elective credit towards a standard diploma for the successful completion of a fundamental course.

A student for which the IEP Team has determined the general education curriculum with accommodations and supports is not appropriate but is ineligible to participate in access courses may take fundamental courses to earn credit towards a special diploma, in accordance with the district's student progression plan. These courses are appropriate for these students as general education courses may not be modified for this purpose.

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes: Instructional Strategies

1. Utilize UDL strategies when planning lessons for all students.
2. Ensure that students have accessible instructional materials.
3. Ensure that students read from text that varies in length and complexity.
4. Provide graphic organizers and instruct students on how to use them properly to support understanding of concepts.
5. Use rubrics for assignments that clearly outline expectations for students.
6. Make close reading and rereading of texts central to lessons and provide guided practice and immediate feedback in how to do this.
7. Provide multiple opportunities to practice new vocabulary.
8. Provide explicit instruction in how students can locate evidence from text to support their answers.
9. Provide extensive research and writing opportunities (claims and evidence) based on student interest.
10. Provide students with outlines that assist them in note taking during teacher-led instruction.
11. Teach students to utilize appropriate graphic organizers or organize thoughts when planning for writing assignments.

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
- Unity/diversity in American society
- Civil society: nongovernmental associations, groups
- Nation-states
- Interaction among nation-states
- United States, major governmental, nongovernmental international organizations

The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SS.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

NEXT GENERATION SUNSHINE STATE STANDARDS

SS.912.C - Civics

Standard 1: Demonstrate an understanding of the origins and purposes of government, law, and the American political system.

Standard 2: Evaluate the roles, rights, and responsibilities of United States citizens and determine methods of active participation in society, government, and the political system.

Standard 3: Demonstrate an understanding of the principles, functions, and organization of government.

Standard 4: Demonstrate an understanding of contemporary issues in world affairs, and evaluate the role and impact of United States foreign policy.

SS.912.G - Geography

Standard 4: Understand the characteristics, distribution, and migration of human populations.

Standard 5: Understand how human actions can impact the environment.

Name	Description
LAFS.910.SL.1.1:	<p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.</p> <ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	<p>Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.</p>
LAFS.910.SL.1.3:	<p>Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.</p>
LAFS.910.SL.2.4:	<p>Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.</p>
LAFS.910.RH.1.2:	<p>Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.</p>
LAFS.910.RH.1.3:	<p>Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.</p>
LAFS.910.RH.2.4:	<p>Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.</p>
LAFS.910.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <ol style="list-style-type: none"> Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience’s knowledge of the topic. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	<p>Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.</p>
LAFS.910.WHST.2.5:	<p>Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.</p>
LAFS.910.WHST.3.7:	<p>Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.</p>
LAFS.910.WHST.3.8:	<p>Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.</p>
LAFS.910.WHST.3.9:	<p>Draw evidence from informational texts to support analysis, reflection, and research.</p>
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools</p>

MAFS.K12.MP.5.1:	might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.AA.1:	English language learners communicate for information, ideas and concepts necessary for academic success in the content area of Social Studies.

Career Education: 9-12 (#7921330)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7921330
Course Path: Section: Exceptional Student Education > **Grade Group:** General > **Subject:** Academics - Subject Areas >
Course Section: Exceptional Student Education
Number of Credits: Multiple Credit (more than 1 credit)
Course Status: Draft - Course Pending Approval
Abbreviated Title: CAR ED: 9-12

VERSION DESCRIPTION

A. Major Concepts/Content. The purpose of this course is to enable students with disabilities to apply the knowledge and skills needed to design and implement personal plans for achieving their desired postschool outcomes. The personal plans may address all critical transition service areas, including instruction, related services, community experiences, employment, postschool adult living, and, if needed, daily living skills and functional vocational evaluation.

The content should include, but not be limited to, the following:

- personal and career planning
- information about careers
- diploma options and postsecondary education
- community involvement and participation
- personal care
- interpersonal relationships
- communication
- use of leisure time

This course shall integrate the Sunshine State Standards and Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the individual student and to the content and processes of the subject matter. Students with disabilities shall:

CL.A.1.In.1 complete specified Sunshine State Standards with modifications as appropriate for the individual student.

CL.A.1.Su.1 complete specified Sunshine State Standards with modifications and guidance and support as appropriate for the individual student.

CL.A.1.Pa.1 participate in activities of peers' addressing Sunshine State Standards with assistance as appropriate for the individual student.

B. Special Note. This entire course may not be mastered in one year. A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously. This course is designed to reflect the wide range of abilities within the population of students with disabilities. The particular benchmark for a course requirement should be selected for individual students based on their levels of functioning and their desired postschool outcomes for adult living and employment specified in the student's Transition Individual Educational Plan.

Three levels of functioning, independent, supported, and participatory, have been designated to provide a way to differentiate benchmarks and course requirements for students with diverse abilities. Individual students may function at one level across all areas, or at several different levels, depending on the requirements of the situation. Students functioning at independent levels are generally capable of working and living independently. Students functioning at supported levels are generally capable of living and working with ongoing supervision and support. Students functioning at participatory levels are generally capable of participating in major life activities and require extensive support systems. Instructional activities involving practical applications of course requirements may occur in naturalistic settings in home, school, and community for the purposes of practice, generalization, and maintenance of skills. These applications may require that the student acquire the knowledge and skills involved with the use of related technology, tools, and equipment.

GENERAL NOTES

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

C. Course Requirements. These requirements include, but are not limited to, the benchmarks from the State Standards for Special Diploma that are most relevant to this

course. Benchmarks correlated with a specific course requirement may also be addressed by other course requirements as appropriate. Some requirements in this course are not fully addressed in the State Standards for Special Diploma.

After successfully completing this course, the student will:

1. Demonstrate knowledge of planning tools and resources for personal and career planning (e.g., aptitude surveys and inventories, counseling, community agencies, computer-based programs).

2. Use a planning process to establish personal and career goals.

IF.B.1.In.1 make plans about personal and career choices after identifying and evaluating personal goals, options, and risks.

IF.B.1.Su.1 make plans about personal and career choices after identifying and evaluating personal interests and goals—with guidance and support.

IF.B.1.Pa.1 participate in expressing personal needs—with assistance.

3. Demonstrate knowledge of career options.

CL.C.1.In.1 use knowledge of occupations and characteristics of the workplace in making career choices.

CL.C.1.Su.1 recognize expectations of occupations and characteristics of the workplace in making career choices—with guidance and support.

4. Demonstrate understanding of entry-level job responsibilities and social competencies necessary for successful employment.

CL.C.2.In.1 plan and implement personal work assignments.

CL.C.2.In.2 use appropriate technology and equipment to complete tasks in the workplace.

CL.C.2.In.3 display reliability and work ethic according to the standards of the workplace.

CL.C.2.In.4 follow procedures to ensure health and safety in the workplace.

CL.C.2.In.5 apply employability skills in the workplace.

CL.C.2.Su.1 plan and implement personal work assignments—with guidance and support.

CL.C.2.Su.2 use appropriate technology and equipment to complete tasks in the workplace—with guidance and support.

CL.C.2.Su.3 display reliability and work ethic according to the standards of the workplace—with guidance and support.

CL.C.2.Su.4 follow procedures to ensure health and safety in the workplace—with guidance and support.

CL.C.2.Su.5 apply employability skills in the workplace—with guidance and support.

5. Evaluate own interests and abilities as related to career and postsecondary educational opportunities.

IF.B.1.In.1 make plans about personal and career choices after identifying and evaluating personal goals, options, and risks.

IF.B.1.Su.1 make plans about personal and career choices after identifying and evaluating personal interests and goals—with guidance and support.

6. Demonstrate knowledge of options for high school diploma and requirements for postschool training that relate to desired career and postschool outcomes.

7. Demonstrate knowledge of the role of self-advocacy in personal life and in the workplace.

CL.C.1.In.2 identify individual rights and responsibilities in the workplace.

CL.C.1.Su.2 recognize individual rights and responsibilities in the workplace—with guidance and support.

8. Demonstrate knowledge of own Individual Educational Plan, including participation in the team meeting, if appropriate.

9. Demonstrate effective strategies and problem-solving skills to be used when completing tasks at school, in the home, and in the community.

CL.B.4.In.1 identify problems and examine alternative solutions.

CL.B.4.In.2 implement solutions to problems and evaluate effectiveness.

CL.B.4.Su.1 identify problems found in functional tasks—with guidance and support.

CL.B.4.Su.2 implement solutions to problems found in functional tasks—with guidance and support.

CL.B.4.Pa.1 participate in problem-solving efforts in daily routines—with assistance.

CL.C.2.In.1 plan and implement personal work assignments.

CL.C.2.Su.1 plan and implement personal work assignments—with guidance and support.

10. Demonstrate knowledge of contributing factors for positive self-esteem and personal feelings of efficacy.

IF.B.1.In.1 make plans about personal and career choices after identifying and evaluating personal goals, options, and risks.

IF.B.1.Su.1 make plans about personal and career choices after identifying and evaluating personal interests and goals—with guidance and support.

11. Demonstrate personal care skills that meet demands of situations at school, in the home, in the workplace, and in the community.

IF.A.1.In.2 complete personal care, health, and fitness activities.

IF.A.1.Su.2 complete personal care, health, and fitness activities—with guidance and support.

IF.A.1.Pa.2 participate in personal care, health, and safety routines—with assistance.

12. Demonstrate knowledge of skills and concepts involved in personal money management (e.g., budgets, banking, salaries, credit, taxes).

IF.A.1.In.1 complete productive and leisure activities used in the home and community.

IF.A.1.Su.1 complete productive and leisure activities used in the home and community—with guidance and support.

13. Demonstrate safe travel skills within and beyond the community including using public or private transportation if appropriate.

IF.A.2.In.2 demonstrate safe travel within and beyond the community.

IF.A.2.Su.2 demonstrate safe travel within and beyond the community—with guidance and support.
IF.A.2.Pa.2 participate in reaching desired locations safely within familiar environments—with assistance.

14. Demonstrate understanding of appropriate activities for recreation and leisure.

IF.A.1.In.1 complete productive and leisure activities used in the home and community.
IF.A.1.Su.1 complete productive and leisure activities used in the home and community—with guidance and support.
IF.A.1.Pa.1 participate in routines of productive and leisure activities used in the home and community—with assistance.

15. Demonstrate knowledge of the nature and importance of community involvement and participation for all citizens.

IF.A.2.In.1 select and use community resources and services for specified purposes.
IF.A.2.Su.1 use community resources and services—with guidance and support.
IF.A.2.Pa.1 participate in activities involving the use of community resources and services—with assistance.

16. Demonstrate effective communication skills for use in school, home, workplace, and community settings.

CO.A.1.In.1 initiate communication and respond effectively in a variety of situations.
CO.A.1.Su.1 initiate communication and respond effectively in a variety of situations—with guidance and support.
CO.A.1.Pa.1 participate in effective communication with others—with assistance.

17. Demonstrate personal and social skills, including working in groups and conflict resolution, necessary for success on the job and in the community.

SE.A.1.In.1 cooperate in a variety of group situations.
SE.A.1.In.2 assist in establishing and meeting group goals.
SE.A.1.In.3 function effectively within formal organizations.
SE.A.1.Su.1 cooperate in group situations—with guidance and support.
SE.A.1.Su.2 function effectively within formal organizations—with guidance and support.
SE.A.1.Pa.1 participate effectively in group situations—with assistance.
SE.A.2.In.1 interact acceptably—with others within the course of social, vocational, and community living.
SE.A.2.Su.1 interact acceptably with others within the course of social, vocational, and community living—with guidance and support.
SE.A.2.Pa.1 engage in routine patterns of interaction with others when participating in daily activities—with assistance.

Transition Planning (#7960010)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7960010	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Academics - Subject Areas >
Number of Credits: Multiple Credit (more than 1 credit)	Abbreviated Title: TRAN PLAN
Course Status: Draft - Course Pending Approval	Course Length: Year (Y)

VERSION DESCRIPTION

Purpose

The purpose of this course is to enable students with disabilities to develop knowledge and skills for transition planning and accessing services needed to engage in postsecondary education/training, employment, and independent living.

Course Requirements

Self-Determination and Self-Advocacy

1. Apply knowledge and skills reflecting self-advocacy and self-determination in transition planning.
2. Demonstrate skills for effective participation in own individual educational plan meeting for transition planning.
3. Use effective communication skills in school, home, community, and employment settings.
4. Demonstrate personal qualities, such as dependability, punctuality, responsibility, and personal grooming, that meet demands of school, home, community, and employment settings.

Personal and Career Planning

5. Use a planning process to establish and revise personal goals related to postsecondary adult living.
6. Use tools and resources for career planning, such as aptitude surveys and inventories, counseling, and computer-based programs—Electronic Personal Education Planner (ePEP) and CHOICES—to evaluate own interests and abilities for career and postsecondary education/training opportunities.
7. Describe a range of career options in various career clusters.
8. Identify a progression of jobs in a career path beginning with entry-level jobs that match career goals.
9. Evaluate available employment opportunities that match career goals.

Legal Issues

10. Demonstrate understanding of the meaning and personal implications of the age of majority status.
11. Describe the rights and responsibilities of individuals with disabilities as applied to postsecondary education/training, employment, and independent living.
12. Identify differences between rights and responsibilities afforded to students with disabilities in high school programs and adults with disabilities in postsecondary education/training and employment settings, such as self-disclosure, accommodations, and information about the grievance and appeal process.

Workplace Competencies

13. Demonstrate personal and social competencies necessary for employment situations.
14. Demonstrate understanding of job responsibilities in preferred careers.

Postsecondary Education/Training

15. Explain the differences among options for high school diplomas for students with disabilities and how they relate to requirements for postsecondary education/training and preferred career outcomes.
16. Describe postsecondary education/training programs that are recommended or required as preparation for preferred careers.
17. Describe a range of options for postsecondary education/training, including program offerings, admission requirements, financial aid, housing options, and disability resources.

Citizenship and Community Involvement

18. Describe elements and examples of community involvement and participation as a citizen.
19. Identify benefits and services available from community agencies and resources, such as Social Security Administration, health department, disability-specific resources, and other support services.

Independent Living

20. Describe options and resources available in the community for adult living.
21. Compare characteristics, costs, and amenities in various adult living arrangements based on individual preferences and means.
22. Determine requirements, costs, and opportunities for recreation and leisure activities.
23. Select recreation and leisure activities that align with personal interests and abilities.

GENERAL NOTES

Notes

Instructional activities involving practical applications of course requirements may occur in home, school, community, and employment settings for the purposes of training, practice, and validation of skills. These applications may require that the student use related technology, tools, and equipment.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. Preparation for Adult Living (#7963010)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7963010
Course Section: Exceptional Student Education
Number of Credits: Multiple Credit (more than 1 credit)
Course Status: Draft - Course Pending Approval

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Special Skills Courses > **Abbreviated Title:** PREP AD LIV
Course Length: Year (Y)

VERSION DESCRIPTION

Purpose

The purpose of this course is to enable students with disabilities to gain the knowledge and skills needed for postschool adult living.

Course Requirements

Adult Living Arrangements

1. Describe requirements and responsibilities associated with the acquisition of adult living arrangements, such as rent, contracts, insurance, utilities, and household goods.
2. Describe options and resources available for independent or supported living in the community.
3. Exhibit the knowledge and skills needed for basic housekeeping and household maintenance and repair.

Financial Management

4. Apply knowledge and skills involved in personal financial management, such as budgeting, banking, using credit/debit cards, obtaining insurance, and paying taxes using technology and other forms of assistance.

Citizenship and Community Involvement

5. Identify and select events in the community based on personal interests and preferences.
6. Plan and participate in a variety of recreation and leisure activities that align with personal interests and abilities and are based on available opportunities and funds.
7. Explain how to access community agencies and resources, such as Social Security Administration, health department, disability-specific resources, and other support services, to obtain benefits and services.
8. Fulfill legal and civic responsibilities, such as understanding the roles of federal, state, and local government; obtaining photo identification; registering to vote; registering for Selective Service; obeying local laws; and participating in optional volunteer services.
9. Demonstrate knowledge of and ability to travel in the community, including use of available means of transportation and local resources.

Self-Determination and Self-Advocacy

10. Apply knowledge and skills of self-advocacy and self-determination in situations associated with adult life across school, community, home, and employment settings.
11. Use a systematic process to solve problems associated with adult life in situations across school, community, home, and employment settings.

Personal and Social Competencies

12. Apply appropriate communication skills and etiquette when using phone, mail, e-mail, or social networking and other methods of interaction.
13. Demonstrate personal and social competencies necessary for successful interpersonal relationships in a variety of situations.
14. Model techniques to avoid potential negative influences of others, such as peer pressure, bullying, or coercion.

Personal Health and Safety

15. Use knowledge and skills to maintain and enhance health and personal care, including hygiene, appearance, nutrition, personal fitness, and disease prevention.
16. Use knowledge and skills to maintain and enhance personal safety, such as first aid and prevention of abuse.
17. Describe considerations and available resources when seeking medical care for self and family.

Personal and Career Planning

18. Review and revise personal goals related to adult living, including measurable postsecondary goals on own individual educational plan.
19. Explain options for postsecondary education/training programs—such as degree or certificate programs, continuing education, adult education, and on-the-job training—including program offerings, admission requirements, and disability resources.
20. Create a plan that reflects personal career options.
21. Apply job-seeking skills and use a variety of resources to find employment.
22. Explain the meaning and implications of age of majority status.

GENERAL NOTES

This course is designed for students with disabilities who have not graduated with a standard diploma and are 18–22 years old and need transition services in the area of adult living.

Instructional activities involving practical applications of course requirements may occur in home, school, community, and employment settings for the purposes of training, practice, and validation of skills. These applications may require that the student use related technology, tools, and equipment.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed to address a range of abilities within the population of students with disabilities. Course requirements may be modified based on individual needs.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. GENERAL NOTES

The purpose of this course is to enable students who are deaf and hard-of-hearing to apply concepts, knowledge, and skills in the expanded core curriculum in the educational, home, community, and employment settings to achieve annual goals based on assessed needs and the student’s individual educational plan (IEP).

This course is designed for students who are deaf or hard-of-hearing and need intensive individualized intervention to address the unique and specialized needs that result from their disability. Hearing loss adds a dimension to learning that often requires explicit teaching, such as information gained through incidental learning.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis and relate to achievement of annual goals on the student’s IEP.

Delivery of this course is setting neutral (resource class, embedded instruction, elective course). Instructional activities involving practical applications of course requirements may occur in home, school, community, and employment settings for the purpose of acquisition, practice, generalization, and maintenance of skills.

This course is designed to reflect the wide range of abilities within the populations of students with this disability. Course requirements may be added or modified based on assessed needs indicated in the student’s IEP.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. VERSION REQUIREMENTS

HEAR IMPRD 6

Course Standards

Name	Description
SP.PK12.DH.1.1b:	Explain historical and current attitudes of the Deaf community and the impact on themselves and others.
SP.PK12.DH.1.2b:	Compare and contrast contributions of past and present figures of the Deaf community.
SP.PK12.DH.1.3b:	Evaluate ways that individuals who are deaf or hard-of-hearing provide support for each other in their community.
SP.PK12.DH.1.4b:	Analyze ways that Deaf heritage and culture play an important role in the daily activities of individuals who are deaf or hard-of-hearing.
SP.PK12.DH.1.5:	Develop a list of local and national resources with a description of their purposes and contact information for individuals who are deaf and hard-of-hearing.
SP.PK12.DH.2.2:	Maintain a time management and organizational system for academic studies.
SP.PK12.DH.2.3b:	Explain how previously learned academic vocabulary, skill, or content is used in new skills and concepts.
SP.PK12.DH.2.4b:	Construct paragraphs and essays following English semantic and syntactic rules with the support of own preferred mode of communication.
SP.PK12.DH.2.5:	Request clarification of school assignments from teachers, family, and peers, when needed.
SP.PK12.DH.3.1b:	Describe own hearing loss, including identifying self as deaf or hard-of-hearing; stating cause of the hearing loss and age of onset; explaining that the hearing loss is stable, progressive, or irreversible; and describing accommodations, preferred learning strategies, and interpreting needs to teachers, peers, and community members.
SP.PK12.DH.3.3c:	Explain the role of the audiologist in supporting one’s hearing (set up appointment for audiogram, interpret the information on the audiogram, and discuss amplification needs).
SP.PK12.DH.3.5b:	Request repetition or clarification appropriately from peers, teachers, and community members when needed.

SP.PK12.DH.3.6c:	Seek appropriate assistance from a professional regarding hearing loss needs, such as the interpreter, audiologist, itinerant teacher, and community and employment personnel.
SP.PK12.DH.3.7c:	Use a variety of specialized telecommunication technology, including etiquette and procedures appropriate for his/her needs, independently.
SP.PK12.DH.4.1:	Consistently and appropriately use preferred communication modality, such as American Sign Language (ASL), Conceptually Accurate Signed Exact English (CASE), Signed Exact English (SEE), or Spoken Language (Aural-Oral Communication), and recognize that communication modality may change according to individual needs and preferences.
SP.PK12.DH.4.2:	Participate in direct interactions with peers and adults using an appropriate mode of communication in a variety of settings independently.
SP.PK12.DH.4.3:	Demonstrate communication through motor movements, facial expressions, vocalizations, and social interactions.
SP.PK12.DH.4.4:	Demonstrate nonverbal elements of communication, including proximity, turn taking, body shifting, facial expressions, and eye gaze.
SP.PK12.DH.4.5:	Express the meaning of complex vocabulary, concepts, and figurative language through explicit strategies, such as drawing, role play, fingerspelling, and recognizing visual markers.
SP.PK12.DH.4.6:	Apply auditory discrimination and phonological skills to enhance understanding of spoken and written language, when appropriate.
SP.PK12.DH.5.1:	Explain the elements of the communication process—speaker, listener, message, feedback—and identify situations when communication breakdowns occur.
SP.PK12.DH.5.2b:	Request adaptation of the physical environment or accommodations when communication is perceived to be difficult.
SP.PK12.DH.5.3:	Use appropriate behavior in response to situational demands and modify behavior as needed.
SP.PK12.DH.5.4b:	Communicate with others in ways appropriate for the relationship, such as peers, authority figures in the school and community, and employers.
SP.PK12.DH.5.5:	Anticipate and use repair strategies to ensure communication occurs during difficult listening situations or when communication breakdowns occur.
SP.PK12.DH.6.1b:	Articulate interpreting needs, including describing how to work effectively with an interpreter for school and community activities, stating when services are needed/not needed, and describing the preferred mode of communication.
SP.PK12.DH.6.1c:	Articulate the need for specialized or a preferred mode of communication with peers, adults, community members, and employers.
SP.PK12.DH.6.2b:	Select and use assistive technology—low-tech, high-tech, closed captioning, alerting systems—that is personally appropriate.
SP.PK12.DH.6.3b:	Locate and respond appropriately to alerting devices, such as fire or smoke alarm, doorbell, phone, and monitors in the school, community, and job site.
SP.PK12.DH.6.4b:	Participate effectively in the development and presentation of own IEP, including assessment data, strengths, weaknesses, annual goals, objectives, special education and related services, accommodations, course of study, transition services, and postsecondary goals.
SP.PK12.DH.6.5:	Explain support services available in the school, home, and community, such as Florida Relay Service, interpreters, and travel assistance.
SP.PK12.DH.6.6:	Request written reinforcement of instruction, including transcripts or closed captions for film/videos, when needed.
SP.PK12.DH.6.7:	Develop an emergency contingency plan to gather information regarding man-made or natural disasters or personal emergencies.
SP.PK12.DH.6.8:	Identify agencies that provide postsecondary transition services, such as Vocational Rehabilitation, and Postsecondary Education Programs Network (PEPNet).
SP.PK12.DH.6.9:	Participate effectively in the development of own Summary of Performance, maintaining a portfolio of materials and resources to prepare for and succeed in postsecondary settings.
SP.PK12.DH.6.10:	Describe options available for postsecondary education or training, employment, and independent living that will meet personal goals and needs.
SP.PK12.DH.6.11:	Explain considerations related to obtaining reasonable accommodations in the community, workplace, and/or postsecondary education or training, including eligibility, necessary documentation, procedures for making a request, and the appeals process.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

GENERAL NOTES

The purpose of this course is to enable students with visual impairments to apply concepts, knowledge, and skills in educational settings, home, community, and employment environments, and independent living to achieve annual goals based on assessed needs and the student's individual educational plan (IEP).

This course is designed for students with visual impairments who need intensive individualized intervention in the unique skills that result from their disability. The presence of a visual impairment affects access to all areas of the curriculum.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis and relate to achievement of annual goals on the student's IEP.

Instructional activities involving practical applications of course requirements may occur in home, school (including separate setting, small group, and individually), community, and employment settings for the purposes of acquisition, practice, generalization, and maintenance of skills. These applications may require that the student use related technology, tools, and equipment. Activities may be arranged to extend beyond scheduled school hours. To address the full range of special skills, students may also be enrolled in an Orientation and Mobility Skills course.

This course is designed to address a range of abilities within the population of students with disabilities. Course requirements may be added or modified based on assessed needs indicated in the student's IEP.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

VISU IMPRD 6

Course Standards

Name	Description
SP.PK12.VI.1.1:	Apply tactile discrimination skills, such as identifying differences in characteristics of three-dimensional objects—size, shape, texture, and weight.
SP.PK12.VI.1.2:	Apply listening and auditory skills, such as discriminating sounds and associating concepts, actions, and ideas with expressive language.
SP.PK12.VI.1.3:	Maintain a personal time management and organizational system for academic studies.
SP.PK12.VI.1.4:	Perform fine motor tasks, such as handwriting/signature writing.
SP.PK12.VI.1.5:	Use tactile discrimination skills to interpret objects, symbols, and graphics.
SP.PK12.VI.1.6:	Apply braille skills, including pre-braille; use of braille writing tools; braille book skills; uncontracted, contracted, and tactile graphics; and Nemeth and music code.
SP.PK12.VI.1.7:	Apply tactile and/or visual skills for math calculation and manipulation tools, such as an abacus and three-dimensional representational objects.
SP.PK12.VI.2.1:	Maintain appropriate eye contact, body space, posture, facial expression, gestures, and socially acceptable mannerisms using nonvisual and/or low-vision strategies.
SP.PK12.VI.2.2:	Apply interpersonal skills, such as engaging in appropriate social interactions and conversations; demonstrating respect, empathy, or sympathy; and managing criticism.
SP.PK12.VI.2.3:	Participate effectively in group activities, such as cooperative learning and extracurricular activities.
SP.PK12.VI.2.4:	Identify social, emotional, and physiological aspects of human sexuality appropriate for the student's developmental level.

SP.PK12.VI.2.5:	Engage in cognitive (intentional) social behavior, such as interpreting social cues, identifying opportunities for social interactions, and generalizing social skills to a variety of situations.
SP.PK12.VI.3.3:	Describe opportunities in selected career clusters, including the outlook for employment, qualifications, and training requirements.
SP.PK12.VI.3.4:	Identify elements of planning for transition, such as establishing postsecondary goals for education/training, employment, and independent living, if needed; course of study; and identifying transition service needs.
SP.PK12.VI.3.5:	Identify the unique characteristics of training, tools, and accommodations needed for a person who is blind or visually impaired to function in a given job.
SP.PK12.VI.3.6:	Identify local, state, and federal resources available for transition support for the general population, including students with vision impairments.
SP.PK12.VI.3.7:	Demonstrate knowledge and skills students who are blind or visually impaired need to enter postsecondary education or training.
SP.PK12.VI.3.8:	Participate actively in the development of the IEP with parents and school and/or agency representatives for planning for transition to adult living based on individual interests, abilities, and values.
SP.PK12.VI.4.2:	Locate school and community resources for recreation and leisure that facilitate participation by individuals who are blind or visually impaired.
SP.PK12.VI.4.3:	Identify and implement adaptive strategies for recreational and leisure activities to ensure active participation.
SP.PK12.VI.5.1:	Identify personal body parts and analyze their location relative to self and the environment.
SP.PK12.VI.5.2:	Perform basic locomotor and nonlocomotor movements, such as those needed to mobilize and/or hold and control mobility tools.
SP.PK12.VI.5.3:	Use sighted guide techniques, trailing, and protective techniques, as appropriate for setting and the student's developmental level.
SP.PK12.VI.5.4:	Recognize and locate geometric shapes in varying formats and settings, such as recognizing an octagon and placing it within the environment (stop sign).
SP.PK12.VI.5.5:	Distinguish between permanent and transitory items in the environment.
SP.PK12.VI.5.6:	Identify common auditory environmental stimuli and locations, such as the sound of a water fountain in the hallway and traffic sounds in the roads.
SP.PK12.VI.5.7:	Identify olfactory environmental information and cues, such as scents of food (restaurant), gasoline (gas station), and animals (pet store).
SP.PK12.VI.6.2:	Navigate and manipulate the presentation format of auditory resources as needed.
SP.PK12.VI.7.1b:	Explain own visual impairment, and its functional implications, and support resources within the medical and rehabilitation fields.
SP.PK12.VI.7.2b:	Identify own interests, strengths, preferences, and needs.
SP.PK12.VI.7.3b:	Explain how personal strengths and disability impact learning and other areas of life.
SP.PK12.VI.7.4:	Explain possible coping strategies for managing stressors.
SP.PK12.VI.7.5:	Describe goals in self-advocating using appropriate communication and assertiveness.
SP.PK12.VI.8.1:	Identify strategies for using residual vision with greater efficiency, such as using low-vision devices and adaptive technologies and techniques.
SP.PK12.VI.8.2:	Respond to and summarize instructional level information presented in an auditory format.
SP.PK12.VI.9.1:	Manage personal hygiene and grooming using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.2:	Identify strategies for managing personal wellness using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.3:	Demonstrate appropriate personal eating/table skills using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.4:	Manipulate garments to dress self independently using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.5b:	Demonstrate the ability to maintain clothing, including cleaning and laundering using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.6:	Identify steps and demonstrate the ability to store and prepare food safely using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.7b:	Demonstrate steps to purchase items from different vendors and stores using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.8a:	Demonstrate simple household skills including cleaning own area using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.8c:	Demonstrate household management skills, including cleaning, repairs, and financial management (insurance, utilities, etc.), using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.9:	Create and maintain a schedule/calendar for personal management using nonvisual and/or low-vision strategies.
SP.PK12.VI.9.10:	Demonstrate the ability to acquire materials and services providing support for independent-living activities, such as audiobooks and playback devices and household utensils.
SP.PK12.VI.9.11:	Identify personal/household safety and manage procedures for maintaining a safe environment, such as fire safety, storm preparedness, and obtaining available agency support.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

Orientation and Mobility: 9–12 (#7963060)

GENERAL NOTES

The purpose of this course is to enable students with visual impairments to develop skills leading to safe, efficient, and independent movement and travel skills and knowledge of their presence within the environment to achieve annual goals based on assessed needs and the student's individual educational plan (IEP).

This course is designed for students with disabilities whose IEPs indicate the need for intensive individualized intervention in orientation and mobility skills. A visual impairment affects the students' knowledge of their surroundings, their relationship to their settings, and their ability to travel within the physical and social environments.

Students identified as visually impaired should be referred for an orientation and mobility evaluation as changes in vision, functioning, or developmental needs are observed. Placement in this course is determined by an assessment performed by an orientation and mobility specialist.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis and relate to achievement of annual goals on the student's IEP.

Instructional activities involving practical applications of course requirements may occur in home, school, community, and employment settings for the purposes of acquisition, practice, generalization, and maintenance of skills. These applications may require that the student use related technology, tools, and equipment. Activities may be arranged to extend beyond scheduled school hours.

This course is designed to address a range of abilities within the population of students with disabilities. Course requirements may be added or modified based on assessed needs indicated in the student's IEP.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

GENERAL NOTES

The purpose of this course is to enable students with disabilities to acquire and generalize skills related to self management and interpersonal relationships in educational, home, community, and employment settings to achieve annual goals based on assessed needs and the student's individual educational plan (IEP).

The course is designed for students with disabilities who need intensive individualized intervention in social and emotional behavior to foster the acquisition and generalization of self-management and interpersonal skills. A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis and relate to achievement of annual goals on the student's IEP.

Delivery of this course is setting neutral (resource room, self-contained class, embedded instruction, elective course). Instructional activities involving practical applications of course requirements may occur in home, school, community, and employment settings for the purpose of acquisition, practice, generalization, and maintenance of skills.

The course is designed to address a range of abilities within the population of students with disabilities. Course requirements may be added or modified based on assessed needs indicated in the student's IEP.

GENERAL NOTES

The purpose of this course is to enable students with disabilities to acquire and generalize strategies and skills across academic, community, and employment settings to achieve annual goals based on assessed needs and the student's individual educational plan (IEP).

