1 Introduction

The School Readiness Program is funded primarily by the federal Child Care and Development Block Grant (CCDBG). As the designated lead agency for the State of Florida, the Department of Education, Division of Early Learning (DEL) administers the School Readiness Program at the state level. In accordance with Section (s.) 1002.82(1), Florida Statutes (F.S.), DEL must comply with all lead agency responsibilities pursuant to federal law.

In accordance with DEL's responsibility to establish health and safety standards and training requirements for the School Readiness Program pursuant to 45 CFR 98.40-98.44, this handbook is intended to be used by School Readiness providers in conjunction with the School Readiness Program Health and Safety Checklist and the Department of Children and Families (DCF) handbooks and classification summaries for monitoring compliance with program standards. This handbook defines and clarifies School Readiness-specific standards and requirements outlined in the School Readiness Program Health and Safety Checklist, regardless of whether the provider currently receives funds.

Nothing in this handbook exempts School Readiness providers from adhering to additional health and safety and/or training requirements required by DCF, Local Licensing Agencies (LLA), Department of Education, Department of Health, or others. Where local standards are more restrictive than those in this handbook, programs must adhere to the more restrictive standard.

1.1 Inspections

To ensure consistent statewide application of established child care and School Readiness health and safety standards, DCF and the LLAs (as applicable) are designated as the inspection authorities for the School Readiness Program. In accordance with s. 402.311(2), F.S., all School Readiness providers must provide DCF or the LLA (as applicable) access to all areas of the program's facilities, personnel, and records necessary to ensure compliance with health and safety standards.

To be eligible to deliver the School Readiness Program, a provider must have a pre-contractual inspection conducted by DCF or the LLA (as applicable) to ensure compliance with health and safety standards established pursuant to ss. 1002.82 and 1002.88, F.S., and 6M-4.610(2), Florida Administrative Code (F.A.C.). Upon initiation of a School Readiness provider contract, notification will be sent to DCF or the LLA, as appropriate, indicating the need for a pre-contractual inspection to be completed for that provider within forty-five (45) days of receipt of notification. Within ten (10) days of completion of the pre-contractual inspection, DCF or LLA will submit the results to both the provider and the appropriate early learning coalition. Once the coalition receives the results of the inspection indicating full compliance with School Readiness Program health and safety standards, and all other program requirements are met, the coalition may proceed with entering into a contract for School Readiness services with the provider. "Full compliance" means there are no outstanding issues of non-compliance; any violations noted during the pre-contractual inspection have been brought into compliance.

1.2 Definitions

The following definitions are applicable to Rule 6M-4.620, F.A.C., and this incorporated form:

“Active Credential” refers to any of the following: Florida Child Care Professional Credential (FCCPC); Florida Department of Education Child Care Apprenticeship Certificate (CCAC); Florida Department of Education Early Childhood Professional Certificate (ECPC); Florida Department of Education School-Age Professional Certificate (SAPC); National Early Childhood Credential (NECC, CDA or equivalent); or Florida Child Care Staff Credential, each as defined and recognized by the Florida Department of Children and Families pursuant to Rule 65C-22.001, F.A.C. The candidate’s status as “active” indicates the awarded credential or certification signifying requirements have been met.

“Child Care Personnel” refers to any person employed by, or who volunteers at, a School Readiness provider for an average of ten (10) or more hours per month and who works directly with children to implement program activities, or is unsupervised with children in care at any time during the program’s hours of operation. Drivers employed exclusively for transportation purposes are not included in this definition for purposes of pre-service training, provided they meet all screening and transportation requirements and are supervised at all times by a staff member who has completed pre-service training.

“Home” refers to all Family Day Care Homes, Large Family Child Care Homes, and Informal Providers.

“Operator” refers to the director, on-site administrator, or other individual, who has the primary responsibility for the day-to-day operation, supervision, and administration of a School Readiness Program.

“Preservice Training” refers to training requirements completed prior to unsupervised contact with or care of children participating in the School Readiness Program, or within 90 days of employment at a program facility. Child care personnel are not allowed to have unsupervised contact with or care of children prior to completion of preservice training requirements.

