Datum = NAD 1983, 1,000-m USNG

Notes:  
1. Surge limits are based on still water storm tide height elevation above NAVD88 at high tide with no wave setup.  
2. Total Storm Tide limits were derived from Maximum of Maximums surge heights over LIDAR based digital elevation.  
3. The Points of Reference are locations determined to be relevant to emergency management officials.