This course is designed for students with disabilities who need intensive individualized intervention in learning strategies. The course may address academic skill deficits enabling students to learn strategies to access the general curriculum and close educational gaps.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis and relate to achievement of annual goals on the student's IEP. Instruction in subsequent courses should be designed to build upon students' previously mastered skills, not repeat previous course content.

Instructional activities involving practical applications of course requirements may occur in home, school, community, and employment settings for the purpose of practice, generalization, and maintenance of skills and strategies. These applications may require that the student be trained in the use of related technology, tools, and equipment.

This course is designed to address a range of abilities within the population of students with disabilities. Course requirements may be added or modified based on assessed needs indicated in the student's IEP.

English Language Development (ELD) Standards Special Notes Section:

VERSION REQUIREMENTS

ANY EXCEPT ED FIELD

Course Standards

Name	Description
SP.PK12.US.1.1b:	Apply skills and strategies, such as decoding multisyllabic words; analyzing vocabulary, including roots and affixes; making associations; and using visual imagery and mnemonics, to recall and understand information from a variety of media sources.
SP.PK12.US.1.2c:	Apply skills and strategies (scanning, predicting, paraphrasing/ summarizing, rereading, inferencing, retelling, self-questioning, note taking, outlining, and interpreting text structure) to gain information from a variety of media sources and instructional presentations.
SP.PK12.US.1.3c:	Apply skills and strategies in written communication, including setting a purpose for writing, creating complete simple and complex sentences, and organizing information into different types of paragraphs and essays.
SP.PK12.US.1.3d:	Apply skills and strategies to produce clear and coherent oral and written communication, such as planning, creating drafts, editing and proofing, elaborating, rehearsing, revising, and publishing or presenting.
SP.PK12.US.1.4b:	Apply skills and strategies in mathematical concepts and processes and/or computational fluency, such as financial literacy skills, algebraic problem solving, estimation skills, measurement and geometry skills, and comprehension of graphs, tables, and charts.
SP.PK12.US.1.5:	Use effective test-taking skills and strategies, such as previewing, allocating time, outlining response to essays and short and extended responses, and reviewing answers.
SP.PK12.US.1.6:	Select and apply effective problem-solving skills and strategies to solve personal, academic, and community-based problems.
SP.PK12.US.2.1b:	Use effecting task-completion strategies, such as identifying needed resources, planning steps for completion, and self-monitoring.

SP.PK12.US.2.2b:	Use effective time-management, planning, and organization skills and strategies, including using a visual schedule or daily planner, setting goals and priorities, and locating, organizing, and sorting information.
SP.PK12.US.3.2a:	Use appropriate social skills and strategies to interact with peers and adults across settings, such as cooperative learning, participating in small and large groups, accepting feedback, and resolving conflicts.
SP.PK12.US.3.3b:	Participate effectively in academic and career planning, including, but not limited to, the IEP, course selection, course of study, post secondary goals, and the transition process.
SP.PK12.US.3.5:	Use instructional and assistive technology to locate and access information, participate in computer-based instruction or testing, solve mathematical problems, create documents or images, and communicate with others.
SP.PK12.US.3.6:	Use effective time management and organization skills and strategies to complete class and work assignments.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

Skills for Students who are Gifted (#7963090)

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult >
Subject: Special Skills Courses >
Abbreviated Title: SKLS STUS GIFTED
Course Length: Year (Y)

GENERAL NOTES

This course is designed to enable exceptional students to acquire and apply the skills and abilities needed to enhance academic achievement through experiences which provide enrichment, in-depth learning, and /or accelerated study of academic curriculum requirements. Students who are gifted have learning needs that go beyond what is traditionally offered in the regular classroom. The nature of their abilities, demonstrated or latent, requires differentiated learning experiences and opportunities for them to maximize their potential. Teachers need to develop the depth and quality of their students' experiences while adjusting the pace to meet individual needs.

This gifted course has been designed for the teacher to select and teach only the appropriate standards corresponding to a student's individual instructional needs.

Major Concepts/Content. The purpose of this course is to provide appropriately individualized curricula for students who are gifted.

The content should include, but not be limited to the following:

- higher-order thinking skills
- independent learning
- application of acquired knowledge
- comprehension of complex issues
- high-level communication
- develop problem solving skills
- team work and team-based learning
- explore creative expression
- create/deliver quality products

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.

4. Requiring students to support answers with evidence from the text.

5. Providing extensive text-based research and writing opportunities (claims and evidence).

Special Note:

This entire course may not be mastered in one year. A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis.

Instructional activities used to meet course requirements and address individual student needs may occur in schools, communities, museums, institutions of higher education, or other appropriate scientific or cultural organizations. Instruction in these settings may require that students acquire specialized knowledge and skills, including the use of advanced technology, special tools, and equipment; terminology; and methodologies essential to the student’s research.

It is necessary to implement a combination of research-based standards and strategies that have been proven successful in accelerating the development of research skills in gifted students. The instructional approaches should meet the needs of each student based on results of individual portfolios, assessments, and progress monitoring.

Course Standards

Integrate Florida Standards for Mathematical Practice (MP) as applicable.

- MAFS.K12.MP.1.1 Make sense of problems and persevere in solving them.
- MAFS.K12.MP.3.1 Construct viable arguments and critique the reasoning of others.
- MAFS.K12.MP.5.1 Use appropriate tools strategically.
- MAFS.K12.MP.6.1 Attend to precision.

Name	Description
LAFS.K12.R.1.1:	Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
LAFS.K12.R.1.2:	Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
LAFS.K12.R.1.3:	Analyze how and why individuals, events, and ideas develop and interact over the course of a text.
LAFS.K12.R.2.4:	Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
LAFS.K12.R.2.5:	Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
LAFS.K12.R.2.6:	Assess how point of view or purpose shapes the content and style of a text.
LAFS.K12.R.3.7:	Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
LAFS.K12.R.3.8:	Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
LAFS.K12.R.3.9:	Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.
LAFS.K12.R.4.10:	Read and comprehend complex literary and informational texts independently and proficiently.
LAFS.K12.W.1.1:	Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
LAFS.K12.W.1.2:	Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
LAFS.K12.W.1.3:	Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.
LAFS.K12.W.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.K12.W.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
LAFS.K12.W.2.6:	Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.
LAFS.K12.W.3.7:	Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
LAFS.K12.W.3.8:	Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
LAFS.K12.W.3.9:	Draw evidence from literary or informational texts to support analysis, reflection, and research.
LAFS.K12.W.4.10:	Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.
LAFS.K12.SL.1.1:	Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others’ ideas and expressing their own clearly and persuasively.
LAFS.K12.SL.1.2:	Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.
LAFS.K12.SL.1.3:	Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric.
LAFS.K12.SL.2.4:	Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.
LAFS.K12.SL.2.5:	Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
LAFS.K12.SL.2.6:	Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.
LAFS.K12.L.1.1:	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
LAFS.K12.L.1.2:	Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
LAFS.K12.L.2.3:	Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.
LAFS.K12.L.3.4:	Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

LAFS.K.12.L.3.5:	Demonstrate understanding of word relationships and nuances in word meanings.
LAFS.K.12.L.3.6:	Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.
G.K.12.1.1.a:	Nature of Knowledge - Know: Locate and list the general divisions of knowledge, i.e., art, science, humanities, etc., and recognize integrated fields and disciplines.
G.K.12.1.1.1b:	Nature of Knowledge - Understand: Identify and define a field of interest and analyze how the field is organized by explaining what criteria define the discipline and how those criteria are organized and divided.
G.K.12.1.1.1c:	Nature of Knowledge - Perform: Differentiate fact, concept, theory, and principle and employ each in developing meaning and knowledge.
G.K.12.1.1.1d:	Nature of Knowledge - Accomplish: Construct own meaning within a chosen field and offer new contributions to this respective field of study.
G.K.12.1.1.2a:	Basic Research - Know: Identify and locate basic reference sources that support general research in several disciplines.
G.K.12.1.1.2b:	Basic Research - Understand: Analyze the relevance and usefulness of primary and secondary references while identifying how fields are organized and subdivided.
G.K.12.1.1.2c:	Basic Research - Perform: Use multiple primary and secondary sources to analyze, synthesize, and evaluate relevant persons, places, events, or beliefs that are dominant in a field.
G.K.12.1.1.2d:	Basic Research - Accomplish: Use a variety of professional journals, professional databases, and college textbooks to make connections between and/or among fields of discipline.
G.K.12.1.1.3a:	Manipulation of Data - Know: Manipulate data in order to determine contributions of the discipline to the community and world.
G.K.12.1.1.3b:	Manipulation of Data - Understand: Seek and identify connections between fields to make sense of patterns and trends.
G.K.12.1.1.3c:	Manipulation of Data - Perform: Construct research questions that help interpret the effects of major trends and issues over time.
G.K.12.1.1.3d:	Manipulation of Data - Accomplish: Develop themes and connections across historical events, periods, and fields.
G.K.12.1.1.4a:	Organization of Data - Know: Create or select an existing system for organizing data in a sequence.
G.K.12.1.1.4b:	Organization of Data - Understand: Construct an organizational system (i.e., knowledge tree, graphic organizer, or diagram) that represents and illustrates the organization in a field of study and the subdivisions within that field.
G.K.12.1.1.4c:	Organization of Data - Perform: Identify and illustrate themes, patterns, and structures that define an area of study.
G.K.12.1.1.4d:	Organization of Data - Accomplish: Challenge (and defend or justify the challenge) accepted bodies of knowledge and organizational methodologies.
G.K.12.1.2.1a:	Conceptual Frameworks - Know: Formulate questions to determine the relevance of the skills and knowledge required of a discipline.
G.K.12.1.2.1b:	Conceptual Frameworks - Understand: Demonstrate understanding of conceptual themes and their organizational opportunities within a body of knowledge.
G.K.12.1.2.1c:	Conceptual Frameworks - Perform: Create graphic organizers that organize the logical sequences of key conceptual themes in a field of study.
G.K.12.1.2.1d:	Conceptual Frameworks - Accomplish: Analyze data and research methods used and developed by scholars within a field; internalize conceptual themes of that (those) discipline(s).
G.K.12.1.2.1e:	Conceptual Frameworks - Know: Identify established rules or laws (principles) of nature which impact daily life and draw conclusions regarding their role in the world of work.
G.K.12.1.2.1f:	Conceptual Frameworks - Understand: Differentiate similarities and differences between functional concepts and principles within a field.
G.K.12.1.2.1g:	Conceptual Frameworks - Perform: Assimilate the often conflicting nature of knowledge generated within integrated disciplines.
G.K.12.1.2.1h:	Conceptual Frameworks - Accomplish: Critique accepted conventions and rules and identify ambiguity.
G.K.12.1.2.2a:	Components and Methodologies - Know: Identify and use terminology authentic to a chosen discipline of knowledge.
G.K.12.1.2.2b:	Components and Methodologies - Understand: Create a list of the methodological skills and processes (general and specific) used by practicing professionals in a field.
G.K.12.1.2.2c:	Components and Methodologies - Perform: Demonstrate an understanding of and delineate the diversity of language, tools, and methodologies between and among disciplines.
G.K.12.1.2.2d:	Components and Methodologies - Accomplish: Experiment with a variety of methods to analyze data to develop greater understanding.
G.K.12.1.2.3a:	Conceptual Connections - Know: Identify essential principles that govern and drive a series of key concepts in a chosen field.
G.K.12.1.2.3b:	Conceptual Connections - Understand: Demonstrate foundational knowledge of various fields and disciplines.
G.K.12.1.2.3c:	Conceptual Connections - Perform: Analyze and synthesize concepts and principles within a discipline in order to isolate essential concepts and identify macroconcepts.
G.K.12.1.2.3d:	Conceptual Connections - Accomplish: Apply and transfer understanding to other disciplines.
G.K.12.1.3.1a:	Skill Development - Know: Locate relevant information about varied professionals and identify personal strengths that may contribute to the field.
G.K.12.1.3.1b:	Skill Development - Understand: Compare and contrast job descriptions, methods of working, and challenges faced by various practicing professionals to determine relevance to personal needs and goals.
G.K.12.1.3.1c:	Skill Development - Perform: Use and refine the skills and methods of a professional in a discipline.
G.K.12.1.3.1d:	Skill Development - Accomplish: Seek an understanding of the ethical issues and standards that frame a discipline.
G.K.12.1.3.2a:	Management of Data for Research - Know: Identify a list of methods manuals, "How To" books, and other resources to research methodologies used by practitioners.
G.K.12.1.3.2b:	Management of Data for Research - Understand: Compare and contrast general and specific methods of research used by practitioners to seek answers to viable professional questions.
G.K.12.1.3.2c:	Management of Data for Research - Perform: Use appropriate data gathering instruments needed for a research study.
G.K.12.1.3.2d:	Management of Data for Research - Accomplish: Apply the scientific method naturally, i.e., identify routine problem areas, focus the problem, state hypotheses, locate resources, classify and organize data, draw conclusions, and report findings.
G.K.12.1.3.3a:	Investigative Methodologies - Know: Identify content area specialists to establish a sense of cause and effect within a field.
G.K.12.1.3.3b:	Investigative Methodologies - Understand: Understand, identify, and analyze relationships among variables, constants, and controls in research.
G.K.12.1.3.3c:	Investigative Methodologies - Perform: Apply the indicators that reflect quality in a field and understand how the field measures success.
G.K.12.1.3.3d:	Investigative Methodologies - Accomplish: Challenge existing theories, principles, and rules through research and experimentation.
G.K.12.1.3.4a:	Support Structures - Know: Recognize and identify the need for support structures found within a designated field of study and establish the nature of specific supports.
G.K.12.1.3.4b:	Support Structures - Understand: Recognize the values and perspectives of those who hold opposing views within the discipline.
G.K.12.1.3.4c:	Support Structures - Perform: Interview content area specialists to verify the application of methodologies incorporated in a study.
G.K.12.1.3.4d:	Support Structures - Accomplish: Collaborate with professionals, experts, and others in the field to advance research, development, and understanding in the field.

G.K12.7.1.1a:	Audience Recognition - Know: Identify an authentic audience based on set criteria related to a specific topic.
G.K12.7.1.1b:	Audience Recognition - Understand: Communicate recognition of audience members' strengths and needs.
G.K12.7.1.1c:	Audience Recognition - Perform: React and refine performance based on audiences' strengths and needs.
G.K12.7.1.1d:	Audience Recognition - Accomplish: Communicate intentional reaction to subtle and overt feedback from audience.
G.K12.7.1.2a:	Communication - Know: Prepare and execute practiced performance to communicate ideas.
G.K12.7.1.2b:	Communication - Understand: Integrate ideas with visual supports to emphasize key point(s) in a performance.
G.K12.7.1.2c:	Communication - Perform: Identify personal presentation style and adapt that style to different purposes, moods, tones.
G.K12.7.1.2d:	Communication - Accomplish: Demonstrate evidence of refining a performance to communicate personal style.
G.K12.7.1.3a:	Advanced Presentation - Know: Use advanced language and symbol systems to communicate ideas.
G.K12.7.1.3b:	Advanced Presentation - Understand: Evaluate the personal preferences of others related to language and symbol systems.
G.K12.7.1.3c:	Advanced Presentation - Perform: Evaluate self in the area of presentation, language, and symbol systems.
G.K12.7.1.3d:	Advanced Presentation - Accomplish: Based on evaluation, revise and adapt presentation, language, and symbol systems for specific and various audiences.
G.K12.7.1.4a:	Problem Solving - Know: Create product to solve a problem or communicate a perspective.
G.K12.7.1.4b:	Problem Solving - Understand: Use strategies or tools of persuasion to resolve an issue or communicate a perspective.
G.K12.7.1.4c:	Problem Solving - Perform: Create specific strategies targeted at opposing viewpoints/perspectives.
G.K12.7.1.4d:	Problem Solving - Accomplish: Address critics with prepared, defensible arguments that effectively defend solutions.
G.K12.4.1.1a:	Problem Investigation - Know: Recognize multiple problems within a complex issue; poses research questions.
G.K12.4.1.1b:	Problem Investigation - Understand: Categorize and prioritize identified problems within a complex issue; generate hypotheses.
G.K12.4.1.1c:	Problem Investigation - Perform: Use established criteria to focus the problem statement and generate solutions.
G.K12.4.1.1d:	Problem Investigation - Accomplish: Propose new avenues for research of existing and future related problems.
G.K12.4.1.2a:	Multiple Perspectives - Know: Acknowledge diverse viewpoints of a problem.
G.K12.4.1.2b:	Multiple Perspectives - Understand: Compare and contrast multiple perspectives of a problem.
G.K12.4.1.2c:	Multiple Perspectives - Perform: Integrate multiple points of view into a problem statement.
G.K12.4.1.2d:	Multiple Perspectives - Accomplish: Restructure the problem statement to reflect new perspectives.
G.K12.4.1.3a:	Supportive Constructs - Know: Generate an effective argument on each side of a problem.
G.K12.4.1.3b:	Supportive Constructs - Understand: Develop multiple supporting statements from different perspectives.
G.K12.4.1.3c:	Supportive Constructs - Perform: Communicate supportive evidence convincingly in multiple formats.
G.K12.4.1.3d:	Supportive Constructs - Accomplish: Defend, challenge, and articulate points of view using available resources; develop effective rebuttals.
G.K12.4.1.4a:	Solution Finding - Know: Propose multiple solutions to a problem within varied categories (i.e., social, technological, educational, environmental, political).
G.K12.4.1.4b:	Solution Finding - Understand: Establish and apply criteria for evaluation of solutions.
G.K12.4.1.4c:	Solution Finding - Perform: Create original solutions and products based on evaluated criteria; analyze possible consequences and impacts; test conclusions to improve ideas.
G.K12.4.1.4d:	Solution Finding - Accomplish: Extend solutions to aid in solving future problems; seek alternative innovative outcomes or solutions.
G.K12.4.1.5a:	Creative Thinking - Know: Generate numerous and varied ideas to solve a real-world problem (fluency and flexibility).
G.K12.4.1.5b:	Creative Thinking - Understand: Synthesize unique alternatives to solve a problem (originality).
G.K12.4.1.5c:	Creative Thinking - Perform: Elaborate ideas through collaborative processes with colleagues.
G.K12.4.1.5d:	Creative Thinking - Accomplish: Evaluate and modify ideas and products to improve usefulness.
G.K12.7.2.1a:	Inventive Thinking - Know: Generate ways to improve an existing product using two related sources.
G.K12.7.2.1b:	Inventive Thinking - Understand: Create an original product for a specific audience using inductive and deductive reasoning.
G.K12.7.2.1c:	Inventive Thinking - Perform: Create a product with defined rationale using multiple sources from varied fields or disciplines.
G.K12.7.2.1d:	Inventive Thinking - Accomplish: Create and defend a product using multiple sources that can be used in and across fields/disciplines.
G.K12.7.2.2a:	Metaphorical Promotion - Know: Create a statement or product using two related ideas to strengthen the message.
G.K12.7.2.2b:	Metaphorical Promotion - Understand: Illustrate a new concept using two or more related ideas innovatively.
G.K12.7.2.2c:	Metaphorical Promotion - Perform: Create two seemingly unrelated or opposing ideas to reflect an in-depth understanding of an issue, concept, or principle.
G.K12.7.2.2d:	Metaphorical Promotion - Accomplish: Incorporate multiple sources from varied perspectives to create and test a novel theory.
G.K12.7.2.3a:	Praxis - Know: Generate multiple solutions to a given problem.
G.K12.7.2.3b:	Praxis - Understand: Generate a new, personal concept by synthesizing multiple solutions and multiple perspectives.
G.K12.7.2.3c:	Praxis - Perform: Create a new personal theory by synthesizing multiple solutions and perspectives that can be applied to a different field of study.
G.K12.7.2.3d:	Praxis - Accomplish: Critique or defend a personal theory based on evidence from multiple sources and multiple perspectives.
G.K12.4.2.1a:	Data Analysis - Know: Locate information and data sources relative to a complex, real-world problem.
G.K12.4.2.1b:	Data Analysis - Understand: Make decisions about the usefulness of data to filter out extraneous information.
G.K12.4.2.1c:	Data Analysis - Perform: Use a variety of tools and techniques to organize data to draw conclusive statements.
G.K12.4.2.1d:	Data Analysis - Accomplish: Perform data analysis using tools of practicing professionals for a specific intent.
G.K12.4.2.2a:	Forecasting Solutions - Know: Identify patterns within related facts and information.
G.K12.4.2.2b:	Forecasting Solutions - Understand: Organize facts and information using various methods to predict potential outcomes.
G.K12.4.2.2c:	Forecasting Solutions - Perform: Use forecasting tools to evaluate possible solutions.
G.K12.4.2.2d:	Forecasting Solutions - Accomplish: Anticipate and plan for possible, probable, and preferable future outcomes.
G.K12.4.2.3a:	Critical Thinking - Know: Distinguish between fact and opinion in a variety of sources.
G.K12.4.2.3b:	Critical Thinking - Understand: Recognize bias and value statements in a variety of media.
G.K12.4.2.3c:	Critical Thinking - Perform: Use inductive and deductive thinking processes to draw conclusions.
G.K12.4.2.3d:	Critical Thinking - Accomplish: Analyze, interpret, and synthesize details and facts to examine relationships, infer meanings, and predict outcomes.
G.K12.4.2.4a:	Ethics - Know: Recognize the role of values in the development of attitudes about a complex problem.
G.K12.4.2.4b:	Ethics - Understand: Use knowledge of recognized ethical standards of various stakeholders to formulate problem statements and solutions.
G.K12.4.2.4c:	Ethics - Perform: Use the value system most common to a field of study to evaluate solutions and products.
G.K12.4.2.4d:	Ethics - Accomplish: Promote humane and respectful solutions to complex problems.
G.K12.4.3.1a:	Evaluation - Know: Recognize existing knowledge and attitudes about a complex problem.

G.K12.4.3.1b:	Evaluation - Understand: Analyze the impacts of existing knowledge and attitudes; identify personal assumptions and blind spots in approaching the problem.
G.K12.4.3.1c:	Evaluation - Perform: Identify knowledge gaps and inconsistencies to challenge existing attitudes and beliefs.
G.K12.4.3.1d:	Evaluation - Accomplish: Use multiple sources to affect change in generally accepted knowledge and attitudes.
G.K12.4.3.2a:	Creative Methodology - Know: Recognize contributions of inventors and innovators in multiple fields of accomplishment.
G.K12.4.3.2b:	Creative Methodology - Understand: Analyze and/or replicate methods used by creators and problem solvers in multiple fields.
G.K12.4.3.2c:	Creative Methodology - Perform: Create original products using various inventive strategies.
G.K12.4.3.2d:	Creative Methodology - Accomplish: Design original problem solving models for use in specific situations.
G.K12.4.3.2e:	Creative Methodology - Know: Identify a variety of problem solving methods.
G.K12.4.3.2f:	Creative Methodology - Understand: Differentiate the effectiveness of problem solving methods in a variety of settings.
G.K12.4.3.2g:	Creative Methodology - Perform: Apply appropriate methodologies for problem solving based on their usefulness.
G.K12.4.3.2h:	Creative Methodology - Accomplish: Reflect on adequacy of inventive processes and problem solving in various disciplines.
G.K12.4.3.3a:	Communication - Know: Identify stakeholders within a complex problem.
G.K12.4.3.3b:	Communication - Understand: Use multiple tools and techniques to target identified audiences; use precise language to explain positions.
G.K12.4.3.3c:	Communication - Perform: Use information about the stakeholders to develop convincing arguments to support solutions.
G.K12.4.3.3d:	Communication - Accomplish: Advocate convincingly to diverse audiences using sophisticated techniques (oral, written, technological) appropriate to the field and audience.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

There are more than 33 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12984>

Unique Skills: 9 - 12 (#7963130)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7963130

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Special Skills Courses >

Course Section: Exceptional Student Education

Number of Credits: Multiple Credit (more than 1 credit)

Course Status: Draft - Course Pending Approval

Abbreviated Title: U SKLS

GENERAL NOTES

The purpose of this course is to enable students with disabilities to acquire and generalize skills they need to achieve annual goals based on assessed needs and the student's individual educational plan (IEP). It is structured around the domains addressed on the IEP: Social and Emotional, Independent Functioning, Curriculum and Learning, and Communication.

A student may repeat this course. The particular course requirements that the student should master each year must be specified on an individual basis and relate to achievement of annual goals on the student's IEP.

Delivery of this course is setting neutral (resource room, self-contained class, embedded instruction, elective course). Instructional activities involving practical applications of course requirements may occur in home, school, and community settings for the purpose of acquisition, practice, generalization, and maintenance of skills.

The course is designed to address a range of abilities within the population of students with disabilities. Course requirements may be added or removed based on student needs.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

ANY EXCEPT ED FIELD

Course Standards

Name	Description
SP.PK12.US.6.1:	Use language for a variety of purposes, including greeting, informing, demanding, promising, and requesting.
SP.PK12.US.6.2:	Use language based on the needs of the situation or listener, such as talking differently to peers and adults, providing background information, and adjusting voice and volume according to setting demands.
SP.PK12.US.6.4:	Follow rules for conversations, including staying on topic, taking turns, and initiating and ending conversations appropriately.
SP.PK12.US.1.1d:	Apply skills and strategies (associating icons and symbols with words and concepts, identifying sight words and decoding phonetically regular words, and paraphrasing and summarizing text) to recall and understand information from visual, print, and/or digital text or audio presentations for real-world application, such as completing work-related tasks, reading the newspaper, and locating information about possible careers.
SP.PK12.US.1.2b:	Use skills and strategies to link information with other cues, such as mnemonics, visual imagery, and links to prior knowledge, to increase recall and comprehension.
SP.PK12.US.1.2c:	Apply skills and strategies (scanning, predicting, paraphrasing/ summarizing, rereading, inferencing, retelling, self-questioning, note taking, outlining, and interpreting text structure) to gain information from a variety of media sources and instructional presentations.
SP.PK12.US.1.3b:	Apply fundamental skills and strategies in written communication, such as using personal information, making lists and completing forms, forming sentences and organizing ideas into paragraphs, letters, or stories.
SP.PK12.US.1.3c:	Apply skills and strategies in written communication, including setting a purpose for writing, creating complete simple and complex sentences, and organizing information into different types of paragraphs and essays.
SP.PK12.US.1.3d:	Apply skills and strategies to produce clear and coherent oral and written communication, such as planning, creating drafts, editing and proofing, elaborating, rehearsing, revising, and publishing or presenting.

SP.PK12.US.1.4b:	Apply skills and strategies in mathematical concepts and processes and/or computational fluency, such as financial literacy skills, algebraic problem solving, estimation skills, measurement and geometry skills, and comprehension of graphs, tables, and charts.
SP.PK12.US.1.4c:	Develop mathematical skills and/or computational fluency for everyday living, such as accessing a bank account online, money-management skills, estimation skills, time and measurement skills, and interpretation of graphs, tables, schedules, and charts.
SP.PK12.US.1.5:	Use effective test-taking skills and strategies, such as previewing, allocating time, outlining response to essays and short and extended responses, and reviewing answers.
SP.PK12.US.1.6:	Select and apply effective problem-solving skills and strategies to solve personal, academic, and community-based problems.
SP.PK12.US.2.1b:	Use effective task-completion strategies, such as identifying needed resources, planning steps for completion, and self-monitoring.
SP.PK12.US.2.2b:	Use effective time-management, planning, and organization skills and strategies, including using a visual schedule or daily planner, setting goals and priorities, and locating, organizing, and sorting information.
SP.PK12.US.3.1b:	Apply skills and strategies to solve personal, school, community, and work problems.
SP.PK12.US.3.2b:	Use appropriate social skills and strategies to interact with peers and adults across settings, such as cooperative learning, participating in small and large groups, giving and accepting appropriate feedback, assuming a leadership role, and resolving conflicts.
SP.PK12.US.3.3b:	Participate effectively in academic and career planning, including, but not limited to, the IEP, course selection, course of study, post secondary goals, and the transition process.
SP.PK12.US.3.4:	Apply skills that promote self-awareness and goal setting to meet educational and personal needs to increase self-determination, including use of accommodations and assistive tools, as appropriate.
SP.PK12.US.3.5:	Use instructional and assistive technology to locate and access information, participate in computer-based instruction or testing, solve mathematical problems, create documents or images, and communicate with others.
SP.PK12.US.3.6:	Use effective time management and organization skills and strategies to complete class and work assignments.
SP.PK12.US.3.7:	Apply skills and strategies to use technology effectively to locate reliable information and services, participate in instruction and testing programs, communicate with others, and protect confidential information.
SP.PK12.US.4.3:	Demonstrate understanding and recall of information presented orally for specific purposes, such as identifying the main idea, drawing conclusions, and forming opinions.
SP.PK12.US.4.4:	Demonstrate understanding of information presented orally by using listening skills, including paying attention to cues, linking to prior knowledge, and considering speaker's perspective and nonverbal messages.
SP.PK12.US.5.1:	Use speech that can be understood by adults and peers.
SP.PK12.US.5.2:	Communicate messages and ideas clearly and effectively in a variety of situations.
SP.PK12.US.5.3:	Answer different types of questions, such as yes/no, open ended, and "wh" questions.
SP.PK12.US.5.4:	Express ideas in complete sentences using correct parts of speech.
SP.PK12.US.5.5:	Retell and summarize a story or event.
SP.PK12.US.5.6:	Effectively use nonverbal language, such as proximity, eye contact, gestures, and posture.
SP.PK12.US.5.7:	Clarify and explain words and ideas.
SP.PK12.US.5.8:	Participate effectively in small and large group discussions.
SP.PK12.US.5.9:	Recognize and repair communication breakdowns.
SP.PK12.US.5.10:	Use appropriate verbal and nonverbal communication when giving an individual or group presentation.
SP.PK12.US.7.1:	Use technology and assistive devices as needed to communicate or enhance messages in a meaningful and functional manner.
SP.PK12.US.7.2:	Use own communication system, such as alternative/augmentative communication, assistive device, or sign language, to communicate and acquire information.
SP.PK12.US.7.3:	Identify and use basic maintenance procedures needed by own communication system.
SP.PK12.US.7.4:	Identify needs and request assistance with own communication system.
SP.PK12.US.8.1:	Carry out personal care and hygiene routines, such as keeping clean, grooming and toileting.
SP.PK12.US.8.2:	Manage own clothing, such as dressing and selecting clothing items.
SP.PK12.US.8.3:	Perform positive health practices, including preventative health care and fitness.
SP.PK12.US.8.4:	Communicate need for medical assistance, such as indicating an illness or injury.
SP.PK12.US.8.5:	Identify and perform approved medical procedures, as appropriate, such as using an inhaler.
SP.PK12.US.8.6:	Demonstrate skills required for eating, such as using common utensils and opening packages.
SP.PK12.US.8.7:	Select food based on available options, preference, and nutritional value.
SP.PK12.US.8.8:	Follow safety procedures and routines for preparing food.
SP.PK12.US.8.9:	Use knowledge and skills to maintain and enhance personal safety, such as handling dangerous situations and emergencies, and preventing abuse.
SP.PK12.US.8.10:	Recognize and convey personal information, including determining when to keep such information confidential.
SP.PK12.US.8.11b:	Apply skills of self-advocacy and self-determination in a variety of situations, such as communicating interests and preferences in planning for the future.
SP.PK12.US.9.1:	Participate in individual and group recreation/leisure activities.
SP.PK12.US.9.2b:	Choose and engage in volunteer activities, such as coastal cleanup, visiting elderly persons, or sorting recyclable products.
SP.PK12.US.9.3a:	Use specific knowledge and skills when completing activities involving managing money, such as shopping and purchasing.
SP.PK12.US.9.4:	Apply acceptable eating and social skills when dining in a variety of establishments or settings.
SP.PK12.US.9.5b:	Identify and follow rules when using various modes of transportation to access the community.
SP.PK12.US.9.6:	Demonstrate how to use technological tools to access services and commodities in the community.
SP.PK12.US.10.1b:	Complete routines and tasks according to expectations, including the speed and accuracy of performance.
SP.PK12.US.10.2b:	Sequence multiple tasks to complete activities by establishing routines, following a schedule, prioritizing tasks, and managing resources.
SP.PK12.US.10.3:	Use organizational strategies related to planning, scheduling, time management, self-monitoring, and managing materials.
SP.PK12.US.11.1:	Use tools and/or assistive technology to complete daily routines and tasks.
SP.PK12.US.11.2:	Follow rules and procedures across a variety of settings.
SP.PK12.US.11.3:	Use materials for their intended purposes.
SP.PK12.US.11.4:	Demonstrate the ability to adjust to new routines and changes in tasks, settings, and locations.
SP.PK12.US.12.1:	Identify personal body parts and analyze location relative to self and the environment.
SP.PK12.US.12.2:	Perform basic locomotor and nonlocomotor movements, such as those needed to mobilize and/or hold and control mobility tools.
SP.PK12.US.12.3:	Use sighted guide techniques, trailing, and protective techniques as appropriate for setting and student's developmental level.
SP.PK12.US.13.1:	Recognize and locate geometric shapes in varying formats and settings, such as recognizing an octagon and placing it within the environment (stop sign).