“Ratio” refers to the number of staff members required per number of children in care, by age group.

“School-Age Program” means any program participating in the School Readiness Program and serving only school-aged children in before-school, after-school, or out-of-school time.

2.2 Group Size

Children benefit from social interactions with peers. However, larger groups are generally associated with fewer positive interactions and developmental outcomes. Group size requirements work to raise program quality by increasing individual attention and interaction for each child in care. In addition to the following maximum group sizes within each classroom, as defined in this handbook, all School Readiness providers must adhere to ratio requirements and minimum square footage requirements outlined in s. 402.302 (8) and (11), F.S., and s. 402.305 (4) and (6), F.S., at all times while children are in care.

2.2.1 Facility Group Size

- A. For infants from birth up to 12 months of age, group size may not exceed twelve (12) children in a single classroom. For infant classrooms operating with 9 to 12 children, there must be two designated lead teachers, and two of the three child care personnel assigned to that classroom must possess, at a minimum, an active credential pursuant to s. 402.305(3), F.S. For infant classrooms operating with 5 to 8 children, there must be one designated lead teacher, and one of the two child care personnel assigned to that classroom must possess, at a minimum, an active credential pursuant to s. 402.305(3), F.S. For classrooms operating with 25 or fewer children, the child care personnel is not required to have an active credential.
- G. In groups of mixed age ranges, where children under two years of age are included, the group size may not exceed twelve (12) children.
- H. In groups of mixed age ranges, where children two years of age or older are included, the group size for the majority population present within the group applies.

6 Enforcement

This section adheres to the enforcement terms of the Statewide School Readiness Provider Contract, incorporated by reference in Rule 6M-4.610, F.A.C.

6.1 Definitions

For purposes of this section:

- ✓ **“Day”** means a weekday, excluding weekends and holidays.
- ✓ **“Corrective Action Notice”** refers to the written notice from an early learning coalition to a School Readiness provider of its failure to comply with the provisions governing the School Readiness Program or the requirements of the Statewide School Readiness Provider Contract, identifying the specific requirement(s) which the provider failed to meet and how the provider failed to meet each requirement. In addition, the notice must provide a detailed description of the required corrective action and set a deadline for completion of the corrective action. The notice must also include a statement that the provider may request a review of the determination in accordance with the due process procedures established in the School Readiness contract.

- ✓ **“Probation”** is a status indicating a provider’s School Readiness contract is in jeopardy of being terminated or not renewed due to violations of School Readiness Program standards. If the early learning coalition concludes the School Readiness provider has received a corrective action notice for the same violation two or more times or if the corrective action plan is not completed within the prescribed timelines, the provider shall be placed on probation for a period up to six (6) months. The coalition must notify the provider in writing of the terms of probation and associated timelines for compliance.
- ✓ **“Standards”** refer to health and safety and training requirements for the operation of a School Readiness Program facility provided in statute or in rule.
- ✓ **“Termination and revocation”** refers to a School Readiness provider’s inability to offer the School Readiness Program due to contract termination by the coalition for health and safety violations cited by DCF or the LLA, as applicable.

Class I violations are those violations which are most serious in nature, pose an imminent threat to a child, including abuse or neglect, and which could or do result in death or serious harm to the health, safety, or well-being of a child.
- ✓ **“Class II Violation”** is an incident of noncompliance with a Class II standard as described in Form DEL SR-6200B. Class II violations are those violations which are less serious in nature than Class I violations and could be anticipated to pose a threat to the health, safety, or well-being of a child, although the threat is not imminent. A violation of a Class II standard that results in death or serious harm to a child shall escalate to a Class I violation.
- ✓ **“Class III Violation”** is an incident of noncompliance with a Class III standard as described in Form DEL SR-6200B. Class III violations are those violations which are less serious in nature than either Class I or Class II violations and pose a low potential for harm to children.

