

# STATEWIDE SCHOOL READINESS PROVIDER CONTRACT MONITORING TOOL

## A. Monitoring Requirements

A coalition administers the School Readiness Program through the service delivery of a school readiness (SR) program provider.

An early learning coalition shall monitor all SR program providers, regardless of provider type (including school district SR programs), in accordance with its plan, or in response to a parental complaint, to verify that the standards prescribed in ss. 1002.82, and 1002.88, F.S. are being met using a standard monitoring tool adopted by the Office of Early Learning. Providers that the coalition determines to be high-risk, as defined in section D below, shall be monitored more frequently. This does not prohibit a coalition from monitoring a provider more frequently for other concerns such as parental complaints or suspected fraud.

## B. Tier 1 Compliance Tracking/Desk Review

A coalition shall annually monitor and document monitoring each of its SR program providers for Tier 1 compliance. The coalition must develop a process for Tier 1 monitoring. The process shall include monitoring and validation of the items below for each SR program provider:

1. Date of certified School Readiness Contract in accordance with Rule 6M-4.610, FAC.
2. Date of review of Department of Children and Families (DCF) exemption determination letter to ensure provider is eligible to provide the School Readiness Program, if applicable.
3. Date of completion of most recent Health and Safety Inspection (for all school readiness providers in accordance with Rule 6M-4.620, FAC).
4. A Program Assessment was completed in accordance with Rules 6M-4.740, FAC. Yes or No.
5. Date of completion of Quality Improvement Plan Elements (if applicable) in accordance with Rules 6M-4.740, FAC.
6. Conducting Developmental Screenings (if applicable) in accordance with Rule 6M-4.720, FAC.
7. Date of completion of orientation (if applicable) in accordance with Rule 6M-4.610, FAC, OEL-SR20.
8. Date of completion of Child Assessments (if applicable) in accordance with Rules 6M-4.500(11), FAC.
9. Date of approval of annual CCR&R Provider Updates in accordance with Rule 6M-9.300(8), FAC.
10. Date of review for completion of monthly enrollment/attendance certifications<sup>1</sup> in accordance with Rule 6M-4.500(2), FAC for the month(s) reviewed for post attendance monitoring.
11. Dates of expiration of liability insurance coverage.

## C. Tier 2 Compliance

Using the monitoring tool form OEL-SR 20M, *Attachment A*, the coalition shall conduct onsite monitoring of a random sample of all of its contracted SR program providers, regardless of provider type (including school district SR programs) on an annual basis. The sample should be representative of all provider types (including school district SR programs) funded by the coalition and include no less than the number of providers included in *Attachment B –Minimum Annual Sample Size*. The sample size is based on the number of SR programs funded by the coalition and not the total number of provider contracts. If a provider has multiple sites, each site must be included in the sample size and selection. This includes contracted provider program sites outside of the coalition service area. When establishing the sample size, a coalition must determine the final count of the total number of SR provider contracted sites with the coalition, based on the current SR fiscal year. The coalition will include its random sampling process in its school readiness provider monitoring plan. For multi-county coalitions, the sample size is calculated using the total number of contracted providers among all counties in the coalition's service area. High risk providers, as defined in section

---

<sup>1</sup> The intent is to annually monitor all providers for attendance (reconciling enrollment/attendance certifications with sign-in/sign-out logs), however, this does not have to be done every month for each provider. The details of a coalition's post attendance monitoring shall be included in the coalition's monitoring plan submitted with the coalition's school readiness plan.

## STATEWIDE SCHOOL READINESS PROVIDER CONTRACT MONITORING TOOL

D below, that are not captured in the random sample will be added to the list of providers that are sampled for annual monitoring. The coalition's monitoring plan may be developed to monitor 100% of its SR program providers annually.

### **D. SR Program Risk Assessment**

A provider that has eight or more findings on *Attachment A* will be considered high risk. Additionally, using *Attachment A*, if 15 percent or more of the child files in the selected sample result in questioned cost, that provider will be considered high risk. For example, if three out of 20 files result in questioned cost, that provider will be considered high risk.

The coalition shall monitor providers determined to be high risk more frequently than annually. Frequency of monitoring for providers determined to be high risk shall be identified in the coalition's monitoring plan. All follow up monitoring shall evaluate, at a minimum, the criteria that were found to be non-compliant in the previous monitoring. For criteria in *Attachment A* that evaluate a sample of children's files for compliance, a 10 percent error rate or higher will be applied to determine if the non-compliance observations will count as a high risk indicator. All non-compliance observations will still require corrections, regardless of the error rate percentage.

If an SR program provider has no findings for three consecutive years, the coalition may select to monitor the SR program provider using form OEL-SR 20M, *Attachment A* on a biennial basis.

Historical monitoring results (prior to the execution of the statewide school readiness provider contract) may be used by a coalition to determine risk level when developing the coalition's monitoring plan.

### **E. SR Children Sample Size**

For Tier 2 monitoring, the coalition shall monitor a sample of at least twenty-five percent of a SR program provider's SR child files. If the SR program provider has less than 20 SR children, the sample will be 4 SR child files. If the SR program provider has 4 or less SR children, all SR child files will be reviewed. The sample should be representative of classrooms, billing groups and age of children. The percentage of SR child files to be reviewed is based on the total number of SR children enrolled with a SR program provider during the month of the monitoring engagement. For example, if the provider's actual child enrollment count is 65, 16 children should be the sample selected for review. When applying the 25% for the sample, please round to the nearest whole number.

### **F. Corrective Action Plans**

If observations of noncompliance are made by coalition monitoring staff using either Tier 1 or Tier 2 monitoring, the coalition shall require a Corrective Action Plan (CAP) be developed and implemented by the school readiness program provider. The coalition must notify the provider in writing. The notice must identify the specific requirement(s) which the provider failed to meet and describe how the provider failed to meet each requirement. In addition, the notice must provide a detailed description of any required corrective action and set a deadline for completion of the corrective action. Finally, the notice must state that the provider may request a review of the findings of noncompliance. Upon determining that the provider has satisfactorily completed the corrective action, the coalition shall notify the provider in writing.

**A provider that has eight or more findings as assessed by this monitoring tool, will be considered high-risk, (.25 x 33 = ~ 8). Additionally, if 15 percent or more of the files for risk indicators 12, 13, and 20 in the selected sample result in a disallowed cost, that provider will be considered high-risk. For example, if three out of 20 files result in questioned cost, that provider will be considered high-risk.**

**\*For sampled files, if the error rate is 10% or higher for risk indicators 3, 8, 12, 13, 14, 15, 17, 18, 19, 20, and 24, this will constitute a finding for this criterion that will count toward the high risk assessment identified in section D above. All non-compliance observations will still require corrections, regardless of the error rate percentage.**