SP.PK12.US.13.2:	Distinguish between permanent and transitory items in the environment.
SP.PK12.US.13.3:	Identify common auditory environmental stimuli and locations, such as the sound of a water fountain in the hallway and traffic sounds in the roads.
SP.PK12.US.13.4:	Identify olfactory environmental information and cues, such as scents of food (restaurant), gasoline (gas station), and animals (pet store).
SP.PK12.US.13.5:	Use environmental orienting techniques, such as using landmarks and tactual markers, for familiarizing areas in urban and rural settings.
SP.PK12.US.14.1:	Use personal orienting techniques, such as squaring off, parallel alignment, and locating dropped objects.
SP.PK12.US.15.1:	Perform independent travel skills using landmarks and cues.
SP.PK12.US.15.2:	Use mobility tools, such as a pre-cane, cane, low-vision device, or electronic device, to travel independently.
SP.PK12.US.15.3:	Use environment-specific skills, such as crossing streets, riding in escalators and elevators, and adapting to variations in lighting.
SP.PK12.US.16.1:	Use spatial awareness skills and cardinal directions to orient oneself in the environment.
SP.PK12.US.18.1:	Respond appropriately to offers of assistance when traveling.
SP.PK12.US.18.2:	Solicit necessary assistance when traveling.
SP.PK12.US.18.3:	Use nontraditional devices and adaptive mobility devices, such as wheelchair, walkers, or support canes, as required by the situation.
SP.PK12.US.18.4:	Plan, use, and manage private, public, and para-transit transportation for safe and efficient travel.
SP.PK12.US.19.1b:	Identify personal emotions and feelings and their impact on physical and mental well-being.
SP.PK12.US.19.2b:	Identify ways that personal strengths can compensate for areas of need.
SP.PK12.US.19.3:	Express a range of personal emotions and feelings in a socially acceptable manner.
SP.PK12.US.19.5b:	Use a systematic approach for making decisions about personal needs, including identifying need or problem, determining possible solutions, selecting the best option, accepting consequences and responsibility, and evaluating the effectiveness of the decision.
SP.PK12.US.19.6:	Self-advocate for personal needs in a socially appropriate manner.
SP.PK12.US.19.7b:	Demonstrate self-esteem, self-confidence, and pride, such as through self-affirmations, persistence, and self-monitoring.
SP.PK12.US.20.2:	Respond in a socially appropriate manner to emotions and feelings of others.
SP.PK12.US.20.3:	Identify and maintain behaviors that build positive relationships with peers and adults, including friendships, family relations, and cooperating with peers.
SP.PK12.US.20.4:	Use basic social communication skills to build positive relationships with peers and adults, such as eye contact, facial expressions, gestures, posture, proximity, touch, appearance, and listening.
SP.PK12.US.20.5:	Maintain positive relationships with peers and adults using basic social skills, such as greetings, turn-taking, sharing materials, and giving and accepting assistance.
SP.PK12.US.20.6:	Work cooperatively in small groups to achieve common outcomes.
SP.PK12.US.20.7b:	Use conflict resolution strategies to resolve differences, such as communicate, negotiate, or mediate.
SP.PK12.US.21.1:	Maintain appropriate behavior by following rules in classroom and school settings.
SP.PK12.US.21.2b:	Identify explicit and implicit behaviors that are based on setting demands and social norms, such as acceptable tone of voice and volume, use of turn-taking behaviors, and movement.
SP.PK12.US.21.3:	Use behaviors and social skills based on setting demands and rules when accessing and using resources in the school and community.
SP.PK12.US.21.4:	Use a systematic approach for problem solving and decision making to resolve problems in school, community, and work settings.
SP.PK12.US.21.5:	Use behaviors and skills, such as self-monitoring, accepting feedback, adjusting own actions, and self-reflection to maintain appropriate conduct in school, community, and employment settings.
SP.PK12.US.22.1:	Use appropriate social and interpersonal skills and strategies to interact with peers and adults for various purposes across settings.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

Self-Determination (#7963140)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7963140
Course Section: Exceptional Student Education
Number of Credits: Multiple Credit (more than 1 credit)
Course Status: Draft - Course Pending Approval
Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Special Skills Courses >
Abbreviated Title: SELF-DETERMINATION
Course Length: Year (Y)

VERSION DESCRIPTION

Purpose
The purpose of this course is to enable students with disabilities to apply self-determination and self-advocacy skills in school, home, community, and employment settings. Students will increase self-awareness of personal abilities and develop an understanding of the impact of their own disability on learning and on other areas of life.

Course Requirements

Self-Determination and Self-Advocacy

1. Explain how personal abilities and disability impact learning and other areas of life.
2. Identify own interests, strengths, preferences, needs, and possible resources.
3. Describe factors that impact self-esteem and personal feelings of efficacy.
4. Apply strategies to support positive self-esteem and feelings of efficacy in a variety of situations and settings.
5. Apply skills of self-advocacy and self-determination as appropriate in a variety of situations, including accessing community resources, requesting accommodations, and self-disclosure.

Choice Making and Motivation

6. Make choices based on determination of strengths, interests, and needs; review of possible options; and consideration of consequences in a variety of situations.
7. Assess how internal and external motivation drives personal effort.
8. Employ self-motivation techniques, such as making a list, setting goals, and rewarding accomplishments.

Decision Making and Problem Solving

9. Use effective decision-making strategies and apply problem-solving skills when completing tasks in a variety of situations.
10. Identify problems, examine alternatives, implement solutions, and evaluate results in a variety of situations.

Personal and Social Relationships

11. Use communication skills that promote positive interpersonal relationships in a variety of situations.
12. Identify potential consequences of behavior or communication before interacting with others.
13. Model effective conflict resolution strategies and processes.

Personal and Career Planning

14. Use a systematic planning process to establish and revise short- and long-term goals.
15. Explain high school diploma options and requirements and their impact on postsecondary education/training and career options.
16. Participate effectively in own IEP meeting for transition planning.
17. Explain the components of own IEP.

Leadership

18. Exhibit leadership skills, including guiding or directing others on a positive course of action and appropriately influencing the opinion and behavior of others.
19. Assume leadership roles in various situations, including IEP team meetings.

GENERAL NOTES

Students with disabilities may take this course to assist with their own individual transition planning. At district discretion, students may take this course in middle school for high school credit.

Instructional activities involving practical applications of course requirements may occur in home, school, community, and employment settings for the purposes of training, practice, and validation of skills.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed to address a range of abilities within the population of students with disabilities. Course requirements may be modified based on individual needs.

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

GENERAL NOTES

The purpose of this course is to enable students with disabilities to develop and use expressive and receptive communication skills and strategies effectively in educational, home, community, and employment settings to achieve annual goals based on assessed needs and the student's individual educational plan (IEP).

This course is designed for students with disabilities who need intensive individualized intervention in communication. If the student also receives speech or language therapy, consultation/collaboration with the speech and language pathologist is recommended/required.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis and relate to achievement of annual goals on the student's IEP.

Delivery of this course is setting neutral (resource room, self-contained, embedded instruction, elective course). Instructional activities involving practical applications of course requirements may occur in home, school, community, and employment settings for the purpose of training, practice, generalization, and maintenance of skills. These applications may require that the student use related technology, tools, and equipment.

This course is designed to address a range of abilities within the population of students with disabilities. Course requirements may be added or modified based on assessed needs indicated in the student's IEP.

Grade Level(s): 9, 10, 11, 12	

GENERAL NOTES

The purpose of this course is to enable students with disabilities to acquire and apply skills and strategies to access the general curriculum and achieve annual goals based on assessed needs and the student's individual educational plan (IEP).

This course is designed for students with disabilities who need intensive individualized intervention in curriculum and learning skills and strategies. A student may repeat this course. The particular course requirements that the student should master each year must be specified on an individual basis and relate to achievement of annual goals on the student's IEP.

Delivery of this course is setting neutral (resource room, self-contained, embedded instruction, elective course). Instructional activities involving practical applications of course requirements may occur in home, school, and community settings for the purpose of acquisition, practice, generalization, and maintenance of skills. Course requirements may also require the student to acquire knowledge and skills involved with the use of related technology, tools, and equipment.

This course is designed to address a range of disabilities within the population of students with disabilities. Course requirements may be added or modified based on assessed needs indicated in the student's IEP.

Course Standards

Name	Description
SP.PK12.US.1.1b:	Apply skills and strategies, such as decoding multisyllabic words; analyzing vocabulary, including roots and affixes; making associations; and using visual imagery and mnemonics, to recall and understand information from a variety of media sources.
SP.PK12.US.1.1c:	Apply fundamental skills and strategies (associating objects, pictures, and symbols with words and concepts, recognizing and decoding words, and paraphrasing and summarizing text) to recall and understand information from visual, print, and/or digital text or audio presentations for real-world application, such as completing assignments in school, recognizing signs and environmental print, reading schedules and maps, and using a menu.
SP.PK12.US.1.2b:	Use skills and strategies to link information with other cues, such as mnemonics, visual imagery, and links to prior knowledge, to increase recall and comprehension.
SP.PK12.US.1.2c:	Apply skills and strategies (scanning, predicting, paraphrasing/ summarizing, rereading, inferencing, retelling, self-questioning, note taking, outlining, and interpreting text structure) to gain information from a variety of media sources and instructional presentations.
SP.PK12.US.1.3b:	Apply fundamental skills and strategies in written communication, such as using personal information, making lists and completing forms, forming sentences and organizing ideas into paragraphs, letters, or stories.
SP.PK12.US.1.3c:	Apply skills and strategies in written communication, including setting a purpose for writing, creating complete simple and complex sentences, and organizing information into different types of paragraphs and essays.
SP.PK12.US.1.4b:	Apply skills and strategies in mathematical concepts and processes and/or computational fluency, such as financial literacy skills, algebraic problem solving, estimation skills, measurement and geometry skills, and comprehension of graphs, tables, and charts.
SP.PK12.US.1.5:	Use effective test-taking skills and strategies, such as previewing, allocating time, outlining response to essays and short and extended responses, and reviewing answers.

SP.PK12.US.2.1b:	Use effecting task-completion strategies, such as identifying needed resources, planning steps for completion, and self-monitoring.
SP.PK12.US.2.2b:	Use effective time-management, planning, and organization skills and strategies, including using a visual schedule or daily planner, setting goals and priorities, and locating, organizing, and sorting information.
SP.PK12.US.3.1b:	Apply skills and strategies to solve personal, school, community, and work problems.
SP.PK12.US.3.2a:	Use appropriate social skills and strategies to interact with peers and adults across settings, such as cooperative learning, participating in small and large groups, accepting feedback, and resolving conflicts.
SP.PK12.US.3.3b:	Participate effectively in academic and career planning, including, but not limited to, the IEP, course selection, course of study, post secondary goals, and the transition process.
SP.PK12.US.3.4:	Apply skills that promote self-awareness and goal setting to meet educational and personal needs to increase self-determination, including use of accommodations and assistive tools, as appropriate.
SP.PK12.US.3.5:	Use instructional and assistive technology to locate and access information, participate in computer-based instruction or testing, solve mathematical problems, create documents or images, and communicate with others.
SP.PK12.US.3.6:	Use effective time management and organization skills and strategies to complete class and work assignments.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

Speech and Auditory Training: 9–12 (#7963180)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7963180	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Special Skills Courses >
Number of Credits: Multiple Credit (more than 1 credit)	Abbreviated Title: SPEECH & AUDIT TRAIN
Course Status: Draft - Course Pending Approval	Course Length: Semester (S)
Keywords: speech and auditory training: 9-12, secondary education, high school education, special skills course, exceptional student education	

GENERAL NOTES

The purpose of this course is to enable students who are deaf or hard-of-hearing to develop speech and auditory skills necessary to achieve annual goals based on assessed needs and the student's individual educational plan (IEP).

This course is designed for students who are deaf or hard-of-hearing whose IEP indicates the need for speech and auditory training. The outcomes that the student should achieve must be specified on an individual basis and relate to achievement of annual goals on the student's IEP.

Instructional activities should be age appropriate and include a variety of learning opportunities. Activities involving practical applications may occur in home, school, community, and employment settings for the purpose of acquisition, practice, generalization, and maintenance of skills.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Certification Requirement:

- HEAR IMPRD 6
- SPCH CORR @6
- SP LG IMPR 6
- LIC SP LG PATH
- SP LG ASSOC 6
- SLPA

Licensure through the Florida Department of Health or certification through the Florida Department of Education

Course Standards

Name	Description
SP.PK12.SA.1.1:	Discriminate, identify, and produce suprasegmental elements of speech, including pitch, loudness, and duration.
SP.PK12.SA.2.1:	Discriminate, identify, and produce vowel, diphthong, and consonant sounds by manner and place of articulation and voicing.
SP.PK12.SA.3.1:	Discriminate, identify, and produce sounds correctly in words and connected speech in a meaningful way.
SP.PK12.SA.5.1:	Maintain (clean, care for, and troubleshoot) personal listening device.
SP.PK12.SA.5.2:	Advocate for appropriate accommodations to compensate for deafness or hearing loss.
SP.PK12.SA.6.1:	Demonstrate awareness of speech and nonspeech sounds.
SP.PK12.SA.7.1:	Listen to, retrieve, and imitate speech and spoken language.
SP.PK12.SA.8.1:	Indicate similarities and differences between two or more sounds or spoken words.
SP.PK12.SA.9.1:	When given a set of choices, identify words, phrases, and sentences that differ by manner, voicing, and place of articulation.
SP.PK12.SA.10.1:	Demonstrate understanding of spoken language by responding in a meaningful way (listening to learn).
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

Research Methodology for Students who are Gifted (#7965010)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7965010	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Gifted >
Course Section: Exceptional Student Education	Abbreviated Title: MTH STUS GIFTED
Number of Credits: Multiple Credit (more than 1 credit)	
Course Status: Draft - Course Pending Approval	Class Size? Yes
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

This course will develop an understanding of research methods and strategies that manifest themselves in a variety of disciplines and intellectual pursuits. Research methodology, in this context, includes both research done for academic pursuits as well as that which is pursued for personal interest. Methods of analysis, of discerning the importance and nature of differing sources, and the pursuit of further study are all significant parts of the activities that embody research.

Students who are gifted have learning needs that go beyond what is traditionally offered in the regular classroom. The nature of their abilities, demonstrated or latent, requires differentiated learning experiences and opportunities for them to maximize their potential. Teachers need to develop the depth and quality of their students' experiences while adjusting the pace to meet individual needs.

This gifted course has been designed for the teacher to select and teach only the appropriate standards corresponding to a student's individual instructional needs.

Major Concepts/Content. The purpose of this course is to provide appropriately individualized curricula for students who are gifted.

The content should include, but not be limited to the following:

- develop a broad range of research methods
- pursue further study in areas and ideas of significant interest
- use research methodology appropriate for a selected discipline or area of study
- conduct and integrate research in multiple fields/studies
- employ primary and secondary resource materials in research methods
- apply the use of technology to search for information, manage projects
- explore creative expression through a variety of cognitive avenues
- produce a variety of meaningful products

English Language Development (ELD) Standards Special Notes Section: Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

VERSION REQUIREMENTS

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.

3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.

4. Requiring students to support answers with evidence from the text.

5. Providing extensive text-based research and writing opportunities (claims and evidence).

Special Note

This entire course may not be mastered in one year. A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis.

Instructional activities used to meet course requirements and address individual student needs may occur in schools, communities, museums, institutions of higher education, or other appropriate scientific or cultural organizations. Instruction in these settings may require that students acquire specialized knowledge and skills, including the use of advanced technology, special tools, and equipment; terminology; and methodologies essential to the student’s research.

It is necessary to implement a combination of research-based standards and strategies that have been proven successful in accelerating the development of research skills in gifted students. The instructional approaches should meet the needs of each student based on results of individual portfolios, assessments, and progress monitoring.

Course Standards

Integrate Florida Standards for Mathematical Practice (MP) as applicable.

- MAFS.K12.MP.1.1 Make sense of problems and persevere in solving them.
- MAFS.K12.MP.3.1 Construct viable arguments and critique the reasoning of others.
- MAFS.K12.MP.5.1 Use appropriate tools strategically.
- MAFS.K12.MP.6.1 Attend to precision.

Name	Description
LAFS.K12.R.1.1:	Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
LAFS.K12.R.1.2:	Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
LAFS.K12.R.1.3:	Analyze how and why individuals, events, and ideas develop and interact over the course of a text.
LAFS.K12.R.2.4:	Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
LAFS.K12.R.2.5:	Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
LAFS.K12.R.2.6:	Assess how point of view or purpose shapes the content and style of a text.
LAFS.K12.R.3.7:	Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
LAFS.K12.R.3.8:	Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
LAFS.K12.R.3.9:	Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.
LAFS.K12.R.4.10:	Read and comprehend complex literary and informational texts independently and proficiently.
LAFS.K12.W.1.1:	Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
LAFS.K12.W.1.2:	Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
LAFS.K12.W.1.3:	Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.
LAFS.K12.W.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.K12.W.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
LAFS.K12.W.2.6:	Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.
LAFS.K12.W.3.7:	Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
LAFS.K12.W.3.8:	Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
LAFS.K12.W.3.9:	Draw evidence from literary or informational texts to support analysis, reflection, and research.
LAFS.K12.W.4.10:	Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.
LAFS.K12.SL.1.1:	Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others’ ideas and expressing their own clearly and persuasively.
LAFS.K12.SL.1.2:	Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.
LAFS.K12.SL.1.3:	Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric.
LAFS.K12.SL.2.4:	Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.
LAFS.K12.SL.2.5:	Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
LAFS.K12.SL.2.6:	Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.
LAFS.K12.L.1.1:	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
LAFS.K12.L.1.2:	Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

LAFS.K.12.L.2.3:	Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.
LAFS.K.12.L.3.4:	Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
LAFS.K.12.L.3.5:	Demonstrate understanding of word relationships and nuances in word meanings.
LAFS.K.12.L.3.6:	Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.
G.K.12.1.1.1a:	Nature of Knowledge - Know: Locate and list the general divisions of knowledge, i.e., art, science, humanities, etc., and recognize integrated fields and disciplines.
G.K.12.1.1.1b:	Nature of Knowledge - Understand: Identify and define a field of interest and analyze how the field is organized by explaining what criteria define the discipline and how those criteria are organized and divided.
G.K.12.1.1.1c:	Nature of Knowledge - Perform: Differentiate fact, concept, theory, and principle and employ each in developing meaning and knowledge.
G.K.12.1.1.1d:	Nature of Knowledge - Accomplish: Construct own meaning within a chosen field and offer new contributions to this respective field of study.
G.K.12.1.1.2a:	Basic Research - Know: Identify and locate basic reference sources that support general research in several disciplines.
G.K.12.1.1.2b:	Basic Research - Understand: Analyze the relevance and usefulness of primary and secondary references while identifying how fields are organized and subdivided.
G.K.12.1.1.2c:	Basic Research - Perform: Use multiple primary and secondary sources to analyze, synthesize, and evaluate relevant persons, places, events, or beliefs that are dominant in a field.
G.K.12.1.1.2d:	Basic Research - Accomplish: Use a variety of professional journals, professional databases, and college textbooks to make connections between and/or among fields of discipline.
G.K.12.1.1.3a:	Manipulation of Data - Know: Manipulate data in order to determine contributions of the discipline to the community and world.
G.K.12.1.1.3b:	Manipulation of Data - Understand: Seek and identify connections between fields to make sense of patterns and trends.
G.K.12.1.1.3c:	Manipulation of Data - Perform: Construct research questions that help interpret the effects of major trends and issues over time.
G.K.12.1.1.3d:	Manipulation of Data - Accomplish: Develop themes and connections across historical events, periods, and fields.
G.K.12.1.1.4a:	Organization of Data - Know: Create or select an existing system for organizing data in a sequence.
G.K.12.1.1.4b:	Organization of Data - Understand: Construct an organizational system (i.e., knowledge tree, graphic organizer, or diagram) that represents and illustrates the organization in a field of study and the subdivisions within that field.
G.K.12.1.1.4c:	Organization of Data - Perform: Identify and illustrate themes, patterns, and structures that define an area of study.
G.K.12.1.1.4d:	Organization of Data - Accomplish: Challenge (and defend or justify the challenge) accepted bodies of knowledge and organizational methodologies.
G.K.12.1.2.1a:	Conceptual Frameworks - Know: Formulate questions to determine the relevance of the skills and knowledge required of a discipline.
G.K.12.1.2.1b:	Conceptual Frameworks - Understand: Demonstrate understanding of conceptual themes and their organizational opportunities within a body of knowledge.
G.K.12.1.2.1c:	Conceptual Frameworks - Perform: Create graphic organizers that organize the logical sequences of key conceptual themes in a field of study.
G.K.12.1.2.1d:	Conceptual Frameworks - Accomplish: Analyze data and research methods used and developed by scholars within a field; internalize conceptual themes of that (those) discipline(s).
G.K.12.1.2.1e:	Conceptual Frameworks - Know: Identify established rules or laws (principles) of nature which impact daily life and draw conclusions regarding their role in the world of work.
G.K.12.1.2.1f:	Conceptual Frameworks - Understand: Differentiate similarities and differences between functional concepts and principles within a field.
G.K.12.1.2.1g:	Conceptual Frameworks - Perform: Assimilate the often conflicting nature of knowledge generated within integrated disciplines.
G.K.12.1.2.1h:	Conceptual Frameworks - Accomplish: Critique accepted conventions and rules and identify ambiguity.
G.K.12.1.2.2a:	Components and Methodologies - Know: Identify and use terminology authentic to a chosen discipline of knowledge.
G.K.12.1.2.2b:	Components and Methodologies - Understand: Create a list of the methodological skills and processes (general and specific) used by practicing professionals in a field.
G.K.12.1.2.2c:	Components and Methodologies - Perform: Demonstrate an understanding of and delineate the diversity of language, tools, and methodologies between and among disciplines.
G.K.12.1.2.2d:	Components and Methodologies - Accomplish: Experiment with a variety of methods to analyze data to develop greater understanding.
G.K.12.1.2.3a:	Conceptual Connections - Know: Identify essential principles that govern and drive a series of key concepts in a chosen field.
G.K.12.1.2.3b:	Conceptual Connections - Understand: Demonstrate foundational knowledge of various fields and disciplines.
G.K.12.1.2.3c:	Conceptual Connections - Perform: Analyze and synthesize concepts and principles within a discipline in order to isolate essential concepts and identify macroconcepts.
G.K.12.1.2.3d:	Conceptual Connections - Accomplish: Apply and transfer understanding to other disciplines.
G.K.12.5.1.1a:	Consensus Building - Know: Recognize the essential need to respect the ideas, feelings, and abilities of others.
G.K.12.5.1.1b:	Consensus Building - Understand: Demonstrate a greater awareness of others through participation in programs and projects that emphasize service to others.
G.K.12.5.1.1c:	Consensus Building - Perform: Use diverse individual beliefs and values of the group to design plans of action that address issues or problems.
G.K.12.5.1.1d:	Consensus Building - Accomplish: Defend the results and gain support for a plan of action to address issues or problems within a diverse population.
G.K.12.5.1.2a:	Personal Qualities - Know: Identify personal strengths and weaknesses that influence positive group dynamics.
G.K.12.5.1.2b:	Personal Qualities - Understand: Recognize leadership patterns and behaviors that positively affect change in a group.
G.K.12.5.1.2c:	Personal Qualities - Perform: Improve group performances through individual strengths and collaborative rules of courtesy and order.
G.K.12.5.1.2d:	Personal Qualities - Accomplish: Analyze positive and negative aspects of leadership that drive the beliefs and values of a diverse group.
G.K.12.5.1.2e:	Personal Qualities - Know: Identify personal abilities, talents, strengths and weaknesses for certain tasks, recognizing the power to influence one's own destiny.
G.K.12.5.1.2f:	Personal Qualities - Understand: Compare and contrast the personal and academic goals of self and others in order to build cohesion.
G.K.12.5.1.2g:	Personal Qualities - Perform: Demonstrate the ability to state personal preferences and support a personal point of view when contrary to the accepted view of others.
G.K.12.5.1.2h:	Personal Qualities - Accomplish: Design, plan, and evaluate a plan of action to address an issue or problem of personal interest.
G.K.12.5.1.3a:	Conflict Resolution - Know: Verbalize an awareness of the cause/effect relationship of his/her behavior within a group setting.

G.K12.5.1.3b:	Conflict Resolution - Understand: Generate a list of solutions to a group conflict, predicting possible concomitant results that might impact the group.
G.K12.5.1.3c:	Conflict Resolution - Perform: Implement conflict management and resolution techniques to bring about positive change.
G.K12.5.1.3d:	Conflict Resolution - Accomplish: Reflect upon the effectiveness of conflict management and resolution techniques used to develop strategies for future group problem solving.
G.K12.1.3.1a:	Skill Development - Know: Locate relevant information about varied professionals and identify personal strengths that may contribute to the field.
G.K12.1.3.1b:	Skill Development - Understand: Compare and contrast job descriptions, methods of working, and challenges faced by various practicing professionals to determine relevance to personal needs and goals.
G.K12.1.3.1c:	Skill Development - Perform: Use and refine the skills and methods of a professional in a discipline.
G.K12.1.3.1d:	Skill Development - Accomplish: Seek an understanding of the ethical issues and standards that frame a discipline.
G.K12.1.3.2a:	Management of Data for Research - Know: Identify a list of methods manuals, "How To" books, and other resources to research methodologies used by practitioners.
G.K12.1.3.2b:	Management of Data for Research - Understand: Compare and contrast general and specific methods of research used by practitioners to seek answers to viable professional questions.
G.K12.1.3.2c:	Management of Data for Research - Perform: Use appropriate data gathering instruments needed for a research study.
G.K12.1.3.2d:	Management of Data for Research - Accomplish: Apply the scientific method naturally, i.e., identify routine problem areas, focus the problem, state hypotheses, locate resources, classify and organize data, draw conclusions, and report findings.
G.K12.1.3.3a:	Investigative Methodologies - Know: Identify content area specialists to establish a sense of cause and effect within a field.
G.K12.1.3.3b:	Investigative Methodologies - Understand: Understand, identify, and analyze relationships among variables, constants, and controls in research.
G.K12.1.3.3c:	Investigative Methodologies - Perform: Apply the indicators that reflect quality in a field and understand how the field measures success.
G.K12.1.3.3d:	Investigative Methodologies - Accomplish: Challenge existing theories, principles, and rules through research and experimentation.
G.K12.1.3.4a:	Support Structures - Know: Recognize and identify the need for support structures found within a designated field of study and establish the nature of specific supports.
G.K12.1.3.4b:	Support Structures - Understand: Recognize the values and perspectives of those who hold opposing views within the discipline.
G.K12.1.3.4c:	Support Structures - Perform: Interview content area specialists to verify the application of methodologies incorporated in a study.
G.K12.1.3.4d:	Support Structures - Accomplish: Collaborate with professionals, experts, and others in the field to advance research, development, and understanding in the field.
G.K12.5.2.1a:	Problem Solving - Know: Identify characteristics that empower an individual to be a proficient, creative problem solver.
G.K12.5.2.1b:	Problem Solving - Understand: Recognize and emulate effective implementation of creative problem solving skills.
G.K12.5.2.1c:	Problem Solving - Perform: Simulate a creative problem solving encounter with a diverse group of individuals.
G.K12.5.2.1d:	Problem Solving - Accomplish: Analyze the productivity of the group's response to the problem following the conclusion of a creative problem solving experience.
G.K12.5.2.2a:	Diversity - Know: Identify in individuals the qualities of empathy and sensitivity to the ideas of others.
G.K12.5.2.2b:	Diversity - Understand: Promote diversity in talents and intellectual abilities of each member of the group.
G.K12.5.2.2c:	Diversity - Perform: Display flexibility when incorporating individual beliefs and values toward goal attainment.
G.K12.5.2.2d:	Diversity - Accomplish: Analyze diverse leadership styles of outstanding leaders and evaluate the impact to one's own personal leadership skills.
G.K12.5.2.3a:	Self-awareness - Know: Identify personal attributes as areas of strength or weakness.
G.K12.5.2.3b:	Self-awareness - Understand: Differentiate between individual strengths and weaknesses as motivators and/or limiters.
G.K12.5.2.3c:	Self-awareness - Perform: Demonstrate an understanding of positive self-worth and recognize limits in the emotional capacity of individuals.
G.K12.5.2.3d:	Self-awareness - Accomplish: Celebrate self-advocacy as a personal strength; accept weaknesses as an opportunity for change.
G.K12.5.3.1a:	Group Dynamics - Know: Adhere to the established rules of interaction in accepting and respecting consensus.
G.K12.5.3.1b:	Group Dynamics - Understand: Demonstrate the ability to convey to group members good decision making skills.
G.K12.5.3.1c:	Group Dynamics - Perform: Stimulate group discussion and decision making by asking appropriate questions.
G.K12.5.3.1d:	Group Dynamics - Accomplish: Direct the group through an analysis and synthesis of the final solution to the achievement of a project goal.
G.K12.5.3.2a:	Communication - Know: Convey information, concepts, and ideas using appropriate and advanced techniques.
G.K12.5.3.2b:	Communication - Understand: Show an awareness of the experiences, needs, and concerns of others in the communication process.
G.K12.5.3.2c:	Communication - Perform: Solidify group cohesion toward an assigned task using both verbal and non-verbal skills.
G.K12.5.3.2d:	Communication - Accomplish: Analyze and synthesize the presentation skills necessary to communicate ideas, information, concerns, and solutions to a project goal.
G.K12.5.3.3a:	Technology - Know: Identify appropriate technology to achieve a project goal.
G.K12.5.3.3b:	Technology - Understand: Demonstrate the ability to propose new uses for current technology.
G.K12.5.3.3c:	Technology - Perform: Integrate information systems in the problem solving process.
G.K12.5.3.3d:	Technology - Accomplish: Use information systems to identify and analyze trends and events in order to forecast future implications.
G.K12.5.3.4a:	Cooperative Learning - Know: Recognize positive interdependence as a basic tenet.
G.K12.5.3.4b:	Cooperative Learning - Understand: Convey an understanding of the importance of group cohesiveness and pride.
G.K12.5.3.4c:	Cooperative Learning - Perform: Demonstrate the ability to work with peers from a variety of cultures and ability levels respecting individual strengths, talents, and learning styles.
G.K12.5.3.4d:	Cooperative Learning - Accomplish: Display flexibility in the incorporation of individual beliefs and values in the completion of a goal while recognizing the diversity of group members.
G.K12.6.1.1a:	Metacognition - Know: Identify and use numerous tools to recognize personal strengths/weaknesses, learning styles/preferences.
G.K12.6.1.1b:	Metacognition - Understand: Interpret assessments and identify skills/abilities necessary for professional performance in a field of study.
G.K12.6.1.1c:	Metacognition - Perform: Recognize challenges and create goals for developing expertise in a field of study.
G.K12.6.1.1d:	Metacognition - Accomplish: Evaluate and refocus goals and the path to accomplishment through self- reflection and evaluation.
G.K12.6.1.2a:	Learning Profile - Know: Recognize the components of personal learning preferences.
G.K12.6.1.2b:	Learning Profile - Understand: Reflect on learning/work preferences to identify themes and changes over time.
G.K12.6.1.2c:	Learning Profile - Perform: Compare how components of learning preferences align with professionals in a field of study.
G.K12.6.1.2d:	Learning Profile - Accomplish: Use learning/work preferences to develop products in one or more disciplines.
G.K12.6.1.3a:	Acceptance of Challenge - Know: Recognize the need to accomplish tasks in areas of both strength and weakness.
G.K12.6.1.3b:	Acceptance of Challenge - Understand: Identify strategies and resources to overcome obstacles.
G.K12.6.1.3c:	Acceptance of Challenge - Perform: Return to a task that was not successful; evaluate alternatives and seek support from outside resources.
G.K12.6.1.3d:	Acceptance of Challenge - Accomplish: Seek opportunities to try new experiences in areas of strengths and weaknesses.