6.2 Noncompliance Determination

- A. Each standard violation has an assigned classification based on the nature or severity of the violation(s) as identified in Form DEL SR-6200B.
- B. DCF or the LLA will follow up with the School Readiness provider (on-site, if necessary) to ensure all issues of noncompliance relating to the health, safety, and well-being of children in care are brought into compliance within the following estimated timeframes:
 1. Class I Violations should be corrected at time of inspection, or within the timeframe recommended by the inspection authority.
 2. Class II Violations should be corrected within seven (7) days of inspection, or within the timeframe recommended by the inspection authority.

3. Class III Violations should be corrected within 14 days of inspection, or within the timeframe recommended by the inspection authority.

All issues of noncompliance will be referred by DCF or the LLA to the early learning coalition for enforcement in accordance with the provisions of the School Readiness contract.

- C. Enforcement of disciplinary actions will be applied progressively for each standard violation. In addition, School Readiness providers will be offered technical assistance in conjunction with any disciplinary action. The early learning coalition must take into consideration the actions taken by the provider to correct the violation when determining the appropriate disciplinary action, as provided for in the Statewide School Readiness Provider Contract. Disciplinary actions for violations that occur within a two-year period will be progressively enforced as follows, unless the violation standing alone is sufficient to establish termination for cause:

1. Class I Violations

- a. For the first and second violation of a Class I standard, the early learning coalition must place the School Readiness provider's contract on probation status for a period not to exceed six (6) months.
- b. For subsequent and accumulated violations of the same Class I standard or for failure to comply with the terms of probation, the early learning coalition must consider terminating the provider's contract.
- c. Pursuant to s. 1002.88(2)(b), F.S., the coalition may refuse to contract with the provider or revoke the provider's eligibility to deliver the School Readiness Program if the provider was cited for a Class I violation.

2. Class II Violations

- a. For the first violation of a Class II standard, the early learning coalition must provide technical assistance.
- b. For the second violation of the same Class II standard, the early learning coalition must issue a corrective action notice identifying specific corrective action items to bring the School Readiness provider into compliance with standards within seven (7) days or within the timeframe recommended by the inspection authority.
- c. For the third violation of the same Class II standard or failure to comply with the terms of the corrective action notice, the early learning coalition must place the School Readiness provider's contract on probation status for a period not to exceed six (6) months.
- d. For subsequent and accumulated violations of the same Class II standard or for failure to comply with the terms of probation, the early learning coalition must consider terminating the School Readiness provider's contract.
- e. If a School Readiness provider receives a combination of four or more different class II violations within the same contract year, the early learning coalition may place the provider on a corrective action plan if the early learning coalition concludes corrective action will resolve the failure to comply.

- f. If a School Readiness provider receives a combination of five or more different class II violations within the same contract year, the early learning coalition may place the provider on probation. For subsequent and accumulated violations of the Class II standard or for failure to comply with the terms of probation, the coalition must consider terminating the School Readiness provider's contract.

3. Class III Violations

- d. For subsequent and accumulated violations of the same Class III standard or for failure to comply with the terms of probation, the early learning coalition must consider terminating the School Readiness provider's contract.
- e. If a School Readiness provider receives a combination of six or more different class III violations within the same contract year, the early learning coalition may place the provider on a corrective action plan if the coalition concludes corrective action will resolve the failure to comply.

6.3 Probationary Status

- A. If a School Readiness provider receives a combination of five or more different class II violations within the same contract year, the early learning coalition may place the provider on probation. For subsequent and accumulated violations of a Class III standard or for failure to comply with the terms of probation, the coalition must consider terminating the provider's contract. Probation may require the provider to comply with specific conditions intended to ensure that the provider comes into and maintains compliance with School Readiness Program standards. Examples of such conditions include: a deadline to remedy an existing violation; a specified period during which compliance with program standards must be strictly maintained; training or staff development; monitoring or technical assistance; and specified conditions under which the program must operate during the probationary period. Terms and written notification of probation must comply with the Statewide School Readiness Provider Contract.

6.4 Termination and Revocation of Eligibility

- A. The early learning coalition has the right to terminate a School Readiness provider's contract for cause at any time, pursuant to Statewide School Readiness Provider Contract.

- B. The early learning coalition has the right to revoke a provider's eligibility for health and safety violations for a period of five (5) years, pursuant the Statewide School Readiness Provider Contract for the School Readiness Program.