G.K12.6.1.4a:	Evaluation - Know: Use evaluation of previous tasks to improve performance.
G.K12.6.1.4b:	Evaluation - Understand: Review progress toward accepting challenges in various areas.
G.K12.6.1.4c:	Evaluation - Perform: Reflect on failures and successes through self evaluation; acknowledge constructive criticism.
G.K12.6.1.4d:	Evaluation - Accomplish: Solicit feedback from professionals related to projects and synthesize critiques into personal growth.
G.K12.2.1.1a:	The Nature of Questions - Know: Identify questions as seeking basic information and facts in singular disciplines.
G.K12.2.1.1b:	The Nature of Questions - Understand: See potential for questions to explore broader aspects of knowledge, moving toward speculative and evaluative aspects.
G.K12.2.1.1c:	The Nature of Questions - Perform: Recognize that questions connect disciplines and build better frameworks for thinking.
G.K12.2.1.1d:	The Nature of Questions - Accomplish: Seek and use questions that connect divergent disciplines in order to expand understanding.
G.K12.2.1.2a:	The Importance of Questions - Know: Identify and situate questions within a singular discipline's method of inquiry.
G.K12.2.1.2b:	The Importance of Questions - Understand: Analyze and synthesize questions that connect methods of inquiry in different disciplines.
G.K12.2.1.2c:	The Importance of Questions - Perform: Order/categorize questions that link divergent disciplines and frame different inquiry methods.
G.K12.2.1.2d:	The Importance of Questions - Accomplish: Use questions that frame inquiry within divergent disciplines in order to understand the links between and/or among the disciplines.
G.K12.2.1.3a:	The Power of Questions - Know: Explain the function of questions within singular disciplines.
G.K12.2.1.3b:	The Power of Questions - Understand: Understand the function of questions to connect multiple disciplines.
G.K12.2.1.3c:	The Power of Questions - Perform: Demonstrate an initial use of questions to drive critical thought within a discipline.
G.K12.2.1.3d:	The Power of Questions - Accomplish: Manifest an understanding of the integrative nature and function of questions that drive inquiry in multiple disciplines.
G.K12.2.2.1a:	Question Creation - Know: Create questions that drive factual exploration within singular disciplines.
G.K12.2.2.1c:	Question Creation - Perform: Manipulate ideas to create and organize questions that drive inquiry and connect divergent disciplines.
G.K12.2.2.1b:	Question Creation - Understand: Unite questions that drive broader exploration within disciplines.
G.K12.2.2.1d:	Question Creation - Accomplish: Use questions that link divergent disciplines to develop personal understandings of experiences.
G.K12.2.2.2a:	Questions and Inquiry - Know: Explain the kind of information questions seek.
G.K12.2.2.2b:	Questions and Inquiry - Understand: Explain how the questions limit and/or expand the nature of the exploration.
G.K12.2.2.2c:	Questions and Inquiry - Perform: Use questions to refocus the nature of the inquiry.
G.K12.2.2.2d:	Questions and Inquiry - Accomplish: Use questions to situate personal interest and background within the inquiry.
G.K12.6.2.1a:	Independence - Know: Recognize the need to set goals for assigned tasks.
G.K12.6.2.1b:	Independence - Understand: Systematically approach setting and modifying goals with support from teachers and/or peers.
G.K12.6.2.1c:	Independence - Perform: Document failures as a learning tool and alter plans when appropriate.
G.K12.6.2.1d:	Independence - Accomplish: Incorporate a system of goal-setting as a lifelong learner.
G.K12.6.2.2a:	Self-Motivation - Know: Follow directions to complete a task.
G.K12.6.2.2b:	Self-Motivation - Understand: Take initiative to complete tasks.
G.K12.6.2.2c:	Self-Motivation - Perform: Demonstrate persistence in returning to tasks and overcoming obstacles; adhere to timelines and other benchmarks.
G.K12.6.2.2d:	Self-Motivation - Accomplish: Strive for professional quality in self-selected projects and performances.
G.K12.6.2.3a:	Priority - Know: Identify a number of long and short-term goals and distinguishes between them.
G.K12.6.2.3b:	Priority - Understand: Prioritize goals by importance, time, resources, and sustainability.
G.K12.6.2.3c:	Priority - Perform: Evaluate and anticipate how controllable and non- controllable events and behavior affect goal achievement.
G.K12.6.2.3d:	Priority - Accomplish: Exercise visionary thinking and focus on the future to adjust and readjust goals.
G.K12.6.2.4a:	Critical Reflection - Know: Identify assumptions, beliefs, values, cultural practices, and social structures to assess impact.
G.K12.6.2.4b:	Critical Reflection - Understand: Analyze assumptions in relation to specific historical and cultural context.
G.K12.6.2.4c:	Critical Reflection - Perform: Propose alternative ways of thinking to challenge prevailing ways of knowing and acting.
G.K12.6.2.4d:	Critical Reflection - Accomplish: Question patterns of action to establish truth or viability of a proposition or action.
G.K12.2.3.1a:	Questions Scrutinized - Know: Recognize the quality of questions (both identified and created) that frame singular disciplinary inquiry.
G.K12.2.3.1b:	Questions Scrutinized - Understand: Explain the quality of questions (both identified and created) that work to expand inquiry into integrated disciplines.
G.K12.2.3.1c:	Questions Scrutinized - Perform: Evaluate questions (both identified and created) as a regular component of personal research and exploration.
G.K12.2.3.1d:	Questions Scrutinized - Accomplish: Explore the nature of questioning, always aware that better questions deliver the potential for more complete information.
G.K12.2.3.2a:	Questions Revised - Know: Refine questions as directed so they explore a clearer line of inquiry within a single discipline.
G.K12.2.3.2b:	Questions Revised - Understand: Synthesize questions as directed so they explore a clearer line of inquiry and integrate disciplines.
G.K12.2.3.2c:	Questions Revised - Perform: Develop questions spontaneously and independently while conducting personal research and exploration.
G.K12.2.3.2d:	Questions Revised - Accomplish: Refine questions as a general practice or characteristic of intellectual pursuit.
G.K12.3.1.1a:	Cooperative Research - Know: Participate in a cooperative group to solve problems and/or complete a research project.
G.K12.3.1.1b:	Cooperative Research - Understand: Demonstrate ethical leadership and/or teamwork within a research workgroup.
G.K12.3.1.1c:	Cooperative Research - Perform: Work cooperatively with peers from a variety of perspectives and abilities while obtaining valid research and/or products from research.
G.K12.3.1.1d:	Cooperative Research - Accomplish: Integrate a variety of appropriate components uncovered from cooperative research within a field of study.
G.K12.3.1.2a:	Scientific Method - Know: Demonstrate the ability to gather and document data relevant to scientific investigations using the scientific method.
G.K12.3.1.2b:	Scientific Method - Understand: Analyze the impact or effect of chosen alternatives (variables) within the scientific method.
G.K12.3.1.2c:	Scientific Method - Perform: Construct scientific research using proper protocol for scientific study.
G.K12.3.1.2d:	Scientific Method - Accomplish: Use scientific method to produce products or solutions to problems in a research setting and in a non-research setting.
G.K12.3.1.3a:	Research Tools - Know: Recognize organizational tools used for research in a variety of fields.
G.K12.3.1.3b:	Research Tools - Understand: Use organizational strategies to generate ideas for research and/or creative products.
G.K12.3.1.3c:	Research Tools - Perform: Communicate results of research using the established organizational tools within a field of study.
G.K12.3.1.3d:	Research Tools - Accomplish: Create unique tools that incorporate a variety of methods of communication/ organization for the clarification of others about a field of study.
G.K12.6.3.1a:	Communication - Know: Communicate recognition of personal growth in areas of weakness and areas of strength.

G.K12.6.3.1b:	Communication - Understand: Use appropriate and field- specific language to describe challenges in a variety of areas; goals are well-defined and specific.
G.K12.6.3.1c:	Communication - Perform: Design oral and written plans to set goals and identify steps toward goal achievement and use those plans in work.
G.K12.6.3.1d:	Communication - Accomplish: Reflect on appropriateness of designed goal-setting plans; alter plans when appropriate; make future plans for goal achievement based on successes/failures.
G.K12.6.3.2a:	Talent Development - Know: Identify stages of talent development within a body of content.
G.K12.6.3.2b:	Talent Development - Understand: Evaluate personal levels of achievement and align them with levels of talent development.
G.K12.6.3.2c:	Talent Development - Perform: Produce high-quality products and performances that advance through a field's level of talent development.
G.K12.6.3.2d:	Talent Development - Accomplish: Develop products and performances of professional quality through individual strengths in relationship to fields of study.
G.K12.6.3.3a:	Action Plan Components - Know: Demonstrate knowledge of steps toward goal achievement.
G.K12.6.3.3b:	Action Plan Components - Understand: Develop goals and objectives that are realistic and systematic.
G.K12.6.3.3c:	Action Plan Components - Perform: Action plans include appropriate allocation of time, money, materials, and other resources.
G.K12.6.3.3d:	Action Plan Components - Accomplish: Action plan include components of evaluation, multiplicity of solutions to overcome obstacles, and recruitment of supporters and resources.
G.K12.6.3.4a:	Social Context - Know: Recognize how goals of self and others interconnect.
G.K12.6.3.4b:	Social Context - Understand: Establish goals for self that acknowledge goals of peers and others.
G.K12.6.3.4c:	Social Context - Perform: Assume responsibility for developing and managing goals that contribute to personal and group attainment.
G.K12.6.3.4d:	Social Context - Accomplish: Incorporate multiple points of view to develop long-term personal and collective goals in various contexts (educational, social, political, career).
G.K12.3.2.1a:	Information in Multiple Contexts - Know: Identify and locate information available in a multitude of places, including newspapers, magazines, catalogues, Internet directories, time schedules, and media, all of which include local, state, national, and/or international sources.
G.K12.3.2.1b:	Information in Multiple Contexts - Understand: Analyze the relevance and usefulness of information for the completion of a specific task.
G.K12.3.2.1c:	Information in Multiple Contexts - Perform: Generate, classify, and evaluate ideas, objects, and/or events in a unique way to construct original projects that illustrate solutions to real-world problems and concerns.
G.K12.3.2.1d:	Information in Multiple Contexts - Accomplish: Assemble ideas, objects, and/or events from a variety of sources (primary and secondary) to conduct research in a field of study.
G.K12.3.2.1e:	Information in Multiple Contexts - Know: Use a systematic approach to locate information from a variety of reference materials, including the use of parts of a book,(e.g., table of contents, index, appendices, glossary, index, title page).
G.K12.3.2.1f:	Information in Multiple Contexts - Understand: Use appropriate accurate information for research and experimentation to create an original work.
G.K12.3.2.1g:	Information in Multiple Contexts - Perform: Use multiple secondary and primary sources to analyze, synthesize, and evaluate relevant details and facts to examine relationships, infer meanings, define relationships, and predict outcomes.
G.K12.3.2.1h:	Information in Multiple Contexts - Accomplish: Analyze and synthesize information and concepts contained in multiple sources and communicates results in a unique way, i.e., designing a better model or creating a simulation.
G.K12.3.3.1a:	Deductive and Inductive Reasoning - Know: Demonstrate the ability to retrieve information from a reliable data base.
G.K12.3.3.1b:	Deductive and Inductive Reasoning - Understand: Describe the nature of an argument, the degree of ambiguity, and the source (deductive/inductive) of the argument's authority.
G.K12.3.3.1c:	Deductive and Inductive Reasoning - Perform: Critique and defend statements of deductive and inductive reasoning.
G.K12.3.3.1d:	Deductive and Inductive Reasoning - Accomplish: Implement deductive and/or inductive reasoning within discussion and/or product development in a field of study.
G.K12.3.3.1e:	Deductive and Inductive Reasoning - Know: Define deductive and inductive reasoning and distinguish the different thought processes each uses.
G.K12.3.3.1f:	Deductive and Inductive Reasoning - Understand: Explain whether an argument depends on ambiguity, a shift in the line of reasoning, or whether the alleged authority is reliable.
G.K12.3.3.1g:	Deductive and Inductive Reasoning - Perform: Evaluate judgments made within the context of an argument.
G.K12.3.3.1h:	Deductive and Inductive Reasoning - Accomplish: Bring consistent use of different reasoning types to active study and research in a field.
G.K12.3.3.2a:	Fact versus Opinion - Know: Identify fact and opinion and recognizes the important implications for each.
G.K12.3.3.2b:	Fact versus Opinion - Understand: Juxtapose opinions and facts from multiple sources to support or validate conclusions.
G.K12.3.3.2c:	Fact versus Opinion - Perform: Analyze opinions and facts of experts within a research field.
G.K12.3.3.2d:	Fact versus Opinion - Accomplish: Create, defend, and adapt opinions developed after the analysis of data within a variety of fields.
G.K12.7.1.1a:	Audience Recognition - Know: Identify an authentic audience based on set criteria related to a specific topic.
G.K12.7.1.1b:	Audience Recognition - Understand: Communicate recognition of audience members' strengths and needs.
G.K12.7.1.1c:	Audience Recognition - Perform: React and refine performance based on audiences' strengths and needs.
G.K12.7.1.1d:	Audience Recognition - Accomplish: Communicate intentional reaction to subtle and overt feedback from audience.
G.K12.7.1.2a:	Communication - Know: Prepare and execute practiced performance to communicate ideas.
G.K12.7.1.2b:	Communication - Understand: Integrate ideas with visual supports to emphasize key point(s) in a performance.
G.K12.7.1.2c:	Communication - Perform: Identify personal presentation style and adapt that style to different purposes, moods, tones.
G.K12.7.1.2d:	Communication - Accomplish: Demonstrate evidence of refining a performance to communicate personal style.
G.K12.7.1.3a:	Advanced Presentation - Know: Use advanced language and symbol systems to communicate ideas.
G.K12.7.1.3b:	Advanced Presentation - Understand: Evaluate the personal preferences of others related to language and symbol systems.
G.K12.7.1.3c:	Advanced Presentation - Perform: Evaluate self in the area of presentation, language, and symbol systems.
G.K12.7.1.3d:	Advanced Presentation - Accomplish: Based on evaluation, revise and adapt presentation, language, and symbol systems for specific and various audiences.
G.K12.7.1.4a:	Problem Solving - Know: Create product to solve a problem or communicate a perspective.
G.K12.7.1.4b:	Problem Solving - Understand: Use strategies or tools of persuasion to resolve an issue or communicate a perspective.
G.K12.7.1.4c:	Problem Solving - Perform: Create specific strategies targeted at opposing viewpoints/perspectives.
G.K12.7.1.4d:	Problem Solving - Accomplish: Address critics with prepared, defensible arguments that effectively defend solutions.
G.K12.3.4.1a:	Ethics - Know: Identify ethical concerns related to the use of knowledge (copyright, security, integrity, piracy, privacy, etc.).
G.K12.3.4.1b:	Ethics - Understand: Explain ethical standards in regard to intellectual effects on research outcomes.
G.K12.3.4.1c:	Ethics - Perform: Clarify and develop a personal ethic regarding critical research.
G.K12.3.4.1d:	Ethics - Accomplish: Analyze the use of ethical protocol as it pertains to real- world problems and concerns.

G.K12.4.1.1a:	Problem Investigation - Know: Recognize multiple problems within a complex issue; poses research questions.
G.K12.4.1.1b:	Problem Investigation - Understand: Categorize and prioritize identified problems within a complex issue; generate hypotheses.
G.K12.4.1.1c:	Problem Investigation - Perform: Use established criteria to focus the problem statement and generate solutions.
G.K12.4.1.1d:	Problem Investigation - Accomplish: Propose new avenues for research of existing and future related problems.
G.K12.4.1.2a:	Multiple Perspectives - Know: Acknowledge diverse viewpoints of a problem.
G.K12.4.1.2b:	Multiple Perspectives - Understand: Compare and contrast multiple perspectives of a problem.
G.K12.4.1.2c:	Multiple Perspectives - Perform: Integrate multiple points of view into a problem statement.
G.K12.4.1.2d:	Multiple Perspectives - Accomplish: Restructure the problem statement to reflect new perspectives.
G.K12.4.1.3a:	Supportive Constructs - Know: Generate an effective argument on each side of a problem.
G.K12.4.1.3b:	Supportive Constructs - Understand: Develop multiple supporting statements from different perspectives.
G.K12.4.1.3c:	Supportive Constructs - Perform: Communicate supportive evidence convincingly in multiple formats.
G.K12.4.1.3d:	Supportive Constructs - Accomplish: Defend, challenge, and articulate points of view using available resources; develop effective rebuttals.
G.K12.4.1.4a:	Solution Finding - Know: Propose multiple solutions to a problem within varied categories (i.e., social, technological, educational, environmental, political).
G.K12.4.1.4b:	Solution Finding - Understand: Establish and apply criteria for evaluation of solutions.
G.K12.4.1.4c:	Solution Finding - Perform: Create original solutions and products based on evaluated criteria; analyze possible consequences and impacts; test conclusions to improve ideas.
G.K12.4.1.4d:	Solution Finding - Accomplish: Extend solutions to aid in solving future problems; seek alternative innovative outcomes or solutions.
G.K12.4.1.5a:	Creative Thinking - Know: Generate numerous and varied ideas to solve a real- world problem (fluency and flexibility).
G.K12.4.1.5b:	Creative Thinking - Understand: Synthesize unique alternatives to solve a problem (originality).
G.K12.4.1.5c:	Creative Thinking - Perform: Elaborate ideas through collaborative processes with colleagues.
G.K12.4.1.5d:	Creative Thinking - Accomplish: Evaluate and modify ideas and products to improve usefulness.
G.K12.7.2.1a:	Inventive Thinking - Know: Generate ways to improve an existing product using two related sources.
G.K12.7.2.1b:	Inventive Thinking - Understand: Create an original product for a specific audience using inductive and deductive reasoning.
G.K12.7.2.1c:	Inventive Thinking - Perform: Create a product with defined rationale using multiple sources from varied fields or disciplines.
G.K12.7.2.1d:	Inventive Thinking - Accomplish: Create and defend a product using multiple sources that can be used in and across fields/disciplines.
G.K12.7.2.2a:	Metaphorical Promotion - Know: Create a statement or product using two related ideas to strengthen the message.
G.K12.7.2.2b:	Metaphorical Promotion - Understand: Illustrate a new concept using two or more related ideas innovatively.
G.K12.7.2.2c:	Metaphorical Promotion - Perform: Create two seemingly unrelated or opposing ideas to reflect an in-depth understanding of an issue, concept, or principle.
G.K12.7.2.2d:	Metaphorical Promotion - Accomplish: Incorporate multiple sources from varied perspectives to create and test a novel theory.
G.K12.7.2.3a:	Praxis - Know: Generate multiple solutions to a given problem.
G.K12.7.2.3b:	Praxis - Understand: Generate a new, personal concept by synthesizing multiple solutions and multiple perspectives.
G.K12.7.2.3c:	Praxis - Perform: Create a new personal theory by synthesizing multiple solutions and perspectives that can be applied to a different field of study.
G.K12.7.2.3d:	Praxis - Accomplish: Critique or defend a personal theory based on evidence from multiple sources and multiple perspectives.
G.K12.4.2.1a:	Data Analysis - Know: Locate information and data sources relative to a complex, real-world problem.
G.K12.4.2.1b:	Data Analysis - Understand: Make decisions about the usefulness of data to filter out extraneous information.
G.K12.4.2.1c:	Data Analysis - Perform: Use a variety of tools and techniques to organize data to draw conclusive statements.
G.K12.4.2.1d:	Data Analysis - Accomplish: Perform data analysis using tools of practicing professionals for a specific intent.
G.K12.4.2.2a:	Forecasting Solutions - Know: Identify patterns within related facts and information.
G.K12.4.2.2b:	Forecasting Solutions - Understand: Organize facts and information using various methods to predict potential outcomes.
G.K12.4.2.2c:	Forecasting Solutions - Perform: Use forecasting tools to evaluate possible solutions.
G.K12.4.2.2d:	Forecasting Solutions - Accomplish: Anticipate and plan for possible, probable, and preferable future outcomes.
G.K12.4.2.3a:	Critical Thinking - Know: Distinguish between fact and opinion in a variety of sources.
G.K12.4.2.3b:	Critical Thinking - Understand: Recognize bias and value statements in a variety of media.
G.K12.4.2.3c:	Critical Thinking - Perform: Use inductive and deductive thinking processes to draw conclusions.
G.K12.4.2.3d:	Critical Thinking - Accomplish: Analyze, interpret, and synthesize details and facts to examine relationships, infer meanings, and predict outcomes.
G.K12.4.2.4a:	Ethics - Know: Recognize the role of values in the development of attitudes about a complex problem.
G.K12.4.2.4b:	Ethics - Understand: Use knowledge of recognized ethical standards of various stakeholders to formulate problem statements and solutions.
G.K12.4.2.4c:	Ethics - Perform: Use the value system most common to a field of study to evaluate solutions and products.
G.K12.4.2.4d:	Ethics - Accomplish: Promote humane and respectful solutions to complex problems.
G.K12.4.3.1a:	Evaluation - Know: Recognize existing knowledge and attitudes about a complex problem.
G.K12.4.3.1b:	Evaluation - Understand: Analyze the impacts of existing knowledge and attitudes; identify personal assumptions and blind spots in approaching the problem.
G.K12.4.3.1c:	Evaluation - Perform: Identify knowledge gaps and inconsistencies to challenge existing attitudes and beliefs.
G.K12.4.3.1d:	Evaluation - Accomplish: Use multiple sources to affect change in generally accepted knowledge and attitudes.
G.K12.4.3.2a:	Creative Methodology - Know: Recognize contributions of inventors and innovators in multiple fields of accomplishment.
G.K12.4.3.2b:	Creative Methodology - Understand: Analyze and/or replicate methods used by creators and problem solvers in multiple fields.
G.K12.4.3.2c:	Creative Methodology - Perform: Create original products using various inventive strategies.
G.K12.4.3.2d:	Creative Methodology - Accomplish: Design original problem solving models for use in specific situations.
G.K12.4.3.2e:	Creative Methodology - Know: Identify a variety of problem solving methods.
G.K12.4.3.2f:	Creative Methodology - Understand: Differentiate the effectiveness of problem solving methods in a variety of settings.
G.K12.4.3.2g:	Creative Methodology - Perform: Apply appropriate methodologies for problem solving based on their usefulness.
G.K12.4.3.2h:	Creative Methodology - Accomplish: Reflect on adequacy of inventive processes and problem solving in various disciplines.
G.K12.4.3.3a:	Communication - Know: Identify stakeholders within a complex problem.
G.K12.4.3.3b:	Communication - Understand: Use multiple tools and techniques to target identified audiences; use precise language to explain positions.
G.K12.4.3.3c:	Communication - Perform: Use information about the stakeholders to develop convincing arguments to support solutions.
G.K12.4.3.3d:	Communication - Accomplish: Advocate convincingly to diverse audiences using sophisticated techniques (oral, written, technological) appropriate to the field and audience.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

There are more than 33 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/13061>

Externship for Students who are Gifted (#7965030)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7965030	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Gifted >
Course Section: Exceptional Student Education	Abbreviated Title: EXTRNSHP STUS GIFTED
Number of Credits: Multiple Credit (more than 1 credit)	
Course Status: Draft - Course Pending Approval	Class Size? Yes
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

The purpose of this course is to provide opportunities for students who are gifted to participate in a field experience with a community professional. This externship will provide an opportunity for field experience, research, and personal growth to enhance awareness of career options.

Students who are gifted have learning needs that go beyond what is traditionally offered in the regular classroom. The nature of their abilities, demonstrated or latent, requires differentiated learning experiences and opportunities for them to maximize their potential. Teachers need to develop the depth and quality of their students' experiences while adjusting the pace to meet individual needs.

This gifted course has been designed for the teacher to select and teach only the appropriate standards corresponding to a student's individual instructional needs.

Major Concepts/Content. The purpose of this course is to provide appropriately individualized curricula for students who are gifted.

The content should include, but not be limited to the following:

- independent learning
- application of acquired knowledge
- high-level communication
- collaboration with field experts
- application and utilization of appropriate technology
- documentation of acquired information from field experience
- career exploration
- exploration of educational requirements, employment opportunities, and salaries in careers related to areas of externship

English Language Development (ELD) Standards Special Notes Section: Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>. For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.

5. Providing extensive text-based research and writing opportunities (claims and evidence).

Special Note

This entire course may not be mastered in one year. A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis.

Instructional activities used to meet course requirements and address individual student needs may occur in schools, communities, museums, institutions of higher education, or other appropriate scientific or cultural organizations. Instruction in these settings may require that students acquire specialized knowledge and skills, including the use of advanced technology, special tools, and equipment; terminology; and methodologies essential to the student’s research.

It is necessary to implement a combination of research-based standards and strategies that have been proven successful in accelerating the development of research skills in gifted students. The instructional approaches should meet the needs of each student based on results of individual portfolios, assessments, and progress monitoring.

Course Standards

Integrate Florida Standards for Mathematical Practice (MP) as applicable.

- MAFS.K12.MP.1.1 Make sense of problems and persevere in solving them.
- MAFS.K12.MP.3.1 Construct viable arguments and critique the reasoning of others.
- MAFS.K12.MP.5.1 Use appropriate tools strategically.
- MAFS.K12.MP.6.1 Attend to precision.

Name	Description
LAFS.K12.R.1.1:	Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
LAFS.K12.R.1.2:	Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
LAFS.K12.R.1.3:	Analyze how and why individuals, events, and ideas develop and interact over the course of a text.
LAFS.K12.R.2.4:	Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
LAFS.K12.R.2.5:	Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
LAFS.K12.R.2.6:	Assess how point of view or purpose shapes the content and style of a text.
LAFS.K12.R.3.7:	Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
LAFS.K12.R.3.8:	Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
LAFS.K12.R.3.9:	Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.
LAFS.K12.R.4.10:	Read and comprehend complex literary and informational texts independently and proficiently.
LAFS.K12.W.1.1:	Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
LAFS.K12.W.1.2:	Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
LAFS.K12.W.1.3:	Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.
LAFS.K12.W.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.K12.W.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
LAFS.K12.W.2.6:	Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.
LAFS.K12.W.3.7:	Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
LAFS.K12.W.3.8:	Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
LAFS.K12.W.3.9:	Draw evidence from literary or informational texts to support analysis, reflection, and research.
LAFS.K12.W.4.10:	Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.
LAFS.K12.SL.1.1:	Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others’ ideas and expressing their own clearly and persuasively.
LAFS.K12.SL.1.2:	Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.
LAFS.K12.SL.1.3:	Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric.
LAFS.K12.SL.2.4:	Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.
LAFS.K12.SL.2.5:	Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
LAFS.K12.SL.2.6:	Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.
LAFS.K12.L.1.1:	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
LAFS.K12.L.1.2:	Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
LAFS.K12.L.2.3:	Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.
LAFS.K12.L.3.4:	Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

LAFS.K.12.L.3.5:	Demonstrate understanding of word relationships and nuances in word meanings.
G.K12.1.1.1a:	Nature of Knowledge - Know: Locate and list the general divisions of knowledge, i.e., art, science, humanities, etc., and recognize integrated fields and disciplines.
G.K12.1.1.1b:	Nature of Knowledge - Understand: Identify and define a field of interest and analyze how the field is organized by explaining what criteria define the discipline and how those criteria are organized and divided.
G.K12.1.1.1c:	Nature of Knowledge - Perform: Differentiate fact, concept, theory, and principle and employ each in developing meaning and knowledge.
G.K12.1.1.1d:	Nature of Knowledge - Accomplish: Construct own meaning within a chosen field and offer new contributions to this respective field of study.
G.K12.1.1.2a:	Basic Research - Know: Identify and locate basic reference sources that support general research in several disciplines.
G.K12.1.1.2b:	Basic Research - Understand: Analyze the relevance and usefulness of primary and secondary references while identifying how fields are organized and subdivided.
G.K12.1.1.2c:	Basic Research - Perform: Use multiple primary and secondary sources to analyze, synthesize, and evaluate relevant persons, places, events, or beliefs that are dominant in a field.
G.K12.1.1.2d:	Basic Research - Accomplish: Use a variety of professional journals, professional databases, and college textbooks to make connections between and/or among fields of discipline.
G.K12.1.1.3a:	Manipulation of Data - Know: Manipulate data in order to determine contributions of the discipline to the community and world.
G.K12.1.1.3b:	Manipulation of Data - Understand: Seek and identify connections between fields to make sense of patterns and trends.
G.K12.1.1.3c:	Manipulation of Data - Perform: Construct research questions that help interpret the effects of major trends and issues over time.
G.K12.1.1.3d:	Manipulation of Data - Accomplish: Develop themes and connections across historical events, periods, and fields.
G.K12.1.1.4a:	Organization of Data - Know: Create or select an existing system for organizing data in a sequence.
G.K12.1.1.4b:	Organization of Data - Understand: Construct an organizational system (i.e., knowledge tree, graphic organizer, or diagram) that represents and illustrates the organization in a field of study and the subdivisions within that field.
G.K12.1.1.4c:	Organization of Data - Perform: Identify and illustrate themes, patterns, and structures that define an area of study.
G.K12.1.1.4d:	Organization of Data - Accomplish: Challenge (and defend or justify the challenge) accepted bodies of knowledge and organizational methodologies.
G.K12.1.2.1a:	Conceptual Frameworks - Know: Formulate questions to determine the relevance of the skills and knowledge required of a discipline.
G.K12.1.2.1b:	Conceptual Frameworks - Understand: Demonstrate understanding of conceptual themes and their organizational opportunities within a body of knowledge.
G.K12.1.2.1c:	Conceptual Frameworks - Perform: Create graphic organizers that organize the logical sequences of key conceptual themes in a field of study.
G.K12.1.2.1d:	Conceptual Frameworks - Accomplish: Analyze data and research methods used and developed by scholars within a field; internalize conceptual themes of that (those) discipline(s).
G.K12.1.2.1e:	Conceptual Frameworks - Know: Identify established rules or laws (principles) of nature which impact daily life and draw conclusions regarding their role in the world of work.
G.K12.1.2.1f:	Conceptual Frameworks - Understand: Differentiate similarities and differences between functional concepts and principles within a field.
G.K12.1.2.1g:	Conceptual Frameworks - Perform: Assimilate the often conflicting nature of knowledge generated within integrated disciplines.
G.K12.1.2.1h:	Conceptual Frameworks - Accomplish: Critique accepted conventions and rules and identify ambiguity.
G.K12.1.2.2a:	Components and Methodologies - Know: Identify and use terminology authentic to a chosen discipline of knowledge.
G.K12.1.2.2b:	Components and Methodologies - Understand: Create a list of the methodological skills and processes (general and specific) used by practicing professionals in a field.
G.K12.1.2.2c:	Components and Methodologies - Perform: Demonstrate an understanding of and delineate the diversity of language, tools, and methodologies between and among disciplines.
G.K12.1.2.2d:	Components and Methodologies - Accomplish: Experiment with a variety of methods to analyze data to develop greater understanding.
G.K12.1.2.3a:	Conceptual Connections - Know: Identify essential principles that govern and drive a series of key concepts in a chosen field.
G.K12.1.2.3b:	Conceptual Connections - Understand: Demonstrate foundational knowledge of various fields and disciplines.
G.K12.1.2.3c:	Conceptual Connections - Perform: Analyze and synthesize concepts and principles within a discipline in order to isolate essential concepts and identify macroconcepts.
G.K12.1.2.3d:	Conceptual Connections - Accomplish: Apply and transfer understanding to other disciplines.
G.K12.5.1.1a:	Consensus Building - Know: Recognize the essential need to respect the ideas, feelings, and abilities of others.
G.K12.5.1.1b:	Consensus Building - Understand: Demonstrate a greater awareness of others through participation in programs and projects that emphasize service to others.
G.K12.5.1.1c:	Consensus Building - Perform: Use diverse individual beliefs and values of the group to design plans of action that address issues or problems.
G.K12.5.1.1d:	Consensus Building - Accomplish: Defend the results and gain support for a plan of action to address issues or problems within a diverse population.
G.K12.5.1.2a:	Personal Qualities - Know: Identify personal strengths and weaknesses that influence positive group dynamics.
G.K12.5.1.2b:	Personal Qualities - Understand: Recognize leadership patterns and behaviors that positively affect change in a group.
G.K12.5.1.2c:	Personal Qualities - Perform: Improve group performances through individual strengths and collaborative rules of courtesy and order.
G.K12.5.1.2d:	Personal Qualities - Accomplish: Analyze positive and negative aspects of leadership that drive the beliefs and values of a diverse group.
G.K12.5.1.2e:	Personal Qualities - Know: Identify personal abilities, talents, strengths and weaknesses for certain tasks, recognizing the power to influence one's own destiny.
G.K12.5.1.2f:	Personal Qualities - Understand: Compare and contrast the personal and academic goals of self and others in order to build cohesion.
G.K12.5.1.2g:	Personal Qualities - Perform: Demonstrate the ability to state personal preferences and support a personal point of view when contrary to the accepted view of others.
G.K12.5.1.2h:	Personal Qualities - Accomplish: Design, plan, and evaluate a plan of action to address an issue or problem of personal interest.
G.K12.5.1.3a:	Conflict Resolution - Know: Verbalize an awareness of the cause/effect relationship of his/her behavior within a group setting.
G.K12.5.1.3b:	Conflict Resolution - Understand: Generate a list of solutions to a group conflict, predicting possible concomitant results that might impact the group.
G.K12.5.1.3c:	Conflict Resolution - Perform: Implement conflict management and resolution techniques to bring about positive change.
G.K12.5.1.3d:	Conflict Resolution - Accomplish: Reflect upon the effectiveness of conflict management and resolution techniques used to develop strategies for future group problem solving.
G.K12.1.3.1a:	Skill Development - Know: Locate relevant information about varied professionals and identify personal strengths that may contribute to the field.
G.K12.1.3.1b:	Skill Development - Understand: Compare and contrast job descriptions, methods of working, and challenges faced by various practicing professionals to determine relevance to personal needs and goals.

G.K12.1.3.1c:	Skill Development - Perform: Use and refine the skills and methods of a professional in a discipline.
G.K12.1.3.1d:	Skill Development - Accomplish: Seek an understanding of the ethical issues and standards that frame a discipline.
G.K12.1.3.2a:	Management of Data for Research - Know: Identify a list of methods manuals, "How To" books, and other resources to research methodologies used by practitioners.
G.K12.1.3.2b:	Management of Data for Research - Understand: Compare and contrast general and specific methods of research used by practitioners to seek answers to viable professional questions.
G.K12.1.3.2c:	Management of Data for Research - Perform: Use appropriate data gathering instruments needed for a research study.
G.K12.1.3.2d:	Management of Data for Research - Accomplish: Apply the scientific method naturally, i.e., identify routine problem areas, focus the problem, state hypotheses, locate resources, classify and organize data, draw conclusions, and report findings.
G.K12.1.3.3a:	Investigative Methodologies - Know: Identify content area specialists to establish a sense of cause and effect within a field.
G.K12.1.3.3b:	Investigative Methodologies - Understand: Understand, identify, and analyze relationships among variables, constants, and controls in research.
G.K12.1.3.3c:	Investigative Methodologies - Perform: Apply the indicators that reflect quality in a field and understand how the field measures success.
G.K12.1.3.3d:	Investigative Methodologies - Accomplish: Challenge existing theories, principles, and rules through research and experimentation.
G.K12.1.3.4a:	Support Structures - Know: Recognize and identify the need for support structures found within a designated field of study and establish the nature of specific supports.
G.K12.1.3.4b:	Support Structures - Understand: Recognize the values and perspectives of those who hold opposing views within the discipline.
G.K12.1.3.4c:	Support Structures - Perform: Interview content area specialists to verify the application of methodologies incorporated in a study.
G.K12.1.3.4d:	Support Structures - Accomplish: Collaborate with professionals, experts, and others in the field to advance research, development, and understanding in the field.
G.K12.5.2.1a:	Problem Solving - Know: Identify characteristics that empower an individual to be a proficient, creative problem solver.
G.K12.5.2.1b:	Problem Solving - Understand: Recognize and emulate effective implementation of creative problem solving skills.
G.K12.5.2.1c:	Problem Solving - Perform: Simulate a creative problem solving encounter with a diverse group of individuals.
G.K12.5.2.1d:	Problem Solving - Accomplish: Analyze the productivity of the group's response to the problem following the conclusion of a creative problem solving experience.
G.K12.5.2.2a:	Diversity - Know: Identify in individuals the qualities of empathy and sensitivity to the ideas of others.
G.K12.5.2.2b:	Diversity - Understand: Promote diversity in talents and intellectual abilities of each member of the group.
G.K12.5.2.2c:	Diversity - Perform: Display flexibility when incorporating individual beliefs and values toward goal attainment.
G.K12.5.2.2d:	Diversity - Accomplish: Analyze diverse leadership styles of outstanding leaders and evaluate the impact to one's own personal leadership skills.
G.K12.5.2.3a:	Self-awareness - Know: Identify personal attributes as areas of strength or weakness.
G.K12.5.2.3b:	Self-awareness - Understand: Differentiate between individual strengths and weaknesses as motivators and/or limiters.
G.K12.5.2.3c:	Self-awareness - Perform: Demonstrate an understanding of positive self-worth and recognize limits in the emotional capacity of individuals.
G.K12.5.2.3d:	Self-awareness - Accomplish: Celebrate self-advocacy as a personal strength; accept weaknesses as an opportunity for change.
G.K12.5.3.1a:	Group Dynamics - Know: Adhere to the established rules of interaction in accepting and respecting consensus.
G.K12.5.3.1b:	Group Dynamics - Understand: Demonstrate the ability to convey to group members good decision making skills.
G.K12.5.3.1c:	Group Dynamics - Perform: Stimulate group discussion and decision making by asking appropriate questions.
G.K12.5.3.1d:	Group Dynamics - Accomplish: Direct the group through an analysis and synthesis of the final solution to the achievement of a project goal.
G.K12.5.3.2a:	Communication - Know: Convey information, concepts, and ideas using appropriate and advanced techniques.
G.K12.5.3.2b:	Communication - Understand: Show an awareness of the experiences, needs, and concerns of others in the communication process.
G.K12.5.3.2c:	Communication - Perform: Solidify group cohesion toward an assigned task using both verbal and non-verbal skills.
G.K12.5.3.2d:	Communication - Accomplish: Analyze and synthesize the presentation skills necessary to communicate ideas, information, concerns, and solutions to a project goal.
G.K12.5.3.3a:	Technology - Know: Identify appropriate technology to achieve a project goal.
G.K12.5.3.3b:	Technology - Understand: Demonstrate the ability to propose new uses for current technology.
G.K12.5.3.3c:	Technology - Perform: Integrate information systems in the problem solving process.
G.K12.5.3.3d:	Technology - Accomplish: Use information systems to identify and analyze trends and events in order to forecast future implications.
G.K12.5.3.4a:	Cooperative Learning - Know: Recognize positive interdependence as a basic tenet.
G.K12.5.3.4b:	Cooperative Learning - Understand: Convey an understanding of the importance of group cohesiveness and pride.
G.K12.5.3.4c:	Cooperative Learning - Perform: Demonstrate the ability to work with peers from a variety of cultures and ability levels respecting individual strengths, talents, and learning styles.
G.K12.5.3.4d:	Cooperative Learning - Accomplish: Display flexibility in the incorporation of individual beliefs and values in the completion of a goal while recognizing the diversity of group members.
G.K12.6.1.1a:	Metacognition - Know: Identify and use numerous tools to recognize personal strengths/weaknesses, learning styles/preferences.
G.K12.6.1.1b:	Metacognition - Understand: Interpret assessments and identify skills/abilities necessary for professional performance in a field of study.
G.K12.6.1.1c:	Metacognition - Perform: Recognize challenges and create goals for developing expertise in a field of study.
G.K12.6.1.1d:	Metacognition - Accomplish: Evaluate and refocus goals and the path to accomplishment through self-reflection and evaluation.
G.K12.6.1.2a:	Learning Profile - Know: Recognize the components of personal learning preferences.
G.K12.6.1.2b:	Learning Profile - Understand: Reflect on learning/work preferences to identify themes and changes over time.
G.K12.6.1.2c:	Learning Profile - Perform: Compare how components of learning preferences align with professionals in a field of study.
G.K12.6.1.2d:	Learning Profile - Accomplish: Use learning/work preferences to develop products in one or more disciplines.
G.K12.6.1.3a:	Acceptance of Challenge - Know: Recognize the need to accomplish tasks in areas of both strength and weakness.
G.K12.6.1.3b:	Acceptance of Challenge - Understand: Identify strategies and resources to overcome obstacles.
G.K12.6.1.3c:	Acceptance of Challenge - Perform: Return to a task that was not successful; evaluate alternatives and seek support from outside resources.
G.K12.6.1.3d:	Acceptance of Challenge - Accomplish: Seek opportunities to try new experiences in areas of strengths and weaknesses.
G.K12.6.1.4a:	Evaluation - Know: Use evaluation of previous tasks to improve performance.
G.K12.6.1.4b:	Evaluation - Understand: Review progress toward accepting challenges in various areas.
G.K12.6.1.4c:	Evaluation - Perform: Reflect on failures and successes through self-evaluation; acknowledge constructive criticism.
G.K12.6.1.4d:	Evaluation - Accomplish: Solicit feedback from professionals related to projects and synthesize critiques into personal growth.
G.K12.2.1.1a:	The Nature of Questions - Know: Identify questions as seeking basic information and facts in singular disciplines.
G.K12.2.1.1b:	The Nature of Questions - Understand: See potential for questions to explore broader aspects of knowledge, moving toward speculative and evaluative aspects.

G.K12.2.1.1c:	The Nature of Questions - Perform: Recognize that questions connect disciplines and build better frameworks for thinking.
G.K12.2.1.1d:	The Nature of Questions - Accomplish: Seek and use questions that connect divergent disciplines in order to expand understanding.
G.K12.2.1.2a:	The Importance of Questions - Know: Identify and situate questions within a singular discipline's method of inquiry.
G.K12.2.1.2b:	The Importance of Questions - Understand: Analyze and synthesize questions that connect methods of inquiry in different disciplines.
G.K12.2.1.2c:	The Importance of Questions - Perform: Order/categorize questions that link divergent disciplines and frame different inquiry methods.
G.K12.2.1.2d:	The Importance of Questions - Accomplish: Use questions that frame inquiry within divergent disciplines in order to understand the links between and/or among the disciplines.
G.K12.2.1.3a:	The Power of Questions - Know: Explain the function of questions within singular disciplines.
G.K12.2.1.3b:	The Power of Questions - Understand: Understand the function of questions to connect multiple disciplines.
G.K12.2.1.3c:	The Power of Questions - Perform: Demonstrate an initial use of questions to drive critical thought within a discipline.
G.K12.2.1.3d:	The Power of Questions - Accomplish: Manifest an understanding of the integrative nature and function of questions that drive inquiry in multiple disciplines.
G.K12.2.2.1a:	Question Creation - Know: Create questions that drive factual exploration within singular disciplines.
G.K12.2.2.1c:	Question Creation - Perform: Manipulate ideas to create and organize questions that drive inquiry and connect divergent disciplines.
G.K12.2.2.1b:	Question Creation - Understand: Unite questions that drive broader exploration within disciplines.
G.K12.2.2.1d:	Question Creation - Accomplish: Use questions that link divergent disciplines to develop personal understandings of experiences.
G.K12.2.2.2a:	Questions and Inquiry - Know: Explain the kind of information questions seek.
G.K12.2.2.2b:	Questions and Inquiry - Understand: Explain how the questions limit and/or expand the nature of the exploration.
G.K12.2.2.2c:	Questions and Inquiry - Perform: Use questions to refocus the nature of the inquiry.
G.K12.2.2.2d:	Questions and Inquiry - Accomplish: Use questions to situate personal interest and background within the inquiry.
G.K12.6.2.1a:	Independence - Know: Recognize the need to set goals for assigned tasks.
G.K12.6.2.1b:	Independence - Understand: Systematically approach setting and modifying goals with support from teachers and/or peers.
G.K12.6.2.1c:	Independence - Perform: Document failures as a learning tool and alter plans when appropriate.
G.K12.6.2.1d:	Independence - Accomplish: Incorporate a system of goal-setting as a lifelong learner.
G.K12.6.2.2a:	Self-Motivation - Know: Follow directions to complete a task.
G.K12.6.2.2b:	Self-Motivation - Understand: Take initiative to complete tasks.
G.K12.6.2.2c:	Self-Motivation - Perform: Demonstrate persistence in returning to tasks and overcoming obstacles; adhere to timelines and other benchmarks.
G.K12.6.2.2d:	Self-Motivation - Accomplish: Strive for professional quality in self-selected projects and performances.
G.K12.6.2.3a:	Priority - Know: Identify a number of long and short-term goals and distinguishes between them.
G.K12.6.2.3b:	Priority - Understand: Prioritize goals by importance, time, resources, and sustainability.
G.K12.6.2.3c:	Priority - Perform: Evaluate and anticipate how controllable and non- controllable events and behavior affect goal achievement.
G.K12.6.2.3d:	Priority - Accomplish: Exercise visionary thinking and focus on the future to adjust and readjust goals.
G.K12.6.2.4a:	Critical Reflection - Know: Identify assumptions, beliefs, values, cultural practices, and social structures to assess impact.
G.K12.6.2.4b:	Critical Reflection - Understand: Analyze assumptions in relation to specific historical and cultural context.
G.K12.6.2.4c:	Critical Reflection - Perform: Propose alternative ways of thinking to challenge prevailing ways of knowing and acting.
G.K12.6.2.4d:	Critical Reflection - Accomplish: Question patterns of action to establish truth or viability of a proposition or action.
G.K12.2.3.1a:	Questions Scrutinized - Know: Recognize the quality of questions (both identified and created) that frame singular disciplinary inquiry.
G.K12.2.3.1b:	Questions Scrutinized - Understand: Explain the quality of questions (both identified and created) that work to expand inquiry into integrated disciplines.
G.K12.2.3.1c:	Questions Scrutinized - Perform: Evaluate questions (both identified and created) as a regular component of personal research and exploration.
G.K12.2.3.1d:	Questions Scrutinized - Accomplish: Explore the nature of questioning, always aware that better questions deliver the potential for more complete information.
G.K12.2.3.2a:	Questions Revised - Know: Refine questions as directed so they explore a clearer line of inquiry within a single discipline.
G.K12.2.3.2b:	Questions Revised - Understand: Synthesize questions as directed so they explore a clearer line of inquiry and integrate disciplines.
G.K12.2.3.2c:	Questions Revised - Perform: Develop questions spontaneously and independently while conducting personal research and exploration.
G.K12.2.3.2d:	Questions Revised - Accomplish: Refine questions as a general practice or characteristic of intellectual pursuit.
G.K12.3.1.1a:	Cooperative Research - Know: Participate in a cooperative group to solve problems and/or complete a research project.
G.K12.3.1.1b:	Cooperative Research - Understand: Demonstrate ethical leadership and/or teamwork within a research workgroup.
G.K12.3.1.1c:	Cooperative Research - Perform: Work cooperatively with peers from a variety of perspectives and abilities while obtaining valid research and/or products from research.
G.K12.3.1.1d:	Cooperative Research - Accomplish: Integrate a variety of appropriate components uncovered from cooperative research within a field of study.
G.K12.3.1.2a:	Scientific Method - Know: Demonstrate the ability to gather and document data relevant to scientific investigations using the scientific method.
G.K12.3.1.2b:	Scientific Method - Understand: Analyze the impact or effect of chosen alternatives (variables) within the scientific method.
G.K12.3.1.2c:	Scientific Method - Perform: Construct scientific research using proper protocol for scientific study.
G.K12.3.1.2d:	Scientific Method - Accomplish: Use scientific method to produce products or solutions to problems in a research setting and in a non-research setting.
G.K12.3.1.3a:	Research Tools - Know: Recognize organizational tools used for research in a variety of fields.
G.K12.3.1.3b:	Research Tools - Understand: Use organizational strategies to generate ideas for research and/or creative products.
G.K12.3.1.3c:	Research Tools - Perform: Communicate results of research using the established organizational tools within a field of study.
G.K12.3.1.3d:	Research Tools - Accomplish: Create unique tools that incorporate a variety of methods of communication/ organization for the clarification of others about a field of study.
G.K12.6.3.1a:	Communication - Know: Communicate recognition of personal growth in areas of weakness and areas of strength.
G.K12.6.3.1b:	Communication - Understand: Use appropriate and field- specific language to describe challenges in a variety of areas; goals are well-defined and specific.
G.K12.6.3.1c:	Communication - Perform: Design oral and written plans to set goals and identify steps toward goal achievement and use those plans in work.
G.K12.6.3.1d:	Communication - Accomplish: Reflect on appropriateness of designed goal-setting plans; alter plans when appropriate; make future plans for goal achievement based on successes/failures.
G.K12.6.3.2a:	Talent Development - Know: Identify stages of talent development within a body of content.
G.K12.6.3.2b:	Talent Development - Understand: Evaluate personal levels of achievement and align them with levels of talent development.
G.K12.6.3.2c:	Talent Development - Perform: Produce high-quality products and performances that advance through a field's level of talent development.

G.K12.6.3.2d:	Talent Development - Accomplish: Develop products and performances of professional quality through individual strengths in relationship to fields of study.
G.K12.6.3.3a:	Action Plan Components - Know: Demonstrate knowledge of steps toward goal achievement.
G.K12.6.3.3b:	Action Plan Components - Understand: Develop goals and objectives that are realistic and systematic.
G.K12.6.3.3c:	Action Plan Components - Perform: Action plans include appropriate allocation of time, money, materials, and other resources.
G.K12.6.3.3d:	Action Plan Components - Accomplish: Action plan include components of evaluation, multiplicity of solutions to overcome obstacles, and recruitment of supporters and resources.
G.K12.6.3.4a:	Social Context - Know: Recognize how goals of self and others interconnect.
G.K12.6.3.4b:	Social Context - Understand: Establish goals for self that acknowledge goals of peers and others.
G.K12.6.3.4c:	Social Context - Perform: Assume responsibility for developing and managing goals that contribute to personal and group attainment.
G.K12.6.3.4d:	Social Context - Accomplish: Incorporate multiple points of view to develop long-term personal and collective goals in various contexts (educational, social, political, career).
G.K12.3.2.1a:	Information in Multiple Contexts - Know: Identify and locate information available in a multitude of places, including newspapers, magazines, catalogues, Internet directories, time schedules, and media, all of which include local, state, national, and/or international sources.
G.K12.3.2.1b:	Information in Multiple Contexts - Understand: Analyze the relevance and usefulness of information for the completion of a specific task.
G.K12.3.2.1c:	Information in Multiple Contexts - Perform: Generate, classify, and evaluate ideas, objects, and/or events in a unique way to construct original projects that illustrate solutions to real-world problems and concerns.
G.K12.3.2.1d:	Information in Multiple Contexts - Accomplish: Assemble ideas, objects, and/or events from a variety of sources (primary and secondary) to conduct research in a field of study.
G.K12.3.2.1e:	Information in Multiple Contexts - Know: Use a systematic approach to locate information from a variety of reference materials, including the use of parts of a book,(e.g., table of contents, index, appendices, glossary, index, title page).
G.K12.3.2.1f:	Information in Multiple Contexts - Understand: Use appropriate accurate information for research and experimentation to create an original work.
G.K12.3.2.1g:	Information in Multiple Contexts - Perform: Use multiple secondary and primary sources to analyze, synthesize, and evaluate relevant details and facts to examine relationships, infer meanings, define relationships, and predict outcomes.
G.K12.3.2.1h:	Information in Multiple Contexts - Accomplish: Analyze and synthesize information and concepts contained in multiple sources and communicates results in a unique way, i.e., designing a better model or creating a simulation.
G.K12.3.3.1a:	Deductive and Inductive Reasoning - Know: Demonstrate the ability to retrieve information from a reliable data base.
G.K12.3.3.1b:	Deductive and Inductive Reasoning - Understand: Describe the nature of an argument, the degree of ambiguity, and the source (deductive/inductive) of the argument's authority.
G.K12.3.3.1c:	Deductive and Inductive Reasoning - Perform: Critique and defend statements of deductive and inductive reasoning.
G.K12.3.3.1d:	Deductive and Inductive Reasoning - Accomplish: Implement deductive and/or inductive reasoning within discussion and/or product development in a field of study.
G.K12.3.3.1e:	Deductive and Inductive Reasoning - Know: Define deductive and inductive reasoning and distinguish the different thought processes each uses.
G.K12.3.3.1f:	Deductive and Inductive Reasoning - Understand: Explain whether an argument depends on ambiguity, a shift in the line of reasoning, or whether the alleged authority is reliable.
G.K12.3.3.1g:	Deductive and Inductive Reasoning - Perform: Evaluate judgments made within the context of an argument.
G.K12.3.3.1h:	Deductive and Inductive Reasoning - Accomplish: Bring consistent use of different reasoning types to active study and research in a field.
G.K12.3.3.2a:	Fact versus Opinion - Know: Identify fact and opinion and recognizes the important implications for each.
G.K12.3.3.2b:	Fact versus Opinion - Understand: Juxtapose opinions and facts from multiple sources to support or validate conclusions.
G.K12.3.3.2c:	Fact versus Opinion - Perform: Analyze opinions and facts of experts within a research field.
G.K12.3.3.2d:	Fact versus Opinion - Accomplish: Create, defend, and adapt opinions developed after the analysis of data within a variety of fields.
G.K12.7.1.1a:	Audience Recognition - Know: Identify an authentic audience based on set criteria related to a specific topic.
G.K12.7.1.1b:	Audience Recognition - Understand: Communicate recognition of audience members' strengths and needs.
G.K12.7.1.1c:	Audience Recognition - Perform: React and refine performance based on audiences' strengths and needs.
G.K12.7.1.1d:	Audience Recognition - Accomplish: Communicate intentional reaction to subtle and overt feedback from audience.
G.K12.7.1.2a:	Communication - Know: Prepare and execute practiced performance to communicate ideas.
G.K12.7.1.2b:	Communication - Understand: Integrate ideas with visual supports to emphasize key point(s) in a performance.
G.K12.7.1.2c:	Communication - Perform: Identify personal presentation style and adapt that style to different purposes, moods, tones.
G.K12.7.1.2d:	Communication - Accomplish: Demonstrate evidence of refining a performance to communicate personal style.
G.K12.7.1.3a:	Advanced Presentation - Know: Use advanced language and symbol systems to communicate ideas.
G.K12.7.1.3b:	Advanced Presentation - Understand: Evaluate the personal preferences of others related to language and symbol systems.
G.K12.7.1.3c:	Advanced Presentation - Perform: Evaluate self in the area of presentation, language, and symbol systems.
G.K12.7.1.3d:	Advanced Presentation - Accomplish: Based on evaluation, revise and adapt presentation, language, and symbol systems for specific and various audiences.
G.K12.7.1.4a:	Problem Solving - Know: Create product to solve a problem or communicate a perspective.
G.K12.7.1.4b:	Problem Solving - Understand: Use strategies or tools of persuasion to resolve an issue or communicate a perspective.
G.K12.7.1.4c:	Problem Solving - Perform: Create specific strategies targeted at opposing viewpoints/perspectives.
G.K12.7.1.4d:	Problem Solving - Accomplish: Address critics with prepared, defensible arguments that effectively defend solutions.
G.K12.3.4.1a:	Ethics - Know: Identify ethical concerns related to the use of knowledge (copyright, security, integrity, piracy, privacy, etc.).
G.K12.3.4.1b:	Ethics - Understand: Explain ethical standards in regard to intellectual effects on research outcomes.
G.K12.3.4.1c:	Ethics - Perform: Clarify and develop a personal ethic regarding critical research.
G.K12.3.4.1d:	Ethics - Accomplish: Analyze the use of ethical protocol as it pertains to real- world problems and concerns.
G.K12.4.1.1a:	Problem Investigation - Know: Recognize multiple problems within a complex issue; poses research questions.
G.K12.4.1.1b:	Problem Investigation - Understand: Categorize and prioritize identified problems within a complex issue; generate hypotheses.
G.K12.4.1.1c:	Problem Investigation - Perform: Use established criteria to focus the problem statement and generate solutions.
G.K12.4.1.1d:	Problem Investigation - Accomplish: Propose new avenues for research of existing and future related problems.
G.K12.4.1.2a:	Multiple Perspectives - Know: Acknowledge diverse viewpoints of a problem.
G.K12.4.1.2b:	Multiple Perspectives - Understand: Compare and contrast multiple perspectives of a problem.
G.K12.4.1.2c:	Multiple Perspectives - Perform: Integrate multiple points of view into a problem statement.
G.K12.4.1.2d:	Multiple Perspectives - Accomplish: Restructure the problem statement to reflect new perspectives.

G.K12.4.1.3a:	Supportive Constructs - Know: Generate an effective argument on each side of a problem.
G.K12.4.1.3b:	Supportive Constructs - Understand: Develop multiple supporting statements from different perspectives.
G.K12.4.1.3c:	Supportive Constructs - Perform: Communicate supportive evidence convincingly in multiple formats.
G.K12.4.1.3d:	Supportive Constructs - Accomplish: Defend, challenge, and articulate points of view using available resources; develop effective rebuttals.
G.K12.4.1.4a:	Solution Finding - Know: Propose multiple solutions to a problem within varied categories (i.e., social, technological, educational, environmental, political).
G.K12.4.1.4b:	Solution Finding - Understand: Establish and apply criteria for evaluation of solutions.
G.K12.4.1.4c:	Solution Finding - Perform: Create original solutions and products based on evaluated criteria; analyze possible consequences and impacts; test conclusions to improve ideas.
G.K12.4.1.4d:	Solution Finding - Accomplish: Extend solutions to aid in solving future problems; seek alternative innovative outcomes or solutions.
G.K12.4.1.5a:	Creative Thinking - Know: Generate numerous and varied ideas to solve a real- world problem (fluency and flexibility).
G.K12.4.1.5b:	Creative Thinking - Understand: Synthesize unique alternatives to solve a problem (originality).
G.K12.4.1.5c:	Creative Thinking - Perform: Elaborate ideas through collaborative processes with colleagues.
G.K12.4.1.5d:	Creative Thinking - Accomplish: Evaluate and modify ideas and products to improve usefulness.
G.K12.7.2.1a:	Inventive Thinking - Know: Generate ways to improve an existing product using two related sources.
G.K12.7.2.1b:	Inventive Thinking - Understand: Create an original product for a specific audience using inductive and deductive reasoning.
G.K12.7.2.1c:	Inventive Thinking - Perform: Create a product with defined rationale using multiple sources from varied fields or disciplines.
G.K12.7.2.1d:	Inventive Thinking - Accomplish: Create and defend a product using multiple sources that can be used in and across fields/disciplines.
G.K12.7.2.2a:	Metaphorical Promotion - Know: Create a statement or product using two related ideas to strengthen the message.
G.K12.7.2.2b:	Metaphorical Promotion - Understand: Illustrate a new concept using two or more related ideas innovatively.
G.K12.7.2.2c:	Metaphorical Promotion - Perform: Create two seemingly unrelated or opposing ideas to reflect an in-depth understanding of an issue, concept, or principle.
G.K12.7.2.2d:	Metaphorical Promotion - Accomplish: Incorporate multiple sources from varied perspectives to create and test a novel theory.
G.K12.7.2.3a:	Praxis - Know: Generate multiple solutions to a given problem.
G.K12.7.2.3b:	Praxis - Understand: Generate a new, personal concept by synthesizing multiple solutions and multiple perspectives.
G.K12.7.2.3c:	Praxis - Perform: Create a new personal theory by synthesizing multiple solutions and perspectives that can be applied to a different field of study.
G.K12.7.2.3d:	Praxis - Accomplish: Critique or defend a personal theory based on evidence from multiple sources and multiple perspectives.
G.K12.4.2.1a:	Data Analysis - Know: Locate information and data sources relative to a complex, real-world problem.
G.K12.4.2.1b:	Data Analysis - Understand: Make decisions about the usefulness of data to filter out extraneous information.
G.K12.4.2.1c:	Data Analysis - Perform: Use a variety of tools and techniques to organize data to draw conclusive statements.
G.K12.4.2.1d:	Data Analysis - Accomplish: Perform data analysis using tools of practicing professionals for a specific intent.
G.K12.4.2.2a:	Forecasting Solutions - Know: Identify patterns within related facts and information.
G.K12.4.2.2b:	Forecasting Solutions - Understand: Organize facts and information using various methods to predict potential outcomes.
G.K12.4.2.2c:	Forecasting Solutions - Perform: Use forecasting tools to evaluate possible solutions.
G.K12.4.2.2d:	Forecasting Solutions - Accomplish: Anticipate and plan for possible, probable, and preferable future outcomes.
G.K12.4.2.3a:	Critical Thinking - Know: Distinguish between fact and opinion in a variety of sources.
G.K12.4.2.3b:	Critical Thinking - Understand: Recognize bias and value statements in a variety of media.
G.K12.4.2.3c:	Critical Thinking - Perform: Use inductive and deductive thinking processes to draw conclusions.
G.K12.4.2.3d:	Critical Thinking - Accomplish: Analyze, interpret, and synthesize details and facts to examine relationships, infer meanings, and predict outcomes.
G.K12.4.2.4a:	Ethics - Know: Recognize the role of values in the development of attitudes about a complex problem.
G.K12.4.2.4b:	Ethics - Understand: Use knowledge of recognized ethical standards of various stakeholders to formulate problem statements and solutions.
G.K12.4.2.4c:	Ethics - Perform: Use the value system most common to a field of study to evaluate solutions and products.
G.K12.4.2.4d:	Ethics - Accomplish: Promote humane and respectful solutions to complex problems.
G.K12.4.3.1a:	Evaluation - Know: Recognize existing knowledge and attitudes about a complex problem.
G.K12.4.3.1b:	Evaluation - Understand: Analyze the impacts of existing knowledge and attitudes; identify personal assumptions and blind spots in approaching the problem.
G.K12.4.3.1c:	Evaluation - Perform: Identify knowledge gaps and inconsistencies to challenge existing attitudes and beliefs.
G.K12.4.3.1d:	Evaluation - Accomplish: Use multiple sources to affect change in generally accepted knowledge and attitudes.
G.K12.4.3.2a:	Creative Methodology - Know: Recognize contributions of inventors and innovators in multiple fields of accomplishment.
G.K12.4.3.2b:	Creative Methodology - Understand: Analyze and/or replicate methods used by creators and problem solvers in multiple fields.
G.K12.4.3.2c:	Creative Methodology - Perform: Create original products using various inventive strategies.
G.K12.4.3.2d:	Creative Methodology - Accomplish: Design original problem solving models for use in specific situations.
G.K12.4.3.2e:	Creative Methodology - Know: Identify a variety of problem solving methods.
G.K12.4.3.2f:	Creative Methodology - Understand: Differentiate the effectiveness of problem solving methods in a variety of settings.
G.K12.4.3.2g:	Creative Methodology - Perform: Apply appropriate methodologies for problem solving based on their usefulness.
G.K12.4.3.2h:	Creative Methodology - Accomplish: Reflect on adequacy of inventive processes and problem solving in various disciplines.
G.K12.4.3.3a:	Communication - Know: Identify stakeholders within a complex problem.
G.K12.4.3.3b:	Communication - Understand: Use multiple tools and techniques to target identified audiences; use precise language to explain positions.
G.K12.4.3.3c:	Communication - Perform: Use information about the stakeholders to develop convincing arguments to support solutions.
G.K12.4.3.3d:	Communication - Accomplish: Advocate convincingly to diverse audiences using sophisticated techniques (oral, written, technological) appropriate to the field and audience.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

There are more than 32 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/13062>

Studies for Students who are Gifted (#7965040)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7965040	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult > Subject: Gifted >
Course Section: Exceptional Student Education	Abbreviated Title: STUDIES STUS GIFTED
Number of Credits: Multiple Credit (more than 1 credit)	
Course Status: Draft - Course Pending Approval	Class Size? Yes
NCLB? Yes	Requires a Highly Qualified Teacher (HQT)? Yes

GENERAL NOTES

Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Students who are gifted have learning needs that go beyond what is traditionally offered in the regular classroom. The nature of their abilities, demonstrated or latent, requires differentiated learning experiences and opportunities for them to maximize their potential. Teachers need to develop the depth and quality of their students' experiences while adjusting the pace to meet individual needs.

This gifted course has been designed for the teacher to select and teach only the appropriate standards corresponding to a student's individual instructional needs.

Major Concepts/Content. The purpose of this course is to provide appropriately individualized curricula for students who are gifted.

The content should include, but not be limited to the following:

- develop critical thinking and inquiry skills
- independent learning
- examine the complexity of knowledge
- application of acquired knowledge
- develop problem solving skills
- high-level communication
- create/deliver quality products
- self-awareness

English Language Development (ELD) Standards Special Notes Section: Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>. For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION REQUIREMENTS

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.

5. Providing extensive text-based research and writing opportunities (claims and evidence).

Special Note

This entire course may not be mastered in one year. A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis.

Instructional activities used to meet course requirements and address individual student needs may occur in schools, communities, museums, institutions of higher education, or other appropriate scientific or cultural organizations. Instruction in these settings may require that students acquire specialized knowledge and skills, including the use of advanced technology, special tools, and equipment; terminology; and methodologies essential to the student’s research.

It is necessary to implement a combination of research-based standards and strategies that have been proven successful in accelerating the educational development of gifted students. The instructional approaches should meet the needs of each student based on results of individual portfolios, assessments, and progress monitoring.

Course Standards

Integrate Florida Standards for Mathematical Practice (MP) as applicable.

- MAFS.K12.MP.1.1 Make sense of problems and persevere in solving them.
- MAFS.K12.MP.3.1 Construct viable arguments and critique the reasoning of others.
- MAFS.K12.MP.5.1 Use appropriate tools strategically.
- MAFS.K12.MP.6.1 Attend to precision.

Name	Description
LAFS.K12.R.1.1:	Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
LAFS.K12.R.1.2:	Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
LAFS.K12.R.1.3:	Analyze how and why individuals, events, and ideas develop and interact over the course of a text.
LAFS.K12.R.2.4:	Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
LAFS.K12.R.2.5:	Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
LAFS.K12.R.2.6:	Assess how point of view or purpose shapes the content and style of a text.
LAFS.K12.R.3.7:	Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
LAFS.K12.R.3.8:	Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
LAFS.K12.R.3.9:	Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.
LAFS.K12.R.4.10:	Read and comprehend complex literary and informational texts independently and proficiently.
LAFS.K12.SL.1.1:	Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others’ ideas and expressing their own clearly and persuasively.
LAFS.K12.SL.1.2:	Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.
LAFS.K12.SL.1.3:	Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric.
LAFS.K12.SL.2.4:	Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.
LAFS.K12.SL.2.5:	Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
LAFS.K12.SL.2.6:	Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.
LAFS.K12.L.1.1:	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
LAFS.K12.L.1.2:	Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
LAFS.K12.L.2.3:	Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.
LAFS.K12.L.3.4:	Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
LAFS.K12.L.3.5:	Demonstrate understanding of word relationships and nuances in word meanings.
LAFS.K12.L.3.6:	Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.
G.K12.2.1.1a:	The Nature of Questions - Know: Identify questions as seeking basic information and facts in singular disciplines.
G.K12.2.1.1b:	The Nature of Questions - Understand: See potential for questions to explore broader aspects of knowledge, moving toward speculative and evaluative aspects.
G.K12.2.1.1c:	The Nature of Questions - Perform: Recognize that questions connect disciplines and build better frameworks for thinking.
G.K12.2.1.1d:	The Nature of Questions - Accomplish: Seek and use questions that connect divergent disciplines in order to expand understanding.
G.K12.2.1.2a:	The Importance of Questions - Know: Identify and situate questions within a singular discipline’s method of inquiry.
G.K12.2.1.2b:	The Importance of Questions - Understand: Analyze and synthesize questions that connect methods of inquiry in different disciplines.
G.K12.2.1.2c:	The Importance of Questions - Perform: Order/categorize questions that link divergent disciplines and frame different inquiry methods.
G.K12.2.1.2d:	The Importance of Questions - Accomplish: Use questions that frame inquiry within divergent disciplines in order to understand the links between and/or among the disciplines.
G.K12.2.1.3a:	The Power of Questions - Know: Explain the function of questions within singular disciplines.
G.K12.2.1.3b:	The Power of Questions - Understand: Understand the function of questions to connect multiple disciplines.
G.K12.2.1.3c:	The Power of Questions - Perform: Demonstrate an initial use of questions to drive critical thought within a discipline.

G.K12.2.1.3d:	The Power of Questions - Accomplish: Manifest an understanding of the integrative nature and function of questions that drive inquiry in multiple disciplines.
G.K12.2.2.1a:	Question Creation - Know: Create questions that drive factual exploration within singular disciplines.
G.K12.2.2.1c:	Question Creation - Perform: Manipulate ideas to create and organize questions that drive inquiry and connect divergent disciplines.
G.K12.2.2.1b:	Question Creation - Understand: Unite questions that drive broader exploration within disciplines.
G.K12.2.2.1d:	Question Creation - Accomplish: Use questions that link divergent disciplines to develop personal understandings of experiences.
G.K12.2.2.2a:	Questions and Inquiry - Know: Explain the kind of information questions seek.
G.K12.2.2.2b:	Questions and Inquiry - Understand: Explain how the questions limit and/or expand the nature of the exploration.
G.K12.2.2.2c:	Questions and Inquiry - Perform: Use questions to refocus the nature of the inquiry.
G.K12.2.2.2d:	Questions and Inquiry - Accomplish: Use questions to situate personal interest and background within the inquiry.
G.K12.2.3.1a:	Questions Scrutinized - Know: Recognize the quality of questions (both identified and created) that frame singular disciplinary inquiry.
G.K12.2.3.1b:	Questions Scrutinized - Understand: Explain the quality of questions (both identified and created) that work to expand inquiry into integrated disciplines.
G.K12.2.3.1c:	Questions Scrutinized - Perform: Evaluate questions (both identified and created) as a regular component of personal research and exploration.
G.K12.2.3.1d:	Questions Scrutinized - Accomplish: Explore the nature of questioning, always aware that better questions deliver the potential for more complete information.
G.K12.2.3.2a:	Questions Revised - Know: Refine questions as directed so they explore a clearer line of inquiry within a single discipline.
G.K12.2.3.2b:	Questions Revised - Understand: Synthesize questions as directed so they explore a clearer line of inquiry and integrate disciplines.
G.K12.2.3.2c:	Questions Revised - Perform: Develop questions spontaneously and independently while conducting personal research and exploration.
G.K12.2.3.2d:	Questions Revised - Accomplish: Refine questions as a general practice or characteristic of intellectual pursuit.
G.K12.7.1.1a:	Audience Recognition - Know: Identify an authentic audience based on set criteria related to a specific topic.
G.K12.7.1.1b:	Audience Recognition - Understand: Communicate recognition of audience members' strengths and needs.
G.K12.7.1.1c:	Audience Recognition - Perform: React and refine performance based on audiences' strengths and needs.
G.K12.7.1.1d:	Audience Recognition - Accomplish: Communicate intentional reaction to subtle and overt feedback from audience.
G.K12.7.1.2a:	Communication - Know: Prepare and execute practiced performance to communicate ideas.
G.K12.7.1.2b:	Communication - Understand: Integrate ideas with visual supports to emphasize key point(s) in a performance.
G.K12.7.1.2c:	Communication - Perform: Identify personal presentation style and adapt that style to different purposes, moods, tones.
G.K12.7.1.2d:	Communication - Accomplish: Demonstrate evidence of refining a performance to communicate personal style.
G.K12.7.1.3a:	Advanced Presentation - Know: Use advanced language and symbol systems to communicate ideas.
G.K12.7.1.3b:	Advanced Presentation - Understand: Evaluate the personal preferences of others related to language and symbol systems.
G.K12.7.1.3c:	Advanced Presentation - Perform: Evaluate self in the area of presentation, language, and symbol systems.
G.K12.7.1.3d:	Advanced Presentation - Accomplish: Based on evaluation, revise and adapt presentation, language, and symbol systems for specific and various audiences.
G.K12.7.1.4a:	Problem Solving - Know: Create product to solve a problem or communicate a perspective.
G.K12.7.1.4b:	Problem Solving - Understand: Use strategies or tools of persuasion to resolve an issue or communicate a perspective.
G.K12.7.1.4c:	Problem Solving - Perform: Create specific strategies targeted at opposing viewpoints/perspectives.
G.K12.7.1.4d:	Problem Solving - Accomplish: Address critics with prepared, defensible arguments that effectively defend solutions.
G.K12.4.1.1a:	Problem Investigation - Know: Recognize multiple problems within a complex issue; poses research questions.
G.K12.4.1.1b:	Problem Investigation - Understand: Categorize and prioritize identified problems within a complex issue; generate hypotheses.
G.K12.4.1.1c:	Problem Investigation - Perform: Use established criteria to focus the problem statement and generate solutions.
G.K12.4.1.1d:	Problem Investigation - Accomplish: Propose new avenues for research of existing and future related problems.
G.K12.4.1.2a:	Multiple Perspectives - Know: Acknowledge diverse viewpoints of a problem.
G.K12.4.1.2b:	Multiple Perspectives - Understand: Compare and contrast multiple perspectives of a problem.
G.K12.4.1.2c:	Multiple Perspectives - Perform: Integrate multiple points of view into a problem statement.
G.K12.4.1.2d:	Multiple Perspectives - Accomplish: Restructure the problem statement to reflect new perspectives.
G.K12.4.1.3a:	Supportive Constructs - Know: Generate an effective argument on each side of a problem.
G.K12.4.1.3b:	Supportive Constructs - Understand: Develop multiple supporting statements from different perspectives.
G.K12.4.1.3c:	Supportive Constructs - Perform: Communicate supportive evidence convincingly in multiple formats.
G.K12.4.1.3d:	Supportive Constructs - Accomplish: Defend, challenge, and articulate points of view using available resources; develop effective rebuttals.
G.K12.4.1.4a:	Solution Finding - Know: Propose multiple solutions to a problem within varied categories (i.e., social, technological, educational, environmental, political).
G.K12.4.1.4b:	Solution Finding - Understand: Establish and apply criteria for evaluation of solutions.
G.K12.4.1.4c:	Solution Finding - Perform: Create original solutions and products based on evaluated criteria; analyze possible consequences and impacts; test conclusions to improve ideas.
G.K12.4.1.4d:	Solution Finding - Accomplish: Extend solutions to aid in solving future problems; seek alternative innovative outcomes or solutions.
G.K12.4.1.5a:	Creative Thinking - Know: Generate numerous and varied ideas to solve a real-world problem (fluency and flexibility).
G.K12.4.1.5b:	Creative Thinking - Understand: Synthesize unique alternatives to solve a problem (originality).
G.K12.4.1.5c:	Creative Thinking - Perform: Elaborate ideas through collaborative processes with colleagues.
G.K12.4.1.5d:	Creative Thinking - Accomplish: Evaluate and modify ideas and products to improve usefulness.
G.K12.7.2.1a:	Inventive Thinking - Know: Generate ways to improve an existing product using two related sources.
G.K12.7.2.1b:	Inventive Thinking - Understand: Create an original product for a specific audience using inductive and deductive reasoning.
G.K12.7.2.1c:	Inventive Thinking - Perform: Create a product with defined rationale using multiple sources from varied fields or disciplines.
G.K12.7.2.1d:	Inventive Thinking - Accomplish: Create and defend a product using multiple sources that can be used in and across fields/disciplines.
G.K12.7.2.2a:	Metaphorical Promotion - Know: Create a statement or product using two related ideas to strengthen the message.
G.K12.7.2.2b:	Metaphorical Promotion - Understand: Illustrate a new concept using two or more related ideas innovatively.
G.K12.7.2.2c:	Metaphorical Promotion - Perform: Create two seemingly unrelated or opposing ideas to reflect an in-depth understanding of an issue, concept, or principle.
G.K12.7.2.2d:	Metaphorical Promotion - Accomplish: Incorporate multiple sources from varied perspectives to create and test a novel theory.
G.K12.7.2.3a:	Praxis - Know: Generate multiple solutions to a given problem.
G.K12.7.2.3b:	Praxis - Understand: Generate a new, personal concept by synthesizing multiple solutions and multiple perspectives.

G.K12.7.2.3c:	Praxis - Perform: Create a new personal theory by synthesizing multiple solutions and perspectives that can be applied to a different field of study.
G.K12.7.2.3d:	Praxis - Accomplish: Critique or defend a personal theory based on evidence from multiple sources and multiple perspectives.
G.K12.4.2.1a:	Data Analysis - Know: Locate information and data sources relative to a complex, real-world problem.
G.K12.4.2.1b:	Data Analysis - Understand: Make decisions about the usefulness of data to filter out extraneous information.
G.K12.4.2.1c:	Data Analysis - Perform: Use a variety of tools and techniques to organize data to draw conclusive statements.
G.K12.4.2.1d:	Data Analysis - Accomplish: Perform data analysis using tools of practicing professionals for a specific intent.
G.K12.4.2.2a:	Forecasting Solutions - Know: Identify patterns within related facts and information.
G.K12.4.2.2b:	Forecasting Solutions - Understand: Organize facts and information using various methods to predict potential outcomes.
G.K12.4.2.2c:	Forecasting Solutions - Perform: Use forecasting tools to evaluate possible solutions.
G.K12.4.2.2d:	Forecasting Solutions - Accomplish: Anticipate and plan for possible, probable, and preferable future outcomes.
G.K12.4.2.3a:	Critical Thinking - Know: Distinguish between fact and opinion in a variety of sources.
G.K12.4.2.3b:	Critical Thinking - Understand: Recognize bias and value statements in a variety of media.
G.K12.4.2.3d:	Critical Thinking - Accomplish: Analyze, interpret, and synthesize details and facts to examine relationships, infer meanings, and predict outcomes.
G.K12.4.2.4a:	Ethics - Know: Recognize the role of values in the development of attitudes about a complex problem.
G.K12.4.2.4b:	Ethics - Understand: Use knowledge of recognized ethical standards of various stakeholders to formulate problem statements and solutions.
G.K12.4.2.4c:	Ethics - Perform: Use the value system most common to a field of study to evaluate solutions and products.
G.K12.4.2.4d:	Ethics - Accomplish: Promote humane and respectful solutions to complex problems.
G.K12.4.3.1a:	Evaluation - Know: Recognize existing knowledge and attitudes about a complex problem.
G.K12.4.3.1b:	Evaluation - Understand: Analyze the impacts of existing knowledge and attitudes; identify personal assumptions and blind spots in approaching the problem.
G.K12.4.3.1c:	Evaluation - Perform: Identify knowledge gaps and inconsistencies to challenge existing attitudes and beliefs.
G.K12.4.3.1d:	Evaluation - Accomplish: Use multiple sources to affect change in generally accepted knowledge and attitudes.
G.K12.4.3.2a:	Creative Methodology - Know: Recognize contributions of inventors and innovators in multiple fields of accomplishment.
G.K12.4.3.2b:	Creative Methodology - Understand: Analyze and/or replicate methods used by creators and problem solvers in multiple fields.
G.K12.4.3.2c:	Creative Methodology - Perform: Create original products using various inventive strategies.
G.K12.4.3.2d:	Creative Methodology - Accomplish: Design original problem solving models for use in specific situations.
G.K12.4.3.2e:	Creative Methodology - Know: Identify a variety of problem solving methods.
G.K12.4.3.2f:	Creative Methodology - Understand: Differentiate the effectiveness of problem solving methods in a variety of settings.
G.K12.4.3.2g:	Creative Methodology - Perform: Apply appropriate methodologies for problem solving based on their usefulness.
G.K12.4.3.2h:	Creative Methodology - Accomplish: Reflect on adequacy of inventive processes and problem solving in various disciplines.
G.K12.4.3.3a:	Communication - Know: Identify stakeholders within a complex problem.
G.K12.4.3.3b:	Communication - Understand: Use multiple tools and techniques to target identified audiences; use precise language to explain positions.
G.K12.4.3.3c:	Communication - Perform: Use information about the stakeholders to develop convincing arguments to support solutions.
G.K12.4.3.3d:	Communication - Accomplish: Advocate convincingly to diverse audiences using sophisticated techniques (oral, written, technological) appropriate to the field and audience.
ELD.K12.ELL.1.1:	English language learners communicate for social and instructional purposes within the school setting.

There are more than 23 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/13063>

Physical Therapy (#7966010)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7966010

Course Section: Exceptional Student Education

Course Status: Draft - Course Pending Approval

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Therapy >

Abbreviated Title: PHY THERAPY

VERSION DESCRIPTION

The purpose of this course is to provide physical therapy services to exceptional students in order to achieve functional outcomes identified in the student's individual education plan (IEP) or educational plan (EP) to benefit from specially designed instruction.

This course is designed for students with disabilities whose IEP or EP indicates the need for physical therapy, as a related service and is specified in a plan of treatment or care developed by a licensed physical therapist to assist the student in meeting educational goals, pursuant to the provision of Part III, Chapter 468, Florida Statutes.

The outcomes that the student should achieve must be specified on an individual basis and relate to achievement of annual goals on the student's IEP or EP.

Instructional activities should be age appropriate and include a variety of learning opportunities. Activities involving practical applications may occur in home, school, community, and employment settings for the purpose of acquisition, practice, generalization, and maintenance of skills.

GENERAL NOTES

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Section: Exceptional Student Education

Course Status: Draft - Course Pending Approval

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Therapy > **Abbreviated Title:** SPEECH THRPY

VERSION DESCRIPTION

The purpose of this course is to provide students exhibiting disorders of speech sounds, fluency, and/or voice that interfere with communication, performance, or functioning in the educational environment with appropriate instruction in skills necessary to achieve annual goals based on assessed needs and the student's individual educational plan (IEP) or educational plan (EP).

This course is designed for students with disabilities whose IEP or EP indicates the need for speech therapy, either as an exceptional student education program or related service. The outcomes that the student should achieve must be specified on an individual basis and relate to achievement of annual goals on the student's IEP or EP.

Instructional activities should be age appropriate and include a variety of learning opportunities. Activities involving practical applications may occur in home, school, community, and employment settings for the purpose of acquisition, practice, generalization, and maintenance of skills.

Course Number: 7967010

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas > **Abbreviated Title:** ACCESS VISUAL PERFORM

Course Section: Exceptional Student Education

Number of Credits: Multiple Credit (more than 1 credit)

Course Status: Draft - Course Pending Approval

Keywords: access art, access visual art, access performing art, performing art, ESE

VERSION DESCRIPTION

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

Related Access Points

Name	Description
DA.912.O.1.In.a:	Compare characteristics of two dance forms.
DA.912.O.1.Su.a:	Identify characteristics of a variety of dance forms.
DA.912.O.1.Pa.a:	Recognize a characteristic of a variety of dance forms.

Dissect or assemble a step, pattern, or combination to show understanding of the movement, terminology, and progression.

[DA.912.O.1.3:](#)

Remarks/Examples:
e.g., tendu-dégagé-grand battement-grand jeté

Related Access Points

Name	Description
DA.912.O.1.In.c:	Dissect a dance step or combination to reveal the underlying steps and positions.
DA.912.O.1.Su.c:	Investigate the positions, initiations, and movements within a given step.
DA.912.O.1.Pa.c:	Recognize specified elements of dance in planned dance pieces to show awareness of structure.

[DA.912.H.1.2:](#)

Study dance works created by artists of diverse backgrounds, and use their work as inspiration for performance or creating new works.

Related Access Points

Name	Description
DA.912.H.1.In.a:	Compare influences of dance on cultures over time.
DA.912.H.1.Su.a:	Recognize the influence of dance on culture.
DA.912.H.1.Pa.a:	Recognize a variety of culturally significant dances.

[DA.912.H.1.4:](#)

Observe, practice, and/or discuss a broad range of historical, cultural, or social dances to broaden a personal perspective of the world.

Related Access Points

Name	Description
DA.912.H.1.In.a:	Compare influences of dance on cultures over time.
DA.912.H.1.Su.a:	Recognize the influence of dance on culture.
DA.912.H.1.Pa.a:	Recognize a variety of culturally significant dances.

Study and/or perform exemplary works by choreographers who use new and emerging technology to stimulate the imagination.

[DA.912.F.1.1:](#)

Remarks/Examples:
e.g., Alwin Nikolais, Pilobolus, Elizabeth Streb, Cirque du Soleil

Related Access Points

Name	Description
DA.912.F.1.In.a:	Demonstrate the use of a variety of technology tools to produce, store, or view dance performances as a citizen, consumer, or worker.
DA.912.F.1.Su.a:	Individually or collaboratively demonstrate the use of selected technology tools to produce, store, or experience dance performances as a citizen, consumer, or worker.
DA.912.F.1.Pa.a:	Use selected technology tools to access dance as a citizen, consumer, or worker.

Imagine, then describe and/or demonstrate, ways to incorporate new, emerging, or familiar technology in the creation of an innovative dance project or product.

[DA.912.F.1.2:](#)

Remarks/Examples:
e.g., synchronous virtual performance, visual projections, motion-response technology, lighting

Related Access Points

Name	Description
DA.912.F.1.In.a:	Demonstrate the use of a variety of technology tools to produce, store, or view dance performances as a citizen, consumer, or worker.
DA.912.F.1.Su.a:	Individually or collaboratively demonstrate the use of selected technology tools to produce, store, or experience dance performances as a citizen, consumer, or worker.
DA.912.F.1.Pa.a:	Use selected technology tools to access dance as a citizen, consumer, or worker.

Apply listening strategies to promote appreciation and understanding of unfamiliar musical works.

[MU.912.C.1.1:](#)

Remarks/Examples:
e.g., listening maps, active listening, checklists

Related Access Points

Name	Description
MU.912.C.1.In.a:	Develop effective sensory strategies and describe how they support appreciation of unfamiliar musical works.
MU.912.C.1.Su.a:	Use appropriate sensory strategies to support appreciation of unfamiliar musical works.

[MU.912.C.1.Pa.a:](#) Use sensory strategies to support appreciation of unfamiliar musical works.

Analyze instruments of the world and classify them by common traits.

[MU.912.C.1.3:](#)

Remarks/Examples:

e.g., classical and folk instruments from around the world

Related Access Points

Name	Description
MU.912.C.1.In.c:	Identify, aurally, selected instruments of the world.
MU.912.C.1.Su.c:	Recognize selected instruments of the world.
MU.912.C.1.Pa.c:	Recognize a variety of instruments.

Improvise rhythmic and melodic phrases over harmonic progressions.

[MU.912.S.1.1:](#)

Remarks/Examples:

e.g., using text or scat syllables

Related Access Points

Name	Description
MU.912.S.1.In.a:	Improvise rhythmic and melodic phrases to accompany familiar songs and/or standard harmonic progressions.
MU.912.S.1.Su.a:	Improvise rhythmic or melodic phrases to accompany familiar songs and/or standard harmonic progressions.
MU.912.S.1.Pa.a:	Participate in an improvisation with vocal or instrumental patterns using familiar songs.

Perform and notate, independently and accurately, melodies by ear.

[MU.912.S.1.4:](#)

Remarks/Examples:

e.g., singing, playing, writing

Related Access Points

Name	Description
MU.912.S.1.In.a:	Improvise rhythmic and melodic phrases to accompany familiar songs and/or standard harmonic progressions.
MU.912.S.1.Su.a:	Improvise rhythmic or melodic phrases to accompany familiar songs and/or standard harmonic progressions.
MU.912.S.1.Pa.a:	Participate in an improvisation with vocal or instrumental patterns using familiar songs.

Compare two or more works of a composer across performance media.

[MU.912.H.1.3:](#)

Remarks/Examples:

e.g., orchestral and choral; guitar and string quartet; piano solo and piano concerto

Related Access Points

Name	Description
MU.912.H.1.In.b:	Compare stylistic and musical features in works originating from different cultures.
MU.912.H.1.Su.b:	Identify similarities and differences between styles and features of music produced by different cultures.
MU.912.H.1.Pa.b:	Recognize similarities or differences between styles or features of music produced by different cultures.

[MU.912.H.2.1:](#)

Evaluate the social impact of music on specific historical periods.

Related Access Points

Name	Description
MU.912.H.2.In.a:	Examine the social impact of music on historical periods or cultural evolution.
MU.912.H.2.Su.a:	Recognize the social impact of selected music on historical periods or cultural events.
MU.912.H.2.Pa.a:	Match selected music with significant historical periods or cultural events

[MU.912.F.1.2:](#)

Incorporate or adapt new, emerging, or previously unfamiliar technology to create an innovative composition, music project, or related product.

Related Access Points

Name	Description
MU.912.F.1.In.a:	Demonstrate the use of a variety of technology tools to produce, store, or listen to music as a citizen, consumer, or worker.
MU.912.F.1.Su.a:	Demonstrate the use of selected technology tools to produce, store, or listen to music as a citizen, consumer, or worker.
MU.912.F.1.Pa.a:	Collaboratively demonstrate the use of selected technology tools to produce, store, or listen to music as a citizen, consumer, or worker.

[MU.912.F.3.4:](#)

Design and implement a personal learning plan, related to the study of music, which demonstrates self-assessment, brain-storming, decision-making, and initiative to advance skills and/or knowledge.

Related Access Points

Name	Description
MU.912.F.3.In.c:	Prioritize, monitor, and complete tasks related to individual and collaborative music projects.

[MU.912.F.3.Su.c:](#) Organize and complete music projects having three or more components.

[MU.912.F.3.Pa.c:](#) Contribute to the organization and execution of music projects.

Create, refine, and sustain complex and believable characters for performance through the integration and application of artistic choices based on research, rehearsal, feedback, and refinement.

[TH.912.C.1.2:](#)

Remarks/Examples:

e.g., physical, vocal, emotional

Related Access Points

Name	Description
TH.912.C.1.In.b:	Create a character for a performance-based rehearsal, feedback, and refinement.
TH.912.C.1.Su.b:	Re-create a character based rehearsal, feedback, and refinement.
TH.912.C.1.Pa.b:	Change a characteristic in a character for a performance based on feedback.

[TH.912.C.1.5:](#)

Make and defend conscious choices in the creation of a character that will fulfill anticipated audience response.

Related Access Points

Name	Description
TH.912.C.1.In.d:	Select the physical/visual elements necessary to create a specific historical and/or geographical play.
TH.912.C.1.Su.d:	Describe the selection of specific criteria in the creation of a character that will fulfill audience response.
TH.912.C.1.Pa.d:	Identify a physical/visual element necessary to create a specific historical and/or geographical play.

[TH.912.C.1.6:](#)

Respond to theatrical works by identifying and interpreting influences of historical, social, or cultural contexts.

Related Access Points

Name	Description
TH.912.C.1.In.e:	Explain specific criteria chosen in the creation of a character that will fulfill anticipated audience response.
TH.912.C.1.Su.e:	Use a selected criterion to respond to a variety of theatrical performances.
TH.912.C.1.Pa.e:	Identify selection of characteristics in the creation of a character for a specific audience.

[TH.912.C.2.7:](#)

Accept feedback from others, analyze it for validity, and apply suggestions appropriately to future performances or designs.

Related Access Points

Name	Description
TH.912.C.2.In.f:	Implement feedback and suggestions from others in future performances.
TH.912.C.2.Su.f:	Use feedback from others to refine future performances.
TH.912.C.2.Pa.f:	Follow feedback from others on future performances.

[TH.912.S.1.1:](#)

Describe the interactive effect of audience members and actors on performances.

Related Access Points

Name	Description
TH.912.S.1.In.a:	Describe the proper audience etiquette at live and recorded performances.
TH.912.S.1.Su.a:	Demonstrate proper audience etiquette at live and recorded performances.
TH.912.S.1.Pa.a:	Recognize a characteristic of proper audience etiquette at live and recorded performances.

[TH.912.S.1.5:](#)

Write monologues, scenes, and/or short plays using principles and elements of writing found in dramatic literature.

Related Access Points

Name	Description
TH.912.S.1.In.d:	Create, re-create, and refine a variety of theatrical performances.
TH.912.S.1.Su.d:	Re-create and refine selected theatrical performances.
TH.912.S.1.Pa.d:	Contribute to the creation, or re-creation, and refinement of a variety of theatrical performances.

[TH.912.S.2.4:](#)

Sustain a character or follow technical cues in a production piece to show focus.

Related Access Points

Name	Description
TH.912.S.2.In.c:	Refine memorized scenes to establish successful interpretation, expression, and believability.
TH.912.S.2.Su.c:	Refine memorized scenes to establish successful interpretation, expression, and believability.
TH.912.S.2.Pa.c:	Contribute selected lines or actions to scenes to establish successful interpretation, expression, and believability.

[TH.912.S.2.5:](#)

Perform memorized theatrical literature in contrasting pieces to show ability to apply principles and structure, focus on details of performance, and processing skills to establish successful interpretation, expression, and believability.

Related Access Points

Name	Description
TH.912.S.2.In.c:	Refine memorized scenes to establish successful interpretation, expression, and believability.

[TH.912.S.2.Su.c:](#) Refine memorized scenes to establish successful interpretation, expression, and believability.

[TH.912.S.2.Pa.c:](#) Contribute selected lines or actions to scenes to establish successful interpretation, expression, and believability.

Create a performance piece to document a significant issue or event.

[TH.912.O.3.4:](#)

Remarks/Examples:

e.g., pantomime, improvisation, scene, monologue

Related Access Points

Name	Description
TH.912.O.1.In.c:	Apply selected principles of dramatic structure to support a dramatic scene.
TH.912.O.1.Su.c:	Apply a principle of dramatic structure to support a dramatic scene.
TH.912.O.1.Pa.c:	Contribute a principle of dramatic structure to support a scene.

[TH.912.O.3.5:](#)

Design technical elements to document the progression of a character, plot, or theme.

Related Access Points

Name	Description
TH.912.O.3.In.b:	Describe how the staging or technical design for a scene supports the artistic intent.
TH.912.O.3.Su.b:	Identify how the staging or technical design for a scene supports the artistic intent.
TH.912.O.3.Pa.b:	Recognize how a selected staging or technical design characteristic for a scene supports the artistic intent.

[TH.912.H.1.1:](#)

Analyze how playwrights' work reflects the cultural and socio-political framework in which it was created.

Related Access Points

Name	Description
TH.912.H.1.In.a:	Compare theatre works from a variety of playwrights from diverse culture and historical periods.
TH.912.H.1.Su.a:	Identify similarities and differences in theatrical work produced by people of different cultures and historical periods.
TH.912.H.1.Pa.a:	Recognize a variety of theatrical works.

[TH.912.H.1.2:](#)

Study, rehearse, and discuss a broad range of theatre works by diverse playwrights to enrich one's perspective of the world.

Related Access Points

Name	Description
TH.912.H.1.In.a:	Compare theatre works from a variety of playwrights from diverse culture and historical periods.
TH.912.H.1.Su.a:	Identify similarities and differences in theatrical work produced by people of different cultures and historical periods.
TH.912.H.1.Pa.a:	Recognize a variety of theatrical works.

[TH.912.F.1.2:](#)

Solve short conflict-driven scenarios through improvisation.

Related Access Points

Name	Description
TH.912.F.1.In.b:	Create, interpret, and respond to theatre that uses improvised storytelling.
TH.912.F.1.Su.b:	Create, interpret, or respond to theatre that uses improvised storytelling.
TH.912.F.1.Pa.b:	Create, interpret, or respond to props, costumes, or dialogue that support a story.

[TH.912.F.1.3:](#)

Stimulate imagination, quick thinking, and creative risk-taking through improvisation to create written scenes or plays.

Related Access Points

Name	Description
TH.912.F.1.In.b:	Create, interpret, and respond to theatre that uses improvised storytelling.
TH.912.F.1.Su.b:	Create, interpret, or respond to theatre that uses improvised storytelling.
TH.912.F.1.Pa.b:	Create, interpret, or respond to props, costumes, or dialogue that support a story.

[VA.912.C.1.1:](#)

Integrate curiosity, range of interests, attentiveness, complexity, and artistic intention in the art-making process to demonstrate self-expression.

Related Access Points

Name	Description
VA.912.C.1.In.a:	Express a range of interests and contextual connections in the art-making process.
VA.912.C.1.Su.a:	Integrate ideas during the art-making process to convey meaning in personal works of art.
VA.912.C.1.Pa.a:	Use the art-making process to communicate personal interests and self-expression.

[VA.912.C.1.3:](#)

Evaluate the technical skill, aesthetic appeal, and/or social implication of artistic exemplars to formulate criteria for assessing personal work.

Related Access Points

Name	Description
VA.912.C.1.In.b:	Identify qualities of exemplary artworks that are evident and transferable to the judgment of personal work.
VA.912.C.1.Su.b:	Examine exemplary artworks to identify qualities that make the work unique or appealing.
VA.912.C.1.Pa.b:	Examine exemplary artworks to recognize qualities that make the work unique or appealing.

[VA.912.S.1.1:](#)

Use innovative means and perceptual understanding to communicate through varied content, media, and art techniques.

Related Access Points

Name	Description
VA.912.S.1.In.a:	Manipulate content, media, techniques, and processes to achieve communication with artistic intent.
VA.912.S.1.Su.a:	Manipulate tools and media to enhance communication in personal artworks.
VA.912.S.1.Pa.a:	Experiment with art tools and media to express ideas.

[VA.912.S.1.2:](#)

Investigate the use of technology and other resources to inspire art-making decisions.

Related Access Points

Name	Description
VA.912.S.1.In.b:	Use media, technology, and other resources to derive ideas for personal art-making decisions.
VA.912.S.1.Su.b:	Use media, technology, and other resources to inspire personal art-making decisions.
VA.912.S.1.Pa.b:	Use diverse resources to inspire artistic expression and achieve varied results.

Interpret and reflect on cultural and historical events to create art.

[VA.912.S.1.3:](#)

Remarks/Examples: e.g., texts, visual media, Internet, museums, Florida history, Holocaust, African American history
--

Related Access Points

Name	Description
VA.912.S.1.In.c:	Explore various subject matter, themes, and historical or cultural events to develop an image that communicates artistic intent.
VA.912.S.1.Su.c:	Create artworks to depict personal, cultural, and/or historical themes.
VA.912.S.1.Pa.c:	Use art exemplars for specified time periods and cultures to inspire personal artworks.

[VA.912.O.1.3:](#)

Research and use the techniques and processes of various artists to create personal works.

Related Access Points

Name	Description
VA.912.O.1.In.a:	Create artworks that demonstrate skilled use of media to convey personal vision.
VA.912.O.1.Su.a:	Select and use structural elements of art and organizational principles of design to create artworks.
VA.912.O.1.Pa.a:	Use teacher-selected structural elements of art and principles of design to create artworks.

[VA.912.O.1.5:](#)

Investigate the use of space, scale, and environmental features of a structure to create three-dimensional form or the illusion of depth and form.

Related Access Points

Name	Description
VA.912.O.1.In.c:	Explore the use of space, scale, and environmental features to create three-dimensional form or the illusion of depth and form.
VA.912.O.1.Su.c:	Re-create three-dimensional form or the illusion of depth and form from a model.
VA.912.O.1.Pa.c:	Explore and use a variety of visual art media to create three-dimensional form.

[VA.912.O.2.1:](#)

Construct new meaning through shared language, ideation, expressive content, and unity in the creative process.

Related Access Points

Name	Description
VA.912.O.2.In.a:	Select various media and techniques to communicate personal symbols and ideas through the organization of the structural elements of art.
VA.912.O.2.Su.a:	Apply basic structural elements of art and organizational principles of design to create artworks with a new meaning.
VA.912.O.2.Pa.a:	Use basic structural elements of art to create and respond to artworks.

[VA.912.O.2.4:](#)

Concentrate on a particular style, theme, concept, or personal opinion to develop artwork for a portfolio, display, or exhibition.

Related Access Points

Name	Description
VA.912.O.2.In.a:	Select various media and techniques to communicate personal symbols and ideas through the organization of the structural elements of art.
VA.912.O.2.Su.a:	Apply basic structural elements of art and organizational principles of design to create artworks with a new meaning.
VA.912.O.2.Pa.a:	Use basic structural elements of art to create and respond to artworks.

[VA.912.O.3.1:](#)

Create works of art that include symbolism, personal experiences, or philosophical view to communicate with an audience.

Related Access Points

Name	Description
VA.912.O.3.In.a:	Use vocabulary, symbols, and symbolism unique to visual art to communicate and document a variety of ideas in artworks.
VA.912.O.3.Su.b:	Use selected vocabulary, symbols, and symbolism unique to visual art to communicate and document a variety of ideas in artworks.
VA.912.O.3.Pa.c:	Use selected vocabulary, symbols, or symbolism unique to visual art to communicate and document ideas in artworks.

[VA.912.H.1.1:](#)

Analyze the impact of social, ecological, economic, religious, and/or political issues on the function or meaning of the artwork.

Related Access Points

Name	Description
VA.912.H.1.In.a:	Compare historical and cultural influences that have inspired artists to produce works of art.
VA.912.H.1.Su.a:	Recognize ideas important to people, groups, cultures, or time periods that are reflected in their artworks.
VA.912.H.1.Pa.a:	Recognize similar themes in visual art from a variety of cultures and times.

[VA.912.H.1.3:](#)

Examine the significance placed on art forms over time by various groups or cultures compared to current views on aesthetics.

Related Access Points

Name	Description
VA.912.H.1.In.c:	Compare art forms of various cultures and times.
VA.912.H.1.Su.c:	Recognize similarities and differences between art forms across cultures and times.
VA.912.H.1.Pa.a:	Recognize similar themes in visual art from a variety of cultures and times.

[VA.912.H.2.1:](#)

Identify transitions in art media, technique, and focus to explain how technology has changed art throughout history.

Related Access Points

Name	Description
VA.912.H.2.In.a:	Describe how technology has led to the development of new art styles over time.
VA.912.H.2.Su.a:	Recognize how technology influences the creation of visual art.
VA.912.H.2.Pa.a:	Recognize structural elements of art and organizational principles of design to create and respond to artworks.

[VA.912.H.2.2:](#)

Analyze the capacity of the visual arts to fulfill aesthetic needs through artwork and utilitarian objects.

Related Access Points

Name	Description
VA.912.H.2.In.b:	Explain the impact artwork and utilitarian objects have on the human experience.
VA.912.H.2.Su.b:	Identify influences of visual art and utilitarian objects on the human experience.
VA.912.H.2.Pa.b:	Recognize an influence of visual art or utilitarian objects on the human experience.

[VA.912.F.1.3:](#)

Demonstrate flexibility and adaptability throughout the innovation process to focus and re-focus on an idea, deliberately delaying closure to promote creative risk-taking.

[VA.912.F.1.4:](#)

Use technological tools to create art with varying effects and outcomes.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

Course Number: 7967015
Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas >
Course Section: Exceptional Student Education
Abbreviated Title: Access Drawing 1
Number of Credits: Multiple credits
Course Length: Semester (S)
Course Type: Elective
Course Status: Draft - Course Pending Approval
Keywords: access, electives, drawing, art, high school, ESE, access points
Grade Level(s): 9, 10, 11, 12

VERSION DESCRIPTION

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

GENERAL NOTES

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description								
VA.912.C.1.4:	Apply art knowledge and contextual information to analyze how content and ideas are used in works of art. <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> Remarks/Examples: e.g., symbolism, spatial relationship </div> <p>Related Access Points</p> <table border="1" style="width: 100%;"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>VA.912.C.1.In.c:</td> <td>Use visual evidence and prior knowledge to analyze multiple interpretations of works of art.</td> </tr> <tr> <td>VA.912.C.1.Su.c:</td> <td>Describe observations and apply prior knowledge to interpret visual information and analyze works of art.</td> </tr> <tr> <td>VA.912.C.1.Pa.c:</td> <td>Use visual information or tactile sensations, prior knowledge, and experience to interpret works of art.</td> </tr> </tbody> </table>	Name	Description	VA.912.C.1.In.c:	Use visual evidence and prior knowledge to analyze multiple interpretations of works of art.	VA.912.C.1.Su.c:	Describe observations and apply prior knowledge to interpret visual information and analyze works of art.	VA.912.C.1.Pa.c:	Use visual information or tactile sensations, prior knowledge, and experience to interpret works of art.
Name	Description								
VA.912.C.1.In.c:	Use visual evidence and prior knowledge to analyze multiple interpretations of works of art.								
VA.912.C.1.Su.c:	Describe observations and apply prior knowledge to interpret visual information and analyze works of art.								
VA.912.C.1.Pa.c:	Use visual information or tactile sensations, prior knowledge, and experience to interpret works of art.								
VA.912.C.2.1:	Examine and revise artwork throughout the art-making process to refine work and achieve artistic objective. <p>Related Access Points</p> <table border="1" style="width: 100%;"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>VA.912.C.2.In.a:</td> <td>Assess personal artwork during production to refine work and achieve an artistic objective.</td> </tr> <tr> <td>VA.912.C.2.Su.a:</td> <td>Analyze and revise artworks to meet established criteria.</td> </tr> <tr> <td>VA.912.C.2.Pa.a:</td> <td>Use defined criteria to analyze and revise artworks.</td> </tr> </tbody> </table>	Name	Description	VA.912.C.2.In.a:	Assess personal artwork during production to refine work and achieve an artistic objective.	VA.912.C.2.Su.a:	Analyze and revise artworks to meet established criteria.	VA.912.C.2.Pa.a:	Use defined criteria to analyze and revise artworks.
Name	Description								
VA.912.C.2.In.a:	Assess personal artwork during production to refine work and achieve an artistic objective.								
VA.912.C.2.Su.a:	Analyze and revise artworks to meet established criteria.								
VA.912.C.2.Pa.a:	Use defined criteria to analyze and revise artworks.								
VA.912.C.3.5:	Make connections between timelines in other content areas and timelines in the visual arts. <p>Related Access Points</p>								

Name	Description
VA.912.C.3.In.c:	Use a defined rubric to examine issues in non-visual arts contexts.
VA.912.C.3.Su.c:	Use a defined criterion to examine issues in non-visual arts contexts.
VA.912.C.3.Pa.c:	Use teacher-selected criterion to examine issues in non-visual arts contexts.

Interpret and reflect on cultural and historical events to create art.

[VA.912.S.1.3:](#)

Remarks/Examples:

e.g., texts, visual media, Internet, museums, Florida history, Holocaust, African American history

Related Access Points

Name	Description
VA.912.S.1.In.c:	Explore various subject matter, themes, and historical or cultural events to develop an image that communicates artistic intent.
VA.912.S.1.Su.c:	Create artworks to depict personal, cultural, and/or historical themes.
VA.912.S.1.Pa.c:	Use art exemplars for specified time periods and cultures to inspire personal artworks.

[VA.912.S.1.4:](#)

Demonstrate effective and accurate use of art vocabulary throughout the art-making process.

Related Access Points

Name	Description
VA.912.S.1.In.d:	Use accurate art vocabulary to explain the art-making process.
VA.912.S.1.Su.d:	Use accurate art vocabulary to communicate about works of art and art processes.
VA.912.S.1.Pa.d:	Choose accurate art vocabulary to describe works of art and art processes.

[VA.912.S.2.2:](#)

Focus on visual information and processes to complete the artistic concept.

Related Access Points

Name	Description
VA.912.S.2.In.b:	Create artwork requiring sequentially ordered procedures and specified media to achieve intended results.
VA.912.S.2.Su.b:	Re-create sequentially ordered procedures to incorporate in a new work of visual art.
VA.912.S.2.Pa.b:	Re-create visual art processes in a given medium.

[VA.912.S.2.5:](#)

Demonstrate use of perceptual, observational, and compositional skills to produce representational, figurative, or abstract imagery.

Related Access Points

Name	Description
VA.912.S.2.In.a:	Organize the structural elements of art to achieve artistic goals when producing personal works of art.
VA.912.S.2.Su.a:	Create or re-create organizational structures to incorporate in a new work of visual art.
VA.912.S.2.Pa.a:	Re-create the organization of selected structural elements of art.

Incorporate skills, concepts, and media to create images from ideation to resolution.

[VA.912.S.2.6:](#)

Remarks/Examples:

e.g., structural elements of art, organizational principles of design, breadth

Related Access Points

Name	Description
VA.912.S.2.In.a:	Organize the structural elements of art to achieve artistic goals when producing personal works of art.
VA.912.S.2.Su.a:	Create or re-create organizational structures to incorporate in a new work of visual art.
VA.912.S.2.Pa.a:	Re-create the organization of selected structural elements of art.

Develop skill in sketching and mark-making to plan, execute, and construct two-dimensional images or three-dimensional models.

[VA.912.S.3.10:](#)

Remarks/Examples:

e.g., drawing: complex composition; architectural rendering: plans and models; sculpture: carving

Related Access Points

Name	Description
VA.912.S.3.In.a:	Use two-dimensional, three-dimensional, and/or four-dimensional materials, tools, techniques, and processes to achieve expected results.
VA.912.S.3.Su.a:	Use two- and three-dimensional materials, tools, techniques, and processes to achieve an intended result.
VA.912.S.3.Pa.a:	Use two- and three-dimensional materials, tools, and processes to create works of art.

Review, discuss, and demonstrate the proper applications and safety procedures for hazardous chemicals and equipment during the art-making process.

[VA.912.S.3.3:](#)

Remarks/Examples:

e.g., electric drill, carving and cutting tools, paper cutter, kiln, Material Safety Data Sheets (MSDS) labels: glazes, chemicals, etching solutions

Related Access Points

Name	Description
VA.912.S.3.In.b:	Demonstrate understanding of safety and maintenance protocols for media, tools, processes, and techniques.
VA.912.S.3.Su.b:	Follow procedures for using tools, media, techniques, and processes safely and responsibly.
VA.912.S.3.Pa.b:	Follow directions for safety procedures and tool maintenance in the art room.

Demonstrate personal responsibility, ethics, and integrity, including respect for intellectual property, when accessing information and creating works of art.

[VA.912.S.3.4:](#)

Remarks/Examples:
e.g., plagiarism, appropriation from the Internet and other sources

Related Access Points

Name	Description
VA.912.S.3.In.c:	Demonstrate respect for copyright laws and ownership of intellectual property when creating and producing works of art.
VA.912.S.3.Su.c:	Discuss issues related to plagiarism and appropriation of other intellectual property.
VA.912.S.3.Pa.c:	Recognize property ownership of self and others when creating works of art.

Use and maintain tools and equipment to facilitate the creative process.

[VA.912.S.3.7:](#)

Remarks/Examples:
e.g., sewing machine, pottery wheel, kiln, technology, printing press, hand tools

Related Access Points

Name	Description
VA.912.S.3.In.b:	Demonstrate understanding of safety and maintenance protocols for media, tools, processes, and techniques.
VA.912.S.3.Su.b:	Follow procedures for using tools, media, techniques, and processes safely and responsibly.
VA.912.S.3.Pa.b:	Follow directions for safety procedures and tool maintenance in the art room.

Develop color-mixing skills and techniques through application of the principles of heat properties and color and light theory.

[VA.912.S.3.8:](#)

Remarks/Examples:
e.g., media: ceramics, glass, wet, dry, digital

Related Access Points

Name	Description
VA.912.S.3.In.a:	Use two-dimensional, three-dimensional, and/or four-dimensional materials, tools, techniques, and processes to achieve expected results.
VA.912.S.3.Su.a:	Use two- and three-dimensional materials, tools, techniques, and processes to achieve an intended result.
VA.912.S.3.Pa.a:	Use two- and three-dimensional materials, tools, and processes to create works of art.

[VA.912.O.3.1:](#)

Create works of art that include symbolism, personal experiences, or philosophical view to communicate with an audience.

Related Access Points

Name	Description
VA.912.O.3.In.a:	Use vocabulary, symbols, and symbolism unique to visual art to communicate and document a variety of ideas in artworks.
VA.912.O.3.Su.b:	Use selected vocabulary, symbols, and symbolism unique to visual art to communicate and document a variety of ideas in artworks.
VA.912.O.3.Pa.c:	Use selected vocabulary, symbols, or symbolism unique to visual art to communicate and document ideas in artworks.

[VA.912.H.1.9:](#)

Describe the significance of major artists, architects, or masterworks to understand their historical influences.

Related Access Points

Name	Description
VA.912.H.1.In.e:	Compare influences of major artists, architects, or masterworks on their culture.
VA.912.H.1.Su.e:	Recognize how a major artist, architect, or masterwork influenced culture.
VA.912.H.1.Pa.d:	Associate selected artists, architects, or masterworks with examples of their work.

[VA.912.F.2.1:](#)

Examine career opportunities in the visual arts to determine requisite skills, qualifications, supply-and-demand, market location, and potential earnings.

Related Access Points

Name	Description
VA.912.F.2.In.a:	Analyze employment and leisure opportunities in or relating to visual art and pair with the necessary skills and training.
VA.912.F.2.Su.a:	Connect employment and leisure opportunities in or relating to visual art with the necessary skills, training, or prerequisites.
VA.912.F.2.Pa.a:	Distinguish among jobs that are art-related vs. non-art-related.

Follow directions and use effective time-management skills to complete the art-making process and show development of 21st-century skills.

[VA.912.F.3.4:](#)

Remarks/Examples:
e.g., punctuality, reliability, diligence, positive work ethic

Related Access Points

Name	Description
VA.912.F.3.In.b:	Demonstrate the use of a variety of technology to produce, store, consume, or view art.
VA.912.F.3.Su.b:	Individually or collaboratively demonstrate the use of selected technology to produce, store, or view art.
VA.912.F.3.Pa.b:	Use selected technology to access visual art.

[MAFS.912.G-CO.1.2:](#)

Represent transformations in the plane using, e.g., transparencies and geometry software; describe transformations as functions that take points in the plane as inputs and give other points as outputs. Compare transformations that preserve distance and angle to those that do not (e.g., translation versus horizontal stretch).

Related Access Points

Name	Description
MAFS.912.G-CO.1.AP.2a:	Represent transformations in the plane using, e.g., transparencies and geometry software.
MAFS.912.G-CO.1.AP.2b:	Compare transformations that preserve distance and angle to those that do not (e.g., translation versus horizontal stretch).

Make formal geometric constructions with a variety of tools and methods (compass and straightedge, string, reflective devices, paper folding, dynamic geometric software, etc.). Copying a segment; copying an angle; bisecting a segment; bisecting an angle; constructing perpendicular lines, including the perpendicular bisector of a line segment; and constructing a line parallel to a given line through a point not on the line.

[MAFS.912.G-CO.4.12:](#)

Remarks/Examples: Geometry - Fluency Recommendations

Fluency with the use of construction tools, physical and computational, helps students draft a model of a geometric phenomenon and can lead to conjectures and proofs.

Related Access Points

Name	Description
MAFS.912.G-CO.4.AP.12a:	Copy a segment.
MAFS.912.G-CO.4.AP.12b:	Copy an angle.
MAFS.912.G-CO.4.AP.12c:	Bisect a segment.
MAFS.912.G-CO.4.AP.12d:	Bisect an angle.
MAFS.912.G-CO.4.AP.12e:	Construct perpendicular lines, including the perpendicular bisector of a line segment.
MAFS.912.G-CO.4.AP.12f:	Construct a line parallel to a given line through a point not on the line.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

[LAFS.910.SL.1.1:](#)

- Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.1a:	Clarify, verify or challenge ideas and conclusions within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1b:	Summarize points of agreement and disagreement within a discussion on a given topic or text.
LAFS.910.SL.1.AP.1c:	Use evidence and reasoning presented in discussion on topic or text to make new connections with own view or understanding.
LAFS.910.SL.1.AP.1d:	Work with peers to set rules for collegial discussions and decision making.
LAFS.910.SL.1.AP.1e:	Actively seek the ideas or opinions of others in a discussion on a given topic or text.
LAFS.910.SL.1.AP.1f:	Engage appropriately in discussion with others who have a diverse or divergent perspective.

[LAFS.910.SL.2.4:](#)

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

Related Access Points

Name	Description
LAFS.910.SL.2.AP.4a:	Orally report on a topic, with a logical sequence of ideas, appropriate facts and relevant, descriptive details that support the main ideas.

[LAFS.910.RST.2.4:](#)

Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9–10 texts and topics.

[LAFS.910.WHST.2.4:](#)

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

There are more than 252 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12904>

Grade Level(s): 9, 10, 11, 12	

VERSION DESCRIPTION

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

GENERAL NOTES

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description
MU.912.S.3.4:	Analyze and describe the effect of rehearsal sessions and/or strategies on refinement of skills and techniques.
Related Access Points	
Name	Description
MU.912.S.3.In.c:	Develop and demonstrate efficient rehearsal strategies to apply skills and techniques.
MU.912.S.3.Su.c:	Select rehearsal strategies to apply skills and techniques.
MU.912.S.3.Pa.b:	Participate in rehearsal strategies to apply skills or techniques.
TH.912.C.1.2:	Create, refine, and sustain complex and believable characters for performance through the integration and application of artistic choices based on research, rehearsal, feedback, and refinement.
Remarks/Examples: e.g., physical, vocal, emotional	
Related Access Points	
Name	Description
TH.912.C.1.In.b:	Create a character for a performance-based rehearsal, feedback, and refinement.
TH.912.C.1.Su.b:	Re-create a character based rehearsal, feedback, and refinement.
TH.912.C.1.Pa.b:	Change a characteristic in a character for a performance based on feedback.
TH.912.C.1.3:	Justify a response to a theatrical experience through oral or written analysis, using correct theatre terminology.
Related Access Points	

Name	Description
TH.912.C.1.In.b:	Create a character for a performance-based rehearsal, feedback, and refinement.
TH.912.C.1.Su.b:	Re-create a character based rehearsal, feedback, and refinement.
TH.912.C.1.Pa.b:	Change a characteristic in a character for a performance based on feedback.

[TH.912.C.2.1:](#) Explore and describe possible solutions to production or acting challenges and select the solution most likely to produce desired results.

Related Access Points

Name	Description
TH.912.C.2.In.a:	Describe possible solutions to production or acting challenges.
TH.912.C.2.Su.a:	Identify possible solutions to production or acting challenges.
TH.912.C.2.Pa.a:	Contribute to the selection of possible solutions to production.

[TH.912.C.2.5:](#) Analyze the effect of rehearsal sessions and/or strategies on refining skills and techniques by keeping a performance or rehearsal journal/log.

Related Access Points

Name	Description
TH.912.C.2.In.d:	Explain the effect of rehearsals on refining skills in a journal.
TH.912.C.2.Su.d:	Describe the effect of rehearsals on refining skills in a journal.
TH.912.C.2.Pa.d:	Identify an effect of rehearsals on refining skills.

[TH.912.C.2.7:](#) Accept feedback from others, analyze it for validity, and apply suggestions appropriately to future performances or designs.

Related Access Points

Name	Description
TH.912.C.2.In.f:	Implement feedback and suggestions from others in future performances.
TH.912.C.2.Su.f:	Use feedback from others to refine future performances.
TH.912.C.2.Pa.f:	Follow feedback from others on future performances.

Improve a performance or project using various self-assessment tools, coaching, feedback, and/or constructive criticism.

[TH.912.C.2.8:](#)

Remarks/Examples:

e.g., peer assessment, rubric, criteria, coaching, feedback, criticism

Related Access Points

Name	Description
TH.912.C.2.In.f:	Implement feedback and suggestions from others in future performances.
TH.912.C.2.Su.f:	Use feedback from others to refine future performances.
TH.912.C.2.Pa.f:	Follow feedback from others on future performances.

Explore commonalities between works of theatre and other performance media.

[TH.912.C.3.1:](#)

Remarks/Examples:

e.g., dance, mime, movies, street theatre, poetry reading

Related Access Points

Name	Description
TH.912.C.3.In.a:	Describe similarities between works of theatre and other performance media.
TH.912.C.3.Su.a:	Identify similarities between works of theatre and other performance media.
TH.912.C.3.Pa.a:	Recognize similarities between works of theatre and other performance media.

[TH.912.C.3.3:](#) Critique, based on exemplary models and established criteria, the production values and effectiveness of school, community, and live or recorded professional productions.

Related Access Points

Name	Description
TH.912.C.3.In.b:	Use a defined rubric to evaluate a variety of theatrical performances.
TH.912.C.3.Su.b:	Use a selected criterion to evaluate a variety of theatrical performances.
TH.912.C.3.Pa.b:	Use a selected criterion to respond to a variety of theatrical performances.

[TH.912.S.1.1:](#) Describe the interactive effect of audience members and actors on performances.

Related Access Points

Name	Description
TH.912.S.1.In.a:	Describe the proper audience etiquette at live and recorded performances.
TH.912.S.1.Su.a:	Demonstrate proper audience etiquette at live and recorded performances.
TH.912.S.1.Pa.a:	Recognize a characteristic of proper audience etiquette at live and recorded performances.

[TH.912.S.1.6:](#) Respond appropriately to directorial choices for improvised and scripted scenes.

Related Access Points

Name	Description
TH.912.S.1.In.d:	Create, re-create, and refine a variety of theatrical performances.
TH.912.S.1.Su.d:	Re-create and refine selected theatrical performances.
TH.912.S.1.Pa.d:	Contribute to the creation, or re-creation, and refinement of a variety of theatrical performances.

Apply technical knowledge of safety procedures and demonstrate safe operation of theatre equipment, tools, and raw materials.

[TH.912.S.2.2:](#)

Remarks/Examples:

e.g., tools, ladders, paint, sewing machines, dyes, cosmetics

Related Access Points

Name	Description
TH.912.S.2.In.a:	Create or re-create one or more technical design documents for a theatrical production.
TH.912.S.2.Su.a:	Create or re-create selected components of one or more technical design documents for a theatrical production.
TH.912.S.2.Pa.a:	Contribute to the creation or re-creation of one or more technical design documents for a theatrical production.

Demonstrate an understanding of a dramatic work by developing a character analysis for one or more of its major characters and show how the analysis clarifies the character's physical and emotional dimensions.

[TH.912.S.2.3:](#)

Remarks/Examples:

e.g., relationships, wants, needs, motivations

Related Access Points

Name	Description
TH.912.S.2.In.b:	Describe physical and emotional qualities that define one or more major characters in a theatrical production.
TH.912.S.2.Su.b:	Identify physical and emotional qualities that define one or more major characters in a theatrical production.
TH.912.S.2.Pa.b:	Recognize a physical or emotional quality that defines one or more major characters in a theatrical production.

[TH.912.S.2.4:](#)

Sustain a character or follow technical cues in a production piece to show focus.

Related Access Points

Name	Description
TH.912.S.2.In.c:	Refine memorized scenes to establish successful interpretation, expression, and believability.
TH.912.S.2.Su.c:	Refine memorized scenes to establish successful interpretation, expression, and believability.
TH.912.S.2.Pa.c:	Contribute selected lines or actions to scenes to establish successful interpretation, expression, and believability.

Strengthen acting skills by engaging in theatre games and improvisations.

[TH.912.S.2.8:](#)

Remarks/Examples:

e.g., concentration, observation, imagination, sense memory, listening, reacting

Related Access Points

Name	Description
TH.912.S.2.In.c:	Refine memorized scenes to establish successful interpretation, expression, and believability.
TH.912.S.2.Su.c:	Refine memorized scenes to establish successful interpretation, expression, and believability.
TH.912.S.2.Pa.c:	Contribute selected lines or actions to scenes to establish successful interpretation, expression, and believability.

[TH.912.S.3.2:](#)

Exercise artistic discipline and collaboration to achieve ensemble in rehearsal and performance.

Related Access Points

Name	Description
TH.912.S.3.In.b:	Demonstrate a variety of theatrical skills and techniques in rehearsal and performance.
TH.912.S.3.Su.b:	Demonstrate selected theatrical skills and techniques in rehearsal and performance.
TH.912.S.3.Pa.b:	Contribute to a variety of theatrical performances.

[TH.912.S.3.3:](#)

Develop acting skills and techniques in the rehearsal process.

Related Access Points

Name	Description
TH.912.S.3.In.b:	Demonstrate a variety of theatrical skills and techniques in rehearsal and performance.
TH.912.S.3.Su.b:	Demonstrate selected theatrical skills and techniques in rehearsal and performance.
TH.912.S.3.Pa.b:	Contribute to a variety of theatrical performances.

Research and analyze a dramatic text by breaking it down into its basic, structural elements to support development of a directorial concept, characterization, and design.

[TH.912.O.1.1:](#)

Remarks/Examples:

e.g., beats, actions, subtext

Related Access Points

Name	Description
TH.912.O.1.In.a:	Identify selected principles of dramatic structure to the creation or revision of a dramatic scene.
TH.912.O.1.Su.a:	Recognize selected principles of dramatic structure to the creation or revision of a dramatic scene.
TH.912.O.1.Pa.a:	Recognize a principle of dramatic structure to the creation or revision of a dramatic scene.

[TH.912.O.1.3:](#)

Execute the responsibilities of director, designer, manager, technician, or performer by applying standard theatrical conventions.

Related Access Points

Name	Description
TH.912.O.1.In.a:	Identify selected principles of dramatic structure to the creation or revision of a dramatic scene.
TH.912.O.1.Su.a:	Recognize selected principles of dramatic structure to the creation or revision of a dramatic scene.
TH.912.O.1.Pa.a:	Recognize a principle of dramatic structure to the creation or revision of a dramatic scene.

[TH.912.O.2.4:](#)

Construct and perform a pantomime of a complete story, showing a full character arc.

Related Access Points

Name	Description
TH.912.O.2.In.a:	Apply selected principles of dramatic structure to the creation of a dramatic scene.
TH.912.O.2.Su.a:	Apply a principle of dramatic structure to the creation of a dramatic scene.
TH.912.O.2.Pa.a:	Contribute a principle of dramatic structure to the creation of a dramatic scene.

[TH.912.O.2.8:](#)

Create a scene or improvisation to manipulate and challenge the conventions of the performer/audience relationship.

Related Access Points

Name	Description
TH.912.O.2.In.a:	Apply selected principles of dramatic structure to the creation of a dramatic scene.
TH.912.O.2.Su.a:	Apply a principle of dramatic structure to the creation of a dramatic scene.
TH.912.O.2.Pa.a:	Contribute a principle of dramatic structure to the creation of a dramatic scene.

Analyze a variety of theatre and staging configurations to understand their influence on the audience experience and response.

[TH.912.O.3.2:](#)

Remarks/Examples:
e.g., indoor vs. outdoor venue, proscenium theatre vs. theatre-in-the-round

Related Access Points

Name	Description
TH.912.O.3.In.b:	Describe how the staging or technical design for a scene supports the artistic intent.
TH.912.O.3.Su.b:	Identify how the staging or technical design for a scene supports the artistic intent.
TH.912.O.3.Pa.b:	Recognize how a selected staging or technical design characteristic for a scene supports the artistic intent.

[TH.912.H.1.1:](#)

Analyze how playwrights' work reflects the cultural and socio-political framework in which it was created.

Related Access Points

Name	Description
TH.912.H.1.In.a:	Compare theatre works from a variety of playwrights from diverse culture and historical periods.
TH.912.H.1.Su.a:	Identify similarities and differences in theatrical work produced by people of different cultures and historical periods.
TH.912.H.1.Pa.a:	Recognize a variety of theatrical works.

[TH.912.H.1.2:](#)

Study, rehearse, and discuss a broad range of theatre works by diverse playwrights to enrich one's perspective of the world.

Related Access Points

Name	Description
TH.912.H.1.In.a:	Compare theatre works from a variety of playwrights from diverse culture and historical periods.
TH.912.H.1.Su.a:	Identify similarities and differences in theatrical work produced by people of different cultures and historical periods.
TH.912.H.1.Pa.a:	Recognize a variety of theatrical works.

[TH.912.H.1.5:](#)

Respect the rights of performers and audience members to perform or view controversial work with sensitivity to school and community standards.

Related Access Points

Name	Description
TH.912.H.1.In.c:	Apply appropriate audience standards of behavior related to school and community standards.
TH.912.H.1.Su.c:	Respond to performances with acceptable behavior related to school and community standards.
TH.912.H.1.Pa.c:	Participate in audience response to performances related to school and community standards.

[TH.912.H.2.2:](#)

Research and discuss the effects of personal experience, culture, and current events that shape individual response to theatrical works.

Related Access Points

Name	Description
TH.912.H.2.In.a:	Compare influences of culture and history on theatrical productions.
TH.912.H.2.Su.a:	Recognize the influence of culture and history on theatrical productions.
TH.912.H.2.Pa.a:	Recognize a variety of culturally significant theatrical works.

[TH.912.H.2.6:](#)

Explore how gender, race, and age are perceived in plays and how they affect the development of theatre.

Related Access Points

Name	Description
TH.912.H.2.In.a:	Compare influences of culture and history on theatrical productions.
TH.912.H.2.Su.a:	Recognize the influence of culture and history on theatrical productions.
TH.912.H.2.Pa.a:	Recognize a variety of culturally significant theatrical works.

[TH.912.H.3.3:](#)

Apply knowledge of non-theatre content areas to enhance presentations of characters, environments, and actions in performance.

Remarks/Examples:

e.g., history, literature, visual art, welding, sewing, computer applications, math, science, world languages

Related Access Points

Name	Description
TH.912.H.3.In.b:	Identify traditional and emerging technologies for theatre to support creativity and innovation in meeting technical production needs.
TH.912.H.3.Su.b:	Identify selected traditional and emerging technologies for theatre to support creativity and innovation in meeting technical production needs.
TH.912.H.3.Pa.b:	Recognize selected technologies to support production needs.

Explain how the social interactions of daily life are manifested in theatre.

[TH.912.H.3.5:](#)

Remarks/Examples:

e.g., cooperation, communication, consensus, self-esteem, taking risks, sympathy, empathy

Related Access Points

Name	Description
TH.912.H.3.In.d:	Demonstrate cooperative, interpersonal social skills in a variety of classroom and extracurricular activities.
TH.912.H.3.Su.c:	Participate in the maintenance of a health-enhancing level of personal fitness.
TH.912.H.3.Pa.d:	Practice cooperative interpersonal social skills in a variety of classroom and extracurricular activities.

Synthesize research, analysis, and imagination to create believable characters and settings.

[TH.912.F.1.1:](#)

Remarks/Examples:

e.g., scenery, costumes, props

Related Access Points

Name	Description
TH.912.F.1.In.a:	Analyze character and setting from dramatic text to create real and non-real characters and settings.
TH.912.F.1.Su.a:	Create real and non-real characters and settings.
TH.912.F.1.Pa.a:	Contribute to the creation of real and non-real characters and settings.

[TH.912.F.1.2:](#)

Solve short conflict-driven scenarios through improvisation.

Related Access Points

Name	Description
TH.912.F.1.In.b:	Create, interpret, and respond to theatre that uses improvised storytelling.
TH.912.F.1.Su.b:	Create, interpret, or respond to theatre that uses improvised storytelling.
TH.912.F.1.Pa.b:	Create, interpret, or respond to props, costumes, or dialogue that support a story.

[TH.912.F.2.2:](#)

Assess the skills needed for theatre-related jobs in the community to support career selection.

Related Access Points

Name	Description
TH.912.F.2.In.b:	Analyze employment and leisure opportunities in or related to theatre and pair with the necessary skills and training.
TH.912.F.2.Su.b:	Connect employment and leisure opportunities in or relating to theatre with the necessary skills, training, or prerequisites.
TH.912.F.2.Pa.b:	Adapt to unexpected situations in public settings.

[TH.912.F.3.3:](#)

Exhibit independence, discipline, and commitment to the theatre process when working on assigned projects and productions.

Related Access Points

Name	Description
------	-------------

TH.912.F.3.In.b:	Balance the cost of production for a hypothetical performance with the cost of a ticket for a hypothetical audience.
TH.912.F.3.Su.b:	Transfer selected skills and knowledge from theatre to the general work place.
TH.912.F.3.Pa.b:	Recognize that theatrical productions have a cost that has to be recovered by selling tickets to an audience.

Discuss how participation in theatre supports development of life skills useful in other content areas and organizational structures.

[TH.912.F.3.4:](#)

Remarks/Examples:
e.g., goal-setting, self-discipline, punctuality, meeting deadlines, fulfilling responsibilities, adaptability, initiative, productivity

Related Access Points

Name	Description
TH.912.F.3.In.b:	Balance the cost of production for a hypothetical performance with the cost of a ticket for a hypothetical audience.
TH.912.F.3.Su.b:	Transfer selected skills and knowledge from theatre to the general work place.
TH.912.F.3.Pa.b:	Recognize that theatrical productions have a cost that has to be recovered by selling tickets to an audience.

Monitor the tasks involved in the creative and design processes and analyze ways those processes might be applied in the workforce.

[TH.912.F.3.5:](#)

Remarks/Examples:
e.g., script-writing, set design, costume design

Related Access Points

Name	Description
TH.912.F.3.In.b:	Balance the cost of production for a hypothetical performance with the cost of a ticket for a hypothetical audience.
TH.912.F.3.Su.b:	Transfer selected skills and knowledge from theatre to the general work place.
TH.912.F.3.Pa.b:	Recognize that theatrical productions have a cost that has to be recovered by selling tickets to an audience.

[LAFS.910.RL.2.5:](#)

Analyze how an author’s choices concerning how to structure a text, order events within it (e.g., parallel plots), and manipulate time (e.g., pacing, flashbacks) create such effects as mystery, tension, or surprise.

Related Access Points

Name	Description
LAFS.910.RL.2.AP.5a:	Identify the author’s choice of text structure to create meaning (e.g., order of events, flashbacks, foreshadowing).

[LAFS.910.SL.1.2:](#)

Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.2a:	Analyze credibility of sources and accuracy of information presented in social media regarding a given topic or text.

[LAFS.910.SL.1.3:](#)

Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

Related Access Points

Name	Description
LAFS.910.SL.1.AP.3a:	Determine the speaker’s point of view or purpose in a text.
LAFS.910.SL.1.AP.3b:	Determine what arguments the speaker makes.
LAFS.910.SL.1.AP.3c:	Evaluate the evidence used to make the argument.
LAFS.910.SL.1.AP.3d:	Evaluate a speaker’s point of view, reasoning and use of evidence for false statements, faulty reasoning or exaggeration.

[LAFS.910.RH.1.1:](#)

Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.

[PE.912.M.1.5:](#)

Apply strategies for self improvement based on individual strengths and needs.

Related Access Points

Name	Description
PE.912.M.1.In.e:	Demonstrate strategies for self-improvement based on individual strengths and needs.
PE.912.M.1.Su.e:	Use strategies for self-improvement based on individual strengths and needs.
PE.912.M.1.Pa.e:	Perform a guided activity for self-improvement based on individual strengths and needs.

[PE.912.M.1.8:](#)

Design and perform a creative movement sequence while working with a small or large group, with or without equipment/props.

Related Access Points

Name	Description
PE.912.M.1.In.h:	Create and perform a creative movement sequence with a group.
PE.912.M.1.Su.h:	Perform a creative movement sequence while working with a group.
PE.912.M.1.Pa.h:	Perform a movement sequence while working with a group.

[ELD.K12.ELL.1.1:](#)

English language learners communicate for social and instructional purposes within the school setting.

There are more than 30 related instructional/educational resources available for this on CPALMS. Click on the following link to access them: <http://www.cpalms.org/PreviewCourse/Preview/12905>

Access Two-Dimensional Studio Art 1 (#7967025)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7967025

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Academics - Subject Areas >

Course Section: Exceptional Student Education

Number of Credits: Multiple credits

Course Type: Elective

Course Status: Draft - Course Pending Approval

Keywords: art, studio art, access points, ESE high school art

Grade Level(s): 9, 10, 11, 12

Abbreviated Title: Access 2-D Studio Art 1

Course Length: Year (Y)

VERSION DESCRIPTION

Access Courses: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

GENERAL NOTES

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Course Standards

Name	Description								
VA.912.C.1.4:	<p>Apply art knowledge and contextual information to analyze how content and ideas are used in works of art.</p> <p>Remarks/Examples: e.g., symbolism, spatial relationship</p> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>VA.912.C.1.In.c:</td> <td>Use visual evidence and prior knowledge to analyze multiple interpretations of works of art.</td> </tr> <tr> <td>VA.912.C.1.Su.c:</td> <td>Describe observations and apply prior knowledge to interpret visual information and analyze works of art.</td> </tr> <tr> <td>VA.912.C.1.Pa.c:</td> <td>Use visual information or tactile sensations, prior knowledge, and experience to interpret works of art.</td> </tr> </tbody> </table>	Name	Description	VA.912.C.1.In.c:	Use visual evidence and prior knowledge to analyze multiple interpretations of works of art.	VA.912.C.1.Su.c:	Describe observations and apply prior knowledge to interpret visual information and analyze works of art.	VA.912.C.1.Pa.c:	Use visual information or tactile sensations, prior knowledge, and experience to interpret works of art.
Name	Description								
VA.912.C.1.In.c:	Use visual evidence and prior knowledge to analyze multiple interpretations of works of art.								
VA.912.C.1.Su.c:	Describe observations and apply prior knowledge to interpret visual information and analyze works of art.								
VA.912.C.1.Pa.c:	Use visual information or tactile sensations, prior knowledge, and experience to interpret works of art.								
VA.912.C.1.6:	<p>Identify rationale for aesthetic choices in recording visual media.</p> <p>Remarks/Examples: e.g., two-, three-, and four-dimensional media, motion or multi-media</p> <p>Related Access Points</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>VA.912.C.1.In.d:</td> <td>Assess personal artwork during production to refine work and achieve artistic objective.</td> </tr> <tr> <td>VA.912.C.1.Su.d:</td> <td>Analyze and revise artworks to meet established criteria.</td> </tr> <tr> <td>VA.912.C.1.Pa.d:</td> <td>Use defined criteria to analyze and revise artworks.</td> </tr> </tbody> </table>	Name	Description	VA.912.C.1.In.d:	Assess personal artwork during production to refine work and achieve artistic objective.	VA.912.C.1.Su.d:	Analyze and revise artworks to meet established criteria.	VA.912.C.1.Pa.d:	Use defined criteria to analyze and revise artworks.
Name	Description								
VA.912.C.1.In.d:	Assess personal artwork during production to refine work and achieve artistic objective.								
VA.912.C.1.Su.d:	Analyze and revise artworks to meet established criteria.								
VA.912.C.1.Pa.d:	Use defined criteria to analyze and revise artworks.								

[VA.912.C.2.4:](#)

Classify artworks, using accurate art vocabulary and knowledge of art history to identify and categorize movements, styles, techniques, and materials.

Related Access Points

Name	Description
VA.912.C.2.In.c:	Classify artworks by commonalities in methods, media, style, and periods.
VA.912.C.2.Su.c:	Match artworks by methods, media, style, and periods.
VA.912.C.2.Pa.c:	Recognize major artistic media and styles.

Use descriptive terms and varied approaches in art analysis to explain the meaning or purpose of an artwork.

[VA.912.C.3.1:](#)

Remarks/Examples:
 e.g., four-step method of art criticism, visual-thinking skills, aesthetic scanning

Related Access Points

Name	Description
VA.912.C.3.In.a:	Use a defined rubric to evaluate works of art.
VA.912.C.3.Su.a:	Use defined criteria to respond to works of art.
VA.912.C.3.Pa.a:	Use a teacher-selected criterion to respond to a variety of works of art.

Discuss how the aesthetics of artwork and utilitarian objects have changed over time.

[VA.912.C.3.6:](#)

Remarks/Examples:
 e.g., Native American blanket or Roman helmet and breastplate crafted for functionality, now exhibited as art

[VA.912.F.1.3:](#)

Demonstrate flexibility and adaptability throughout the innovation process to focus and re-focus on an idea, deliberately delaying closure to promote creative risk-taking.

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
- c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
- d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Preparation for Entrepreneurship/Self-Employment (#7980040)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7980040

Course Section: Exceptional Student Education

Number of Credits: Multiple Credit (more than 1 credit)

Course Status: Draft - Course Pending Approval

Course Path: Section: Exceptional Student Education > **Grade Group:** Senior High and Adult > **Subject:** Career and Technical Education For Students With Disabilities >

Abbreviated Title: PREP FOR ENTREP/EMP

Course Length: Year (Y)

VERSION DESCRIPTION

Purpose
The purpose of this course is to prepare students with disabilities to pursue entrepreneurship/self-employment. Students will acquire skills needed to explore their potential as entrepreneurs and develop necessary skills to plan and operate a business with support and assistance.

Course Requirements

Overview of Entrepreneurship/Self-Employment

1. Describe the importance and economic impact of small businesses, including entrepreneurship/self-employment.
2. Identify advantages and disadvantages of owning a business and working for an established business.
3. Identify strategies for generating ideas and planning a new business.
4. Explain the importance of adhering to government regulations when owning and operating a business.
5. Describe the importance of ethics in business.
6. Describe entrepreneurship/self-employment opportunities as a career planning option.

Person-Centered Planning

7. Identify personal strengths, interests, aptitudes, and abilities related to entrepreneurship/self-employment opportunities.
8. Identify individual supports needed, such as family and community agencies and resources, to start a business.
9. Create and maintain a personal and career plan.

Agency Linkages

10. Match agency services and supports to personal needs for entrepreneurship/self-employment.
11. Follow procedures to access and use needed agency resources.

Business Planning

12. Identify the purpose and components of a business plan.
13. Identify resources available to assist in the development of a business plan.
14. Explain how to evaluate the performance of a self-owned and -operated business, such as goals, outcomes, and impact; and effectiveness, efficiency, and sustainability.
15. Develop a personal business plan for entrepreneurship/self-employment based on an identified area of interest.

Essential Skills

16. Present appropriate information to specific audiences, interpret verbal and nonverbal responses, and apply listening skills to obtain and clarify information.
17. Analyze data and construct charts/tables/graphs to track business performance, make decisions, and solve problems.
18. Demonstrate financial-management concepts, procedures, and strategies related to business ownership.
19. Employ technological tools to meet business needs.
20. Demonstrate effective working relationships to accomplish objectives and tasks.
21. Employ critical thinking skills, creativity, and interpersonal skills to solve problems and resolve conflicts.
22. Describe personal practices and jobsite safety rules and regulations required to maintain safe and healthy work environments.

GENERAL NOTES

This course is intended for students with disabilities in grades 11–12 and for students with disabilities who have not graduated with a standard diploma and are 18–22 years old. It is recommended that students have previously completed Career Preparation: 9–12 (Course Number 7980110), or Transition Planning: 9–12 (Course Number 7960010). This course is not intended to assist students with opening their own business, but to provide them with the necessary skills to pursue entrepreneurship/self-

employment post-school.

Features of the entrepreneurship/self-employment course may include a school-based enterprise, intensive training, monitoring, advocacy, and support. It is recommended that students become involved in the development and implementation of a business plan for a school-based enterprise, if available.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis.

Multiple credits may be earned sequentially or simultaneously.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

VERSION DESCRIPTION

Purpose

The purpose of this course is to enable students to acquire the knowledge and skills necessary to identify a broad range of career options and community resources and to develop work-related competencies.

Course Requirements

Self-Determination and Self-Advocacy

1. Demonstrate self-awareness of personal abilities and disability and their impact on career planning and career choices.
2. Describe appropriate self-determination and self-advocacy strategies in a variety of community and workplace situations.

Career Planning

3. Describe the purpose and components of a personal career plan.

Identify own interests and aptitudes related to postsecondary education/training and employment.

4. Create a career plan focusing on postsecondary education/training and employment goals based on results of transition assessments.

Career Exploration

5. Describe careers in a range of occupational clusters.
6. Describe career opportunities within each cluster, employment outlook, and postsecondary education/training requirements.

Employability Skills

7. Demonstrate competencies to conduct a job search, including locating job openings using the newspaper, Internet, and networking with others.
8. Demonstrate competencies to apply for a job, including completing a generic job application (electronic or paper), creating a basic resume, and preparing responses to common questions in job interviews and pre-employment inventories.
9. Describe effective work habits and ethical behavior in the workplace.
10. Describe appropriate attire and personal care skills that meet demands of a variety of workplace situations.

Community Resources and Agencies Related to Careers

11. Identify community resources and agencies that assist with employment, such as the Division of Vocational Rehabilitation, Agency for Persons with Disabilities, and service providers.
12. Describe sources and features of public and private transportation in the community.

Rights, Benefits, and Responsibilities of Employment

13. Identify legal rights of persons with disabilities in the school, community, and workplace based on the Americans with Disabilities Act, the Rehabilitation Act, the Fair Labor Standards Act, and child labor laws.
14. Identify benefits related to employment, such as health insurance, workers compensation, leave time, retirement options, and Social Security.
15. Identify financial concepts and requirements related to employment, such as wages, withholding taxes, and employment forms (W4, W2).

Workplace Competencies

16. Describe decision-making and problem-solving processes used in workplace situations.
17. Identify competencies for employment in a variety of settings.
18. Identify health and safety requirements in various workplace settings.
19. Use communication skills (verbal, written, nonverbal) needed for success in the workplace.

GENERAL NOTES

This is the first of a three-course series designed to prepare students for employment. The first course, Career Preparation (Course Number 7980110), focuses on the acquisition of the necessary knowledge and skills for making career choices. The second course, Career Experiences (Course Number 7980120), provides opportunities for application of the knowledge and skills in school or community work experience situations with supervision and instructional assistance. The third course involves training through paid employment in Career Placement (Course Number 7980130) or Supported Competitive Employment (Course Number 7980150), depending on the student's needs for support. It is suggested, but not required, that students take all three courses in the series.

A student may earn multiple credits in this course. The particular course requirements that students should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed to reflect a range of abilities within the population of students with disabilities. Course requirements may be modified based on individual needs.

Career Experiences (#7980120)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7980120	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Career and Technical Education For Students With Disabilities >
Number of Credits: Multiple Credit (more than 1 credit)	Abbreviated Title: CAR EXPS
Course Status: Draft - Course Pending Approval	Course Length: Year (Y)

VERSION DESCRIPTION

Purpose

The purpose of this course is to enable students with disabilities to further develop knowledge and skills to select career options, access community resources, and apply work-related behaviors through guided practice and experiences in school and community work settings. Non-paid community-based vocational education (non-paid CBVE) training programs are typically implemented through this course.

Course Requirements

Self-Determination and Self-Advocacy

1. Apply appropriate self-determination and self-advocacy strategies in a variety of school and community work settings.

Career Planning

2. Evaluate own interests and aptitudes related to postsecondary education/training and employment.
3. Select postsecondary education/training and employment options based on identified skills, preferences, and interests.
4. Use transition assessment results to update and revise personal career plan, including postsecondary education/training and employment goals.

Employability Skills

5. Demonstrate competencies to apply for a targeted job, including completing the job application (electronic or paper), updating personal resume, and participating in mock job interviews.
6. Demonstrate effective work habits and ethical behavior in school and community work settings.
7. Demonstrate appropriate attire and personal care skills to meet demands of a variety of school and community work settings.

Community Resources and Agencies Related to Employment

8. Describe community resources and agencies that assist with employment, such as the Division of Vocational Rehabilitation, Agency for Persons with Disabilities, and service providers.
9. Demonstrate the ability to navigate the community using public and private transportation.

Rights, Benefits, and Responsibilities of Employment

10. Describe legal rights that apply to persons with disabilities in school, community, and workplace, including the Americans with Disabilities Act, the Rehabilitation Act, the Fair Labor Standards Act (FLSA), and child labor laws.
11. Explain benefits related to employment, such as health insurance, workers' compensation, leave time, retirement options, and Social Security.

Workplace Competencies

12. Demonstrate work-related skills, including the use of technology, tools, and equipment, at selected job sites.
13. Apply decision-making and problem-solving processes used in school and community work settings.
14. Demonstrate competencies for employment in a variety of school and community work settings.
15. Follow health and safety requirements in a variety of school and community work settings.
16. Apply effective communication skills (verbal, written, nonverbal) in school and community work settings.

GENERAL NOTES

This is the second of a three-course series designed to prepare students for employment. The first course, Career Preparation (Course Number 7980110), focuses on the acquisition of the necessary knowledge and skills for making career choices. The second course, Career Experiences (Course Number 7980120), provides opportunities for application of the knowledge and skills in school or community work experience situations with supervision and instructional assistance. The third course involves training through paid employment in Career Placement (Course Number 7980130) or Supported Competitive Employment (Course Number 7980150), depending on the student's needs for support. It is suggested, but not required, that students take all three courses in the series.

This course includes non-paid community-based vocational education involving exploration, assessment, and training. Instructional activities that include practical applications of course requirements may occur in naturalistic work settings in the school and community for the purposes of practice, generalization, and further development of skills.

As a general rule, students participating in non-paid CBVE should not spend more than the allocated hours described below in a single job description/classification during any one school year:

- **Vocational exploration—up to five hours per job experienced**

The student observes the job and talks with employees. Any actual work trial in this phase should be very brief and limited and under the direct supervision of school personnel.

- **Vocational assessment—up to 90 hours per job experienced**

The student performs work assignments in various businesses (employment settings) under the direct supervision of school personnel and employees of the business. Assessment data are systematically collected on the student's interests, aptitudes, needs, learning styles, work habits, behaviors, personal and social skills, values and attitudes, and stamina.

- **Vocational training—up to 120 hours per job experienced**

The student is placed in various employment settings for work experience. The students, parents, and school personnel should develop a detailed, written training plan that includes the competencies to be acquired, the method(s) of instruction to be used and the procedures for the evaluation of the training experience. The purpose of this component is to enable students to develop the competencies and behaviors needed to secure and maintain paid employment.

The U.S. Department of Labor considers a complex series of factors and criteria for the legal determination as to whether or not the activities of the students at the CBVE placement site would result in an immediate advantage to the business that could trigger a violation of the FLSA. For more information, refer to Non-Paid Community-Based Vocational Educational (CBVE) Programs (Technical Assistance Paper FY 2006–2), Florida Department of Education available at <http://www.fldoe.org/ese/tap-home.asp>.

A student may earn multiple credits in this course. The particular course requirements that students should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed to reflect a range of abilities within the population of students with disabilities. Course requirements may be modified based on individual needs.

VERSION DESCRIPTION

Purpose

The purpose of this course is to enable students with disabilities to apply career knowledge and skills to perform work-related behaviors in a paid employment situation.

Course Requirements

Self-Determination and Self-Advocacy

1. Apply skills of self-advocacy and self-determination in the community and workplace.

Career Planning

2. Apply planning processes in evaluating and revising a personal career plan, including postsecondary education/training and employment goals.

Community Resources

3. Use various community resources, such as agencies and transportation, to meet needs related to employment and postsecondary education/training.

Rights, Benefits, and Responsibilities of Employment

4. Explain the legal rights and responsibilities of employees in the workplace based on labor laws and disability laws, such as the Fair Labor Standards Act, the Americans with Disabilities Act, and the Rehabilitation Act.
5. Explain the legal responsibilities of employers in the workplace, including providing accommodations and grievance procedures, in compliance with labor laws and disability laws, such as Fair Labor Standards Act, Americans with Disabilities Act, and the Rehabilitation Act.
6. Follow procedures to access employment benefits, such as leave time, workers' compensation, and retirement options.

Workplace Competencies

7. Perform job-specific duties required to maintain employment.
8. Demonstrate effective work habits, ethical behavior, and appropriate attire and personal care skills required to maintain employment.
9. Follow personal practices and safety rules and regulations to maintain a safe and healthy work environment.
10. Use decision-making and problem-solving skills required to maintain employment.
11. Use oral and written communication skills needed in the workplace.
12. Use technological tools needed in the workplace.

Financial Management

13. Demonstrate personal money-management skills related to employment, such as applying for direct deposit of paychecks and obtaining and securing paychecks.

GENERAL NOTES

This is the last course of a three-course sequence designed to prepare students for careers and postschool adult living. The first course, Career Preparation (Course Number 7980110), focuses on the acquisition of the necessary knowledge and skills for making career choices. The second course, Career Experiences (Course Number 7980120), provides opportunities for application of the knowledge and skills in school or community work experience situations with supervision or instructional assistance. The third course in the sequence is Career Placement (Course Number 7980130) or Supported Competitive Employment (Course Number 7980150), depending on the student's needs for support. It is suggested, but not required, that students take all three courses in the series.

The Career Placement course is designed primarily for students who are generally capable of working and living independently and may need minimal assistance. Students are expected to perform job duties independently once they have mastered the knowledge and skills associated with their work competencies. The job or jobs for which the student is being trained should be reflected in the student's individual educational plan (IEP).

NOTE: The student is paid at or above minimum wage in accordance with the federal Fair Labor Standards Act (<http://www.dol.gov/whd/flsa/>).

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed to reflect a range of abilities within the population of students with disabilities. Course requirements may be modified based on individual needs.

VERSION DESCRIPTION

Purpose
The purpose of this course is to provide customized training through paid employment for students with disabilities to facilitate progress toward attaining measurable postsecondary goals in a customized, paid employment situation. This course will enable students to apply career knowledge and skills to perform work-related behaviors in a paid employment situation with needed supports and assistance.

Course Requirements

Self-Determination and Self-Advocacy

1. Apply skills of self-advocacy and self-determination in the community and workplace.

Career Planning

2. Apply planning processes in evaluating and revising a personal career plan, including postsecondary education/training and employment goals.

Community Resources

3. Use various community resources, such as agencies and transportation, to meet needs related to employment and postsecondary education/training.

Rights, Benefits, and Responsibilities of Employment

4. Explain the legal rights and responsibilities of employees in the workplace based on labor laws and disability laws, such as the Fair Labor Standards Act, the Americans with Disabilities Act, and the Rehabilitation Act.
5. Explain the legal responsibilities of employers in the workplace, including providing accommodations and grievance procedures, in compliance with labor laws and disability laws, such as the Fair Labor Standards Act, the Americans with Disabilities Act, and the Rehabilitation Act.
6. Follow procedures to access employment benefits, such as leave time, workers' compensation, and retirement options.

Workplace Competencies

7. Perform job-specific duties required to maintain employment.
8. Demonstrate effective work habits, ethical behavior, and appropriate attire and personal care skills required to maintain employment.
9. Demonstrate effective communication and cooperation with the employment specialist, supervisors, and co-workers.
10. Follow personal practices and safety rules and regulations to maintain a safe and healthy work environment.
11. Use decision-making and problem-solving skills required to maintain employment.
12. Use oral and written communication skills needed in the workplace.
13. Use technological tools needed in the workplace.

Financial Management

14. Demonstrate personal money-management skills related to employment, such as applying for direct deposit of paychecks and obtaining and securing paychecks.

GENERAL NOTES

This is the last course of a three-course sequence designed to prepare students for careers and post-school adult living. The first course, Career Preparation (Course Number 7980110), focuses on the acquisition of the necessary knowledge and skills for making career choices. The second course, Career Experiences (Course Number 7980120), provides opportunities for application of the knowledge and skills in school or community work experience situations with supervision or instructional assistance. The third course involves Career Placement (Course Number 7980130) or Supported Competitive Employment (Course Number 7980150), depending on the student's needs for support. It is suggested, but not required, that students take all three courses in the series.

The Supported Competitive Employment course is designed for students who are generally capable of living and working with ongoing supervision and support. Placement of a student in the Supported Competitive Employment course is determined by the amount of support and assistance that must be provided for the student as specified in the student's individual educational plan (IEP). Supports are based on the needs of the individual student outlined in an individual task analysis:

- Sequential job duties
- Work habits
- Levels of support
- Accommodations needed to accomplish job duties
- Mastery scale of job duties

Features of customized employment include intensive onsite training, fading, ongoing monitoring, and onsite advocacy. Students receive one-to-one intensive training by an employment specialist/job coach. Students receive ongoing support with at least one hour of follow-along services per week at the job site after stabilization has been attained. Stabilization refers to the point at which onsite training and support services in an individual employment situation have been 20 percent or less of normal work hours for at least 60 calendar days.

This course enables students with disabilities to apply career knowledge and skills to perform work-related behaviors with individualized, on-the-job support from an employment specialist/job coach. Students may require ongoing support services (natural supports, agency services) to master the knowledge and skills associated with their work competencies. The job or jobs for which the student is being trained should be reflected in the student's IEP.

NOTE: The student is paid at or above minimum wage in accordance with the federal Fair Labor Standards Act (<http://www.dol.gov/whd/flsa/>).

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed to reflect a range of abilities within the population of students with disabilities. Course requirements may be modified based on individual needs.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.

For additional information on the development and implementation of the ELD standards, please contact the Bureau of Student Achievement through Language Acquisition at sala@fldoe.org.

Technology Education (#7980190)

This document was generated on CPALMS - www.cpalms.org

Course Number: 7980190	Course Path: Section: Exceptional Student Education > Grade Group: Senior High and Adult >
Course Section: Exceptional Student Education	Subject: Career and Technical Education For Students With Disabilities >
Number of Credits: Multiple Credit (more than 1 credit)	Abbreviated Title: TECH ED
Course Status: Draft - Course Pending Approval	Course Length: Year (Y)

VERSION DESCRIPTION

Purpose

The purpose of this course is to enable students with disabilities to apply knowledge and skills regarding the safe and appropriate use of technology in the school, workplace, and community. Students will investigate careers in technology.

Course Requirements

Technology Systems

1. Describe uses of technology in a variety of school, workplace, and community settings.
2. Identify computer components and their functions.
 - a. Identify various computer input devices (e.g., mouse, keyboard, phone, camera) and describe their use.
 - b. Identify various computer output devices (e.g., monitor, printer, phone) and describe their use.
 - c. Identify various storage devices (e.g., flash drive, iPod, phone, external hard drive, etc.).
3. Demonstrate knowledge of different operating systems.
 - a. Demonstrate proficiency with file management tasks.
4. Demonstrate proficiency with common computer peripherals, including connections to standard input and output devices.
 - a. Identify the types and purposes of common input devices (e.g., mouse, keyboard, camera, microphone, scanner).
 - b. Identify the types and purposes of specialized input devices (e.g., digital cameras, mobile devices, GPS devices).
 - c. Describe the types and purposes of various computer connection ports (e.g., USB, firewire, parallel, series, Ethernet, et al).
 - d. Connect an input device (e.g., mouse, keyboard, cell phone, camera, et al) and verify proper operation.
 - e. Connect an output device (e.g., printer, monitor, projector, et al) and verify proper operation.
5. Demonstrate proficiency in communication using digital and multimedia technologies.
 - a. Use a portable digital video device (e.g., cell phone, Flip camera) to produce video clips for transfer onto a computer.
6. Select technology devices, such as cell phones, computers, and tablets, by comparing features that meet individual needs and financial resources.

Technology Applications

7. Demonstrate basic keyboarding skills used with common software applications.
8. Develop and apply word processing and document manipulation skills.
 - a. Apply and adjust margins, tabs, line spacing and paragraph indents.
 - b. Insert and manipulate text, graphics/images, and WordArt.
 - c. Format text using the font interface and styles interface.
 - d. Use the status bar to determine the number of pages, words, and characters in a document.
 - e. Insert codes for current date and time.
 - f. Copy text between documents using mouse, menu, and keyboard techniques.
 - g. Move text in a document using mouse, menu, and keyboard techniques.
 - h. Create bulleted and numbered lists.
 - i. **Create a table – format rows, columns and cells.**
 - j. Insert page breaks.
9. Develop and apply fundamental spreadsheet skills.
 - a. Describe a spreadsheet and the ways in which it may be used.
 - b. Identify the parts of the spreadsheet display.
 - c. Insert and format text information into cells.
 - d. Insert and format numeric information into cells.
 - e. Insert and format date and time information into cells.
10. Demonstrate proficiency in using presentation software.
 - a. Describe presentation software and the ways in which it may be used.
 - b. Add and format titles, subtitles, and talking points to a presentation slide.
 - c. Insert and format images/graphics onto slides.
 - d. Insert new or duplicate slides.
11. Demonstrate proficiency in using graphics software.

- a. Copy and paste graphic images.
- b. Alter the shapes and colors used in a graphic image.

Internet and Webpages

12. Demonstrate proficiency using the Internet to locate information.
 - a. Identify and use web terminology.
 - b. Compare and contrast the types of Internet domains (e.g., .com, .org, .edu, .gov, .net, .mil).
 - c. Demonstrate proficiency using various web tools (e.g., downloading of files, transfer of files, telnet, PDF, etc.).
13. Demonstrate an understanding of webpage construction, operation, and function.
 - a. Identify elements of a webpage.
14. Demonstrate proficiency in using a GUI authoring tool to create a template-based website.
 - a. Create a website using an available template.
 - b. Create hyperlinks to external sites.
15. Conduct basic research using resources located on the Internet.
 - a. Evaluate search results to determine those sites or resources that best meet the research criteria.
 - b. Incorporate the results from the Internet search into a research document (e.g., report, synopsis, et al).
16. Demonstrate appropriate use of email.
 - a. Describe email capabilities and functions.
 - b. Identify components of an email message.
 - c. Identify the components of an email address.
 - d. Attach a file to an email message.
 - e. Forward an email message to one or more addressees.
 - f. Use an address book.
 - g. Reply to an email message.
 - h. Use the Internet to perform email activities (i.e., web-based email).
 - i. Identify the appropriate use of email and demonstrate related email etiquette.
17. Demonstrate how accessibility features of software programs can be used to meet individual needs.

Safe Use of Technology

18. Demonstrate an understanding of Internet safety and ethics.
 - a. Describe cyber-bullying and its impact on perpetrators and victims.
 - b. Differentiate between viruses and malware, specifically their sources, ploys, and impact on personal privacy and computer operation, and ways to avoid infection.
 - c. Demonstrate proficiency running an antivirus scan to remove viruses and malware.
 - d. Describe risks associated with social networking sites (e.g., FaceBook, MySpace, and Twitter) and ways to mitigate these risks.
 - e. Adhere to cyber safety practices with regard to conducting Internet searches, email, chat rooms, and other social network websites.
 - f. Describe risks associated with sexting, including related legal issues, social engineering aspects, prevention methods, and reporting of offenses.
 - g. Describe the risks associated with online gaming and ways to mitigate these risks.
 - h. Describe the ethics and copyright legalities of downloading music or videos from the Internet.

Careers in Technology

19. Describe careers in technology and related fields.
20. Explain job responsibilities and competencies necessary for successful employment in technology and related fields.
21. Evaluate personal interests and abilities related to careers in technology and postsecondary education/training opportunities.

GENERAL NOTES

This course integrates program standards from the Curriculum Framework for Information & Communications Technology (ICT) Essentials, Program Number 9009100. Additional requirements included in this course are designed to meet the needs of students with disabilities.

Application activities are an integral part of this course. These activities include instruction in the use of safety procedures, tools, equipment, materials, and processes related to technology. Equipment and supplies are needed to enhance learning experiences for students.

A student may earn multiple credits in this course. The particular course requirements that the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is designed to reflect the wide range of abilities within the population of students with disabilities. Course requirements may be modified based on individual needs.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <http://www.cpalms.org/uploads/docs/standards/eld/SI.pdf>.
